INTRODUCTION FOR 2005

Greetings to you all,

We write this welcome with many of our daffodils in full bloom early in January, with some already in flower for Christmas, for those of you that like to have some colour in the Garden at this time of year we recommend you to look at the varieties with (VE) before the name, they may not win the first prize at the show, but surely deserve our admiration in the Garden.

2004 was another great year for our Displays, winning Gold Medal awards for us at the Royal Horticultural Society, the National Daffodil Society, Falmouth Show, Boconnoc and Probus.

Sadly Probus gardens is now gone and the 2005 Southwest Show will be held at Trelassick gardens near Truro.

Notes

- The characteristics for Divisions 5 to 10 are given for guidance only; they are not all necessarily expected to be present in every cultivar assigned to those divisions.
- Divisions 12 and 13 are not illustrated owing to the wide variation in shape and size between the flowers involved.

Cultural Notes

Many people like to grow some Daffodils in pots, indeed there can be no nicer way to enjoy fine flowers than when grown correctly and opened to perfection in the conservatory or greenhouse.

However, the following notes are a guide to and for the benefit of those who would perhaps try this. Today there are many prepared composts available for this purpose, and will suit our needs quite admirably, with perhaps the addition of a little coarse grit to aid drainage, and gentle feeding at flowering time.

After potting, it is essential that the bulbs are kept cool and moist, this is to develop the root system. Plunging the pots outside and covering with a couple of inches of peat or similar substance is the ideal, as should the bulbs be subjected to premature indoor warmth, growth will be weak and often the flower will strangle in the neck of the bulb, also the bulb could be severely checked and die. So a simple rule is to plant early, keep cold, and bring inside to a cool room or conservatory when the flower buds are clearly well out of the bulb. After flowering keep well watered and give an occasional feed for about six to eight weeks, then plant outside in the usual way.

For open ground culture, most garden soils will grow fine daffodils, but the ground should be deeply cultivated and free draining. Should manure or compost be necessary, this should be well rotted and worked into the soil a good spade's depth below the surface. Bulbs should never be in actual contact with manures as this does encourage disease and could be the cause of rotting.

When planting outside, make a hole deep enough to cover the bulbs by at least twice the depth of the bulb. Some of the larger bulbs will need at least 6" of soil covering them. They can then be left undisturbed for several years until lifting and dividing is necessary.

For garden display, a clump always looks better than a straight row; in this way Daffodils can be incorporated into a flower bed or shrubbery. Remember a little feeding at flowering time will benefit the bulbs and assist in producing next year's display. You should not remove the leaves until they are beginning to turn yellow, or for at least eight weeks after flowering.

DIVISION 3 - SMALL CUPS

"Aintree" 3W-O. (EM) (Park Springs x Shinning Light). This is an excellent show variety with smooth, chalky white broadly overlapping perianth segments, good poise, a neat goblet shaped cup of rich orange, at maturity the perianth does take slight reflex in a manner similar to its parent. An excellent plant and fine flower for show£3.50

"Bethal" 3Y-Y(LM) S342 (Aircastle x Montego) When first shown this interesting variety won Best Bloom in the Southwest Championship class. I think it has improved since then. The flower opens with a whitish yellow to the broad perianth and soon develops in colour to become a lovely citrus lemon tone throughout.....each £8.00

"Cheesewring" 3W-WWY(L) S486 (Cool Crystal x Delos) This flower is large and of good show form. The broadly ovate perianth shows off the shallow bowl shape corona which is pale primrose yellow and white at the base. Tall stem, also excellent as a cut flower.....£2.50 each or 3 for £5.00

"Fairlawns" 3W-YYO(M) S191 (Corofin x Kimmeridge) x Merlin). A flower with a broad well overlapping perianth of pure white and an evenly goffered small cup of yellow and a bright orange rim, good for show or the garden, and a strong vigorous plant.....each £3.50

"Falmouth Bay" 3W-GWW (LM) S389 (Cool Crystal x Delos) This is a large very broad flower of pure White with a hint of Green in the centre of the frilled cup, has already won many prizes on the show benches, and always in demand for decorative use, the stem is tall and a very vigorous plant.....each £6.00

"Feock" 3W-YYR (LM)(Corofin x Kimmeridge) S93. Shown in my winning collections at the County Festival Show, and has been much admired by several knowledgeable experts for several years. The flower is large and round with broad smooth perianth segments, and a bright yellow neatly frilled cup with a deep red rim, a strong plant and an excellent show flower3 for £10.00

"Gorran" 3W-YYR(LM) S196 (Corofin x Kimmeridge). Here is a large flower with ovate perianth that is well overlapping and quite acute at the tips. The brightly coloured flatish cup is yellow with a dark red rim. It has won its class several times here in the Southwest and done well in other regions as a pre-released seedling, a very prolific flowerer and a rapid increaser.each £3.00 or 3 for £7.50

"Greenodd" 3W-YYW. (L) This has been much admired at National level. The plant is vigorous and the stem is tall and stiff. Apart from the impeccably smooth perianth and very pretty bowl shaped cup, it is the very pronounced green in the throat of this flower that makes it a super show flower and a must for the exotic flower arrangements.....each £7.50

"John's Delight" 3W-YYR(M) S316 (Corofin x Kimmeridge) The main stock of this was acquired and named by the River Society, it is a superb variety for cutting, being most prolific in bloom and a very vigorous plant but has also been much admired as a show winning flower on the benches here in the West Country. We are pleased to be able to introduce and continue to offer this variety to you.....each £2.50 or 3 for £5.00

DIVISION 5 - TRIANDRUS HYBRIDS

These delightful varieties of Daffodil are the result of selective breeding where the species *n.triandrus* has been introduced into its parentage, the resulting plants often have 2 or 3 flowers on the stem, and are amongst the ladies' favourites in floral arrangements.

These from Division 5. and those of Division 6. are generally much dwarfier in stature and are ideally suited to the garden or rockery. The plants are hardy and quite resistant to the windier spot where the conventional Daffodil often gets broken off.

"Budock Bells" 5W-W(L) S98 (Broomhill x *n.triandrus*) Up to three florets per stem - chalky white - drooping, the perianth segments are narrow and slightly reflexed, smooth and nicely overlapped - the bulb sometimes gives secondary stems to extend the flowering period. A super garden variety with plenty of show potential.. each £6.00

"St. Day" 5W-Y(LM) S717 (Merlin x Foundling) x *n.triandrus*). This has been much admired by everyone who has seen it growing in the field trials where it has withstood 'all weathers' very well. For show we have success on many occasions. Usually it has 2 or 5 blooms to a stem, it is smooth, well poised and of good clear colourseach £12.50

"Tater Du" 5W-Y (Penril x *n.triandrus*) S374 Mid season. This charming little Triandrus cultivar is ideally suited to the rockery and has consistently produced many stems with 2 or 3 drooping florets to each stem, the perianth segments reflex to show off the widely expanded corona with the stamens and stigma exerted. For those who like to show this has won several first cards and has been admired for several years on our trade exhibits.each £3.50

DIVISION 7. JONQUILLA HYBRIDS.

This Jonquilla section is for hybrids that have been bred with the species *n.jonquilla*. The resulting plants vary in stature from quite dwarf to very tall, however they are generally on good stiff stems that can stand a fair amount of wind. Most of the stems do have several flowers on each and without exception all are sweetly scented, which makes them ideal for indoor decoration.

"An-Gof" 7W-GYO(LM) S727 (Lancaster x *n.jonquilla*). Thiswe believe to be the first of this colour in the Division, it has up to 3 florets on the stem but mostly twos, very scented and of excellent show form, the plant is strong and of good increase £6.50

"Boscastle" 7Y-Y(L) S111 (Aircastle x *n.jonquilla*). 2 or 3 sweetly scented flowers to a stem with broad smooth and well overlapping perianth segments make this an ideal show quality flower, bulbs often give secondary stems which can only add to its benefits as a perfect plant for the garden or cutting 3 for £2.50 or 5 for £4.00

"Crill" 7Y-R, (LM) S/677. (Dateline x *n.jonquilla*) A new and exciting jonquilla hybrid, this is a most prolific bloomer with several tall stems being produced from established bulbs, each stem has up to 3 florets of rich Golden Yellow with a Bright Orange Red cup, it is nicely scented, beautifully formed and the blooms last a long time, perfect for the Show bench or the discerning gardener, and we feel that this could well have a future in the cut flower market. £5 each or 3 bulbs for £10

"Kit Hill" 7Y-YWW(L) S107 (Aircastle x *n.jonquilla*). Stems usually with two sweetly scented florets, very smooth and soft pale yellow perianth segments and a neat round cup that fades to ivory white, this flower has already won its class on several occasions and much admired in our trials each £2.00 or 3 for £5.00

"Mowser" 7Y-OOR (LM) S557 (Altruist x *n.jonquilla*) Up to 4 florets on a stiff stem, it is very prolific of bloom with many secondary blooms with 1 to 3 florets, the blooms are neat and rounded, of dark golden yellow with a shallow crown of dark red slightly paler at the base (AM)e. each £10.00

"Penstraze" 7Y-GRR (M) S694 (Montego x *n.jonquilla* var *henriquessi*) A lovely twin headed and very sweetly scented flower ideal for exhibition and has won its class on many occasions, the richly coloured Yellow and Red blooms with a contrasting Green centre are small and in perfect balance with shorter stem, it is long lasting and appears to stand the weather well. £12.50 each.

"Penvale" 7W-GYY, (LM) S/773 breeding (Cool Crystal x Pismo Beach) x *n.jonquilla*) There are not many White coloured varieties in the Division, this is a tall beautifully formed flower with usually two florets on the stem clear colours and very sweetly scented, the bulb does send up several secondary stems as an added bonus to extend the flowering period, excellent for all situations, and a fine show quality flower. £10 each

Division 8. The Tazetta Hybrids.

These plants are the results of many years of breeding and can really be divided into two types. They are with the exception of "Minnow" all quite big plants, some do have very tall stems and foliage. The first kind are more of the true n.tazetta species in form. As the species is generally found in warmer regions of southern Europe and the Mediterranean. They are somewhat tender and do require a hot dry summer period to perform at their best, however they are well worth trying, when each stem could have up to 15 or 20 highly scented florets. The second group or kind is the "Poetaz", these are slightly different in style and have fewer florets, and the scent is an admixture of the n.tazetta and that of the n.poeticus from which these hybrids have been derived. It is the poeticus part that make these much hardier and do withstand our winters as well as any other type of daffodil.

"Hugh Town" 8Y-O(VE) Raised at the Rosewarne this wonderful multi-headed flower is proving to be one of the best of its type for cutting and floral arrangements, and is a magnificent choice for the early Garden Display. Site the planting to avoid a very cold situation and to receive the full benefit of sun during the summer to ensure a thorough ripening of the bulbs. This is one we highly recommend to you, highly scented. each £1.00, 3 for £2.50, or 10 for £6.50

Division 9. The Poeticus Hybrids

These flowers have been commonly called the "Pheasant Eye" and indeed they have been bred from the old species, however these varieties are far superior in form and colour and flower when most other Daffodils have been long finished. They are best picked young as the sun does affect the lovely colours if left out. They are without exception all highly scented. The plants like to be planted in good soil that never completely dries out, this helps to keep them cool. Set the bulbs slightly deeper than normal and leave undisturbed. New bulbs may take a season to settle, but are well worth their place in the garden.

"Blisland" 9W-YYR(L) S584 (Corofin x Lady Serena). We have had many successes with this on the show bench, the flowers are pure white with a shallow corona of yellow rimmed in red, of good substance and delightfully scented, we have a good stock available each £5 or 3 bulbs for £10

"Colville" 9W-GYR (Corofin x Crenver) x Crenver) S131 Late season. Named at the request of several enthusiasts, this flower has already featured in the prize winners on several occasions, the perianth opens with greenish undertones, but soon whitens to form a good foil for the brilliantly coloured corona, like all flowers of this kind it will not tolerate the sun and does need to be picked young. each £7.00

"Kabani" 9W-GYR(L) S742 (Woodland Star x Lady Serena). This is a tall strong growing plant of good constitution, a very consistent show quality flower with a broad well overlapped perianth and a shallow corona of bright yellow and a dark red band with a lovely green centre, we have successfully shown this on several occasions £4.50

"Merthan" 9W-YYR (L) S734 (Corofin x Lady Serena) The flower is a little larger than some of this kind and is held on tall strong stems, the pure white perianth is broad and smooth and shows the flat brightly coloured corona off to perfection, a regular winner at shows and has been Best Bloom of its class at the National Show. £10.00 each

"Penjerrick" 9W-GYR (L) S554 (Woodland Star x Lady Serena) This is a larger flower on the style of Lady Serena, but with much more substance and a smoother perianth the shallow crown is very rich in colour with a hint of olive in the throat, I have show this with success on several occasions at the RHS shows in my 5 to 9 group. £2.50 each or 3 for £5.00

"Rosannor Gold" 11aY-Y (E) S363 (Obelisk x Tamar Fire). An excellent plant for the garden, or cutting and for show, it is clear golden yellow throughout with broad well overlapped perianth segments and a slightly frilled corona laying flat and closely overlying the perianth.3 for £5.00

"Sparnon" 11aW-GYY (M) S118 (Pearlax x Audubon). One of our earlier crosses in this Division but we were reluctant to name it, but as the stock built up the vigour and quantity of blooms has made this a most desirable plant for the garden or for cutting, but we have also had some success with it on the show benches, it always attracts attention in our fields, the flowers are white with a soft canary yellow frilled corona with greenish tones at the centre, well liked by our florist friends. 3 bulbs for £2.95 or 5 for £4.00 or 10 for £6.00

"Cornish Chuckles" 12Y-Y(E) (Matador x n.cyclamineus). .....5 for £2.50

"Odd Job" 12W-O, (LM) S/350 (Merlin x Foundling) x n.triandrus) We attempted to breed a dwarf plant with different colour, this variety is shorter in the stem and the flower smaller, the vigour is amazing and produces large healthy bulbs with several bloom from each bulb, the flowers are quite novel as the perianth reflexes to show off the flat almost disc like corona, we have shown this on several occasions in the novelty classes where it has been very successful. A colourful addition to the Garden.
.....£2 each or 3 bulbs for £5

"Upalong" 12W-YYR, (LM) S/351 (Merlin x Foundling) x n.triandrus) Quite a novel little flower, a sister plant to 'Odd Job', with naturally reflexing perianth segments and a drooping poise, not as tall as many and will stand the weather well, it is a most prolific growers and make good bulbs, I have shown this in the novelty classes with success on many occasions, but is most suited to the Garden border....

DIVISION 13 - The Species and Wild Forms

I have been acquiring these for many years and have obtained much pleasure from them, particularly those grown in the alpine house. The species always seems to resent being moved about, but once settled are a joy to see in naturalised surroundings. Very large quantities are not available. I believe them all to be true to name, but like many there seems to be some considerable variance of form, they are however named as sent to me or have been grown from seed.

INTERMEDIATE SIZE VARIETIES

Many of these varieties have been re-classified from the Miniature section as being just too large in bloom size for the show classes, however the plants are much dwarfer in stature than the standard cultivars and most are well suited for the intermediate classes at show or for the Border and rock Garden.

"Pentire" 11aY-R (M) S686 (Falstaff x Brandaris) (AMe)

We have been growing this for many years and almost put it aside except for the perfection of bloom and its size, but the vigour and increase has now made this a indispensable and valuable little variety for the "Intermediate" sections the plant and flowers are dwarf and much smaller than its counterparts, but the quality of this little flower is such that it has already won on several occasions both here and in the U.S.A. where it received the accolade of Reserve in the entire Show. £10.00 each

"Radjel" 4Y-R(M) S298 (Paricutin x Tamar Fire). A perfect intermediate size bloom that won its class at the National Shows. The stems are tall and stiff with a small formal double flower of bright golden yellow with rich red petaloids. Like its parents a good grower. each £5.00

"Salakee" 2Y-Y (E) S401 (Ristin x n.cyclamineus). This lovely little flower is a true intermediate, very dwarf and a good grower, despite its pollen parentage there is no reflex in the perianth, but it has inherited the rich golden colour and smoothness of "Ristin", and has many times been a winner in the intermediate classes. each £4.50

"Skilliwidden" 2Y-Y (E) S539 (Ristin x n.cyclamineus) AGM AMe. This is a Fun flower named after one of our mischevous, Cornish Pixies (Piskies). The plant and flowers are small, rich in colour and perfectly formed, an ideal intermediate bloom. £3.00 each or 3 for £7.50
