Background

The following report considers the cost of providing Medicaid services to members who work for an employer with 50 or more employees for State Fiscal Year (SFY) 2022. This report is produced annually as a requirement of NRS 422.27482 which requires that the Department of Health and Human Services prepare an annual report listing all employers in this State which have 50 or more employees and the number of full-time employees of such an employer who are enrolled in Medicaid.

Federal law does not exclude employed individuals from coverage in Medicaid as long as they meet other eligibility requirements for Medicaid, including being low income. This includes employed individuals who have an offer of affordable health insurance from their employer. However, as a condition of eligibility in Medicaid, individuals must identify any potential third-party sources of coverage, and assign the Medicaid agency the right to pursue third-party liability on their behalf for health care expenses.

The state anticipates that, an unknown portion of those identified in this report as employed and enrolled in Medicaid will no longer be eligible for Medicaid after the unwind of the federal Public Health Emergency (PHE), which will occur in April 2023. During the federal PHE, states were required to maintain continuous enrollment for Medicaid recipients, or they would risk being ineligible for enhanced federal Medicaid funds during the pandemic. For example, prior to the PHE, a Medicaid enrollee who recently became employed may become ineligible for Medicaid due to excess income. However, during federal PHE, these individuals continued to be listed as enrolled in Medicaid.

Technical Notes

Determining if a company has employees enrolled in Medicaid was done by matching Medicaid members to records in the Nevada Department of Employment, Training, and Rehabilitation (DETR). This match provided quarterly wage information and identification numbers of the employers for whom Medicaid members worked during each quarter of SFY 2022.

Employment was then defined using the wage threshold associated with earning minimum wage in Nevada. More specifically, the group of Medicaid members presented in this report represents employees who earned \$4,200.00 or more in gross wage earnings for any 12-week consecutive period (one quarter) in SFY 2022, as reported to DETR. This gross quarterly wage represents the lower tier minimum wage of \$8.75 an hour paid to employees who worked 40 hours per week.

DETR also supplied a file with the employer identification number, company name, and address for employers in Nevada with 50 or more employees. The wage file and employer file were then combined to identify which Medicaid members were employed by companies with 50 or more employees. It is important to note that a Medicaid member may have had more than one employer during the year. The total cost to Nevada Medicaid represents a distinct cost to the State. However, the cost associated with each company considers the complete cost of the employees and dependents of that company and may be duplicated across companies when an individual is employed by multiple employers during the fiscal year.

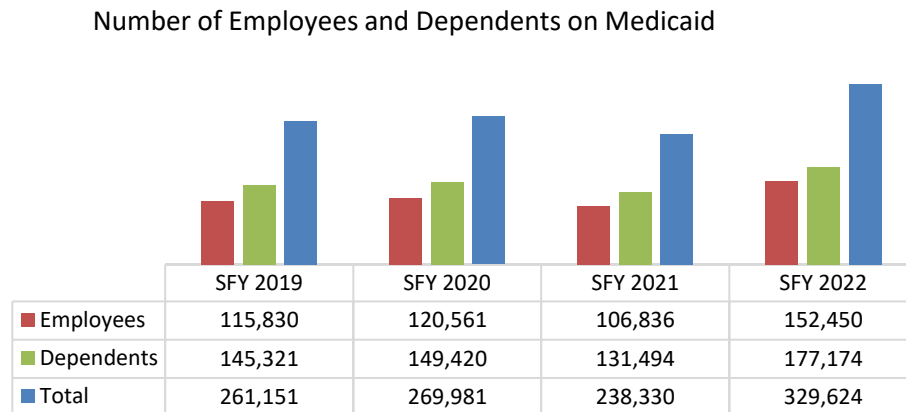

To determine the dependents of Medicaid members who worked for a company with 50 or more employees, corresponding case IDs (ICIs) were identified for the list of Medicaid members who work for companies with 50 or more employees and all other members of the case were counted.

Determining whether an employer offered health coverage benefits was done by matching the employer’s Employer Identification Number (EIN) against the Department of Labor’s Employee Benefits Security Administration’s database of Form 5500’s filed by the employer. Form 5500 identifies the different welfare, health, and pension plans offered by an employer. A value of 4A in line 8b on Form 5500 indicates that the employer offers a health benefits plan and a value of 4U in line 8b on Form 5500 indicates that the employer has a collective-bargained welfare arrangement. However, not all employers need to file a Form 5500 and may offer health benefits to their employees. The Division of Insurance does not currently track which employers offer health insurance benefits unless there is a consumer complaint.

Results

In SFY 2022 there were 152,450 employees covered by Medicaid who worked for companies with 50 or more employees and an associated 177,174 dependents for a total of 329,624 individuals covered (Figure 1). This was an increase of 38.3% of total individuals covered from SFY 2021 to 2022 and an increase of 26.2% from SFY 2019 to 2022.

Figure 1. Number of Employees and Dependents on Medicaid, SFY 2019 to SFY 2022

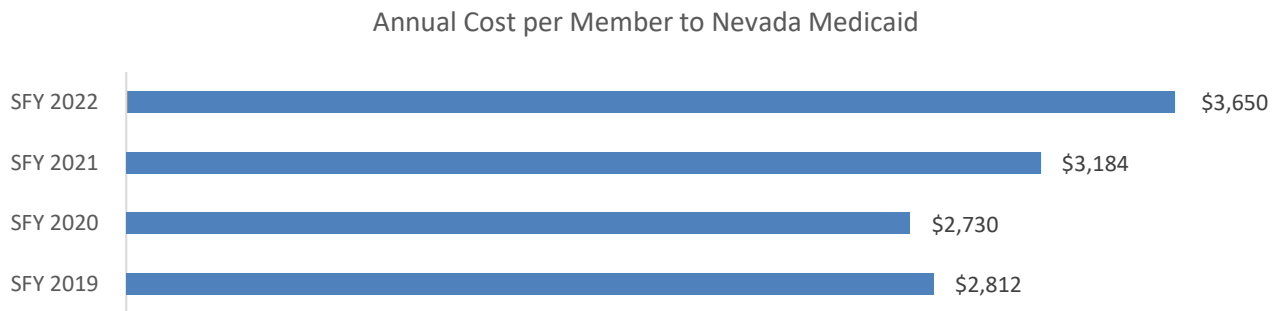

In SFY 2022, the cost of providing health care to these employees was \$742,830,100. The cost for providing health care to the dependents of these employees was \$460,414,954. Combining these results, the total cost to Medicaid for health care for these individuals was \$1,203,245,054.

	SFY 2019	SFY 2020	SFY 2021	SFY 2022
Total Cost to Nevada Medicaid	\$734,322,050	\$737,153,147	\$758,756,963	\$1,203,245,054
Cost for Employees	\$422,032,965	\$433,686,928	\$471,010,521	\$742,830,100
Cost for Dependents	\$312,289,084	\$303,466,220	\$287,746,441	\$460,414,954

The annual average cost for this subset of Medicaid members and their dependents has increased from \$3,184/member in 2021 to \$3,650/member in 2022 representing a 15% year-over-year increase. The total number of employees and their dependents has grown 38% from 2021 to 2022, the overall cost to Nevada Medicaid has increased by 59%.

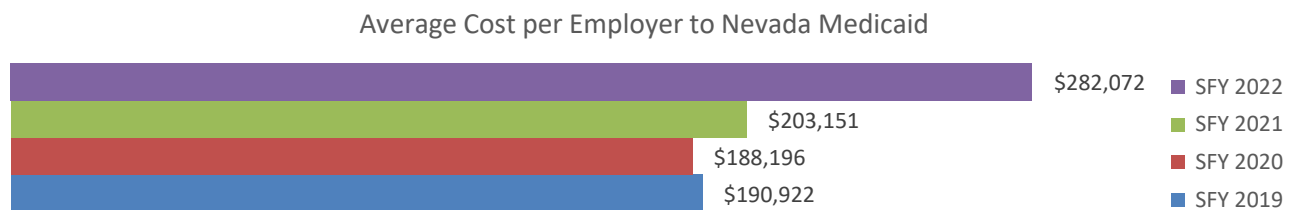

The Division of Welfare and Supportive Services (DWSS) has provided continuous health care coverage through the Families First Coronavirus Response Act (FFCRA) in response to the COVID-19 pandemic. A requirement of FFCRA was continuous coverage which allowed DWSS to discontinue the termination of eligibility, except under very limited circumstances. Most employees and their family members have maintained Medicaid coverage, and individuals who became employed while on Medicaid were not required to undergo annual redetermination. This pause on redeterminations is likely driving the increase in Medicaid enrollment for those employed by large employers and is expected to reduce when the federal continuous coverage requirement ends.

Figure 2. Annual Cost per Member, SFY 2019 to SFY 2022

These companies with 50 or more total employees had an average of 38 employees on Medicaid and 38 dependents associated with these employees on Medicaid, with an average overall cost to Nevada Medicaid of \$282,072 annually and a median overall cost to Nevada Medicaid of \$108,595 annually.

Figure 3. Annual Cost per Employer, SFY 2019 to SFY 2022

As shown in the table below which displays the companies who made up the top 10 employers when ranked by the total cost to Nevada Medicaid, this average is highly skewed by the top few employers causing the average cost to Medicaid (\$282,072) to be up as compared to SFY 2021 average cost to Medicaid (\$203,151). For example, the health care coverage costs associated with Medicaid members who were employed by Amazon.com Services Inc. (and their dependents) alone cost Nevada Medicaid \$52,901,575 a 22% increase from the previous year.

- Amazon.com Services Inc. is the leading employer of Nevada Medicaid recipients with a total of 14,546 employees and dependents on Medicaid.
- Wal-Mart Associates Inc. was the leading employer of Nevada Medicaid recipients consistently from SFY 2017 through SFY 2019 but is now ranked second to Amazon in SFY 2020 - SFY 2022.
- Clark County School District has ranked third since SFY 2020.
- Smith’s Food and Drug Centers Inc. has maintained their fourth position for 4 years in a row, SFY 2019 through SFY 2022.
- State of Nevada moved from the 10th position in SFY 2021 to 8th in SFY 2022
- Sitel Operating Corporation is in the top 10 for the second year in a row.

Employee Demographics

Most of the Nevada Medicaid members employed by companies with 50 or more total employees lived in Clark County (79%), with 11% in Washoe County and 8% in the Rural counties. Region of residence was unknown for 2% of these members. Thirty-one percent (31%) were Caucasian, 33% were Hispanic, 24% were African American, and 12% were of another race/ethnicity.

Figure 5. Employees Demographics by Region

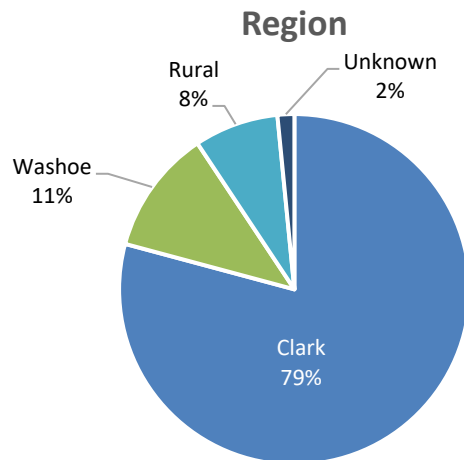

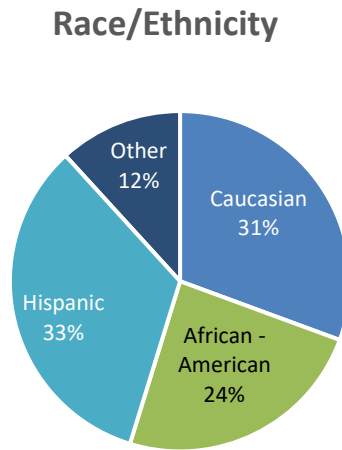

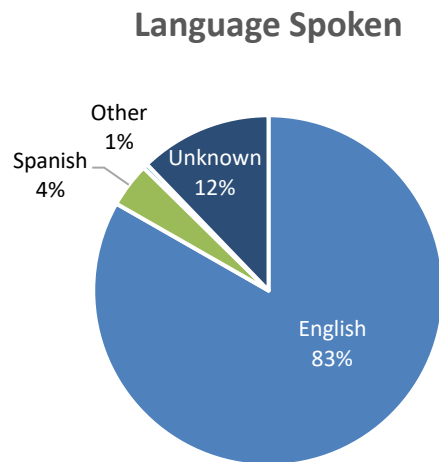

Figure 6. Employee Demographics by Race/Ethnicity

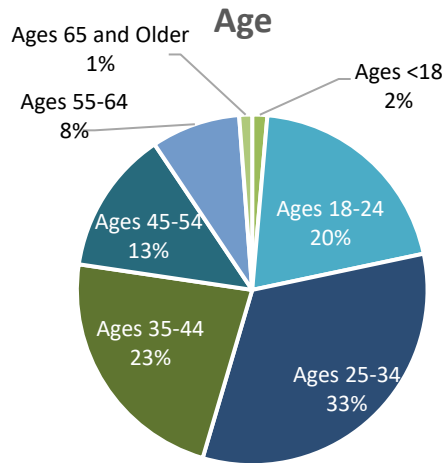

Most of these Medicaid members spoke English as a primary language (83%), with 4% listing Spanish as their primary spoken language and 1% listing another language. 12% had an unknown primary spoken language.

Figure 7. Primary Language Spoken by Employee

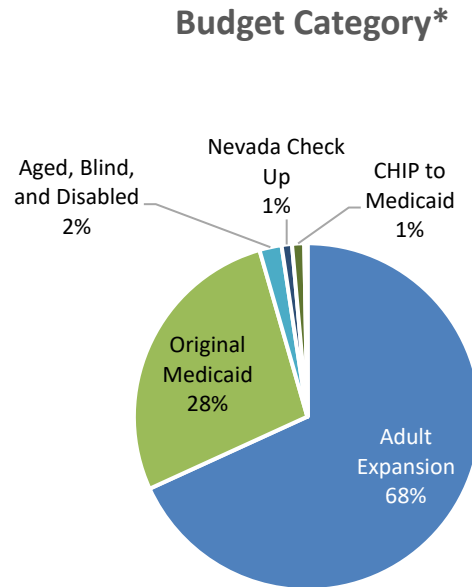

Twenty percent (20%) of these Medicaid members employed by companies with 50 or more total employees were 18-24 years old, 33% were 25-34 years old, 23% were 35-44 years old, 13% were 45-54 years old, 8% were 55-64 years old, and 1% were 65 years old or older. Age was unknown or listed as less than 18 for 2% of these members.

Figure 8. Age of Employee

Most of these Medicaid members were eligible for Medicaid under the Adult Expansion budget category (68%). Twenty-Eight percent (28%) were eligible under Original Medicaid, 2% were eligible under the Aged, Blind, and Disabled category, 1% were eligible under Nevada Check-up, and 1% were eligible under Children’s Health Insurance Plan (CHIP) to Medicaid.

Figure 9. Employee’s Medicaid Eligibility Budget Category

**Budget Categories that are not displayed here made up less than 1% of this caseload. These include Waiver, County Match, Child Welfare, and Child Welfare – State Only.*

Dependent Demographics

Most of the dependents of these Medicaid members employed by companies with 50 or more total employees also lived in Clark County (80%), with 11% in Washoe County, 8% in the remainder of the state, and 1% with unknown address information.

Twenty-four percent (24%) were Caucasian, 41% were Hispanic, 22% were African American, and 13% were of another race/ethnicity.

Figure 10. Dependents Demographics by Region

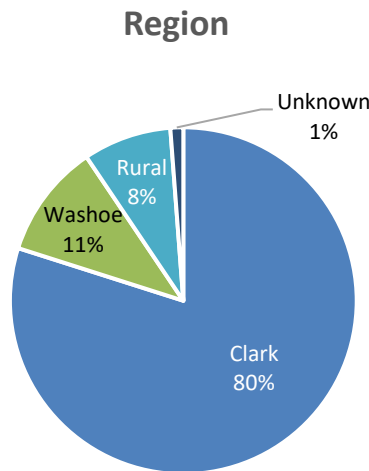

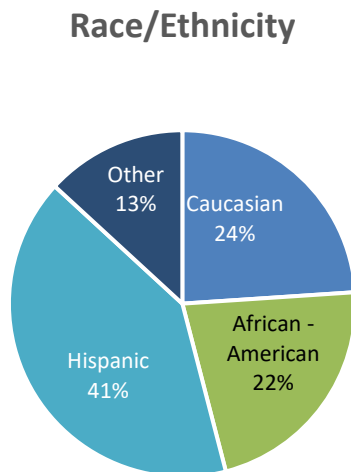

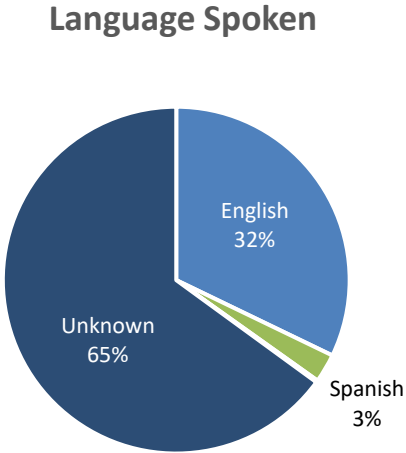

Figure 11. Dependents Demographics by Race/Ethnicity

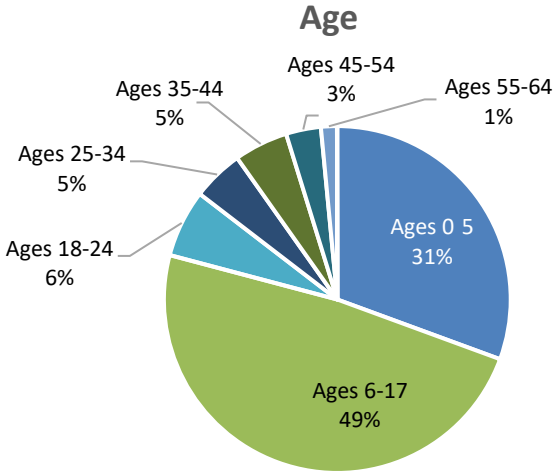

Language information was unknown for most of the dependents (65%). Thirty-two percent (32%) spoke English as a primary language, and 3% listed Spanish as their primary spoken language.

Figure 12. Primary Language Spoken by Dependent

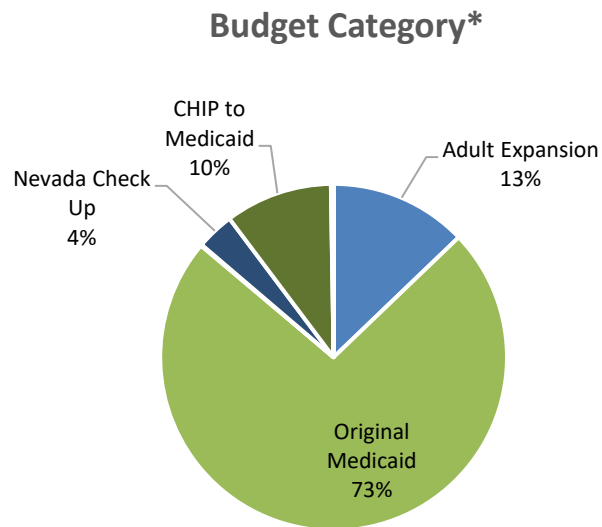

Thirty-one percent (31%) of the dependents were 0-5 years old, 49% were 6-17 years old, and 20% were 18 years old or older.

Figure 13. Age of Dependent

Most of the dependents were eligible for Medicaid under the Original Medicaid budget category (73%). An additional 13% were eligible under Adult Expansion, 4% were eligible under Nevada Check-up, and 10% were eligible under CHIP to Medicaid.

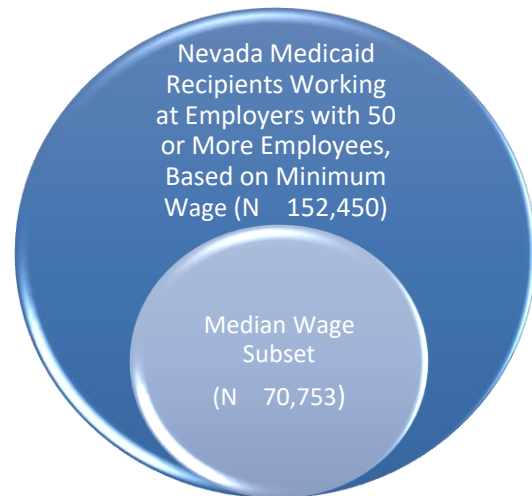

Figure 14. Dependents Medicaid Eligibility Budget Category

**Budget Categories that are not displayed here made up less than 1% of this caseload. These include Aged, Blind, and Disabled, Waiver, County Match, Child Welfare, and Child Welfare – State Only.*

Median Wage Subset

It may also be of interest to consider the number of these employees who earned enough in wages to meet the quarterly wage threshold associated with the median Nevada wage (more specifically, the subset of these Medicaid members who earned \$8,745.60 or more in gross earnings in a quarter). This gross quarterly wage represents the median wage in Nevada as of May 2021, according to the Bureau of Labor Statistics, of \$18.22 an hour.¹

Out of the 152,450 Medicaid members employed by employers with 50 or more employees who earned \$4,200.00 or more per quarter, 70,753 Medicaid members (46%) earned \$8,745.60 or more in gross earnings in a quarter. There were also 91,651 dependents associated with the Medicaid members in this subset. The demographics associated with this subset did not differ significantly from the demographics of the larger pool of Medicaid members and dependents considered in this report.

¹ "Nevada - May 2021 OES State Occupational Employment and Wage Estimates." U.S. Bureau of Labor Statistics, U.S. Bureau of Labor Statistics, 31 Mar 2022, https://www.bls.gov/oes/current/oes_nv.htm#00-0000.
