
Singapore : Permit Exemption for Export By Air Increased to S\$1,000

June 2013

On 26 June 2013, Singapore Customs issued a circular on permit exemptions for exports not exceeding S\$1,000.

At present, under Singapore's Regulation of Imports and Exports Regulations (RIER), exporters are required to apply for a permit prior to the export of goods. However a permit is not required for non-controlled and non-dutiable goods exported by air if the total value of the goods does not exceed S\$400.

Effective from 1st July 2013, this threshold will be increased to S\$1,000. This is to facilitate industries that require rapid turnaround time for air cargo.

It is important to note that a permit will still be required prior to the export of goods removed from approved licensed premises regardless of the total value of such goods.
