## UNICASA

The Unicasa Group, located in the city of Bento Gonçalves, South Brazil, is one of the largest customized furniture company, with more than 30 years combining technology, design, quality, innovation and sustainability in the manufacture of furniture for the Dell Anno, Favorita, New and Casa Brasileira brands.

In addition to a vast network of stores throughout Brazil, Unicasa has export channels in various countries in the Americas, Africa and Middle East. The company's infrastructure comprises of one of the largest and most advanced technological parks in the sector, with over 50,000 m2, producing 180,000 furniture modules per month.

The business went public in 2012, an unprecedented event in the furniture segment, which represented an advance in the standards of quality and transparency of the company, due to the high level of governance required, which further increases its relevance in the market.

### BISTROT WOOD

In many projects, the presence of an organic element can make all the difference. This wood insert brings a natural and sophisticated atmosphere to the kitchen environment.

## TANDEMBOX

With the Tandembox drawers, you benefit from the most diverse composition possibilities. Its functionality impresses through the smooth slide even when the drawer is fully loaded.

Equipped with a Blumotion damper system, the extensions slide smoothly and silently closes regardless of the pressure applied.

To ensure this high quality standard, drawers are opened and closed several times in a Blum test laboratory. Their versatility is also showcased in the configuration of form: low and upper drawers, internal and external drawers, with railings or close compartments (boxside), with narrow or wide extensions.
