

Transporter Springs 2013

OE-Standard

We produce springs according to OE-standard.

According to the specification we use the following materials:

- 60SiCr7
- 50CrV4
- 51CrMoV4

All our springs are stress peened to give them a higher durability.

Special paint guarantees the best surface protection.

IMPORTANT:

Make sure that the U-bolts are properly fastened, otherwise the centre-area will break!
