Entry Level

Bright, durable and simple to use.

These multi-purpose meeting room projectors are an economical option. Notable for their reliability and ease of use, they also feature a money-saving Eco Mode that cuts power consumption and extends lamp-life by 33% for a low total cost of ownership.

Short Throw

Short Throw projectors for maximum flexibility.

The Ricoh PJ X4240 series make lessons and presentations more engaging and memorable. Combining short throw lenses and a ground-breaking 'Rear Front' design, the network projectors bring a personal touch to learning and collaboration.

Desk Edge

Desk Edge projectors for better meetings.

The Ricoh PJ X3340 series is designed to make meetings more productive. In addition to the benefits of table front operation, the projectors offer outstanding image quality and ease of use.

Ultra Short Throw

The PJ WX4141 series gives you flexibility and freedom of expression.

Combining a space-saving upright design and Ricoh's innovative free-form mirror system, the PJ WX4141 series bring cutting edge projector technology to the smallest spaces.

Standard

The all round, high quality digital projector.

The Ricoh PJ X5361N / PJ X5371N are supremely versatile projectors. Extensive connectivity options and powerful management features combine with outstanding image quality and great ease of use to satisfy the diverse needs of private and public sector organisations.

High End

These powerful installation projectors are tailor-made for large spaces.

The Ricoh PJ X6180N / PJ WX6170N combine versatile connectivity with the ease of use and simple management demanded by businesses, schools, universities, hospitals, museums and conference centres.

Entry Level

Bright, durable and simple to use.

This range of lightweight and compact projectors combines all the advanced functionality, reliability and value for money you expect from Ricoh.

While small, these projectors pack a big punch with 3,000 lumens brightness (3,100 for WX2240), high contrast levels and long lamp life. Designed to be durable and simple to use, these versatile projectors are easily carried for set up in any convenient location.

Short throw lenses and Ricoh's ergonomic rear-front design ensure that your audience focuses on the message not the medium. Even in small and well lit rooms.

Thanks to the projectors' time-saving automatic controls and easy management, you can do the same. Images are automatically adjusted to remove any distortion and optimised to suit ambient light levels. There is even a built-in timer to ensure lessons and presentations don't over-run.

For maximum flexibility, the projectors can be ceiling or wall-mounted and are future-proof, with support for 3D and interactive presentations.

Every aspect of the PJ X3340 series is designed to make meetings more productive. In addition to the benefits of table front operation, the projectors offer outstanding image quality and ease of use.

Its 3000 lumens output makes the projectors suitable for all meeting rooms, from the smallest to the brightest. Models with wired and wireless networking add even more flexibility.

So that they continue to meet your evolving needs, the projectors are 3D-ready and enables interactive presentations. Ricoh's optional interactive kit turns the projection surface into an interactive whiteboard for enhanced collaboration.

Suitable for ad hoc or planned use in medium-sized meeting rooms and classrooms, they have a quick start of 3 seconds and helpful on-screen prompts so that even novices can start presenting immediately.

Impressive ease of use extends to the network management features, while automatic image correction and vertical lens shift make installation quick and easy.

Reliable, cost-effective projectors for all your presentation needs.

This new family of projectors from Ricoh are compact, offering you a cost-effective solution for presentations. Convenient features make the projectors simple to use in any office location. A 4000 lumens output provides high brightness and vivid colours for comfortable viewing. The robust design makes these projectors durable and reliable, needing only minimal maintenance from you. The EcoMode ensures long lamp life cutting replacement and energy costs.
