# Hello

It is ten years since Jean and I sent out our first daffodil catalogue. Each year we have sent out more daffodils than the year before and have substantially improved our collection of varieties. Unnamed and named seedlings have been bought from leading breeders at home and abroad to grow alongside our own seedlings. We would like to thank all our friends and customers for their support and to thank everyone who commented favourably on our 1968 catalogue. We hope you enjoy this one. You will find an index at the back.

## 2 for the price of 1

A new experimental feature are our half-price collections. After careful analysis of past orders to find the most frequent size of order, the value of bulbs most usually ordered, and the types most favoured we have worked out collections suitable for most customers. By cutting the price in half we hope to encourage a lot of customers for these collections and help us partially streamline the dispatching of our bulbs, the slowest of all the operations in our year. We grow approximately half a million bulbs, each bulb has to be selected from the six to seven hundred named kinds we have and is cleaned, inspected, bagged, labelled and packed.

These are the three main collections:

## GORDON HARRISON AND HIS DAFFODILS

I am delighted to have the opportunity of introducing some of Mr. Gordon Harrison daffodils. Mr. Harrison is a retired nurseryman, and a plantsman of wide knowledge and deep understanding. He grows his plants and daffodils in Northumberland in the fine country above Newcastle over which Scots and English fought for centuries. He has been growing and raising fine daffodils for many years. For the past few years he has come down to the Harrogate show and with gentle modesty taken all the prizes for the classes he entered. His immaculate flowers have all bourn the hallmark of the finest quality. This year we introduce his poet Otterburn, that should make a big impact and have a great future as one of the tiny number of poets introduced since the war. Happily it is a strong plant making a larger, healthier bulb than most poets. We have growing here Gordon Harrison's lovely Yeavinger Bell, a white trumpet in the Cantatrice or Vigil tradition that has made knowing eyes envious at Harrogate. Riding Mill is another show flower of exquisite quality, this time a 3B.

HEARTS DESIRE

## 1969 INTRODUCTIONS

4

### HEARTS DESIRE 3 JLR Gay Time x Salmon Trout

King-size giant circular double in pure white and bright lemon. Very broad smooth outer petals, very neatly arranged inner ones. Distinct in colour and character. Plant bursting with energy to deliver tall strong flowers of finespun quality. Heavy artillery for the show-minded. £25, \$60 each

4

### BIG BOY 3-4 JLR Gay Time x Arbar

Sister seedling to the Award of Merit Acclamation which was recognised last spring as one of the finest daffodils yet seen. Some leading growers suggested that it was the best double yet. Big Boy is a similar flower but its thick rounded petals are an ivory white, whilst the intermixed smaller segments are a bright orange red. It is a tall strong plant with stiffly erect foliage. £3, \$7.50 each

2C

### BLUE BIRD 3 MJB

We have grown this seedling for some years and use it as the standard for whiteness. It is the whitest crowned flower we have, the vivid white crown being dazzling blue-white like snow with the sun shining on it from a clear blue sky. The perianth is of wide oval petals. A group in the garden is going to look wonderful, and one bulb soon grows to a group as it increases fast. £5, \$12 each

## 1969 Introductions

2B

### DANCING PARTNER 3 MJB

Rose of Tralee x Passionale

A polished flower with oval pointed petals held flat away from a trumpet crown of pink untouched by any orange. Free flowering nice plant with obvious Rose of Tralee blood. Quick to increase. £3, \$7.20 each

2A

### FEELING LUCKY 2-4 JLR Patagonia x Firecracker

Extraordinary flower and plant. Unfurls deep golden perianth around a wide orange crown. The orange turns richer, deeper, more glowing fierce scarlet each day. The scalloping of the expanded crown makes Feeling Lucky most distinct and pleasing, the scalloping is done boldly and gracefully in the very best taste. However, it could be argued that an even more important characteristic is the long life of the flower. This long life it combines with a parade ground stance so that the very most is made of the golden and scarlet pagentry all its time. Feeling Lucky is bound to be an important garden and cut flower from now on. *Ill. front cover.*

£35, \$84 each

1A

### LEMON CLOUD 203 MJB Spellbinder x Moonstruck

Clouds of lemon emanate from an explosively vigorous free-flowering bulb. Wide triangular long pointed petals at right angles to a long trumpet narrowly tailored but slightly expanded at the mouth. Not smooth enough for the highest exhibition work but a delicious cool character flower in the garden. £5, \$12 each

2B

### MY MY 3-4 JLR Salmon Trout x Rose Caprice

My, my, what a flower! Strong bold pink. Circular perianth of thick strong white petals. Large crown flanged and coloured solidly with rich glowing pink starting buffy. Tough plant. £10, \$24 each

9

### OTTERBURN 5 Harrison Actaea x Cantabile prob.

It must be an age since a new poet of any significance was introduced, yet poets retain their hold on the affections of gardeners. Very few poets are good commercial plants, Otterburn is an exception, a very strong, fast increasing one of very attractive character. Large flower for a poet, very good smooth quality in rounded snowy petals and a large primrose eye rimmed brightly in red. An excellent show flower. £5, \$12 each

2B

### PROMETHEUS 3 JLR Kilworth x Norval

Prometheus, after taking time out to make man from clay, stole fire from Olympus and taught men how to use it. Here we have a glorious flower with fire in its crown. Large show blooms of superlative quality and substance. Pure white perianth at least 4 in. across composed of amply overlapping polished petals. An expanded crown is rich scarlet red and precisely serrated at the brim. One of the deepest reds and most brilliant show of flowers we have. £15, \$36 each

2B

### ROMAN TILE 3-4 Johnstone

Unusual and pleasing. Blue white snowy perianth of rounded petals. Wide quite deep bowl of shining rich primrose ribbed with rich deep pink. Unlike any other variety we know. High gloss finish. £15, \$36 each

2A

### SPELTER 2-4 JLR Royal Mail x Red Goblet

This fine strong plant and magnificent flower will set your garden alight in spring. It has featured in the breeding of some of the new top flight yellow reds. It is itself a grand daffodil, the flower being large, strong in substance, fine in texture, and an inferno in colour. Broad petals hammered flat in shining golden metal around a broad large furnace of incandescent scarlet. The plant looks strong and is strong, hence the low introductory price as it has grown into a grand stock. All will want it.

7/6, \$1 each; 75/-, \$9 doz.; £25, \$60 a 100

## 1969 INTRODUCTIONS COLLECTION

1 bulb of each of 10 1969 novelties for £75 \$180

**NARCISSUS PANACHE**

F.C.C. 1967

**PANACHE 2-3 GLW (Courage x Broughshane) x  
Empress of Ireland FCC 1967**

Panache is a white, white trumpet. It is a large flower of faultless show form, carriage, and quality. It is clearly the best 1C yet seen and is bound to hold its place for years to come. The greatest advance yet in quality, reliability, and character. Excellent bulb and plant. **£40, \$96 each**

**NEW FROM 'DOWN-UNDER'**

**2B**

**LANDMARK 2-3 Brogden**

We have grown Landmark for a number of years and offer it now as a somewhat different character to the present set of red and whites. It has a good smooth white perianth and a flat crown almost disc-like and smooth. The crown is in good proportion and a rich solid orange scarlet. A rapidly increasing plant. **£4, \$9.60 each**

### DAFFODILS FOR NATURALISING

Some daffodils naturalise much better than others. The ones we list here are proven kinds and I feel you will get much better results with these than by trying one of the mixtures often advertised. If you intend planting one kind only may I suggest that you would find *N.obvallaris*, The Tenby Daffodil, the best. We can supply this at 45/- for 50, 90/- per 100, 500 for £15, 1,000 for £27, 10,000 for £220.

2A

## **BANDLEADER** 2-3 MJB Narvik x Spelter

Vivid smooth flower in deep gold and dark red. Neat thick flat petals, goblet cup. RHS Year Book 1968, "his Bandleader was aptly named with its cup of bandsman's red." (Report of our winning entry for 6 seedlings). Strong grower, modest price. **50/-, \$6 each**

1A

## **BY JOVE** 2-3 MJB

Balance, quality and rich colour make this a 1st class show flower. In the garden it stands tall, strong, and boldly posed. Excellent smooth texture in wide petals and beautifully finished trumpet. All glowing deep gold. One of our winning 6 seedlings, London 67. **£7, \$16,80 each**

5B

## **BUTTERFLY** 3-4 Blanchard Hamzali x triandrus loiseleurii

White flyaway wings behind a shallow cup shaded in tones of sulphur and lemon. Reminiscent of Dawn, but a stronger plant. Scarce. **£4, \$10 each**

7A

## **PET FINCH (Goldfinch)** 1 $\frac{1}{2}$ -3 MJB Harrier x jonquilla ☉

Dainty, distinct little dandy. Groomed as neatly as any of the many finches that happily live with us here at Whitbourne. Rounded oval petals silky smooth held flat from neat cups of rich tangerine. Usually one gold and orange flower to a wiry stem, but a thicket of flowering stems. By far the earliest of jonquils to open, endowed with rich perfume which it keeps all its long life. More a population explosion than a bulb! Good plant. **£4, \$10 each**

5A

## **WHISPER** 3 MJB Orange Glory x Dawn

With Orange Glory and Dawn as parents, Whisper has a trumpet type and N. cyclamineus for maternal grandparents and N. triandrus and N. poeticus as the paternal set. From its mixed parentage came a graceful maidenly quiet-toned beauty, a flower with delicate smooth texture in the pointed narrow petals at right angles to a slender trumpet of pale creamy primrose. The fine spun quality of the flower demands its recognition as a triandrus, though some might argue that the longish trumpet declares as strong an allegiance to the cyclamineus family. Good plant about 12" high. Fertile. **£5, \$12 each**

2C

## **WINFRITH** 2-3 Blanchard Best Flower RHS Daff. Competition 1966

Icy white flower with well formed wide petals and neatly fluted crown of vivid white with dark base. First rate quality. Of modest demeanour whilst in bud but a beauty capable of winning high awards. Good stock.

**£5, \$12 each**

# 1967 INTRODUCTIONS

2B

## **BREAKTHROUGH 3-4 MJB Homage seedling**

Large circular large flowers held on tall strong stems well clear of any foliage. Boldly posed flowers have very wide rounded thick petals of bright clear lemon around a flattened saucer crown of deep rich lemon centred green. The almost unique colouring of the perianth must make it a flower on its own. Consistent here but maybe the perianth colour may bleach in much warmer parts of the world. **£15, \$36 each**

## 5B *The Heavenly Twins:* **CASTOR and POLLUX 3-4 Blanchard**

So alike we describe them together and make a special offer of one of each. The Heavenly Twins are something new in triandrus hybrids. They grow neatly and have stems with 3 or 4 sparkling white flowers. Most triandrus have cup shaped crowns, but the twins have almost flat cups like those of Chinese White. The vividness of the white cups is so intense as to appear brighter – even than the Snow white petals. John Blanchard, with a parents eye, finds the twins to all intents and purposes the same, but it may well be that in one garden one twin will excel and in a different garden the other take the honours. Excellent quality flowers like very white multi-headed small-cup kinds.

**£6, \$14.50 for 1 of each**

3B

## **INVITATION 3 MJB Easter Moon x Homage**

White and yellow small cupped kind with substance enough to make two flowers out of every one. Thick white petals lie flat at right angles to the neat cup and quite without any suggestion of creases. Rich lemon cup centred green. Show flower. **£7.10.0., \$18 each**

2C

## **ITS TRUE 2-3 MJB Seedling x Empress of Ireland P.C. 1968**

Huge white flower with a perianth of tremendously wide flat petals and a trumpet most beautifully proportioned not being too wide in its length but having a very good flange. Makes an immediate impact when seen. Grows strongly, increases well. Reliable. **£17.10.0., \$40 each**

2B

## **JOHN OF SALISBURY 3 MJB**

Sums up in itself many of the quality that breeders seek for in this age. Stands well with good sized flowers of very firm lasting substance and fine spun texture. Petals are held at right angles from crown or perhaps even very slightly reflexed. Crown longish and with a goblet finish, and subtly coloured buff. Good bulb and plant. **70/-, \$8.40 each**

3B

## **KIMMERIDGE 2-3 Blanchard Portrush x Pretty Polly**

An outstanding 3B in its crystalline texture, its very even quality of its crop of flowers, and outstanding in that it blooms very early for a Div. 3 flower. Large round flowers of creaseless sparkling petals laid in one plane and precisely clean cut. Net cup is pale yellow centred green and cleanly ribboned rich orange. The orange needs protection for show. A long neck but this is as strong as any stem and holds the flower in very good show pose the whole life of the flower. Earliest 3B. Very strong plant.

**£4, \$10 each**

1B

## **NEW ISSUE 3 WJD Niphetos x Kanchenjunga**

Sister to Newcastle but of different style, looking more like a bicolor Queenscourt or Empress of Ireland. Strong plant with very large flowers; impressive perianths of very wide white petals overlapping magnificently. Narrow trumpet widely flanged and coloured a rich primrose yellow.

**£5, \$12 each**

2A

## **TRENDSETTER 2-3 Lea Nanking x Ambergate**

Red flushed flowers like this and Gypsy are still rare. This one has the almost legendary Ambergate as one parent. A tall plant with attractive large flowers with golden round petals heavily suffused with pinky orange and a neat crown of deep orange scarlet. Breeders are certain to want this line in their breeding work. **£10, \$24 each**

# Hello America !

Since Jean and I started our daffodil business in 1959 one of the most heartening things about it has been the support we have enjoyed from U.S.A. fanciers. Of course it is not just a business with us, we enjoy our daffodils, and it gives us great pleasure to receive the friendly greetings that fly over the Atlantic and make us sure you enjoy your daffodils too.

We hope 1969 is going to be a vintage season for the flowers. We are confident that we shall have a record year business-wise. We have fine stocks. Many kinds both large and small are unobtainable elsewhere. We hope that you too will have a year to remember with pleasure and we do hope to hear from you. No order is too small!

It is easy to import. You can either let us send your bulbs to friends in the U.S.A. to be forwarded to you or we can send your bulbs direct to you. All you have to do to get them direct is to send us the green and yellow import mailing tag from the

U.S. Dept. of Agriculture  
Plant Quarantine Division  
209 River Street  
Hoboken, N.J.

If you forward the addressed postcard enclosed for you the Dept of Agriculture will send you your tag/s. All they want to know is, 1, Your name and address; 2, My name and address; 3, The number of bulbs you wish to import, or preferably a slightly larger number.

We shall look forward to hearing from you. Thank you.

## Jean's letter. . . .

How fast the years go. Here is our tenth catalogue. With Robert about to go to school, it is going to seem quiet here except when our ducks waddle up from the pool to let us know they think a meal is due. We are all very fond of these amusing characters, though Michael wishes they could change their breeding habits to rear their young a little later after the daffodil blossom is over. What a pity the daffodils cannot lay eggs and rear their young in a year so that we can see what the genes have given us. However, we have some seedlings that we are pleased with and have a lot of stocks which we hope to name and introduce soon.

Lindy says she likes the white and reds best; Helen likes them all, and Robert says he wishes daffodils were like ducks so that we could look at them all the time.

With all best wishes.

JEAN

If any of our customers are wildfowl enthusiasts and wish to barter surplus birds for bulbs, do drop us a line.

MICHAEL

## YELLOW TRUMPETS

## 1A

### LURGAIN 2-3

Lea Kingscourt x Cromarty  
AM 1961

Award of Merit yellow trumpet of very large size, rich thick texture, durable substance and outstanding strength. Broad petals of rounded triangular form held flat away from boldly finished trumpet. Rich golden canary yellow.

30/-, \$3.60 each    3 for 80/-, \$9.60

## Yellow Trumpets 1A cont.

### MOONMIST 1 M King of the North x Content

I value this soft lemon flower for it is in bloom with Forerunner when most other early flowers are buds deeply nestling in their leaves. Wide flat perianth and well flanged trumpet all in shining tones of lemon and sulphur. Good plant, very free of bloom. **15/-, \$2 each**

### MOONSHOT 2-3 M King of the North x Content

Over past seasons this flower has impressed more each year with its refined and unusual character. It is one of chaste form with smooth pointed petals and a long trumpet neatly opened at the mouth. The creamy lemon of the perianth shows up the slightly darker colour of the trumpet which at some stages has tints of pinkish apricot like the reflection of the setting sun. **£3, \$7.20 each**

### REMBRANDT 2-3 Lubbe FCC garden

Rich mid gold flower of good form. Best low priced yellow. Largest bulbs **16/- doz., 110/- per 100**. Strong bulbs **12/- doz., 80/- per 100**

### SLIEVEBOY 3-4 GLW Royalist x Golddigger Best flower 1958 show

This beautiful dressed velvety giant has a well balanced perianth of broad petals. The inner ones have so faintly discernable a *Royalist* lilt that they could be described as 'flat' without deception, but that suspicion of a wave makes it all the more pleasing a flower. The trumpet is generously flanged and very evenly notched. The colour is a soft yellow, a very pleasing change from the modern orange golds. A good grower of grand stature. **7/6, \$1 each; 75/-, \$10 doz.**

### TRUMPETER 3-4 GLW

Undoubtedly one of the best yellow trumpets to be introduced recently. Of excellent bold show form that needs no grooming. Large crops of fine big blooms held in wonderful pose for a long time. Even shining mid-yellow. Strong, blue foliage, neat plant. A group in the garden looks wonderful. *ill. p. 39.* **5/-, 60 cents each; 50/-, \$6 doz.**

### UP FRONT 3-4 M King of the North x Content

A very large flower and later flowering than most. Luminous lemon in wide perianth and large trumpet flared and ruffled at the margin. Strong and tall. Most splendid garden plant. **50/- each**

### WINDJAMMER 2-3 WJD

One of the most effective of all daffodils here. The stock has been a shining mass of sulphur lemon, each large bloom displaying petals as wide as a windjammer's sails and trumpet nobly flanged and proportioned. So generous that there always seems to be 2 flowers where other kinds would be content with 1. A favourite of mine. **30/-, \$3.60 each; £15, \$36 doz.**

## TIDD PRATT 2-3 WOB

A slender trumpet coloured a rich tangerine orange solid from the brim to the base. Narrow golden petals and trumpet are smooth textured. This perky flower is highly fertile and will prove useful in breeding further red trumpets. Scarce. £20, \$48 each

## UNCLE REMUS 2-3 WOB

This red trumpet is giving seedlings of very rich colour. It is itself a good sized flower with primrose perianth of petals held at right angles to the full size trumpet-shaped trumpet of uniform glowing deep orange. The plant grows strongly and increases well. It may well be that the main future advances in red trumpets will stem from this variety. £35, \$80 each

## No. 17 3 WOB

This is a yellow trumpet seedling bred by Mr. Backhouse and famous as the founder of all his red trumpet breeding. Always gives a percentage of red trumpets amongst its seedlings. A strong growing mid yellow trumpet. This Do-It-Yourself-Red-Trumpet-Breeding-Set is offered at £7.10, \$18

# BICOLOR TRUMPETS 1B

## BALLYGARVEY 3-4 WJD

Effective x Sincerity

Brilliantly contrasted show flower and excellent decorative garden one which grows and grows like an overdraft. Wide pure white petals make a foil at right angles to deep gold trumpets finished with a rolled brim.

4/-, 45 cents each, 40/-, \$4.50 doz.

## DESCANSO 2-3 Evans Polindra x Frolic

An impeccable show flower of chaste form and refined texture and substance. Large blooms on tall stems, triangular wide shining white petals and a chaste trumpet gently flanged and painted a good lemon-butter yellow. Good pose. Scarce. £7.10.0 each

## FORESIGHT 1 GLW

Few can enjoy a greater welcome, one of the first flowers and of gallant show form. Milk white petals form a wide background for the princely primrose gold trumpet. Wonderful pot plant. So early, so robust, so free of flower, so good it should be in everyone's collection.

## BIRTHRIGHT 2-3 GLW Courage x Empress of Ireland

Glorious giant of wonderful refinement, having an immaculate perianth of very broad flat petals that are almost square and give the flower a masculine square rigged appearance. The crystalline texture of the petals grace the whole flower, the perianth that lies so exactly flat and the trumpet. The trumpet is not too wide at the base but is on the grand scale with a most neat bold pleasing flange. All in shining snow white. Consistent performer and excellent plant. **£15, \$36 each**

## CANTATRICE 3 GLW. FCC 1939 AM Wissey 1936

## CHEVALIER 2-3 JLR Galway selfed

Chevalier, like Galway, is magnificent as a plant with strong blue green foliage, a guardsman's upright carriage, and such uniformly well turned out flowers are paraded each spring that any inspection will fail to find one to fault. Rather trumpet in appearance, stronger coloured than Galway. Very fine in texture, substance, pose and durability. 40/-, \$4.80 each

## FAWNGLO 3 M Binkie x (King of the North x Content)

A personal favourite of mine in cool haunting tones. A borderline flower in two respects as it might just as well be classed a 2D as the crown does become lighter than the perianth, and by measurement it is nearly a trumpet. It produces many fine-spun flowers of unusual creamy buff, that sometimes carries a luminescent pinkish tone in the crown. A chastely formed flower. 15/-, \$1.80 each; 150/-, \$18 doz.

£5, \$12 each

### LEAPING SALMON 3-4 JLR Rosewell x Rose Caprice

Glass smooth petals make a snowy background for the bold crown of salmon. Each petal is held firmly in the plane at right angles to this deliciously coloured crown. The unusual colour makes a distinct change from the popular oranges and pinks. The salmon helps to give the flower character, but so too does the thick magnolia type substance of the flower and the very neat lobed mouth of the bold crown. Strong bulb and sturdy grower.

£4, \$10 each

### MAIDEN'S BLUSH 2-3 Meyer

A near miss for trumpet measurements. A hit in the garden as it is a most pleasing daffodil of attractive high quality. Well posed flowers produced in profusion, clean white perianths of smooth wide petals held nicely away from the trumpet crown which is painted in attractive tones of rose pink. The deeper roll on the edge of the crown helps to make this a distinct personality. One of the fastest increasing plants we have. Well worth including in your collection. We have sold this freely when we have shown it, a very reliable indication of its appeal.

5/-, 60 cents each; 50/-, \$6 doz.

### **PASSIONALE 3 GLW Rose of Tralee x Irish Rose AM 1957 AM Wisley 1963**

From RHS Daffodil Year Book 1964, 'Daffodil Trials at Wisley' Herbert R. Barr. "There was one quite exceptional variety that we saw in the main garden and which was only in its second year — it was Passionale certainly the best pink I have seen as a garden flower; the colour was good, the pose excellent and the flower flowers well above the foliage, a worthy Guy Wilson plant — it received a unanimous Award of Merit."

An immaculate perianth of long flat petals overlaps to half their length and are held so as to make a perfect L junction with the long cup of delightful pink. Crown as smooth in quality as the polished perianth and is finished with a very lightly opened mouth gently frilled and cut.

Passionale's winning points are these. It is earlier than most pinks. It grows with tremendous strength. It holds its colour well. Above all the pink is probably the purest pink shade yet seen in a daffodil and this is linked to a flower that has featured in many winning show exhibits.

25/-, \$3 each; 255/-, \$31 doz.

PASSIONALE

**PINK SMILES 3-4 WJD White Sentinel x Trousseau**

**WHITE  
LARGE CUPS 2C**

**ARCTIC DORIC 2GLW**  
AM Wisley 1967

Some are born white, some become white, some have the adjective 'white' thrust upon them. Arctic Doric is born white. It opens very early. Frosty white petals sparkle but the crown is perhaps even whiter, almost with a hint of blue in its purity. Perianth groomed by nature flat firm and wide, the crown being slender and scarcely opened at the mouth. Chaste icy flowers most generously produced from freely blooming and increasing plants. *ill. p.9*

Wonderful worldbeater! Exemplifies the qualities Mr. Wilson strove to combine in his whites. Strong plant with large flowers or circular build, smooth and thick textured like Easter Moon. ## REVERSE BICOLOR LARGE CUPS 2D

**DAYDREAM 3 M**  
Binkie x (King of the North x Content)  
FCC 1966

Acclaimed as the best of its class. We were happy to get a First Class Certificate for this wonderful flower and plant. Most perfectly formed, with very flat overlapping rich glowing lemon perianth and a crown of near trumpet length, opening lemon but soon fading to near pure white. A white halo enhances its beauty. Opens after Bethany, its sister. Is a little deeper in colour and is somewhat more rounded in form.

Americans rate this best 2D. Beautiful flower of precise form. Ironed overlapping perianth is a soft luminous clear deep sulphur lemon. Large 1st class show flower, opening before Daydream.

50/-, \$6 each

**BINKIE 3 GLW**

Fine large cup flower that opens lemon, the crown fading later to nearly pure white. Good plant.

**CHARTER 2-3 M** Binkie x (King of the North x Content) AM 1964

Stands like a regimental sergeant major; grows with the abandoned vigour of a pop singer in full cry; lasts with the fortunate persistence of the British aristocracy. Delicate and bewitching in colouring. Parchment firm petals stand broad and flat away from the longish crown. Flowers open in shining lemon, the crown being darker, but this is quickly changed for whilst the petals retain their colour, the crowns fades after a day or two to white.

Our daughter Lindy calls Charter, 'the one with the long handles.' It is tall and strong. Much the earliest of all 2Ds but also the longest lasting. Distinct from any other in

this class and first class for show or in the garden. I reckon this is probably our most important stock and expect it to be sold by the ton in the future it is such a worthwhile garden plant. *ill. p.39.*

45/-, \$5.40 each, 3 for 115/-, \$13.50; £21, \$50 doz.

## Royal Worcester Porcelain

Since 1751 the Royal Worcester Porcelain factories have been producing ceramics that have become collector's pieces. They maintain the highest traditions in all their wares, much of which now goes for export. The famous Dowty birds are contemporary pieces that have become highly prized by collectors. Royal Worcester Porcelain have agreed to produce some small pieces of their ware for us with daffodils illustrated on them. The 1968 daffodil dish is 4-5" across with three yellow triandrus in the centre and edged with a ribbon of gold.

We should be pleased to send you one for \$2.

Or if you would like to take our 'Worcester Collection' you will have one included free together with a leaflet about the Royal Worcester Porcelain Works.
