CITATION: White, John. 2010. *Flora of the Illinois Audubon Society's Lusk Creek Property in Pope County, Illinois*. Report to the Illinois Audubon Society by Ecological Services, Urbana, Illinois.

SUMMARY

- The Illinois Audubon Society's 57-acre Lusk Creek property has 574 species of flowering plants, ferns, and fern allies, including 509 native species. This is extraordinarily high diversity.
- The tract has four especially interesting concentrations of plant species: the northwest field, the sandstone glade and immediately adjacent forest, the southernmost bend in Lusk Creek, and the talus at the south end of the property.
- Six species are listed as Threatened or Endangered by the State of Illinois: sharp-scaled sedge, Willdenow's sedge, Appalachian bugbane, Yadkin panic grass, French's shooting star, and climbing milkweed.
- Eight species are designated by the U.S. Forest Service as Sensitive Species: the first five of the above-listed species plus superb lily, Goldie's fern, and ginseng.
- Four highly invasive species occur in the area: Japanese honeysuckle, autumn olive, Chinese yam, and stilt grass.

I. INTRODUCTION

Purpose

The purpose of this project is to provide an inventory and discussion of the vascular flora (*i.e.* flowering plants, ferns, and fern allies) growing at the Illinois Audubon Society's property along Lusk Creek in Pope County, Illinois.

Study area

The Illinois Audubon Society's property is a 57-acre inholding in the Shawnee National Forest's Lusk Creek Wilderness. It occupies the east half of the northwest quarter of section 27, Township 11 South, Range 6 East of the Third Principal Meridian excluding the north 14 acres and an irregularly shaped 9-acre parcel in the southwest corner of this half-quarter section.

Procedure

I surveyed the flora on the following dates in 2010: April 28, June 10, 11, 24, and 27, and September 17, 18, and 22. I searched for different kinds of plants by carefully and repeatedly examining all habitats throughout the area. I identified species and varieties on sight or by referring to botanical manuals and by comparing collections with herbarium specimens and illustrations. I also relied on the help of botanists who are familiar with the local flora.

Mark Basinger visited the property on June 27, 2008, and listed the plants that he observed in various habitats. His report (Basinger 2008) provided a solid foundation for my work by identifying 349 species, including many that can be hard to find or recognize.

II. INVENTORY OF THE FLORA

Table 1 is a list of vascular plants found on the property.* The compilation includes plants found by me, by botanists who accompanied me, and by Mark Basinger. Table 1 denotes the nativity, abundance, habitats, and management concerns for each species. The table begins with a legend on page 10, and it extends through page 30. The column headings and kinds of information provided by the table are discussed here.

Scientific name (COLUMN 1 in Table 1)

Species are listed in Table 1 in alphabetical order according to their Latin names. Scientific nomenclature follows Mohlenbrock's *Vascular Flora of Illinois* (2002b).

Additional scientific names are listed for some species. These extra names are primarily synonyms and other names that were in common use until recent taxonomic revisions. They include old names that were employed by Hopkins (1969) and Mohlenbrock (1986). The additional names are given in parentheses after the currently accepted name; they are also listed separately in alphabetical order and cross-referenced to the current name. For instance the entry for *Anagallis minima* reads, "Anagallis minima (Centunculus minimus)," and the entry for *Centunculus minimus* says, "See: Anagallis minima."

In the scientific names, "var." stands for *variety*, and "ssp." is short for *subspecies*. I listed a variety or a subspecies if it is included in Mohlenbrock's *Vascular Flora* and if I recognized it as a distinct entity.

Common name (COLUMN 2)

Non-scientific names have not been standardized by botanists. To the extent possible, I chose names that in common use in southern Illinois.

Nativity (COLUMN 3, with the heading Nat)

Three coded terms in column 3 tell whether a species is indigenous to the area:

Native (represented by the code N).—A *native* species is defined as one that is thought to have occurred naturally in the general region of Lusk Creek throughout recorded history.

* Vascular plants consist of three groups: (1) flowering plants (trees, shrubs, vines, grasses, grass-like plants, and broad-leaved herbs), (2) ferns (which reproduce with spores rather than flowers and seeds), and (3) fern allies (represented by a quillwort and a horsetail). Nonvascular plants (which are not included in this study) include mosses, liverworts, and their relatives.

Native elsewhere in Illinois (NI).—A species is denoted as NI if it is native to Illinois but its natural, historic range does not include the region around Lusk Creek.

Exotic (E).—An *exotic* species is not native to Illinois. Most exotics are Old World plants, but many are native to other parts of the Americas.

Each species in Table 1 is annotated as either native (N) or non-native (E or NI).

Abundance (COLUMN 4, with the heading Abn)

A five-level scale in column 4 estimates how common each species is within suitable habitats on the site:

1. Rare.—A species is considered *rare* if it is known to have very few (up to about four) individuals or small populations. A rare species is likely to be found only with luck, or after prolonged, diligent searching, or by returning to a previously known location.

2. Occasional.—An *occasional* species is common enough that it is likely to be located with a search of suitable habitat, but the plant is not so frequent that it is apt to be discovered immediately.

3. Common.—A species is *common* if it can be located without much effort when searching its habitat.

4. Very common.—These species are encountered with little or no effort in suitable habitat.

5. Abundant.—An *abundant* species is predominant and ubiquitous in its habitat.

The ratings in column 4 provide a subjective, non-quantitative estimate of abundance. Only five classes (*rare* through *abundant*) characterize the entire range of possible population levels for all species, so each one of the classes must embrace a broad range of numbers. Despite the wide latitude of each class, it can be difficult to estimate the abundance of a species. I refined the abundance estimate for each species as the project proceeded; if I were to reassign the ratings in a new trial, I might sometimes change an abundance rating by one class (*e.g.* perhaps from 2 to 3, but not from 2 to 4).

Some plants occur in a wide range of environments, but they are often more common in certain habitats than in others. The abundance rating is an estimate of a species' numbers in its optimal habitats, where it is most common. The rating is not an estimate of the overall abundance of a species on the property as a whole (without regard to habitat).

I adjusted the scale to accommodate various growth forms of plants (*i.e.* trees, shrubs, and herbs). An acre of mature forest can support hundreds of thousands of herbs but only a few hundred trees. Consequently a herbaceous species can be a few orders of magnitude more numerous than a tree species but still be assigned to the same abundance class as the tree.

Many plant species have a patchy distribution, even within a habitat that appears to be well suited for its growth. Such an uneven distribution makes it difficult to assign an overall abundance rating. A species might be locally so common that it would rate an abundance of 3 or 4; but considering its habitat as a whole, it might be rated only 2. I qualified the abundance rating for some species by adding an L (for “locally”): *e.g.* L3 means “locally common.”

I did not assign an abundance rating to species that Mark Basinger found but I did not find.

Vegetation management concern (COLUMN 5, with the heading VMC)

A four-level ranking system in column 5 rates each species in terms of its ecological impact as an undesirable invasive:

0. No management concern.—All native plants are rated 0 on the scale of vegetation management concern. A non-native species is similarly of no management concern if it has the following characteristics:

- it does not commonly invade natural, undisturbed environments in large numbers,
- it is not likely to persist on the property in significant numbers unless its habitat is maintained in an unnatural condition by continual human disturbances, and
- it does not interfere with efforts to maintain or reestablish native vegetation.

1. Low management concern.—A species is of low concern if it has the following traits:

- it does not commonly invade and persist in natural, undisturbed environments in large numbers,
- its impact on natural conditions is low,
- it is not difficult to control or eliminate, and
- it hardly interferes with efforts to maintain or reestablish native vegetation.

A species that is rated 1 should be casually monitored to ensure that it is not more of a problem than it was originally considered to be.

2. Moderate management concern.—The species has the following traits:

- it readily invades natural, undisturbed environments in large numbers,
- it is likely to persist in significant numbers unless it is controlled, and
- it is not easy to control, but
- it does not have a severe impact on natural conditions;

or:

- it is common in degraded areas before they are restored, or it readily becomes established during restoration efforts, but
- it does not have a severe, long-term impact on efforts to maintain or reestablish native vegetation.

A species that is rated 2 should be controlled or monitored to ensure that it does not become more of a problem than it was originally considered.

3. High management concern.—The species has these traits:

- it readily invades natural, undisturbed environments in large numbers,
- it is likely to persist in significant numbers unless it is controlled,
- it is difficult to control, and
- it has a severe impact on natural conditions;

or:

- it has a severe, long-term impact on efforts to maintain or reestablish native vegetation.

A species that is rated 3 should be carefully controlled and monitored if possible.

Some species do not fit well into the matrix of traits that define the levels of management concern. To keep from making the definitions of management concerns any more complex, it is necessary to assign each plant to the level of concern that it best fits (relative to other species) – even though every species does not fit perfectly into the set of definitions.

Species documented by the present study (COLUMN 6, with the heading JW)

If a species was found by me or a botanist who accompanied me in the field, it is indicated by an X in the JW (John White) column.

Species reported by Mark Basinger (COLUMN 7, with the heading MB)

If Mark Basinger observed a species during his 2008 examination of the site, it is marked with an X in the MB column.

Species reported by Bill Hopkins (COLUMN 8, with the heading BH)

If a species on the Illinois Audubon Society's property was also reported by Hopkins (1969) from his neighboring Lusk Creek Canyon study area, it is noted in the BH column.

Habitat (COLUMNS 9 TO 15)

The range of environments on the site is encompassed by seven habitats, which are adapted from "Classification of Natural Communities in Illinois" by White and Madany (1978):

Mesic upland forest (MUF).—Mesic upland forest occupies the lower slopes of hills and ravines. This habitat extends farther up north and east-facing slopes than south and west exposures. Sugar maple (*Acer saccharum*) and spicebush (*Lindera benzoin*) are characteristic of the habitat. Relatively high soil moisture and fertility levels in mesic upland forest support a diverse and productive spring flora.

Mesic floodplain forest (MFF).—This habitat is similar to mesic upland forest except that it is on alluvium that floods when Lusk Creek overflows its banks. Because of scouring and deposition of sediments by floodwaters, mesic floodplain forest is more disturbed than mesic upland forest.

Dry-mesic upland forest (DMF).—This habitat consists of wooded upper slopes, especially south and west-facing exposures. Oaks and hickories are the predominant overstory trees. Herbaceous plants in dry-mesic upland forest may become stressed by low soil moisture during the growing season.

Dry upland forest and sandstone glade (DFG).—A band of thin soil and sandstone "pavement" extends along the top of the bluff near the cabin site. The two natural communities (glade and forest) are combined here as one habitat because they intermix and intergrade so much, and their complements of plants are quite similar.

Successional field (SF).—This habitat consists of former farmland that has been abandoned and is undergoing ecological succession to woody vegetation. The tract has seven old fields totaling 24 acres.

Sandstone cliff and overhang (CO).—This habitat consists of vertical and overhanging bedrock outcrops as well as detached blocks of sandstone.

High-gradient creek (Cr).—The creek habitat includes pools, riffles, gravel bars, and banks of Lusk Creek. About six-tenths of a mile of the creek flows through the Audubon Society's land.

Almost any plant species that grows in the forest might occasionally be found on the adjacent sandstone outcrops. To keep from inflating the list of plants for the sandstone cliff and overhang habitat, I included only species that either (a) show a strong affinity for this habitat (as if preferring to grow there instead of in the soil of the surrounding forest), or (b) are exceptionally common on rock outcrops.

Similarly, successional fields eventually become habitat for most of the plant species growing in the adjacent forest. I did not attempt to list every forest species that I found in old fields; instead I recorded only those that are most common or characteristic of the habitat.

The creek channel also provides habitat for many of the plants growing in the adjacent woods and fields. I took a conservative approach when compiling the species list for the creek habitat and listed only plants that were limited to this habitat or that were obviously more abundant there.

Notes (COLUMN 20)

The last column in Table 1 provides further comments about a plant's identification, nativity, abundance, management concerns, habitats, and so forth.

Treatment of varieties

For 15 of the species in Table 1, I identified two varieties. It is relatively easy to distinguish different varieties of some species; but for other species, it is impractical or impossible to determine the variety of every individual plant because it may call for examining the foliage under magnification or studying flowers or fruits that are not present. Consequently Table 1 has more detail at the varietal level for some species than for others. For instance on page 11, there is information about the abundance and habitats of each of two varieties of red maple (*Acer rubrum*) because I could readily distinguish the three-lobed variety from typical red maples. On the other hand, on page 15, I combined information about the abundance and habitats of two varieties of hackberry (*Celtis occidentalis*) because I did not always distinguish the varieties in the field by determining the hairiness of the upper surface of the leaves.

Mark Basinger and Bill Hopkins did not distinguish varieties for most of the 15 species that I split into two varieties. My annotations in Table 1 are based on the presumption that they observed the most common variety (usually the typical variety).

I listed a single variety for many species (for instance, on page 11, I listed *Acalypha gracilens* var. *gracilens* instead of simply *Acalypha gracilens*). Mark Basinger and Bill Hopkins usually did not distinguish a variety in such instances. When I tabulated their species lists, I presumed that they observed the same variety as I did.

Because of changes in plant classification and other complications, I was not able to take all of the varieties that Bill Hopkins listed and clearly and simply translate them into modern taxonomy. If Bill listed one variety of a species and I listed another, sometimes I can say only that we found the same species – leaving open the question of whether we actually found different varieties. As a result, my plant list and Bill’s plant list are best compared at the species level, ignoring varieties. A species that has an X in the BH column and an X in the JW column indicates that Bill Hopkins and I found the same species; it cannot always be interpreted as meaning that we found the same variety of that species.

Table 1: Flora of the Illinois Audubon Society's Lusk Creek property.

LEGEND

COLUMN 1: **Scientific name**.—Latin names follow the nomenclature in Mohlenbrock's *Vascular Flora of Illinois* (2002b). Species are arranged in alphabetical order. The format of scientific names in Table 1 is described on page 3.

COLUMN 2: **Common name**.—To the extent possible, these are names in common use in the region.

COLUMN 3: **Nativity** (indicated by Nat in the column heading).—A set of three codes states whether a species is indigenous to the site. The terms represented by those codes are defined on page 3.

COLUMN 4: **Abundance** (indicated by the heading Abn).—A five-level scale (1 to 5) estimates how common each species is in suitable habitats on the site. The abundance scale and its application are described on page 4.

COLUMN 5: **Vegetation management concern** (VMC).—A four-part classification system (0 to 3) indicates whether a species is likely to invade natural environments or otherwise interfere with vegetation management efforts (see pages 5 and 6).

COLUMN 6: **Species documented by the present study** (JW).—If a plant was found during my study, it is noted with an X in this column.

COLUMN 7: **Species reported by Mark Basinger** (MB).—If a plant was found by Mark Basinger, it is noted with an X in this column.

COLUMN 8: **Species reported by Bill Hopkins** (BH).—Plants that occur on the Illinois Audubon Society's property and that are also reported by Hopkins (1969) from Lusk Creek Canyon are indicated in this column.

COLUMNS 9 TO 15: **Habitat**.—The full range of environments in the tract is encompassed by seven habitats, defined on pages 7 and 8. If a plant typically occurs in one of those habitats, there is an X in the row for the species and in the column for that habitat.

COLUMN 16: **Notes**.—This column supplements information in the other columns.

III. ANALYSIS OF THE FLORA

Species documented by the present study and by Mark Basinger

The list of plants in Table 1 comprises 574 species. A total of 509 species are native, and 65 are non-native. For 14 of the native species, I identified two varieties.^{*} In addition, a 15th species has both a native variety and a non-native variety.[†] Counting all of these species and varieties, the list has a total of 589 kinds of plants.

The plants represent 114 plant families. The largest plant families are Asteraceae (composites, 77 species), Poaceae (grasses, 74 species), Cyperaceae (sedges, 36 species), Fabaceae (peas, 28 species), Lamiaceae (mints, 19 species), and Rosaceae (roses, 18 species). The property has 20 kinds of ferns and fern allies distributed among 10 families.

The genus with the most species is *Carex* (sedges, 27 species). The next largest genera are *Dichanthelium* (panic grasses, 12 species), *Solidago* (goldenrods, 10 species), *Juncus* (rushes, 9 species), *Desmodium* (tick trefoils, 9 species), *Aster* (asters, 8 species), and *Quercus* (oaks, 8 species).

Mark Basinger identified 27 species in 2008 that I could not find again in 2010. Twelve of them are natives of sandstone glade, dry upland forest, and dry old field habitats.[‡] Four species are exotic annual weeds that were growing along the creek; they might or might not appear from year to year.[¶] The other 11 species occur in a variety of habitats.[§]

Despite the big list of species compiled by Mark and me, I was surprised not to find some species that are typical of the Shawnee Hills such as Hercules' club (*Aralia spinosa*) and blue cardinal flower (*Lobelia siphilitica*). Additional species were seen close to the property, including wild comfrey (*Cynoglossum virginianum*) a few feet beyond the east

^{*} The following 14 native species have two varieties in the study area: *Acer rubrum*, *Bidens aristosa*, *Celtis occidentalis*, *Diospyros virginiana*, *Echinochloa muricata*, *Elymus virginicus*, *Lactuca canadensis*, *Lactuca floridana*, *Lindera benzoin*, *Ostrya virginiana*, *Sambucus canadensis*, *Sassafras albidum*, *Smilax bona-nox*, and *Toxicodendron radicans*.

[†] *Prunella vulgaris* is counted as a native species, but it has a non-native variety as well as a native variety. Both varieties occur on the site.

[‡] *Anagallis minima*, *Agrostis elliotiana*, *Carya texana*, *Crotalaria sagittalis*, *Dichanthelium dichotomum*, *Hedeoma pulegioides*, *Isoetes melanopoda*, *Juncus marginatus*, *Lechea tenuifolia*, *Oenothera linifolia*, *Polygonum tenue*, and *Sporobolus vaginiflorus*.

[¶] *Anthemis cotula*, *Chenopodium album*, *Digitaria sanguinalis*, and *Polygonum arenastrum*.

[§] *Callitriches terrestris*, *Carex abdita*, *Carex amphibola*, *Carex swanii*, *Dichanthelium yadkinense*, *Galium triflorum*, *Lilium superbum*, *Sanicula odorata*, *Smilax pulverulenta*, *Sphenopholis obtusata*, and *Veronicastrum virginicum*.

fenceline, and a colony of the little goosefoot *Chenopodium standleyanum* just west of the property line.

The Audubon Society's ownership is so far up in the headwaters of Lusk Creek that the bedrock is all sandstone. If the tract had any limestone outcrops, there could easily be 30 or more additional plant species.

Bill Hopkins' floristic inventory

In 1966–68 Bill Hopkins surveyed the vascular flora of Lusk Creek Canyon, immediately west and south of the Illinois Audubon tract. Hopkins' study area is centered on Indian Kitchen, and it embraces the steeply incised valley of Lusk Creek. The upstream limit of Hopkins' study area is about 1,600 feet downstream from the Illinois Audubon Society's property.

The study area delineated in Hopkins' monograph is about 1,100 acres (about 20 times larger than the Audubon Society's tract), and it has a greater diversity of natural environments. Those habitats are far more extensive, better developed, and mostly in better condition than on the Audubon property. Comparison of the flora of the two areas is illuminating – but hampered by the fact that Bill Hopkins did not limit his species list to plants that he found within his study area.*

Hopkins (1969) reported that he found 766 species, but his list actually includes only 711 species. The list of 711 species includes a number of questionable identifications and other issues that might be resolved by examining Hopkins' herbarium specimens and by conducting fieldwork in his study area. Such an effort is beyond the scope of my study, but I tentatively resolved some of the matters by examining published literature and information on the Internet. As a result, I adjusted Bill's tally of species by removing 13 species and adding three – as detailed in the footnote below.†

* The degree to which Bill Hopkins extended his floristic inventory cannot be ascertained, but his collection of *Dryopteris × neo-wherryi* was made farther downstream along Lusk Creek, a straight-line distance of 3.2 miles beyond his formally delimited study area.

† I removed six species from Hopkins' list because they are now considered to be the same as other species that he listed. (1) Based on the discussion in Mohlenbrock (1999:69, 71), it appears that Hopkins' report of *Carex annectens* is assignable to *Carex brachyglossa*. (2) *Crataegus mackenzii* is combined with *Crataegus rugosa* and synonymized under *Crataegus pruinosa*. (3) *Panicum barbulatum* is a variety of *Panicum dichotomum* (or *Dichanthelium dichotomum*). (4) *Prunus lanata* is a variety of *Prunus americana*. (5) *Pycnanthemum flexuosum* is the same as *Pycnanthemum tenuifolium*. (6) *Viola papilionacea* is combined with *Viola sororia* (Mohlenbrock 1978:221–222).

I deleted five species because Robert Mohlenbrock's more recent treatments of the Illinois flora appear to have rejected Hopkins' identifications of these species: *Festuca rubra* (Mohlenbrock 2002a:95, 333), *Lactuca muralis* (Mohlenbrock 2002b:127–128), *Panicum consanguineum* (Mohlenbrock 2001, 2002b), *Rubus ostryifolius* (Mohlenbrock 2002b:299), and *Salix petiolaris* (Mohlenbrock 1980:55). I did not

With these adjustments, Bill Hopkins' floristic list for Lusk Creek Canyon and environs stands at 701 species, of which 632 species (*i.e.* 90%) are native. * This compares to 574 species identified on the Illinois Audubon Society's property, of which 509 species (or 89%) are native. The two studies found 444 species in common, growing in both areas. The list for the 57-acre Audubon tract includes 130 species that were not reported from the 1,100-acre Lusk Creek Canyon area.

Botanical hotspots

Four small parts of the Audubon Society property have especially interesting concentrations of plants:

The 4.8-acre old field in the northwest corner of the property has the highest plant diversity, roughly 260 kinds, a mix of forest and open-land species. They include wildflowers that do not occur anywhere else on the property such as butterfly weed (*Asclepias tuberosa*), willow aster (*Aster praealtus*), purple sneezeweed (*Helenium flexuosum*), and rose gentian (*Sabatia angularis*). Other representatives of barrens vegetation are present, including perennial foxtail (*Setaria geniculata*), rough white lettuce (*Prenanthes aspera*), hairy wild lettuce (*Lactuca hirsuta*), and seven species of tick trefoil (*Desmodium*).

The small sandstone glade and immediately adjacent forest near the cabin site harbor 23 species that were found nowhere else. These include plants characteristic of exposed rock outcrops such as woolly croton (*Croton capitatus*), black quillwort (*Isoetes melano-poda*), prickly pear cactus (*Opuntia humifusa*), and American aloe (*Manfreda virginica*) – as well as tall melic grass (*Melica nitens*) and the State Threatened fuzzy-fruited sharp-scaled sedge (*Carex oxylepis* var. *pubescens*).

count two hybrids: *Dryopteris × neo-wherryi* and *Lespedeza simulata* (which is now classified as *Lespedeza × simulata*).

Bill Hopkins did not include *Betula nigra* and *Quercus stellata* in his species list. However, he named these two species in his description of habitats in Lusk Creek Canyon, so I added them to the list of species in Hopkins' study area. I also elevated one variety on Hopkins' list to the status of full species: *Solidago nemoralis* var. *decemflora* is now considered a species, *Solidago decemflora*.

* Although Bill Hopkins annotated 643 of his 699 species as native, I adjusted the numbers to 632 natives out of 701 total species. As part of the adjustment, I added two native species, *Betula nigra* and *Quercus stellata*, as discussed in the previous footnote. I also added *Hackelia virginiana* (which Hopkins described as Eurasian) to the list of native species. I removed 14 species from Hopkins' list of natives because they are actually introductions or adventives from the Old World or from farther south or west in the Americas. These 14 species are *Commelina communis*, *Digitaria ischaemum*, *Erigeron tenuis*, *Holosteum umbellatum*, *Ipomoea purpurea*, *Lespedeza cuneata*, *Ligustrum vulgare*, *Lysimachia vulgaris*, *Lythrum salicaria*, *Panicum miliaceum*, *Plantago rhodosperma*, *Poa pratensis*, *Robinia hispida*, and *Setaria glauca*.

Shaded talus at the base of the bluff on the south end of the tract has 11 species that occur nowhere else on the site. These include five ferns – silvery spleenwort (*Deparia acrostichoides*), walking fern (*Asplenium rhizophyllum*), Goldie's fern (*Dryopteris goldiana*), common polypody (*Polypodium virginianum*), and glade fern (*Diplazium pycnocarpon*) – as well as a colony of hepatica (*Hepatica acutiloba*), a big display of the waterleaf *Hydrophyllum canadense*, and the State Threatened Appalachian bugbane (*Cimicifuga rubifolia*).

The gravel bar and adjacent streambanks in the southernmost bend of Lusk Creek provide habitat for 24 kinds of plants that are restricted or nearly restricted to that one small area. They include a number of weedy species – e.g. velvet-leaf (*Abutilon theophrastii*) and goose grass (*Eleusine indica*) – and diminutive wetland herbs such as sweet-scented flatsedge (*Kyllinga pumila*), autumn fimbry (*Fimbristylis autumnalis*), and slender false pimpernel (*Lindernia anagallidea*).

Rare species

Searches by Mark Basinger, Jody Shimp, John Schwegman, and me revealed nine species that are listed as Threatened or Endangered by the Illinois Endangered Species Protection Board (ESPB) or that are designated as Regional Forester Sensitive Species by the U.S. Forest Service (USFS):

Table 2. Officially designated rare species.	ESPB	USFS
Sharp-scaled sedge (<i>Carex oxylepis</i>)	Threatened	X
Willdenow's sedge (<i>Carex willdenowii</i>)	Threatened	X
Appalachian bugbane (<i>Cimicifuga rubifolia</i>)	Threatened	X
Yadkin panic grass (<i>Dichanthelium yadkinense</i>)	Endangered	X
French's shooting star (<i>Dodecatheon frenchii</i>)	Threatened	X
Climbing milkweed (<i>Matelea obliqua</i>)	Threatened	
Goldie's fern (<i>Dryopteris goldiana</i>)		X
Superb lily (<i>Lilium superbum</i>)		X
Ginseng (<i>Panax quinquefolius</i>)		X

Invasive species

The invasive potential of a species is indicated by its level of *vegetation management concern*, defined and discussed on pages 5 and 6. Six species are of particular concern:

Table 3. Invasive species.	Concern
Sericea lespedeza (<i>Lespedeza cuneata</i>)	Low
Johnson grass (<i>Sorghum halepense</i>)	Moderate
Autumn olive (<i>Elaeagnus umbellata</i>)	High
Japanese honeysuckle (<i>Lonicera japonica</i>)	High
Chinese yam (<i>Dioscorea oppositifolia</i>)	High
Stilt grass (<i>Microstegium vimineum</i>)	High

Sericea lespedeza is of some concern because it might invade and dominate parts of the upland fields if the soil is laid bare.

Johnson grass can be a severe invasive, but I judge it to be of only moderate concern on this property because it has already been nearly eliminated by recent control efforts, and the remnant is not competing well against native vegetation.

Among the four species of high concern, autumn olive is a particularly good target for control: eliminate it before it forms a canopy in the old fields. Japanese honeysuckle insinuated the area long ago, and it is not likely to cause more problems than it has already done – except possibly to overwhelm rare species at the sandstone glade. Chinese yam and stilt grass are recent invaders. It may be possible to suppress large growths of the yam, but it probably will prove impossible to eradicate. Stilt grass control looks hopeless without a biological agent.

The study area has several species that can be serious invasives in grassland habitats (e.g. white sweet clover, tall fescue, and other cool-season grasses). However, they appear to pose no significant threat on this land.

ACKNOWLEDGMENTS

I thank John Wallace, Janet Hawes-Davis, and Terri Treacy for working to secure an Illinois Wildlife Preservation Fund grant from the Illinois Department of Natural Resources to the Illinois Audubon Society in support of this project.

My work was completed under a contract with the Illinois Audubon Society. Tom Clay and Terri Treacy of Illinois Audubon administered the contract. Terri also provided background information about the site, furnished accommodations at War Bluff Valley Sanctuary, and arranged for my access to the property.

Mark Basinger's 2008 floristic inventory of the property made my work easier and ensured a better product. Mark's legendary reputation as a field botanist is well deserved.

Jody Shimp of the Illinois Department of Natural Resources botanized with me on the property, taught me sedges, and helped identify plant specimens that we collected. Jody also provided a base of operations and logistical support.

John Schwegman helped carry out fieldwork, found species that I would have overlooked, identified plants that stumped me, and provided a place to stay. John began botanizing along Lusk Creek in the 1960s, and his familiarity with the flora is unmatched.

Barbara White assisted me in the field and herbarium.

Rick Phillippe made the herbarium of the Illinois Natural History Survey available for my use. John Taft of the Natural History Survey checked some of my plant identifications.

Barbara White, Mark Basinger, and Jody Shimp reviewed a draft of this report.

Appendix 1. Plants listed by family.

Acanthus family (Acanthaceae)

<i>Justicia americana</i>	Water willow
<i>Ruellia humilis</i>	Wild petunia

Agave family (Agavaceae)

<i>Manfreda virginica</i>	American aloe
<i>Yucca smalliana</i>	Yucca

Amaryllis family (Amaryllidaceae)

<i>Hypoxis hirsuta</i>	Yellow star grass
------------------------	-------------------

Arum family (Araceae)

<i>Arisaema dracontium</i>	Green dragon
<i>Arisaema triphyllum</i> ssp. <i>triphyllum</i>	Jack-in-the-pulpit

Aster or composite family (Asteraceae)

<i>Achillea millefolium</i> var. <i>millefolium</i>	Yarrow
<i>Ageratina altissima</i>	White snakeroot
<i>Ambrosia artemisiifolia</i>	Common ragweed
<i>Ambrosia bidentata</i>	Lance-leaved ragweed
<i>Ambrosia trifida</i> var. <i>trifida</i>	Giant ragweed
<i>Antennaria plantaginifolia</i>	Pusseytoes
<i>Anthemis cotula</i>	Dog fennel
<i>Arnoglossum atriplicifolium</i>	Pale Indian plantain
<i>Aster lanceolatus</i> var. <i>simplex</i>	Panicled aster
<i>Aster lateriflorus</i>	Side-flowered aster
<i>Aster patens</i>	Spreading aster
<i>Aster pilosus</i>	Frost aster
<i>Aster paealtus</i> var. <i>paealtus</i>	Willow aster
<i>Aster sagittifolius</i>	Arrow-leaved aster
<i>Aster shortii</i>	Short's aster
<i>Aster turbinellus</i>	Top-shaped aster
<i>Bidens aristosa</i> var. <i>aristosa</i>	Swamp marigold
<i>Bidens aristosa</i> var. <i>fritcheyi</i>	Swamp marigold
<i>Bidens bipinnata</i>	Spanish needles
<i>Bidens frondosa</i>	Common beggar's ticks
<i>Bidens polylepis</i>	Bur marigold
<i>Cirsium altissimum</i>	Tall thistle
<i>Cirsium discolor</i>	Field thistle
<i>Conoclinium coelestinum</i>	Mist flower
<i>Conyza canadensis</i>	Horseweed
<i>Coreopsis pubescens</i>	Tickseed
<i>Coreopsis tripteris</i> var. <i>tripteris</i>	Tall coreopsis
<i>Eclipta prostrata</i>	Yerba de tajo
<i>Elephantopus carolinianus</i>	Elephant's foot
<i>Erechtites hieracifolia</i> var. <i>hieracifolia</i>	White fireweed
<i>Erigeron annuus</i>	Annual fleabane
<i>Erigeron philadelphicus</i>	Marsh fleabane
<i>Erigeron strigosus</i>	Daisy fleabane
<i>Eupatoriadelphus fistulosus</i>	Hollow Joe Pye weed
<i>Eupatorium perfoliatum</i>	Common boneset
<i>Eupatorium serotinum</i>	Late boneset
<i>Euthamia graminifolia</i> var. <i>nuttallii</i>	Grass-leaved goldenrod
<i>Gamochaeta purpurea</i>	Early cudweed
<i>Helenium flexuosum</i>	Purple sneezeweed
<i>Helianthus divaricatus</i>	Woodland sunflower
<i>Helianthus hirsutus</i>	Hispid sunflower
<i>Helianthus microcephalus</i>	Small-headed sunflower
<i>Helianthus tuberosus</i> var. <i>tuberosus</i>	Jerusalem artichoke

Heliopsis helianthoides var. *helianthoides* False sunflower

Hieracium gronovii Hairy hawkweed

Hieracium longipilum Long-bearded hawkweed

Iva annua Marsh elder

Krigia biflora Dwarf dandelion

Lactuca canadensis var. *canadensis* Yellow wild lettuce

Lactuca canadensis var. *latifolia* Yellow wild lettuce

Lactuca floridana var. *floridana* Blue wild lettuce

Lactuca floridana var. *villosa* Blue wild lettuce

Lactuca hirsuta var. *sanguinea* Hairy lettuce

Leucanthemum vulgare Ox-eye daisy

Prenanthes altissima Tall white lettuce

Prenanthes aspera Rough white lettuce

Prenanthes crepidinea Great white lettuce

Pseudognaphalium obtusifolium Sweet everlasting

Rudbeckia hirta var. *hirta* Black-eyed Susan

Rudbeckia laciniata Goldenglow

Rudbeckia triloba Brown-eyed Susan

Senecio aureus var. *gracilis* Golden ragwort

Senecio glabellus Butterweed

Silphium perfoliatum Cup plant

Solidago altissima Tall goldenrod

Solidago buckleyi Buckley's goldenrod

Solidago caesia Blue goldenrod

Solidago flexicaulis Broadleaf goldenrod

Solidago gigantea var. *leiophylla* Smooth late goldenrod

Solidago juncea Early goldenrod

Solidago missouriensis var. *fasciculata* Missouri goldenrod

Solidago nemoralis Gray goldenrod

Solidago rugosa var. *rugosa* Rough-leaved goldenrod

Solidago ulmifolia Elm-leaved goldenrod

Verbesina alternifolia Yellow ironweed

Verbesina helianthoides Yellow crownbeard

Verbesina virginica Frostweed

Vernonia gigantea var. *gigantea* Smooth tall ironweed

Vernonia missurica Missouri ironweed

Xanthium strumarium var. *glabratum* Common cocklebur

Barberry family (Berberidaceae)

Caulophyllum thalictroides Blue cohosh

Podophyllum peltatum Mayapple

Basswood family (Tiliaceae)

Tilia americana American basswood

Beech family (Fagaceae)

Fagus grandifolia var. *caroliniana* American beech

Quercus alba White oak

Quercus coccinea Scarlet oak

Quercus imbricaria Shingle oak

Quercus marilandica Blackjack oak

Quercus muehlenbergii Chinquapin oak

Quercus rubra Red oak

Quercus stellata Post oak

Quercus velutina Black oak

Bellflower family (Campanulaceae)

Campanulastrum americanum American bellflower

var. *americanum*

Lobelia cardinalis Cardinal flower

Lobelia inflata Indian tobacco

Lobelia puberula var. simulans	Downy blue lobelia	Sanicula odorata	Clustered black snakeroot
Triodanis perfoliata	Venus' looking glass	Zizia aurea	Golden Alexanders
Bignonia family (Bignoniaceae)			
Campsis radicans	Trumpet creeper	Rhus glabra	Smooth sumac
Birch family (Betulaceae)			
Alnus serrulata	Smooth alder	Rhus copallina	Winged sumac
Betula nigra	River birch	Toxicodendron radicans var. negundo	Poison ivy
Birthwort family (Aristolochiaceae)			
Aristolochia serpentaria	Virginia snakeroot	Toxicodendron radicans var. radicans	Poison ivy
Asarum canadense var. reflexum	Wild ginger		
Bittersweet family (Celastraceae)			
Euonymus atropurpureus	Wahoo	Asimina triloba	Pawpaw
Bladdernut family (Staphyleaceae)			
Staphylea trifolia	Bladdernut	Juniperus virginiana	Eastern red cedar
Borage family (Boraginaceae)			
Lithospermum latifolium	American gromwell	Commelinopsis communis	Common day flower
Mertensia virginica	Virginia bluebells	Tradescantia subaspera var. subaspera	Broad-leaved spiderwort
Myosotis verna	Spring forget-me-not	Tradescantia virginiana	Virginia spiderwort
Buckthorn family (Rhamnaceae)			
Frangula caroliniana	Carolina buckthorn	Cuscuta cuspidata	Cusp dodder
Buttercup or crowfoot family (Ranunculaceae)			
Actaea pachypoda	Doll's eyes	Cuscuta gronovii var. gronovii	Common dodder
Anemone virginiana	Tall anemone		
Anemonella thalictroides	Rue anemone	Amsonia tabernaemontana	Blue star
Aquilegia canadensis	Wild columbine	var. tabernaemontana	Indian hemp
Cimicifuga rubrifolia	Appalachian bugbane	Apocynum cannabinum	
Clematis virginiana	Virgin's bower		
Delphinium tricorne	Dwarf larkspur		
Hepatica acutiloba	Sharp-lobed hepatica		
Hydrastis canadensis	Goldenseal		
Ranunculus abortivus var. abortivus	Small-flowered buttercup		
Ranunculus recurvatus	Hooked buttercup		
Ranunculus sardous	Sardinia buttercup		
Thalictrum dasycarpum	Meadow rue		
Thalictrum revolutum	Waxy meadow rue		
Cactus family (Cactaceae)			
Opuntia humifusa	Common prickly pear		
Cannabis family (Cannabinaceae)			
Humulus lupulus var. lupuloides	Hops		
Carpetweed family (Molluginaceae)			
Mollugo verticillata	Carpetweed		
Carrot family (Apiaceae)			
Chaerophyllum procumbens var. procumbens	Wild chervil		
Cicuta maculata	Water hemlock		
Cryptotaenia canadensis	Honewort		
Daucus carota	Wild carrot		
Osmorhiza longistylis var. longistylis	Sweet cicely		
Sanicula canadensis var. canadensis	Canada black snakeroot		
Ferns and fern allies (Aspleniaceae, Blechnaceae, Dryopteridaceae, Equisetaceae, Isoetaceae, Onocleaceae, Ophioglossaceae, Polypodiaceae, Pteridaceae, and Thelypteridaceae)			
Adiantum pedatum	Maidenhair fern		
Asplenium platyneuron var. platyneuron	Ebony spleenwort		
Asplenium rhizophyllum	Walking fern		
Athyrium filix-femina	Lady fern		

Botrychium obliquum var. obliquum	Grape fern	Grass family (Poaceae)	
Botrychium virginianum	Rattlesnake fern	Agrostis elliotiana	Awned bent grass
Cheilanthes lanosa	Hairy lip fern	Agrostis gigantea	Redtop
Cystopteris protrusa	Fragile fern	Agrostis hyemalis	Tickle grass
Deparia acrostichoides	Silvery spleenwort	Agrostis perennans	Upland bent grass
Diplazium pycnocarpon	Glade fern	Andropogon gerardii	Big bluestem
Dryopteris goldiana	Goldie's fern	Andropogon gyrans	Elliott's broomsedge
Dryopteris marginalis	Marginal shield fern	Andropogon virginicus	Broomsedge
Equisetum arvense	Common horsetail	Aristida dichotoma	Three-awn
Isoetes melanopoda	Black quillwort	Arundinaria gigantea	Giant cane
Onoclea sensibilis	Sensitive fern	Bouteloua curtipendula	Side-oats grama
Phegopteris hexagonoptera	Broad beech fern	Brachyelytrum erectum	False brome
Polypodium virginianum	Common polypody	Bromus commutatus	Hairy chess
Polystichum acrostichoides	Christmas fern	Bromus inermis	Smooth brome
Woodsia obtusa	Common woodsia	Bromus pubescens	Canada brome
Woodwardia areolata	Netted chain fern	Chasmanthium latifolium	Inland oats
Figwort family (Scrophulariaceae)			
Agalinis fasciculata	Tufted false foxglove	Cinna arundinacea	Wood reed grass
Agalinis tenuifolia	Narrow-leaved false foxglove	Dactylis glomerata	Orchard grass
Aureolaria flava var. micrantha	Yellow false foxglove	Danthonia spicata	Curly grass
Gratiola neglecta	Clammy hedge hyssop	Diarrhena obovata	Beak grass
Lindernia anagallidea	Slender false pimpernel	Dichanthelium acuminatum var. fasciculatum	Old-field panic grass
Mimulus alatus	Winged monkey flower	Dichanthelium boscii var. boscii	Large-fruited panic grass
Pedicularis canadensis var. canadensis	Lousewort	Dichanthelium clandestinum	Deer-tongue grass
Penstemon pallidus	Pale beardtongue	Dichanthelium commutatum var. commutatum	Broad-leaved panic grass
Scrophularia marilandica	Late figwort	Dichanthelium depauperatum	Starved panic grass
Verbascum thapsus	Great mullein	Dichanthelium dichotomum	Forked panic grass
Veronicastrum virginicum	Culver's root	Dichanthelium laxiflorum	Loose-flowered panic grass
Flax family (Linaceae)			
Linum medium var. texanum	Small yellow flax	Dichanthelium malacophyllum	Soft-leaved panic grass
Fumitory family (Fumariaceae)			
Corydalis flavula	Pale corydalis	Dichanthelium microcarpon	Small-fruited panic grass
Dicentra cucullaria	Dutchman's breeches	Dichanthelium polyanthes	Round-fruited panic grass
Gentian family (Gentianaceae)			
Frasera caroliniensis	American columbo	Dichanthelium scoparium	Broom panic grass
Sabatia angularis	Rose gentian	Dichanthelium yadkinense	Yadkin panic grass
Geranium family (Geraniaceae)			
Geranium carolinianum	Carolina cranesbill	Digitaria ischaemum	Smooth crabgrass
Geranium maculatum	Wild geranium	Digitaria sanguinalis	Hairy crabgrass
Goosefoot family (Chenopodiaceae)			
Chenopodium album	Lamb's quarters	Echinochloa muricata var. muricata	Barnyard grass
Chenopodium ambrosioides	Mexican tea	Echinochloa muricata var. wiegandii	Wild millet
Gourd family (Cucurbitaceae)			
Sicyos angulatus	Bur cucumber	Eleusine indica	Goose grass
Grape family (Vitaceae)			
Parthenocissus quinquefolia	Virginia creeper	Elymus hystrix var. hystrix	Bottlebrush grass
Vitis aestivalis var. aestivalis	Summer grape	Elymus riparius	Riverbank wild rye
Vitis cinerea	Winter grape	Elymus villosus	Silky wild rye
Vitis riparia	Riverbank grape	Elymus virginicus var. glabriflorus	Virginia wild rye
Vitis vulpina	Fox grape	Elymus virginicus var. virginicus	Virginia wild rye
		Eragrostis pectinacea	Love grass
		Eragrostis spectabilis	Tumble grass
		Festuca arundinacea	Tall fescue
		Festuca subverticillata	Nodding fescue
		Glyceria striata var. striata	Fowl manna grass
		Koeleria macrantha	June grass
		Leersia lenticularis	Catchfly grass
		Leersia virginica	White grass
		Melica nitens	Tall melic grass
		Microstegium vimineum	Stilt grass
		Muhlenbergia frondosa	Satin grass
		Muhlenbergia schreberi	Nimble Will
		Muhlenbergia racemosa	Marsh muhly
		Muhlenbergia sobolifera	Woodland satin grass
		Panicum anceps	Beaked panic grass
		Panicum dichotomiflorum var. dichotomiflorum	Fall panicum
		Panicum flexile	Slender panic grass

Panicum virgatum	Switch grass	Sassafras albidum var. albidum	Sassafras
Paspalum laeve	Bead grass	Sassafras albidum var. molle	Red sassafras
Paspalum setaceum var. setaceum	Slender bead grass		
Phalaris arundinacea	Reed canary grass		
Phleum pratense	Timothy		
Poa compressa	Canada bluegrass	Legumes (Caesalpiniaceae and Fabaceae)	
Poa pratensis	Kentucky bluegrass	Amphicarpa bracteata var. bracteata	Hog peanut
Poa sylvestris	Woodland bluegrass	Apios americana	Groundnut
Schizachyrium scoparium	Little bluestem	Cercis canadensis	Redbud
Setaria faberii	Giant foxtail	Chamaecrista fasciata var. fasciata	Partridge pea
Setaria geniculata	Perennial foxtail	Chamaecrista nictitans	Small partridge pea
Setaria glauca	Yellow foxtail	Crotalaria sagittalis	Rattlebox
Sorghum halepense	Johnson grass	Desmodium canadense	Showy tick trefoil
Sphenopholis obtusata	Wedge grass	Desmodium canescens	Hoary tick trefoil
Sporobolus vaginiflorus	Poverty grass	Desmodium ciliare	Hairy small-leaved tick trefoil
Tridens flavus	Purple-top	Desmodium glabellum	Smooth tick trefoil
Vulpia octoflora var. octoflora	Six-weeks fescue	Desmodium laevigatum	Glaucous tick trefoil
		Desmodium marilandicum	Smooth small-leaved tick trefoil
Greenbrier family (Smilacaceae)		Desmodium nudiflorum	Bare-stemmed tick trefoil
Smilax bona-nox var. bona-nox	Saw greenbrier	Desmodium paniculatum	Panicked tick trefoil
Smilax bona-nox var. hederaefolia	Saw greenbrier	Desmodium rotundifolium	Round-leaved tick trefoil
Smilax glauca var. leuophylla	Glaucous greenbrier	Gleditsia triacanthos	Honey locust
Smilax pulverulenta	Powdery carion flower	Kummerowia striata	Japanese bush clover
Smilax rotundifolia	Round-leaved greenbrier	Lespedeza cuneata	Sericea lespedeza
Smilax tamnoides var. hispida	Bristly greenbrier	Lespedeza intermedia	Wand-like bush clover
		Lespedeza procumbens var. elliptica	Narrow-leaved trailing bush clover
Hazel family (Corylaceae)		Lespedeza repens	Creeping bush clover
Carpinus caroliniana var. caroliniana	Musclewood	Medicago lupulina	Black medic
Corylus americana	American hazel	Melilotus albus	White sweet clover
Ostrya virginiana var. lasia	Hop hornbeam	Phaseolus polystachios	Wild kidney bean
Ostrya virginiana var. virginiana	Hop hornbeam	Robinia pseudoacacia	Black locust
		Senna marilandica	Wild senna
Heath family (Ericaceae)		Strophostyles umbellata	Wild bean
Vaccinium arboreum var. arboreum	Fuckleberry	Stylosanthes biflora	Pencil flower
		Tephrosia virginiana var. holosericea	Goat's rue
Holly family (AQUIFOLIACEAE)		Trifolium campestre	Low hop clover
Ilex decidua	Deciduous holly	Trifolium hybridum	Alsike clover
		Trifolium pratense var. pratense	Red clover
		Trifolium repens	White clover
Honeysuckle family (Caprifoliaceae)		Lily family (Liliaceae)	
Lonicera japonica var. japonica	Japanese honeysuckle	Allium canadense var. canadense	Wild onion
Sambucus canadensis var. canadensis	Elderberry	Allium vineale	Field garlic
Sambucus canadensis var. submollis	Elderberry	Erythronium albidum	White dog-toothed violet
Symphoricarpos orbiculatus	Coralberry	Lilium superbum	Superb lily
Viburnum prunifolium	Black haw	Nothoscordum bivalve	False garlic
		Polygonatum biflorum	Small Solomon's seal
Horse chestnut family (Hippocastanaceae)		Polygonatum commutatum	Solomon's seal
Aesculus glabra var. glabra	Ohio buckeye	Smilacina racemosa	False Solomon's seal
		Trillium flexipes	White trillium
Hydrangea family (Hydrangeaceae)		Trillium recurvatum	Purple trillium
Hydrangea arborescens	Wild hydrangea	Uvularia grandiflora	Large-flowered bellwort
		Logania family (Loganiaceae)	
Iris family (Iridaceae)		Spigelia marilandica	Indian pink
Sisyrinchium albidum	Common blue-eyed grass		
Jewelweed family (Balsaminaceae)		Loosestrife family (Lythraceae)	
Impatiens capensis	Orange touch-me-not	Rotala ramosior	Tooth-cup
Impatiens pallida	Pale touch-me-not		
Laurel family (Lauraceae)		Lopseed family (Phrymaceae)	
Lindera benzoin var. benzoin	Spicebush	Phryma leptostachya	Lopseed
Lindera benzoin var. pubescens	Spicebush		

Madder family (Rubiaceae)

<i>Cephalanthus occidentalis</i> var. <i>occidentalis</i>	Buttonbush
<i>Diodia teres</i> var. <i>teres</i>	Rough buttonweed
<i>Galium aparine</i> var. <i>aparine</i>	Cleavers
<i>Galium circaeans</i> var. <i>hypomalacum</i>	Hairy wild licorice
<i>Galium concinnum</i>	Shining bedstraw
<i>Galium obtusum</i>	Wild madder
<i>Galium pilosum</i>	Hairy bedstraw
<i>Galium triflorum</i>	Sweet-scented bedstraw
<i>Houstonia lanceolata</i>	Lance-leaved bluets
<i>Houstonia pusilla</i>	Small bluets

Morning glory family (Convolvulaceae)

<i>Ipomoea hederacea</i>	Ivy-leaved morning glory
<i>Ipomoea lacunosa</i>	Small white morning glory
<i>Ipomoea pandurata</i>	Wild sweet potato
<i>Ipomoea purpurea</i>	Common morning glory

Mulberry family (Moraceae)

<i>Maclura pomifera</i>	Hedge-apple
<i>Morus alba</i>	White mulberry
<i>Morus rubra</i>	Red mulberry

Mustard family (Brassicaceae)

<i>Arabis canadensis</i>	Sicklepod
<i>Arabis laevigata</i>	Smooth rock cress
<i>Barbarea vulgaris</i> var. <i>arcuata</i>	Yellow rocket
<i>Dentaria laciniata</i>	Toothwort
<i>Draba reptans</i>	Common whitlow grass
<i>Lepidium virginicum</i>	Common pepper grass
<i>Rorippa palustris</i>	Marsh yellow cress
<i>Thlaspi perfoliatum</i>	Perfoliate penny cress

Nettle family (Urticaceae)

<i>Boehmeria cylindrica</i> var. <i>cylindrica</i>	False nettle
<i>Laportea canadensis</i>	Wood nettle
<i>Parietaria pensylvanica</i>	Pellitory
<i>Pilea pumila</i>	Clearweed

Nightshade family (Solanaceae)

<i>Datura stramonium</i>	Jimson weed
<i>Lycopersicon esculentum</i>	Tomato
<i>Physalis pruinosa</i>	Ground cherry
<i>Solanum carolinense</i>	Horse nettle
<i>Solanum ptycanthum</i>	Black nightshade

Oleaster family (Elaeagnaceae)

<i>Elaeagnus umbellata</i>	Autumn olive
----------------------------	--------------

Olive family (Oleaceae)

<i>Fraxinus americana</i> var. <i>americana</i>	White ash
<i>Fraxinus pennsylvanica</i>	Red ash

Orchid family (Orchidaceae)

<i>Aplectrum hyemale</i>	Putty-root orchid
<i>Platanthera lacera</i>	Green fringed orchid

Phlox family (Polemoniaceae)

<i>Phlox divaricata</i> ssp. <i>laphamii</i>	Blue phlox
<i>Phlox glaberrima</i> ssp. <i>interior</i>	Smooth phlox
<i>Phlox paniculata</i>	Garden phlox
<i>Polemonium reptans</i>	Jacob's ladder

Pine family (Pinaceae)

<i>Pinus echinata</i>	Shortleaf pine
-----------------------	----------------

Pink family (Caryophyllaceae)

<i>Cerastium fontanum</i>	Common mouse-eared chickweed
<i>Cerastium arvense</i> var. <i>villosum</i>	Field mouse-eared chickweed
<i>Dianthus armeria</i>	Deptford pink

Moonseed family (Menispermaceae)

<i>Menispermum canadense</i>	Moonseed
------------------------------	----------

Silene stellata	Starry campion	Saxifrage family (Saxifragaceae)
Stellaria media	Common chickweed	Heuchera americana var. hirsuticaulis Heuchera parviflora var. rugelii Penthorum sedoides
Plane tree family (Platanaceae)		Common alumroot Small-flowered alumroot Ditch stonecrop
Platanus occidentalis	Sycamore	
Plantain family (Plantaginaceae)		Sedge family (Cyperaceae)
Plantago lanceolata	Buckhorn	Carex abdita Carex albicans Carex albursina Carex amphibola Carex blanda Carex brachyglossa Carex bushii Carex careyana Carex cephalophora Carex crinita var. brevicrinis Carex digitalis Carex festucacea Carex frankii Carex glaucoidea Carex grisea Carex hirsutella Carex jamesii Carex laxiculmis Carex lurida Carex muhlenbergii Carex oxylepis var. pubescens
Plantago rugelii	Rugel's plantain	
Plantago virginica	Virginia plantain	
Pokeweed family (Phytolaccaceae)		
Phytolacca americana	Pokeweed	
Poppy family (Papaveraceae)		
Sanguinaria canadensis	Bloodroot	
Primrose family (Primulaceae)		
Anagallis minima	Chaffweed	
Dodecatheon frenchii	French's shooting star	
Dodecatheon meadia	Shooting star	
Lysimachia lanceolata	Lance-leaved loosestrife	
Purslane family (Portulacaceae)		
Claytonia virginica	Spring beauty	
Rock rose family (Cistaceae)		
Lechea tenuifolia	Narrow-leaved pinweed	
Rose family (Rosaceae)		
Agrimonia parviflora	Swamp agrimony	
Agrimonia rostellata	Woodland agrimony	
Amelanchier arborea	Shadbush	
Crataegus pruinosa	Frosted hawthorn	
Geum canadense var. canadense	White avens	
Geum vernum	Spring avens	
Porteranthus stipulatus	Indian physic	
Potentilla simplex var. simplex	Common cinquefoil	
Prunus americana	Wild plum	
Prunus serotina	Wild black cherry	
Rosa carolina	Pasture rose	
Rosa multiflora	Multiflora rose	
Rosa setigera var. tomentosa	Prairie rose	
Rubus allegheniensis	Common blackberry	
Rubus enslenii	Arching dewberry	
Rubus flagellaris	Common dewberry	
Rubus occidentalis	Black raspberry	
Rubus pensylvanicus	Blackberry	
Rush family (Juncaceae)		Smartweed family (Polygonaceae)
Juncus acuminatus	Pointed rush	Antennorion virginianum Fallopia cristata Fallopia scandens Persicaria cespitosa Persicaria pensylvanica var. pensylvanica
Juncus biflorus var. biflorus	Two-flowered rush	
Juncus brachycarpus	Short-fruited rush	
Juncus diffusissimus	Long-fruited rush	
Juncus effusus var. solutus	Soft rush	
Juncus interior	Inland rush	
Juncus marginatus	Grass-leaved rush	
Juncus secundus	One-sided rush	
Juncus tenuis	Path rush	
Luzula multiflora	Common wood rush	
		Persicaria punctata Persicaria vulgaris Polygonum arenastrum Polygonum tenue Rumex acetosella Rumex crispus Rumex obtusifolius Tracaulon sagittatum
		Spikenard family (Araliaceae)
		Panax quinquefolius Ginseng

Spurge family (Euphorbiaceae)		
Acalypha gracilens var. gracilens	Slender three-seeded Mercury	Bitternut hickory
Acalypha rhomboidea	Rhombic three-seeded Mercury	Pignut hickory
Acalypha virginica	Virginia three-seeded Mercury	Sweet pignut hickory
Chamaesyce humistrata	Spreading spurge	Shagbark hickory
Chamaesyce maculata	Spotted creeping spurge	Black hickory
Croton capitatus	Woolly croton	Mockernut hickory
Crotonopsis elliptica	Elliptical rushfoil	Black walnut
Euphorbia corollata var. corollata	Flowering spurge	
St. John's wort family (Hypericaceae)		
Ascyrum multicaule	St. Andrew's cross	Small-flowered water plantain
Hypericum drummondii	Nits-and-lice	
Hypericum gentianoides	Pineweed	
Hypericum muticum	Dwarf St. John's wort	
Hypericum prolificum	Shrubby St. John's wort	
Hypericum punctatum	Spotted St. John's wort	
Stonecrop family (Crassulaceae)		
Sedum pulchellum	Widow's cross	Broad-leaved waterleaf
Sedum ternatum	Three-leaved stonecrop	Virginia waterleaf
Tupelo family (Nyssaceae)		
Nyssa sylvatica var. caroliniana	Black gum	Miami mist
Valerian family (Valerianaceae)		
Valeriana pauciflora	Pink valerian	Eastern cottonwood
Valerianella radiata var. radiata	Corn salad	Black willow
Vervain family (Verbenaceae)		
Verbena urticifolia var. urticifolia	White vervain	
Violet family (Violaceae)		
Hybanthus concolor	Green violet	Yellow wood sorrel
Viola missouriensis	Missouri violet	Yellow wood sorrel
Viola palmata var. dilatata	Cleft violet	Violet wood sorrel
Viola rafinesquii	Johnny-jump-up	
Viola sagittata	Arrow-leaved violet	
Viola sororia	Wooly blue violet	
Viola striata	Cream violet	
Walnut family (Juglandaceae)		
Carya cordiformis	Bitternut hickory	
Carya glabra var. glabra	Pignut hickory	
Carya ovalis	Sweet pignut hickory	
Carya ovata var. ovata	Shagbark hickory	
Carya texana	Black hickory	
Carya tomentosa	Mockernut hickory	
Juglans nigra	Black walnut	
Water lily family (Nymphaeaceae)		
Nuphar advena	Yellow pond lily	
Water plantain family (Alismataceae)		
Alisma subcordatum	Small-flowered water plantain	
Water starwort family (Callitrichaceae)		
Callitricha terrestris	Terrestrial starwort	
Waterleaf family (Hydrophyllaceae)		
Hydrophyllum canadense	Broad-leaved waterleaf	
Hydrophyllum virginianum	Virginia waterleaf	
Phacelia purshii	Miami mist	
Willow family (Salicaceae)		
Populus deltoides	Eastern cottonwood	
Salix nigra	Black willow	
Witch hazel family (Hamamelidaceae)		
Liquidambar styraciflua	Sweetgum	
Wood sorrel family (Oxalidaceae)		
Oxalis fontana	Yellow wood sorrel	
Oxalis stricta	Yellow wood sorrel	
Oxalis violacea	Violet wood sorrel	
Yam family (Dioscoreaceae)		
Dioscorea oppositifolia	Chinese yam	
Dioscorea quaternata var. quaternata	Wild yam	
Dioscorea villosa	Wild yam	

Appendix 2. Plants listed by common name.

Agrimony, swamp	<i>Agrimonia parviflora</i>	Brome, smooth	<i>Bromus inermis</i>
Agrimony, woodland	<i>Agrimonia rostellata</i>	Broomsedge	<i>Andropogon virginicus</i>
Alder, smooth	<i>Alnus serrulata</i>	Broomsedge, Elliott's	<i>Andropogon gyrans</i>
Alexanders, golden	<i>Zizia aurea</i>	Buckeye, Ohio	<i>Aesculus glabra</i> var. <i>glabra</i>
Aloe, American	<i>Manfreda virginica</i>	Buckhorn	<i>Plantago lanceolata</i>
Alumroot, common	<i>Heuchera americana</i> var. <i>hirsuticaulis</i>	Buckthorn, Carolina	<i>Frangula caroliniana</i>
Alumroot, small-flowered	<i>Heuchera parviflora</i> var. <i>rugelii</i>	Buckwheat, climbing	<i>Fallopia scandens</i>
Anemone, tall	<i>Anemone virginiana</i>	Bugbane, Appalachian	<i>Cimicifuga rubifolia</i>
Artichoke, Jerusalem	<i>Helianthus tuberosus</i> var. <i>tuberosus</i>	Bugle weed, Virginia	<i>Lycopus virginicus</i>
Ash, red	<i>Fraxinus pennsylvanica</i>	Bulrush, dark-green	<i>Scirpus georgianus</i>
Ash, white	<i>Fraxinus americana</i> var. <i>americana</i>	Bur marigold	<i>Bidens polylepis</i>
Aster, arrow-leaved	<i>Aster sagittifolius</i>	Bush clover, creeping	<i>Lespedeza repens</i>
Aster, frost	<i>Aster pilosus</i>	Bush clover, Japanese	<i>Kummerowia striata</i>
Aster, panicled	<i>Aster lanceolatus</i> var. <i>simplex</i>	Bush clover, narrow-leaved trailing	<i>Lespedeza procumbens</i> var. <i>elliptica</i>
Aster, Short's	<i>Aster shortii</i>	Bush clover, wand-like	<i>Lespedeza intermedia</i>
Aster, side-flowered	<i>Aster lateriflorus</i>	Buttercup, hooked	<i>Ranunculus recurvatus</i>
Aster, spreading	<i>Aster patens</i>	Buttercup, Sardinia	<i>Ranunculus sardous</i>
Aster, top-shaped	<i>Aster turbinellus</i>	Buttercup, small-flowered	<i>Ranunculus abortivus</i> var. <i>abortivus</i>
Aster, willow	<i>Aster praecaltus</i> var. <i>praealtus</i>	Butterfly weed	<i>Asclepias tuberosa</i> spp. <i>interior</i>
Avens, spring	<i>Geum vernum</i>	Butterweed	<i>Senecio glabellus</i>
Avens, white	<i>Geum canadense</i> var. <i>canadense</i>	Buttonbush	<i>Cephalanthus occidentalis</i> var. <i>occidentalis</i>
Basswood, American	<i>Tilia americana</i>	Buttonweed, rough	<i>Diodia teres</i> var. <i>teres</i>
Bean, wild	<i>Strophostyles umbellata</i>	Campion, starry	<i>Silene stellata</i>
Bean, wild kidney	<i>Phaseolus polystachios</i>	Cane, giant	<i>Arundinaria gigantea</i>
Beardtongue, pale	<i>Penstemon pallidus</i>	Cardinal flower	<i>Lobelia cardinalis</i>
Bedstraw, hairy	<i>Galium pilosum</i>	Carpetweed	<i>Mollugo verticillata</i>
Bedstraw, shining	<i>Galium concinnum</i>	Carrión flower, powdery	<i>Smilax pulverulenta</i>
Bedstraw, sweet-scented	<i>Galium triflorum</i>	Carrot, wild	<i>Daucus carota</i>
Bee balm, Bradbury's	<i>Monarda bradburiana</i>	Cedar, eastern red	<i>Juniperus virginiana</i>
Beech, American	<i>Fagus grandifolia</i> var. <i>caroliniana</i>	Chaffweed	<i>Anagallis minima</i>
Beefsteak plant	<i>Perilla frutescens</i> var. <i>frutescens</i>	Cherry, wild black	<i>Prunus serotina</i>
Beggar's ticks, common	<i>Bidens frondosa</i>	Chervil, wild	<i>Chaerophyllum procumbens</i> var. <i>procumbens</i>
Bellflower, American	<i>Campanulastrum americanum</i> var. <i>americanum</i>	Chess, hairy	<i>Bromus commutatus</i>
Bellwort, large-flowered	<i>Uvularia grandiflora</i>	Chickweed, common	<i>Stellaria media</i>
Bindweed, crested	<i>Fallopia cristata</i>	Chickweed, common mouse-eared	<i>Cerastium fontanum</i>
Birch, river	<i>Betula nigra</i>	Chickweed, field mouse-eared	<i>Cerastium arvense</i> var. <i>villosum</i>
Black haw	<i>Viburnum prunifolium</i>	Cicely, sweet	<i>Osmorhiza longistylis</i> var. <i>longistylis</i>
Blackberry	<i>Rubus pensylvanicus</i>	Cinquefoil, common	<i>Potentilla simplex</i> var. <i>simplex</i>
Blackberry, common	<i>Rubus allegheniensis</i>	Clearweed	<i>Pilea pumila</i>
Bladdernut	<i>Staphylea trifolia</i>	Cleavers	<i>Galium aparine</i> var. <i>aparine</i>
Bloodroot	<i>Sanguinaria canadensis</i>	Clover, alsike	<i>Trifolium hybridum</i>
Blue curls	<i>Trichostema dichotomum</i>	Clover, low hop	<i>Trifolium campestre</i>
Blue star	<i>Amsonia tabernaemontana</i> var. <i>tabernaemontana</i>	Clover, red	<i>Trifolium pratense</i> var. <i>pratense</i>
Bluebells, Virginia	<i>Mertensia virginica</i>	Clover, white	<i>Trifolium repens</i>
Blue-eyed grass, common	<i>Sisyrinchium albidum</i>	Clover, white sweet	<i>Melilotus albus</i>
Bluegrass, Canada	<i>Poa compressa</i>	Cocklebur, common	<i>Xanthium strumarium</i> var. <i>glabratum</i>
Bluegrass, Kentucky	<i>Poa pratensis</i>	Cohosh, blue	<i>Caulophyllum thalictroides</i>
Bluegrass, woodland	<i>Poa sylvestris</i>	Columbine, wild	<i>Aquilegia canadensis</i>
Bluestem, big	<i>Andropogon gerardii</i>	Columbo, American	<i>Frasera carolinensis</i>
Bluestem, little	<i>Schizachyrium scoparium</i>	Coralberry	<i>Symporicarpos orbiculatus</i>
Bluets, lance-leaved	<i>Houstonia lanceolata</i>	Coreopsis, tall	<i>Coreopsis tripteris</i> var. <i>tripteris</i>
Bluets, small	<i>Houstonia pusilla</i>	Corn salad	<i>Valerianella radiata</i> var. <i>radiata</i>
Bluevine	<i>Ampelamus albidus</i>	Corydalis, pale	<i>Corydalis flavula</i>
Boneset, common	<i>Eupatorium perfoliatum</i>	Cottonwood, eastern	<i>Populus deltoides</i>
Boneset, late	<i>Eupatorium serotinum</i>	Crabgrass, hairy	<i>Digitaria sanguinalis</i>
Box elder	<i>Acer negundo</i> var. <i>negundo</i>	Crabgrass, smooth	<i>Digitaria ischaemum</i>
Brome, Canada	<i>Bromus pubescens</i>	Cranesbill, Carolina	<i>Geranium carolinianum</i>
Brome, false	<i>Brachyelytrum erectum</i>		

Cress, marsh yellow	<i>Rorippa palustris</i>	Fleabane, daisy	<i>Erigeron strigosus</i>
Cress, perfoliate penny	<i>Thlaspi perfoliatum</i>	Fleabane, marsh	<i>Erigeron philadelphicus</i>
Cress, smooth rock	<i>Arabis laevigata</i>	Forget-me-not, spring	<i>Myosotis verna</i>
Croton, woolly	<i>Croton capitatus</i>	Foxglove, narrow-leaved false	<i>Agalinis tenuifolia</i>
Crownbeard, yellow	<i>Verbesina helianthoides</i>	Foxglove, tufted false	<i>Agalinis fasciculata</i>
Cucumber, bur	<i>Sicyos angulatus</i>	Foxglove, yellow false	<i>Aureolaria flava var. micrantha</i>
Cudweed, early	<i>Gamochaeta purpurea</i>	Foxtail, giant	<i>Setaria faberi</i>
Culver's root	<i>Veronicastrum virginicum</i>	Foxtail, perennial	<i>Setaria geniculata</i>
Cup plant	<i>Silphium perfoliatum</i>	Foxtail, yellow	<i>Setaria glauca</i>
Daisy, ox-eye	<i>Leucanthemum vulgare</i>	Frostweed	<i>Verbesina virginica</i>
Dandelion, dwarf	<i>Krigia biflora</i>	Garlic, false	<i>Nothoscordum bivalve</i>
Day flower, common	<i>Commelinia communis</i>	Garlic, field	<i>Allium vineale</i>
Dead nettle, purple	<i>Lamium purpureum</i>	Gentian, rose	<i>Sabatia angularis</i>
Dewberry, arching	<i>Rubus enslenii</i>	Geranium, wild	<i>Geranium maculatum</i>
Dewberry, common	<i>Rubus flagellaris</i>	Germaner, American	<i>Teucrium canadense</i>
Dittany	<i>Cunila origanoides</i>	Giant hyssop, yellow	<i>Agastache nepetoides</i>
Dock, curly	<i>Rumex crispus</i>	Ginger, wild	<i>Asarum canadense var. reflexum</i>
Dock, bitter	<i>Rumex obtusifolius</i>	Ginseng	<i>Panax quinquefolius</i>
Dock, sour	<i>Rumex acetosella</i>	Goat's rue	<i>Tephrosia virginiana var. holosericea</i>
Dodder, common	<i>Cuscuta gronovii var. gronovii</i>	Goldenglow	<i>Rudbeckia laciniata</i>
Dodder, cusp	<i>Cuscuta cuspidata</i>	Goldenrod, blue	<i>Solidago caesia</i>
Dog fennel	<i>Anthemis cotula</i>	Goldenrod, broadleaf	<i>Solidago flexicaulis</i>
Dog-toothed violet, white	<i>Erythronium albidum</i>	Goldenrod, Buckley's	<i>Solidago buckleyi</i>
Dogwood, flowering	<i>Cornus florida</i>	Goldenrod, early	<i>Solidago juncea</i>
Dogwood, pale	<i>Cornus obliqua</i>	Goldenrod, elm-leaved	<i>Solidago ulmifolia</i>
Doll's eyes	<i>Actaea pachypoda</i>	Goldenrod, grass-leaved	<i>Euthamia graminifolia var. nuttallii</i>
Dutchman's breeches	<i>Dicentra cucullaria</i>	Goldenrod, gray	<i>Solidago nemoralis</i>
Elderberry	<i>Sambucus canadensis var. canadensis</i>	Goldenrod, Missouri	<i>Solidago missouriensis var. fasciculata</i>
Elderberry	<i>Sambucus canadensis var. submollis</i>	Goldenrod, rough-leaved	<i>Solidago rugosa var. rugosa</i>
Elephant's foot	<i>Elephantopus carolinianus</i>	Goldenrod, smooth late	<i>Solidago gigantea var. leiophylla</i>
Elm, American	<i>Ulmus americana</i>	Goldenrod, tall	<i>Solidago altissima</i>
Elm, slippery	<i>Ulmus rubra</i>	Goldenseal	<i>Hydrastis canadensis</i>
Elm, winged	<i>Ulmus alata</i>	Grama, side-oats	<i>Bouteloua curtipendula</i>
Evening primrose, common	<i>Oenothera biennis</i>	Grape, fox	<i>Vitis vulpina</i>
Everlasting, sweet	<i>Pseudognaphalium obtusifolium</i>	Grape, riverbank	<i>Vitis riparia</i>
Farkleberry	<i>Vaccinium arboreum var. arboreum</i>	Grape, summer	<i>Vitis aestivalis var. aestivalis</i>
Fern, broad beech	<i>Phegopteris hexagonoptera</i>	Grape, winter	<i>Vitis cinerea</i>
Fern, Christmas	<i>Polystichum acrostichoides</i>	Grass, awned bent	<i>Agrostis elliotiana</i>
Fern, fragile	<i>Cystopteris protrusa</i>	Grass, barnyard	<i>Echinochloa muricata var. muricata</i>
Fern, glade	<i>Diplazium pycnocarpon</i>	Grass, bead	<i>Paspalum laeve</i>
Fern, Goldie's	<i>Dryopteris goldiana</i>	Grass, beak	<i>Diarrhena obovata</i>
Fern, grape	<i>Botrychium obliquum var. obliquum</i>	Grass, bottlebrush	<i>Elymus hystrix var. hystrix</i>
Fern, hairy lip	<i>Cheilanthes lanosa</i>	Grass, catchfly	<i>Leersia lenticularis</i>
Fern, lady	<i>Athyrium filix-femina</i>	Grass, curly	<i>Danthonia spicata</i>
Fern, maidenhair	<i>Adiantum pedatum</i>	Grass, fowl manna	<i>Glyceria striata var. striata</i>
Fern, marginal shield	<i>Dryopteris marginalis</i>	Grass, goose	<i>Eleusine indica</i>
Fern, netted chain	<i>Woodwardia areolata</i>	Grass, stilt	<i>Microstegium vimineum</i>
Fern, rattlesnake	<i>Botrychium virginianum</i>	Grass, Johnson	<i>Sorghum halepense</i>
Fern, sensitive	<i>Onoclea sensibilis</i>	Grass, June	<i>Koeleria macrantha</i>
Fern, walking	<i>Asplenium rhizophyllum</i>	Grass, love	<i>Eragrostis pectinacea</i>
Fescue, nodding	<i>Festuca subverticillata</i>	Grass, orchard	<i>Dactylis glomerata</i>
Fescue, six-weeks	<i>Vulpia octoflora var. octoflora</i>	Grass, poverty	<i>Sporobolus vaginiflorus</i>
Fescue, tall	<i>Festuca arundinacea</i>	Grass, reed canary	<i>Phalaris arundinacea</i>
Figwort, late	<i>Scrophularia marilandica</i>	Grass, satin	<i>Muhlenbergia frondosa</i>
Fimbr, autumn	<i>Fimbristylis autumnalis</i>	Grass, slender bead	<i>Paspalum setaceum var. setaceum</i>
Fireweed, white	<i>Erechtites hieracifolia var. hieracifolia</i>	Grass, switch	<i>Panicum virgatum</i>
Flatsedge, red-rooted	<i>Cyperus erythrorhizos</i>	Grass, tall melic	<i>Melica nitens</i>
Flatsedge, round-headed	<i>Cyperus echinatus</i>	Grass, tickle	<i>Agrostis hyemalis</i>
Flatsedge, straw-colored	<i>Cyperus strigosus</i>	Grass, tumble	<i>Eragrostis spectabilis</i>
Flatsedge, sweet-scented	<i>Kyllinga pumila</i>	Grass, upland bent	<i>Agrostis perennans</i>
Flax, small yellow	<i>Linum medium var. texanum</i>	Grass, wedge	<i>Sphenopholis obtusata</i>
Fleabane, annual	<i>Erigeron annuus</i>	Grass, white	<i>Leersia virginica</i>

Grass, wood reed	<i>Cinna arundinacea</i>	Lettuce, blue wild	<i>Lactuca floridana</i> var. <i>villosa</i>
Grass, woodland satin	<i>Muhlenbergia sobolifera</i>	Lettuce, great white	<i>Prenanthes crepidinea</i>
Green dragon	<i>Arisaema dracontium</i>	Lettuce, hairy	<i>Lactuca hirsuta</i> var. <i>sanguinea</i>
Greenbrier, bristly	<i>Smilax tamnoides</i> var. <i>hispida</i>	Lettuce, rough white	<i>Prenanthes aspera</i>
Greenbrier, glaucous	<i>Smilax glauca</i> var. <i>leuophylla</i>	Lettuce, tall white	<i>Prenanthes altissima</i>
Greenbrier, round-leaved	<i>Smilax rotundifolia</i>	Lettuce, yellow wild	<i>Lactuca canadensis</i> var. <i>canadensis</i>
Greenbrier, saw	<i>Smilax bona-nox</i> var. <i>bona-nox</i>	Lettuce, yellow wild	<i>Lactuca canadensis</i> var. <i>latifolia</i>
Greenbrier, saw	<i>Smilax bona-nox</i> var. <i>hederaefolia</i>	Lily, superb	<i>Lilium superbum</i>
Gromwell, American	<i>Lithospermum latifolium</i>	Lily, yellow pond	<i>Nuphar advena</i>
Ground cherry	<i>Physalis pruinosa</i>	Lobelia, downy blue	<i>Lobelia puberula</i> var. <i>simulans</i>
Groundnut	<i>Apios americana</i>	Locust, black	<i>Robinia pseudoacacia</i>
Gum, black	<i>Nyssa sylvatica</i> var. <i>caroliniana</i>	Locust, honey	<i>Gleditsia triacanthos</i>
Hackberry	<i>Celtis occidentalis</i> var. <i>canina</i>	Looking glass, Venus'	<i>Triodanis perfoliata</i>
Hackberry	<i>Celtis occidentalis</i> var. <i>occidentalis</i>	Loosestrife, lance-leaved	<i>Lysimachia lanceolata</i>
Hackberry, dwarf	<i>Celtis tenuifolia</i> var. <i>tenuifolia</i>	Lopseed	<i>Phryma leptostachya</i>
Hawkweed, hairy	<i>Hieracium gronovii</i>	Lousewort	<i>Pedicularis canadensis</i> var. <i>canadensis</i>
Hawkweed, long-bearded	<i>Hieracium longipilum</i>	Madder, wild	<i>Gaulium obtusum</i>
Hawthorn, frosted	<i>Crataegus pruinosa</i>	Maple, red	<i>Acer rubrum</i> var. <i>rubrum</i>
Hazel, American	<i>Corylus americana</i>	Maple, sugar	<i>Acer saccharum</i> var. <i>saccharum</i>
Hedge hyssop, clammy	<i>Gratiola neglecta</i>	Maple, three-lobed red	<i>Acer rubrum</i> var. <i>trilobum</i>
Hedge nettle, smooth	<i>Stachys tenuifolia</i>	Marsh elder	<i>Iva annua</i>
Hedge-apple	<i>Maclura pomifera</i>	Mayapple	<i>Podophyllum peltatum</i>
Hemlock, water	<i>Cicuta maculata</i>	Meadow rue	<i>Thalictrum dasycarpum</i>
Hepatica, sharp-lobed	<i>Hepatica acutiloba</i>	Meadow rue, waxy	<i>Thalictrum revolutum</i>
Hickory, bitternut	<i>Carya cordiformis</i>	Medic, black	<i>Medicago lupulina</i>
Hickory, black	<i>Carya texana</i>	Mexican tea	<i>Chenopodium ambrosioides</i>
Hickory, mockernut	<i>Carya tomentosa</i>	Miami mist	<i>Phacelia purshii</i>
Hickory, pignut	<i>Carya glabra</i> var. <i>glabra</i>	Milkweed, climbing	<i>Matelea obliqua</i>
Hickory, shagbark	<i>Carya ovata</i> var. <i>ovata</i>	Milkweed, common	<i>Asclepias syriaca</i> var. <i>syriaca</i>
Hickory, sweet pignut	<i>Carya ovalis</i>	Milkweed, poke	<i>Asclepias exaltata</i>
Hog peanut	<i>Amphicarpea bracteata</i> var. <i>bracteata</i>	Milkweed, whorled	<i>Asclepias quadrifolia</i>
Holly, deciduous	<i>Ilex decidua</i>	Milkwort, field	<i>Polygala sanguinea</i>
Honewort	<i>Cryptotaenia canadensis</i>	Millet, wild	<i>Echinochloa muricata</i> var. <i>wiegandii</i>
Honeysuckle, Japanese	<i>Lonicera japonica</i> var. <i>japonica</i>	Mint, downy wood	<i>Blephilia ciliata</i>
Hops	<i>Humulus lupulus</i> var. <i>lupuloides</i>	Mint, hairy wood	<i>Blephilia hirsuta</i>
Hornbeam, hop	<i>Ostrya virginiana</i> var. <i>lasia</i>	Mint, mountain	<i>Pycnanthemum pycnanthemooides</i>
Hornbeam, hop	<i>Ostrya virginiana</i> var. <i>virginiana</i>	Mint, slender mountain	<i>Pycnanthemum tenuifolium</i>
Horse nettle	<i>Solanum carolinense</i>	Mist flower	<i>Conoclinium coelestinum</i>
Horsetail, common	<i>Equisetum arvense</i>	Monkey flower, winged	<i>Mimulus alatus</i>
Horseweed	<i>Conyzia canadensis</i>	Moonseed	<i>Menispermum canadense</i>
Hydrangea, wild	<i>Hydrangea arborescens</i>	Morning glory, common	<i>Ipomoea purpurea</i>
Indian hemp	<i>Apocynum cannabinum</i>	Morning glory, ivy-leaved	<i>Ipomoea hederacea</i>
Indian physic	<i>Porteranthus stipulatus</i>	Morning glory, small white	<i>Ipomoea lacunosa</i>
Indian pink	<i>Spigelia marilandica</i>	Muhly, marsh	<i>Muhlenbergia racemosa</i>
Indian plantain, pale	<i>Arnoglossum atriplicifolium</i>	Mulberry, red	<i>Morus rubra</i>
Indian tobacco	<i>Lobelia inflata</i>	Mulberry, white	<i>Morus alba</i>
Ironweed, Missouri	<i>Vernonia missurica</i>	Mullein, great	<i>Verbascum thapsus</i>
Ironweed, smooth tall	<i>Vernonia gigantea</i> var. <i>gigantea</i>	Musclewood	<i>Carpinus caroliniana</i> var. <i>caroliniana</i>
Ironweed, yellow	<i>Verbesina alternifolia</i>	Nettle, false	<i>Boehmeria cylindrica</i> var. <i>cylindrica</i>
Jack-in-the-pulpit	<i>Arisaema triphyllum</i> ssp. <i>triphyllum</i>	Nettle, wood	<i>Laportea canadensis</i>
Jimson weed	<i>Datura stramonium</i>	Nightshade, black	<i>Solanum ptycanthum</i>
Joe Pye weed, hollow	<i>Eupatoriadelphus fistulosus</i>	Nightshade, enchanter's	<i>Circaeа lutetiana</i> ssp. <i>canadensis</i>
Johnny-jump-up	<i>Viola rafinesquii</i>	Nimble Will	<i>Muhlenbergia schreberi</i>
Knotweed, sidewalk	<i>Polygonum arenastrum</i>	Nits-and-lice	<i>Hypericum drummondii</i>
Knotweed, slender	<i>Polygonum tenue</i>	Oak, black	<i>Quercus velutina</i>
Knotweed, Virginia	<i>Antenorion virginianum</i>	Oak, blackjack	<i>Quercus marilandica</i>
Ladder, Jacob's	<i>Polemonium reptans</i>	Oak, chinquapin	<i>Quercus muhlenbergii</i>
Lady's thumb	<i>Persicaria vulgaris</i>	Oak, post	<i>Quercus stellata</i>
Lamb's quarters	<i>Chenopodium album</i>	Oak, red	<i>Quercus rubra</i>
Larkspur, dwarf	<i>Delphinium tricorne</i>	Oak, scarlet	<i>Quercus coccinea</i>
Lespedeza, sericea	<i>Lespedeza cuneata</i>	Oak, shingle	<i>Quercus imbricaria</i>
Lettuce, blue wild	<i>Lactuca floridana</i> var. <i>floridana</i>	Oak, white	<i>Quercus alba</i>

Oats, inland	<i>Chasmanthium latifolium</i>	Rocket, yellow	<i>Barbarea vulgaris</i> var. <i>arcuata</i>
Olive, autumn	<i>Elaeagnus umbellata</i>	Rose, multiflora	<i>Rosa multiflora</i>
Onion, wild	<i>Allium canadense</i> var. <i>canadense</i>	Rose, pasture	<i>Rosa carolina</i>
Orchid, green fringed	<i>Platanthera lacera</i>	Rose, prairie	<i>Rosa setigera</i> var. <i>tomentosa</i>
Orchid, putty-root	<i>Aplectrum hyemale</i>	Rue anemone	<i>Anemonella thalictroides</i>
Panic grass, beaked	<i>Panicum anceps</i>	Rush, common wood	<i>Luzula multiflora</i>
Panic grass, broad-leaved	<i>Dichanthelium commutatum</i> var. <i>commutatum</i>	Rush, grass-leaved	<i>Juncus marginatus</i>
Panic grass, broom	<i>Dichanthelium scoparium</i>	Rush, inland	<i>Juncus interior</i>
Panic grass, deer-tongue	<i>Dichanthelium clandestinum</i>	Rush, long-fruited	<i>Juncus diffusissimus</i>
Panic grass, forked	<i>Dichanthelium dichotomum</i>	Rush, one-sided	<i>Juncus secundus</i>
Panic grass, large-fruited	<i>Dichanthelium boscii</i> var. <i>boscii</i>	Rush, path	<i>Juncus tenuis</i>
Panic grass, loose-flowered	<i>Dichanthelium laxiflorum</i>	Rush, pointed	<i>Juncus acuminatus</i>
Panic grass, old-field	<i>Dichanthelium acuminatum</i> var. <i>fasciculatum</i>	Rush, short-fruited	<i>Juncus brachycarpus</i>
Panic grass, round-fruited	<i>Dichanthelium polyanthes</i>	Rush, soft	<i>Juncus effusus</i> var. <i>solutus</i>
Panic grass, slender	<i>Panicum flexile</i>	Rushfoil, elliptical	<i>Crotonopsis elliptica</i>
Panic grass, small-fruited	<i>Dichanthelium microcarpon</i>	Rye, riverbank wild	<i>Elymus riparius</i>
Panic grass, soft-leaved	<i>Dichanthelium malacophyllum</i>	Rye, silky wild	<i>Elymus villosus</i>
Panic grass, starved	<i>Dichanthelium depauperatum</i>	Rye, Virginia wild	<i>Elymus virginicus</i> var. <i>virginicus</i>
Panic grass, Yadkin	<i>Dichanthelium yadkinense</i>	Sage, lyre-leaved	<i>Elymus virginicus</i> var. <i>glabriflorus</i>
Panicum, fall	<i>Panicum dichotomiflorum</i> var. <i>dichotomiflorum</i>	Sassafras	<i>Salvia lyrata</i>
Partridge pea	<i>Chamaecrista fasciculata</i> var. <i>fasciculata</i>	Sassafras, red	<i>Sassafras albidum</i> var. <i>albidum</i>
Partridge pea, small	<i>Chamaecrista nictitans</i>	Sedge, blue	<i>Sassafras albidum</i> var. <i>molle</i>
Pawpaw	<i>Asimina triloba</i>	Sedge, blunt-scaled oak	<i>Carex glaucoidea</i>
Pellitory	<i>Parietaria pensylvanica</i>	Sedge, blunt-scaled wood	<i>Carex albicans</i>
Pencil flower	<i>Stylosanthes biflora</i>	Sedge, bottlebrush	<i>Carex albursina</i>
Pennyroyal, American	<i>Hedeoma pulegioides</i>	Sedge, bristly cattail	<i>Carex lirida</i>
Pepper grass, common	<i>Lepidium virginicum</i>	Sedge, brown fox	<i>Carex frankii</i>
Persimmon	<i>Diospyros virginiana</i> var. <i>pubescens</i>	Sedge, Carey's wood	<i>Carex vulpinoidea</i>
Persimmon	<i>Diospyros virginiana</i> var. <i>virginiana</i>	Sedge, common wood	<i>Carex careyana</i>
Petunia, wild	<i>Ruellia humilis</i>	Sedge, curly-styled wood	<i>Carex blanda</i>
Phlox, blue	<i>Phlox divaricata</i> ssp. <i>laphamii</i>	Sedge, downy green	<i>Carex rosea</i>
Phlox, garden	<i>Phlox paniculata</i>	Sedge, early oak	<i>Carex swanii</i>
Phlox, smooth	<i>Phlox glaberrima</i> ssp. <i>interior</i>	Sedge, fescue oval	<i>Carex umbellata</i>
Pimpernel, slender false	<i>Lindernia anagallidea</i>	Sedge, fringed	<i>Carex festucacea</i>
Pine, shortleaf	<i>Pinus echinata</i>	Sedge, fuzzy-fruited sharp-scaled	<i>Carex crinita</i> var. <i>brevicrinis</i>
Pineweed	<i>Hypericum gentianoides</i>	Sedge, gray	<i>Carex oxylepis</i> var. <i>pubescens</i>
Pink, Deptford	<i>Dianthus armeria</i>	Sedge, hairy green	<i>Carex amphibola</i>
Pinweed, narrow-leaved	<i>Lechea tenuifolia</i>	Sedge, hidden oak	<i>Carex hirsutella</i>
Plantain, Rugel's	<i>Plantago rugelii</i>	Sedge, James'	<i>Carex abdita</i>
Plantain, Virginia	<i>Plantago virginica</i>	Sedge, long-scaled green	<i>Carex jamesii</i>
Plum, wild	<i>Prunus americana</i>	Sedge, narrow-leaved wood	<i>Carex bushii</i>
Poison ivy	<i>Toxicodendron radicans</i> var. <i>negundo</i>	Sedge, reflexed	<i>Carex digitalis</i>
Poison ivy	<i>Toxicodendron radicans</i> var. <i>radicans</i>	Sedge, sand bracted	<i>Carex retroflexa</i>
Pokeweed	<i>Phytolacca americana</i>	Sedge, short-headed bracted	<i>Carex muhlenbergii</i>
Polypody, common	<i>Polypodium virginianum</i>	Sedge, weak-stemmed wood	<i>Carex cephalophora</i>
Prickly pear, common	<i>Opuntia humifusa</i>	Sedge, Willdenow's	<i>Carex laxiculmis</i>
Primrose willow, creeping	<i>Ludwigia peploides</i> ssp. <i>glabrescens</i>	Sedge, wood gray	<i>Carex willdenowii</i>
Purple-top	<i>Tridens flavus</i>	Sedge, yellow fox	<i>Carex grisea</i>
Purslane, marsh	<i>Ludwigia palustris</i> var. <i>americana</i>	Seedbox	<i>Carex brachyglossa</i>
Pusseytoes	<i>Antennaria plantaginifolia</i>	Self-heal	<i>Ludwigia alternifolia</i> var. <i>alternifolia</i>
Quillwort, black	<i>Isoetes melanopoda</i>	Self-heal	<i>Prunella vulgaris</i> var. <i>elongata</i>
Ragweed, common	<i>Ambrosia artemisiifolia</i>	Senna, wild	<i>Prunella vulgaris</i> var. <i>vulgaris</i>
Ragweed, giant	<i>Ambrosia trifida</i> var. <i>trifida</i>	Shadbush	<i>Senna marilandica</i>
Ragweed, lance-leaved	<i>Ambrosia bidentata</i>	Shooting star	<i>Amelanchier arborea</i>
Ragwort, golden	<i>Senecio aureus</i> var. <i>gracilis</i>	Shooting star, French's	<i>Dodecatheon meadia</i>
Raspberry, black	<i>Rubus occidentalis</i>	Sicklepod	<i>Dodecatheon frenchii</i>
Rattlebox	<i>Crotalaria sagittalis</i>	Sida, prickly	<i>Arabis canadensis</i>
Redbud	<i>Cercis canadensis</i>	Skullcap, downy	<i>Sida spinosa</i>
Redtop	<i>Agrostis gigantea</i>	Skullcap, hairy	<i>Scutellaria incana</i>
			<i>Scutellaria elliptica</i>

Smartweed, creeping	<i>Persicaria cespitosa</i>	Three-seeded Mercury, Virginia	<i>Acalypha virginica</i>
Smartweed, pink	<i>Persicaria pensylvanica</i> var. <i>pensylvanica</i>	Tick trefoil, bare-stemmed	<i>Desmodium nudiflorum</i>
Smartweed, spotted	<i>Persicaria punctata</i>	Tick trefoil, glaucous	<i>Desmodium laevigatum</i>
Snakeroot, Canada black	<i>Sanicula canadensis</i> var. <i>canadensis</i>	Tick trefoil, hairy small-leaved	<i>Desmodium ciliare</i>
Snakeroot, clustered black	<i>Sanicula odorata</i>	Tick trefoil, hoary	<i>Desmodium canescens</i>
Snakeroot, Virginia	<i>Aristolochia serpentaria</i>	Tick trefoil, panicled	<i>Desmodium paniculatum</i>
Snakeroot, white	<i>Ageratina altissima</i>	Tick trefoil, round-leaved	<i>Desmodium rotundifolium</i>
Sneezeweed, purple	<i>Helenium flexuosum</i>	Tick trefoil, showy	<i>Desmodium canadense</i>
Solomon's seal	<i>Polygonatum commutatum</i>	Tick trefoil, smooth	<i>Desmodium glabellum</i>
Solomon's seal, false	<i>Smilacina racemosa</i>	Tick trefoil, smooth small-leaved	<i>Desmodium marilandicum</i>
Solomon's seal, small	<i>Polygonatum biflorum</i>	Tickseed	<i>Coreopsis pubescens</i>
Spanish needles	<i>Bidens bipinnata</i>	Timothy	<i>Phleum pratense</i>
Spicebush	<i>Lindera benzoin</i> var. <i>benzoin</i>	Tomato	<i>Lycopersicon esculentum</i>
Spicebush	<i>Lindera benzoin</i> var. <i>pubescens</i>	Tooth-cup	<i>Rotala ramosior</i>
Spiderwort, broad-leaved	<i>Tradescantia subaspera</i> var. <i>subaspera</i>	Toothwort	<i>Dentaria laciniata</i>
Spiderwort, Virginia	<i>Tradescantia virginiana</i>	Touch-me-not, orange	<i>Impatiens capensis</i>
Spike rush, blunt	<i>Eleocharis ovata</i> var. <i>obtusa</i>	Touch-me-not, pale	<i>Impatiens pallida</i>
Spike rush, slender	<i>Eleocharis verrucosa</i>	Trillium, purple	<i>Trillium recurvatum</i>
Spleenwort, ebony	<i>Asplenium platyneuron</i> var. <i>platyneuron</i>	Trillium, white	<i>Trillium flexipes</i>
Spleenwort, silvery	<i>Deparia acrostichoides</i>	Trumpet creeper	<i>Campsis radicans</i>
Spring beauty	<i>Claytonia virginica</i>	Tuliptree	<i>Liriodendron tulipifera</i>
Spurge, flowering	<i>Euphorbia corollata</i> var. <i>corollata</i>	Valerian, pink	<i>Valeriana pauciflora</i>
Spurge, spotted creeping	<i>Chamaesyce maculata</i>	Velvet-leaf	<i>Abutilon theophrasti</i>
Spurge, spreading	<i>Chamaesyce humistrata</i>	Vervain, white	<i>Verbena urticifolia</i> var. <i>urticifolia</i>
St. Andrew's cross	<i>Ascyrum multicaule</i>	Violet, arrow-leaved	<i>Viola sagittata</i>
St. John's wort, dwarf	<i>Hypericum mutilum</i>	Violet, cleft	<i>Viola palmata</i> var. <i>dilatata</i>
St. John's wort, shrubby	<i>Hypericum prolificum</i>	Violet, cream	<i>Viola striata</i>
St. John's wort, spotted	<i>Hypericum punctatum</i>	Violet, green	<i>Hybanthus concolor</i>
Star grass, yellow	<i>Hypoxis hirsuta</i>	Violet, Missouri	<i>Viola missouriensis</i>
Starwort, terrestrial	<i>Callitricha terrestris</i>	Violet, wooly blue	<i>Viola sororia</i>
Stonecrop, ditch	<i>Penthorum sedoides</i>	Virgin's bower	<i>Clematis virginiana</i>
Stonecrop, three-leaved	<i>Sedum ternatum</i>	Virginia creeper	<i>Parthenocissus quinquefolia</i>
Sugarberry	<i>Celtis laevigata</i> var. <i>laevigata</i>	Wahoo	<i>Euonymus atropurpureus</i>
Sumac, smooth	<i>Rhus glabra</i>	Walnut, black	<i>Juglans nigra</i>
Sumac, winged	<i>Rhus copallina</i>	Water plantain, small-flowered	<i>Alisma subcordatum</i>
Sundrops, thread-leaved	<i>Oenothera linifolia</i>	Water willow	<i>Justicia americana</i>
Sunflower, false	<i>Heliopsis helianthoides</i> var. <i>helianthoides</i>	Waterleaf, broad-leaved	<i>Hydrophyllum canadense</i>
Sunflower, hispid	<i>Helianthus hirsutus</i>	Waterleaf, Virginia	<i>Hydrophyllum virginianum</i>
Sunflower, small-headed	<i>Helianthus microcephalus</i>	Whitlow grass, common	<i>Draba reptans</i>
Sunflower, woodland	<i>Helianthus divaricatus</i>	Widow's cross	<i>Sedum pulchellum</i>
Susan, black-eyed	<i>Rudbeckia hirta</i> var. <i>hirta</i>	Wild licorice, hairy	<i>Galium circaeans</i> var. <i>hypomalacum</i>
Susan, brown-eyed	<i>Rudbeckia triloba</i>	Willow, black	<i>Salix nigra</i>
Swamp marigold	<i>Bidens aristosa</i> var. <i>aristosa</i>	Wood sorrel, violet	<i>Oxalis violacea</i>
Swamp marigold	<i>Bidens aristosa</i> var. <i>fritcheyi</i>	Wood sorrel, yellow	<i>Oxalis fontana</i>
Sweet potato, wild	<i>Ipomoea pandurata</i>	Wood sorrel, yellow	<i>Oxalis stricta</i>
Sweetgum	<i>Liquidambar styraciflua</i>	Woodsia, common	<i>Woodsia obtusa</i>
Sycamore	<i>Platanus occidentalis</i>	Wool grass	<i>Scirpus cyperinus</i>
Tear thumb	<i>Tracaulon sagittatum</i>	Yam, Chinese	<i>Dioscorea oppositifolia</i>
Thistle, field	<i>Cirsium discolor</i>	Yam, wild	<i>Dioscorea quaternata</i> var. <i>quaternata</i>
Thistle, tall	<i>Cirsium altissimum</i>	Yam, wild	<i>Dioscorea villosa</i>
Three-awn	<i>Aristida dichotoma</i>	Yarrow	<i>Achillea millefolium</i> var. <i>millefolium</i>
Three-seeded Mercury, rhombic	<i>Acalypha rhomboidea</i>	Yerba de tajo	<i>Eclipta prostrata</i>
Three-seeded Mercury, slender	<i>Acalypha gracilens</i> var. <i>gracilens</i>	Yucca	<i>Yucca smalliana</i>

Final Report: Floristic Survey of the Lusk Creek Wilderness Parcel in Pope County, Illinois

Date: October 15, 2010

Grant agreement #10-L04W

Grantee name, address, and telephone: Illinois Audubon Society, Box 2547, Springfield, Illinois 62708; (217)544-2473

Time-frame of the report: April 28 to September 22, 2010

Name and telephone number of Grantee's representative completing the report:

John White, (217)344-5041

Project objectives as described in the application and grant agreement: (1) Generate a plant species list identifying general floristic composition (dominant and characteristic species), and document the presence of any rare, threatened, or endangered species within the project area. (2) Determine the presence or extent of any exotic/invasive species present within the site.

Completed Project description and summary of the Project accomplishments: See the accompanying technical report, *Flora of the Illinois Audubon Society's Lusk Creek Property in Pope County, Illinois*.

Deliverables of five to ten digital images depicting the study species, Project site, Project activities, or other aspects of the Project: See the accompanying set of digital photographs.

List of wildlife and/or native plant resources (by species) that benefited from the Project and how they benefited: Acalypha gracilens var. gracilens, Acalypha rhomboidea, Acalypha virginica, Acer negundo var. negundo, Acer rubrum var. rubrum, Acer rubrum var. trilobum, Acer saccharum var. saccharum, Actaea pachypoda (Actaea alba), Adiantum pedatum, Aesculus glabra var. glabra, Agalinis fasciculata (Gerardia fasciculata), Agalinis tenuifolia (Gerardia tenuifolia), Agastache nepetoides, Ageratina altissima (Eupatorium rugosum), Agrimonia parviflora, Agrimonia rostellata, Agrostis ellottiana, Agrostis hyemalis, Agrostis perennans, Alisma subcordatum (Alisma plantago-aquatica var. parvifolium), Allium canadense var. canadense, Alnus serrulata, Ambrosia artemisiifolia, Ambrosia bidentata, Ambrosia trifida var. trifida, Amelanchier arborea, Ampelamus albidus, Amphicarpaea bracteata var. bracteata, Amsonia tabernaemontana var. tabernaemontana, Anagallis minima (Centunculus minimus), Andropogon gerardii, Andropogon gyrans (Andropogon elliotii), Andropogon virginicus, Anemone virginiana, Anemonella thalictroides, Antennaria plantaginifolia, Antennaria virginianum (Polygonum virginianum, Tovara virginiana), Apis americana, Aplectrum hyemale, Apocynum cannabinum, Aquilegia canadensis, Arabis canadensis, Arabis laevigata, Arisaema dracontium, Arisaema triphyllum ssp. triphyllum, Aristida dichotoma, Aristolochia serpentaria, Arnoglossum atriplicifolium (Cacalia atriplicifolia), Arundinaria gigantea, Asarum canadense var. reflexum, Asclepias exaltata (Asclepias phytolaccoides), Asclepias quadrifolia, Asclepias syriaca var. syriaca, Asclepias tuberosa spp. interior, Ascyrum multicaule (Hypericum stragulum), Asimina triloba, Asplenium platyneuron var. platyneuron, Asplenium rhizophyllum, Aster lanceolatus var. simplex (Aster simplex), Aster lateriflorus, Aster patens, Aster pilosus, Aster praealtus var. praealtus, Aster sagittifolius, Aster shortii, Aster turbinellus, Athyrium felix-femina, Aureolaria flava var. micrantha, Betula nigra, Bidens aristosa var. aristosa, Bidens aristosa var. fritscheyi, Bidens bipinnata, Bidens frondosa, Bidens polylepis, Blephilia ciliata, Blephilia hirsuta, Boehmeria cylindrica var. cylindrica, Botrychium obliquum var. obliquum, Botrychium virginianum, Bouteloua curtipendula, Brachyelytrum erectum, Bromus pubescens, Callitricha terrestris, Campanulastrum americanum var. americanum (Campanula americana), Campsis radicans, Carex abdita, Carex albicans (Carex artitecta), Carex alburnina, Carex amphibola, Carex blanda, Carex brachyglossa (Carex annectens), Carex bushii, Carex careyana, Carex cephalophora, Carex crinita var. brevicrinis, Carex digitalis, Carex festucacea, Carex frankii,

Carex glaucodea, *Carex grisea*, *Carex hirsutella*, *Carex jamesii*, *Carex laxiculmis*, *Carex lurida*, *Carex muhlenbergii*, *Carex oxylepis* var. *pubescens*, *Carex retroflexa*, *Carex rosea* (*Carex convoluta*), *Carex swanii*, *Carex umbellata*, *Carex vulpinoidea* (*Carex annexens*), *Carex willdenowii*, *Carpinus caroliniana* var. *caroliniana*, *Carya cordiformis*, *Carya glabra* var. *glabra*, *Carya ovalis*, *Carya ovata* var. *ovata*, *Carya texana*, *Carya tomentosa*, *Caulophyllum thalictroides*, *Celtis laevigata* var. *laevigata*, *Celtis occidentalis* var. *canina*, *Celtis occidentalis* var. *occidentalis*, *Celtis tenuifolia* var. *tenuifolia*, *Cephalanthus occidentalis* var. *occidentalis*, *Cerastium arvense* var. *villosum*, *Cercis canadensis*, *Chaerophyllum procumbens* var. *procumbens*, *Chamaecrista fasciculata* var. *fasciculata* (*Cassia fasciculata*), *Chamaecrista nictitans* (*Cassia nictitans*), *Chamaesyce humistrata* (*Euphorbia humistrata*), *Chamaesyce maculata* (*Chamaesyce supina*, *Euphorbia maculata*, *Euphorbia supina*), *Chasmanthium latifolium* (*Uniola latifolia*), *Cheilanthes lanosa*, *Cicuta maculata*, *Cimicifuga rubifolia*, *Cinna arundinacea*, *Circaeа lutetiana* ssp. *canadensis*, *Cirsium altissimum*, *Cirsium discolor*, *Claytonia virginica*, *Clematis virginiana*, *Conoclinium coelestinum* (*Eupatorium coelestinum*), *Conyzа canadensis* (*Erigeron canadensis*), *Coreopsis pubescens*, *Coreopsis tripteris* var. *tripteris*, *Cornus florida*, *Cornus obliqua*, *Corydalis flavula*, *Corylus americana*, *Crataegus pruinosa* (*Crataegus mackenzii*, *Crataegus rugosa*), *Crotalaria sagittalis*, *Croton capitatus*, *Crotonopsis elliptica*, *Cryptotaenia canadensis*, *Cunila origanoides*, *Cuscuta cuspis*, *Cuscuta gronovii* var. *gronovii*, *Cyperus echinatus* (*Cyperus ovularis*), *Cyperus erythrorhizos*, *Cyperus strigosus*, *Cystopteris protrusa* (*Cystopteris fragilis* var. *protrusa*), *Danthonia spicata*, *Delphinium tricorne*, *Dentaria laciniata*, *Deparia acrostichoides* (*Athyrium thelypteroides*), *Desmodium canadense*, *Desmodium canescens*, *Desmodium ciliare*, *Desmodium glabellum*, *Desmodium laevigatum*, *Desmodium marilandicum*, *Desmodium nudiflorum*, *Desmodium paniculatum*, *Desmodium rotundifolium*, *Diarrhena obovata* (*Diarrhena americana*), *Dicentra cucullaria*, *Dichanthelium acuminatum* var. *fasciculatum* (*Panicum lanuginosum* var. *fasciculatum*, *Panicum tennesseense*), *Dichanthelium boscii* var. *boscii*, *Dichanthelium clandestinum* (*Panicum clandestinum*), *Dichanthelium commutatum* var. *commutatum* (*Panicum commutatum* var. *commutatum*), *Dichanthelium depauperatum* (*Panicum depauperatum*), *Dichanthelium dichotomum* (*Panicum barbulatum*, *Panicum dichotomum*), *Dichanthelium laxiflorum* (*Panicum laxiflorum*, *Panicum xalapense*), *Dichanthelium malacophyllum* (*Panicum malacophyllum*), *Dichanthelium microcarpon* (*Panicum microcarpon*), *Dichanthelium polyanthes* (*Panicum polyanthes*), *Dichanthelium scoparium* (*Panicum scoparium*), *Dichanthelium yadkinense* (*Panicum yadkinense*), *Diodia teres* var. *teres*, *Dioscorea quaternata* var. *quaternata*, *Dioscorea villosa*, *Diospyros virginiana* var. *pubescens*, *Diospyros virginiana* var. *virginiana*, *Diplazium pycnocarpon* (*Athyrium pycnocarpon*), *Dodecatheon frenchii*, *Dodecatheon meadia*, *Draba reptans*, *Dryopteris goldiana*, *Dryopteris marginalis*, *Echinochloa muricata* var. *muricata* (*Echinochloa pungens* var. *pungens*), *Echinochloa muricata* var. *wiegandii* (*Echinochloa pungens* var. *wiegandii*), *Eclipta prostrata* (*Eclipta alba*), *Eleocharis ovata* var. *obtusa* (*Eleocharis obtusa*), *Solanum carolinense*, *Solanum ptycanthum* (*Solanum americanum*, *Solanum nigrum*), *Solidago altissima* (*Solidago canadensis*), *Solidago*

buckleyi, Solidago caesia, Solidago flexicaulis, Solidago gigantea var. leiophylla, Solidago juncea, Solidago missouriensis var. fasciculata, Solidago nemoralis, Solidago rugosa var. rugosa, Solidago ulmifolia, Sphenopholis obtusata, Spigelia marilandica, Sporobolus vaginiflorus, Stachys tenuifolia, Staphylea trifolia, Strophostyles umbellata, Stylosanthes biflora, Symphoricarpos orbiculatus, Tephrosia virginiana var. holosericea, Teucrium canadense, Thalictrum dasycarpum, Thalictrum revolutum, Tilia americana, Toxicodendron radicans var. negundo (Rhus radicans var. negundo), Toxicodendron radicans var. radicans (Rhus radicans var. radicans), Tracaulon sagittatum (Polygonum sagittatum), Tradescantia subaspera var. subaspera, Tradescantia virginiana, Trichostema dichotomum, Tridens flavus (Triodia flava), Trillium flexipes (Trillium gleasonii), Trillium recurvatum, Triodanis perfoliata (Specularia perfoliata), Ulmus alata, Ulmus americana, Ulmus rubra, Uvularia grandiflora, Vaccinium arboreum var. arboreum, Valeriana pauciflora, Valerianella radiata var. radiata, Verbena urticifolia var. urticifolia, Verbesina alternifolia, Verbesina helianthoides, Verbesina virginica, Vernonia gigantea var. gigantea (Vernonia altissima var. altissima), Vernonia missurica, Veronicastrum virginicum, Viburnum prunifolium, Viola missouriensis, Viola palmata var. dilatata, Viola sagittata, Viola sororia (Viola papilionacea, Viola pratincola), Viola striata, Vitis aestivalis var. aestivalis, Vitis cinerea, Vitis riparia, Vitis vulpina, Vulpia octoflora var. octoflora (Festuca octoflora var. octoflora), Woodsia obtusa, Woodwardia areolata, Xanthium strumarium var. glabratum (Xanthium chinense), and Zizia aurea, especially the State Endangered or Threatened species sharp-scaled sedge (Carex oxylepis), Willdenow's sedge (Carex willdenowii), Appalachian bugbane (Cimicifuga rubifolia), Yadkin panic grass (Dichanthelium yadkinense), French's shooting star (Dodecatheon frenchii), and climbing milkweed (Matelea obliqua). The above-listed species benefited because the landowner has been notified of their presence on the site (populations of the Endangered and Threatened species were described by the Contractor in detail with Element Occurrence Records), and the landowner can take the presence of these species into consideration when managing the property. The above-listed species also benefited because the landowner has been notified of the presence of the following non-native species that compete with native species for habitat and resources on the property, and the landowner can take this information into consideration when managing the property: Abutilon theophrastii, Achillea millefolium var. millefolium, Agrostis gigantea (Agrostis alba var. alba), Allium vineale, Anthemis cotula, Barbarea vulgaris var. arcuata, Bromus commutatus, Bromus inermis, Cerastium fontanum (Cerastium vulgatum), Chenopodium album, Chenopodium ambrosioides, Commelina communis, Dactylis glomerata, Datura stramonium, Daucus carota, Dianthus armeria, Digitaria ischaemum, Digitaria sanguinalis, Dioscorea oppositifolia (Dioscorea batatas, Dioscorea polystachya), Elaeagnus umbellata, Eleusine indica, Festuca arundinacea (Festuca elatior var. arundinacea), Ipomoea hederacea, Ipomoea purpurea, Kummerowia striata (Lespedeza striata), Lamium purpureum, Lespedeza cuneata, Leucanthemum vulgare (Chrysanthemum leucanthemum), Lonicera japonica var. japonica, Lycopersicon esculentum, Maclura pomifera, Medicago lupulina, Melilotus albus, Microstegium vimineum, Mollugo verticillata, Morus alba, Perilla frutescens var. frutescens, Persicaria cespitosa (Polygonum cespitosum var. longisetum), Persicaria vulgaris (Polygonum persicaria), Phalaris arundinacea, Phleum pratense, Plantago lanceolata, Poa compressa, Poa pratensis, Polygonum arenastrum (Polygonum aviculare), Prunella vulgaris var. vulgaris, Ranunculus sardous, Rosa multiflora, Rumex acetosella, Rumex crispus, Rumex obtusifolius, Setaria faberi, Setaria glauca (Setaria lutea, Setaria lutescens), Sida spinosa, Sorghum halepense, Stellaria media, Thlaspi perfoliatum, Trifolium campestre, Trifolium hybridum, Trifolium pratense var. pratense, Trifolium repens, Verbascum thapsus, Viola rafinesquii, and Yucca smalliana (Yucca filamentosa), especially the highly invasive exotic species Johnson grass (Sorghum halepense), sericea lespedeza (Lespedeza cuneata), Japanese honeysuckle (Lonicera japonica), autumn olive (Elaeagnus umbellata), Chinese yam (Dioscorea oppositifolia), and stilt grass (Microstegium vimineum).

Specific audience affected: Citizens of the State of Illinois.

Measurable outcomes achieved: 56.89 acres surveyed for vascular plant species.

List of products resulting from the Project: Final report for the Illinois Wildlife Preservation Fund (Floristic Survey of the Lusk Creek Wilderness Parcel in Pope County, Illinois), report to the Illinois Audubon Society (*Flora of the Illinois Audubon Society's Lusk Creek Property in Pope County, Illinois*), photographs of the study area, and Element Occurrence Records for Carex oxylepis, Carex willdenowii, Cimicifuga rubifolia, Dichanthelium yadkinense, Dodecatheon frenchii, and Matelea obliqua.

Total Project expenditures itemized to include the name and address of the contractor, number of hours worked per date, and total hours worked: Ecological Services, 904 South Anderson Street, Urbana, Illinois 61801. March 20, 2010, 1.5 hr.; March 27, 0.25 hr.; March 29, 3.75 hr.; March 30, 0.25 hr.; April 2, 0.25 hr.; April 8, 1 hr.; April 10, 0.25 hr.; April 12, 0.5 hr.; April 13, 0.25 hr.; April 17, 0.25 hr.; April 18, 0.75 hr.; April 19, 1.5 hr.; April 21, 1.5 hr.; April 24, 0.25 hr.; April 27, 11.5 hr.; April 28, 25.5 hr.; June 4, 0.25 hr.; June 7, 0.5 hr.; June 10, 8.5 hr.; June 11, 16.5 hr.; June 12, 2.25 hr.; June 13, 9.5 hr.; June 14, 12 hr.; June 15, 7.5 hr.; June 16, 2 hr.; June 17, 5.5 hr.; June 18, 10.5 hr.; June 19, 6.5 hr.; June 20, 2.5 hr.; June 21, 0.75 hr.; June 22, 1.5 hr.; June 23, 6.75 hr.; June 24, 16 hr.; June 25, 1.75 hr.; June 26, 2 hr.; June 27, 14.75 hr.; June 28, 5 hr.; June 29, 6 hr.; June 30, 4.75 hr.; July 1, 7.5 hr.; July 2, 7.25 hr.; July 3, 0.25 hr.; July 6, 0.75 hr.; July 7, 6.5 hr.; July 11, 4 hr.; July 17, 0.25 hr.; July 18, 0.25 hr.; July 20, 0.25 hr.; August 25, 0.25 hr.; August 26, 0.25 hr.; September 6, 0.25 hr.; September 8, 0.25 hr.; September 9, 0.5 hr.; September 11, 0.75 hr.; September 14, 0.25 hr.; September 15, 0.25 hr.; September 16, 0.25 hr.; September 17, 12.75 hr.; September 18, 11.25 hr.; September 20, 1.75 hr.; September 21, 10.5 hr.; September 22, 10.75 hr.; September 23, 7.25 hr.; September 24, 6.5 hr.; September 26, 2.25 hr.; September 27, 5 hr.; September 28, 0.25 hr.; September 29, 1.25 hr.; September 30, 9.75 hr.; October 1, 12.75 hr.; October 2, 10.5 hr.; October 3, 12.25 hr.; October 4, 13.75 hr.; October 5, 12.25 hr.; October 6, 9.5 hr.; October 7, 3.25 hr.; October 8, 3.75 hr.; October 9, 1 hr.; October 10, 2.25 hr.; October 11, 0.25 hr.; October 14, 4 hr.; October 15, 8.25 hr.; Total, 395.5 hours.

Plant EOR Field Data Form

Scientific Name: Carex oxylepis

New Update Eo Occurrence #: _____ Survey Type: On-site survey

Date: 06/24/10 Naturally Occurring Introduced when(if known) _____

County: Pope N Latitude: 37° 32.3077' Longitude: W 88° 32.2024'

INAI Site Name: _____ Survey Site (alias): _____

Directions: Look for the plant in the woods up-slope from the glade.

Habitat Description: Dry upland forest. Canopy: Juniperus virginiana, Ulmus alata, Fraxinus americana. Understory: Ostrya virginiana, Smilax bona-nox, Fraxinus americana.

Township/Range/Section Data: _____ Ground layer: Carex oxylepis, Antennaria plantaginifolia, Chasmanthium latifolium, Danthonia spicata

PLANT POPULATION DATA

NE 1/4 NW 1/4 section 27, T11S, R.6 E, 3rd PM
Population extent(estimate area covered): E-W 16 ft. N-S 26 ft.

(If a GPS boundary was collected the area will be calculated when you submit the shape)

Population Name (please provide a name for new eor's): Illinois Audubon Society's Bush Creek Wilderness tract's colony of Carex oxylepis.

Distribution: Uniform Clumped Random Total Stems(est. if >100): > 100

flowering _____ # fruiting Very approximately 80 # seedlings/juveniles: _____

If population is not continuous, please provide an id number for each of the sub-pop'n (ideally the name & id should correspond to what you labeled the data in your GPS):

ID: _____ Pop. Data: _____

GPS DATA

Source Collected: Point (occurrence is < 12.5 m x 12.5 m)

Line (>12.5 m long, < 12.5 m wide)

Polygon (occurrence is > 12.5 m x 12.5 m)

GPS Accuracy (Accuracy as displayed by the GPS must be turned in for each waypoint and track collected for this Eor): 118 feet

Corex oxylepis, Illinois Audubon Society's Lusk Creek tract
