Household Selection Procedure

Start your walk pattern from the starting point indicated on the EA map. For each interview start walking in a different direction from the starting point. In other words: for the 1st interview walk in a northerly direction from the starting point, for the 2nd interview walk in the direct opposite direction (i.e. South), for the 3rd interview go at right angles to the direction of the 1st interview (i.e. go East or West), and for the 4th interview go in the direct opposite direction to the 3rd interview (i.e. East if you went West in the 3rd interview, or West if you went East in the 3rd interview). Use an interval of 10 houses between your starting point and the first house that you visit. If a call is unsuccessful, use the table below to record your progress until you make a successful call. Circle a code number for unsuccessful calls only. Continue walking and going to every 10th house until you have a successful interview.

Kish Grid: - For Interviewer Use

Look up the final digit of the questionnaire number in the row and the number of eligible people in the household in the column. The number in the cell where the column and row meet is the person to interview. For example, if there are 3 people in the household aged 15 years and older and the last digit on the questionnaire is 8, interview the last person on the list (i.e. the 3rd youngest).

Last digit of questionnaire	Eligible People in the Household
