INTRODUCTION FOR 2007

Greetings to you all,

Last year we are again very proud to receive Gold Medal awards for our Displays throughout the Country, including the Highly coveted Best Exhibit in Show at Boconnoc, also Bath and the Royal Horticultural Society show at Cardiff for the second year running.

The American Daffodil Society gave us the Great Honour by awarding Ron the ADS Gold Medal for his work with Daffodils, we are proud to receive this most prestigious award, and thank everyone in making this possible.

John Pearson's collection was well received and many of his superb varieties are sold out or going to be in short supply, we are however actively propagating these for the future.

Our collection is forever increasing and new and exciting varieties are being introduced from The USA and New Zealand, if you do not find what you are looking for please contact us as we may just have a bulb or two in the collection.

By popular request we are now offering several Tulips both the species and some better varieties for the Garden and Show Bench, also some new and interesting Hyacinth's all of these are grown by specialist nurseries in Holland.

The Web Site www.qualitydaffodils.co.uk is undergoing a complete redesign which will we hope will add to your enjoyment and hopefully encourage many of you to order perhaps that little something special, we are happy to send anywhere in the World, and if you would like to send that unique present to a friend or for a special occasion we will be pleased to assist in any way we can, remember all bulbs are sent out from the END OF AUGUST, THROUGH SEPTEMBER, AND EARLY OCTOBER.

Garden Clubs and Societies or Landscape gardeners that may require larger quantities of a single variety, have a look at our C.A.B.G.A page and the special Discounts, we are also happy to quote on any of the other varieties, please order early to avoid disappointment, it is best before the end of July for overseas and the End of August for the UK, we do supply later but often the stocks can be sold out and by October we are all replanted.

This year we are featuring Displays at,
Penzance 9th and 10th March.

Devoran 17th March.

Falmouth Spring Flower Show 24th and 25th March.

Southwest Group Show at Trelissick 7th, 8th and 9th April.

*May we take this opportunity to thank all our customers for their continued support
and wish everyone a most enjoyable year*

HORTICULTURAL CLASSIFICATION

Whether of wild or cultivated origin, once a selection has been distinguished by a cultivar name it should be assigned to Divisions 1 - 12. Daffodils distinguished solely by botanical name should be assigned to Division 13.

Notes

1. The characteristics for Divisions 5 to 10 are given for guidance only; they are not all necessarily expected to be present in every cultivar assigned to those divisions.
2. Divisions 12 and 13 are not illustrated owing to the wide variation in shape and size between the flowers involved.

DIVISION 1

TRUMPET DAFFODIL CULTIVARS

One flower to a stem; corona (trumpet) as long as, or longer than the perianth segments (petals)

DIVISION 2

LARGE-CUPPED DAFFODIL CULTIVARS

One flower to a stem; corona more than one-third, but less than equal to the length of the perianth.

DIVISION 3

SMALL-CUPPED DAFFODIL CULTIVARS

One flower to a stem; corona not more than one-third the length of the perianth segments.

DIVISION 4

DOUBLE DAFFODIL CULTIVARS

One or more flowers to a stem, with doubling of the perianth segments or the corona or both.

DIVISION 5

TRIANDRUS DAFFODIL CULTIVARS

Characteristics of *N.Triandrus* clearly evident: usually two or more pendant flowers to a stem; perianth segments reflexed.

DIVISION 6

CYCLAMINEUS DAFFODIL CULTIVARS

Characteristics of *N.cyclamineus* clearly evident: one flower to a stem; perianth segments significantly reflexed; flower at an acute angle to the stem, with very short pedicel (neck).

DIVISION 7

JONQUILLA AND APODANTHUS DAFFODIL CULTIVARS

Characteristics of Sections Jonquilla or Apodanthi clearly evident: one to five (rarely eight) flowers to a stem; perianth segments spreading or reflexed; corona cup-shaped, funnel-shaped or flared, usually wider than long; flowers usually fragrant.

Cultural Notes

Many people like to grow some Daffodils in pots, indeed there can be no nicer way to enjoy fine flowers than when grown correctly and opened to perfection in the conservatory or greenhouse.

However, the following notes are a guide to and for the benefit of those who would perhaps try this. Today there are many prepared composts available for this purpose, and will suit our needs quite admirably, with perhaps the addition of a little coarse grit to aid drainage, and gentle feeding at flowering time.

After potting, it is essential that the bulbs are kept cool and moist, this is to develop the root system. Plunging the pots outside and covering with a couple of inches of peat or similar substance is the ideal, as should the bulbs be subjected to premature indoor warmth, growth will be weak and often the flower will strangle in the neck of the bulb, also the bulb could be severely checked and die. So a simple rule is to plant early, keep cold, and bring inside to a cool room or conservatory when the flower buds are clearly well out of the bulb. After flowering keep well watered and give an occasional feed for about six to eight weeks, then plant outside in the usual way.

For open ground culture, most garden soils will grow fine daffodils, but the ground should be deeply cultivated and free draining. Should manure or compost be necessary, this should be well rotted and worked into the soil a good spade's depth below the surface. Bulbs should never be in actual contact with manures as this does encourage disease and could be the cause of rotting.

When planting outside, make a hole deep enough to cover the bulbs by at least twice the depth of the bulb. Some of the larger bulbs will need at least 6" of soil covering them. They can then be left undisturbed for several years until lifting and dividing is necessary.

For garden display, a clump always looks better than a straight row; in this way Daffodils can be incorporated into a flower bed or shrubbery. Remember a little feeding at flowering time will benefit the bulbs and assist in producing next year's display. You should not remove the leaves until they are beginning to turn yellow, or for at least eight weeks after flowering.

DIVISION 5 - TRIANDRUS HYBRIDS

These delightful varieties of Daffodil are the result of selective breeding where the species n.triandrus has been introduced into its parentage, the resulting plants often have 2 or 3 flowers on the stem, and are amongst the ladies' favourites in floral arrangements.

These from Division 5. and those of Division 6. are generally much dwarfer in stature and are ideally suited to the garden or rockery. The plants are hardy and quite resistant to the windier spot where the conventional Daffodil often gets broken off.

DIVISION 6 - CYCLAMINEUS HYBRIDS

"Betsy MacDonald" 6W-P(LM) S130 (Foundling x Tangent). This is a most sturdy plant with a flower on short stems that seems to withstand the weather well, has been greatly admired by many visitors to the shows here in Cornwall and has had some success on the show benches. The perianth is broad and well overlapping which reflexes naturally, to show off the vibrant pink corona. It is perhaps a little large for some tastes but never the less a fine example of its kind.

Betsy MacDonald 6W-P

"Coombe Creek" 6W-O (LM) S431 (Kea x Foundling). The short stiff stem makes this a perfect plant for the more exposed situation, but the flower is also well suited for the show bench, the ivory white perianth is broad, well overlapped and strongly reflexed, with a long corona of orange with pinkish undertones. each £6.00

Chickadee 6Y-O

"Creed" 6W-Y (LM) S851 (Regal Bliss x Pink Silk) xn.cyclamineus) This has been greatly admired for several years in our field trials, it is a little larger than some, but has proved itself to be durable plant and will be excellent for the Garden or for the show bench where it has many successes. £10.00 each

"Frogmore" 6Y-Y (LM) S210 (Ormeau x n. cyclamineus) We have named this at the request of several successful exhibitors and enthusiasts, it is a little larger than many in this division but does show all the natural characteristics, and has been very successful on the show benches, beautiful solid colour and a strong plant. £3.00 each

"Kea" 6W-YP (Jenny x 2W-P seedling) S217. Late mid-season. Successfully shown at the R.H.S. This has a good cyclamineus form, the colour and does need a little time to develop..... each £5.00

"Penril" 6W-O. Mid-season. Another seedling acquired from Brian, this is a much shorter plant and has a typical cyclamineus growth habit. Division 7. Jonquilla Hybrids.

This Jonquilla section is for hybrids that have been bred with the species n.jonquilla. The resulting plants vary in stature from quite dwarf to very tall, however they are generally on good stiff stems that can stand a fair amount of wind. Most of the stems do have several flowers on each and without exception all are sweetly scented, which makes them ideal for indoor decoration.

"An-Gof" 7W-GYO(LM) S727 (Lancaster x n.jonquilla). This we believe to be the first of this colour in the Division, it has up to 3 florets on the stem but mostly twos, very scented and of excellent show form, the plant is strong and of good increase£6.50

"Boscastle" 7Y-Y(L) S111 (Aircastle x n.jonquilla). 2 or 3 sweetly scented flowers to a stem with broad smooth and well overlapping perianth segments make this an ideal show quality flower, bulbs often give secondary stems which can only add to its benefits as a perfect plant for the garden or cutting.....3 for £4.50

"Crill" 7Y-R, (LM) S/677. (Dateline x n.jonquilla) A new and exciting jonquilla hybrid, this is a most prolific bloomer with several tall stems being produced from established bulbs, each stem has up to 3 florets of rich Golden Yellow with a Bright Orange Red cup, it is nicely scented, beautifully formed and the blooms last a long time, perfect for the Show bench or the discerning gardener, and we feel that this could well have a future in the cut flower market.....£4 each or 3 bulbs for £10

"Kit Hill" 7Y-YWW(L) S107 (Aircastle x n.jonquilla). Stems usually with two sweetly scented florets, very smooth and soft pale yellow perianth segments and a neat round cup that fades to ivory white, this flower has already won its class on several occasions and much admired in our trials.....each £2.00 or 3 for £5.00

"Mowser" 7Y-OOR (LM) S557 (Altruist x n.jonquilla) Up to 4 florets on a stiff stem, it is very prolific of bloom with many secondary blooms with 1 to 3 florets, the blooms are neat and rounded, of dark golden yellow with a shallow crown of dark red slightly paler at the base (AM)e.....each £7.50 or 3 for £15.00

"Penstraze" 7Y-GRR (M) S694 (Montego x n.jonquilla var henriquesi) A lovely twin headed and very sweetly scented flower ideal for exhibition and has won its class on many occasions, the richly coloured Yellow and Red blooms with a contrasting Green centre are small and in perfect balance with shorter stem, it is long lasting and appears to stand the weather well.£12.50 each.

Division 8. The Tazetta Hybrids.

These plants are the results of many years of breeding and can really be divided into two types. They are with the exception of "Minnow" all quite big plants, some do have very tall stems and foliage. The first kind are more of the true n.tazetta species in form. As the species is generally found in warmer regions of southern Europe and the Mediterranean. They are somewhat tender and do require a hot dry summer period to perform at their best, however they are well worth trying, when each stem could have up to 15 or 20 highly scented florets. The second group or kind is the "Poetaz", these are slightly different in style and have fewer florets, and the scent is an admixture of the n.tazetta and that of the n.poeticus from which these hybrids have been derived. It is the poeticus part that make these much hardier and do withstand our winters as well as any other type of daffodil.

"Hugh Town" 8Y-O(VE)

This wonderful multi-headed flower is proving to be one of the best of its type for cutting and floral arrangements, and is a magnificent choice for the early Garden Display. Site the planting to avoid a very cold situation and to receive the full benefit of sun during the summer to ensure a thorough ripening of the bulbs. This is one we highly recommend to you, highly scented. 3 for £2.50, or 10 for £6.50

Division 9. The Poeticus Hybrids

These flowers have been commonly called the "Pheasant Eye" and indeed they have been bred from the old species, however these varieties are far superior in form and colour and flower when most other Daffodils have been long finished. They are best picked young as the sun does affect the lovely colours if left out. They are without exception all highly scented. The plants like to be planted in good soil that never completely dries out, this helps to keep them cool. Set the bulbs slightly deeper than normal and leave undisturbed. New bulbs may take a season to settle, but are well worth their place in the garden.

"Blisland" 9W-YR(L) S584 (Corofin x Lady Serena). We have had many successes with this on the show bench, the flowers are pure white with a shallow corona of yellow rimmed in red, of good substance and delightfully scented, we have a good stock available each £5 or 3 bulbs for £10

"Colville" 9W-GYR (Corofin x Crenver) x Crenver) S131 Late season. Named at the request of several enthusiasts, this flower has already featured in the prize winners on several occasions, the perianth opens with greenish undertones, but soon whitens to form a good foil for the brilliantly coloured corona, like all flowers of this kind it will not tolerate the sun and does need to be picked young.each £7.00

"Kabani" 9W-GYR(L) S742 (Woodland Star x Lady Serena). This is a tall strong growing plant of good constitution, a very consistent show quality flower with a broad well overlapped perianth and a shallow corona of bright yellow and a dark red band with a lovely green centre, we have successfully shown this on several occasions . . . £4.50

"Merthan" 9W-YR (L) S734 (Corofin x Lady Serena)
The flower is a little larger than some of this kind and is held on tall strong stems, the pure white perianth is broad and smooth and shows the flat brightly coloured corona off to perfection, a regular winner at shows and has been Best Bloom of its class at the National Show.£5.00 each or 3 for £12.50

"Penjerrick" 9W-GYR (L) S554 (Woodland Star x Lady Serena)
This is a larger flower on the style of Lady Serena, but with much more substance and a smoother perianth the shallow crown is very rich in colour with a hint of olive in the throat. £2.50 each or 3 for £5.00

"St Petroc" (LM) S725 9W-GYR (Merlin x Lady Serena)

"Cornish Chuckles" 12Y-Y(E) (Matador x n.cyclamineus).

This super little plant is a sister to Eaton Song being just a little shorter in the stem and of darker colour in the cup, a very prolific bloomer with several blooms to a stem and established bulbs will produce secondary stems to extend the flowering period, a must for the front border or tubs3 for £3.50, 10 for £7.50 or 100 for £50.00.

"Eaton Song" 12Y-O (Matador x n.cyclamineus). AGM Very early. This is an excellent Dwarf garden plant and an interesting variety for showing, very long lasting and sends many secondary blooms to lengthen its flowering season.....5 for £2.50

"Odd Job" 12W-O, (LM) S/350 (Merlin x Foundling) x n.triandrus) We attempted to breed a dwarf plant with different colour, this variety is shorter in the stem and the flower smaller, the vigour is amazing and produces large healthy bulbs with several bloom from each bulb, the flowers are quite novel as the perianth reflexes to show off the flat almost disc like corona, we have shown this on several occasions in the novelty classes where it has been very successful. A colourful addition to the Garden.....3 bulbs for £4.50

"Upalong" 12W-YYR, (LM) S/351 (Merlin x Foundling) x n.triandrus) Quite a novel little flower, a sister plant to 'Odd Job', with naturally reflexing perianth segments and a drooping poise, not as tall as many and will stand the weather well, it is a most prolific growers and make good bulbs, I have shown this in the novelty classes with success on many occasions, but is most suited to the Garden border3 bulbs for £4.50

I have been acquiring these for many years and have obtained much pleasure from them, particularly those grown in the alpine house. The species always seems to resent being moved about, but once settled are a joy to see in naturalised surroundings. Very large quantities are not available. I believe them all to be true to name, but like many there seems to be some considerable variance of form, they are however named as sent to me or have been grown from seed.

INTERMEDIATE SIZE VARIETIES

Many of these varieties have been re-classified from the Miniature section as being just too large in bloom size for the show classes, however the plants are much dwarfer in stature than the standard cultivars and most are well suited for the intermediate classes at show or for the Border and rock Garden.

"**Pretty Baby**" 3W-GYO (LM) A perfectly proportioned sized bloom with many top awards to its credit at major shows, just 74mm diameter with broad rounded petals and a shallow cup of yellow rimmed in Red and a deep green eye, a "Pretty Baby"£9.00 each 3 for £25.00

"**Radjel**" 4Y-R(M) S298 (Paricutin x Tamar Fire). A perfect intermediate size bloom that won its class at the National Shows. The stems are tall and stiff with a small formal double flower of bright golden yellow with rich red petaloids. Like its parents a good grower.....each £5.00

"**Salakee**" 2Y-Y (E) S401 (Ristin x *n.cyclamineus*). This lovely little flower is a true intermediate, very dwarf and a good grower, despite its pollen parentage there is no reflex in the perianth, but it has inherited the rich golden colour and smoothness of "Ristin", and has many times been a winner in the intermediate classes.each £4.50

"**Skilliwidden**" 2Y-Y (E) S539 (Ristin x *n.cyclamineus*) AGM AMe. This is a Fun flower named after one of our mischievous, Cornish Pixies (Piskies). The plant and flowers are small, rich in colour and perfectly formed, an ideal intermediate bloom.....£3.00 each or 3 for £7.50
