- ✓ Make Payment
- ✓ Fixed Deposits
  - Create Deal
  - Change / Display
  - Settle
  - Post
- ✓ Interest Receipts
- ✓ Maturity

**❖ Mutual Funds**

- ✓ Make Payment
- ✓ Mutual Funds- Purchase
  - Create Deal
  - Change / Display
  - Settle
  - Post
- Mutual Funds- Sale

**❖ Bonds**

- ✓ Make Payment
- ✓ Bonds-Purchase
  - Create Deal
  - Change / Display
  - Settle
  - Post
- ✓ Bonds- Maturity/Sale

## Treasury Management

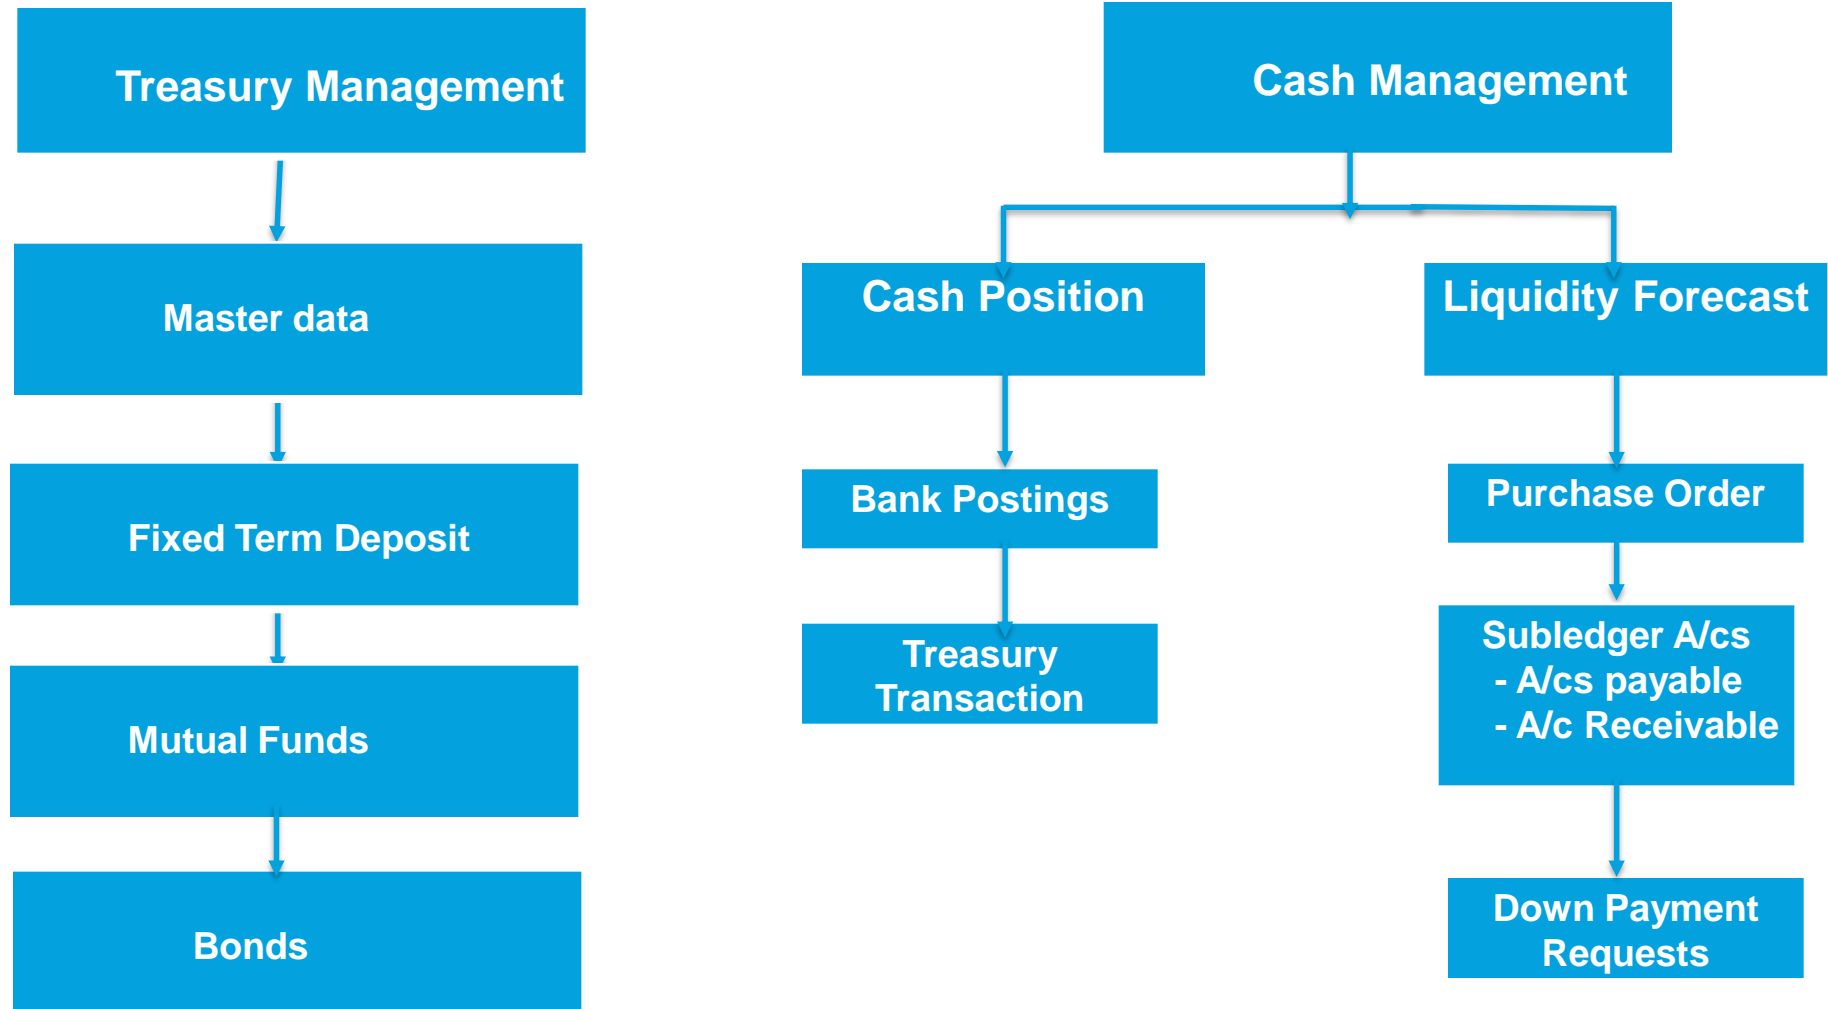

SAP Treasury Management is based on a series of solutions that primarily analyze and optimize business processes in the financial area of a company. The Transaction Manager provides the instruments for processing the related financial transactions, from deal capture through to transferring the relevant data to Financial Accounting.

Treasury Management is fully integrated with other components of the SAP System.

## Cash Management

SAP Cash Management enables an organization's cash or treasury department to manage bank accounts centrally, overview the cash daily operations and long-term liquidity trends accurately and precisely. Cash managers can easily and intuitively get a high-level overview and detailed insight into bank accounts, cash position and cash flows, enabling them to make decisions and take actions directly. The major features include:

- Bank Account Management
- Cash Position
- Liquidity Forecast

- 1 Business Partner (Create, Change & Display)
- 2 Security Class (Create, Change & Display)
- 3 Securities Account (Create, Change & Display)

## BUSINESS PARTNER MASTER DATA - LAYOUT

# Business Partner Fields and Roles

**Business Partner.** All financial Institutions, Banks will be created as Business Partner in the system. You create and manage centrally your **business partners** (BPs) and the roles they assume for your company.

## Business Partner Grouping:

For IISc, Business Partner Grouping is FIN-Financial Institutions.

Below are the Segments for Business Partners in SAP:

### BP General:

- Grouping:
- Title:
- Name:
- Search term:
- Postal Code:
- City:
- Country:
- Language:

### Company Code:

Company Code  
SI Authorizations

### Roles:

Counterparty  
Issuer  
Depository Bank

**Security Class.** In the SAP system, a security is a security class. The security class data includes all the structure characteristics of a security:

Below are the Key fields in Security Class in SAP:

- ID Number
- Product Type
- Short Name
- Long Name
- Product Category
- Product Type
- Issuer
- Currency
- End of Term
- Repayment Type
- Conditions
- Exchanges

**Securities Account.** You use securities accounts to manage and value your positions. You need securities accounts for all transactions which require position management. The securities accounts created in the system usually correspond to actual securities accounts at a bank. You must have a securities account if you want to purchase or sell a security.

Below are the Key fields in Securities Account in SAP:

- Company Code
- Securities Account
- Securities Account ID
- Securities Account Type
- Depository Bank

# Day – 2

- Master Data
- Fixed Term Deposits
- Mutual Funds
- Bonds

Based on an investment decision Fixed Term Deposit is currently used by IISc both for short term and long-term category of investments. Deposits less with than one year are treated as Short Term Deposits and more than one Year are treated as Long Term Deposits. It attracts a fixed interest rate according to the term of the deposit.

As investments are based on fund wise, below Product Types are configured to meet IISc requirement.

P Type	Description	P Type	Description

# Day – 3

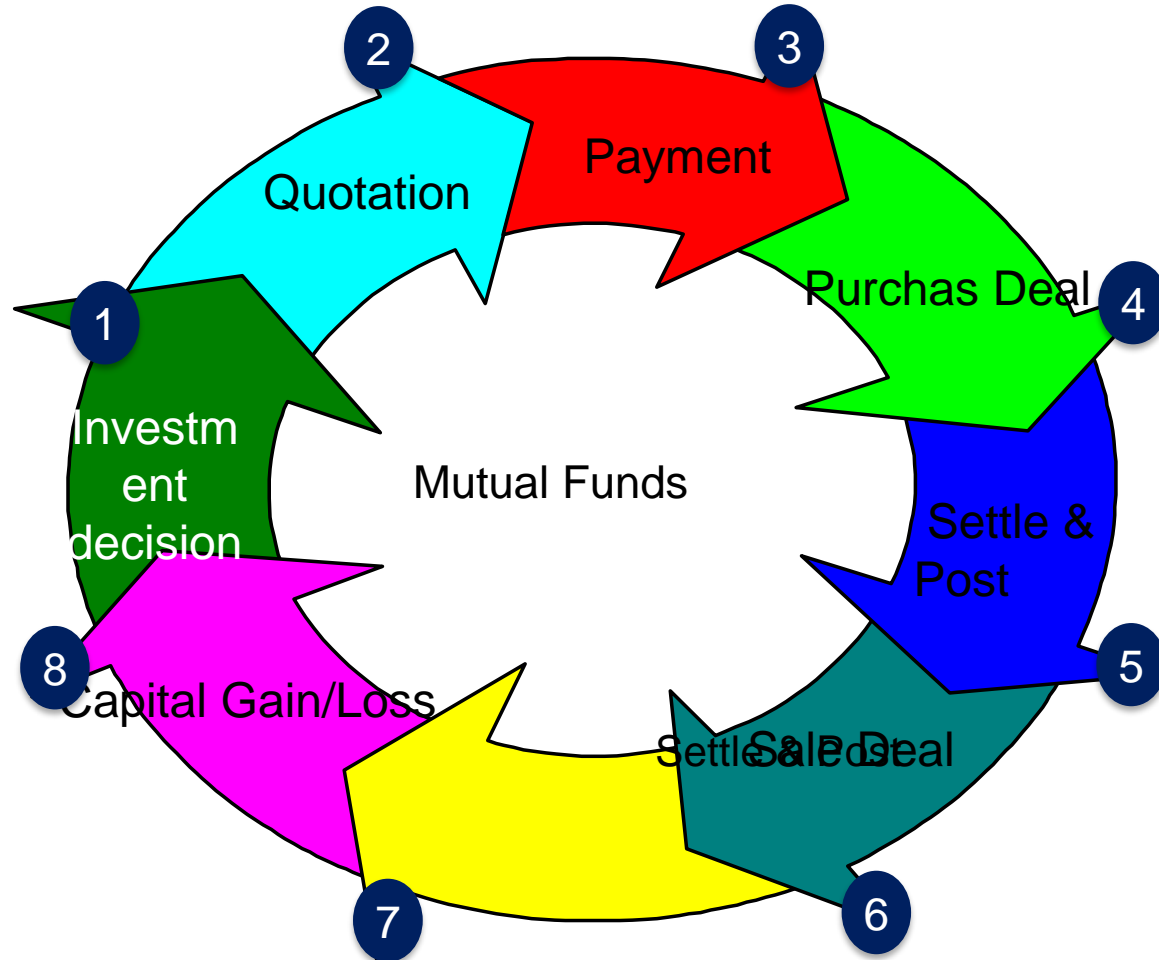

Mutual fund is one of the treasury products used by IISc for investment purpose. The treasury department of IISc analyses the cash position on periodic basis and takes the decision to Invest based on availability of surplus cash. IISc invests in Mutual funds as per the IP. The investment in IISc happens only in INR currently.

As investments are based on fund wise, below Product Types are configured to meet IISc requirement.

P Type	Description	P Type	Description
201	MF- Corpus	210	MF-CISTUP
