LAWYER GROWS ELOQUENT IN DEFENSE OF CALHOUN

Masterly Argument for Defense Marked by Bitter Denunciation and Sarcasm Directed at the Prosecution.

SPECTATORS FIGHT FOR STANDING ROOM IN COURT

Sensational San Francisco Bribery Trial Approaches the Climax After Five Months; Defendant Still Cheerful.

(By Morning Journal Special Leased Wire)

San Francisco, June 16.—With men and women scrambling and wrangling for standing room in the court room, Patrick Calhoun's explanation of the bribery indictment against him was practically submitted to the jury tonight when A. A. Moore, senior of the six counsel for the president of the United Railroads promised to close his case during the first hour of tomorrow's session.

As the five months' trial approaches its close, dormant public interest is awakening to the point of eager demand and the behavior of the public at Carpenter's Hall today sorely taxed the patience of the dozen policemen stationed at the court room's entrance to regulate admission and preserve order.

A still greater crush is expected tomorrow when Mr. Moore concludes his address and the last of the arguments, that have now occupied three full days, is begun by Assistant District Attorney F. J. Heney.

A. A. Moore's argument which has already extended over a period of eight hours was pronounced tonight by adherents of both sides, a masterly review of the case. His power of denunciation his sarcasm and swift flights to classical allusions, evoked frequent murmurs of appreciation or laughter from an audience that exceeded in numbers any other attendance ever crowded into the hall, and while the speaker openly confessed the weariness his hearers felt, at the close of the long day the attendance had not diminished when the hour of compulsory adjournment arrived.

Referring to the activities of "spies and gumshoe men whom there have been 160" Mr. Moore said:

"Think of Mr. Spindlock, supported by a sturdy myrmidon, alighting his eye at a hole in a partition. Think of the gimlet holes bored in walls and the cracks in doors, and the peering above and under. Yet no man, either through crack in door or over transom saw Mr. Calhoun doing anything unlawful that has been reported here."

Mr. Moore then took the chief point in the case of the prosecution denying at the outset that any witness in the case had made direct declaration of guilt against the defendant.

Mr. Moore was particularly severe in his denunciation of James L. Gallagher, head of the board of supervisors.

"The top of his head does not emerge from the pit of corruption he has dugged for himself. If you knew a man who had added perjury to perjury had then turned informer and sworn his confederates into jail, would you return a dog to the pound on his testimony? Could you deprive a man of his liberty and honor on the same authority?"

Mr. Moore, declaring that hundreds of innocent lives were taken in the French revolution upon the reported statements of informers and, graphically describing the scenes in Paris during the reign of terror, said:

"And the knitters, poor misguided women, act by the highest of patriotism, act by the guillotine and knifed as the blood dripped from the beards. And they knitted when Madame Roland, a noble patriot, raised her white arms as she ascended the guillotine and said: 'Oh, liberty what crimes are committed in Thy name...'"

MYSTERIOUS SHIPS BEAR ARMS FOR VENEZUELA

Government Orders Agents to Cease Espionage Over Nanticoke and Dispatch.

Washington, June 16.—The mystery surrounding the steamer Nanticoke and the Dispatch was cleared up today when it was discovered by agents of the state department that the boats are not filibusters but were recently bought by the Venezuelan government. The department of justice has ordered its agents to stop observations and return to Washington.

DEATH CLAIMS WELL KNOWN RESIDENT OF HOLBROOK

F. M. Zuck, Past Grand Master of Arizona Masons, Passes Away After Illness Due to Paralytic Stroke.

(Special Dispatch to the Morning Journal)

Holbrook, Ariz., June 16.—F. M. Zuck, an old well known and highly respected citizen of this place died here today after an illness of several weeks. The deceased was past grand master of the Masonic Lodge of this territory and was noted as one of the most active and enthusiastic members of that fraternity.

The immediate cause of the death was heart failure due to a stroke of paralysis sustained some months ago. The remains will be interred here with Masonic honors on the eighteenth instant at which several of the lodges of the territory will be represented. The deceased is survived by a widow, two daughters and one son.

One daughter, wife of Professor Hough of the Smithsonian Institute at Washington, arrived here two days before the end came.

In the passing of Mr. Zuck this community loses one of its foremost citizens. In all that makes for moral advancement, the family a loving husband and a fond parent.

AMERICANS MAY BE LET IN ON CHINESE RAILWAY LOAN

State Department Reports Satisfactory Progress in Negotiations to Protect Rights of Financiers in This Country.

(By Morning Journal Special Leased Wire)

Washington, June 16.—Events are so shaping themselves in the matter of the proposed loan of \$27,500,000 on the Hankow Sze Chuen Chinese railway as to make the state department hopeful that the American group of bankers anxious to participate, will be allowed to do so.

Today a cablegram came to the department saying that the agents of the European bankers at Peking had advised their officials to permit the New Yorkers to join and a dispatch from Peking caused the officials to state that the administration was much gratified at the cordial reception which the German government had given to the proposals for American participation.

The German government's attitude toward the matter throughout has been extremely agreeable to the Americans. China was not aware of it, appears previously in the initiating of the loan in Peking on June 8, of the prior claims of the United States arising out of the promise made to Minister Conger in 1904. Germany, accordingly has been notified of the intention of American financiers to participate in the project. Negotiations with Paris and London are still going on through the foreign offices.

Meantime the rights of the American government are being increased on the Chinese railway office and the hope is expressed that no steps will be taken that will interfere with what the Washington government regards as an undeniable right of American financial interests.

Stomach Hero Becomes Life Saver.

Denver, June 16.—Captain Samuel Berg, who gained fame several years ago because of his heroic rescue work immediately following the Steam disaster has given a position of life-saver at the Denver city park.

Child Drowned in Aequia.

Fort Lupton, Colo., June 16.—The two-year-old child of Adama Ross this afternoon, drowned in a irrigating ditch.

Weston Makes Forty Miles.

BANKER MORSE IS RELEASED FROM TOMBS

TWENTY WEALTHY MEN SIGN BOND FOR \$125,000

Prominent New Yorkers Rally to Support of Convict Financier Whom They Profess to Believe Innocent.

(By Morning Journal Special Leased Wire)

New York, June 16.—Charles W. Morse, convicted banker was released on bail today pending the taking up of his appeal in October in the United States circuit court of appeals which either will order a new trial or affirm the sentence of fifteen years imprisonment imposed upon former ice king in November of last year.

The bail bond for \$125,000 was signed by twenty wealthy friends of Mr. Morse, who volunteered for this service several months ago.

"I am very glad for this," he said to these, "and now I have a busy four months before me. I am going straight to my home and take care of myself and my wife. There is a little planning to be done and we expect to go to the country for a short time until I can think it all out. Then I shall get back here and climb into the harness to pull all the tangled threads together again."

The order of the court admitting Mr. Morse to bail came as something of a surprise to his wife and friends, which it was handed down today. They have been working for his release since the early part of the year.

Mrs. Morse was with her husband in the Tombs when the news was received there and she spent one of the busiest afternoons of her life marshaling by her husband's friends and obtaining their signatures to the necessary papers in time to bring about his release before sunset. When the last signature was approved by the court, she smilingly conducted an impromptu reception in the federal building.

Morse was convicted of having misappropriated funds of his former chief bank, the National Bank of North America, in financial operations, which led to his being thrown into bankruptcy early in 1908. He was sentenced to 15 years in the federal prison in Atlanta, Ga. Since his conviction he has been in the tombs.

Morse was convicted of having misappropriated funds of his former chief bank, the National Bank of North America, in financial operations, which led to his being thrown into bankruptcy early in 1908. He was sentenced to 15 years in the federal prison in Atlanta, Ga. Since his conviction he has been in the tombs.

IMPLICATES SANTA FE MEN IN SMUGGLING PLOT

Witness in Chicago Trial Says Dining Car Men Were Bribed to Carry Chinese.

Chicago, June 16.—W. H. Clark, one of the conspirators in the alleged plot to smuggle Chinese into the United States from Mexico, who has already pleaded guilty to the charge, today testified for the government regarding his connection with the case. He told of conversations he had with dining car cooks in the Atchafalaya, Tapoka and Santa Fe railroad and of having paid them money, supplied by John Holtzell, another of the conspirators who has already pleaded guilty.

ILLINOIS PRIMARY LAW AGAIN DECLARED INVALID

Springfield, Ill., June 16.—The supreme court of the state today declared unconstitutional the primary election law. This is the third primary election law to meet a like fate. It was passed by the Forty-fifth general assembly. It is believed that certain Chicago politicians accused of election frauds will now be set at liberty as they were indicted under the provisions of the law which was declared unconstitutional today.

Heineze Arraigned in Court.

New York, June 16.—When F. P. Heineze, his brother Arthur P. Heineze and Carlos Warfield, a former director of the United Copper company were arraigned today to plead to the federal indictments against them, District Attorney Wise informed the court that he proposed moving for trial of the cases Monday next. The defendants pleaded "not guilty." Their plea was taken with leave to withdraw or demur by Friday of this week. Until then they were held in \$2,500 bail each.

FARBANKS TALKS TO JAP SCHOOL PUPILS

Tokyo, June 16.—Former Vice-President Farbanks was elaborately entertained yesterday by the governor of Kyoto while enroute to Kobe. The distinguished traveler received the address of the mayor of Osaka and at Kobe he was driven to his hotel in

the governor's carriage after being welcomed by the mayor and councilors. At Kobe Mr. Farbanks spoke before the assembled school teachers and the Christian girls' school.

SEATTLE SHOW STILL AFTER LIBERTY BELL

Philadelphia Hesitates to Allow Priceless Relic to Make Journey Across Continent.

Seattle, June 16.—President James McRea, of the Pennsylvania railroad, has been appointed agent of the Alaska-Pacific expedition in the negotiation with the city council of Philadelphia for the loan of the famous Liberty Bell as a exhibit. There has been opposition in Philadelphia to letting it leave the city. Mr. McRea, who was greatly impressed by the expedition has promised to use all his influence to obtain the priceless relic and will take personal charge of the negotiations.

JAPANESE DEPORT CHINESE LABORERS

Honolulu, June 16.—Dr. Thomas Greene who has been in Japan investigating the labor conditions, has returned to Honolulu. He reports the deportation of 200 Chinese laborers and artisans from Yamunuchi, capital of a prefecture in southwestern Japan for underbidding Japanese workmen. The deportation, declared Dr. Greene, was made under a secret decree which gives provincial government authority to expel undesirable persons from the province. The action, states the labor investigator, has established a precedent which was embarrassing the government at Tokio in dealing with the American immigration question.

DAYTON PREPARES TO HONOR WRIGHT BROTHERS

City Gaily Decorated for Celebration of Achievements of America's Foremost Aero-nauts.

(By Morning Journal Special Leased Wire)

Dayton, O., June 16.—Nearly everything in Dayton tomorrow will be decorated to look as much like aeroplanes and airships as possible. The occasion will be the opening of Dayton's two day celebration in honor of Wilbur and Orville Wright.

Daytonians are wondering whether the Wrights at the ceremony will respond as called for by the printed program. It is said on a former occasion Wilbur Wright got out of a similar situation by making a "speech" as follows:

Gentlemen: The only bird that talks is a parrot and he is not a good flyer. Wilbur and Orville apparently unconcerned with prospective diners and receptions today were busy packing equipment for shipment to Washington, where next week they are to resume flights for the government.

POLICEMAN WOUNDED BY DRUNK CRAZED MAN

Butte, Mont., June 16.—Police Captain William C. Taylor, was seriously wounded and John L. Williams, a drink-crazed cement worker was almost instantly killed today in a pistol duel after Williams had terrorized the neighborhood in which he lived by shooting at children and citizens.

Police System Criticized.

Buffalo, June 16.—The police system in the larger cities were severely criticized in the immigrant section of the National conference on Charities and Corrections today. It was suggested by Mrs. E. C. Runge of St. Louis that police chiefs now in convention here, send a delegate to the next year's charities conference.

CATRONS SUED FOR FIFTY THOUSAND DOLLARS

New Mexico Lawyer and His Son Defendants in Action to Recover Commission on Sale of Tierra Amarilla Grant.

(By Morning Journal Special Leased Wire)

Denver, June 16.—O. B. Cronin and Harlan E. Don Carlos, today filed suit against Thomas B. Catron of Santa Fe, N. M., and Charles C. Catron, to recover \$50,000 commission claimed to be due them in connection with the sale on June 1, of the Tierra Amarilla land grant. This tract comprises 138,000 acres in Southern Colorado and Northern New Mexico was sold in the Chama valley land company owned by John E. Andrus of New York, Thorpe Brothers of Minneapolis and R. J. Martin of Kansas City for \$10,000.

MENIALS TELL OF MISTRESS' MISDEEDS

TRYING ORDEAL FOR MRS. KATHERINE GOULD

Getting Drunk and Swearing at Servants Her Favorite Amusement, According to Witnesses in Divorce Suit.

(By Morning Journal Special Leased Wire)

New York, June 16.—Howard Gould did not go on the stand today to testify against his wife Katherine Clemmons Gould, whose suit for separation he is opposing. Instead, there was a continuation of the servant's gossip and accounts by means of their former mistress' eccentricities, humiliating details as sworn to on the stand, of Mrs. Gould's alleged fondness for alcoholic beverages and her language at such times when the witness said she was "under the influence of liquor" was ill-suited to a woman's tongue.

Indications are that the plaintiff must endure for another day, possibly for two, the embarrassing ordeal of listening to the testimony of former servants, all of whom have been called at the instance of her husband, to sustain, if possible, his contention that living with his wife was impracticable and unpleasant, hence that the charge of abandonment, the mainstay of Mrs. Gould's case is not tenable.

What Katherine Clemmons Gould heard today was but a reiteration and in some respects an amplification of yesterday's testimony, the facts of which was that at various times at Castle Gould, she had been intoxicated, had abused servants, given arbitrary and unreasonable commands and had used rather severe language in altercations with her husband.

Cochman Gardner, Emma, a chambermaid, and other servants swore to the demeanor of the woman who used to give them orders. At one occasion when she would arise from her carriage, but for the protecting arm of a coachman, her attempt to drive through a closed gate a time when a footman saved her from falling while intoxicated, as he testified were among the things alleged.

Mrs. Gould was greatly moved as she heard these declarations and she has evinced her intention of fighting bitterly in rebuttal against them. A carpenter, Herbert Trotter, was the last witness of the day. He said when he was working in the servants' quarters, Mrs. Gould rushed in and swore at the servants.

"Her voice was shaky and incoherent, her hair disheveled and she was very profane. She was decidedly drunk," said the witness.

"At another time she came into the stables while I was working there and swore at the groom and was very drunk. She tried to go up-stairs to the harness room, but could not negotiate the steps."

Trotter said he was ordered to go to Blue Gap farm, the Gould place in Virginia. On several occasions during the first ten days he was there, he testified he saw her intoxicated and heard her swear a great deal at the workmen.

"One night she came in from riding 'drunk,' drank the witness, 'and used me to abuse me and a man named 'Tony.' She said to me she wanted the big seven-foot hall clock moved and I told her I would have to get help and she said, 'Why I can move it myself.' She was staggering drunk. She grabbed the heavy clock and both she and the clock fell against the wall together."

"How many times do you think she was intoxicated during that ten days?" asked Mr. Shearn.

"Every other day," was the reply. Referring to a time when Trotter said Mrs. Gould fell off a chair and lay on the floor helpless, Mr. Shearn asked:

"Did you not put something in Mrs. Gould's coffee that night at Blue Gap farm?"

"I certainly did not," replied the witness.

"Did you not get Betty Foster, the colored girl in the kitchen to put something in her coffee?"

"No."

"Don't you recall that Mrs. Gould accused you of poisoning her at Blue Gap farm?"

back and discharge everyone in the stable. They were all reinstated soon afterward by Mrs. Gould. The witness declared that Mrs. Gould was intoxicated on this occasion in his opinion.

Mr. Shearn went over the terms of Carlson's employment at Castle Gould and got the witness to admit that he drove Mrs. Gould about a great deal and those were many times that she did not act or appear as if she had been drinking. Carlson said he met Mrs. Gould in 1908.

The court will take the matter under consideration and decide whether or not the allowance of \$5,000 granted sometime ago by Justice Blodgett is sufficient to recompense Mr. Shearn.

In his argument Mr. Shearn made it clear that the Gould trial will go on for at least a week more and probably will be dragged out for ten days. He declared that he had fifty witnesses ready to rebut the testimony of the defense.

CERRILLOS WOMAN WILL DIE FROM BAD BURNS

Mrs. James Coleman Has Clothes Burned Off and Body in Places Charred to Crisp While Lighting Fire.

(Special Dispatch to the Morning Journal)

Cerrillos, N. M., June 16.—Mrs. James E. Coleman was burned probably fatally here this morning when her dress caught fire as she was in the act of lighting the fire in the kitchen stove. While she did not inhale the flames, her clothing was entirely burned off and her body in places was burned to a crisp. Fortunately medical aid was at hand within five minutes and her sufferings were mitigated as far as possible. Little hope is entertained however for the recovery of the unfortunate woman and it is hardly likely that she will live through the night.

Degree for Baron Takahira.

Champaign, Ill., June 16.—Baron Kogoro Takahira, Japanese ambassador, addressed 354 graduates at the thirty-eighth annual commencement exercises of the University of Illinois today. Degrees were conferred by President James Th. Murray, degree of doctor of laws, was conferred upon the ambassador.

JAPANESE AWAIT DEVELOPMENTS IN HAWAII

Strike Situation Unchanged Pending Arrival of Answer to Request Sent to Ambassador Takahira.

(By Morning Journal Special Leased Wire)

Honolulu, June 16.—With the leaders awaiting a reply to their appeal to Ambassador Takahira at Washington to make the arrest of four Japanese editors and the seizure of their papers last week by the territorial authorities the subject of an international inquiry, there have been no further developments in the Japanese strike situation. Small groups of Japanese have returned to work unopposed. Many conferences were held today by the leaders whose preliminary examination on the charges of conspiracy will begin Friday morning. But aside from this there is no change in the situation.

Precautionary measures taken by the police, have not been relaxed, but so far there has been no indication of disorder. The authorities, however, are apprehensive that the arrival of the Japanese prisoners Aso and Soya in a few days from Seattle will be made an occasion for a demonstration on the part of the strikers. The mass of them, it is said, have been led to believe that the coming of Rear Admiral Fletcher's squadron has some bearing upon the strike situation.

Renewed threats, it is said, are being made against M. Sheeha, editor of a local conservative Japanese paper, who opposed the strike. He has requested the police to furnish him with a body guard.

BRYAN TO PERFORM STRENUOUS STUNTS

Fort Collins, Colo., June 16.—William Jennings Bryan will be called upon to perform a strenuous stunt of mountain climbing next week if he approves of plans outlined for him by the local Chautauque committee.

Mr. Bryan is scheduled for a lecture here Tuesday afternoon and the next day is to visit Grand Lake, Colorado on the opposite side of the continental divide. An effort will be made by the local committee to get Mr. Bryan to remain here for a night lecture.

If he agrees it will be necessary to make a hurried trip to Eldorado Springs the following morning and to make a climb of 1,500 feet up the mountain crags to the Craig station to catch the train on the Moffat road at 9 P. M.

TAFT MESSAGE HAS RIGHT OF WAY

DEEP INTEREST IN INCOME TAX RECOMMENDATION

Full Senate Present and Divisions Are on Strictly Party Lines for First Time in Many Weeks.

(By Morning Journal Special Leased Wire)

Washington, June 16.—The message of President Taft to the senate today recommending the incorporation of a provision in the tariff bill for the taxation of the earnings of corporations and the adoption of a resolution looking to an amendment of the constitution to permit the levying of an income tax without interference from the courts was regarded by senators as of such importance as to place in the shade all questions pertaining to the tariff schedule.

The message was reached early in the afternoon and referred to the committee on finance.

Senator Root occupied the chair when one of the president's secretaries appeared with the message, but owing to the fact that Senator Burton was at the time engaged in making a speech, the presentation of the message was delayed for some time. When Mr. Burton concluded, but not until after Mr. Hearst had addressed the chair to proceed with the discussion of the tariff bill, the message was read.

There was a full senate present and the document was awarded the most careful attention. Senator Gore attempted to have the committee instructed to report on the income tax feature of the message by next Friday, when under general agreement the income tax question is again to be taken up for consideration. His motion was, however, voted down and for the first time in many weeks the division was strictly along party lines, all the republicans voting to lay on the table, while all the democrats cast their votes against adjournment.

During the informal discussion of the reference of the message Senator Taft gave notice that he would demand that the provision be made for a graduation of any income tax that might be provided for and intimated that through a provision, which did not carry that qualification.

The senate adopted the finance committee's recommendation regarding the admission of Philippine products but not until after two or three amendments had been voted down. Senator Foster of Louisiana opposed the free admission of any Philippine sugar. He took the position that with the encouragement that would be given by allowing 300,000 tons of the Philippine product to come in free of duty, the production of the islands would be so rapidly increased that it would soon exceed the quantity named.

Senator Aldrich presented the finance committee's substitute for the home zinc schedules and it received a major portion of the attention of the senate during the afternoon. The committee adopted the amendment providing for a graduate scale of a duty on the zinc if zinc ore is placed by the final rate of the home bill.

Senator Burton spoke against any duty on zinc ore while Senators Heyburn, Guggenheim and others advocated even a stiffer rate than proposed by the committee.

All of the finance committee's recommendations as amended were finally adopted.

The committee's suggestion of the changes in the silk schedule were also adopted.

A number of other committee amendments of a minor character were presented just before adjournment and some of them were acted upon.

PRESIDENT TAFT'S MESSAGE ON INCOME TAX AMENDMENT.

Washington, June 16.—President Taft today sent to congress the following message on the subject of taxing corporations and an income tax amendment.

"To my inaugural address I called attention to the necessity for revision of the tariff at this session and stated the principles upon which I thought revision should be effected. I referred to the increasing deficit and pointed to the obligation of the farmers of the tariff bill to arrange the duty for an adequate income.

of adopting this amendment. While hope can speak with certainty on this point, I believe the majority of the people will favor vesting the national government with power to levy an income tax.

ZINC SCHEDULE AGAIN TAKEN UP IN THE SENATE. Washington, June 16.—After the Philippine amendment was disposed of by the senate today the zinc schedule of the tariff bill was brought up by Mr. Aldrich, who offered a committee amendment substituting a graduated scale of rates on the zinc ore in place of duty of one cent a pound as provided in the house bill.

SENATOR HEYBURN SCORES WASHINGTON NEWSPAPERS. Washington, June 16.—During his speech on the zinc schedule today Senator Heyburn of Idaho paid his respects to the representatives of the press. He was diverted from the regular path of his remarks by an editorial suggestion in a Washington morning paper that "an ad valorem duty on tariff speeches delivered in the senate" probably could not produce enough revenue to pay the senators' salaries.

PROGRESSIVES TO KEEP UP FIGHT FOR INCOME TAX. Washington, June 16.—The fight for an income tax will be continued. Five progressive republican senators, Messrs. Borah, Bristow, Cummins, La Follette and Chapp, conferred tonight to determine what their attitude is to be in regard to the income tax amend-

ment to the tariff bill in the face of President Taft's special message to congress today favoring the submission of the question to the states for constitutional amendment and the enactment of a law taxing the net earnings of corporations.

While they believe that the supreme court will sustain the law, yet to provide against any possible contingency that might result from an adverse decision, they gladly favor the proposition to amend the constitution.

"There is no reason for exempting from this tax the vast incomes of individuals like Carnegie, Rockefeller and others, a very large part of whose fortunes do not consist of corporate stocks. It is also well known that corporations, especially the large ones, can, in most instances, shift the burden of the tax to the public by imposing upon the people increase charges and prices."

SENATOR BROWN SCORES WASHINGTON NEWSPAPERS. Washington, June 16.—During his speech on the zinc schedule today Senator Brown of Idaho paid his respects to the representatives of the press. He was diverted from the regular path of his remarks by an editorial suggestion in a Washington morning paper that "an ad valorem duty on tariff speeches delivered in the senate" probably could not produce enough revenue to pay the senators' salaries.

WOODLING LOSES LABEL SUIT IN LAS VEGAS

PLAINTIFF SAYS COURT HAD FRAUDED HIM

Jury Instructed to Find for Defendant in Case Against Benigno Martinez Charged With Getting Money Falsely.

Special Correspondence to Morning Journal. Las Vegas, N. M., June 16.—The jury in the district court for San Miguel county this morning returned a verdict for the defendants in the \$5,000 label suit brought by Dr. M. E. Woodling against Court Clerk Secundino Romero and Enrique Salazar, publishers of "El Independiente."

Refuted Serious Charge. Dr. Woodling denied this insinuation of the counsel and produced six letters from prominent physicians of Minneapolis, to show that his character and reputation in the year 1904, when he left that locality to come to Las Vegas were excellent.

ANOTHER BUILDING BOOM HAS HIT CLOVIS

Fine Modern Business Structures Planned and Under Way; Fourth Railroad for Eastern New Mexico Town.

[Special Correspondence to Morning Journal] Clovis, N. M., June 15.—It appears that another great boom, for which the late seasonable rains are no doubt largely responsible, has struck this city and as a result, more first class brick business houses are under construction, and there are details and plans for more new ones that at any previous time.

At a recent meeting of the chamber of commerce at which a majority of the business men and realty holders were present, the proposition of the fourth railroad which is proposed by the Rock Island people as a connection between this place and the main line of the C. R. I. and P. at Tucuman, was discussed, but no definite action was taken. The late announcement that the Santa Fe extension from Clovis to Gatewater, Texas, via Coleman and Brownwood would be under construction within thirty days, since the contract for the division from Clovis to Coleman has been let to the H. C. Sharp Construction company, makes the third road for this place.

In addition to the several new one and two-story brick buildings that were announced in a late issue of the Morning Journal as building on North Main street and Grand avenue, plans are being submitted, and bids on some are being received, for six other beautiful one and two-story pressed brick buildings on North Main street.

Among the number are to be two handsome plate glass front, buff brick buildings to be built by T. J. Mabey of this city and Colonel Woodard of Mesquite. Just across the street are to be built, beginning within twenty days, four or five modern brick structures by Barry Brothers of the Barry Hardware company—John R. Anderson of the Clovis National Bank, who is already a very heavy investor in Clovis property, Bert H. Rogers who with a Mr. A. W. Melrose, is already erecting a splendid brick structure north of this location and across the street, and T. J. Stewart, John S. Adair and Mr. Cramer are to build together a one story brick on their lot just north and adjoining the property of the group just mentioned.

Sore Nipples. Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale by all druggists.

FATAL STABBING NEAR CARLSBAD

Native Musician Charged With Wanton Killing of Would-be Peacemaker in Drunken Row

[Special Correspondence to Morning Journal] Carlsbad, N. M., June 14.—A Mexican musician named Borego was caught at Lakewood this morning and placed in jail here charged with murder. He and some companions engaged in a drunken row late last night just outside of town. Santa Ana Chavez came by and tried to stop the fight, when Borego stabbed him in the breast and killed him. Chavez was sober and acted simply as peacemaker.

Little Interviews By Wireless

[Special by Greased Grapevine] Uplifted, Tex., June 16.—"I am now enjoying the simple life," said Abdul the Dandy with a comfortable sigh to the representative of the Morning Journal today. The erstwhile potentate was seated luxuriously on a divan with seven ducky attendants busily combing out his whiskers while a dozing attendant on the adjoining apartment indicated that his seventy-four wigs were at dinner.

70 Years with Coughs and Colds. We have had seventy years of experience with Ayer's Cherry Pectoral. That makes us have great confidence in it for coughs, colds, bronchitis, weak throats, and weak lungs. Ask your own doctor what experience he has had with it. He knows. He can advise you wisely. Keep in close touch with him.

STATESMAN OVER THE HEAD WITH POKERS

"As I was saying," continued Abdul, "there is nothing like relief."

"When are you going to buy a new carpet for the east bedroom?" deas with inquiring aim she landed a high heeled slipper upon the contemned another member of the harem lattice nose of the emancipated ruler.

The Big Head of two kinds—conceit and the big head that comes from a sick headache. Does your head ever feel like a gourd, and your brain feel loose and sore? You can cure it in no time by acting on your liver with Ballard's Peppermint Cure. Isn't it worth trying for the absolute and certain relief you'll get? Sold by J. H. O'Reilly & Co.

What's Doing in the Territories

Yes, N. M., now has a postoffice and is growing fast with five stores, a good hotel two lumber yards and other business establishments.

The First National bank of Hope, Eddy county, has been authorized to begin business with \$25,000 capital. W. L. Whitaker is president, H. White vice president, and H. M. Gage, cashier.

Governor Curry who arrived in Tulare last week in an automobile with a punctured tire, showed that he was a good fellow by buying two of the town lots in the new townsite of Monterey.

Silver City has raised a large sum of money for a Fourth of July celebration and there will be patriotism on tap that you can hear all over Grant county.

The following postmasters in New Mexico have been commissioned: Lloyd Taylor at Richwood, Edna J. Sprinkle at McAllister; Florentina Amador at Vallecito; Richard N. Lykins at Lykins, Roosevelt county. Olive is the name of a newly established postoffice in Conchos county. N. M. William H. B. Cloppert was named postmaster.

Charles M. Clark has been appointed postmaster at Cochran, Ariz.

HAS NATURE FAKING BEAT TWENTY BLOCKS

There is an accomplished bar over in Stanley in the Estancia valley who has the most blatant nature faker or member of the Ananistic organization beat a whole townsite. He sends the Morning Journal the following description of one of the new engines reported to be in use on the New Mexican Central:

YOU NEVER CAN TELL

Just exactly the cause of your rheumatism, but you know you have it. Do you know that Ballard's Snow Liniment will cure it?—relieves the pain—reduces the swelling and limbers the joints and muscles so that you will be as active and well as you ever were. Price 25c, 50c and \$1.00. J. H. O'Reilly & Co.

FORTY FOUR CLOUDY DAYS IN 1908 RECORD

Land of Sunshine Is Still Making Good According to Annual Summary of the Weather Bureau.

That there were only forty-four cloudy days in New Mexico in the year 1908 is the interesting statement in the annual summary of the weather for the territory for 1908 just issued by the director of the New Mexico section of the weather bureau in Santa Fe. The summary follows:

The mean temperature for the year 1908 was 52.9 degrees, as determined from the monthly averages, or 0.9 degrees below the normal. At all stations having records for ten years or more, with the exception of Albert, where the departure was plus 0.1 degree, the mean temperatures for the year were below the normal, varying from minus 0.1 degree at Fort Stanton to minus 3.9 degrees at Fort Union. The greatest deficiency in temperature occurred in the San Juan valley, the upper and middle Rio Grande valley, and in the mountains of the north-central section of the Territory. The highest annual mean was 62.3 degrees, at Corralito; the lowest was 37.6 degrees at Elizabethtown. The highest temperature was 116 at Orange, on June 21st, and the lowest was minus 21 degrees at Hockinson on January 16th. The first four months of the year were comparatively warm and pleasant. The mean temperature averaged about the normal, the departure was most noticeable during March. May was a cold month, with a mean of 3.8 degrees below the normal, and from June to November, inclusive, the mean temperatures averaged below normal. December was slightly warmer than usual.

The average precipitation for the territory, as shown by the monthly means, was 12.68 inches, or 1.49 inches below the normal. There was a deficiency over the greater portion of the Territory, ranging from 0.21 of an inch at Albuquerque to 7.15 inches at Cloudcroft; the slight excesses occurred in the San Juan valley, southern Taos and Rio Arriba counties, in northwestern San Miguel county, over the Continental divide in McKinley and Valencia counties, and over small portions of Grant, Dona Ana and Otero counties. The greatest amount was 24.36 inches at Winsor's, and the least 4.39 inches at Deming. The greatest monthly amount was 9.24 inches in August at Las Vegas, while at thirty-four stations no precipitation was recorded during one or more months of the year. The greatest total depth of snow during the year was 101.5 inches at Chama, while in the extreme southern portion only traces of snow fell.

There were, on an average, 218 clear, 104 partly cloudy and 34 cloudy days, and 45 days with 0.01 of an inch or more of precipitation. The prevailing direction of the wind was west.

Killing frosts occurred during the latter part of April and in May, and owing to the advanced condition of fruits and vegetation, considerable damage resulted, and in many localities crops were destroyed. In the fall freezing temperatures were general toward the close of September, and the unseasonably low temperatures caused some loss.

St. Louis, June 16.—James F. Harms, former government meat inspector in the East St. Louis packing houses will arrive Thursday to aid in the investigation of the charges, he made against the meat inspection service. Harms has been assured that the investigation will be open to the public.

Commencement Day at Pennsylvania. Philadelphia, June 16.—More than 600 graduates of the University of Pennsylvania received their degree at the 153rd commencement exercises today.

A Wreck is the only fit description for the man or woman who is crippled with rheumatism. Just a few rheumatic twinges may be the forerunner of a severe attack—stop the trouble at the start with Ballard's Snow Liniment. Cures the rheumatism, and all pain. Price 25c, 50c and \$1.00. Sold by J. H. O'Reilly & Co.

WOOL CALLS LESS EAGER; PRICES ARE FIRM

Sales in Boston Market in Past Week Seven Million Pounds; No Reduction in Sight as Yet.

While there is no shading of prices in any grade of wool, there is considerably less eagerness on the part of the manufacturers to buy wool in large quantities, although there does not appear to be a sign of any probable reduction in price. Sales of the week were 7,075,000 lbs., says the American Wool and Cotton Reporter. A post-careful study of wool conditions would seem to indicate a future of annual strength after the excitement of early buying, after the excitement of early buying has worn off, and the statistical position of wool seems to explain why this is likely to be the case. A condition has been made absolutely by the manufacturers and up to the present time it is the result of nothing but the action of consumers of wool, or rather a few consumers who have taken the high price and lost control of the raw material market in the meantime, and are now apparently at the mercy of the dealers and the growers, and they must pay the price.

Domestic Clip 300,000,000 Lbs. There has never been a question as to the position of wool, but there was no necessity of forcing up prices as was the case at the London sales and in some sections of the west, to a basis that is likely to prove burdensome in the future. Less competition would have secured ample supplies at lower prices, and the basis price would have been more satisfactory to everyone, but the growers.

It is probable that the domestic clip will run close to 300,000,000 pounds, and we will call upon foreign growers for at least 300,000,000 pounds, as more machinery will be in operation within the next three months that will call for wool, than ever before, and even allowing for the large quantities of cotton that will be used, it is conservatively estimated that American mills will call for 60,000,000 pounds of wool during the next twelve months.

Wool is now from 25 to 30 per cent higher, the scoured pound, than it was a year ago, and the question arises, will goods prices be put up proportionately, or advanced enough, allowing for the use of cotton to make good the higher price of wool. Some say yes and some say no, but with growing prosperity, plentiful crops and money at nominal rates, the signs all point to a complete return of public confidence, and if the price can be adjusted at the present range of raw material prices, it would seem as if no setback was likely.

The danger lies, as we have frequently stated, in the over-cutting of goods, and a few weeks ago there was fear of such a condition at present ranges it looks as if the manufacturers see their way to balance on good prices and can operate freely at present prices, but how much higher the public will stand for can only be learned by tests.

Dealers in Control. Perhaps, after all, the control of the market in dealers' hands may prove a blessing in disguise. If the manufacturers had a year's supply of wool on hand they could be price cutting on goods among themselves, and the goods market would be demoralized. As it is, they are practically bare of wool, and must buy the asking price for their goods, and few if any mills are operating on speculation or otherwise than on orders, so that the business done now and the forthcoming lightweight business will be taken at prices likely to show reasonable profits on present wool prices, and no one is in a position to do much price cutting. This works out the ideas of the big associations perfectly, and as long as the public will stand for it, no one interested objects to 80-cent or 90-cent wool any more than if the price were 50 to 60 cents.

The greatest danger is in substitution, but this is not so extreme as many would believe it to be, although the cotton yarn business is improving wonderfully. But in modern production there is a legitimate use for cotton, and so long as it is reasonable no harm is done.

New Machines Starting. The carded woolen mills are starting their machinery every week, and this branch is far more active than at any time within the past five years. With the demand increased for the clothing trade, and the worsted mills increasing their capacity not alone for combing grades, but for what were heretofore largely classed as clothing wools, there is little doubt that the present range of prices will hold and perhaps advance. It is now up to the dealers to use good judgment in maintaining prices, but not over pricing simply because they are in control of the situation, and then the future seems fairly well assured.

Affairs Lack Precedent. As an important factor put it last week, there is no precedent for the present state of affairs. We are presumably entering an era of unparalleled prosperity following a long period of depression. There is growth in population to consider first, and then the desires of the public to buy trifle fabrics of improved price, if not of quality, as sort of a reaction following retrenchment. This is purely a part of human nature, as positive as anything under the sun, and it is a foregone conclusion that once confidence is restored and pay envelopes grow larger there will be a much more free distribution of the public's money for luxuries and necessities, of which the products of wool are important.

Pulled Wools. There is very little to say regarding the pulled wool branch of the market, as the scarcity of desirable stock prevents very much activity, and such

SEMBRICH TO RETIRE IN THE HEIGHT OF HER TRIUMPH

Great Interest Shown in Albuquerque's Chance to Hear Great Artist on Her Farewell Tour.

The possible visit of the great Marcella Sembrich, compared to which which all other musical events sink into insignificance has aroused great interest in Albuquerque.

The retirement of Mme. Sembrich from the operatic stage has been by all odds the most noteworthy incident of the season just closed.

The admiration and love the people here witness in a demonstration of the like of which is not to be found in the annals of the American lyric stage.

"It shall not be told here how Mme. Sembrich carried herself through what must have been a painful ordeal despite the testimony which was borne to her of the people's appreciation of her marvelous gifts and lovely graces.

"The rendering of a song depends much upon the individual," declared David Blapham recently. "He must have thorough command of himself, as an actor would do even in the most moving moments.

"There is tremendous interest in Mr. Blapham's probable appearance in Albuquerque and every likelihood that the famous baritone will be welcomed by a large and enthusiastic audience.

CACTUS FACTORY IS THE LATEST

Kansas City Men Organize to Make Prickly Pear Fatten Livestock of the Great Southwest; New Cotton Gin Attachment.

Special Correspondence to Morning Journal: San Antonio, Texas, June 14.—Capitalists of Kansas City have taken hold of a new process recently discovered for the tanning of the various varieties of cactus especially the cholla and very abundant variety known as the prickly pear, this cattle food.

The prickly pear, which grows in rank profusion throughout the Southwest, contains as high a per cent of water as does the watermelon, and in addition is highly nutritious.

Stomach Trouble.

Your tongue is coated. Your breath is foul. Headaches come and go.

These symptoms show that your stomach is the trouble. To remove the cause is the first thing, and Chamberlain's Stomach and Liver Tablets will do that. Easy to take and most effective.

Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

Dr. Pierce's Favorite Prescription

Cures the weakness and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

It makes Weak Women Strong. It makes Sick Women Well. Honest druggists do not offer substitutes, and urge them upon you as "just as good." Accept no secret nostrum in place of this well-known remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. Is a pure glyceric extract of healing, native American roots.

TARIFF POLITICS IS WORRYING THE LEADERS

Big Men at Both Ends of Capitol Having Bad Quarter of an Hour's New Territorial Postmasters.

Morning Journal Bureau, 612 Munsey Building, Washington, D. C., June 14.

The politics of the tariff measure is beginning to give the leaders at both ends of the capitol building a lot of worry. They are just beginning to appreciate that large political results are hanging on the question of how the tariff is revised.

While it has all along been talked that a democratic house may be the outgrowth of the enactment of a tariff measure, it is only recently that there have been symptoms of a waking up to the facts that not merely the house but much more in its danger is in the hands of the republicans.

Delegate Andrews has introduced a bill giving pensionable status to United States volunteers who had rendered prior service to the Confederate States army, and for other purposes.

The following postmasters have been appointed for New Mexico of record: William H. Blackburn appointed postmaster at Fort Huachuca, Pima county, to succeed Mrs. Mary Farr, resigned.

Mrs. Annie McIntyre has been appointed postmaster at Gila Bend, Maricopa county, Ariz., to succeed Grace Walsh, resigned.

Charles M. Thosen was named postmaster at Cave Creek, Maricopa county, Ariz.

William T. Linville has been commissioned postmaster at Cave Creek, Maricopa county, Ariz.

HUGE WATER POWER FROM BIG LOCK ON MISSISSIPPI

Engineers Find That 15,000 Horsepower of Electrical Energy Can Be Developed Near St. Paul.

Special Correspondence to Morning Journal: St. Paul, Minn., June 14.—An exhaustive investigation just completed by a commission of government engineers acting with local officers of the government engineer office, city officials of Saint Paul and Minneapolis and prominent business men has demonstrated that 15,000 horsepower of electrical energy can be developed at the lower of the two new navigation locks on the Mississippi just above Saint Paul, by the expenditure of an

additional \$250,000. The governor makes the unusual proposition that it will permit the use of power at the lock, provided the two cities or other interests will bear the additional cost. That the power will be used is already settled. Whether it will be used by private power company or used jointly by the state of Minnesota and the two adjacent cities is a question which will be determined by a joint commission composed of three men named by Governor Johnson and three by each of the two mayors.

The government has completed one lock and dam, and partially completed the second, or lower of the two. To develop the power the second dam must be raised fifteen feet, utilizing present foundations and the work at ready completion. This will provide a thirty-foot dam, raising a large head of water and developing enormous power. The state is already interested and wishes a portion of the power for use at the state university near by the state agricultural school which is one of the largest in the United States and the state fair grounds. The government requires 1,000 horsepower, and the two cities of Saint Paul and Minneapolis have need of the balance.

The government's proposition, while it does not establish a precedent, is unusual and the proposed improvement will be the first of its kind in the northwestern United States. The investigations prove that the power can be developed at exceptionally low cost. The most important problem now to be faced are the division of the expenses and the division of power to be developed as between the government, state and the cities. The partnership in power while novel, has been proven feasible. The power plant when built will be only a short distance from Fort Snelling, an immense military post, and convenient both to the state institutions and to Saint Paul and Minneapolis. The government was represented in the conference by Major C. S. Mische, in charge of upper Mississippi river improvement work, Major Shunk, the engineer who supervised the construction of the locks and Major Bromwell of Milwaukee who had the assistance of Major S. W. Miller, U. S. A., and J. D. Du Shane, John Wadsworth and G. W. Froemen, government engineers from the Saint Paul office.

Henry Elliott Pickett, of Tombstone, Ariz., will graduate from the University of Virginia next week. M. A. Bickness, of Phoenix, Ariz., is in Washington, stopping at the New Willard hotel.

LEGAL NOTICES. NOTICE OF FORECLOSURE SALE. Notice is hereby given that, in pursuance of the authority conferred upon the undersigned, as a special master of the district court of Bernalillo county, New Mexico, by a decree of said court, made on March 6, 1909, in a cause wherein Summers Burkhart, Trustee, and Neil B. Field, were plaintiffs, and Caroline M. Childers, Gladys M. Childers, Agnes Childers, Edith Childers, and Carolina M. Childers, executrix of the Last Will and Testament of William B. Childers, were defendants, and which was brought for the purpose of foreclosing the lien of a deed of trust, will, on the tenth day of July, 1909, at eleven o'clock in the forenoon of said day, at the front door of the Postoffice in the city of Albuquerque, in the County of Bernalillo, and Territory of New Mexico, sell at public auction the premises hereinafter described, and all right, title, benefit and equity of redemption of said defendants, their heirs or assigns, for the highest and best price the same will bring in cash.

False Economy In Business. The suggestion that a merchant should, at times, discharge all his salespeople and endeavor to run his business with no one to make sales, or tell prospective buyers about the store's goods and service, would be met with positive refusal, and the man making such a proposition would be considered entirely lacking in business judgment. While no merchant in all this city would entertain the thought of so unbusiness-like action as dispensing with his selling force, there are storekeepers who do what experience teaches is equally bad policy—suspend all their advertising. When it is considered that a merchant's newspaper advertising is the only way many purchasers have of knowing what is offered, stopping advertising becomes actual extravagance under the false guise of economy. The logic that would influence a merchant to cease advertising because the returns were not always the same would determine him to discharge his salespeople because their sales were not always up to the highest point.

Discus Record Smashed.
Pittsburg, Pa., June 16.—By throwing the discus 146 feet 12 inches, and making 27 feet, 1-2 inches in a hop, step and jump Martin Sheridan broke the world's record at Remywood park here today.

Good Golf Score.
Los Angeles, June 16.—The Los Angeles country club golf team playing in the Tom Morris memorial match, today made a score of 43 holes down on par.

Morris Memorial Match.
St. Louis, June 16.—The Normandie Golf club team in the Tom Morris memorial match, today turned in a score of 96 holes down on par.

NATIONAL LEAGUE.

Chicago 3; Brooklyn 1.
Chicago, June 16.—Chicago's second successive world's championship pennant was hoisted today after a parade of both teams headed by a brass band. Just before reaching the top of the high pole, however, the rope pulley broke and the elegant emblem flew away back of the bleachers in center field. Ignoring the excitement, Chicago went in and won the game from Brooklyn.

McGraw Mixes With Player.
Pittsburg, June 16.—McGraw, manager of the New York Nationals and "Big" Raymond, the eccentric pitcher of the same club had a rough and tumble argument while on route from Cincinnati to this city today.

It is said that McGraw reprimanded Raymond for the latter's conduct in Cincinnati.

EL PASO BROWNS TO PLAY HERE JULY 3, 4 AND 5

Fast Pass City Aggregation Will Meet Grays in Three Game Series at Traction Park.

The El Paso Browns, recently organized, and probably the best team in the Pass City, will be here for a series of three games, to be played at Traction Park, July 3, 4 and 5. The team is composed of selected players, most of whom have been drawn from the minor leagues. The Albuquerque Grays will be the opponents of the Browns, and although the local boys admit they will have a job on their hands, they intend to go into it for all they are worth and make the visitors leave at least two of the games here. Efforts were made by Manager Dan Padilla, of the Grays, to bring the Trinidad team here for the series, but their dates are already filled. The Browns, however, is as fast a team as the Trinidad bunch, if not faster, and the local fans will see some real good ball playing here during the three games.

Buy Your Tickets Today.

Those who are counting on going on the excursion to Santa Fe Sunday are advised to purchase their tickets before noon tomorrow. Manager Padilla will make his report to the Santa Fe company at 1 o'clock tomorrow and the number of cars to be ordered will be based on the number of tickets sold by that time. A large number of tickets have been sold already and it is likely that the excursion will be a record-breaker.

DENVER WINS TOM MORRIS MEMORIAL GOLF TROPHY

Chicago, June 16.—From unofficial sources received tonight, it appears that the Denver country club, of Denver, Colo., had a safe claim on the Tom Morris memorial for which the first annual competition took place today in links of clubs in the Western Golf association.

The Denver players report a score of 16 down on par. Close behind them came the Annapolis country club of Pasadena, Cal., with 17 down.

The Inverness club of Toledo, O., scored 22; the Memphis, Tenn., country club, 23; the Kenmore club of Highland park, Ill., 25; and the Oakmont club of Pittsburg, Pa., 26.

Par for the Denver country club course is 75 1/2 and the distance is 6132 yards.

The Tom Morris memorial trophy was donated to the Western Golf association by Peter Dawson, of Glasgow, Scotland, in memory of Tom Morris, who for thirty-five years was a professional on the noted St. Andrews links and who played the game 75 years, being five times the British champion.

The conditions of the contest were made such as to give second rate players a chance and the annual trophy even is regarded as the most novel ever introduced in American golf.

Taft Defeated at Golf.

Washington, June 16.—President Taft was defeated in a golf match on the Chevy Chase links this afternoon.

In a foursome exhibition Clarence R. Edwards was his partner against Senator Bourne and Representative Goddard the president lost out by a score of one up.

Americans Also Run at Ascot.

Ascot, England, June 16.—The Royal Hunt cup handicap, a piece of plate valued at 200 sovereigns, with 1,500 sovereigns added, together with a sweepstakes of 20 sovereigns each, for three-year-olds and upwards, distance seven furlongs and 166 yards was won today by Dark Ronald. Arrangements were made and Christmas Day's third.

Remarkable Showing of American Horses.

London, June 16.—The predominance of American and British horses in the International horse show which came to a close yesterday was very evident and it has been further emphasized by the complete prize list of the winners on point of numbers, but a comparison of the number of winners to entries gives the Americans by far the best average.

In the championship let Americans took eight cups against Great Britain's eleven out of a total of 21. One went to Canada and one to France.

RACING CARS CLOSE TOGETHER AT GRANGER

Granger, Wyo., June 16.—The New York to Seattle racing car showman arrived at 5:45 this afternoon, and left an hour later. The Ford No. 1 arrived at 7:25 and left at 7:45. The machines are expected to reach Opal, 25 miles northwest, tonight.

SHAWMUT PASSES BOTH FORDS AT ROCK SPRINGS

Rock Springs, Wyo., June 16.—The Shawmut car, which reached here today after the Ford cars No. 1 and 2 left before them, departing at 12:25 p. m. Both of the Ford cars broke a wheel near Rawlins's crossing the railroad bridge and they were overhauled while here. No. 1 left at 3 p. m. and No. 2 at 3:20 p. m. The crews of all three machines were in good condition.

Johnnie Boxes at Philadelphia.

Philadelphia, June 16.—James J. Jeffries tonight boxed three one minute rounds with Sam Berger, his sparring partner. In a speech he said he would meet Johnson at the close of his theatrical engagement.

Ketchel in Denver.

Denver, June 16.—Stanley Ketchel, middleweight champion who is en route to California, from the east, to meet Billy Papke, arrived in Denver tonight. Ketchel will appear in an exhibition bout here Friday night.

Second Meeting of Professional Organization Will Be Called to Order in Commercial Club This Morning.

With dentists in attendance from all parts of the territory, nearly fifty in all, the second annual meeting of the New Mexico Dental Society, organized in Albuquerque last year will convene in the parlors of the Commercial club at 2 o'clock this morning. The morning session will be taken up with routine business, the reading of the reports of the various committees and receiving and balloting upon applications for membership.

The meeting will be called to order by President Frank N. Brown of Roswell and out of the local members will deliver a brief address of welcome to the visitors. An adjournment will be taken until 2 o'clock in the afternoon. Both this afternoon and tomorrow afternoon will be occupied with clinics. Another business session will be held tomorrow morning at which the election of the officers for the ensuing year will be the chief order of business.

The afternoon sessions will consist of the reading of papers of general interest, and practical demonstrations. Among the papers and demonstrations will be the following:

Dr. M. J. Moran, Deming, N. M., "The Societies Relation to Dental Law and Legislation."

Dr. E. A. White, Clovis, N. M., "Fracture."

Dr. L. R. Evelyn, Carlsbad, N. M., "Metabolism a Factor in Proctitis."

Dr. C. E. Worth, Las Cruces, N. M., "Delayed Detention."

Dr. J. J. Clark, Artesia, N. M., "Crisis Aetia, a Factor in Disease."

J. S. Huse, Walter, Okla., "Our Honorary Member."

Recollections of Former Meetings.

Dr. P. E. Olney, Las Vegas, N. M., "Some Ways of Doing Laboratory Work More Than Forty Years Ago."

Dr. C. E. Kelley, Albuquerque, N. M., "Our Large Abutments for Lower Anterior Bridge."

Dr. W. J. Armstrong, Roswell, N. M., "Method and Manipulation of Soft Tissues."

Dr. C. M. Harbison, Roswell, N. M., "Valuable Gum and Paraffin Inlays."

"Quick Method for Natural Bit and Shell Crown."

Dr. E. J. Alger, Albuquerque, N. M., "Mixing Investments for Inlays."

"Commented Fading for Bridges and Crowns."

Dr. P. S. Brown, Roswell, N. M., "Continuous Gum and Paraffin Inlays."

"The Dittmar" Cast Gold Shell Crown and Replanting in Pyorrhea."

Examinations Completed.

The New Mexico Board of Dental Examiners, which held a three days session, beginning Monday, yesterday afternoon completed the work of examining eight candidates for licenses to practice dentistry in the territory. The papers will be graded by the six members and the results of the examination will be announced either today or tomorrow.

Headquarters in Albuquerque.

Headquarters in Albuquerque, has severed his connection with the company and has been relieved by H. E. Italy, storekeeper on the Santa Fe main line between Topeka and Albuquerque. Mr. Italy assumed the duties of the office Tuesday. Mr. Custer has not yet definitely announced his plans, but it is understood that he has under consideration the acceptance of a position with the Southern Pacific company, as general purchasing agent, with headquarters in San Francisco.

TWO DEAD IN WRECK ON RIO GRANDE ROAD

The Morning Journal Special Leased Wire.

Denver, June 16.—Engineer Marcus Korin, was killed and Fireman William F. Christy was perhaps fatally injured this afternoon in a wreck on the Denver & Rio Grande railroad within the city limits. The engine of the train which was a load, tipped over, crushing its occupants. None of the passengers were hurt.

100-piece optional dinner sets, game sets, cake, fruit and berry sets, call and see them. Some new patterns in rugs and carpets just received. Get a blue flame stove and keep food without cooking. We have them. The Furniture Co. west and visit.

Midshipman John the Army.

Washington, June 16.—Midshipman William C. Koenig of Texas, who resigned from the naval academy with a view of securing a commission in the army and at the same time to avoid the prohibition against the marriage of midshipmen, has passed the necessary military examination, and will be appointed a second lieutenant in the coast artillery corps.

CUSTOMERS RESIGNS AS STOREKEEPER

BREAKS INTO JAIL ONCE MORE

H. A. Thomas, Alias John T. Walker, Finishes Vag Sentence Tuesday, and Is Arrested 24 Hours Later for Shoplifting.

H. A. Thomas, alias John T. Walker, evidently likes the brand of hospitality dispensed at the city jail. Tuesday afternoon he was given his freedom from that institution after serving a twenty-day sentence for vagrancy. At 4 o'clock yesterday afternoon he was arrested by Police Officer Alex Knapp, on a charge of shoplifting and will be tried in police court this morning for petty larceny. When arrested yesterday, Thomas, who had in his possession two pairs of trousers which he had "lifted" only a few moments before from the Racket store on Gold avenue, D. H. Boatright, of the Racket, identified the trousers and will appear against the prisoner today. Thomas was in the Racket store looking at various articles of men's wearing apparel, but left without making any purchases.

Thomas was arrested three weeks ago because he was peddling goods about town without a license. Most of the goods offered for sale were fancy dress patterns and suit clothes. A search of his room by the police resulted in the discovery of a quantity of valuable goods which Thomas was unable to account for. Efforts to connect him with robberies in the nearby towns were without effect and he was "tagged" for twenty days in order to hold him for delivery to the county jail. He was released Tuesday evening. After catching him at shoplifting yesterday, the police are now confident that the man is a professional pilferer and that the goods which he had in his possession when arrested yesterday were not stolen from one store or in one town, but picked up at various places. The man is an excellent judge of good stuff, the merchandise found on him three weeks ago being of a very fine grade.

French Method Adopted on Western Vanderbilt Course to Control Racers.

Crown Point, Ind., June 16.—Signal systems for the guidance of drivers were tried out by the Locomobile, Stoddard-Dayton and Apperson cars over the "Western Vanderbilt" course today. Ordinary means of signaling are useless to a pilot going at the rate of a mile a minute through the mist of dust and oil spray he must be made to see his signals without distracting his attention from his steering wheel. The system used today was imported from France and employs both numerical and arbitrary characters. These are placed on hill boards 20 feet high and are easily seen.

The boards are placed at curves where the cars are compelled to slow down, giving the driver and his machinist a fleeting chance to look. In that one glance he learns what lap he is on—a thing easy to lose track of in a hard jolting race—the speed he is making, his distance ahead or behind the leading car, what car ahead seems liable to slacken and whether, in the judgment of the race managers, speed should be increased.

Miller in his big Stoddard-Dayton made the first lap of the course in 25 minutes. Boutwine in a Knox made it in 26 1/2 minutes. A Chalmers-Detroit did the distance in 30 minutes. Wright in a Stoddard in 26 minutes, Matson in a Chalmers, 24 1/2 and Engelbrecht 23 1/2 in a Stoddard. Mattson made his second lap in 27 1/2. Denton in a Knox took but 24 1/2. Seventy and eighty miles were averaged in the best rounds over the straight away.

Do You Think Uncle Sam's Whiskey Test the Best?

Here is everything that your Uncle Sam requires of whiskey before he will place the little green stamp-over the cork of the bottle: That it pass the test of the U. S. gauger as coming up to the governmental standard of purity, being straight, 100 proof, full measure and aged at least four years. Here is the famous Cedar Brook test: Not only must all the requirements of Uncle Sam be met, but there must be quality supreme, a wonderful flavor, delicacy, smoothness, individuality. It must be aged from six to eight years. Only choicest selected grains and purest spring water used.

Wm. H. MURRAY'S Cedar Brook

Bottled in Bond

In short, must better the test of Uncle Sam. Compare the age. It will show you the difference in the tests. Uncle Sam requires four years, while Cedar Brook requires six to eight. It has the green stamp on every bottle, and it meets the Cedar Brook test, TOO. The world's best whiskey since 1847.

At all places where good liquor is sold.

D. A. MACPHERSON, President; W. E. BURKE, Editor; JAMES S. BLACK, City Editor; D. S. BOUCHER, Business Manager.

Entered as second class matter at the postoffice at Albuquerque, N. M., under act of Congress of March 3, 1879.

THE MORNING JOURNAL IS THE LEADING REPUBLICAN PAPER OF NEW MEXICO, SUPPORTING THE PRINCIPLES OF THE REPUBLICAN PARTY ALL THE TIME, AND THE METHODS OF THE REPUBLICAN PARTY WHEN THEY ARE RIGHT.

TERMS OF SUBSCRIPTION: Daily, by carrier, one month, \$4.00; Daily, by mail, one month, \$3.50.

Larger circulation than any other paper in New Mexico. The only paper in New Mexico issued every day in the year.

The Morning Journal has a higher circulation rating than is accorded to any other paper in Albuquerque or any other daily in New Mexico.—The American Newspaper Directory.

ALBUQUERQUE - - - NEW MEXICO

SUGAR IN ARIZONA.

After two or three unsuccessful attempts to get the machinery into working order Phoenix at last has a sugar mill that can and does make sugar.

We extend congratulations to our enterprising Arizona neighbors, and trust the time is not far distant when we will be able to give them an opportunity to reciprocate.

TO KEEP TAB ON THE KIDS.

All New York, and especially that portion of New York which has an interest, direct or indirect in the rising generation, is much stirred up over a new law of the state which provides that every boy and girl in the city, of school age, must be numbered and enrolled in the police books next fall.

Commissioner Bingham has reported to the board that it will require at least \$100,000 to make the first census of the city's children, and that it will then be necessary to create a new bureau in the department to take care of the records.

It is provided that the police commissioner next October shall make a census of all children of school age in the city. All statistics regarding the children must be gathered. To do this work in one month it is estimated that the services of several thousand men, acting as special policemen, will be required.

A child seen in the streets at any time during school sessions, will have to give his number to any policeman who requests it and furnish an excuse for being away from his classes.

Officials are confident that the system will not prove efficient because parents will fail to report removals and deaths. To keep the record accurate, it is believed the entire police force would be kept busy all the time.

At the time the bill was before the legislature it was estimated that the cost to the city would be about \$10,000 a year. Controller Metz has figured that the cost in the years the census is taken will probably be \$125,000 and about half that sum other years.

It was pointed out that if the system is to be of any use in preventing children leaving school before they reach the legal age it must have the hearty co-operation of all the policemen and parents.

Woman questions a boy or girl in the streets during school hours. If the child loses the card the policeman will have a problem to solve himself.

BETTING ON THE RACES.

Since the courts have had their turn at it the New York law against betting on horse races has no other effect than to prevent the race from being run in New York state.

As the matter stands at present, gambling at the tracks is in form much as it is in Wall street. The speculator reviews the list, learns the gossip of the stables, makes his choice and, almost as he might offer to buy wheat or sugar or Northern Pacific or Steel preferred, shouts his terms.

His suggestion of the value which science might find in the work of an observatory on Mount Kilauca is forcible. Kilauca is one of the most remarkable of Hawaiian volcano cones.

OBSERVATORY ON KILAUCA.

A special cable to the New York Herald from Honolulu states that Mr. Jagger, of the Massachusetts Institute of Technology, advocated the erection of an observatory on the brink of Mount Kilauca, the Hawaiian volcano.

THE WAR ON TUBERCULOSIS.

A peculiar and effective "side issue" of the general war that is being waged on tuberculosis throughout the country, is the "Blue Star" day which is now observed in many places.

Buying means conserving cost. Skill has a market value. Our shoes for Men, Women and Children demonstrate how to combine saving and skill—they give the most for their cost—in style, comfort and wear.

Men's High Shoes and Oxfords \$1.85 to \$3.00

Women's High Shoes, Oxfords and Pumps \$1.65 to \$5.00

Children's High Shoes and Slippers \$1.00 to \$2.75

to make the laws. The Taft plan, in its ultimate aim, means nothing less than the removal of the railroads from the working of the Interstate Sherman law.

Before this change in the law is made the administration is determined so to increase the government's power over railroads that no evil effects will follow the removal of the limits now set by the anti-trust law.

THE PRESIDENT'S PLAN.

President Taft has a plan for unifying and harmonizing the work of the department of justice, and the department of commerce and labor, with the interstate commerce commission.

THE BIG SUGAR FIGHT.

A great deal of interest has attached to the settlement out of court of the big suit—involving several millions—of the Pennsylvania Sugar company, against the American Sugar Refining company, commonly known as "the sugar trust."

FOR WOMAN SUFFRAGE.

Mrs. O. H. P. Belmont, who has recently figured prominently as an advocate of woman's suffrage, returned from London, and declares her belief that "women will soon have the right to vote in both England and America."

company obtained complete ascendancy. Whether or not it be true, says the Philadelphia Ledger, that the American sugar Refining company agreed, in case a compromise could be effected, to pay as much as \$2,000,000 in cash, and also return \$7,000,000 in securities, it is certain that an amount aggregating several millions was offered to the Pennsylvania Sugar company, and accepted.

The settlement, taken in connection with the payments recently made to the government on account of undervaluations is without any precedent in the history of American industrial corporations. The sugar trust has been compelled to make good various improprieties or alleged illegalities of conduct by payments aggregating about \$12,000,000.

FABLES FOR THE FOOLISH

There was once a Young Man who was deeply in love with six Fair Damsels at one and the same time. In order to make a Tremendous Hit with each Damsel and to receive a Continuous Ovation from Each one the Young Man determined to present his Lady Loves with a Series of Glorious Lids. After a Conscientious Canvass of Six Department Stores the Young Man selected Six Specimens of Lurid Headgear which he thought would be suitable to the Purpose and retiring to his room took a Bromo-Seltzer and wrapped his Sky Piece in a Damp Cloth. For the hats were of the Peach Basket variety and his Head was in a Whirl and his Eyes Ached.

The Six Fair Damsels each in Due time received their Joyous Upper Ringing and the Heart of each was filled with sentimental Tenderness toward the Enterprising Young Man.

Itself and make the Horrifying Discovery that each one possessed a Hat like the other Five.

The following evening the Young man called upon his Six lady Loves in succession. At the end of his Amorous Tour he was placed in a Hospital and is now under Medical Care.

When the first notes of "The Star Spangled Banner" were sung at the American College golden jubilee banquet in Rome, everybody in the hall, including the cardinals, rose to their feet, remained standing throughout the singing and joined in the chorus.

OUR POLICY IS QUICK SALE AND SMALL PROFITS.

SHOW YOU THAT WE CAN SAVE YOU MONEY ON YOUR GROCERIES. F. G. PRATT & CO., 214 SOUTH SECOND.

THE ENTIRE TERRACE ADDITION TO BE SOLD

The Terrace Addition to the City of Albuquerque, consisting of 504 fifty-foot lots, will be placed upon the market under the following terms and conditions

All Lots Will Be Sold at a Uniform Price of \$100.00 Each

No reservations have been made, every lot marked off the plat has been sold as shown by my sales book. \$10.00 down and \$10.00 a month for nine months without interest, or 5 per cent discount for cash.

There has been placed with the real estate dealers of Albuquerque plats of the addition with prices marked upon every lot, and these prices have not been fixed up for the occasion, but are the exact prices that have prevailed for the past ten months and from which more than \$30,000.00 worth of lots have been sold, in various parts of the addition.

Table listing lot locations and prices: On Central Avenue, \$3,125.00; On Gold Avenue, \$20,475.00; On Silver Avenue, \$26,050.00; On Lead Avenue, \$23,550.00; North side of Coal Avenue, \$12,175.00; All South of Coal Avenue, \$23,300.00; Total, \$107,675.00

If any lots remain unsold on December 1st, they will be numbered from the continuation of those sold, and such numbers will share in the drawing as though sold.

No building restrictions on any street except Silver Avenue. All Taxes will be paid for the year 1909. Purchasers will be furnished with a plat of the addition, with the prices marked thereon, and out of town buyers will be supplied, as long as they last, with a full size city map of Albuquerque, showing this valuable addition complete.

The Terrace Addition, on account of its proximity to the city, commanding elevation, and magnificent view of the river and valley for miles, will be in a few years the highest priced residence section of Albuquerque, and the lots are the best of an investment at the present map prices.

Gold, Lead, and Coal Avenue will grade into beautiful streets, and the lots on any of these streets are desirable. A new well and pumping plant to water the street trees and supply the addition is now being installed, and another well of much larger capacity will be dug during the coming winter.

The United States Government is now allotting its valuable lands by the drawing method, which is business-like and fair to all, and as this offer is of such decided advantage to the purchaser, these lots will not linger long, so hurry up with your ten dollars and get a contract, either from your real estate agent or myself.

M. P. STAMM

FINANCE AND COMMERCE

Table of stock prices including Wall Street, United States Steel, and various bonds.

BOSTON STOCKS AND BONDS. Closing Prices. Money—Call loans, Time loans.

The Metals. New York, June 16.—Copper declined to pounds 59 for spot and pounds 15 1/2 for futures in the London market.

Chicago Board of Trade. Chicago, June 16.—Wheat prices continued to sag on the board of trade today under the weight of an avalanche of bearish crop news.

St. Louis Wool. St. Louis, June 16.—Wool weak. Medium grades combing and clothing.

LEGAL NOTICES

ARTICLES OF INCORPORATION. KNOW ALL MEN BY THESE PRESENTS:

That we, Andrew A. Jones, Harvey B. Ferguson, James D. Hand, James G. Fitch and Owen N. Marron, all of whom are citizens of the United States and residents of the Territory of New Mexico, have associated ourselves together for the purpose of forming a corporation under the provisions of an Act of the Thirty-fifth Legislative Assembly of the Territory of New Mexico, entitled "An Act to regulate the formation and government of corporations for mining, manufacturing, industrial and other pursuits; approved March 15, 1905."

The principal place of business of said corporation is in the City of Albuquerque, in the County of Bernalillo and Territory of New Mexico, and in Rooms 1, 2 and 3 in the State National Bank Building and Owen N. Marron is the name of the agent in charge thereof and upon whom process against the corporation may be served.

The objects for which this corporation is formed are as follows: 1. To acquire and take over by purchase or otherwise, the publishing and printing outfit, including type-setting machines, presses, type and printing and publishing paraphernalia of every name and nature owned by "The News" and Felix Martinez, of El Paso, Texas.

To do a general printing and publishing business. As subsidiary to and in furtherance, but not in limitation of the powers conferred by the acts and laws of New Mexico or of the objects hereinafter set forth, I hereby expressly provided that said corporation shall also have and exercise the following powers, to wit: a. To do any and all things herein specified as objects, purposes and powers to the same extent and with like force and effect as a natural person might or could do the same, and so do in any part of the world as principal agent, contractor, trustee or otherwise.

To acquire by purchase or otherwise the good will, trade marks, trade names and all other rights and interests in or pertaining to any business, and to assume entirely or in part, the payment of the debts and liabilities of any person, firm, association or corporation, and to pay for the property, assets and rights of any such person, firm, association or corporation in cash, stock of this corporation or with its bonds or with the stocks or bonds of other corporations, persons, firms or other associations, or with other property or otherwise.

LEGAL NOTICES.

be not less than three, nor more than nine, as the stockholders may by the by-laws direct, and the names and residences of the Directors who are appointed for the first three months after the organization of the corporation.

LEGAL NOTICES.

In furtherance and not in limitation of the powers conferred by statute, the Board of Directors are authorized: To hold their meetings, to have one or more offices, and to keep the books of the corporation within or without the Territory of New Mexico, at such places as may from time to time be designated by them.

To determine from time to time, whether, and, if advised, under what conditions and regulations the accounts and books of the corporation shall be open to the inspection of the stockholders, and the stockholders' rights in this respect are and shall be restricted and limited accordingly, and no stockholder shall have any right to inspect any account or book or document of the corporation, except as conferred by statute or authorized by a resolution of the stockholders.

To make, alter, amend and rescind the By-Laws of the corporation, to fix, determine from time to time and vary the amount to be reserved as working capital, to determine any surplus or net profits, and to authorize and cause to be executed, mortgages and liens upon the real and personal property of the corporation, and to exercise all the powers of a corporation.

By resolution passed by a majority vote of the whole Board, under suitable provision of the By-Laws to designate two or more of their number to constitute an executive committee, which committee shall, for the time being, as provided in said resolution, or in the By-Laws, have and exercise any and all powers of the Board of Directors, which may be lawfully delegated, in the management of the business affairs of the corporation, and shall have power to authorize the seal of the corporation to be affixed to all papers which may require it.

The Board of Directors and the Executive Committee shall, except as otherwise provided by the By-Laws, have and exercise any and all powers, viz: A resolution in writing, signed as affirmatively approved by all the members of the Board of Directors, or by the majority of the executive or other committee, and thereafter with original or with duplicated signatures inserted in the recorded minutes and properly filed, shall be deemed to be action by such Board or such committee, as the case may be, to the extent therein expressed, with the same force and effect as if the same had been duly passed by the same vote at a regular convened meeting.

Subject to the foregoing provisions the By-Laws may prescribe the number of Directors to constitute a quorum at their meetings and such number may be less than a majority of the whole number. The corporation reserves the right to amend, alter, change, or repeal any provision contained in this certificate in the manner now or hereafter prescribed by statute for the amendment of the certificate of incorporation.

For sale by all Grocers
Missionary society of the Presbyterian church will meet this afternoon at the residence of Mrs. W. N. Caine, 714 South Walker street at 2:30 o'clock.

Mr. and Mrs. P. L. Williamson accompanied by their two daughters and Mr. and Mrs. W. W. Wellman and two children of Corpus Tex., left last night for Los Angeles and other California points to be gone several months.

William D. Tipton of the United States Indian service returned yesterday from a trip to Zuni and the Black rock district. Mr. Tipton reports that work has been resumed on the ditch system of the Zuni irrigation project.

OUR WORK OF LAUNDRYING ON LADIES' COLLARS, SHIRT WAISTS, SKIRTS AND DRY CLEANING IS UNSURPASSED. IMPERIAL LAUNDRY, BACK OF POSTOFFICE.

MAY CHANGE ROUTE OF FLAG TO FLAG RACERS
Mexico City, June 16.—M. H. Wallgren of Denver, Colorado, organizer of the flag to flag automobile race to be run between Denver and Mexico City, said tonight that the date would be changed from the first of next year to November of this year.

RIO GRANDE RUNS AMUCK IN THE PASS CITY

Fourteen Feet, Five Inches at El Paso and Valley Flooded; Not Dangerous Stage at This Point.

Reports from El Paso are to the effect that the Rio Grande at a stage of over fourteen feet is on a good old-fashioned rampage and doing great damage. The river at Albuquerque is at a fairly high stage but not as high as it has been this season and no danger is apprehended here.

Thousands of Dollars Damage. The river continues to rise and today and tomorrow it is expected to go from one to two feet higher than at present. Heroic efforts are being made up and down the valley to protect the lowlands. Already thousands of dollars damage has been done to crops and lands which have been eroded away by the rushing waters.

Damage in the Valley. Down the valley the damage is said to be the greatest in years. From the region below Washington park on down to the mouth of the river, some of it is being washed away. At a meeting of the county commissioners yesterday afternoon Judge Ely and J. J. Smith were named to investigate conditions. They will go down the valley and see what can be done toward saving the land most in danger.

REFUSED TO PLEAD GUILTY AND IS CONVICTED
Melsando Armijo Has Opportunity to Get Out of Scrape by Paying Court Costs But Fails to Take Advantage of It.

The minor criminal docket of Sandoval county court was cleared up yesterday afternoon by a conviction in the case of the Territory versus Melsando Armijo, charged with assaulting his sister-in-law, Ophelia Mora, while armed with a deadly weapon. Armijo was acquitted by Judge Abbott and given his choice of pleading guilty and being released upon payment of the court costs, or standing trial. Upon the advice of his attorney, Armijo pleaded not guilty. The case then went to trial, being prosecuted by District Attorney George S. Klock. Armijo was found guilty after the jury had been out a short time, and was sentenced to pay a fine of \$100 and costs by Judge Abbott. The trouble between Armijo and Mrs. Mora was the result of a family quarrel.

serve one year in the penitentiary, sentence being suspended upon payment of court costs. Maximo Martinez, convicted of assault with a deadly weapon upon the person of a man named Corvada in a dispute over the possession of a tract of land, was sentenced to serve six months in jail. Sentence was suspended, however, upon payment of the costs. Martinez is quite an old man and as there were a number of points in his favor the court was lenient in passing sentence. Nicholas Abail, a Sandoval Indian, convicted of stealing a horse, was sentenced to pay a fine of fifty dollars and serve fifty days in jail. Abail was brought here last night by Under-sheriff J. J. Sheridan of Sandoval county and placed in the Old Town jail.

The case of the Territory versus Emiliano Sandoval and Albino Garcia, charged with the murder of Juan Valdez, was not called for trial yesterday, owing to the absence from court of Attorney General P. W. Clancy, who was called to Santa Fe on important business. Mr. Healey, who has been retained as special counsel to assist in the prosecution, was present, but no definite date was set for the case until the further appearance of Mr. Clancy. It is quite likely, however, that it will be taken up upon the completion of a civil case which will be taken up this morning, and which will consume about two days in the hearing.

SALE OF BASEBALL GOODS
You all know there is one price on standard baseball goods. No dealer does cut the price on regular goods. We, however, have bought in two Sample Lines of Catchers' Mitts, First Base-men's Mitts, Fielders' Mitts, Fielders' Gloves, Catchers' Masks and Baseball Bats. We are selling the whole lot at one-third less than you can buy them any other time or right where they are manufactured.

"There's a Reason"

SOME years ago a famous specialist and expert in nervous diseases made some experiments to see what effect clothes had on the minds of his subjects.

He found that badly fitting or shabby clothes were more or less depressing; that if he put a man into good clothes, well-fitting, good style, of good quality, the whole man was "toned up," felt better, worth more to himself, to his work, to the community. It was clearly proved that clothes are an intellectual and moral force.

REMARKABLE WORK IN PEN AND INK
Memorial to Archbishop from St. Michael's Church Attracts Much Admiration in Matson's Window.

TERRACE ADDITION SALE OF LOTS IS UNIQUE
Interesting Plan of Mr. Stamm Whereby Valuable Property Is Sold on Remarkably Easy Terms.

There is an exhibition in the big window of Matson's book store a remarkable piece of pen and ink work by Brother John of St. Michael's college which has attracted a great deal of admiring comment from the public. The production is in the form of a memorial to Archbishop Pilgrimage from the brothers, students and alumni of St. Michael's college, in Santa Fe, with an elaborate decorated border showing various old buildings in Santa Fe with a portrait of the archbishop at the top which is a masterpiece of artistic portraiture in ink and a masterpiece.

As will be seen by an advertisement in this paper, M. P. Stamm has inaugurated a remarkable sale of valuable city lots in the Terrace Addition, the big residence section laid off at an expense of many thousands of dollars on the high ground just east of the Highlands on the extension of Gold and Silver and Lead avenues. There are 594 lots to be sold under Mr. Stamm's plan, every one for \$19 down and \$16 a month for nine months—\$166. The lots according to Mr. Stamm, range in value from \$150 to \$400 or better and there appears to be little doubt that the purchase of lots in this coming well residence section at this low price will be an investment in a thousand. No interest is charged and five per cent off the spot cash is offered. Mr. Stamm's plan is to give a receipt for any one of the 594 lots when the \$19 payment is made, the lots to be apportioned by a drawing after the fashion of the United States government lands by December first, 1901. Thirty thousand dollars worth of lots have already been sold in the Terrace addition. A new well and pumping plant for water supply is now being installed in addition to the already large plant with water piped to every lot. The location of the Terrace addition lots is magnificent, with a splendid panorama of mountain and plain and valley and city before the eye.
