Sehr geehrter Geschäftsfreund, sehr geehrter Kunde,

ich freue mich sehr Ihnen unseren neuen komplett überarbeiteten Hauptkatalog chirurgischer Instrumente der verschiedensten Disziplinen vorstellen zu dürfen. Bei der Auswahl der Produkte in den verschiedenen Disziplinen, sind wir mit der größtmöglichen Sorgfalt bezüglich der Aktualität der Instrumente vorgegangen. Es besteht in allen gängigen chirurgischen Disziplinen die Möglichkeit, sich die Instrumente selbst zusammen zu stellen, oder aber, Sie können sich auch von uns, auf Anforderung, Instrumentensätze zusammenstellen lassen, die uns für Ihre jeweils spezifischen Aufgaben als geeignet erscheinen. Ich für meinen Teil, wünsche Ihnen auf jeden Fall, viel Erfolg in Ihrer täglichen Arbeit und würde mich freuen, wenn Sie uns und unserem Instrumentarium auch in Zukunft weiterhin die Treue halten würden.

Dear business associate and/or customer,

I am very pleased to present you our new, completely revised main catalogue of surgical instruments for the various disciplines. When selecting the products for the various disciplines, we took extreme care to ensure that the instruments are up to date. In all common surgical procedures, it is possible to assemble the instrument sets yourself at your request, or to have us assemble sets of instruments that we judge to be suitable for your specific tasks. For my part, I would like to wish you every success in your daily work and would very much appreciate your continued loyalty to us and our range of instruments in the future.

Estimado corresponsal, estimado cliente,

me alegra poder presentarles nuestro nuevo catálogo general de instrumentos quirúrgicos para las diferentes especialidades, completamente revisado. Para la selección de los productos en las diferentes especialidades hemos procedido con el máximo esmero posible en relación a la actualidad de los instrumentos. En todas las especialidades quirúrgicas existe la posibilidad de agrupar por sí mismo los instrumentos, o bien Ud. también puede solicitar que nosotros agrupemos juegos de instrumentos apropiados para sus tareas específicas. Por mi parte les deseo mucho éxito en su trabajo diario y me alegraría si en el futuro continuáran manteniendo la confianza en nosotros y en nuestros instrumentos.

Gentile socio d'affari, Gentile cliente,

sono lieto di poterle presentare il nostro nuovo catalogo generale di Strumenti chirurgici delle più diverse discipline, completamente rielaborato. Per la scelta dei prodotti nelle diverse discipline abbiamo proceduto con massima accuratezza in riguardo all'attualità degli strumenti. È possibile assortire in modo individuale gli strumenti in tutte le discipline chirurgiche correnti, oppure, su richiesta, Le possiamo anche proporre un assortimento di set di strumenti, che ci sembrano appropriati di volta in volta ai Suoi compiti specifici. Da parte mia Le auguro, in ogni caso, di poter svolgere il Suo lavoro quotidiano con successo e sarei lieta di poterla ancora annoverare tra i nostri clienti, assicurando così, a noi e ai nostri strumenti, il Suo apprezzamento anche in futuro.

Die Fertigung unserer Produkte ist eine Symbiose aus langjähriger handwerklicher Tradition und modernsten Fertigungsabläufen mittels CNC gesteuerter Fertigungszentren, welches einen hochwertigen Funktions- und Qualitätsstandard unserer Produkte sicher stellt.

Our product manufacturing is a symbiosis of many years of tradition in craftsmanship combined with the most modern production processes using CNC-controlled manufacturing centres, which ensures the highest standard in terms of both functioning and quality for our products.

La fabricación de nuestros productos es la simbiosis de una larga tradición artesanal y modernos procesos de fabricación mediante CNC, lo que asegura un elevado estándar de funcionamiento y calidad de nuestros productos.

La lavorazione dei nostri prodotti è una simbiosi tra la tradizione artigiana pluriennale e i più moderni processi di produzione attraverso centri di lavoro a CNC, che assicurano ai nostri prodotti un alto standard di qualità e di funzionamento.

Bereits bei der Vorauswahl und Materialprüfung der verwendeten Werkstoffe, hauptsächlich korrosionsbeständige Chromstähle, halten wir uns an die uns selbst auferlegten strengen Qualitätsmaßstäbe die sich kontinuierlich über den ganzen Fertigungsprozess hindurch fortsetzen, wodurch wir eine sehr hohe und immer wiederkehrende Produkt- und Modelltreue erzielen.

We adhere to strict quality standards that we impose on ourselves as early as during the preselection and testing of the materials of construction used, which are mainly corrosion-resistant chrome steels. These standards apply throughout the entire manufacturing process, thus ensuring a very high and very repeatable degree of product and model consistency.

Ya en la preselección y control de los materiales utilizados, esencialmente aceros al cromo resistentes a la corrosión, cumplimos nuestras exigentes normas de calidad que se propagan de forma continua en todo el proceso de fabricación, alcanzando siempre un producto de alta calidad y exacto al modelo.

Già nella selezione anticipata e nel controllo dei materiali utilizzati, generalmente acciai al cromo resistenti alla corrosione, ci atteniamo alle severe misure di qualità da noi stessi fissate, che vengono continuamente applicate a tutto il processo di lavorazione, pur ottenendo comunque un'alta e sempre ricorrente fedeltà al modello del prodotto.

Jeder Einzelne unserer hoch qualifizierten und hoch motivierten Mitarbeiter und Mitarbeiterinnen engagiert sich tagtäglich auf das Neue und sieht in der Erfüllung der Bedürfnisse und Wünsche unserer Kunden seine oberste Pflicht.

All our highly qualifield and highly motivated employees do their utmost every single day and dedicate themselves to fulfilling the needs and wishes of our customers.

Cada uno de nuestros colaboradores, altamente calificado y motivado, se compromete a diario de nuevo y considera su obligación en la satisfacción de las necesidades y deseos de nuestros clientes.

Ogni nostro singolo collaboratore, altamente qualificato e motivato, è disponibile ogni giorno a nuove sfide e s'impone come dovere assoluto la soddisfazione dei bisogni e delle richieste dei clienti.

Im Mittelpunkt unserer Firmenphilosophie stehen der Kunde und der Anwender mit ihrem berechtigten Interesse an der Qualität unserer Instrumente. Ein perfekt auf alle Unternehmensbereiche abgestimmtes Qualitäts Management System regelt die kundenorientierten Abläufe, beginnend bei der Produktion bis hin zu der Rückverfolgbarkeit aller Produkt- und Kundenrelevanten Daten. Alle von uns gelieferten Instrumente sind mit dem CE Kennzeichen versehen.

The focus of our company philosophy is the customer and user with their justified interest in the quality of our instruments. A Quality Management System that is ideally adapted for all company areas controls the customer oriented processes, starting with production and continuing right through to the after-sales service.

Como centro de la filosofía de la empresa se encuentra el cliente y los usuarios, con su merecido interés en la calidad de nuestros instrumentos. Un perfecto sistema de control de calidad en todas las áreas de la empresa regula los ciclos orientados al cliente, comenzando en la producción hasta la trazabilidad de todos los datos relevantes sobre los productos y clientes. Todos los instrumentos fabricados por nosotros poseen la marca CE.

Al centro della filosofia della nostra ditta si trovano il cliente e l'utente con il Loro giustificato interesse alla qualità dei nostri strumenti. Un sistema di gestione in perfetta armonia con tutti i settori aziendali regola i processi orientati al cliente, a cominciare dalla produzione fino a la tracciabilità di tutti i dati pertinenti sui prodotti e clienti. Tutti gli strumenti da noi forniti sono provvisti con il marchio CE.

Der Aufbau des Frimed Hauptkataloges erfolgte in numerisch aufsteigender Reihenfolge. Damit ist jede Artikelnummer jederzeit sofort auffindbar. Die Artikelnummer gibt Auskunft über die Artikelgruppe/Details des Artikels wie Größe und/oder Figur des Instrumentes.

The Frimed main catalogue is structured in numerical order, starting with the lowest numbers. This means that every article number can be quickly located at any time. The article number provides information about the article group and details concerning the article such as size and/or the form of the instrument.

El catálogo general de Frimed está estructurado numéricamente de forma ascendente. De esta forma, cada número de artículo se encuentra rápido y en cualquier momento. El número de artículo informa sobre el grupo/detalles del mismo, como por ejemplo tamaño y/o figura del instrumento

La struttura del catalogo generale Frimed è in successione numerica ascendente. In questo modo ogni numero di articolo è rintracciabile subito in ogni momento. Il numero di articolo offre informazioni sul gruppo di articoli/dettagli riguardanti l'articolo così come la grandezza e/o l'immagine dello strumento

Fig. 2 – 4

Der Teleskop-Laryngoskopspatel ist die Konsequenz aus den Erfahrungen mehrjähriger Notärzte mit der Intubationstechnik. Die Notwendigkeit der Intubation ergibt sich nur bei einem kleinen Prozentsatz der Einsatzfälle. Sie muss sie jedoch schnell und sicher erfolgen können! Die bisherige Methode mit mehreren Laryngoskopspatelgrößen benötigt viel Volumen in Rettungskoffern ein und trägt erheblich zu dessen Gewicht bei.

Wird dem Notarzt bei der Intubation der falsche (insbesondere zu kleine) Laryngoskopspatel zur Verfügung gestellt, muss evtl. nach frustriertem Intubationsversuch, ein relativ zeitraubender Spatelwechsel erfolgen.

Jetzt besteht das Hauptrisiko für Hypoxämie und Aspiration für den Patienten!
Der Teleskop-Laryngoskopspatel erlaubt die sichere Intubation mit sofortiger Anpassung der Spatellänge durch den Notarzt. Sein Volumen- und Gewichtsanteil im Rettungskoffer ist definitiv niedriger. Dies führt zur Steigerung der Einsatzfähigkeit des Rettungsteams bei der Boden-, See- und insbesondere auch bei der Luftrettung.

The Telescope Laryngoscope Blade is the consequence of the experiences of emergency doctor for years. An intubation is only necessary at a small percentage of the emergency cases. But then it has to be effected quickly and safe! The present method with various sizes of Laryngoscope blades needs many space in the rescue suitcase and it makes it very heavy.

If the emergency doctor gets the wrong blade at the emergency (especially if the blade is too small) a change of blades has to be effected, probably after a futile trial of intubation, which is very time consuming.

Now is the main risk for hypoxemia and aspiration for the patient!

With the Telescope Laryngoscope Blade the emergency doctor is able to make a safe intubation with the possibility of an immediate adjustment of the length of the blade. The volume and the weight of the rescue suitcase is definitely lower.

This aspect diate adjustment of the length of the blade. The volume and the weight of the rescue suitcase is definitely lower. This aspect leads to an increase of the capacity of the rescue team on ground, at sea and especially in the air.

El Laringoscopio telescopico es la consecuencia de las experiencias de medicos de urgencias durante años.

Una intubación es sólo necesaria en un pequeño porcentaje de los casos de emergencia. El método presente con varios tamaños de hojas de Laringoscopio necesita mucho espacio en la maleta de rescate y esto la hace muy pesada.

Si se le entrega al medico de urgencias la hoja incorrecta para la intubación (sobre todo si la hoja es demasiado pequeña) un cambio de hoja tiene que ser efectuado, probablemente tras un intento vano de intubación que requiere mucho tiempo.

Ahora es el riesgo principal para hipoxemia y aspiración para el paciente!

El Laringoscopio telescopico permite al medico de urgencias una intubación segura con la posibilidad de un ajuste inmediato de la longitud de la hoja. El volumen y el peso de la maleta de rescate son definitivamente inferiores. Este aspecto conduce a un aumento de la capacidad del equipo de rescate sobre la tierra, en el mar y sobre todo en el aire.

Il Laringoscopio telescopico è la conseguenza dalle esperienze di dottori di emergenza per anni. Una intubazione è solamente necessaria in una piccola percentuale dei casi di emergenza. Il metodo presente con le varie taglie delle lame di Laringoscopio ha bisogno di molto spazio nella valigia di liberazione e lo fa molto pesante. Se il dottore di emergenza trova la lama sbagliata all'intubazione (specialmente se la lama è troppo piccola) un cambio di lame doveva essere effettuato, probabilmente dopo un triale futile di intubazione che richiede molto tempo.

Ora è il rischio principale per hipoxemia e l'aspirazione per il paziente!

Col il Laringoscopio telescopico il dottore di emergenza è capace di fare un'intubazione sicura con la possibilità di una rettifica immediata della lunghezza della lama. Il volume ed il peso della valigia di liberazione sono definitivamente più bassi. Questo aspetto conduce ad un aumento della capacità della squadra di soccorso su terra, a mare e specialmente nell'aria.

Bleihände. Durch Umbiegen der Lappen werden Hand und Finger in Operationslage festgehalten und durch das Gewicht der Bleihand zusätzlich immobilisiert.

Lead hands. Hand and fingers are secured by bending the lateral fixator into position and further fixed by weight of lead hand.

Manos de plomo. Doblando los lóbulos se sujeta la mano y los dedos en la posición para operar y además se queda inmóvil por el peso de la mano de plomo.

Mano di piombo. Legando i lobi, la mano e le dita vengono fissate in posizione da poter operare grazie al peso della mano di piombo.
