## Welcome To SU Freshmen

Any entering freshman class brings with it a certain amount of sadness along with its sparkling vitality, new energy and fresh interest. It is a signal of lost opportunities for far too many upperclassmen. Perhaps we can say little that will help them to be aware of some of the pitfalls that then next few years hold for them. Perhaps also, we should not really want them to avoid making the same mistake. It is all part of college life and it will all contribute to making the next four years important and memorable. What we can say is accept the challenges that Syracuse offers and try your best to not only meet, but also to add to them.

## A New Dean Takes Office

The Daily Orange would like to take this opportunity to welcome back to Syracuse University a person who will be of special importance to all Hill students. This is, of course, our new Dean of Men, Earle Clifford. Dean Clifford comes to a campus that is expanding and growing more complex everyday and the importance of his position grows along with it. At the University of Vermont Dean Clifford was known as a man who "could look you straight in the eyes" and who "always had his door open to any student at anytime." The calibre and sincerity of his remarks in today's Daily Orange convinces us that the man has not changed. It should also be noted that his concern and interest in the ailing university fraternity system is greatly appreciated and we shall all look forward to a fresh approach and outlook on that situation.

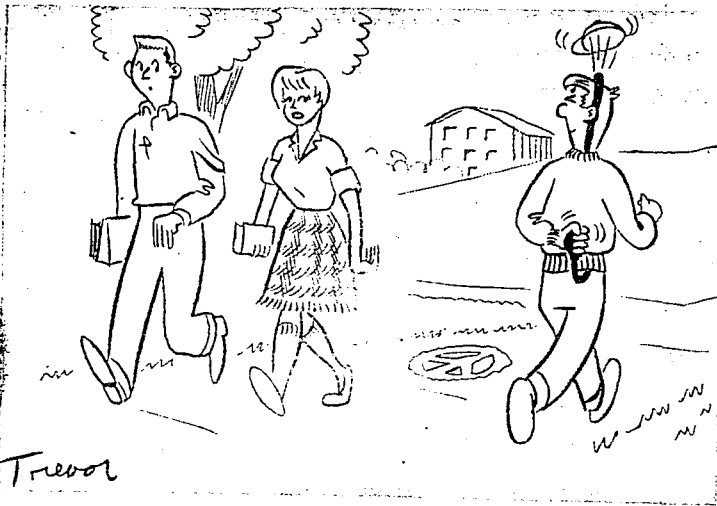

Besides his experience as Dean of Men at the University of Vermont, Dean Clifford has a long acquaintanceship with the problems of Syracuse University. A graduate of Syracuse, he was a resident advisor, an administrative assistant in the Dean of Men's office and Assistant Dean of Men. We wish him good luck at his job.

We would also like to extend our best wishes to Dean Clifford's predecessor, Carleton Krathwohl who has decided to leave the storms of administrative life in order to enter the field of educational research.

## ROTC Summer Camp Deserves Praise

We would also like to congratulate the 106 Syracuse students who successfully completed their six week period of summer training for the Army Reserved Officers Training Corps at Fort Devens, Mass. The training was vigorous and demanded much from the cadets. Often a cadet would find himself performing the most meager of tasks one day, while the next day would require him to lead and maneuver as many as 135 fellow trainees. This means that each candidate must depend largely on his own personal qualifications and the respect he can gain from his fellow cadets. All this is done during a period of the summer that could be more financially rewarding.

These future Army officers, along with the cadets of the Air Force R.O.T.C. deserve both our gratitude and congratulations. They are working to fulfill their military obligation during a period of history in which the peace can end at any time.

## College Offers Chance to Mature Or Waste Time

**TO the Editor:** The Daily Orange makes interesting reading and is a fountainhead of the competing ideas on a college campus. But a university community is to be judged not only by what is reported but by what is unsaid. Sometimes there is need for a sober and incisive evaluation of the nature of a university.

The university is compounded out of the experience, the intellectual disciplines, the moral values, the ideas, the wisdom, the aspirations, the prayers and the sacrifices of generations.

It stands on the broken and changing frontiers of every critical era. It is a cooperative venture in the preparation of youth to wrestle with the issues of their time.

As is always in every generation growing up in a painful and strange literature.

True education begins in an awareness of ignorance. Socrates took as his mission to make men aware of their ignorance. The great insights and discoveries of new truth came by men who hungered for deeper revelations of knowledge.

In a series of character research studies on what happens to college students, Dr. Ligon of Union College came to these conclusions: One group sells its birthright of education for alcohol, sex, laziness and shoddy values.

Another group aspires to be the big wheels, to win social recognition, join big name fraternities and acquire social prestige.

The third and larger group is the salt of the campus. Students in this group come with eager minds, a hunger for truth, an appreciation of the real treasures of a university community, a determination and a will to appropriate the gifts of university life. This group will furnish men and women to stand as pioneers on or nthe perimeter of ideological struggles.

The age old complaint of college is discipline. This is also the issue of society.

Many times, resistance to standards and disciplines is a cover-up for frustrated minds and deficient achievements.

## Early Days Produce Anxieties on Campus

**By BOB SEEWALD**  
These first few days around campus some upperclassmen can invariably be seen bumping into each other and exclaiming in wonder, "We're seniors!"

This is the time of year to get used to things again, and even some seniors have trouble orienting themselves. They'll remark on the swift passage of time, and recall the days when they were able to get into the frosh mixer legitimately. In those days they weren't acting when they sauntered into the jammed gym with their dazed eyes in the air.

It's not that our new seniors are so amazed about their ability to stay in school for four years, after all, a few years ago they were told that their class was the smartest one ever to attend this university.

But being a senior always seemed like something in the distant future.

**Beats Working**  
One disillusioned young man who had reached what he called "the end of the line" said that "going to school beats working." He was not too happy over the prospect of his imminent absence from the campus scene.

He said that he preferred the highly irregular hours of his undergraduate days to the predictable schedule of working with IBM.

Another senior, after apologizing that he wasn't one to There is always the explosive power of new ideas and the daring to explore the need for change. All education awakens dormant faculties. There is a vast difference between the student who seeks satisfaction of baser passions and the scholar who has become the

give this place a compliment when it didn't deserve one, said he'd like to spend another few years here."

So many freshmen seem at this stage to complain about the size of the school, he thought, but then proudly observed that he'd seen three new buildings go up in his three years here, and he'd love to be around to observe further expansion.

**Dishonoring Experience**  
One new senior told fearfully how a former campus leader was badly mistreated in his first days on his new job.

Some seniors then showed a twinge of envy for the frosh, who are being "so carefully and thoughtfully oriented."

They thought it ironic that the freshmen seemingly wanted to be anything else but freshmen.

There are some frosh who wish they didn't have to tip those beanies including girls who would risk whatever punishment may be meted out to them at the mystical "orange-rolling time" rather than lift their caps and mess up their hair.

**Terrible Tasks**  
And upperclassmen delight in describing tasks that are neither assigned nor performed by violators of tradition.

But such sentimental thoughts and pronounced class differences last only a short time. One class who started everyone becomes just a Syracusean. And then the freshmen achieve a new status around rushing time when upperclassmen seem to all but tip their caps to them.

And the year speeds by and then maybe some seniors discover that there was really no "end of the line" to worry about.

## Symphony Sets Rehearsal Today

The first rehearsal of the Syracuse Symphony Orchestra will be held from 7 to 8:30 p.m. today, at Crouse College Auditorium. The orchestra, under the direction of Prof. Louis Krasner, is open to all students, faculty and staff members.

Orchestra may be taken as a one credit hour course or it may be an extracurricular activity. Rehearsals are held on Wednesday nights at 7 p.m. There is also rehearsal for strings on Tuesdays at 7 p.m. and for winds on Fridays from 4 to 5:30 p.m.

A part of each rehearsal will be devoted to sight reading of standard repertoire and to student soloists and compositions.

# Decadent Italian Society Explored in 'La Dolce Vita'

As if to open the current season of fun and frolic at SU on an ominous note, the Ekkert is now showing Federico Fellini's masterpiece, "La Dolce Vita."

For some three hours Fellini graphically portrays "the sweet life" of an aristocratic Rome that seeks the easy, sensual way to escape meaning in life.

We see this decay through the eyes of Marcello, a sex and scandal newspaper reporter. There are eight episodes in the film. Each one depicts a different aspect of Marcello's world. But all reveal its corruption from boredom and moral apathy.

Some of the episodes, like the one in which Marcello's father makes a fool of himself with a chorus girl, are poignant. Others, like the fake miracle have an immediate and shattering effect.

Together the eight episodes, directly and through contrast create a dismal, terrifying picture of humanity at its most animal.

Fellini, using some of his

best camera work never once lets up the pace. He never stops pushing his sharp lens into the faces and at the bodies of his superior cast. From the opening scene of the statue of Christ hanging under a helicopter, all is flying to the Vatican, to the closing close-up of young Paola trying to entice Marcello. Fellini never forgets his message.

Our eyes are filled with powerful images that portray the sickness of the times. The small crowd of photographers that continually follow Marcello, photographing the blood of a sick society, and the sensuous American movie star, only vaguely aware of the powers of her body are but a few of the images that overwhelm us.

Sometimes Fellini goes too far in mere quantity of his scenes of decay. Yet, there are times when we wonder if he goes far enough.

Throughout the film Marcello wants to find where in the mad life he writes about, he can find some meaning. He thinks his intellectual friend, Steiner, so peacefully surrounded by intellect and beauty has the answer. But, Steiner's own doubts, lead to a multiple tragedy.

He tries to make contact with the simpler virtues of his father, but finds he had never known his father, and never will.

Eventually, even Marcello succumbs to "the sweet life." In the picture's final cry he admits his disgust at his life and himself. But he has neither

the strength nor the will power to stop from being swallowed by it. He is like the devil fish caught in the last scene, its dead mouth full of jelly fish.

The cast is excellent. But Marcello - Mastroianni as Marcello, deserves special mention. A better mirror for both the questioning of Fellini and the decay of Rome could not be found.

Anita Ekberg is amazingly good as the American star, while Anouk Aimee and Yvonne Furneaux, as Marcello's sympathetic girl friend and his mistress, respectively, are also outstanding.

But most of the credit should go to Fellini, whose sermon on contemporary sin, while not new, has never been told so well.

## FM Radio Station WAER Signs On Monday at 4 P.M.

The campus educational FM radio station, WAER, will sign on Monday at 4 p.m. to begin another year of service to the Syracuse University campus. The student operated and managed station has expanded its program coverage of events that will hopefully draw a larger campus audience, while better informing the city of Syracuse about campus affairs.

"Aspect", new this semester to the program roster, will devote Thursday afternoons to campus life, featuring music, interviews with outstanding students, professors, administrative officials and guests, and a review of campus events.

Of special importance in the new schedule of programs is the "Lecture Slot", slated for Tuesdays at 7:30 p.m. Outstanding professors and visiting lecturers will have their lectures taped by WAER, and these will be broadcast to the entire campus. Thus, opinions and knowledge of great men will not be limited to the classroom.

The National Association of Educational Broadcasters is providing several programs to supplement those produced by the WAER staff. "Greektown Forum," winner of many national awards, is a continuous series of discussions of significant subjects by leading authorities. "Tactics of Communism" is a "documented" exposure on into the Communist's methods of extending their rule.

WAER continues its tradition of fine music with several programs of classics, including the Crouse Concerts at 4 p.m. Sundays. Also, "FM Hi-Fi Concert" will return to the air Mondays, Wednesdays and Fridays at 1 p.m.

From Canada comes "CB" Concert, classical music recorded by Canada's finest musicians. Other musical programs include shows of choral, contemporary and Baroque classics, along with folk music on Tuesday afternoons, jazz on Saturday afternoons, and Broadway show music Sunday nights after the 11 p.m. news.

A new program concept begun last year has returned. "Panorama" is an omnibus of the arts featuring the world's best drama, music, lectures and commentary on the arts. It follows "Lecture Slot" on Tuesday nights.

"Russian by Radio," a credit course in elementary Russian will once again be presented, in cooperation with University College. It will broadcast Mondays through Fridays at 7 p.m.

### Debate Club Set To Begin Activity Today

Debate activity gets underway for the year with a meeting at 4 p.m. today in 407 Hall of Languages.

James F. Hale has been appointed assistant coach of debating by Director of Discussion

and Debate J. Edward McEvoy. He is also a graduate in the Department of Philosophy.

A new one credit hour course for all participating in debating activity is being offered for the first time this fall. It is recom-

mended to, but not required to be taken by debaters.

Labor organizations and anti-trust legislation is the basis of the topic for the National Intercollegiate Debate Tournament for the year 1961-62.

## Tributes Paid To Sawyer Falk

By REA TULET  
Sawyer Falk, chairman of the Drama Department and interna-

tionally well-known theatrical actor, died in theatrical-30, of a heart attack.

Chancellor Tolley said, "The entire world as well as Syracuse has suffered a grievous loss in the passing of so distinguished an artist and scholar as Sawyer Falk. Indeed, all the people who knew and loved him will miss the "Professor."

Professor G. F. Heidenbaugh, acting chairman of the Drama Department, said that it was "the loss of a great spokesman for the Human Spirit."

Many students were shocked when they learned of the Professor's death.

"The Drama Department deeply mourns his death. It was Professor Falk who built up the excellent reputation that the Syracuse University Drama Department has throughout the country.

Mr. Falk was born in Key West, Florida, on December 9, 1898. He received his B.S. from New York University in 1922, and his M.A. from Columbia University the following year. Prior to coming to Syracuse in 1927, he taught at Columbia University and Hillsdale College.

Professor Falk, in an article for "Theatre Arts Magazine" in October, 1949, explained what he thought was the matter with the training of the actor. "The young actor in too many cases has been tutored in a kind of self-efficacy to lose himself not in the playwright's characterization, but in the director's concept as well.

Technique, "Not Method"

"The actor as this legend runs should preferably not let his audience know he is acting at all; and in no case should his training teach him ways and means of communicating with that audience.

"Today's actor has been taught how to make himself feel glad or sad, but not how to occasion responses in an audience."

Some famous alumni of the Syracuse Drama Department include Miriam Hopkins, William Lundigan, Suzanne Pleshette, and Sheldon Leonard.

Since 1933 Professor Falk served on the board of directors for the American National Theatre and Academy (ANTA), and in 1952 he was elected vice-president. Also in connection with Broadway, he served as a play doctor for numerous Broadway shows, the most recent being "State of Mind."

Professor Falk was a consultant specialist in Drama to India for the U.S. State Department in 1957. Two years later he again served as a special consultant for the State Department, but this time it was to Greece, Turkey and Israel.

The credit that belong to Sawyer Falk are endless. Beneficently, his influence and work in the theatre will endure for years to come.

### Rehearsals Set For Orchestra

The Syracuse Symphony Orchestra will start rehearsals at 7 p.m. today in Crouse Concert Auditorium under the direction of Professor Louis Kransner.

The orchestra is an all-University organization composed not only of music students, but members of the faculty and students from all colleges and departments.

Rehearsals will be held on Wednesday evenings. When possible, rehearsals for strings will also be held Tuesdays at 7 p.m. and for winds from 4 to 5:30 p.m. Fridays. A portion of each rehearsal will be devoted to sight reading of standard repertoire and student soloists and student compositions.

# Oregon State Opener Big Test

# Piety Eleven Nears New Season

By MILT JOFFE

**Junior Editor**

The first unit of the 1961 version of the Syracuse Orangemen will have new faces at seven positions when the squad opens in Portland, Oregon, Saturday against Oregon State University.

At first glance this would appear to mean that coach Ben Schwartzwalder is fielding a team that lacks experience. This is not true. The starting eleven doesn't have one sophomore and most of the positions are filled by men who played most of last season at different positions.

The Orangemen will climax their pre-season drills Thursday and fly to the west coast Friday for a drill there. The two - a day drill schedule, which had been in effect since the September 1st opening, came to a close earlier this week.

**Injuries**

Injuries to many veterans have hampered the Orange to some degree but the 37 - man squad making the trip is in good physical condition.

Schwartzwalder will feature

a somewhat less conservative offense this season although he will stick to the T - formation exclusively. He is prepared to include some plays from the slot-T also.

Most important is the passing potential of this year's squad. Schwartzwalder calls his receivers the best group he's had in his 13 years at Syracuse. He also has "adequate throwers."

**And Ernie!**

And of course he has what any coach in the country would love to add to an offense. All-American halfback Ernie Davis.

On defense the Orange will feature a multiple defense, something Schwartzwalder likes to use.

All these ingredients will meet their first test of the season Saturday against the highly-regarded Oregon State team. Schwartzwalder calls the OSU game the "biggest opener I've ever had."

Schwartzwalder is known for playing the games one at a time so he doesn't have much to say

about the other games on the ten - game 1961 schedule, but a quick glance shows a few more touchies on tap for the Syracuse eleven.

**Nittany Lions**

The big one, of course, is Penn State. This game, played at University Park, will most likely determine the Eastern champion and possibly the national champ.

Other rugged tests will be with Notre Dame and Pitt, the latter game being the best of a so-so home schedule. Holy Cross and Boston College, both highly regarded in New England, should present the Orange with rugged tilts.

Here, briefly, is the starting eleven, who will be carrying the Syracuse banner this fall:

Walt Swency, left end. Swency is a 6-3, 225-lb. junior from Cohasset, Mass. He was outstanding as a freshman end, but didn't live up to expectations last season. In drills this fall he has come on strong to unseat two-year starter, Ken Ericson. Swency has good hands and is tough defensively.

Dave Meggysey, left guard. Meggysey switches to the weak side guard slot from his last year's tackle position. He is a 6-1, 210 - lb Junior from Solon, Ohio. Last year he was voted to the second team all - East squad. He replaces Dick Fedlerow, a second unit tackle.

Bob Stem, center. Stem is one of the returnees. He is 5-11, 210-lb. senior, who was hampered by injuries much of last year. His hometown is Phillipsburg, N.J.

George Frankovitch, right guard. Frankovitch moves from the tackle position. His 235 pounds add to the bulk of the center of the Orange line. Frankovitch is a senior from Little Ferry, N.J. He replaces the graduated Bruce Tarbox.

Tom Spillett, inside tackle. Spillett, a senior is a letterman from last year but is new as a first - stringer. He fills the slot vacated by Tom Gilburg. Spillett is 6-1 and weighs 220 pounds. He played his high school ball for Christian Brothers Academy and lives in Solway.

John Brown, outside tackle.

Brown is one of the key question marks for the Orange. His injury last season dealt a big blow to the Syracuse line strength. Brown is 6-2 and 230-pounds. He's a senior from Camden, N.J.

John Mackey, right end. Mackey switches from the half-back slot back to the position he played in high school. He must fill the shoes of Fred Mattino. He is stronger on offense than defense and is expected to show a bit of pass catching ability. He is a 6-2, 210-lb. junior from Freeport.

Dave Sarette, quarterback. Sarette, a key figure on the 1959 championship squad as a sophomore, is another key man this year. A good season by Sarette should mean the same thing for the Orange. He is a 6-0, 180-lb senior from Manchester, N.H.

Ernie Davis, left halfback. One of the top backs in the nation last year, Davis will be the leading figure in the Orange offensive this fall. Davis is a 6-2, 210-lb. senior from Elmira.

Dick Easterly, right halfback. Easterly, a second unit quarterback for two years, always showed great running ability and has been switched to a running back position. An injury to Pete Brokaw enabled Easterly to win the starting berth. Easterly is 5-11, 175-lb. He is a senior from Syracuse.

Gary Fallon, fullback. Fallon takes over for the departed Art Baker. Fallon is a good runner who has shown flashes of exceptional ability in the past season. He is a 6-1, 210-lb senior from Watertown.

This year's punter will be sophomore John Snider, a half-back with last year's undefeated freshman. Ericson will kick the points after touchdown and another sophomore, John Paglio, is slated to kickoff for the Orange.

# Frosh Footballers Scrimmage Today

By MARK DIAMOND

The dominant attitude of freshman football coach Jim Shreve is one of noncommittalism. This is understandable when one takes into account the brief time he has had in which to get a line on his squad.

The coach stated that the situation might clear up somewhat today, when the Tangerines travel to Manlius

for a scrimmage. Nevertheless, there were some indications that the material will be capable.

The young mentor, now in his third year with the yearlings, is hopeful that this season's segregation will be well balanced enough so that the opposition's defense won't be able to concentrate steadily on any sector.

**More Speed**  
In some contrast from last year's team which featured strong interior linemen, Coach Shreve hinted that there is a possibility that the current contingent would contain more overall speed, especially in the backfield.

The system of coaching is naturally geared towards preparing as many freshmen as possible for eventual participation with the varsity. Shreve explained that each day after practice, he and his staff discuss the day's developments with Ben Schwartzwalder. Usually the main topic is fitting a player to the best position as soon as possible.

While there are cases when even experienced operatives such as varsity captain Dick Easterly are switched from one position to another, this is the exception. Therefore the sooner a boy is set in a position the more beneficial his overall training will be.

The geographical makeup of this year's prospects reflect the extensive "brushbeating" recruiters must do when looking for the best men. Some of the states mentioned where candidates hail from were New Hampshire, New Jersey, Ohio, Pennsylvania, and New York.

**RECRUITING**  
On the subject of recruiters and scouts, coach Shreve stated that there there are several main qualities he looks for in a player. Number one would be speed, as well as quickness and agility. Another important asset is size and strength, especially in linemen.

"Tilting power" ranks high, particularly because so many backs are now called upon to serve as blockers. Coach Shreve then named "desire" or the characteristic where one "must know how to pay the price."

Backing up Shreve in this year will be Dick Beyer as line coach, All-American Fred Mautino as end tutor, and Al Gerlick, inside tackle on the 1959 National Champion, assistant line coach.

The schedule this year lists Navy, Buffalo, Army and Colgate. Though the Navy tilt is almost a month away, Shreve is already bemoaning the fact that the plebes had 250 men out for early drills.

# Late June Events End Crew, Baseball Seasons

By KEN DARLING  
Sports Editor

Although most Syracuse students left campus in late May for summer vacation, two groups of athletes remained behind.

The crew squad kept to its training grind until the International Rowing Association Regatta on June 22. The varsity baseball team also was active until late June, competing in the NCAA World Series in Omaha.

The Regatta, held on Lake Onondaga, was won by California with a time of 16:49.2. The Orange rowers finished ninth, completing the course in a time of 17:36.8.

The Hill junior varsity boat managed an eleventh place finish in its race, while the freshmen made the best showing of the day. The yearling oarsmen took a third, finishing behind Washington and Cornell.

### Diamondmen Successful

The College World Series in Omaha climaxed a successful season for the Hill diamondmen.

After winning the District Two playoff by defeating Delaware and St. John's, the Orange nine carried a 16-3 record into the national tournament in June.

In the double elimination affair, the Hillmen opened by defeating Colorado State, 12-5. Coach Ted Kleinhans' charges then suffered their first defeat of the tournament at the hands of Oklahoma State, 12-9.

The Syracuse squad bounced back to whip Western Michigan, 6-0, but then dropped another contest to Oklahoma State and were eliminated from the tournament.

After the College World Series, several Orangemen signed professional contracts, among them ace hurler Dave Giusti, slugging outfielder Pete DesSiva, pitcher Jeff Williams, and infielder Bill Connors.

Final season statistics reveal that griddier Dave Saretto, who played second base for the baseballers paced the squad in hitting with a .393 mark. Another footballer, John Howell,

slammed the ball for a .361 average and DeSiva hit .358.

Other leading hitters were Dick Taylor with a .347 mark, Bob Lelli with .338, Bill Connors with .327 and Pete Palumb with .321.

## Schmaus to Lead Marching Band

Donald E. Schmaus, marching band assistant at Purdue University, has been named director of the university's "100 men and a girl" marching band.

Maurice W. Stith vacated the post this summer to become co-ordinator of instrumental music in parochial schools in the city.

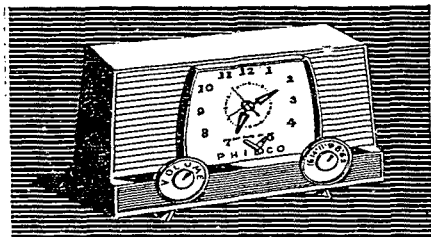

Schmaus will be responsible for all phases of organization and planning for the marching band, of Syracuse.

which appears at football games with baton twirler Judith Delp.

In addition to directing the band, Schmaus will be an instructor in brass instruments at the School of Music.

Following graduation in 1958 from the Eastman School of Music, Schmaus taught instrumental music for two years in the public schools of Williamsport, Pa.

At Purdue he conducted the brass ensemble, assisted in conducting the symphonic band, the university wind symphony and the Air Force ROTC band and taught courses in brass instruments.

(Continued from Page 1)

ganization."

ISO Orientation for foreign students begins 7:30 p.m. Friday at Maxwell Auditorium with speeches by Dr. Eugene S. Foster, radio-television department chairman, and Don C. Skinner, Chapel House director.

There will be a breakfast 9:30 Saturday at Chapel House and a picnic in the afternoon. On Sunday, the international students will be attending an art exhibition at Lowe Art Gallery and the Crouse Concert.

At 7 p.m. on Monday, a convocation of all foreign students is scheduled for Maxwell Auditorium. Chancellor William P. Tolley and Dr. George B. Cressley, Professor of Geography will welcome the students. Theodore Clark and Betsy Evans, the president and vice president respectively of Joint Student Government will also speak.

Plans for later in the year include cultural exhibitions put on by the top entertainers of the various embassies of certain foreign countries, the acquisition of an office, and the issuance of membership cards and buttons. Also planned are tours to such places as Niagara Falls, says the president, Irani.

# New SU Dean Calls for Quality

# Yom Kippur Called Jewish Year Climax

(Continued from Page 1)  
 body and the administration, and he said that the best way to achieve this was to have "an open door."

**Available to Students**  
 He said that he was always available to meet with students, "even if it means over coffee in the Varsity at 8 a.m. or a chat at my home in the evening."

The new dean said that the administration is convinced of the value of fraternities and a strong fraternity system. He said he will strive to give Syracuse "the best fraternity system in the country."

At the annual IFC fall conference in 1958, Clifford, as the keynote speaker, said he was committed to sound fraternity programs on all campuses. At the conclusion of his address he added a personal note regarding himself and fraternities, stating, "I'm an independent who knows what he has missed."

In assuming his new position, Clifford said, he had accepted the responsibility of administering all University policies, including those on drinking and automobiles. "And we're going to do it," he said.

**Not a Get Tough Policy**  
 "I don't believe this is a 'get tough' policy," he continued, "I'm only doing what I am expected to do. I intend to be Dean of Men in fact as well as in title."

He said University policies will be administered "consistently, with sound and intelligent judgment." He feels that all students in attending this university, are committed to obey its policies, and he said that "right thinking can deliver the goods."

Clifford said that he does not consider himself a "policeman" and that the only real discipline

is self discipline.  
 "I believe very strongly," Clifford said, "in delegating to students just as much responsibility in self-management as they can handle. In fact I intend to delegate such responsibility in some areas not before handled by students."

**SU 'Image'**  
 The new dean stated that the "image" of Syracuse University is "well set," and that it would be very difficult to change many of its firmly entrenched policies. He referred specifically to the drinking issue.

Clifford credits Vice President Frank Piskor as being a major influence in his choosing his current line of work. Piskor was Dean of Men when Clifford was an undergraduate at Syracuse.

"I entered Syracuse as a journalism student," he said, "and worked for the Daily Orange and the Onondagan." He is a former production manager of the "On."

Clifford, his wife, and his 18-month-old daughter, Karen Marie, are native-born Vermonters. "I believe there's a little Vermont in everybody," he said, "I know there's a lot of it in me."

He considers Syracuse as "big league in every sense of the word," and says that "it's great to be back again."

Yom Kippur is "the climax of the Jewish religious year" and "speaks of the primacy of ethics over ritual" stated Rabbi Louis Neimand at Kol Nidre Services Tuesday night in Hendricks Chapel.

Quoting a maxim from the Talmudic sages, the Rabbi said that "the Day of Atonement effects atonement for transgressions between man and God. For transgressions between man and man, the Day of Atonement brings no atonement until the injured party is appeased."

Over 1500 students and faculty attended the high holy day services and greetings were extended to the congregation by Chancellor William P. Tolley.

**Ends at Sundown**  
 Day of Atonement services conclude at sundown today with the traditional blowing of the ram's horn. Devoted to fasting, prayer and meditation, this day calls man to take account of himself.

Yom Kippur marks the culmination of a 10 - day period of repentance during which man may resolve to alter his life and seek atonement with man and God.

A break - the - fast will be held today in Chapel House at the conclusion of the Yom Kippur service. Members of the United Campus Christian Fellowship are serving as hosts.

Shaw Dining Hall will remain open until 8 p.m. tonight and will honor food tickets from all dining rooms to accommodate Jewish students who observed the fast day.

**Fine Arts 40A Reset**  
 Fine Arts 40a, Section 4 has been reset for Monday, Wednesday and Friday at 12 in 407 Hall of Languages, according to the Fine Arts Department. It was planned for a time to hold the class on Tuesday evenings, but this was found to be unnecessary.

# More Frosh On The Go Polio Clinic

Photos by  
Pete  
Bennett

There must be an easier way to register but these two Freshman cores haven't found it. Exactly 2,500 students assumed these and other positions while registering in the Men's Gym yesterday.

More than 2,000 Freshmen checked on the quad Tuesday as part of their Orientation Week Activities. Four days of social events and registration for the Class of 1965 ended today with the start of classes.

(Continued from Page 1)

have been before the Salk vaccine was widely used. "It is not fair to call it an epidemic," the doctor said, since less than one in every 10,000 people has contracted the crippling disease.

Although some people may still contract the disease after the Sabin vaccine has been administered, it is because they caught the germ before immunization. Contrary to the recent rumor, Syracuse is one of the safest areas in upstate New York, since more than 400,000

people have been given Sabin vaccine within the last three weeks.

**Breitenfield Appointed**  
William M. Cruckshank, dean of SU Summer sessions, recently announced the appointment of a new assistant dean of Summer Sessions.

He is Frederick Breitenfield, Jr., a PhD candidate in Educational Broadcasting. For the past year he has been a program administrator for University College.

# Just What You've Needed for Your Books!

## Erecta-Shelf®

Design it yourself...  
To Fit Your Space  
and Needs

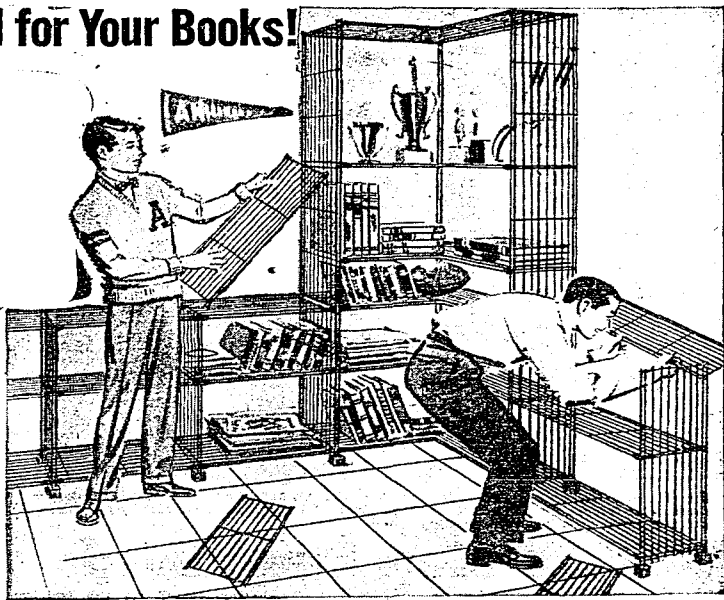

So easy... So economical

You don't have to be an engineering major to design and assemble your own bookcases, room-dividers, or TV and Hi-Fi units with Erecta-Shelf. It's fun . . . simple . . . practical and inexpensive!

By combining just 4 panel sizes in satin black or gleaming brass wrought iron, there's no limit to the number of arrangements you can design to fit your space and needs. Note that straight panels can be used horizontally or vertically . . . and horizontal panels may be attached at any desired height on the vertical panels.

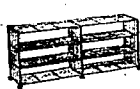

### EASY TO ADD TO OR TAKE APART

Anytime you wish to make your unit taller, longer or deeper simply add more Erecta-Shelf panels . . . or change the arrangement completely. It's a cinch to disassemble for moving too. Plan your unit (we'll help you if you wish) and come in for your Erecta-Shelf panels and free detailed brochure.

**Countless Units can be designed with these 4 PANEL SIZES...**

### TYPICAL ERECTA-SHELF ARRANGEMENTS

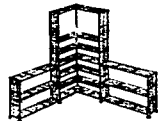

**Horizontal Bookcase**  
Consists of 11-30" Panels, 6 Wood Bases. Assembled Size 30" H x 63" L.

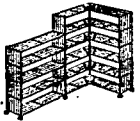

**Room Divider Bookcase**  
Consists of 4-20" Panels, 8-24" Panels, 7-30" Panels, 8 Wood Bases. Assembled Size 40" H x 82" L.

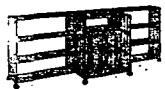

**Long, Low Corner Bookcase or Room Divider**  
Consists of 27-30" Panels, 4 Corner Panels, 15 Wood Bases. Assembled Size 30" H x 82" L on one wall. 30" H x 118" L on other wall.

**Hi-La Corner Bookcase or Room Divider**  
Consists of 2-20" Panels, 2-24" Panels, 10-30" Panels, 7 Corner Panels, 8 Wood Bases. Assembled Size 74" H x 56" L x 56" L.

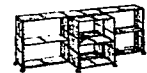

**Corner Step-down Wall Case or Room Divider**  
Consists of 4-20" Panels, 5-24" Panels, 2-30" Panels, 6 Corner Panels, 7 Wood Bases. Assembled Size 50" H x 50" L x 25" L.

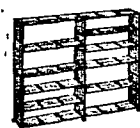

**Hi-Fi Table/Record Rack with Bookcase**  
Consists of 4-20" Panels, 14-24" Panels, 6-30" Panels, 8 Wood Bases. Assembled Size 30" H x 76" L.

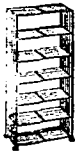

**Encyclopedia Bookcase**  
Eel Table  
Consists of 3-24" Panels, 2-30" Panels, 4 Wood Bases. Assembled Size 30" H x 26" L.

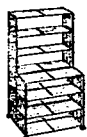

**TV Table with Bookcases**  
Consists of 6-20" Panels, 6-24" Panels, 8-30" Panels, 8 Wood Bases. Assembled Size 30" H x 72" L.

**Bookcase or Room Divider**  
Consists of 18-30" Panels, 6 Wood Bases. Assembled Size 50" H x 63" L.

**Vertical Bookcase**  
Consists of 7-20" Panels, 4-30" Panels, 4 Wood Bases. Assembled Size 60" H x 25" L.

**Hi-Fi Bookcase**  
Consists of 11-24" Panels, 6-30" Panels, 4 Wood Bases. Assembled Size 60" H x 26" L.

ERECTA-SHELF PRICE LIST		
Panel Sizes	Satin Black Finish	Gleaming Brass Finish
20" Panel	\$1.99 ea.	\$2.99 ea.
24" Panel	2.39 ea.	3.39 ea.
30" Panel	2.89 ea.	3.89 ea.
Corner Panel (24" x 24")	3.99 ea.	5.99 ea.
Wood Bases	.19 ea.	—

# SYRACUSE UNIVERSITY BOOK STORE

Three Hundred and Three University Place

Four Syracuse University R.O.T.C. members, including All-American halfback Ernie Davis, are shown going through training exercises at Fort Devins, Mass., this summer. Over 100 Syracuseans took part in the six-week training camp.

## ROTC Camp Described

A move to a different campsite and new firing range training techniques highlighted the 6-week summer training camp held by the ROTC corps this past

summer. The new firing range teaching methods evolved out of studies of combat during the Korean War and more natural-like conditions

now prevail on the training courses, stated Lt. Col. M. A. Matthews, professor of military science and tactics. Included on the new courses

are figures that when hit in combat practice, spring back up by means of electronic devices, Matthews stated. Such equipment is rather expensive, he went on.

One hundred seven ROTC cadets from SU completed the training, the second largest contingent represented. Three other institutions from New York State and all the New England schools participating in ROTC attended the Ft. Devins camp.

The move to a site closer to home also provided more suitable weather for such training, Matthews mentioned, there being "No heat casualties."

He went on to remark that Parents' Day hosted about 1,500 relatives of cadets. Various weapons were displayed, including tanks, into which the guests descended for a real look, he went on.

The location close to Boston provided many opportunities for sightseeing tours for the cadets during the free weekends. Matthews said that each cadet has four out of his five weekends free for such off-camp activities.

Matthews said that the largest freshman enrollment ever is expected for participation in both the Army and Air Force ROTC programs on the SU campus.

"More cognisance of the military side of the world and a hope into it" have largely been responsible for this increase, according to Matthews.

## Difficulties Found Over Enrollment And Housing

(Continued from Page 1)

housing for upperclass men. James P. McMurray, Director of Men's Housing, reports 52 men are living in these buildings until room is found for them in other dormitories. McMurray expects this to take about two weeks.

Director of Women's Housing Barbara Griffin reports a minimum of housing difficulties. A "temporary situation" saw less than 20 girls assigned to the Flint Hall lounges, but they were all reassigned before they had time to unpack their luggage.

Miss Griffin blamed this situation on students who didn't submit their \$100 tuition deposits last spring and then decided to return and students who did not plan to return but failed to notify the university of their decision.

These students prevented the university from having a completely accurate count on the number of returning students and forced these emergency housing measures.

The size of the Freshman class is as expected and consequently no freshmen are living in emergency housing.

# Sabin Program Response Poor

By ALAN G. MILLSTEIN

Mass confusion and exasperatingly long lines at campus bookstores and sundry shops was in obvious contrast Wednesday to the "slow" business at Student Health Service where less than a thousand Syracuseans took advantage of the free Sabin Oral Polio Vaccine.

"We originally anticipated quite a sellout," said Dr. Frederick Marly, director of the university's health services, but less than 3,000 Syracuseans in three days of the vaccine program took advantage of the ten thousand doses of vaccine available.

In a further effort by the health service to offer safe, convenient protection to the students on campus the program will be repeated again from 9 to 5, today, Thursday, at the health center on Waverly Place.

**Parents Concerned**  
"It seems to me that more parents than students were concerned over polio outbreaks in this area, Dr. Marly said. He based his finding on his talks with parents of entering freshmen earlier this week. "The students just aren't worried," he added.

The tri-county area of central New York which includes Madison, Oswego and Onondaga counties has been experiencing a recent outbreak of polio cases this past August and September. Sixty-seven cases of polio have been reported so far and many of them were of the paralytic variety. The city of Syracuse is in Onondaga county.

**Doctors Against**  
Two additional possible reasons for the reluctance of some students.  
(Continued on Page 8)

# Humanities Program Given \$10,000 Grant

A grant of over \$10,000 has been given to Syracuse University's Humanities Summer Reading Program by President Wm. F. Olson announced.

The grant comes from the Fund of the Advancement of Education which was established by the Foundation.

The \$10,200 grant will be used by the University to cover the development expenses of a reading program in the social sciences and sciences paralleling the humanities reading program conducted at Syracuse during the summer.

**Experiment**  
The humanities reading program was an experiment in education covering the development of Western culture from the Renaissance through the 20th Century through invited readings in French, German, philosophy, rhetoric, English, and German literature, religion and fine arts.

The program was a seven-credit-hour Humanities course which provided both on-campus and off-campus study.

The on-campus portion was an intensive two-section program involving lectures, assigned readings and discussion sessions. The on-campus sessions were at the beginning and end of the summer. In the interim, students read assigned readings.

This new grant will be used for the employment of graduate assistants who will do research for the development of the reading program.

# Z Hill Fraternities Reportedly Face Rushing Charges

Two Hill fraternities are currently facing charges of illegal rushing, Dean of Men Earle Clifford stated Wednesday.

There will be a meeting Monday before the IFC Alumni Association about the two fraternity houses.

Clifford refused to reveal the names of either the fraternities or fraternity brothers involved. He did intimate, however, that because of the difficulty may be a result of confusion and ignorance over rushing rules.

He stressed that with the postponement of rushing enforcement of the Interfraternity Council rushing rules was of even greater importance.

Rules that are of particular importance are:

1. Fraternity brothers cannot talk to freshmen about their fraternities.

2. Fraternity brothers are not allowed in the Freshmen living centers.

# Chancellor Tolley Addresses Frosh

By PAT McGOVERN

CHANCELLOR TOLLEY

"The fact is that in the race between chaos and civilization, between instinct and reason, colleges and universities do hold the key to the future," Chancellor William P. Tolley told the freshman class last evening as he delivered his annual address in Hendricks Chapel.

The Chancellor went on to tell the class that it was against a "sombre" background of international news that they gathered. He noted that the bomb, regardless of size, "can match the 'explosive' impact of an idea."

Referring to the resumption Nuclear testing as opposed to the testing in the field of ideas he noted our testing ideas "produces better ideas and develops people committed to better ideas."

The university's role, as described by the Chancellor, is that of producing better ideas. He continued, "The university is concerned with ideas for peace and people who will build a world of peace."

He reminded the freshman that this is the "training of tomorrow's leaders." Commenting that our instincts, not our minds, are followed in the settlement of international differences, he stated "The great questions still unanswered is whether reason will prevail before the ultimate weapons, by accident or design, make a cemetery of much of the world."

"We must use our knowledge and our skills for good ends or we shall be destroyed," he repeated.  
(Continued on Page 7)

# JSG Outlines Block Seating

Following is the list of Joint Student Government rules for organizations desiring block seating at home football games.

1. The number of seats each organization may reserve cannot exceed one and one quarter the size of the organization.

2. A student ticket stub for each reserved seat must be presented before being seated.

3. A penalty of one seat at next game for each reserved seat not taken will be imposed.

4. Petitions for block seating must include name of organization, number of members and estimate of seats desired. These petitions must be submitted from 2:30 - 5 p.m. the Tuesday before each game to the Trophy Room of the Men's Gym.

Following is the schedule of ticket pickups:  
Groups having submitted petitions: Wednesday through Friday, 3:30-5 p.m., Trophy Room.  
Individuals may pick them up as follows: Graduate students and seniors, Wednesday 3:30-5 p.m.; Juniors, Thursday, 3:30-5 p.m.; sophomores and frosh not in placard cheering, Friday 3:30-5 p.m.

# Pre-Med, Dental Examinations Set

Examinations for the Regents Scholarships for Professional Education in Medicine and Dentistry will be held Monday, October 16. Applications must be filed in 210 Hall of Languages before October 4.

Requirements include an U. S. citizenship attendance at an approved college in medicine or dentistry during the year in which the exam is given, and the residence in the state of New York for one year prior to the date of the award.

# Read the DO Price is Right

Don't believe everything you read in the newspapers.

Contrary to the "Five Cents" price appearing on the Daily Orange, the daily campus newspaper is distributed to students free of charge at living centers and dining halls. It was reported several freshman were inquiring as to where they pay for and obtain the publication.

# Library Initiates New Program

The University Library has received first shipments of books and sample periodicals this summer from dealers in Buenos Aires, under the Farmington Plan. Following the Plan which Syracuse joined last year, the library is collecting all material currently published in Argentina, Paraguay and Uruguay that might reasonably be expected to interest research worker in the United States.

More than 60 libraries are now participating in the Plan which will efficiently provide comprehensive American coverage of current books and pamphlets published all over the world.

Under the direction of Dr. Jorge Aguayo, Bibliographer for Foreign Acquisitions under the Farmington Plan, the library has closed four contracts with book dealers in the three countries who have agreed to select and send to Syracuse everything published after January 1.

Terms of the Farmington Plan are that Syracuse agree to pay for the publications within 30 days, 2-second a catalog card

within 30 days to the Library of Congress for the National Union Catalog and 3-made books available through interlibrary loan or by photographic reproduction.

Books already received number more than 150 and cover history, biography, law, poetry, drama and fiction. More shipments are expected in the near future from dealers in Montevideo.  
(Continued on Page 7)

# ID's, Tickets, Ready Today in Men's Gym

Upperclassmen can get their ID cards and football tickets today in the Trophy Room of Archbold Gymnasium from 9 a.m. to 5 p.m.

They must bring the card for tickets. ID cards which is enclosed in the special class admit card packet.

Other times are 7 p.m. to 9 p.m., Friday and 9 a.m. to noon on Saturday.

Seniors must make appointments for their "On" pictures during this period.

## The Miracle Workers

A miracle occurred at Syracuse this summer. Six professors and over sixty students combined forces to produce an undergraduate program that set a new standard for education on the Hill. The program was Humanities 104 and 105; The Modern Mind, emphasizing major intellectual ideas in Western thought from the Renaissance to the present day.

The very idea and nature of the program exhibited a certain amount of academic bravery on the part of the faculty. Most of those involved in it could have taken the easier and more conventional path of teaching regular summer session courses. Instead they chose to try something new and far more challenging. This was an interdepartmental course that required them to spend many hours reading new books and learning new ideas in unfamiliar fields.

The moving forces behind the program were John Frederick Olson, administrative assistant to Chancellor Tolley, and Professor Albert George who was its director. A grant from the Ford Foundation was also instrumental in making the comparatively inexpensive course possible.

But of prime importance were the students themselves. Intent on knowing everything, they actually discussed the day's lectures, compared ideas and argued vehemently and unafraid. The intellectual desert that has for so long characterized the achievements of Syracuse undergraduates was lost in a rush of learning and interest. It was the uninterested, bored and dull student who was the rarity.

Perhaps now the Hill will return to normal and once again the bright and dedicated student will be found hiding in the back of the classroom beneath a pile of bright cardigans and expensive loden coats. But we can all thank the Miracle Workers; Albert George, Abraham Veinus, David Owen, Benjamin Bart, Leland Jamison and Milton Williams for their work this summer. And we can all hope that as the debris clears in the spring there once again will be room for the serious student at Syracuse.

**By KEN NORWICK**  
For the new freshman class, not yet here a week, the universe is Syracuse University must seem a baffling enigma. What with mixers and picnics and poons and registration, etc., there is little wonder the class of '65 seems lost in a world of its own.  
"Do you mind the panic and confusion that necessarily accompanies this first week in college, the typical freshman can't forget those tender parting words of his equally bewildered parents: DO NOT FORGET TO WRITE!!!"

One fresh remembered, and wrote, and felt very proud of himself. Except for that he forgot to mail the letter. It was found on a back table in the Savoy, and is reproduced here in its entirety. No comment is necessary.

"You wouldn't believe what's been going on so far this week, you really wouldn't. I mean since you left last Saturday I haven't had a minute to myself. It's really been tough."

**Well Stocked.**  
"First of all, right after you left my room - mate and his parents arrived. If you thought I brought up too much stuff, you should have seen what he had. It's really ridiculous. I mean he had at least 25 suitcases, at least."

"On the whole, though, he seems like a pretty nice guy. We've been sticking together most of the time and he's just as mixed up as I am. But then so is everybody else."

"We've got these two Goons on our floor, who are sophomores, but they seem just as confused as we are. And they keep saying that they understand why we keep asking the stupidest and most obvious questions. But at least they're trying to help us."

**Good Advice**  
"We registered for our classes the other day and it really wasn't as bad as everybody said it would be. I mean this advisor they assigned me to help me pick out courses, told me that everything would go all right if I just kept my head."

"Well, after this, we went to the gym and actually signed up for our classes. There wasn't wasn't too much trouble up for our classes. There wasn't too much trouble here except that I'm taking five 8 o'clock

classes this semester. Our Goons told us how to get out getting 8 o'clock but none of the excuses they told us worked. In fact, one of the teachers signing us up actually laughed when I told him I couldn't take 8 o'clock because I was religious."

"Do you remember Marshall Street? That's where we had lunch the day we drove up. Well anyway this street is really amazing. It's not about a million restaurants and book stores and cleaners and things like that. Well, anyway there's this one place called the Savoy where all the upperclassmen and beatniks hang out."

"Eating problems."  
"It's really not much of a restaurant but I must have been there a hundred times in the last few days. That is, before the Dingle Man shows up. The Dingle Man is a truck that pulls up in front of the dorm and sells all kinds of sandwiches and stuff. It's really not too expensive but I end up spending a couple of dollars there every night anyway."

"One other thing. Remember that bennie I bought when we first got here. Well, we have

to wear it all the time and tip it for every upperclassman who wants us to. I don't mind this most of the time but sometimes it can be damn annoying. I mean that's why upperclassmen remember when they were freshmen and had to tip their bennies all the time."

"Well, I guess when I'm an upperclassman I'll be the same way. But sometimes it's really a pain in the neck. Especially when you're talking to a girl and trying to impress her and all."

"Speaking of girls, I met a couple of real cute ones on the Mount, which is the freshmen girls' dormitory. And I met another one at this 'frush picnic' they had which actually seemed like an excuse to have all the upperclass girls meet all the freshman girls. Anyway, I expect I'll have a pretty good social life here."

"Well, that's about all for now, we've got a special meeting of our dorm floor now. Our P.A. is going to tell us to study and not to fool around too much and that I think. Anyway, I'll try to write again real soon."  
"Love,  
"Your Freshman Son."

—OTHER HALLS, OTHER IVY—

## Others' Difficulties Help Cure Our Ills.

**By JEANNIE RANOV**

This column is designed to solve a certain ailment quicker than Peabody's green and purple pills.

That ailment is "campusitis." Too often, it seems to us, college students tend to become too deeply entrenched in the doings of the familiar classrooms, dorms and quadrangles of their own school. They have Syracuse or Miami or Michigan or Stanford in their blood, and only rarely do they take small doses of the outside world—other people, other places. Marshall Street is their beat, Syracuse, their eternal city, and the rest of the world is seen through a faint haze.

**Breakthrough**

We would like to help remedy this situation in one particular respect. While Mr. Barkal helps you to a New York Times type weaving of the world around us that is not Orange hued, we will try to keep you informed, influenced and entertained with references to the collegiate world outside the bounds of the vale of Onondaga.

Doings of other students in the many colleges and universities in this country will be brought to your attention. Some of their activities may be new to your eyes, may, we hope, be the source of improvements and additions of

various kinds to this campus.

Perhaps the problems of others in the sneaker set may impress Syracuse's many good points upon you. Perhaps this column's information may keep you in closer contact with friends at other schools. Perhaps it will make you more aware of the unique qualities of these two years of education, will give you insight into the experiences of the thousands of other note-takers, theme writers, float builders, cheerleaders, and others who call themselves college students.

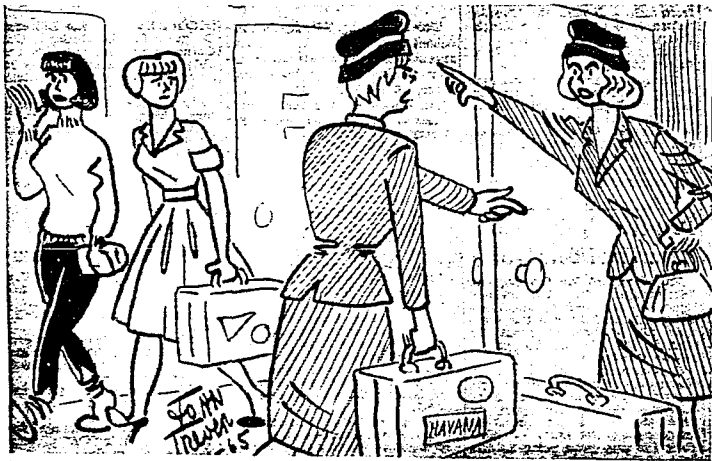

Or perhaps you'll just be interested in hearing how high they're wearing their knecosocks at UCLA.

Right now, of course, all of us collegians have one big item in common: we're back in the diploma race for the first, second, third or fourth heat, as the case may be. The summer interlude is finished and we're buying books, unpacking our chambers, painting rooms, a dipping the fresh lids.

The majority of larger colleges report more freshmen than ever before; SU is not alone in its crowded conditions. The University of Wisconsin, for example, says their almost 4,000 fresh constitute the largest entering class since the GIs came back to college in 1946.

The University of Kansas expects a record enrollment of 10,000. KU enrollment include 320 foreign students and the problem is finding suitable housing. KU Assistant Dean of Men Clark Coan says, "Our housing plan is aimed at getting foreign students to know Americans. We don't like the students withdrawing into groups." He adds, "We try to present the necessary, or else, favorable picture, but an honest picture of American life."

That's a point to remember on our cosmopolitan campus.

"That looks like one room combination that isn't going to work out!"

# Auditions for Non-Drama Majors Slated for Monday

Auditions for non-drama majors interested in participating in Monday according to Gerald F. Reidenbaugh, acting head of the Drama Department.

"There are many talented people on campus who are not studying drama," he said, "who might be interested in working

of them as well, but not more than three minutes for the auditions being held from 3-5 p.m. and 7-9 p.m. Monday at the University Regent Theater, 820 E. Genesee St.

**HIGH ADVENTURE!**  
COLLEGE PICTURES PRESENTS  
**GREGORY PECK-DAVID NIVEN ANTHONY QUINN** IN COLLEGE PICTURES' **THE GUNS OF NAVARONE**  
STANLEY BAKER-ANTHONY QUINN-IRENE PAPAS GINA SOLA - JAMES DARREN

Productions already planned by the department include a drama, a musical comedy, a program of Edward Albee's organization, an opera to be presented in conjunction with the School of Music and a play representative of religious drama.

Reidenbaugh said the department is "planning to expand its facilities to include the use of the Regent Theater for some of its production."

In addition to roles in these productions, there are roles available in a series of one act laboratory productions. "They provide an excellent opportunity for the student to work in the theater on a part-time basis," Reidenbaugh said.

A representative of Boar's Head will also be at the auditions to outline the organization's plans for the coming year. Boar's Head is the organization of students at the University who participate in dramatic activities.

# Regent to Open Tuesday Evening Film Series Oct. 3

The University Regent Theater will open its annual Tuesday evening film series with the presentation of International Film Classics during the month of October.

The first in this series will be "Ikiru," a Japanese film with English titles on Oct. 3. The following week, "The Devil's Daughter," a Spanish film, will be shown.

Other motion pictures scheduled for October are "Nana," a French film; "The Mouse That Roared," a British production and "The Confessions of Felix Krull," a German movie.

A series of Russian films is slated for November starting with "The Anna Cross." Others include "Cinderella," "The Revolutionists," and "The Stone Flower."

Non-English language films have English sub-titles. Each film will be shown twice each Tuesday evening at 7 and 9 p.m.

Tickets are \$1.50 for each month's series and 75 cents for a single film. Series tickets are available at the University Regent Theater box office, open Monday through Friday from 9 a.m. to 5 p.m. Single tickets may be purchased on show nights only.

# Horror Film Stars Foreign Beauty

Film buffs and Riviera fans may not like the current show at the Keith's but pirt watchers and other admirers of womanhood certainly will.

The main feature, "Blood and Roses," was directed by Roger Vadim who gave us and posterity Brigitte Bardot. His training was not in vain, for "Blood and Roses" features two of the best looking women seen on the screen in ages, Elsa Martinelli and Annette Vadim.

Both are tall, with sultry eyes and full lips. They have long necks, long legs and subtle body movements. The long necks are important because "Blood and Roses" is about vampires and a love affair consummated in a forest. The object of this affection.

Too Many Explanations  
The problem with the story is that it becomes too obvious with too many explanations for a horror-fantasy type production. A hoarse voice, off screen, tries to give us the real lowdown, and almost spoils the twist ending.

The air of mystery, the "let the audience figure out whether she does or whether she doesn't" is missing. Besides, the film is inaccurate: the vampire attacks someone wearing a cross and is seen in a mirror. Better stories have appeared in "Tales from the Crypt."

But Vadim's excellent photographer, Claude RENOIR, soothes the eye with his shots of Milles, Martinelli and Vadim and the Italian countryside. (Vampires in Italy?)

Feminine Touch  
Not that nothing isn't necessary, for Vadim excels at the art of the feminine tease, made so popular by BB. For more than one scene, leopards, clothing or out-of-the-way camera angles not only obscure the object of our desires, but also much of what European audiences will probably see.

Vadim does try some snappy cutting and has a weird dream scene, which while not too effective does deserve an "A" for effort. But he is at his best when that keeping his camera on his beautiful women.

Yesiree, it's nice to know, after considering recent Miss Rheingolds and Miss Americas, that there are still some beautiful women in this world.

The second feature is a mistake called "Surprise Package," and consists mainly of Mitzi Gaynor proving she is a good looker. Yul Brynner, as a General, as an exiled king, fill up the rest of the footage.

All in all, though the Keith's might not be presenting lots of art, they are showing lots of girls, which is the next best thing. J. E. G.

# Davis Picked To Repeat As All-American Back

Syracuse senior halfback, Ernie Davis, already named a 1960 all-American by many sources, has come into his own, according to the pre-season grid prognosticators.

Unanimously named as a top all-American prospect for 1961, Davis' status is thus described by one of the nation's grid writers: "The big name in the East is Ernie Davis of Syracuse, who is beyond being called another Jimmy Brown. Ernie rates stature uniquely his own."

In addition to predicting all-

America honors for senior Davis, sportscaster Red Grange forecasts a banner year for Hill senior tackle John Brown, placing the 6-2, 230-pound Orangeman on his alternate eleven.

Hill opponents do not lack all-America candidates either. The Orangemen will face a consensus all America end in Gary Collins when they journey to College Park to meet the University of Maryland eleven. Also touted for national honors are ends Bob Mitenger and Dave Robinson of Penn State.

Another Penn Stater, who nen't cost Syracuse the national championship in 1959, Roger Koehman received first team mention by Grange.

Notre Dame candidates include halfback Angelo Dibiero and guard Nick Buoniconiti. Maryland tackle Jim Moss, Pittsburgh guard Larry Vignall, Oregon State quarterback Terry Baker, Holy Cross halfback Tom Hennessey and Syracuse guard Dave Meggyesy also received favorable mention.

## Hill Standout

HILL HALFBACK ERNIE DAVIS, an all-American in 1960, has been picked by many top football writers across the country to repeat this season. Davis, a senior who can catch passes as well as run, should be set for his biggest year.

## Frosh Gridder Has Big Name

Syracuse University football the name game, that is. One of coach Floyd "Ben" Schwartz-Syracuse's prize line prospects is waldler has finally been beaten John von Bischoffshausen, III, by a Hill frosh gridder . . . in an Elizabet, N. J. native.

# Intramural Program Begins Next-Week

By BERNIE McCALLUM

Syracuse University's vast intramural program will begin next week with a meeting of intramural representatives from fraternities, dormitory floors, cottages, and independent organizations. All such groups are urged to send a representative to the meeting if they desire to compete in the fall program.

Milt Howard, director of the intramural program, has scheduled the meeting for Sept. 28 at 7 p.m. in the Trophy Room of Archbold Gym. Freshman living centers are urged to elect intramural representatives at floor meetings on Sunday evening.

Team entry cards and team registration blanks may be obtained in the intramural office, Archbold Gym.

**Improved Program**  
Howard points to the new fieldhouse and freshmen dormitory as contributing to an improved intramural setup this year. The fieldhouse will increase the playing area for inter-university athletics, as well as sheltering games in case of inclement weather.

Howard believes that the addition of Dell Plain Hall will add unity to the intramural program by eliminating many cottages and wide-spread living centers.

Fraternity members living in dormitories will be permitted to play for both fraternity teams, but not for both fraternity and dormitory teams.

The team sports included in the fall program will be touch football, swimming, bowling, equestrian, and rifle. Horse shoes, tennis, and golf will com-

prise the individual sports competition.

### Touch Football

Touch football games will be played under the lights at Lew Carr Field, where new playing areas have been added. Games are expected to begin Oct. 11.

A new group entering intramural competition this year will be from the Air Force Language program at Skytop. Last year over 3,000 participated in the university's intramural set up, with the number expected to be greater this year.

Howard, a 20-year veteran on the Syracuse scene, has seen the university's inter-athletic program grow to one of the largest of its kind in the country.

Howard is aided by an intramural council composed of students elected by the groups they represent. The council aids in organizing and promoting competition, as well as determining eligibility rules and regulations.

Awards will be presented to the winners in all team and individual sports. Team trophies will be given to fraternity champions with living center and independent winners being presented with medals.

# Freshmen Tennis Players Wanted

The Fall varsity tennis tournament is now in progress, as first round matches were held Wednesday. Ross Kaplan and Bob Raphaelson are seeded one and two, while other competitors from last year's team are Al Barr, Bruce Gordon and Hank O'Neil. There will be a fall freshmen tournament starting at 9:30 a.m. September 23 on the Women's Building courts. All experienced, interested freshmen are requested to meet Coach Gene Garrett at the courts and be prepared to play.

# Chancellor Tolley Addresses Frosh

(Continued from Page 1)  
 minded the campus newcomers. "It is ridiculous for the world to be so advanced in the sciences of war and also backward in organization for peace," he continued.

Chancellor Tolley went on to remind the students of their responsibility to the university. "Syracuse University is an academic institution and academic success is the sole and sufficient reason for its being and your presence," he stated.

Interjecting a special word to the young women of the class, he noted, "Life does not end at the altar, nor can a bride bring an empty head to her wedding without having a hollow life thereafter."

He told the class trade schools are disappearing because the "here's how" training is obsolete for our kind of "changing

world." "We are concerned with the habit of learning, an addiction to inquisitiveness." He related to the class two things about university education. First, he said, "you enter a realm of personal choice" and secondly, the university expects "to hunger for books and reading."

"Too often we react as thermometers to the athletic scoreboard, to the social schedule, or to the bids on the Greek market," he continued as he noted a study of social behavior of college students.

Concluding, he reminded the class to ask themselves "What could be," not "what is."

"The time for apathy is over," he stated, "there will be no muffled ideals, no respectful indifference, no stultified moderation. We want no halfhearted efforts, no low ceilings of performance or ambition."

## Motorcade Set To Open Rally For Oregon Game

A motorcade beginning at 6 p.m. today at Sims Hall will summon students to the Oregon State Pep Rally set for Archbold Stadium.

The motorcade will cover both Walnut Avenue and Place, up University and down Comstock Avenues and then right onto Euclid Avenue back to Sims, thus passing most of the sororities and fraternities.

The program in the stadium will begin at 7:30 p.m., according to Douglas Long, co-chairman of the rally. Included in the program will be cheerleading, placard cheering by the freshmen and a few remarks by Coach Ben Schwartzlander.

Also due to appear later in the rally is the band, along with baton twirler Judy Delp. The band and cheerleaders will both be in the car parade.

The usual 9:15 p.m. curfew has been extended to 10:15 p.m. for the rally, which represents the first introduction to college football for the Class of '65.

## Library Initiates New Program

(Continued from Page 1)  
 eo, Uruguay and Asuncion, Paraguay.

Dr. Aguayo, director of the October after acting as first assistant director and then director of the University of Havana Library in Havana, Cuba for 20 years. For 14 years he was a professor of cataloging and classification at the Library School of the University of Havana.

His job is to maintain contact with the book dealers involved in the plan, to order books requested by faculty members from Latin America and to classify and catalog the books as they are received. He must also check to see if the books correspond with the regulations of the Plan.

According to Dr. Aguayo, the main significance of the Farmington Plan is that the collections made under it present to the scholar a broad cultural image of the countries from which they come. Many libraries collect Latin American books by specific subject but few collect by geographic area. However, the Plan provides that one sample copy of each periodical published in the member countries shall be sent. Thus scholars can easily see the general cultural level of country.

By making available to

American scholars current information relative to those of the nations the United States desires to understand better, Syracuse is making a significant and positive contribution to North and South American cultural and political relationships.

## ISO Institutes Special Program

By KEN NORWICK

A special four-day Orientation Weekend for new international students will begin tonight with a convocation in Maxwell Auditorium, Tirandaz (Tiru) Irani, ISO president, announced yesterday.

"The ISO decided to institute this weekend," Irani said, "because in the past new international students on campus have found it very difficult to adjust to the completely new way of life they find here."

Irani indicated that there are more than 100 new international students at Syracuse this semester. In all there are over 650 international students on the Hill, he said.

The Weekend, which is jointly sponsored by the ISO, the Chapel Board, and the campus International Guides, begins tonight at Maxwell at 7:30.

Dr. Daniel Smith, of the Religion department, will open the convocation with a brief welcoming address.

Smith is faculty adviser to the ISO.

Following Dr. Smith, Don C. Skinner, director of the Chapel Board, will discuss the academic atmosphere and problems confronting the new students at Syracuse.

### DO and Girgus

Daily Orange editor-in-chief Sun Girgus will then discuss the role of the DO campus. Assistant Dean Charles H. Holmes of Liberal Arts will also speak on the machinery of communications between the administration and the faculty.

Marti Gallagher and Stano Dugan, of Traditions Commission, will conclude tonight's activities by discussing the social climate and calendar of Syracuse.

Following the convocation refreshments will be served at an informal reception in the auditorium. All students are welcome to attend the convocation and reception.

The Weekend continues at 9:30 Saturday morning with a breakfast for the new international students at the Chapel House. After the breakfast discussion groups consisting of American and international students will confer on matters of mutual interest.

### Campus Tour

From noon to 1 p.m. Saturday a tour of the campus will be conducted for the new students. (Continued on Page 12)

## Hammerskjold Memorial Set For Today

Special memorial services for Dag Hammerskjold will be held today at noon in Hendricks Chapel. The services will be sponsored by the International Students Organization and the Chapel Lutheran group.

Dr. Julian Friedman of the Maxwell School, will deliver the eulogy on Hammerskjold. Tirandaz (Tiru) Irani, president of the ISO, will read a resolution in behalf of the student body mourning the Secretary-General's death and calling for universal peace.

This resolution will be sent to the United Nations. Pastor Paul Bosch of the Chapel Lutheran Students Assn. will conduct the services. All students are welcome and urged to attend.

## New Cit Format Includes Lecture, Extra Reading

According to Professor Michael O. Sawyer, director of the Citizenship program, the purpose of the Citizenship Ia and Ib program for freshman Liberal Arts students remains the same. The course will consider the great public issues of the day and discuss the citizen's responsibility for government participation.

One weekly Monday lecture and two discussion sections per week, supplemented by an evening lecture series, will compose this year's course. Several scholars in the area of public affairs will lecture during this series, according to Prof. Sawyer.

Dean Steven K. Bailey of the Maxwell Graduate School of Citizenship and Public Affairs will give the first of the weekly lectures Monday. He will speak at 8 a.m., 2 p.m. and 3 p.m. in the Chapel on "The Government and

(Continued on Page 12)

# Gridders Face Oregon State

By KEN DARLING  
Sports Editor

Saturday's clash with Oregon State in Portland, Oregon, may be "the whole season wrapped up in one game" for the Orange gridders, according to Coach Ben Schwartzwalder.

The game, starting at 1:30 p.m. Pacific Coast Time, will be broadcast locally over WSYR at 4:30 p.m. E.D.T.

The contest will "give us a chance to see what kind of new team we're going to have this year," the veteran Hill coach reasons. He feels that if the Picky footballers can get by Oregon State, they may have a good season.

Showing his respect for the well-coached Beavers of Tommy Schwartzwalder, he calls this game one of the toughest openers he's ever had during his 13 years at Syracuse. He believes Oregon State "could be the strongest team on the west coast this fall. It's a veteran team that will be tough to handle both offensively and defensively."

To counter Oregon State's variety of offenses which includes both single wing and T formations, the Hill coach has been developing what he terms a "multiple defense." He predicted that the Orangemen throw more defensive formations against the Beavers than they have ever used before.

Schwartzwalder expects the west coast team's defenses to be able to stop his star halfback, All-American Eric Davis. "So don't be disappointed if Eric doesn't get the ball on every play," he warned.

The Picky coach indicated that (Continued on Page 6)

## Frosh Have Some Gripes On 'Week'

By JEANNIE RANOV  
Junior Editor

The Class of 1965 had both kind words and gripes to express at the end of their four days of orientation on the Hill, a Daily Orange survey revealed.

Overall praise was offered the program, with credit going to the work done by the Goon Squad.

A majority of complaints concerned crowded conditions in Archbold Gymnasium during registration, and also a feeling of being "herded around" from convocation to mixer to picnic without a breathing space.

"Our goons did a terrific job," said Layman Wickliffe, a frosh from Cortland. Many others cited the enthusiasm, energy, willingness to answer questions and general helpfulness of the 200 sophomore Goons.

However, Naomi Oushy of Cortland pointed out that because of the time consuming registration many freshmen had to miss the study convocations.

(Continued on Page 12)

## Communists Hold Hill Sophomore In East Germany

By ALAN G. MILLSTEIN

A Syracuse sophomore nearly created a border incident as great as did Jack Parr in tense West Berlin this past August.

Paul Ross, an 18-year-old Business Administration student from Great Neck, was held by the Communist "People's Police" in East Berlin for five hours in late August for taking pictures of a Russian tank and several machine guns emplacements of Friedrichstrasse — the street that has come to symbolize Russia's sealing of the road to the free West.

### Gestapo-like Police

"It was just how I always pictured the Gestapo setup of the 1940's," Paul told the United (Continued on Page 12)

## Big Chum-Little Chum Show Premiers Tonight at Crouse

REHEARSING FOR the Big Chum-Little Chum Show are, left to right, Anne Quimby, Sue Leibowitz, Norman Berkowitz and Lloyd Buskin. (Photo by Margie Cole)

By REA TURET  
The annual Big Chum - Little Chum Show will give its first performance tonight at 7 p.m. at Crouse Auditorium. Other performances are at 9 p.m. tonight and at 8 p.m. tomorrow night.

All who would like to see the show, are invited to come. Directing the show are two

naive freshman, and Palmer Dante of the swinging, sexy sophomore.

Also in the show are Harris Rakov, Ray Dionne and Joe Kinobrew. There are 34 Goons in the chorus, the largest chorus that has been assembled for the Big Chum - Little Chum Show.

Norman Berkowitz, who played the piano for last year's show, is again serving as the pianist for the show.

"This is a story about me and you, these people the Goons, Sarah and a frosh named Sue," explains the opening lines of the show. It is the story of college students who spend more time having fun than on their studies.

But more than just a moral lesson, there is a lot of singing and comedy in the show. Songs such as "Keep it Platonic" and "Turnabout," which have been heard on this campus since the first time "Turnabout" was shown are in it.

For the past week, the 37 cast members and the two directors have been working hard to get the show ready for tonight's opening performance.

Originally scheduled for to be held in Thornden Park, it was decided that the show was of interest only to college students, and not to the general public. This is the show that has been on campus, and like vintage wine, performed for the past six years, it gets better with every year.

## Annual Gifts Break Record

Syracuse University received over \$1,000,000 in annual gifts during the 1960-61 fiscal year according to the outgoing national chairman of the University's Annual Giving Fund.

Carl J. Mansold, Niagara Falls Power Corporation president and fund chairman for the past two years, reported \$1,101,84 was received from all sources last year. This marks the first time annual giving has reached the million dollar figure.

While announcing the new record high in gifts, Mansold also announced the appointment of Robert W. Morey, a New York bank executive, as his successor.

## ID's, Tickets Available In Men's Gym

Upperclassmen may pick up their ID cards and football tickets from 1:30 a.m. to 5 p.m. and from 7 to 9 p.m. today in the Trophy Room of Archbold Gymnasium.

Students may bring the IBM card enclosed in the special class admit card packet in order to get their ID's and tickets.

Seniors must make appointments for their yearbook pictures during these times.

The Trophy Room will also be open for the purpose from 9 a.m. to noon Saturday.

Hill Foreign Students

Tonight will mark the opening of an orientation period for foreign students on the Syracuse campus. International Students Organization President Tirandaz (Tiru) Irani is to be highly congratulated for the work he has done in instituting this new and original idea. It is also commendable that there will be so many American students in positions of leadership who will address and strive to help the international students.

This program is another aspect of a long fight at Syracuse University. American students have forgotten the great responsibility and obligation they have to their guests from foreign countries. They have underestimated greatly the bewildering adaption that an Asian or African student must make when confronting American customs, attitudes and traditions. At Syracuse, on the whole, we have always been poor hosts and we have always given international students very few good things to say about life in the states. Much of this is a result of our own basic national insecurity. Americans, who are supposed to be a naturally warm and friendly people, reveal a certain amount of doubt and fear about themselves when they are hesitant to expose their true personalities to foreign peoples.

This weekend, therefore, represents a very important challenge to all American students at Syracuse University. ISO leaders are endeavoring to build a bridge between two worlds and it is now our jobs to cross it. Perhaps the greatest challenge is to IFC President Dick Miller and the entire fraternity system. Far too often Walnut and Comstock Avenues become enshrouded in their own ivy and forget that there are other people in the world. Inviting a foreign student to dinner is not really enough. One must also desire to become his friend and understand his own particular way of life.

It should, however, be remembered that all the wrongs in the world cannot be tossed through American windows. As the recent Belgrade Conference showed, members of the so-called neutral blocks are far from perfect and are often hesitant to accept their own positions of responsibility in a peril-ridden world. Americans have indeed been poor hosts. But it is the wise guest who knows how to put his host at ease.

By JACK HANDE  
In recent years the world has increasingly become the playground of American tourists. They wander through the streets of tiny Mexican villages armed with the inevitable camera, and with unabashed glee record a nation's life.

From the windows of their cars they get to "know" the rural wealth of France. To the grandeur of the Gorman Alps they give a week's time, but no more, for they really must leave it before the ship leaves next week for home.

At cocktail parties in the New York Suburbs, they talk of every foreign culture with authority, for they have been "abroad."

On Backward Countries  
They tell quaint stories of the backwardness of countries ancient before America was discovered, for they are secure in their unassailable Americanism. To them France is the least little man in the Place Pigalle who tried to sell them pornographic pictures.

They have passed judgment, and on what basis? On the uniform basis of small isolated incidents, they judge nations whose characters are at least as complex as America's.

A few days, weeks, months of skating on the surface make them final arbiters in any discussion about such nations.

Look at America  
Look about you, tourists. You know your America, you were born here, raised here, and it will be your final resting place. Think for a moment, tourist. How do foreign eyes see and judge your land?

Do they too photograph the unusual as a record of the com-

mon? Do they judge our wide nation as a whole, merely by isolated incidents, or by their first impressions?

Perhaps they do. It is unfair; it is sad, but it is not just what our own people have done?

When a foreign tourist sees a girl board a bus in New York, and then ride for only a block, perhaps he could conclude that all Americans are lazy.

On The Move  
It does really seem absurd to ride for such small distances, but it is even worse when Americans compound the absurdity by allowing such unnecessary haste to bind them to the marvelous natural beauty of their own and foreign lands. The starlit night and the clear, crisp bite of the September air are lost to such people.

The warm summer sun reaches them, if at all, only through tinted windows or in the splur of crowded, overcrowded, strewn benches. Perhaps a visitor would soon come to feel us incapable of receiving the fragile beauty of a flower or the unique redness of the floating sunset clouds.

If these foreign tourists judge us as our tourists judge their countries, we are in for a bad showing. Can you imagine the reaction of certain foreign visitors who asked a New York taxi driver to tell them how to get to Syracuse. This banalit drove them to Utica for a huge sum, and then left them stranded there. How do they feel about Americans? How would you feel?

On The Road  
Picture Negro visitors travelling through the South not only are they shunned and insulted by the restrictions placed upon them, but amazed at the incredulous situation.

An African friend who is staying in this country recently told me of his southern

adventures. He decided to eat in the train's dining car, and found that a thin strip of material was placed in this car to separate the two races while they ate.

On the same trip, he related, both races were served by the same white South of the Mason-Dixon line. He virtually hurled the menu and food at the Negroes, but north of the line, he lost his sourliness. "He treated me like the Prince of Ethiopia then," my friend recalled.

Panes of Glass  
In certain lunch counters in the South, this same man was allowed to drink a soda in the same room as the whites, but was not allowed to sit next to them. In a cafeteria, a large window separated the two races. It was all right for blacks and whites to watch each other sit and eat, but a pane of glass was necessary to preserve tradition.

If we are judged as our tourists seem to judge the nations which they visit, our troubles on the international scene will mount. This is something for Americans to remember as they travel abroad.

Their own country is not sacrosanct. To foreign eyes we must often seem cruel, hard, insensitive, unperceptive and ridiculous. It is very inappropriate to remind those Americans who travel abroad, that it was a very wise foreigner who once said, "Do unto others as you would have others do unto you."

And here at home, let us bend our efforts toward helping visitors to understand our land. We must accept them as equals and strive to show them the America we know. We must help them past the bewildering barriers of local custom, and aid them to find the real America. Let us show them the true caliber and heart of our people.

LETTERS

Student Applauds Humanities Course

To the Editor:  
Sixty-five students had a very unique and most satisfying experience at the University this summer. They participated in an experiential program called Humanities. Sponsored by the Ford Foundation, and under the direction of Dr. Albert George, the program enabled students to procure seven hours of credit, twenty days of intense lectures and discussions, and room and board for only \$500.

At the beginning of the program we were so overwhelmed with the wealth of knowledge we had accumulated that we became slightly pedantic. Over the course of time, however, we slowly learned the real truth, i.e., the thirst for knowledge is not satisfied by reading 100 important books, and disciplining oneself intensively for one summer.

We could start our day with two lectures, one at 9 a.m. and one at 11 a.m. We would then go to lunch, filled with the morning's stimulation of new ideas, and accompanied by our professors. Students and professors became friends, and the wonderful heated discussions at lunch time gave rise to more enthusiasm, so that by discussion class at 4 p.m. we were once more involved in debating new ideas and questioning the various facts and theories

we had learned during the day.

The best professors on campus, Dr. Earl D. Owens, Dr. Veinus, Dr. Jamieson, Dr. Williams and Dr. George Schaefer became now and pleasurable experience and reading and studying became an enthralling project, not a boring task. We were happy and anxious, not because we were anti-social intellectuals hiding in a world of books, but because we were interested and stimulated.

We were challenged to do a great deal of work within a short time and to show presented and expected to cope with our responsibilities as mature adults. Whatever questions or misunderstandings we had about what we learned, were given individual consideration, and students and professors became one group, as the experience of learning and thinking is one for all who became involved.

It is difficult to impress on anyone who was not fortunate enough to have taken Humanities that it was the most satisfying and rewarding academic venture we have ever undertaken. This course should be offered to every student in the United States — how lucky we are to have it available here at Syracuse!

—CAROLE CORWIN

# Movies Concerts

By the Daily Orange  
Entertainment Staff  
FIRST RUN HOUSES

**RIVIERA CINEMA** — Brigitte Bardot, the sex kitten, is back with "The Truth." This time in a drama about a very popular but rather tawdry French girl who gets herself involved in a murder. BB gets a chance to display her acting talents as well as her body in an interesting character study of a more than slightly bad, but very sexy, girl. BB at 6 and 9:45 p.h.

**LOEW'S** — The truth about "Ada" is that it is a bad movie about a bad girl taken from a bad novel. This bombastic bomb stars Susan Hayward who rises from floozy to First Lady of a state governed by Dean Martin. Britain's Wilfred Hyde White is cast as the city and evil boss of the local political machine and is rather good considering his British demeanor. Politics at 6:40 and 9:40 p.m.

**PARAMOUNT** — Paramount has "Spartacus" which is Howard Fast's version of a

slave uprising during the decadence of Rome before Christ, Anita Ekberg and Federico Fellini. "Un-American," (we're told) Dalton Trumbo wrote the awkward script which is more left than right. But Kirk Douglas, Jean Simmons, Laurence Olivier and Peter Ustinov make "Spartacus" a better than average spectacle. Slaves at 8:20 p.m.

**KEITH'S** — Digging two gorgeous chicks, like Elsa Martinelli and Annette Vadim might stop some from following the rather crude storyline about vampires in "Blood and Roses," but who cares. America — firsters can dig Milti Gaynor in "Surprise Package." Those with other inclinations can watch Mel Ferrer, Yul Brynner and Noel Coward. Forget the stories in any case. "Blood" at 7:15 and 10:15 on Friday; 8:15 and 11:15 p.m. on Saturday. "Surprise" at 8:30 p.m. on Friday and 9:30 p.m. Saturday.

**ECKEL** — Sex and sin in sunny Italy is good for neither the soul nor the spirit says Federico Fellini in his latest

triumph "La Dolce Vita." To show how much he dislikes this moral degeneracy, he fills three hours with orgy after orgy after Anita Ekberg. He adds to his sermon by having it beautifully photographed and superbly acted. Eckberg at 8:30 p.m.

**SHOPPINGTOWN** — "The Guns of Navarone" is an action thriller in the best tradition. Nothing subtle or deep it just clobbers you over the head while you sit on the edge of your seat. An almost all male cast (there is one girl who appears briefly) may compensate the local coeds for the lack of male stars in many other films at the local houses. Gregory Peck, David Niven et al 7:10 and 9:47 p.m.

**NEIGHBORHOOD HOUSES HOLLYWOOD** — The Hollywood has plenty of kid stuff this week. Haley Mills is twice as cute (or twice as obnoxious) as twins who don't like divorce in "The Parent Trap." Also featured are Muriel O'Hara and Brian Keith as the parents (naturally). "Freckles" is the co-feature. "Twins" at 6 and 9:41 p.m. Friday and 5:30 and 9:25 p.m. Saturday. Spots at 8:17 p.m. Friday and 7:43 p.m. Saturday.

**MIDTOWN** — "The Grass is Greener" is a funny quadruple triangle featuring Gary Grant, Deborah Kerr, Jean Simmons and Robert Mitchum. "Foxhole in Cairo" is all about the public works department in Egypt. No times available.

**WESCOT** — The Wescot deserves the walk through the park for this show. "Furry on Nurse" is a slight but funny British comedy. "League of Gentlemen" is England's answer to "Ocean's 11." Med students at 6:45, 9:55. "Gents" at 8:10.

**PALACE** — Young (Troy Donahue) and old (Claudette Colbert) alike will dislike Parrish who digs too many girls that is good for him. No times available.

**KALLET - GENESSEE** — "His name is Parrish" the ads tell us. It might as well be mud. Watch out "The Steel Claw." "Parrish" Fri. at 8:45, Sat. 9:30. "Claw" Fri. 7:00, Sat. 7:50.

### DRIVE - INS

**LAKESHORE** — "By Love Possessed" is by hunger possessed. For Lana Turner and Eprem Zimbalist, Jr. fans only. We wish "The Last Sunset" would finally settle below the horizon so we

# Radio Television

couldn't see it anymore. No times available.

**DEWITT** — "Parrish" aaaa. Maybe "Gorgo" could finish him once and for all. "P" at 7:45 "G" at 10:15.

**NORTH** — H. C. Wells has been revamped for "The Time Machine." Wish "All the fine Young Cannibals" should be revamped or even put in some time machine. No times available.

**SALINA** — "Parrish" the ads say is dangerous in-between; in-between himself, three girls, and Claudette Colbert. FEH! Meawhile Kirk Douglas a nd Susan Hayward are having "A Top Secret Affair" It should only stay that way. "Parrish" 9:33. "Affair" 7:30.

### RADIO - TELEVISION

**PRO FOOTBALL** — Cleveland Browns vs. St. Louis Cardinals at Municipal Stadium, Cleveland, at 2 p.m. Sunday. WSWR - TV (Channel 3).

**PRO FOOTBALL** — New York Giants vs. the Pittsburgh Steelers at Forbes Field, Pittsburgh, 2 p.m. Sunday. WHEN - TV (Channel 8).

**TWENTIETH CENTURY** — A history of the dirigible from the early German models to current anti - submarine types. 6 p.m. Sunday. WHEN - TV (Channel 8).

**WALT DISNEY** — Walt Disney's Wonderful World of Color premieres with a trip through "Mathematic Land," starring Donald Duck and Prof. Luitwig Van Drake. 7:30 p.m. WSWR - TV (Channel 3). I.....lofe etafol and th

**DUPONT SHOW** — An hour - long tribute to song writer Harold Arlen stars Peggy Lee, Vic Damone, La Vern Baker, Bing Crosby, with Paul Weston and his orchestra. 10 p.m. WSWR - TV (Channel 3).

**COLLEGE BOWL** — Texas Christian University, Ft. Worth, Tex., faces De Paul University, Chicago. WHEN - TV (Channel 8).

### SPORTS

**VARSITY FOOTBALL** — The Orangenemen face Oregon State Saturday in their first game of the season. 4:30 p.m. WSWR (570 kc).

## Memorial Book Fund Organized

A memorial fund in the name of Mrs. Irene C. Garrett, assistant professor of Business Communications who died July 1, is being established, according to the College of Business Administration.

Chairman of the Business Communications Department, she was appointed an instructor in 1942. She had also taught in the College of Liberal Arts following her receipt of an A.B. degree from SU in 1918.

Mrs. Garrett also did editorial work relating to the Salzberg Proceedings and held other business membership in several academic and professional societies.

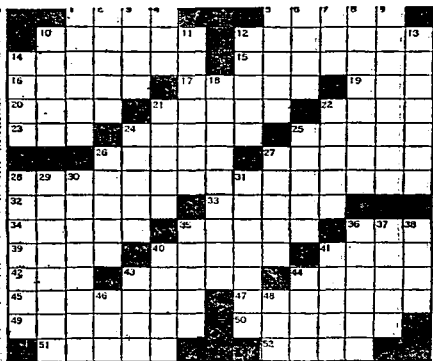

Contributions to the book memorial fund can be made to the College of Business Administration, given personally or sent to Dean William T. Jerome III, of the College

| 26 Thin fabric.                        | 1 Individually.                 | 37 Last.                         |
| 27 Fontainebleau attraction.           | 2 Birds of a region.            | 38 Social gatherings.            |
| 28 Memorable play by O'Neill: 3 words. | 3 Plumbum.                      | 40 Babble.                       |
| 32 Trusts (with "on").                 | 4 One of Snow White's friends.  | 41 Where Valetta is.             |
| 33 Negative ion.                       | 5 Sluggish.                     | 42 Ferrum.                       |
| 34 Seed coverings.                     | 7 Compass point.                | 43 Eastern.                      |
|  | 8 A variety of roller dog.      | 46 Roof apex covering.           |
|  | 9 Quality of being gentle.      | 48 Swiss stream.                 |
|  | 10 Rural residence.             |                                  |

## WARDROBE

125 S. SALINA

## ARCHIE SAYS:

My cousin Archie—he thought the electric razor his gel gave him last Christmas was o.k. Then he tried Old Spice Pro-Electric, the before shave lotion. Now the guy won't stop talking, he thinks electric shaving is so great.

ARCHIE SAYS Pro-Electric improves electric shaving even more than lather improves blade shaving. ARCHIE SAYS Pro-Electric sets up your beard by drying perspiration and whicker oils so you shave blade-close without irritation. ARCHIE SAYS Pro-Electric gives you the closest, cleanest, fastest shave.

If Archie ever stops talking, I'll tell him I use Old Spice Pro-Electric myself.

P. S.  
There's a 60 size hat Archie gets the 1.00 bottle. (He always was a sport).

SHULTON

# WAER to Hold Open House

The campus FM radio station, WAER, will begin the fall semester with an open house from 3-5 p.m. Sunday at Radio House. Although the station does not sign on until Monday, staff members will perform their regular duties under mock broadcasting conditions to show freshmen and other interested students the

station's operation and their part in it. The tour of the studios and offices is a prelude to orientation classes beginning at 7 p.m. the following Thursday. The classes will acquaint students with station operations and policies. All students, regardless of major or class rank are invited.

## AT THE FLICKERS— 'The Truth': Bardot Shows Acting Talents in New Film

No fooling friends, Brigitte can act. In her latest film "The Truth," director Henri-Georges Clouzot has performed a major miracle and has given us a fine

performance from Mlle. Bardot. True, she still struts the stuff that has made her famous, but she also turns on the tears and makes with the emoting in this film which opened at the Riviera Cinema last night.

Clouzot has given us a tight, well developed, juicy murder trial. Brigitte plays a confused, slightly promiscuous "Left Banker" who flips over a conceited music student. They play cat and mouse for a while, but she succumbs and true love blooms.

Unfortunately, he also loves his music. So while he conducts Stravinsky, she plays a round with other Left Bankers. He's

jealous. They fight, make love, and fight again and so on thru-out the entire film.

Finally they have their big split, he leaves for the finer things in life, like Brigitte's violinist sister and she bumps around Paris, eventually becoming a prostitute.

A few months pass and while he's making like Leonard Bernstein, Brigitte realizes that she really loves the cad. She goes to his apartment, spends the night and the next morning he tells her he doesn't love her any more. "Slong, Bye, See you around."

Brigitte starts contemplating suicide.

She returns to his apartment, wanting to kill herself before her lover's eyes. Emotions get the better of her, she shoots him and messes up her own suicide.

### Flashback Technique

All of this is revealed in a series of flashbacks during Brigitte's trial. Slowly and in great detail, her sordid life is revealed.

Brigitte is on camera 90 per cent of the time. Clouzot's direction is tight and demands a lot from her, for her character is a complex one. She has to keep us guessing as to what kind of girl she really is.

Fortunately, in Clouzot's hands she never once lets up, and the sharp, often witty court scenes add to a tense excitement that erupts in a series of powerful and superb final scenes.

### Career Cues

**"Cure for job boredom: I made my favorite pastime my career!"**

Richard Bertram, President  
Bertram Yacht Co., Division of Nautec Corp.

"When you stop to think what percent of our total waking hours is spent bread-winning, you realize how tragic it is for any man to work at an occupation he doesn't enjoy. Besides frittering away life, it reduces chances of success to just about zero. I know... because it almost happened to me!

After college, I did what I thought was expected of me and joined a solid, Manhattan-based insurance firm. I soon found office routine wasn't for me. I lived only for

lunch hour when I could walk to the Battery and mentally sail with the ships that stood out in the Narrows... and for the summer weekends when I could go sailing. Fortunately, the company I worked for is one of the leading insurers of yachts and after two years I was transferred to their Yacht Underwriting Department. Enjoyment and interest in my work improved immediately 100%.

After World War II, I started my own yacht brokerage firm and yacht insurance agency in Miami, combining my marine insurance background with an even closer relationship with boats.

My only problem ever since has been a feeling of guilt that my work was too easy. I love boats and boating people. That affection has paid me rewards way beyond the financial security it has also provided.

The moral's obvious. You have an odds-on chance for success and happiness working at what you enjoy most — what comes naturally! And if it's not just frivolous, your life's work could well be what you now consider just a pastime. It's certainly worth thinking about, anyway!"

Richard Bertram, while still in his early thirties, became one of the country's leading yacht brokers. Today he heads up eight companies covering yacht manufacturing, insurance, repair, storage, finance and brokerage. A resident of Coconut Grove, Florida, Dick became a Camel fan while still in college.

And to make any time pass more enjoyably...

# Gridders Meet West Coast Foe

(Continued from Page 1)  
his squad will be throwing more this year than it has in the past. He feels that the team has considerable passing potential, with three "adequate" throwers and the best group of receivers to bless the Syracuse scene in several seasons.

His "adequate" throwers include senior Dave Sarette, who will be the starting quarterback Saturday, and sophomores Walt Sosison and Bob Lelli.

Sarette's favorite targets will probably be his ends, Walt Sweeney and John Mackey. Both boys are juniors who are newcomers to the starting lineup. Sweeney, a 6-3, 225-pounder from Cohasset, Mass., edged out veteran Ken Ericson for the first team left end spot. Ericson will still be the number one extra point booter.

**Speedy End**  
Mackey, a 6-2, 210 lb. speed merchant from Freeport, N. Y., was moved to right end from his halfback position during spring practice. A proven broken field runner, he should excel on offense in his new post.

Saturday's contest, while pitting two strong teams against each other, also provides a head-on duel between two of the nation's top players for grid fans to enjoy. The Beavers have Terry Baker, possibly the best back on the west coast, while Syracuse counters with Davis at left halfback. His running mate will be team captain Dick Easterly.

asterly was a signal-caller with last year's squad, but his running has been so impressive

(that he was switched to right half. When Pete Brokaw was injured, Easterly stepped into the first team lineup and hasn't relinquished the position.

Completing the starting backfield for the Oregon State game will be fullback Gary Fallon. A 6-1, 210-lb senior from Wallowa, he played in the shadow of Art Baker last year, but has emerged as a starter this fall.

Heading the linemen is big John Brown, a fast hard-hitting outside tackle. A 6-2, 230-lb. senior from Camden, N. J., Brown missed most of last season with an injury, but much is expected of him this campaign.

The inside tackle Saturday will be Tom Spillet, a senior from Solway. The 6-1, 220-pounder is another newcomer to the starting eleven. Playing behind him is Dick Fielder, who was a regular guard with last year's outfit.

**Meggyzy, Francovitch**  
The starting guards will be Dave Meggyzy, a 210-lb. junior who was very impressive last season, and senior George Francovitch.

A battle is shaping up for the center spot, but at the moment the edge belongs to veteran Bob Stem, a 210-lb senior. He is being pushed by a promising sophomore, 230-lb. Henry Huctner.

Doing the team's punting at Oregon State will be John Sieder, a sophomore end from Buena Vista, Va. He is punting specialist, and will probably not see any defensive action.

Handling the kickoff duties will be John Poglio, a third team outside tackle.

# Prothro's Beavers Boast Revamped Offense, Baker

By DAVE DEAN  
Associate Editor

Coach Ben Schwartzwalder's initial comments last spring concerning the Oregon State game pertained to the disadvantages of travelling 3000 miles to play a single-wing team in a night-game season opener.

Now, although it's still the season opener and 3000 miles away, its no longer a night game, nor is the opposition a uniquely single-wing team.

Beaver coach Tommy Prothro, long a proponent of the single wing offense, has added the straight-T formation to his team's repertoire in hopes of taking full advantage of the two tailbacks. Whereas the single-wing forced him to alternate the two players, the "T" will allow use of both in the same backfield.

**Sixth in Nation**  
The major cause for the conversion is junior Terry Baker, who took sixth place among the nation's total offense leaders with 1,473 yards to his credit as a sophomore tailback.

Baker, who played no freshman ball, will revert to the quarterback position he held in prep school. The other standout tailback of last season, letterman Don Kussco will move to the starting left halfback slot.

Oregon State's conversion to

The squad left Hancock Field at 8 a.m. today, and expects to arrive in Portland at 2 p.m. Pacific Coast time. The Orangemen are expected back at Hancock Field at 9 p.m. Sunday.

the straight-T offensive has even affected the coaching staff. Prothro, now in his seventh season with a 36-21-2 overall record, has secured the services of Bob Gambold, a T-formation specialist, formerly under head coach Jim Sutherland at Washington State.

**Grid Prognosticators**  
The Beavers are consistently placed in the nation's top twenty by the pre-season football seers, and are expected to improve upon a 1960 record of 6-3-1. This mark earned them an invitation to the unemployed New York City Gotham Bowl game.

The predictors find the Beavers strongest in the offensive backfield, but weakest in the defensive linebacking area. However, of the 39 letter-men last season, 26 return and seven of these are backfield men.

Added to this backfield strength are eight newcomers

who are either sophomores or junior college transfers; halfback LeRoy Whittle and fullback Tom Gates, both junior college men from California, are prospective starters.

This game is the season opener for both elevens and only the second meeting between the two schools. In the initial contest, in 1915, the Orangemen whitewashed the Orange & Black of OSU by a 28-0 score.

## AN UNPAID TESTIMONIAL

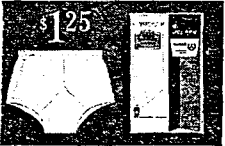

Richard the Lion-Hearted says:

**I would never have surrendered England ...if I'd had Jockey support**

C'mon, Rich! You're rationalizing. Jockey support! might never have secured you against the Emperor. But it certainly would have provided snug protection against the physical stresses and strains of your active life. Your armor never tailored a coat of mail more knowingly than Jockey tailors a brief—from 13 separate, body-conforming pieces.

Get the real thing. Look for the name **JOCKEY** on the waist band

# WAA To Kick Off First Quarter Events Schedule

The Women's Athletic Association has announced its extensive schedule of activities for the first quarter of the year.

Beginning on September 25, the weekly schedule will run as follows; hockey on the gym A field from 4 - 5:30 p.m. on Monday and Tuesday, and fencing from 4 - 5:30 p.m. on Monday. Also on Monday is the Orange Splash from 4 - 5 p.m. at the pool.

Along with hockey on Tuesday is competitive swimming at the pool from 4 - 5:30 p.m. An apprentice dance club will meet the same day for an hour starting at 4 in the studio.

On Thursday the Co-ed Skish will spend the 4 - 5:30 p.m. period on the Gym B field. At night the Syrinfins will meet at the pool from 7:30 - 9:30 p.m.

For the experienced dancers there is the Production dance club.

Friday finds the tennis club on the Gym courts from 3 - 5 p.m. At the same time there will be archery on the field.

Along with these previously mentioned activities are many others such as a Co-ed Sports Day on October 14. The annual tournament will be also held in weeks.

# Frosh Hit Hard, Outplay Manlius In Scrimmage

By MARK DIAMOND

After the first important scrimmage of the year, last Wednesday at Manlius, freshman football coach Jim Shreve is now better able to tell what the capabilities of this year's squad are, as well as which points still need improvement.

Among the pleasant features was the exceptional hitting power of the Tangerine line. Coach Shreve heavily praised the performance of left guard Jerry Everling. The 5-11, 185-pounder's

play was so good that he will probably be moved to center. Further shifts are planned if he continues to impress.

Other members of the yearling front wall who were mentioned favorably were Larry Peppel, Paul Houle and Mike Waxman. The last named, an outside tackle, tips the scales at 232 lbs.

Beat Manlius  
The Piety cubs defeated Manlius three touchdowns to none in the controlloid workout, and various backs were instrumental in the fine offensive showing.

Quarterback Dick King exhibited a lot of poise in running the attack, and shows he is quick to learn from his mistakes. Herb Etsell and Billy Hunter, the

right and left halfbacks, ran especially well, while "Ducky Duckett" at fullback also showed up well.

On the whole, Shreve was well pleased with the blocking and spirit of the interior linemen and ends, but felt that the line-backing and defensive backfield could have played better. What also bothered him was his inability to use the second string backfield due to numerous injuries.

Meanwhile, the team continues to practice every day at Hendricks Field, with the next large test scheduled for Monday. At that time the frosh engage those members of the varsity who did not go to Oregon State.

## Season's First Pep Rally Creates Spirit Among Frosh

Syracuse University's first pep rally of the 1961 - 62 football season took place at 7 p.m. Thursday in Archbold Stadium. This event was supervised by co-chair-Doug Long and Beth Crawford.

The activities of the rally commenced at 6 p.m. with a car parade beginning at Sims dining hall. Goons from the various floors conducted their freshmen to the stadium and helped to organize their first taste of placard cheering.

Archbold Stadium turned a shade of orange in the reflected glow of the Syracuseans who turned out in their favorite color or the rally.

One of the crowning events of the evening occurred when coach Floyd "Ben" Schwartzwalder and members of the varsity team spoke to those present on their hopes for football success in the coming season.

## Grieve Wants Frosh Trackmen

With the fall sports season approaching, Syracuse track coach Bob Grieve has announced that all freshmen interested in track should contact him in his office at Archbold Gymnasium.

# 19 Broadcasters Meeting Here For Seminar

Nineteen foreign broadcasters are currently participating in the 1961 International Broadcast Seminar at Syracuse University.

Among those participating in this program, administered by the University under the auspices of the United States Department of State Leaders and Specialists Program, is an editor in chief of Science and Education Programs for the Polish television network, a service manager of the Nigerian Broadcasting Service and a Borneo producer.

The four month long seminar includes two extended visits in Syracuse for discussion meetings with the faculty of the University's Department of Radio and Television under the direction of Dr. Eugene Foster, chairman of the department and director of the Seminar.

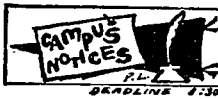

Syracuse University has complete responsibility this year for the entire program which will also take the broadcasters to Boston, New York, Washington and other parts of the country, giving them information and background pertinent to their professional goals.

While in Syracuse, they are being housed by parishioners of Erwin Methodist and University Methodist Churches.

During their four-week program here, they are attending laboratory centers and participating in field trips to local stations, newspapers, public schools and to the General Electric plant.

The broadcasters will leave Syracuse, Oct. 7 for a sightseeing bus trip to Boston, Mass., to visit TV and radio stations there and then to New York and on to Washington. They will meet again in Syracuse Dec. 9 for ten days of summary, review and re-briefing sessions.

Richard A. Cobb, newly appointed Coordinator of International Broadcast Training at the University will accompany the broadcasters when they travel as a group.

Now that the dust has settled, a little relaxation is in order. Agreed? And that's what this column is all about as every week we'll give you a little background on the places and events that can help you on your way to an interesting weekend... even when the gridders are away.

So keep your eyes on this center fold every Friday as your convenient, entertainment guide and you'll be in with the mostest and the bestest.

For our first feature we could think of no place better than Tino's, 425 N. Salina St., just about ten minutes from the Hill, barring normal traffic jams.

In business at the same location since 1938, Tino's was one of the first Italian restaurants in Syracuse and in its 23 years, it has gained a wide reputation for fine Italian food, especially pizza. Matter of fact, it's known as the home of the original pizza in Syracuse!

And fellas, here's what makes Tino's almost too good to be true, his prices are most reasonable. Exhibit A - on his menu

ing in price from \$3.50 to just \$1.25.

The same goes for the famous Tino Pizza for there are fourteen styles, count 'em, ranging from a modest \$.90 to \$1.50 for a "small" one to \$1.50 to \$2.30 for the super deluxe.

Always a family concern, Tino's takes pride in the freshness as well as flavor of its foods as they make all of their pizza ingredients from the dough to a secret sauce. And when 700 to 1000 pizzas leave their ovens weekly, you can bet someone is satisfied.

To go along with all of this they've got an authentic Italian atmosphere and accompanying imported beverages. With free parking facilities and its nearby location, what are ya waitin' for? For you late eaters they're open til 2 a.m., weekdays and til 2:30 a.m. on weekends, P. S. Even though Tino's does not deliver he does offer a complete take out service so keep the following numbers handy: GR 1-9458, GR 1-9446.

Make this first weekend a good one and we'll see ya down at Tino's enjoying some fine eatin' and celebratin' our Oregon victory! OK?

# ISO Institutes Special Program

(Continued from Page 1)  
At 1 p.m. the new students will convene in Thornden Park where they will partake in a mixer-picnic. All students are invited to join the picnic and meet and get to know the new international students.

"We are counting on the co-operation of the American students to make these affairs a success," Irani said. "We especially hope they will attend Friday's convocation and Saturday's picnic," he continued.

At 2 p.m. Sunday the new students will tour the Lowe Art Center and then attend a concert at Crouse College.

The Orientation Weekend for International students will conclude Monday evening with a Chancellor's reception in Maxwell at 7:30. Chancellor William P. Tolley will address the new students at this time.

"We certainly hope," Irani said, "that this Weekend will help to alleviate many of the difficulties new international students first encounter on this campus."

"There are more international students on campus now than there has been in a long time," Irani continued, "and we hope

this Weekend is extremely successful and marks the beginning of a new tradition at Syracuse."

## Communists Hold Hill Sophomore In East Germany

(Continued from Page 1)

Press International after his release by the Communists.

"We (Steven Scharfstein, a sophomore at Dartmouth was accompanying Ross) were taken to an unmarked police station somewhere in East Berlin and put in a locked room with a jack-booted German policeman with a ready revolver to keep us company," Ross said.

The two college students were then searched and their possessions taken away including their camera. Since none of the Communist police spoke English, Ross and his companion were moved to another part of the building where a special English speaking interrogator was waiting for the two boys.

Paul and his friend were placed in a room with several other people under "surveillance." Several looked like fellow Americans. "They took all the information they could from us," Paul remembers, "and they separated us before being called for a 'private' session with the English speaking intelligence officer.

"Every spy movie I have ever seen came back to mind," Paul recalls, "as I was led into a dark room with one chair at the end of a wide table." The questioner started by asking why Paul took photos in "troubled times like these."

Syracuse University entered the discussion when the questioner asked where Paul attended school. Paul tried to explain to the Communist that he was too young to be a spy and that the photographs were just for pleasure.

The explanation must have worked for five minutes after his "debate" with the interrogator Ross and Scharfstein were placed on a train back to West Berlin with their camera but minus the film.

Paul told his harrowing tale to a member of the United States counter intelligence agency in West Berlin and he was reminded by the man that his close brush with the Communist could have been more serious since the U. S. does not maintain diplomatic relations with East Germany and advises the Americans not to travel in Communist Germany.

## New Cit Format Includes Lecture, Extra Reading

(Continued from Page 1)

Man," pertaining to the first booklet, "Man and the State."

Due to the weekly Deanalley in the folkly series, Professor Sawyer, who will discuss "Western Man in a Non-Western World," and Prof. Jesse Burkhead, of the Economics Department, to speak on "Some Economic Considerations of Man and the State."

Three Speakers to Discuss

The next three speakers will deal with topics related to the second pamphlet in the Citizenship series. Dean Cope of the College of Liberal Arts will describe "The Political Participant," Assistant Professor Registrar of the Political Science Department will lecture on "Private Government and Public Government," while Dean of the College of Liberal Arts, Eric H. Faigle, will speak on the "Political Man on the Campus."

Speakers are at present being selected for the last three booklets in the course series, "Civil Liberties," "Conflicting Loyalties," and "Public Policy and Industrial Society."

Future speakers to appear in the evening series include Dr. Harold Taylor, former president of Swarthmore College, Clinton Rossiter of Cornell University and Sen. Jacob Javits of New York State.

Also due to speak are Isadore Rabi, Nobel Prize winning physicist, and Max Lerner, author and critic.

The first of the paperback works designed to supplement the pamphlet series is "Darkness at Noon," dealing with several persons' views of Communism after they quit the movement.

Future development of the course is being planned by a Maxwell interdepartmental committee headed by Dean Stuart Bailey, appointed Dean following the resignation of Harlan S. Cleveland, now with the State Department, and under President John F. Kennedy.

## Frosh Have Some Gripes On 'Week'

(Continued from Page 1)

which were scheduled at 10 a.m. and 3:30 p.m. Tuesday.

Several freshmen coeds said they wished that their Goons had made more of an effort to introduce them to frosh mixer. Along the same lines, frosh men complained that the two frosh mixers were more of an opportunity for upperclassmen than for them to meet the freshmen girls.

However, the coeds said they weren't very happy about the way in which the Goons "shoved them together with the guys" at the mixers.

Frank W. Commission member Margaret (Molly) Corbett, in charge of the Goon Squad, said that freshmen do not realize the Goons try to help them meet people and that the "shoving" pays off in the long run.

She added that the busy orientation schedule was a case of hectic college life for the frosh, and that it would help them learn to budget their time wisely.

"Although," sighed Mela Solomon of Stamford, "while the Goons were full of pep, the freshmen got tired from all the running around."

Freshmen criticized the registration proceedings as much as they praised the Goons. Many said that a two or three day registration period would have been better.

Some frosh spent from three to eight hours standing in lines as registrars checked out identification vouchers and have ID card pictures taken.

Barbara Klein of Newton, N.J. said that the busy four day schedule "encouraged homesickness." "We didn't have a minute to ourselves, no time to relax in our rooms or get acquainted," she complained.

The study convocations on Tuesday were especially appreciated by the newcomers.

Warren Kindsman, assistant dean of men, said the orientation program appeared to him to have been very healthy.

Traditions Commission President Sten Dugan said parents of entering freshmen had reacted very favorably to the warm welcome extended the newcomers by orientation personnel.

## Dr. Ely Selected Commission Head

Director of the Audio-Visual Center at Syracuse University, Dr. Donald P. Ely, has been selected chairman of a national commission on definition and terminology of the audiovisual field.

The commission will operate as a major part of the Technological Development Project of the National Education Association. Funds have been granted through the National Defense Education Act for completion of the study. The publication of a monograph defining the field and establishing its terminology will culminate the commission's activity.

### Thomas Speaks On Berlin Crisis

By ALAN G. MILLSTEIN  
Norman Thomas, the 76-year-old political leader of the Socialist Party in America since the 1920's, will outline the possibilities for escape from thermonuclear disaster to Syracuse University at 4 p.m. Tuesday in Hendricks Chapel.

Thomas, "Mr. Socialist" to millions of Americans and considered one of the most important public figures of our time, will be visiting Syracuse under the sponsorship of the Syracuse Peace Council. The six times candidate for president on the Socialist ticket will also speak at a luncheon given by the Syracuse University Press to kick off the publication this fall of a new book, "Norman Thomas, Respectable Rebel," authored by Murray D. Seidler.

**Six Times Candidate**  
As a candidate for president more times than any other man in history, Thomas found success in seeing many of his proposed socialist measures incorporated into the programs of ruling administrations even though he failed to bring his third-party movement to power.

After arriving tonight in Syracuse from his home in New York City, Thomas will address a meeting of the Syracuse Peace Council at 8 p.m. at University Methodist Church, East Genesee St. and University Avenue. Mr. Thomas will speak on "Chances for peace" which will include his ideas for solutions to the present Berlin crisis. The meeting is open to the public.

**SDS Sponsor**  
The Syracuse University chapter of Students for Democratic Societies is sponsoring Thomas' address on campus Tuesday afternoon in Hendricks Chapel.

This is the second visit to SU for Mr. Thomas in less than two years. His last appearance on campus was also sponsored by S.D.S. and at that time he discussed the dangers of America turning into a "Garrison state."

Murray Seidler's new book on Norman Thomas will be published in late October by the SU Press. Seidler is at present an Associate Professor of Political Science at Wayne State University. In preparation for the volume Mr. Seidler made use of extensive unpublished material relevant to the political leadership of Thomas and to the history of the Socialist Party.

Before going to Wayne State, Mr. Seidler received a D.S.S. de-

### Fulbright Grant Applications Due By November 1

Applications for present seniors or graduate students who desire United States government grants for study abroad beginning in Sept. 1962 should be obtained immediately from Director of Financial Aids Jim G. Carleton.

Carleton, who is acting as Fulbright Program Advisor on the SU campus, explained that the deadline is Nov. 1, and that there are many pages to be filled out.

"These opportunities are very competitive and offer the best opportunity to study abroad," stated Carleton, who went on to mention that he will be glad to discuss with anyone the details of study or the procedure for application.

His office is in 307 Administration Building.

### SU Officials See Little Change In JSG Organization

By KEN NORWICK  
Ted Clark's resignation as president of Joint Student Government will have little effect on the status of student government on campus, administration officials indicated Friday.

The officials stated, in fact, that they expected student government to continue to grow in stature and responsibility.

In terms of the Clark incident "unfortunate" and "regrettable," the university personnel agreed that there was no reason to lose faith in or curtail student government activities.

University vice-president Eric H. Faigle issued the following statement concerning the future of student government:

"There has always been a strong student government at Syracuse University and I hope it will continue to be even stronger. In the life of any organization there may be events that prove disruptive to normal procedures but it is at that time we bend every effort to strengthen the fibre of that fine organization."

First J. S. G. Head  
Clark was the first president of the Joint Student Government, which came into being last year. In the past men's and women's government were separate entities each with its own leaders and organizations. In Clark's inaugural address last spring he stated that the formation of JSG represented a "new frontier in student government."

Dean of Men Earle Clifford stated that the administration has "every confidence" in Elizabeth (Betsy) Evans, the new president of JSG, and commented that "when a different personality assumes the helm of an organization."  
(Continued on Page 8)

### VP Betsy Evans Assumes Duties

By SAM GIRGUS  
Ted Clark resigned as president of Joint Student Government early Friday morning. Miss Elizabeth (Betsy) Evans, former student government vice president, now will assume the position of JSG president.

The student government constitution calls for the vice president's immediate ascendency to the presidency in the event of the president's inability to hold that office.

### JSG Leader Asks for Total Co-operation

By REA TURET  
After a day of exhausting conferences, discussions and emotional strain, a near tearful Betsy Evans said: "This has been an awful week. Ted and I have worked together in trying to make student government at Syracuse University something we can all be proud of and it will be hard to compare the leadership he has provided in the past."

After hearing the news of Ted Clark's dismissal as Joint Student Government president, Miss Evans spent a whole morning in discussion with administrative leaders and personnel.

"It's very unfortunate because Ted was devoted to J. S. G. and has done an excellent job as J. S. G. president. The philosophy and aims of Joint Student Government remain and we will try our best to represent the students."

When asked if being a girl would be of any great disadvantage, she answered, "It could. However, I sincerely hope that all the students at Syracuse University will realize that the im-"  
(Continued on Page 8)

### BLOCK TIX AVAILABLE

All applications for reserved seating for the West Virginia football game are due tomorrow, from 3:00 to 5:00 p.m. in the Trophy Room at the Men's Gym. Groups wishing a block must submit a petition containing the name of their organization, the president of the organization, the names of its members, and the number of seats requested.

### Jewish Holiday Begins Sunday

A Sukkos festival program will be held at 6:15 p.m. Sunday, October 1 in Chapel House. In celebration of the eight-day holiday, Hill students, under the direction of Cantor Walter Berman, chairman, have built a symbolic Sukkoh or booth on the lawn south of Hendricks Chapel.

According to tradition, the Jews, as the Israelites in the Desert for forty years after the exodus from Egypt. The booth is open to all and thus is a symbol of God's providence and His divine protection.

In Jewish tradition, the booth is known as a temporary abode symbolizing man's a temporary abode on this earth. Decorated with fruits and vegetables, the festival holiday is also associated with the idea of Harvest and Thanksgiving.

### Holmes Sees 2-Way Exchange Between US, Foreign Students

By NITA KAMM  
"An international exchange of students can be a two way learning process," stressed Charles Holmes, Assistant Dean of Liberal Arts in his address to Syracuse International students Friday.

Speaking to a convocation of new international students on the first of a four day orientation week, Dean Holmes explained that Americans could learn a great deal about our "existing" problems of prejudice and discrimination through first hand experiences with foreign students.

While often giving the American student new values on the

importance of education, the International student also causes Americans to learn more about their own life and culture through the explanations they give their guests, the dean emphasized.

Elaborating on the tense and serious state of the struggle between the two major world powers, Dean Holmes said that in intercultural relations built primarily through individuals, secondly through groups.

He told the students that only through meeting, knowing and working with students of different cultures could the beginning of this harmony come about. "The goal of common understanding—rather than misunderstanding—is something each of us—foreign and American—can most diligently work on in the

very near future if this world is to survive," concluded Dean Holmes.

Smith, Skinner Also Speak  
The program, designed to orient newly arrived foreign students, included addresses by Dr. Daniel Smith, of the religion department and advisor to the ISO, Don Skinner, director of Chapel House, Clean Dugan and Marli Gallagher of Traditions Commission and Sam Girgus, Editor-in-Chief of The Daily Orange. ISO president Tardaz Iovell acted as chairman.

Smith and Skinner discussed the informality of the American education system, stressing the difference from that of the European and Asian systems.

Skinner went on to explain the grading system, exams, and the  
(Continued on Page 6)

Clark was requested to resign by university officials as a result of his "involvement in conduct unbecoming that of a student leader." He has also been placed on disciplinary probation for one academic year and has been barred from participating in any student activities.

Clark's resignation and the university's punishment was a result of what Clark termed "my own foolishness and unwise public conduct, Friday morning."

"I'm ashamed of what I've done," he said, "I'm mostly ashamed of the position in which I placed the University and what a disappointment I must be to the many who look to me as president in the hope that we could make a better argument for student responsibility at Syracuse University."

Clark stressed, however, that his own personal failure should not be used to destroy the case he tried to make for the maturity and responsibility of the average student at Syracuse University.

"My failure as a student leader," he said, "should only be used now as an example of what a mistake any Syracuse student can make."

"In this case I certainly did not represent the body of students at Syracuse," he said.

Clark also wanted to express his appreciation for the help Dean Men Earle Clifford gave him early in the morning.

"Considering the position Dean Clifford was placed in, and considering the circumstances of the situation, I cannot express adequately how indebted I am to him," he said. "Dean Clifford was really a saint in the function."

Clark also openly discussed the problems that the new JSG President, Betsy Evans, will now face.

Betsy is a wonderful and exciting girl," he said. "She has been a great help to me as vice president and I cannot now think of anyone better to fill the position."

"I only feel terribly disappointed," he continued, "that I am leaving her in such an awkward position. I realize that I'm leaving her with a lot of work. The Hill student government now but I still would like to give her my advice and help I can until she gets set her in her role as president."

Clark and Miss Evans were elected to their student positions last March 15. Their election at that time was a landslide. Both people were in the position of students and administration alike.

This is the first year that both men and women's student government have been combined into one executive and one legislative body.

Dean of Men Earle Clifford issued the following statement concerning Clark's resignation: "Mr. Clark has been placed on disciplinary probation for one academic year. This disciplinary status is defined as restricting Mr. Clark's participation in student activities, and requires his resignation from all student leadership responsibilities. This action is taken as a result of Mr. Clark's involvement in conduct unbecoming that of a student leader."

## Ted Clark

Only on rare occasions will a story as sad as Ted Clark's hit a university campus. When it does it can only confuse and bewilder us all. Ted Clark was the epitome of what a college student is supposed to be. He has an exciting personality that makes him a natural leader. He is popular and the type of person that other people like to be around. More than that, Ted Clark has that rare ability of inspiring confidence in other people. One young student leader who was shaken over a sudden problem took it to Ted. After five minutes of talk with the former student government president all she could say was that "Ted makes you think that doing the impossible just requires a little bit more work." This is the kind of person Ted Clark is. He's a guy with big hopes and big ideals who was going to make over the Syracuse campus. He's an honor student and a political science major with ambitions of going on to law school. Someday most of his arguing will probably go on in U. S. Senate cloakrooms or the capitol building in Annapolis, Maryland. He's the kind of person administration and faculty people enjoy talking to because it gives them a certain faith in the work they are doing.

Because Ted has more and is more than the average person one cannot help but expect more from him. For three years Ted Clark was one of those people who accumulate a college record that is both excellent and exciting. But last week Ted made a mistake and he and all of Syracuse University is going to have to pay for his foolish and careless actions. Much of his important work may be forgotten as too many people remember the one time Ted acted like everybody else, for this is a right denied to those few of us who are exceptional.

But the story of Ted Clark, the first president of Joint Student Government, does not end at Syracuse University. Syracuse is just a beginning and you can't keep a guy with Ted's guts and ambition down for too long. The awful thing is that Ted's career of leadership on the Hill is over and it may very well be that Syracuse will, in the end, be the greater loser. He forgot his own motto: reason rationale and responsibility, and perhaps we can all learn something from that.

## Betsy

Miss Elizabeth Evans, better known as Betsy, is now the new president of Joint Student Government. She could not be assuming her new position under more adverse conditions or with more disadvantages. Student government is probably now in more disrepute and disarray than it has been for many years. It will be her job to make up for lost ground and try to inject new hope and energy into that organization. This undoubtedly will be a difficult task for her. As student government vice president she had become accustomed to following in Ted Clark's footsteps and now she will be breaking her own path and writing her own history.

Betsy has been described as a person who is "very determined" and "who will always finish a job she starts out to do". We think that this opportunity will not prove to be an exception to the rule and that she is probably more capable than anyone else on campus now to lead the student government out of its present fog. Perhaps her chief disadvantage is one from which it is impossible to escape. She's a woman and some of the more narrow minded among us may dislike taking orders from someone in skirts. But considering how little progress has been made in past years with male leadership, a woman at the helm may be just the thing that Syracuse student leadership really needs.

"This is the first time you've been away from home?"

— LEAL AND LOYAL —

# Debate Urged Despite 'Set' Hill Policies

By KEN NORWICK

In a recent Daily Orange interview with Dean of Men Earle Clifford, the new dean spoke out frankly and succinctly on the various aspects of his new position and the way he intends to handle them. In discussing these "mechanical" aspects of his job, Clifford left little doubt in this reporter's mind that he intends, in his words, "to be Dean of Men in fact as well as title" and to enforce administration policies consistently, with sound and intelligent judgment.

It would be difficult to argue with such sentiments, and I do not intend to. Indeed, I applaud and respect a man with such convictions.

I do disagree, however, with one of his comments regarding student opinion and certain, controversial, university policies. He said, in effect, that these policies are so "well set" in the university "image" and "personality" that it would be next to pointless for students to discuss and try to change them.

He indicated that it would be extremely difficult for such policies to be changed. And here is probably right.

### Intelligent Discussion

And yet, as unchangeable as these policies might be, I believe that intelligent discussion and expression of student opinion on these matters is of vital importance to the campus and serves to keep the administration awake and aware of student sentiment on such matters.

By "intelligent discussion and expression of opinion," it should be emphasized, I do not mean student rallies and mass protests. These, I think, hurt rather than help the student body in its attempts to communicate with the administration.

Instead, it seems to me, such discussion and expression should take place in the already existing representative student bodies. Indeed, what better place could there be

than the Joint Student Government legislative meetings for such discussions?

### Get To Work

And certainly the executive councils of each class, which are elected and appointed to represent and lead their respective classes, should canvass, evaluate, and consolidate the opinions of the students.

It is no secret that many students disagree violently with existing university policies concerning, to name but two, drinking and housing, but how many students support them? How many students actually feel that some university policies are indeed too lenient?

These questions should be asked, and answered, and soon. Certainly it seems ridiculous to label such administration policies as "unfair to students" or "against student interests" until student opinion is expressed and defined on them.

### A Student Position

And if, as is highly possible, student opinion proves to be strongly against these policies, at least the university will know where we stand.

True enough, such expression of student opinion will probably not automatically change these policies. But then, we have to start somewhere. City Hall can be fought, and defeated, but not overnight and not through angry student mobs representing a minority of student irrationally picketing and cursing the administration.

Not too long ago who would think a 43-year old millionaire Catholic could be elected president, and who would say that the once powerful Democratic bosses in New York City could be soundly defeated by a well-meaning but clearly inept "reform" politician.

The Daily Orange, through columns like this and editorials, can express the opinions of only a few Syracuse students. But if anything at all is to be done, or at least, begun, the opinions of a majority of students should be heard.

We elect class officers and senators to represent us and lead us, and this they try to do. There is no reason why they should not gather, discuss, and evaluate student opinion on some of the issues the students are most interested in.

## Confused, Worried Little Men May Turn the Tables

Those little men with caps as crowns  
 Confused by many different sounds,  
 Different scenes and different places  
 Strange surroundings with all new faces  
 Bewildered every way they turn.  
 Right or left? They never learn.  
 Right or left? They never learn.  
 Pushed and shoved for days on end  
 Rushing to classes they're late to attend.  
 Worried about those marks they'll get  
 Nervous about those girls they've met.  
 Someday, maybe they'll be okay.  
 Remember, we all once felt that way  
 Yes, those little men with caps as crowns  
 May one day wear those caps and gowns.  
 —Stan Rabinoff

# Faculty Art Exhibit Slated

The annual art show of the faculty of the School of Art will open Oct. 8 in the Lowe Art Center.

The exhibit will feature two or three works by each of the school's 40 faculty members. It will run through Nov. 5.

This show is the second to present the works of members of the School of Art.

The annual student exhibit, which concluded a four month showing yesterday, represented the works of outstanding students in the school. Works were chosen for that exhibit by the student's professors.

A very successful show, it resulted in many commissions and sales for participating students.

PRESENTS

# Chamber Music Ensemble to Hold 1st Concert Oct. 5

The Syracuse Friends of Chamber Music, featuring the Krasner Chamber Music Ensemble, will open its 12th season with the first of five concerts at 8:30 p.m., Oct. 5 at the Everson Museum of Art.

The first concert will present String Quartet, No. 15, by Carl George; String Quartet, Op. 59, No. 3 by Beethoven and Quintet for Piano and Strings by Brahms. Pianist Sam Lombardi will be the guest artist.

Performers during the season will include guest artists John Oberbrunner, flute; Courtenay Cauble, oboe; Olin Johnson, bass; Carol McDougal, alto and Anthony De Angelis, bassoon.

Two special attractions are also planned. They are the New York Pro Musica, a vocal and instrumental group and composer-conductor Gunther Schuller.

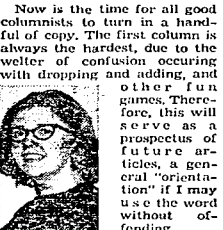

Schuller will bring jazz artists from New York to play his compositions with the Krasner Chamber Ensemble, in addition to conducting standard works.

Season tickets are \$4 for students and \$8 regularly. Prices for individual concerts vary. Season tickets may be purchased at the Clark Music Co., Onondaga Music Co., Olmsted's, the Council of Cultural Agencies office and the English Department office.

# TV Columnist Gives Season Prospectus

— UP IN THE AIR —

By JAN GRIFFIN

Now is the time for all good columnists to turn in a handful of copy. The first column is always the hardest, due to the welter of confusion occurring with dropping and adding, and other fun games. Therefore, this will serve as a prospectus of future articles, a general "orientation" if I may use the word without offending.

To begin, I do not care where Richard Boone was born nor is space devoted to Troy Donizue's rise to fame and fortune. I rarely review single programs, unless they are exceptionally good. I do not give warning of their approach, however.

What I do write about, to turn to a more positive frame of mind, is broadcasting, the most powerful civilian weapon we possess, second only to the IBM machine.

As a broadcasting major, I have the opportunity to read, and talk to by and meet women who form, build, tear down and manipulate the broadcasting industry. They are important people. They control much of the mind and emotion of America, and will appear in this space.

Also appearing here will be the ranting and raving of someone who does part of her homework in front of a television set, and finds it often as painful as reading a few issues of Vital Speeches. It isn't play, anymore than being in Forestry means hiking and planting trees, or art just drawing pictures for four years.

Broadcasting is serious business, although the by-product ranges from the sublime to the ridiculous. This column is more concerned with the former, because college students are supposed to know — bad thing when they see it. One can not be sure they will know a good thing, because discomfoment sets in and people stop looking.

There is a lot of good viewing on television right now, and more to come. Advances in radio, especially FM are very encouraging. And in other ways, such as the Communist infiltration of Tran by radio, broadcasting is taking his place beside the print media as a world force to be reckoned with.

By KEN DARLING  
Sports Editor

"A typical season opener" was the general reaction of both the Syracuse and Oregon State coaching staffs, following the Orangemen's 19-8 victory over the Beavers Saturday in Portland's Multnomah Stadium.

Usual opening game jitters resulted in numerous fumbles by both squads. Two of the three Syracuse touchdowns were set up by Beaver fumbles. But the Hillmen also lost several other scoring opportunities when the elusive pigskin squirmed from the grasps of their ball carriers.

However, Piety coach Ben Schwartzwalder seemed satisfied with his team's overall performance. "We made a lot of mistakes," he admitted, "but it looks like this outfit will fit into a pretty fair ball club."

Sophs Need Experience

The Orange coach wasn't overly concerned with the errors made by second and third team sophomores. "All they need to come on strong is a little experience," he commented.

Although naturally disappointed over the outcome of the contest, Oregon State's Tommy Prothro said he "couldn't feel too bad" because "my kids gave a real effort" at upsetting the powerful easterners. He felt the possible key to the game was the constant pressure put on his star quarterback, Terry Baker, by the big, fast Syracuse interior linemen.

The alert Orange defense allowed the Beaver southpaw standout to complete only four passes for 31 yards.

Orange Air Attack

Surprisingly enough, it was the invaders from Piety Hill who enjoyed the most success via the air routes. With Dave Sarette connecting on six of seven tosses, the Hillmen compiled a team total of 10 completions in 15 attempts for 116 yards.

On the ground, the Oregon club had a decisive edge. Mainly through the efforts of Tom Gates, Bill Monk, Don Kasso, and Baker, the Beavers rolled up 215 yards rushing to only 160 for the Orangemen.

It was all-American Ernie Davis, with two touchdowns and 68 yards gained, who was again the big ground weapon for the winners. Pete Brokaw picked up 42 yards with some nifty runs.

No Oregon State Surprises

Although Prothro has been holding secret practices for several weeks, he unveiled no new offensive maneuvers Saturday afternoon. However, Schwartzwalder did say that some of Oregon State's defensive formations were unexpected.

The biggest offensive surprise of the day came when the Orangemen went into a double wing formation on several occasions. However, the move was not too successful as the double wing requires too long for plays to develop in the backfield. As Schwartzwalder commented after the game, the double wing was not effective with a runner like Davis. "Ernie is the type of runner who likes to slice through the line with no waiting in the backfield," Ben said.

Ben Likes Oregon

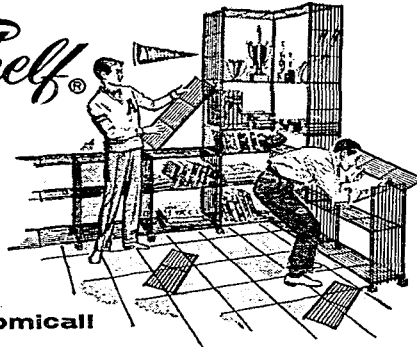

When a Portland reporter asked the Hill coach if he had enjoyed his stay in Oregon, Ben's comment was "Definitely." "We would like to come out here again sometime. Everyone has been very friendly. Often intersectional games are marked by tension, but the fans here have been great."

Apparently no serious injuries were suffered by the Piety grid-ders, although the hard-hitting contest took its toll in minor bruises and sore muscles.

## Just What You've Needed for Your Books!

# Erecta-Shelf

Design it yourself..  
To Fit Your Space  
and Needs

So easy... So economical!

Countless Units  
can be designed with  
these 4 PANEL SIZES

You don't have to be an engineering major to design and assemble your own bookcases, room-dividers, or TV and Hi-Fi units with Erecta-Shelf. It's fun... simple... practical and inexpensive!

By combining just 4 panel sizes in satin black or gleaming brass wrought iron, there's no limit to the number of arrangements you can design to fit your space and needs. Note that straight panels can be used horizontally or vertically... and horizontal panels may be attached at any desired height on the vertical panels.

### EASY TO ADD TO OR TAKE APART

Anytime you wish to make your unit taller, longer or deeper simply add more Erecta-Shelf panels... or change the arrangement completely. It's a cinch to disassemble for moving too. Plan your unit (we'll help you if you wish) and come in for your Erecta-Shelf panels and free detailed brochure.

### ERECTA-SHELF PRICE LIST

# Grieve Starts 16th Year As Cross-Country Coach

By MEL HONIG

The Syracuse cross-country team will be in the hands of coach Bob Grieve for the sixteenth consecutive year when they open against Colgate Oct. 7.

Grieve's contingent of harriers, including captain Joe Francello, the only other senior, and juniors Mike Guzman, Dwight Rogers and Mike McGuire.

Moving up from last year's undefeated freshman squad are sophomores Bob Brown, Mouncey Ferguson, Jack Dailey and Steve Killorin.

The team's success this season may very well rest upon the performances of these sophomores. In their senior years of high school Dailey and Killorin captured state championships, Dailey in class B and Killorin in class A.

Last year's squad finished with a 3-2 record for five dual meets with losses coming at the hands of West Point and Cornell. In the Cornell meet the Orange harriers lost by one point, 27-28. This marked the first time in five years that Syracuse had lost a meet to Cornell.

Last season's victories came at

the expense of Buffalo, 15-50; Colgate, 15-48; and Fordham, 24-31. In cross-country the team with the lower score is the winner. A perfect score is 15-50. To attain this score, a team must place seven runners in the first seven positions of finish.

Now in his 16th season, Grieve will be trying to better his lifetime coaching mark of 60-12 in this year's five dual meet schedule. Home contests are against Colgate and Cornell. The harriers will visit West Point, Buffalo and Fordham in other meets.

The season climaxes with the ICA meet in New York City Nov. 20, followed by the NCAA

meet Nov. 27.

Looking forward to the Colgate opener Grieve committed himself by predicting that his harriers would again whitewash the Red Raiders from Colgate by taking the first seven places.

The harriers have shutout Colgate in six of their last eight meets and have defeated them 35 times in their 38-year old rivalry.

A disciple of Grieve's is coach of the Raider team, Jack Werner, a 1951 Syracuse grad, will be piloting his squad against his old tutor.

Grieve is in need of recruits for the freshman team and has asked any interested frosh to contact him in his office located in Archbold Gymnasium.

## Fencing Coach Calls for Frosh

Alexander Dako, Syracuse fencing coach, has asked freshmen interested in trying out for the freshman fencing team to come to a meeting this afternoon at 4:30 in the fencing room of Archbold Gymnasium.

Dako pointed out that previous experience isn't needed to become a member of the team. The freshmen usually carry a squad of from six to ten men.

The varsity will also begin practice this week in preparation for the opening of the season late in November.

## WHAT PRICE VALUE?

A car's value can't be measured by its price alone... for unproven innovations and expensive experiments in design can cost the buyer far more than their value may be worth. And, "cutting corners" to reduce price can cut into value, too! That's why Porsche's brilliant heritage of engineering firsts—from its air-cooled rear engine to its torsion bar suspension—makes it the real value buy in the sports car field. Performance-proven features that pay-off in more real driving pleasure every mile you drive. For the whole story come in for a demonstration drive—and discover for yourself why we say "All it shares with other cars is the road!"

# Betsy Evans Gets Praise

By JEANNIE RANOV  
Junior Editor

"She is a girl with great personality and charm . . . she has genuine ability and gets along with people especially well!"

This was praise offered by Elmira Congressman Howard Robinson on learning that Elizabeth (Betsy) Evans will take over the post of Joint Student Government president.

Miss Evans worked for Rep. Robinson in Washington, D. C. this summer, doing clerical and research work.

"We are delighted to hear that Betsy will have this great honor," Robinson said. Others in his Washington office who worked with Miss Evans cited her initiative and inventiveness and wished her well.

"Betsy is the most gung - ho girl I've ever known," declared senior Sloane Dugan, who has worked with her on various campus activities.

"She is natural and unaffected," said Dugan, "and an extremely capable worker."

Miss Evans' Kappa Alpha Theta sorority sisters agreed with his first point. "She's such a lively girl," said one, "you always know when she's around the house - when we have water-

fights." "Yes," laughed another sister, "she usually starts them." But the Theta's don't see too much of their busy sister. She wears heels more than sneakers as she must attend many important meetings with university administrators.

"She's always out of the house," said one sister. "She has a finger in everything."

Many favorable adjectives were applied to the new president's personality and character. "She's a very outgoing person" . . . she's easy to talk to . . . "a very sympathetic girl."

Another of her sisters characterized Miss Evans as "very determined." "She will always finish a job she starts out to do." "Betsy does study," a sister said, "but she's not always on the books. She studies in a consistent and organized fashion." Miss Evans maintains a 2.4 cumulative average.

According to her sisters, when she isn't at meetings, the first coed president of JSG is eating. "She loves to eat," they said, "but all the girls are jealous because she never gains a single ounce."

Slim, blue-eyed Miss Evans is addicted to shirt-dresses. "She has hundreds of them; her favorite colors are red, blue, and brown or beige."

BETSY EVANS

When she has time," her sisters said, "she likes to play bridge, but she's always busy."

Her summer job saw Miss Evans on the Washington scene for the second time. In June 1960 she participated in the still

# Ted Clark Known As Hard Worker

Ted Clark, who resigned as president of Joint Student Government on Friday, is known as a hard worker who demanded a lot from the people working under him.

Clark, who first ventured into politics as a high school student, held other positions at SU before being elected the first president of the JSG. At the time of his election Ted was president of the junior class and he sat in Joint Student Legislature for two years.

A man who plans to seek political office some day, Clark described himself as a "Rockefeller Republican."

Clark, a former secretary, senator, and scholarship recipient

for his fraternity, has been given a distinctive nickname in the house: "JDM" knows everything," said one admiring fraternity brother last spring.

As fraternity scholarship chairman he was known for "pushing people for averages," not an easy job in a house which had no emphasized academics, one house officer said.

A resident of Ilwaco, Md., Clark reads the New York Times daily and boasts a sizeable library.

# Collins Appointed Attending Doctor

Dr. Robert J. Collins has been named attending physician for the university Student Health Service and associate professor in the Department of Health and Preventive Medicine.

Dr. Collins received his B.A. degree from Syracuse in 1938 and graduated from the university's College of Medicine in 1942. During World War Two he served with the U. S. Army Medical Corps.

# Students and Faculty

# Thomas Speaks

(Continued from Page 1)  
gree from Syracuse University. The Syracuse University Bookstore will have order forms for reserved copies of the new book and will distribute them after his address in Hendricks Chapel.

"Successful Failure"  
Thomas, many times called the "successful failure," came to prominence as a political leader when he took over leadership of the Socialist Party from Eugene Debs and Morris Hillquit.

Before entering politics actively, Thomas had studied at Princeton and the Union Theo-

logical Seminary. He holds a doctorate from Princeton. For many years Thomas was the minister of the famed Brick Presbyterian and East Harlem Churches in New York City.

A long time leader of the League for Industrial Democracy and a one-time associate editor of "The Nation" magazine, Mr. Thomas in recent years has been very active in the leadership of the Americans for a Sane Nuclear Policy. Always a champion for civil rights, Thomas is one of the founders of the American Civil Liberties Union.

# JSG Leader Asks for Total Co-operation

(Continued from Page 1)

partant issue is not who's leading student government, but J. S. G. itself.

"Student government can only be as good as its members. I hope that we can all work together with an added incentive and an even greater desire to place student government in its rightful position at Syracuse."

### No Solution

No solution has been reached as to what would happen with the election of another vice-president. "Because of the peculiar situation that we are now placed, because neither the student government nor the constitution has ever been faced with a problem of this nature, it will be difficult to determine the final shape of this year's student officers."

Because of the surprise and the shock of the incident, they cannot envision any drastic changes in the program.

"I appeal for support from the student at this difficult juncture of student government." She depends on the entire student body to give their support and show their friendship. One of the ways that they can show their support is through participation of J. S. G. activities.

### Plans

The exact plans of J. S. G. for the coming year will be decided at the Pinebrook Conference. This is held October 6th through 8th.

"It is an off-campus conference held early in October at which time students, faculty and administration meet in the informal atmosphere to discuss common aims for the university."

The areas for discussion at Pinebrook include: student unity and moral academic atmosphere, communications, government social regulations, and university social regulations.

The people who are attending Pinebrook include J. S. G. officers, Chancellor Tolley, Dean Faigle, Dean Hater, Dean Clifford, Dean Smith, plus numerous other administration and faculty representatives representing a wide range of university facets," explained Betsy.

Lee Peterson, president of the Junior class, and Carolyn Barci, chairman of Syracuse University Advisory Council, are serving as co-chairmen of Pinebrook.

# Syracuse School Of Social Work Gets 2 Grants

Recently re-accredited, the School of Social Work has received two grants, amounting to \$21,707 from the Office of Vocational Rehabilitation, Washington, D. C. and \$36,287 from the National Institute of Mental Health.

The Washington grant will support a field work unit at the University Hospital's Rehabilitation Center and will include four traineeships.

The NMH grant will enable the school to continue plans and development for a training unit in collaboration with the Syracuse Psychiatric Hospital.

The school, which was first accredited in 1958, was established with the aid of a \$143,260 grant. Funds from the grant were used to provide financial aid to many full time students, expand the school library and increase the school's faculty.

The Social Work School provides an outlet for those who wish to devote time to child welfare agencies, parole and probation boards and administrative jobs in hospitals.

An estimated 75 full-time students will attend during the 1961-1962 academic year.

# SU Officials See Little Change In JSG Organization

(Continued from Page 1)

ganization, it is likely that the direction of the organization will be shaped differently."

He indicated, however, that it is still too early to evaluate what changes might take place. He stated that it was too early to assess the direction of the Clark administration, much less the new one of Miss Evans.

Clifford said that the decision calling for Clark's resignation "pops us up the standard of conduct that is expected of our student leaders."

### Follow Policies

"Along with the responsibilities of student leadership," Clifford continued, "student leaders have the responsibility to abide all university policies."

Dean of Women Marjorie C. Smith stated that there would be no change in the nature of student government as a result of Clark's resignation. She said that there is ample leadership on campus to continue the functioning of student government organization.

Dea Smith indicated that the administration will continue to delegate responsibility to student government in the managing of many student affairs.

The administration officials said that they were "surprised" at and regretted the Clark incident. Vice President Faigle said he "felt very sorry for the young man (Clark)."

Dean Clifford, who was a member of the administrative body that requested Clark's resignation, stated that "when student leaders fail to conduct themselves properly, disciplinary action becomes necessary."

### SU Chorus

The Syracuse University Chorus will meet at 7 p.m. tomorrow in 407 Hall of Languages. All students, faculty and staff interested in choral singing are invited.

Membership may be elected for one University hour or may be an extra-curricular activity. Prof. Frank Hatkinson is director of the Chorus.

# Bailey Explains Role of State

By JOHN LINDEROTH

The Preamble to the United States Constitution was employed by Dean Stephen K. Bailey of the Maxwell Graduate School of Citizenship and Public Affairs to explain the role of government in America.

Using the first great principle of the Constitution, that of a more perfect union, he stated that this meant a sense of that this simply meant a sense of community which is created among all members of a society.

"On the negative side of this question," Dean Bailey remarked, "This involves the resolution of conflicts which arise both with oneself and with others." "How would the problem of zoning be resolved with out governmental action?" he asked. "Simply by each person individually using a shotgun to obtain action," he went on.

On the positive side of helping form a more perfect union, Bailey pointed to the many government agencies such as the postal office, which aid the communication among the citizens.

He said that money was such items as a common currency which aid in the uniting of the people. He remarked that it is vital that he work through an agency such as the United Nations to achieve a similar union with all peoples of the world.

The task of establishing justice, was illustrated by the Dean by showing the need for settling conflicts without taking away personal liberties.

"Certainly in the Soviet Union, Nazi Germany and other areas, questions which arise are resolved, but what of the personal liberties which are lost as a result of the way they go about doing so?" he asked.

Under the realm of insuring domestic tranquility comes the elimination of the results of the terrors of life," Bailey explained. Helping this are the instruments of protection, such as police, fire departments, and civil defense," he went on.

The study of man and the state, topic of the first Citizenship in a booklet was futhered by Dean Bailey's remarks concerning the promotion of a common defense.

Explaining that eighty per cent of our federal budget goes for expenses in connection with past, present and future military conflicts in the world, he stated that the study of economics and psychology must go hand in hand with the study of government.

"At one time, if one was unemployed it was his own problem."

(Continued on Page 8)

## Stewart Named Studies Director

Dr. Robert C. Stewart, Professor of Educational Administration and Director of the Central New York Study Council, has been named director of the Division of Advanced Studies in the School of Education.

Dr. Stewart replaces Dr. Eric Gardner who recently resigned to become chairman of the Department of Psychology. Dr. Gardner will, however, continue his membership on the faculty of the School of Education. The new director of the Division of Advanced Studies will teach Courses in Educational Administration, and he will also continue his work for the New York Study Council.

## Sawyer Keynotes Freshmen Convo On JSG Functions

Prof. Michael O. Sawyer, the chairman of the Citizenship Department, will be the main speaker at the freshmen convocation on student government at 7:30 p.m. today in Hendricks Chapel. Sawyer will discuss his philosophy on student government and its purpose on the campus.

Elizabeth (Betsy) Evans, new president of Joint Student Government, will direct the convocation. In addition, Miss Evans will speak about her position and the responsibilities of student government.

The convocation is designed to give freshmen students an idea of how student government at Syracuse University is run and their role in it.

Dean of Women Marjorie C. Smith and Dean of Men Earle Clifford will also address the convocation on the place and the function of government on the Syracuse campus.

Michael Miller, a graduate student in the Syracuse Law School and one of the drafters of the present J.S.G. constitution, will discuss the form of the constitution and its application to the present working of student government.

By JAN SCHMITT

Syracuse students expressed confidence in Betsy Evans' ability to take over their reins of Joint Student Government, in a random poll taken yesterday.

They seemed to feel that there would be little change in J.S.G. policies even though ex-president Ted Clark was being replaced.

"When it comes necessary to adjust departments of leadership in any body, those showing the characteristics of a leader should be put into office and those showing habits unbecoming to a leader should be removed," was the opinion of freshman Glenn Eichelberger, a Syracusean. "Therefore, the move that has been made has been justified and the proper leadership asserted."

"The government will stay the same" said Bruce Worthan, a senior from Portland, Maine. "Betsy is perfectly capable of

## Thefts Force Chapel House Rules Change

An increasing number of thefts and other forms of vandalism has necessitated a new policy restricting use of the Chapel House, according to Director Don Skinner.

Several articles including money, a model ship and a painting belonging to the university were taken from the building at 711 Constock Avenue last semester, Skinner noted.

Because of this, Dean of Hendricks Chapel Charles Noble and chief of Student Services John Hafer decided it necessary to change the policy regarding use of the House.

All persons or groups desiring use of the Chapel House for meetings are now required to visit the Director's office to discuss arrangements and fill out a request form. This must be done at least one week in advance of the meeting date.

Students interested in studying at the Chapel House must follow the same procedure, but it will be possible, by consulting with Director Skinner, to reserve a study room on a regular basis. Those who reserve such a space and fail to appear, however, will lose their reservation, Skinner cautioned.

In another departure from previous procedure, Chapel House will be closed all day Saturday. This is being done in deference to Director and Mrs. Skinner. Chapel House is open from 8:30 a.m. to 10:30 p.m. Sunday through Thursday and 8:30 a.m. to midnight Friday.

Director Skinner holds office (Continued on Page 8)

By ADAIR DUFINE and BARBARA CORNBLETT

"You come to us as ambassadors of the best in your cultures . . . yours is a position of influence, responsibility and authority . . . for this we salute you as those being groomed for the general staff of the human race," said Chancellor William F. Tolley at the Convocation for International Students, Monday night, in Maxwell Auditorium.

The convocation climaxed a week of orientation for the 100 new foreign students that are matriculating on campus this semester.

Greeting the new students along with Chancellor Tolley were John S. Hafer, Dean of Personnel Administration and Dean of the International Students, George B. Cressey, Maxwell Professor of Geography, Elizabeth (Betsy) Evans, president of Joint Student Government and Tirunadurai Irani, president of ISO.

The main address of the evening was made by Dr. George B. Cressey, Maxwell professor of Geography and President of the World Council. Dr. Cressey stated that one of the great advantages of coming to a new country and university is adjustability. He stressed that each student should obtain a well-rounded view of American life. The International Student should visit American homes, farms and industries, while simultaneously budgeting his time so as to include maximum studying. Dr. Cressey stated that while the students should take full advantage of books, they should be prepared to challenge any contradictory ideas.

Dr. Cressey's second major point was that all students should understand that Syracuse University is a privately endowed institution completely independent of the Federal Government. Every member of the faculty has the right to think and teach as he pleases without objection to any outside influence.

Chancellor Tolley expressed his hope that the new international students would actively take part in University life.

Each and every foreign student is created unique and different and must not be considered the same, Tolley said. Chancellor Tolley stated that Syracuse University is rich in people, and faith, hope and love. He hoped that the International students would come to feel a sense of loyalty, affection and devotion to Syracuse University.

Betsy Evans, President of the Joint Student Government, warmly welcomed the students and invited them to participate in University life.

JOHN S. HAFER

## SU Receives Grant

An \$18,000 grant has been made to Syracuse University by the State Education Department to provide scholarships for elementary and junior high school teachers who wish to study science and mathematics.

Dr. Vincent J. Glennon, Professor of Education, announced that the receipt of the grant will improve the subject-matter background of these public, parochial and private school teachers.

# Students Support Miss Evans, Agree on Clark Resignation

carrying out the policies which she and Ted put forth during the campaign. Ted should advise Betsy as much as possible," he continued. "He could be a great help to her in an advisory capacity."

Marilyn Loveland, class of '64, agreed with Worthan that there would not be any major changes in J.S.G. If Betsy was good enough to be elected vice-president, she must have had some worthwhile ideas she said. Miss Loveland thought that Betsy would carry on the policies that she and Clark had formulated during the campaign for J.S.G. president and that for this reason there would only "be a few minor changes."

Betsy "ought to be able to handle it very well," was the opinion of Barbara Epstein and Barry Lewis, both of the class of '64 and from Syracuse. "As long as she has co-operation, everything will be fine."

Tom Willard, Two graduate students, Mar-

jorie Kester and F. Bernard Ford and of the Maxwell School, thought that "only time will tell" in the case of Miss Evans. "We will just have to see if she can do the job," they thought.

All those interviewed agreed that the university did the right thing in asking Clark to resign his post.

"The head of student government has to be an example to all the students on campus," said Ira Bakst '65.

"A student leader is not necessarily perfect," stated John Burgess, a senior from Mohawk, N. Y., "but he doesn't have a choice. If no action were taken against him, people would think twice about sending their children up here."

Resignation Only Right Arthur Berkoff, class of '65, from Elmont, N. Y. said that "Ted seemed to realize that his wrongdoings were not becoming of a university student, and that his resignation was the honorable (Continued on Page 8),

## Registration For Rushing Set This Week

Registration for upperclass sorority rushing will be held today, Wednesday and Thursday from 10 a.m. to 3 p.m. at the Panhellenic Office, 312 Women's Building.

A \$3 registration fee and 1.0 accumulative average are required from 10 a.m. to 3 p.m. Sorority rushing for upperclass women will be held October 6, 7 and 8.

Editor-in-Chief Sam B. Girgus  
Business Manager Andrew Levitt

## Student Government

It is encouraging that neither the administration nor the student body seems to have lost faith in the necessity of student government at Syracuse. Vice President Eric H. Faigle's comment on the situation is particularly hopeful. "There has always been a strong student government at Syracuse University and I hope it will continue to be even stronger," he said. "In the life of any organization there may be events that prove disruptive to normal procedures but it is at that time we bend every effort to strengthen the fibre of that fine organization."

There can be no doubt in any one's mind that "the fibre of that fine organization" does need strengthening. And the next few weeks will help to determine exactly what kind of fibre comprises Syracuse student government. For these next few weeks will prove to be a strong test of the will of all Syracusans to create an organization that is strong in itself and that can survive the duress of disruptive occurrences. It must be an organization that is greater than one single individual student leader. It must further be the kind of organization that is identifiable with the aspirations, needs and interests of all Syracuse students. For too long now Syracuse student government has consisted of one student leader in a quiet sojourn with an administrator while the rest of the campus goes grumbling by. This may be a good example of person diplomacy at its most futile level. The greatest result of such a meeting usually is that one student gets to know one administrator very well. But only rarely is anything permanent established. Only rarely does the average student get to feel that he played a part in this meeting of the hierarchy.

This is largely because once the student officer leaves the administrator's office, as soon as he has time to forget the friendly witticisms and cajoling remarks of the afternoon, he realizes that he has no place to go, except to another administrator's office. He comes to realize that most of his power, his authority and his responsibility were left behind in the chair he just vacated and that he can only re-assume his powers when he re-enters the office and once again sits down on his temporary throne. He has neither the necessary organization nor the machinery to which to turn. This is why Dean Faigle's statement calling for the strengthening of student government is so important and meaningful.

Needless to say, Dean of Men Earle Clifford will also be facing this problem. With his past record and his words avowing the need for strong student responsibility and the great need for adequate student government machinery, Hill student government actually may be facing its finest hours rather than its most desperate.

**By JEANNIE BANOV**  
The little scandal involving Ted Clark, which was reported in yesterday's paper, is about the most exciting thing that has happened in student government in some time. Matter of fact, when does anything exciting ever happen in student government? And who needs it?

One can get awfully tired of the whole student government campus activity routine, of the candidates who get up and make speeches at political conventions about class and campus unity.

That unity jazz is about the most time - worn joke on the Hill. If one is realistic about it, student government activity has two major reasons d'etre, which are never really admitted and one other reason, one which is the only one anyone ever mentions. This latter reason could have some real meaning if the problems that overwhelm it are ever cleared up.

### Practice

The first premise behind the alienated soup soup JSL, JSG, AWS - is that these activities give students opportunities for practice in governmental, political and society areas, which they may well enter in earnest after they leave college, lege.

During the campus election campaigns last March, a political "figure" was heard to say words to the effect of, "Leave us alone, don't bother us about issues; we're just kids playing games." A Daily Orange editorial immediately blasted this attitude as irresponsible.

It seems to us that the whole government set - up is largely a game. It is a game in which mistakes can be made with no serious consequences; it is an extension of the classroom, a laboratory course in practical politics.

### Why Be Pompous?

Why does it have to be taken so seriously? Why are so many of the participants so pompous about the whole deal?

They are learning how to cooperate with people. They are learning the rules of parliamentary procedure. They are learning poise and charm and good manners. They are learn-

ing how to play it clean and how to play it dirty.

But why do they have to let these lessons give them such a puff of pride in their own importance? More than one campus politico can be seen developing into the senatorial windbag he will become as an adult.

One reason for student governmental activity is to play games in preparation for the real thing.

### Prestige

Number two is prestige. Personal prestige, fraternity or sorority prestige.

In a Political Science lecture recently Prof. Blum mentioned the two principal motives that lead individuals into the political arena. One was a casual motive, whereby the individual enters into the field. The other was described as the power - seeking motive.

Government activity at SU is of course represented by the latter category.

Students who participate in government activities are, with a few exceptions, out to gain notice for themselves or their house. They volunteer for committees because it looks good, it gets their names in the paper. They run for offices because their house wants them to.

### Exec. Councils

Many bitter words have been exchanged concerning this problem. Last semester a freshman executive council member wrote a disgusted letter to the DO concerning the alleged unethical practices of certain fraternity interests on the campus.

Last semester a rather confused and uniformed freshman delivered a lengthy tirade to JSL also condemning such practices.

And these delightful toys, the political parties, are hopelessly bogged down, with houses only interested in getting their members put up for office.

### Tolerance

We are not here to condemn such practices. Sociology courses tend to make us extremely tolerant of various ethical points of view.

Let's be honest. The basic function of the governmental bodies is to perform clerical and other routine functions. (We'll talk about them as the "voice of the students" in a minute, so don't get excited about that omission.)

Now that WSG has been cut down to size as AWS, it is more obvious that minor, if necessary items such as curfew, signing out, campus and permissions are and should be that body's only concern.

### Valuable Help

It serves as a student extension of the Dean of Women's office, which is perfectly fine. The dean's office staff is busy enough; it is a good idea to have coeds helping out with matters that concern them so directly.

But all that is merely clerical

work, red tape. No inspiration of "unity" is necessary to AWS. Just people willing to work hard.

Now, JSL. Speakers of the august body care so little about the meetings that they neglect to reserve a room to hold them in for an entire year.

### Rivalries

Officers of the group are more concerned with their little personality conflicts with other members than with the business.

In a year's time JSL manages to ratify a few constitutions, like AWS, or say, the Yacht Club.

It manages to have letters sent out to this and that person or institution, condemning or praising this or that action.

These letters are usually thought up by the prestige - happy individuals mentioned previously.

### Responsibility Act

We are going to come under fire from certain people who will say, "What about the Student Responsibility Act? What about the work of the University Advisory Council, does?"

We reply, "Good for them - these are about the only worthwhile projects we can think of that JSL has accomplished." As for the voters' sake, why does it take such a big, prestige happy mob of people to accomplish these things.

We have attended USAC meetings. Because this group is small, composed of interested students and concerned with matters academic, they do pretty well.

And the Responsibility Act was, to think, a necessary piece of legislation.

### Real Work To

So the third reason given for JSL's existence is logically enough, that there is real work for it to do, that if we all "unite" and lend support there is a lot that can be accomplished with it.

We believe that there are a few real issues or problems that JSL can work on. There are enough, like the two mentioned above, however, to allow its existence to continue.

But JSL has not been and probably never will be the true expression of student opinions, "the student voice." This campus is too big, students' concerns are too varied for them to care much about the difficulties of many of the issues JSL works with.

### Monopoly

Just ask them. You will hear over and over the story "warce." They will reiterate that they are too busy with the far more real and important business of getting an education to care a whit for the life size Monopoly game that is Joint Student Legislature.

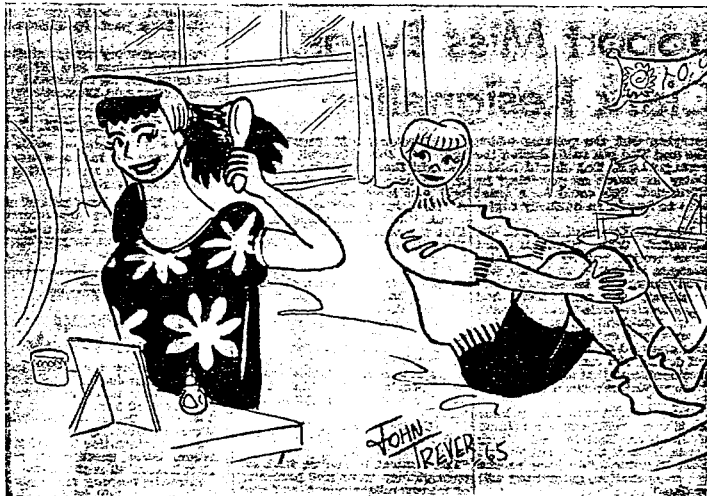

They really can't get excited about four class officers whose sole function is to decide which band should play and which theme will be followed for the class weekend.

And how many loyal Syracusans could tell you just what the Student Responsibility Act is, and how it concerns them?

Student government exists on this campus as a game and as a status symbol. It exists to perform routine clerical functions.

It is not the voice of our student body, but only an echo in a wilderness.

The talented students battling this wilderness could often better turn their leadership and organizational abilities elsewhere.

"I see why they call this an institution of higher learning. Today I learned the names and dorms of 10 upperclassmen."

# Eisenhower to Appear on TV Show

Former President Dwight D. Eisenhower will discuss the presidency at 10 p.m. Oct. 12 in the premiere of CBS Reports.

The program, entitled "Eisenhower and the Presidency," will be an informal interview at the

Eisenhower home in Gettysburg, Pa. CBS now a correspondent Walter Cronkite will be the interviewer.

The broadcast will be carried locally on WHEN-TV, Channel 8.

# 'China Court': A Well Done But Sentimental Romance

— FLIPPING PAGES —

**'CHINA COURT'** by Rumar Godden. The Viking Press, 1961, pp. 304 \$4.50.

The subtitle of this novel, "The Hours of a Country House," gives the reader immediate insight into the kind of book he is going to read.

This is a story of a Cornish house and the five generations of the family that built it, lived in it and plan to keep on doing so. The characters live their daily lives in the customary 19th century manner with their loves, troubles and foibles all exposed to the reader.

However, the author has been unable (or perhaps unwilling) to come up with anything of a new twist. This is a sentimental love story, with a historical view, and most of the characters are stock participants found in other books of this kind: the spinster sister; the husband who cheats on his beautiful wife; the two brothers, one wild and dashing, the other steady and good and so on.

### Professional Job

This is not to imply that this book is not a very professional job by an able story teller. Rumar Godden has just chosen this simple, sentimental story to apply her talent to.

The plot revolves around the attempts of the heir to the house to find the money necessary to keep and restore it. The relatives who thought the house would be left to them all think it should be sold.

Luckily, as the story unfolds, it is discovered that one ancestor had a passion for collecting ex-

pensive first editions (even though she had to cheat her own brother to do so) and these books are eventually discovered. Being very valuable, these will provide the necessary funds to retain China Court.

### Love Story

The love story is a love-at-first sight affair where the couple must marry, according to grand-mother's will, or lose everything.

The plot has the simplicity of the old-time melodramas—will the hero rescue the heroine from the railroad tracks before the train comes?

Everyone who picks up this Book-of-the-Month Club selection will know as the story unfolds that all will end happily, but that is just what he will want.

The technique used to project the past events is interesting because both past and present are interwoven, but it is sometimes difficult for the reader to separate the strands. Things, however, get easier as the book proceeds.

"China Court" is a well done, well-told, if a little sentimental romance which makes no pretense at being anything else. Don't look for any intellectualizing by the author; no where is the question of man's identity raised. But for the two or three hours it takes to read this novel, it really isn't missed. Readers who enjoy this type of book will find this one quite good. — E. S.

This book is available at the Lehigh Reading Room in the Women's Building.

— UP IN THE AIR —

## New Character Makes Debut On Disney's Season Opener

Walt Disney, last Sunday night, had the majority of his viewers drooling over something we couldn't see: color.

In the premier offering of "Walt Disney's Wonderful World of Color," on channel 3, Disney has a charming and strangely intelligible character (for a Disney ducky), Professor Ludwig Van Drake, discuss color. And while we didn't learn anything new about color, we do learn how nice it would be to see some of it on one of RCA's 17 new color sets.

Indeed, most of the Professor's half hour talk was devoted to telling us color — blind — set owners what each color was. But, when he began throwing his colors out at us in the form of musical similes, it became a bit exasperating, trying to guess which shade of gray was which shade of the spectrum.

But, the Prof., though slightly insane, was quite funny and we look forward to seeing more of him.

The second half of "Disney's Wonderful World etc. . ." was devoted to a trip through Mathematicsland. Donald Duck, still as

hard to understand as ever, was the intrepid math student.

He and the Spirit of Mathematics did tend to over-simplify math and such "scientific" things. They had Pythagoras almost inventing music, jazz and Greek temples, while co — authoring with God, all the geometric and mathematical perfections of the universe. (Disney's argument from design, maybe?)

But if Uncle Walt is only occasionally informative, he is most entertaining. And now that he is in color, he should be even more fun for those who have color sets, and most frustrating (for those who see things in black and white.)

J. E. G.

# Schwartzwalder Gains 99th College Victory

By **KEN DAILING**  
Sports Editor  
The long plane ride home from Oregon Sunday was, for the most part, quiet and uneventful for the Hill gridders. The prevailing attitude of the players seemed to

be "We had a job to do and we did it."  
Orange coach Ben Schwartzwalder, sitting near the back of the plane puffing on his ever-present cigar, didn't spend much time savoring his important

opening game victory. As the green hills and snow-capped mountains of Oregon passed beneath, Ben was already making plans for this Saturday's home opener against West Virginia.

Against his alma mater, the veteran Orange mentor will be shooting for his 100th victory as a college coach. Reminded of this fact after Saturday's game on the coast, Ben's comment was "I don't count them, just play them one at a time."

Schwartzwalder has been "playing them one at a time" for quite a while, and with great success. In his 13 years as head coach at Syracuse, he has compiled a record of 74 - 36 - 2, with a 26 - 4 slate over the past three seasons.

Ben's college coaching career began at Mühlenberg, where in three years his teams won 25 out of 30 contests. Then he moved to the Hill, and has molded the Orangeman into a football power, reaching the greatest possible heights with a record shattering national championship season in 1959.

Schwartzwalder's favorite offensive formation is an unbalanced T, which he derived himself. His line is always unbalanced either left or right, with flankers and counter - flankers being used in the backfield. He has added some slot - T plays this season, to give all - American Eric Davis "more running room."

Perhaps the key to Ben's great success is his philosophy of winning games: "It's not that playing's so good, it's just that losing's so horrible."

# Standout Hill Lineman

**DAVE MEGGESSY**, 210-lb. guard, was one of the standouts for the Hillmen in their 19-8 victory over Oregon State Saturday. The Solon, Ohio, jun'or was one of the interior linemen who kept Beaver quarterback Terry Baker off balance all day by rushing him on pass plays.

# Weekend Win Gives Edge To SU In East

With one week down and nine to go the Syracuse Orangemen have apparently moved slightly ahead of the Nittany Lions of Penn State in the battle for eastern football supremacy.

Typical of the reactions by sportswriters is that of the New York Herald - Tribune's Jesse Abramson.

"The Orangemen apparently whipped opposition more formidable than Navy", Saturday the story reads.

The two squads were rated almost even in most pre-season polls and the scores of their two ball games were just as close. Penn State topped Navy, 20 - 10 while the Orange did them one better by winning 19 - 8.

The biggest blow to Penn State was the loss of junior end Dave Robinson. The 220 - lb. Robinson was mentioned as a possible All - America choice and will be remembered for the fine game he played against Syracuse in his sophomore season.

Robinson was knocked out on the second half kickoff and his

dislocated shoulder may keep him out most of the season.

Abramson's comment on the Syracuse win was:

"Syracuse, just as big, strong and well-manned as the Nittany Lions was outtrushed by Oregon State at Portland, Oregon, but won commandingly, 19-8, by capitalizing on two fumbles, boosting Orange hopes for another season like 1959."

Penn State completely dominated the rishing yardage over Navy, 328 - 94, but were described as winning "narrowly and barely, 20 - 10, in the last quarter depressing Nittany stocks slightly."

This week the Orange have a relatively easy contest with West Virginia while the Nittany Lions tangle with Miami Friday night.

# Mountaineers Only Hill Foe To Lose

By DAVE DEAN

Associate Editor

Invading Archbold Stadium for the Orange home opener Saturday, the Mountaineers of West Virginia bring with them a winless streak which dates back to October 17, 1959.

Last weekend, the Virginians played their 17th consecutive game without a victory, dropping a 16 - 6 decision to Vanderbilt. The Mountaineers failed to move the ball, their only score coming on a 53 - yard runback of a pass interception.

In their season opener the week before, the West Virginia team scored profusely, but lost to Richmond by a 35 - 26 tally.

**Navy Surprises**  
A surprisingly strong Navy eleven held a 10 - 7 lead after 30 minutes, before succumbing to highly-touted Penn State by 20-10. The impetus for the win was provided by a pair of second-half field goals by Nittany halfback Don Jonas.

The 31 - and 25 - yard placements were the first ever kicked by the senior halfback. Navy had taken the lead on a 45 - yard field goal, the longest in Middle history by Greg Mather. Jonas also scored the first period Penn State touchdown and added two extra points for a total of 14 points, and led his team

in rushing with 71 yards in 17 carries.

**Darkhorse Shows**

Nebraska's Cornhuskers, seen as a darkhorse in the Big Eight Conference, opened their season Saturday with a 33 - 0 whitewash victory over North Dakota.

The Nebraskians scored at least once in every period, while the visitors couldn't penetrate beyond the hosts' 26 - yard line.

Despite the scoring potential the North Dakotans had shown in a 46 - 0 rout the week before, the Nebraska team taunted them with fourth - down pass plays.

**23 - 0 Shutout**

At Newton, Mass., senior quarterback George Van Cott tossed a pair of touchdown passes to lead Boston College to a 23 - 0 shutdown over Cincinnati.

Fullback Harry Crump led the BC running attack, scoring once on a 27 - yard run and earning a rushing total of 112 yards in 20 carries.

In the only other contest involving an Orange opponent, Maryland topped Southern Methodist University by a 14 - 6 score in the season opener for both teams.

Holy Cross, Colgate and Notre Dame will open their seasons weekend, while Pittsburgh drew a bye Saturday after an opening victory over Miami, 10 - 7.

## WAA Schedules Co-ed Events

The Women's Athletic Association began its schedule of activities on September 25 in the Women's Building. Hockey and fencing took place from 4-5:30 p.m. in gym A, and the Orange Splash took place from 4-5 p.m. at the pool.

Along with hockey on Tuesday will be competitive swimming at the pool from 4-5:30 p.m. An apprentice dance club will meet the same day for an hour starting at 4 p.m. in the studio.

On Thursday the Co-Ed Skish will spend the 4-5:30 p.m. period on the Gym B field. At night the Skishers will meet at the pool from 7:30-9:30 p.m. For the experienced dancers there will be the Production dance club.

Friday finds the tennis club on the Gym courts from 3-5 p.m. At the same time there will be archery on the field.

Along with these previously mentioned activities will be many others such as the Co-ed Sports Day on October 14. The annual bowling tournament will also be held in a few weeks.

### Girls Going Sports

For the first time in years Daily Orange staffers are having the unique experience of losing female writers to the Sports staff.

During the past week, DO editors have been going through the regularly expected difficulties of initiating new members into the ranks of the Hill press corps.

Usually the file of young writers break off into two main ranks, the guys going to the Sports department and the girls heading for the editorial section.

# Grants Available For European Study Program

Scholarships providing a full year of study in Europe are being offered to undergraduate students by the Institute of European Studies, a non-profit educational organization which specializes in overseas study for American college students.

The scholarships are granted for study at one of the Institute's three study centers, Vienna, Freiburg (West Germany) and Paris. They range in value from \$1,550 to \$2,350 and include transportation from New York, tuition, room and meals, language instruction, special courses and field study.

Students in the Vienna program will visit England, France, Germany, Belgium, Italy, Luxembourg, Spain and Switzerland. Those in the Freiburg program will visit Germany, Austria, Switzerland and Italy. Paris students will tour England, France, Belgium, Italy and Spain. These visits will be made in conjunction with the field study trips.

Liberal Arts courses will be offered at each center. Courses conducted in English for sophomore and juniors, will be given at Vienna and Paris. Freiburg courses will be taught in German and only juniors are eligible.

Applications and more information can be secured from the Institute of European Studies, 35 East Wacker Drive, Chicago 3, Illinois. February 7 is the deadline for all applications for the 1962-63 program.

# Better Education Object of Grants

Four universities in upstate New York, including Syracuse, are taking part in a broad program established by grants totaling almost \$2 million, designed to improve the quality of education in the United States.

One end of the program is the development of new methods of teacher preparation, persons moving into teaching after individual and block study in lieu of formal education courses.

Another objective of the studies is the preparation of school administrators, enabling them to exercise leadership under many situations.

Coordinator of the projects is William L. Irvine, dean of the University of Maine at Portland. Other universities taking part are Cornell, Rochester and Buffalo.

# Fill Hospital Position

Mrs. Florence Story has been appointed Director of Volunteers at the Syracuse University Hospital of the Good Shepheress.

She is the first person to occupy this post and will be responsible for coordinating and expanding the established volunteer activities as well as establishing new programs for the volunteers.

# THE SOCIAL SCENE with LARRY and BOB

There's going to be a new twist to social reporting this year, because LARRY and BOB have set out to find the unusual in party ideas for the social minded Syracusean (and who isn't?). All the effort is taken out of party planning when you check this column for themes, costumes, decorations, favors, and favors. We'll even be glad to stop by and see how your party's going. On that special occasion when an out of the way spot is irresistible, from time to time—upon their discovery by these dedicated searchers—we'll give you all the info. Here's the place to look for the campus social news and advance warning on the open weekend blasts.

The first party of the year is naturally a most important one—you know how impressionable some people are—and it's a chance for an unusual setting. Here's an idea! Start your season with an EAST BERLIN PARTY! Build a six foot concrete wall across your living room rug and borrow two tanks from the National Guard. Dance music will be provided by General Clay's Revival Quartet, and for variety, try running the border with your date.

After noting that your housemother's legs got badly cut up on the barbed wire, you might want to throw a tamer affair. We suggest a GOLD DUST PARTY. Trade in your dust at the door for a stack of chips and welcome to the wildest dance and gaming party this side of Vegas. As you walk in there's a choice of a Gay 90's Dance Hall or the "Lose Yer Loot" Casino. The Wheel of Fortune from M. Rosenthal Toy Co., as well as dice, card, and roulette tables, give you and your date an opportunity to win a voluminous, massive, towering sum of money (bogus). When the sheriff breaks up the party, trade in your winnings at the cashier for desirable, magnificent, grandiose favors (real). For the girls—an attractive "Fetty Cash" change compact, from Ruth's Gifts, on campus. For the men—personalized billfolds from Henry Frank Leather Co., 219 West Fayette Street.

Set the old time mood in the Casino with checkered tablecloths and candle light (to cheat by). An assorted cheese and cracker buffet should be close at hand for gamblers with hearty appetites. The committee artists can use their talents decorating paper walls with figures and scenes that take you back a hundred years. Honky Tonk piano, on record, supplies good winning background music for the action in the Casino, while you and your date rock to a swinging band in the gaily decorated Dance Hall. Here, the use of multi-colored crepe streamers and balloons adds to the Gay 90's effect. Allied Decorating Co., 1111 Erie Blvd., West, will supply all your 90's needs. The main decorations at the party will be you and your guests. Appropriate dress will be striped shirts, straw hats, loud vests, armbands and shades. Those old enough can add atmosphere with their curled, waxed moustaches. The suggested attire for the men is the same.

You'll find that our advertisers carry both the unusual and the necessary ingredients for a superlative party. We'd like you to patronize them, because finally, here's an opportunity to plan the best parties at prices well within your budget.

Well, Larry and Bob wish you a successful social season and we hope you'll be with us throughout the year picking up on our swinging social suggestions.

lem, or if he was uneducated, it was his own concern," he said. But today these individual problems are clearly those of a society as a whole and eliminating

## SU Grad Student Studies in Russia

A University graduate student is among 37 American graduate students and young faculty members who were chosen to study this year in the Soviet Union.

Donald Barry, a candidate for the Ph.D. in political science at the Maxwell School, left the U.S. early in September for the Moscow State University to study tort law.

Barry's appointment as an exchange student was announced by the Inter-University Committee on Travel Grants which administers the exchange of scholars between the United States and Russia.

In Moscow, Barry will be working on a comparative study of the way injury cases are distributed in the United States and in Russia, for his Ph.D. dissertation.

them provides for the general welfare, another concept set forth in the Constitution," he remarked.

"Then after all these are resolved, we still have one more topic to consider if we are to study government and its position in society," he explained, "This being the area of making the most of our liberty after we have obtained it and spent huge sums protecting it."

"This entails keeping the minds of men free from ideas radically different from those originally inculcated for the people to hold, only then can a government be said to really be doing its job," he concluded.

## Physics Lect Set

Dr. Philip Pincus will deliver a lecture on "Ferromagnetism" at a physics colloquium, 4 p.m. on Wednesday, 106 Steeple Hall. The lecture will follow a tea beginning at 3 p.m.

Dr. Pincus was last affiliated with the University of California where he earned his Ph.D. and wrote several papers on ferromagnetism.

He will leave soon for France where he will continue his research work.

FOLLOWING LAST NIGHT'S International Students Organization convention held in Maxwell Auditorium students and administrators gathered for a brief reception. From left to right are Molly Jo Siegel, Dr. George B. Cresney, Dorothy Gruvitz, Kamau Mwangi, Chancellor W. L. Tolley and Tirindaz Irani, ISO President. (Photo by Bruce Anspach)

thing to do. I hope to see more of the essence of his afterthoughts," he added, "but not as afterthoughts."

"It's too bad he had to make such a big mistake," said Mike Morgan, class of '65. "Everyone makes mistakes, and even though a person is in a high position, he can be easily swayed."

**Shouldn't Have Asked**  
It was expressed that Clark should have resigned his post immediately instead of waiting for the university to take action against him.

"They shouldn't have asked him," said Barbara Hoffman, '64, from Larchmont, N. Y. "After getting involved with the police, he should have resigned on his own."

"He was lucky he wasn't thrown out," stated a faculty member who wished to remain anonymous, "although both the boy and the university behaved splendidly in the aftermath."

"There was too much noise and publicity," said Robert Barker, a graduate student from Syracuse. He was upheld in his conviction by sophomore Ken Schwartz, who also felt that "the student government does not seem to be too powerful anyway, since the school has its own rules."

Sawyer Sees JSG Future

By JIM WELLER

"I have extravagant hopes of what will be accomplished by the Joint Student Government in the future," said Prof. Michael O. Sawyer, Chairman of the Citizenship Department.

Prof. Sawyer, accompanied by Dean of Men Earle Clifford, J. S. G. President Betsy Evans, and former Vice Pres. of the Men's Student Government, Mike Miller, addressed a Freshmen Convocation of J. S. G. members on the effect that their activities will have upon the future policies and effectiveness of the J. S. G.

Dr. Sawyer, the principal speaker of the evening, expressed his belief that an effective student government could exist if the following proposals were accepted by the administration and students: First, that the students accept the fact that "this is your university." Secondly, that "the principal purpose of a university is that of a place of learning and scholarship." And finally, Prof. Sawyer asked that the faculty and administration accept the "students as colleagues."

In conclusion, Dr. Sawyer intoned the Freshmen members of the JSG to "use this government as a foundation for greater things."

Dean of Men, Earle Clifford, while reaffirming the universities attitude toward the JSG, also repeated the comments of JSG Pres. Betsy Evans who said, "It is not what the university can do for you, it's what you can do for your university." Dean Clifford also added, "The JSG offers great potential for the progress of the student and the university."

Mr. Michael Miller, former Vice Pres. of the Men's Student Government, gave a brief resume on the events leading to the formation of the JSG. He pointed out that 26 years ago the JSG was a dream. In 1939, it had moved closer to reality with the framing of its constitution and that today, JSG was operating at the pulse of 9000 students.

Henry Norman To Address SU Young Democrats

Henry R. Norman, Democratic candidate for mayor of Syracuse, will address a meeting of the Syracuse University Young Democrats club at 4 p.m. today in Maxwell Auditorium. Young Democrats president Leslie Koye announced Monday.

The meeting will be the club's first of the academic year. Norman, a member of the Onondaga County Board of Supervisors, received the Democratic nomination after a hard-fought primary contest early this month.

Responsible For Victories Since his election to the Board in 1957, from the Sixth Ward, Minority Leader Norman has become the spokesman for his party in that body. He is credited with being responsible for the several unexpected Democratic victories in 1960 local elections.

Syracuse is traditionally a Republican stronghold.

Kennedy Counterpart "Henry Norman is Syracuse's counterpart to President Kennedy," Miss Koye commented, "that he is energetic, progressive and youthful. Also," she added, "he has a beautiful wife and a brother for campaign manager."

A native of Syracuse, the 32-year old Norman attended Eastwood High School and Maryland University. He was an honor student and president of his class in high school, college and law school.

In an article in last May's Syracuse 10, Richard Newman of the Maxwell School's Citizenship department, wrote of Norman:

"It is no secret that Norman has powerful assets: youth, integrity, courage, a strong platform, a beautiful Parisian wife, and the backing of some of the

Thomas Sees Kennedy Creating Fresh Hopes For Worldwide Peace

NORMAN THOMAS, 76-year-old elder statesman of the Socialist Party in the United States, addresses a large crowd in Hendricks Chapel Tuesday. The six-time candidate for President of the United States returned to Syracuse after a year's absence and urged students to rally around President Kennedy in the search for world peace. (Photo by Bruce Anspack)

By ALAN G. MILLSTEIN Norman Thomas urged the students of Syracuse University to rally around President Kennedy in the hope that the President's speech before the U. N. was a beginning in the search for world peace.

"We are fighting against a long tradition of war," Thomas said before a large crowd Tuesday in Hendricks Chapel, "and we have a difficult task in finding the alternatives to nuclear holocaust."

Mr. Thomas, the 76 year old elder statesman of the Socialist party in the U. S., reaffirmed his warning that America was drifting toward a garriean state. "In fact," he said, "in the two years that have lapsed since I made this warning we have made great progress towards the garriean state."

The garriean state is Thomas's reference to what he believes to be the military - industrial complex in the country, that is driving us closer to war and eventual destruction of the human race.

"You the students of this nation have the most to lose from nuclear war," Thomas reminded his audience, "but you have the right not to expect to be destroyed by war and therefore you must work to produce the leadership that will find peace."

Monday's speech by President John Kennedy before the United Nations drew praise from Mr. Thomas who felt there was new hope for peace in the President's references on several occasions for the necessity of world-wide disarmament.

In an earlier exclusive interview with the Daily Orange, Mr. Thomas refused to admit that the world situation is fatal and he preferred to hope that there was hope for peace through negotiations with the Russians.

The Berlin situation, Thomas said, is uncharacteristic of the way we handle crises when they arise in the world. "We are so committed through treaty and agreements," he said, "that any exercise of common sense by the President has the possibility of being labeled 'appeasement.'"

"It's preposterous for the U.S. to think that war resulting from the Berlin crisis could be considered a victory in any sense," Thomas added. The U.S. must cease to fear that the Russians fear a re-armed and reunited Germany, Thomas said.

"Therefore, the only real solution for Central Europe is demilitarization," he added.

Thomas warmly applauded (Continued on Page 8)

Russia Desires Peace: Thomas

As long as there is a United Nations there is hope that the United States can co-exist with Russia, Norman Thomas said in an exclusive interview with the Daily Orange.

Thomas, the 76-year-old former leader and chief theoretician of the Socialist Party in the U. S., believes that Khrushchev doesn't want a nuclear war at this time and the Russian people definitely don't want to suffer the consequences of another war.

"I do not consider the present

world situation to be fatal," Thomas said, "and I am very pleased with Kennedy's talk to the United Nations on Monday."

Kennedy made a significant statement when he called for a peace race instead of an arms race, Thomas said. Unfortunately, Thomas said, there are some elements in both the U.S.S.R. and in the U. S. that want to perpetuate a cold war. "Unconsciously, these men may be pushing us toward a cold war," he added.

Undoubtedly, Thomas said, Khrushchev is under heavy pressure by old line Stalinists who want a firmer attitude toward the West. Kennedy as well is under tremendous pressure from the press and others for a more belligerent attitude to be taken toward the Communists, he said. Both of these factors contributed to the recent resumption of nuclear testing, Thomas added.

Thomas seemed concerned over the mistakes made by both Eisenhower and Kennedy. The U-2 incident was probably Eisenhower's biggest mistake, Thomas said. "I have it on good information that it was Hagerly who told Eisenhower to take the full responsibility for the spy flights and to refuse to make the apology and plead ignorance of the mission," Thomas revealed. The Republicans were afraid that the Democrats would have a campaign issue if they took a more conciliatory attitude toward the Russians, he added.

Naturally, some foreigners think the United States is belligerent, Thomas said. How do you explain the Cuban fiasco (Continued on Page 8)

Professor Off Campus:

Dr. Albert Menut

(Editor's Note: With this article the Daily Orange is initiating a new week-end feature about the activities and faculty members. The stories will be of a more personal nature and will be an attempt to take the professor out of the classroom and into his living room.

By DICK ALLEN

The student was talking too fast. He was giving a report on "Insect Imagery in Dostoevsky." He was making sweeping statements and reeling off historical dates.

A voice rudely interrupted him. "Were you there, Mr. Smith?" The class hesitated, then laughed. The student joined in laughter.

"Not exactly, Professor, but . . ."

He wasn't allowed to finish for ten minutes. The professor took over his class and talked about the subject, pausing every thirty or forty seconds to toss a

Secretary question at his students. He covered subject matter which ranged from pre-Platonic times to Kennedy's first hundred days. He cracked a few very puns.

Everyone Stayed

The class was running late, but everyone stayed. They were listening to one of Syracuse University's most respected professors, Dr. Albert Menut, of the Romance Language Dept.

Dr. Menut lives in a modern rafter-type home at 102 Hallerly Rd., where he is surrounded by books, family heirlooms and Oriental rugs from Dey Brothers, paintings, works of sculpture, and where his wife serves him tea from an authentic coal-burning samovar.

When he is not teaching, or wearing his beret, or trudging to

DEADLINE SET FOR 'ON' PIX

Thursday will be the last day for seniors to sign up for appointments to have their Onondaga pictures taken.

Appointments may be made in the Slocum Hall basement from 9 a.m. to 5 p.m.

Men should wear suits and ties for the portrait sitting; women should wear black sweaters and pearls.

Editor-in-Chief \_\_\_\_\_ Sam B. Girgus  
Business Manager \_\_\_\_\_ Andrew Levitt

## The President

Rarely in recent history has an American stood up so strongly and sounded so good as did President John F. Kennedy before the United Nations General Assembly Monday. For the first time in so long someone spoke simple common sense about today's international turmoil and it sounded beautiful. This was no platitudinous conglomeration of old and hackneyed ideas. It was a program for peace, a program for adventure in our times. But mostly, President Kennedy's talk before the United Nations was a program for hope, showing that the leader of the United States would not permit himself to become a part of the modern paralysis of ideas that has invaded the minds of so many of the free world's leaders. He entered the assembly hall during one of its most tragic moments and when he left his audience must have felt that what they had heard was indeed good and must be preserved. For college students facing a future that may depend on the whim of one beserk possessor of over a megaton of TNT, the President's speech at least offers an alternative to international death. He has announced to the entire world that not only do Americans want peace, but they also have a program for peace. He has announced that not only will we be stubborn in our determination to preserve our freedom but that we will also be humble enough to concede and negotiate in order to help preserve humanity. On each major issue of international politics, on the United Nations, Berlin, disarmament, underdeveloped nations, and Southeast Asia he addressed the nations of the world firmly and honestly. The necessity for the fulfillment of President Kennedy's ideas; the strength, dedication and sincerity of his arguments should win the respect and admiration of all Americans. We cannot say it better than he did: "And we in this hall shall be remembered either as part of the generation that turned this planet into a flaming funeral pyre or the generation that met its vow 'to save succeeding generations from the scourge of war'."

## And On Wall Street

The Stock Market reacted to President Kennedy's disarmament plea yesterday with the sharpest decline since Premier Khrushchev made a similar plea a little more than a year ago. — From the New York Times, Tuesday, September 26, 1961.

It's amazing how much a little talk of peace shakes up some guys. But that's okay, smoke that cigar and relax. There may still be a war.

By ALAN G. MILLSTEIN  
Every newspaper strives to tell the truth all the time. But few papers are doing this today—some by choice, others by not realizing their failure to provide the truth.

There are less than fifty newspapers in the United States that have any sort of overseas correspondents. The other 1,713 dailies depend completely on two wire services for their overseas news.

The New York Times syndicates its overseas news reports but less than 50 dailies take advantage of this service. The New York Herald Tribune has a similar service but fewer than 50 papers take its syndicated news copy from foreign capitals.

**Economical Operation**  
Why so many newspapers depend on so few sources for their news? Economics of operation is the answer. Publishers do their best today to provide as little space as possible for hard news; preferring to cram in as many underwear ads from local dry goods stores as is possible.

Profits from newspapers today are not very large. There are many better ways to earn fast money. But there are some papers that are making a profit. Most of these smaller papers, like the two Syracuse dailies, would have disappeared long ago if it hadn't been for their purchase by crackerjack investors who economized production procedures and thus saved enough on cost to increase the profits.

Usually the economies take the form of cutting the staff, depending more and more on syndicated features, using one printing plant to print both a morning and afternoon paper and putting heavy emphasis on local affairs rather than national or international occurrences.

**Only Local Bylines**  
Take for instance the two local Syracuse newspapers. Examine this morning's Post-Standard and see if you can find a bylined article from any spot further out of town than Solvay. Every national or international news item is credited either to the Associated Press or to the United Press-International.

The P-S doesn't even bother to maintain a Washington bureau. Coverage of the New York

State Legislature in Albany received better play than most Washington news stories.

The number of non-news features in the Post-Standard is outrageously large. There are columns ranging, from male grooming to inspirational messages for the day. There are no pages devoted to national and international news from six pages cover Syracuse news, three pages of sports news and two pages of women's features. A balanced diet of syndicated columnists is offered to Post-Standard readers with Drew Pearson and Harry Golden representing one extreme and Westbrook Pegler and Barry Goldwater re-assuring us of our sanity on the other extreme.

The problem is that the P-S is typical of newspapers across the country. These papers are owned by absentee landlords and so long as they continue to show a healthy profit they go merrily on their way.

Syracuse's only evening paper, the Herald-Journal, is largely in circulation than its sister paper, the P-S. Its greater circulation doesn't bring its readers any appreciable increase in news printing, although several bylines from news service reporter appear on front page stories.

The Herald-Journal does maintain a full time Albany correspondent but the legislature is in session but fails to keep a man down in Washington while the Congress is in session.

The evening paper is also heavy with features, but at least it doesn't frontpage its own fashion shows like the morning paper recently did.

A. J. Liebling has just put together a collection of his essays on the state of the newspaper in America today. The pocketbook is entitled, "The Press," it is a Ballantine book and is available for 75 cents on most bookstands.

It is a collection of Liebling's witty, caustic and penetrating essays originally written as part of his "Wayward Press" column for the New Yorker. I recommend it highly to anyone concerned with freedom of the press as well as anyone with even the slightest interest in what makes a newspaper tick these days.

In future columns I shall continue to reserve the slate of the local press and when justified I shall point out what I feel is seriously worthy of praise and that which is definitely deserving of scorn.

**POLICY ON LETTERS:** The letters column is maintained for the expression of opinion by readers. However, the Daily Orange reserves the right to edit letters for grammar and good taste or to reject letters. Letters should be written legibly, preferably typed, and no longer than 250 words. All letters must be signed with the names and addresses; names will be withheld on request.

## Syracuse Daily Orange

Published Monday through Friday during the academic year by the students of Syracuse University. Office located in Building 7, Syracuse University, Syracuse, N.Y.

Subscription by mail, 35 per academic year. Single copies, 10¢. Member Associated College Press, Associated Press news, courtesy of the Syracuse Post-Standard.

Exclusive national advertising representative National Advertising Agency, Inc., 38 E. 50th St., New York 27, N.Y. Selling for news carriers, 15¢ per copy.

Entered as second class matter at the U.S. Post Office, Syracuse, N.Y. Postmaster: This publication is published at Syracuse, N.Y., under Post Office No. 2127. Newsstand, Est. 2134; Business Manager, Est. 2213.

To the Editor:

At a recent house meeting in Watson Dormitory it was announced to the residents that the name of Allen searches the right to inspect students' drawers, desks and personal belongings while looking for alcoholic beverages or anything else that he may deem sufficient for disciplinary action.

I hope the new dean of men never has cause to conduct such a search. I hope the students never act so suspiciously as to warrant such an inspection.

As a freshman, I haven't a great or even scholarly notion of what the Constitution of the United States guarantees the citizens, but this much I do know: search and seizure of personal property of every citizen is strictly forbidden and it takes a court order to carry out any search of a citizen's property.

**Universities Different**  
Of course, the set-up at this university and probably at most other private schools is different, but the authorities have extended powers.

But I hope that young citizens do not become accustomed as a matter of course to such searches, lest they become a disaster for our democratic traditions and safeguards in the future.

Once again, I hope that Syracuse students never provide a reason for their belongings to be searched in accordance with university rules.

Name Withheld

## Traffic Light At University Entrance Asked

To the Editor:  
Unless a traffic light or a full time policeman is put at the main entrance of the university, at College Place a tragedy will occur.

Traffic at this intersection goes in three directions, and is quite heavy during class hours. Students, going between Shaw on the fraternal, or activities and the main campus must jaywalk to cross the street. Often blind faith in the ability of drivers to stop their cars in time becomes a necessity to cross this heavily traveled intersection.

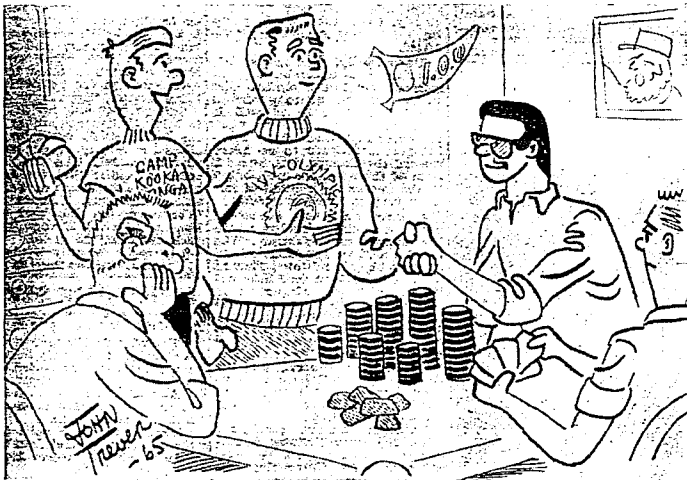

One day, a driver will not be fast enough, or a student will be too slow to stop an accident, if not a death, will occur to both the shame of the university and the city.  
John Edward Greenwald, '63

## Sophomore Class Meeting Urged

To the Editor:  
Ken Norwick's column of Sept. 25 was a good answer to combating apathy on campus. If someone doesn't care, the way to change that is to care. As for me, in favor of an open sophomore class meeting for bringing out the varied thoughts.

A meeting in front of the Chapel or in a Women's building gym some evening early in this term could give our officers some ideas with which to work.

While it is fruitless to push motions past people who aren't enthusiastic about them, specific platforms that the people do want can be carried out. Howard Bragman, Class of '64

"Bradd, I'd like you to meet Wildcard, who's earning his way through school."

**Drama Dept. Plans Expanded Programs**

By EILEEN STOURMEN  
Entertainment Editor

The resuscitation of dramatic activities on campus is the aim of Gerald F. Reidenbaugh, assistant professor of dramatics. He took charge of the drama Department after the death of Sawyer Falk.

Prof. Gerald Reidenbaugh.

The initial step taken by Reidenbaugh was the implementation of auditions for non-drama majors. "A wealth of talent came through and this gave us the impetus to go ahead with the programs we had planned," he said.

The major program to be undertaken is departmental and a series of five productions are being planned. These include a large scale musical comedy, an opera in conjunction with the School of Music and a religious drama in conjunction with Hendricks Chapel.

In addition, the work of modern American playwright will be performed. This production, Reidenbaugh said, will probably be "The Sandboxes" and "An American Boy" by Edward Albee. "We are under an obligation to keep abreast of the times," he said.

Another program being implemented is a "Season at the Lively Arts" which will open Oct. 13 with two original plays by Richard Harris, author of "The Fourth Day." These plays will be "The Man Who Courted January" and an expanded version of "Glorious Men" which appeared as one of the sketches in last spring's production of "Sketchbook '61."

The department also intends to expand their use of the Regent Theater, which will open Oct. 13 with two original plays by Richard Harris, author of "The Fourth Day." These plays will be "The Man Who Courted January" and an expanded version of "Glorious Men" which appeared as one of the sketches in last spring's production of "Sketchbook '61."

The department also intends to expand their use of the Regent Theater. Both the Lively Arts program and the use of the Regent Theater are attempts to "bring the theater into the main street of the community" in addition to the campus, he commented.

New Playhouse  
Much of the present work being planned by the Drama Department is "geared to the principles behind the New Playhouse," Reidenbaugh said. The New Playhouse was a summer professional theater started by the University last summer.

"We want to develop a professional attitude among our students," he said.

Reidenbaugh was a producer director at the New Playhouse, and has also worked at the Pointsetta Playhouse in Palm Beach, Fla. and the Famous Artists Playhouse in Fayetteville.

Reidenbaugh received his bachelor of science and master of arts degrees from Syracuse University. He has been on the faculty since 1949 when he became a graduate assistant in the Drama Department.

# Orangemen Place Fifth In First AP Football Poll

On the strength of their impressive victory over Oregon state Saturday, the Syracuse Orangemen have been placed fifth in the first regular season Associated Press football poll. Penn State, the Hillmen's chief rival for eastern honors this year, held the eighth place position in the first weekly poll. In most

pre-season listings, the Nittany Lions were listed above the Piety gridders.

Iowa, although it hasn't yet opened its season, was named the number one team in the nation by the AP sportswriters. Mississippi, who crushed Arkansas, 16-0, Saturday, were put in second place. The remainder of the top ten went like this: Ohio State, Alabama, Syracuse, Texas, Rice, Penn State, UCLA, and Michigan State.

The third place team, Ohio State, also has not played a game. Iowa opens against California and the Buckeyes meet Texas Christian Saturday.

LSU and Kansas, both expected to be in the ten this year, lost their opening game.

## Sports Staff Meeting Set

There will be a meeting of the Daily Orange sports staff at 4 p.m. Thursday in the Hell-box, prefab 7F. Anyone interested in signing up for the staff may do so at that time. There are jobs open for both boys and girls.

# Freshman Gridders Prepare for Opener

By DICK STORVIS

If you must compare past freshman football squads to the present aggregation, the last man to see is Jim Shreve, the freshman coach.

Shreve prefers to stand clear of comparisons of any sort concerning his team, but the fresh mentor did make one comparison Tuesday, and it was a mighty important one indeed.

"Last years team had a superior interior line", Shreve pointed out, "while our present squad is strong at the ends in the back-field."

Should coach Shreve's backfield jell along the lines of last years forward wall, the future build promise for Orange gridders.

Paul Howell appears to be a standout at end, according to Shreve, with Jim Cripps, Joe Arcade and Brandice Clark, Jr. Right behind Dick King and Wally Mahle head the quarterbacking corps, while Ducky Duckett and Gary Latawiec are 1-2 at the fullback slot.

Injuries to halfbacks Jim Nance and Norm Mordue, two fine backs, has handicapped the offense, but capable replacements have softened the blow somewhat.

Billy Hunter and Mike Kosci share the left - halfback position, and Herb Etzold and Dave Russell are the leading candidates for right - half. Russell

was recently converted to halfback from end, where the Tangerines appear set.

Thus far, Shreve has been satisfied with his team's progress. He admits he has a "pretty good" first group, and there appears to be a quiet confidence in his appraisal of the squad.

The only scrimmage to date has been against Manlius, where the Tangerines scored three touchdowns. Scrimmages with the varsity on Mondays and Fridays are valuable, Shreve believes, because this gives the coaching staff a fine opportunity to evaluate and coach the boys.

One who has been of great aid to the line and specifically the ends has been Fred Mantino, a '61 graduate, played on the national championship 1959 starting eleven. Another member of that undated season, Al Gerlick has also helped out.

Outside tackles Mike Waxman and Jim Dovich have been performing well, along with Nick Grene and Tom Wilhelm at the inside tackle position. Jim Wilson is leading in the race for the right guard spot, and Dick Chimura and John von Bischofshausen are battling it out for left guard. Larry Fempel, 6-2 205-pounder holds the second spot at right guard.

Bob Morgan, 6-2 195 pounds, leads Gerald Everling for the opening assignment at center.

The opener, incidentally is just two weeks from this Saturday, and the Tangerines will have their hands full against the Navy Plebs at Annapolis. In one game this season, the Plebs swamped Bunnville, Md. Naval Prep school, 43-6.

## ONCE MORE, UNTO THE BREACH

With this installment I begin my eighth year of writing columns for the makers of Marlboro Cigarettes, as fine a bunch of men as you would meet in a month of Sundays—loyal, true, robust, windswept, forthright, tattooed—in short, precisely the kind of men you would expect them to be if you were familiar with the cigarettes they make—and I hope you are—for Marlboro, like its makers, is loyal, true, robust, windswept, forthright, tattooed.

There is, however, one important difference between Marlboro and its makers. Marlboro has a filter and the makers do not—except of course for Windswept T. Sigafos, Vice President in charge of Media Research. Mr. Sigafos does have a filter. I don't mean that Mr. Sigafos personally has a filter. What I mean is that he has a filter in his swimming pool at his home in Fairbanks, Alaska. You might think that Fairbanks is rather an odd place for Mr. Sigafos to live, being such a long distance

loyal, true, robust, windswept, forthright, tattooed....

from the Marlboro home office in New York City. But it should be pointed out that Mr. Sigafos is not required to be at work until 10 A.M.

But I digress. This column, I say, will take up questions of burning interest to the academic world—like "Should French conversation classes be conducted in English?" and "Should students be allowed to attend first hour classes in pajamas and robes?" and "Can a student of 18 find happiness with an economics professor of 90?"

Because many of you are new to college, especially freshmen, perhaps it would be well in this opening column to start with campus fundamentals. What, for example, does "Alma Mater" mean? Well, sir, "Alma Mater" is Latin for "send money."

What does "Dean" mean? Well, sir, "Dean" is Latin for "don't get caught."

What does "dormitory" mean? Well, sir, "dormitory" is Latin for "bed of pain."

Next, let us discuss student-teacher relationships. In college the keynote of the relationship between student and teacher is informality. When you meet a teacher on campus, you need not salute. Simply tug your forelock. If you are bald and have no forelock, a low curtsy will suffice. In no circumstances should you polish a teacher's car or sponge and press his suit. It is, however, permissible to warn his dog.

With the President of the University, of course, your relationship will be a bit more formal. When you encounter the President, fling yourself prone on the sidewalk and sing loudly:

"Prezy is wise  
Prezy is true  
Prezy has eyes  
Of Lake Louise blue."

As you can see, the President of the University is called "Prezy". Similarly, Deans are called "Dixie". Professors are called "Proxie". Housemothers are called "Hoxie Moxie". Students are called "Amoebae".

© 1961 Max Shulman

This uncensored, free-wheeling column will be brought to you throughout the school year by the makers of Marlboro and Marlboro's partner in pleasure, the new, unfiltered, King-size Philip Morris Commander. If unfiltered cigarettes are your choice, try a Commander. You'll be welcome aboard.

If it's new and unusual . . .  
you'll find it at the . . .

# Sofsian Casualty Heads Injured List of Thirteen

By RON ROBERTS  
The proverbial sweet taste of victory enjoyed by Syracuse's varsity gridder last Saturday did not come without its proverbial high price.

The Orangemen learned Monday that sophomore quarterback Walt Sofsian will be sidelined at least three weeks with a fractured rib. The 6-3, 205-lbs. sparkplug of last year's undefeated freshmen squad suffered the injury on the receiving end of a jarring tackle while returning an Oregon State punt.

Sofsian was listed as number two signal caller for the Flity behind starter Dave Sarette. Coach Ben Schwartzwalder used another sophomore, southpaw Bob Lelli to replace Sofsian and Lelli hit four of five passes good for 40 yards to draw praises from his coach.

"Sarette and Lelli had better stay healthy" commented Coach Schwartzwalder on the situation. But to give himself some degree of insurance, the varsity mentor is giving extra work to still another second year man, Mert Raner. Raner ran the third string in a special scrimmage with the fresh Monday.

Sofsian's injury was the only one serious enough to keep anyone from playing against West Virginia this Saturday, but club trainer Jules Riechel's work for the week included administration to a dozen other minor physical ailments.

Star halfback Ernie Davis sustained a bruised right shoulder, right ankle and left shin. He had to favor his injured limbs in prac-

tice, but should be getting full strength by Saturday according to Riechel.

"I saw the films of the game," said the trainer, "and it looked like they roughed him up pretty good. But he will be alright, I'm sure, by Saturday."

Most of the other injuries on the team were routine. They included "charlie horses" to fullback John Charette, halfback John Humphreys, and Sarette. Riechel pointed out that the injuries to the backfield men were unusually heavy for one game.

Bob Sem, Dave Meggysey, John Paglio, and John "Big Daddy" Brown were among the linemen being treated for minor ailments. Brown's soreness and stiffness in the shoulders was typical of the other injuries and "these just come from hitting hard," Riechel observed.

So with most of the team healthy and ready, Schwartzwalder held a long practice session yesterday, giving Sarette and

Lelli a good deal of passing work. The two quarterbacks combined for a total of 116 yards through the air against the Beavers, completing 10 of 12.

Schwartzwalder feels that the new addition to the Syracuse offense, the double-wing T, had a lot to do with the powerful Orange passing attack, since it sprung more receivers into the open for the sharpshooting Sarette and Lelli.

Early attendance estimates on the upcoming West Virginia tilt are over 25,000 as Coach Ben Schwartzwalder guns for victory number 100 against his alma mater.

## Maris Hits 60th

Roger Maris hit his 60th home run of the season Tuesday night to become only the second player in major league history to accomplish the feat. It came four games after the limit of 154 games set by Commissioner Ford Frick.

## Ace Orange Center

BOB STEM, starting center for the 1961 Orangemen, will be over the ball Saturday when Syracuse opens the home season against West Virginia. Stem is a 5-11, 210-pounder from Phillipsburg, N. J. He moves into the starting slot vacated by Al Bemiller. Stem started with the alternate unit last year but was hampered by injuries much of the season.

Napoleon—as you will note—Kept his hand tucked inside of his coat When his friends asked, "Mon Cher, Qu'est-ce-que c'est have you there?" He replied "C'est mon Swingline Jo tote."

what comes after the wheel?  
ford motor-company's educated guess

Frankly, there is no practical substitute for the wheel today. But at Ford Motor Company, our scientists and engineers refuse to give "no" for an answer. They are tackling, among others, the problem of wheelless vehicles for tomorrow.

Is "tomorrow" really far off? Not according to the men at Ford. Already they've developed the Levacar as one possibility. It replaces the wheel with levapads, perforated discs which emit powerful air jets to support the vehicle. Air suspension—if you will—of an advanced degree. Imagine traveling swiftly, safely at up to 500 mph, riding on a tissue-thin film of air. Guided unerringly by a system of rails. Propelled by powerful turboprops. This is the Levacar.

Meanwhile we've still got the wheel. And the job of building better cars for today. So we hope you won't mind riding on wheels just a little longer while we concentrate on both tasks.

**Henry Norman  
To Address SU  
Young Democrats**

(Continued from Page 1)  
county's most able Democrats—including Mrs. Helen Norem and Engineering Professor Martin Barzelay of the university community.

**Hits Corruption**

Norman's campaign is aimed at fighting the "terrors, corruption, confusion and conflict of interest" he sees in the present Republican administration.

"His campaign, and political life," Newman wrote, "are consistent with the conviction that a healthy two-party system must replace the county's moss-backed, mother-in-law-Bible high tariff Republicanism."

Norman's address marks the beginning of a very active year for the Young Democrats club, Miss Kaye said. "In addition to canvassing and working on the Norman campaign, we will be bringing to the public very important and interesting people."

Set to speak at future Young Democrats meetings are New York Congressman Adam Clayton Powell and Associate Professor Webb Eiser of the political science department, who is a Democratic candidate for councilman-at-large in Syracuse this year.

Today's meeting is open to all students, Miss Kaye said. Student wishing to join the club may do so at that time.

**Quartet Previewed  
At Skytop Lodge**

A preview performance of a new string quartet was held last night at the Skytop Ski Lodge.

The work was composed by Dr. Earl George, associate professor of music theory and Composition in the School of Music.

Performing was the Krasser Chamber Music Ensemble headed by Prof. Louis Krasser of the School of Music. Vice President of Academic Affairs and Dean of Faculty Frank Piskort acted as host and spoke before the performance.

The program was given in advance of the public concert, to be held at the Everson Art Museum October 5 so that patrons and the Board of Directors of the Syracuse Friends of Chamber Music and members of the SU faculty would have an opportunity to hear the work.

The quartet presenting the new work consisted of Prof. Krasser, first violin, his wife, Adrienne Gallimier, second violin, Claude Bortel, viola, and George Mulfinger Jr., cello.

Doctor George's other orchestral works have been widely performed. Among the persons who have presented Dr. George's music are Leonard Bernstein, director of the New York Philharmonic Orchestra.

# VICEROY'S Big College Football Contests

**IT'S EASY!** Just pick the ten winning teams, predict the scores—and you're in the money!

**FLASH!** ONLY STUDENTS ON THIS CAMPUS ARE ELIGIBLE!  
**FIRST CONTEST OCTOBER 7<sup>TH</sup>**

All you have to do is clip the coupon, pick the winners and predict the scores—then figure out how you're going to spend that hundred bucks! It's easy . . . just clip the coupon below or get an entry blank where you buy cigarettes and fill in your predictions of the ten game scores. Then mail it with an empty Viceroys package or a reasonable rendition of the Viceroys name as it appears on the package front to Viceroys at the Box Number on the entry blank or drop it in the ballot box conveniently located on the campus.

Open only to students and faculty members. Enter as many times as you want. Simply send an empty Viceroys package or reasonable rendition of the Viceroys name with each entry.

Entries must be postmarked or dropped in the ballot box no later than the Wednesday midnight before the games and received by noon Friday of the same week. Next contest will be on games of October 21—when you'll have another chance to win.

**LOOK!**  
**HERE ARE ALL THE PRIZES YOU CAN WIN!**

**1st PRIZE \$100**

**2nd PRIZE \$50**

**3rd PRIZE \$25**

**PLUS**

**20 OTHER PRIZES OF \$100<sup>00</sup> EACH**

And a free carton of Viceroys to every contestant who names all ten winning teams—REGARDLESS OF THE SCORES!

**DON'T SMOKE ANOTHER CIGARETTE UNTIL YOU LEARN WHAT VICEROY'S Deep Weave Filter CAN DO FOR YOUR TASTE!**

It can do plenty. Here's why: the Viceroys filter starts with pure, safe vegetable material, made into the same straight filter strands as most good filters.

But here's the twist: Viceroys weaves those tiny strands into the special Deep-Weave Filter . . . and that's the filter you can trust to give you the good taste of Viceroys' rich tobacco blend. The fact is . . .

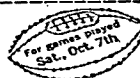

**Only Viceroys' Got It . . . At Both Ends! Got The Filter . . . Got The Blend!**

\*Reg. U.S. Patent Office

**HERE ARE THE CONTEST RULES—READ 'EM AND WIN!**

1. Any student or faculty member on this campus may enter except employees of Brown & Williamson, its advertising agencies, or members of its immediate families. All entries become the property of Brown & Williamson—none will be returned. Winners will be notified within three weeks after each contest. Winner's names must be published in this newspaper. You may enter an alias as you wish, provided each entry is sent independently. Contest subject to all environmental regulations. Entries must be postmarked or dropped in ballot box on campus no later than the Wednesday midnight before the games are played and received by noon Friday of the same week. The right to discontinue future contests is reserved.

2. Entries must be in contestant's own name. Do not sign in this ad or on a Official Entry Blank or piece of paper of the same size and format; write your predictions of the scores of the games and check the winners' names on empty Viceroys package in a reasonable rendition of the Viceroys name as it appears on the package front. Mail entry to Viceroys at the Box Number on the entry blank or drop in Viceroys Football Contest Ballot Box on campus.  
 3. Entries will be judged by The Random M. Sweeney Corp. on the basis of number of winners correctly guessed. Tie will be broken on the basis of scores predicted. Multiple entries awarded in case of final ties.  
 4. Winners are eligible for any prize in subsequent contests.

## Viceroys College Football CONTEST NO. 1

Here are my predictions for next Saturday's games. Send my prize money to:

Contest open ONLY TO STUDENTS AND FACULTY ON THIS CAMPUS. Mail before midnight, Oct. 4, to: Viceroys, Box 85-E, Mt. Vernon 10, NY

# Dr. Albert Menut

(Continued from Page 1)  
the top of the library stacks for his most important reference work, or attending Humanities or "Footprints" lectures, or enjoying foreign movies at the Rivera-Cinema, he sits at a desk in his small den, translating the first French versions of Aristotle's works from the microfilm projector and screen onto a paper in a small, beaten black typewriter.

On one of his book shelves is a copy of Norman Mailer's "The Deer Park." Another contains a large encyclopedia set. A third is filled with notes and publications — the result of over twenty years of scholarship which has resulted in grants from the American Philosophical Society, world-wide recognition, and mention in journals and books from such representative countries as Canada, The Soviet Union and India.

**Cup of Coffee**  
Over a cup of tea, or coffee, if you prefer it, Dr. Menut will sometimes remain in your company. Although he is often cynical of certain facets of modern civilization ("There is no television set in the Menut house), he keeps in close contact with the present generation.

He is an enthusiastic supporter of off-Broadway productions and sees many during each year.

He will comment that, during the past four years at Syracuse University, he has seen an

"encouraging" change in student interest. He feels students, though "still too quiet, too afraid to question — their professors or argue with them," have lately become noticeably serious and academic minded.

Yet, he is not in favor of totally specialized research, dealing with some small point in literature or history. Instead, he practices the broader view of a topic, "the over-all view, the historical approach and what it means."

### WARRE KINGS

Mrs. Menut, though she kids her because she occasionally reads the "Herald — Journal" comics, is with Dr. Menut at almost every university lecture. Both the Menuts are WAET and FM fans, they both speak several languages. They have a great interest in students and if either of them captures you after a lecture, you find it impossible to escape their quick questions about, "Did you like this?" or "How do you feel about it?" or "It reminds you of . . . doesn't it?"

So far, his heavy reading work load, Dr. Menut is still one of the most popular teachers here. His subject, his students say, "is literature, not just one phase or area of it."

Somewhat, he never seems to cover the twenty-odd thick volumes he "suggests" you read, but still, one of the results of his course is that the student is led to hundreds of subjects and often

reads far more than the twenty-

Perhaps the most revealing example of Dr. Menut's influence is found when you walk into an extant's room and find a huge collection of Russian Literature, much of it contemporary. When the ex-student may say, "Well I wasn't there, but so help me, if that professor can know so damn much, the least I can do is try to catch him."

Dr. Albert Menut is a professor who encourages, insults, cajoles and loves his students into attempting the impossible.

## Walsh to Speak To Russian Club

At the year's first meeting of the Russian Club at 7:30 p.m. next Tuesday, Dr. Warren Walsh, chairman of the Board of Russian Studies, will speak on "Vocational Opportunities in the field of Russian Studies."

Meetings are held in the Chapel House on Constock Avenue. Students in any phase of Russian Studies are welcome to attend.

Activities and aspects of the club include singing and learning Russian folk songs, learning dances and customs and listening to talks given by professors and scholars on different phases of Russian culture past and present.

## Thomas Sees World Peace Hopes Rising

(Continued from Page 1)

President Kennedy's call Monday for a peace race instead of an arms race. "We have far more than enough nuclear weapons to destroy ourselves and the rest of the world," Thomas told the S. D. S. sponsored program.

"In fact, there is about the equivalent of ten tons of nitro stockpiled for each person in the United States," Thomas icily told his audience.

**Eisenhower's Warning**  
President Eisenhower's forecast in 1953 (the nation was mentioned by Thomas as being a significant warning by an experienced military man of the damages inherent in a "garrison state.")

Eisenhower warned the nation last January to beware of the dangers resulting from giving the military leaders too much power.

To build national security, Thomas said, we solemnly appropriate, half of our national budget to the military, we spend one-half of all our money on research on how to wage more efficient war, we employ five million men in factories that produce weapons for destruction and nearly ten per cent of our gross national product is made up of goods prepared to build our national security.

National security measures are equated with national insurance, Thomas said. "This type of insurance has no value to the human race and it fails to give interest to any of us."

## Thomas Believes Russians Really Hope for Peace

(Continued from Page 1)

former, the tall white-haired former Presbyterian minister said. "It's frightening to think that the CIA and not the President or the State Department dictated our Cuban policy," Mr. Thomas said.

Thomas, nearing the end of a distinguished career in politics in which he tried to forge a third party movement by losing the presidential six times on the Socialist ticket, scorned at the idea of building national fall-out shelter for the State Department Governor Rockefeller and President Kennedy.

"I hope I'll be right there when the bombs start falling," Thomas said. "In a city like New York there won't be any safety," he grimly indicated. "You'd need a gun just to stop those who'd want to break into your shelter," he warned.

"If an upset when Life magazine reassures the public that 97 percent of the people will be saved from nuclear catastrophe," Thomas said angrily, "because it is well known that Civil Defense people feel that all life east of Cleveland, Ohio, will be wiped out as a result of nuclear blast."

As one of the founders of the American Civil Liberties Union, although he has retired from active service, Thomas is very concerned over the civil liberties of all citizens. There is no reason why men like Willard Uphaus and Junius Scarce should be made national martyrs by the courts simply because they refused to submit to the dictates of the Smith Act, Thomas said. Both of these men have had their liberties affronted, he added, but neither of them is worthy of the sympathy coming from their inflicted punishments.

In his address last Tuesday afternoon to the students on the campus, Thomas appealed to them to produce leadership for the grave times that lie ahead.

## Correction Made On Bailey Story

The Daily Orange made an error in Tuesday's story on Dean Stephen K. Bailey of the Maxwell Graduate School of Citizenship and Public Affairs.

In the final paragraph, the word "from" should have been "for."

The paragraph should read as follows: "This entails keeping the minds of men free for ideas radically different from those originally intended for the people to hold, only then can a government be said to really be doing its job," he concluded.

## Norman Hits GOP Bossism

By KEN NORWICK

Democratic candidate for Mayor of Syracuse Henry Norman attacked the current Republican administration as being "absolutely corrupt" in a speech before the Syracuse University Young Democrats Club yesterday afternoon in Maxwell Auditorium.

Paraphrasing the adage that "power corrupts and absolute power corrupts absolutely," Norman accused the local Republican machine of being "powerful but corrupt." He singled out for attack State Senator John Hughes, the local GOP leader, facetiously dubbing him "Mr. Clean."

Delayed close to an hour downtown, Norman told a patient, enthusiastic group that "this is the age of youth in politics" and that "the natural home of youth is the Democratic Party."

Norman is 32 years old.

### Hits Walsh

Condemning the Republican opponent, William Walsh, as "owing his nomination to one boss," the Democratic majority candidate stated that he was not "chosen by bosses but by rank and file Democrats."

Norman received his party's nomination after a "bitter" primary contest early this month.

"The Democratic Party is undignified," Norman said, "but then so is democracy. There are no closed doors in our party," he added, "we wash our linen in public."

Commenting that Syracuse was once the only major city in the state that voted consistently Republican, the Democratic candidate said that Syracuse is now a Democratic city. He cited as evidence recent Democratic gains in local and county elections.

### Not a Cinch

Conceding that his election was "not going to be a cinch," Norman promised the Young Democrats "the most intensive campaign this city has ever seen. We can't buy votes or offer all our supporters jobs," the Minority Leader of the County Board of Supervisors said, "we can only say that we are Democrats proud of it."

"If the people of Syracuse are tired of standing still and moving backward," Norman continued (Continued on Page 8)

## Deans Discuss Job Pressure

By BARBARA CORNBLATT

D. Carroll W. Newsom announced his plan to resign as president of New York University after having held the position for five years. His major reason was the strain from financial and administrative pressures.

The unexpected resignation fits into a pattern set by several deans of large universities who have been subjected to great pressure and who subsequently have retired after a short duration of time.

Concerning large university executives in general, Dr. Newsom stated that in his "considered judgment few heads of large universities, especially now, should continue in office for any extended period of time.

"Both the direct and indirect demands of the position as well as the pressures associated with it," he said, "rapidly produce effects that make impossible the kind of imaginative and dynamic

## Dean's Office Advises Draft Deferments

The Dean of Men's office has recommended that male students follow these rules to insure their in college.

1. Deferment from the draft while 1. Once a student reaches his 18th birthday, he has five days in which to notify the draft board. Either the student's home board or the local Syracuse board can be informed. Registration with the board may also be done through the Dean Men's office.

2. Deferments must be requested each spring through the Dean of Men's office. Bruce DeBruille, assistant to the Dean of Men, noted that many men request deferments for their first year but fail to do so after that, thus forcing a change in their draft status.

3. The draft board must be informed of any change in a student's status. This includes address, marriage, and leaving school for any reason.

4. The Dean of Men's office should be consulted in the event of any directive from a local draft board to report for examination. DeBruille said that participants in such programs as Semester in Italy must secure permission from the local board.

5. The 2-S deferment for students requires one to be in the upper three - fourths of one's class to jump the upper two-thirds for a sophomore and the upper half for freshmen.

The board gives deferments (Continued on Page 8)

## Opening IFC Meeting Calls For Leadership

Fall Conference Set For Oct. 13-14th; MacMurray to Aid

By ADAIR DUFINE

The Inter-Fraternity Council opened its 1961-62 year last night with a call for campus leadership by IFC President Richard Miller. Thirty fraternities were represented at the meeting held in the Hall of Languages.

The road to success for fraternities can be realized if each house assumes the necessary leadership on campus, said Miller. Since the Greek system holds a place of public view, the Dean of Men, Earle Clifford, hopes that members will take an active part in making it an organization of example for all students.

It is the aim of Dean Clifford for fraternities to control all of their business. Jim MacMurray was introduced as the advisor for the IFC.

The revision of the Fall Conference was discussed and the conference date set for Oct. 13-14.

Each member of IFC was asked to state his preference for the committee discussion to follow at the Sledge.

The topic of rushing was deferred until the Fall Conference and the 1960-61 rules were reaffirmed until that time. Any suggestions for a change in the rushing system were asked to be submitted before the Conference date. Upperclass rush will be discussed with Dean Clifford by the executive members of IFC.

President Miller informed the Council that the Judicial Board, started last year, would have two meetings and will now take an active part in fraternity life. It is the responsibility of each member of a Greek house to sell the students on the true value of fraternal systems and realize their position on this campus.

## Panhel, IFC Set Charity Ball for Dec. 1

A joint charity ball, sponsored by Panhellenic Council and Interfraternity Council, will be held December 1 from 9 p.m. to 1 a.m. at the Grand Ball Room and the East Room of Hotel Syracuse.

These plans for the ball were announced by Madge Turner, ball chairman, at Tuesday night's Fraternity Council meeting.

Jack Kreischers and Williamson's Parisians will provide the music. Both orchestras have fourteen pieces.

The proceeds of the ball will go to a charity to be voted on by the houses.

Mrs. Roscoe Martin, advisor to Panhelli, said she expects all houses to heartily support the ball.

Panhellenic also announced Tuesday night it will hold a rushing convocation at 8:15 p.m. next Tuesday.

It will be held in the Women's Building for all upperclass women and transfers interested in fall rushing. Not all the houses will be open for fall rushing.

## Dean Recalls No Searches

By PAM CURTIS

"The inspection of students' drawers, desks, and personal belongings takes place only in rare, extreme, and unusual circumstances when there is a clear and present need for this procedure."

This was one of the comments Dean of Men Earle Clifford made concerning an unsigned letter written by a freshman in yesterday's issue of the Daily Orange.

## Phone Service Threatened In Dormitories

By MARY RUGH

What would dorm life be like without telephones?

This situation seems difficult to visualize. However, it may be necessary, in the future, for S.U. students to reconition their minds. It is not only possible but probable that several of the dormitories will temporarily lose their phone service, unless conditions improve.

Mrs. Muriel Day, chief operator at the Syracuse University Switch Board, has asked that students think seriously about their use of the telephone. A great deal of the confusion concerning wrong numbers is not the fault of the operators.

During the first week of the term all students were given numerous I.E.M. cards to fill out. Sometimes the only information required was a name, address and phone number, but many of the cards were left incomplete. This fact alone limits the efficiency of the switchboard.

No Courtesy Basically, the problems revert to lack of common courtesy. Refusal to heed time limits, shouting into transmitters when an ordinary tone of voice would be sufficient, taking phones apart to see what makes them "talk," and the taking of special tools from the installations (Continued on Page 8)

## Prof. Virgil D. Cover Testifies for ICC

Professor Virgil D. Cover, the Chairman of the transportation department in the School of Business Administration testified yesterday before the Interstate Commerce Commission on behalf of the New York Central Railroad.

The reason for the meeting of the Commission was to discuss the possible merger of the Baltimore and Ohio Railroad with the Chesapeake and Ohio Railroad. The New York Central Railroad stated that they would approve the proposed merger only if the New York Central was included in the merger.

Professor Cover's testimony explained the disadvantages that exclusion of the New York Central in the merger would have on Syracuse University. The two important reasons were:

1. Syracuse University depends upon the New York Central to carry approximately 900 to 1000 students to and from Syracuse at vacation times. With a merger of only the B.&O. and the C.&O. the service on the NYC would

be cut off. This would mean that the Dean of Men Earle Clifford said that he hopes that this freshman gets to be a sophomore and a junior he learns that it isn't necessary to withhold his name when he has a question or concern regarding any issue which he wishes to be expressed.

Clarify He hopes further that as this student gets to know the University, he will learn that the staff of the Dean of Men's Office is possibly willing to clarify any questions of this order.

Thirdly, concerning the specific concern of the student, he thinks that perhaps the student is assuming that what he heard at his house meeting is standard procedure.

The dean agrees with the student in that he hopes there is no cause to conduct such a search. He prefers to deal with students on the basis of confidence in them.

"To further clarify the issue," he said, "in my nine years experience at Syracuse as a student, faculty member, and administrator, I cannot recall any situation involving the office as that cited by this student."

So far a search of this type has never taken place for the purpose of uncovering alcoholic beverages. The dean was especially concerned with the importance of preserving democratic traditions and personal guarantees and he repeatedly emphasized this position while discussing the matter.

This is Dean Clifford's first year as Dean of Men at Syracuse. He previously served as assistant dean here and as dean at the University of Vermont.

become poorer because of a financial loss, making the students suffer.

2. The New York Central ships 36,000 tons of coal a year to the University steam plant. Professor Cover emphasized that the transportation of this coal is essential to the well-being, and warmth of Syracuse University and its students.

New York Central would be at a disadvantage through the merger of the B.&O. and the C.&O. railroads because the favors that it now receives from these railroads would be curtailed.

## AWS SETS DEADLINE

Summer school campuses and those left from last semester must be taken by October 15 or campuses will be doubled. Please check with AWS office if there are any questions.

Editor-in-Chief ..... Sam B. Girgus  
Business Manager ..... Andrew Levitt

**Henry Norman**

Despite the fact that he kept his audience waiting almost an hour, Henry Norman provided the campus with a distinct civic and intellectual opportunity yesterday. In addressing a group of interested students in Maxwell Auditorium, the Democratic candidate for mayor of Syracuse gave those who attended a first hand taste of practical politics in action. The Hill Young Democrats are to be especially commended for their initiative in bringing Norman to campus. They were also wise in identifying themselves with a man of the calibre and integrity of the thirty-two-year-old candidate.

Norman represents the best of the Democratic Party in New York State. He is a man with guts, for it takes guts to attempt to challenge a political machine as strong as the one the Republican party has in this city. It also takes guts to try to move a sleepy city in the direction of progress and political reform and this is exactly what Norman is attempting to do. Elected twice to the overwhelmingly Republican County Board of Supervisors, Norman has earned the respect, admiration and support of such prominent Hill professors as Stuart Gerry Brown, Webb Fiser and Martin Barzelay. All Hill students would be wise in further investigating the issues and men involved in this mayoralty campaign.

They will probably find that the odds are against Henry Norman, despite the fact that he has proved himself to be an amazingly sharp and successful practical politician. Syracuse has never had an Italian mayor and Norman's primary defeat of the old guard of the local Democrat Party is an encouraging feat in itself. But the independent campaign of Dr. Joseph Grosso would serve as a serious hindrance to Norman and may deprive him of much of the support he will need to win. However, Norman has surprised people before, especially in his successful management last year of the campaigns of Onondaga County District Attorney Joseph Ryan and Assemblyman George Savage. Ryan is the first Democratic District Attorney this county has had in forty-four years. If Norman wins, he will be one of a small number of Democrats to have attained that post since the Civil War.

**Professor Off Campus**

With yesterday's front page story about Dr. Albert D. Menut, the Daily Orange is hoping to initiate a new weekly series of personal stories dealing with administrators and faculty members at Syracuse University. We could not have had a better choice for the first story. Dr. Menut's dedication to teaching, his students and the intellectual life is beyond doubt. We hope that stories such as these will serve to bridge the inevitable gap between the individual professor addressing an auditorium full of students.

There has been much frightened talk in recent years of a growing goallessness among the more intelligent of America's youth. The phenomenon of youth on the road, both menial in the hearts of the static fear in the hearth of the static burghers of our fair land.

The empty vows of the self-righteous have failed to bring labor, reality and meaning. Americans back to the fold. They have, in fact, driven them further away from the secure values of their elders.

They turn away from the stilted commitments that they labor. The nation and our modern suburbs threatens to break them on the rack of conformity, and so they flee.

**Spiritual Frontier**  
But, unlike the young Americans of other times, today's youth find no physical frontier ready to absorb their energies and enable them to find and live by their own values. Today the frontier has turned inward, it is a frontier of spiritual values which faces them.

Being unable to accept the ideals which have brought our society to its present state, they must attempt to formulate, in art and life, a system of ethics to replace those which they believe have failed to confront the problems of modern American life.

In an era of constant international tension, with the ever-present threat of world annihilation through atomic warfare, the formulation of new ideals is a difficult problem. One can only hope that it is not an insurmountable problem.

**Struggle for Values**

As a part of their struggle to find new values for the world and community in which they live, this dynamic generation often engages in intense and very painful introspection. To the individuals concerned, this internal search often seems unique striving for separate meaning, one which involves only themselves.

One cannot help but feel, however, that even these internal struggles have a much deeper and more universal meaning. Man has built an amazing world with his science, but it remains problematic whether his emotional and spiritual equipment is sufficiently prepared to handle his

material sources. Perhaps out of the agonized isolation of acute, introspective minds will arise a spiritual compulsion for our material accomplishments.

**The Beat Group**

In the search for meaning many fall by the wayside. They often turn to pseudo-intellectual hedonism which defeats the end for which they rebelled. This type of life is devoid of meaning as that which it protests against, and well merits the condemnation which is heaped upon it.

Into this pit have fallen most of what is termed the "Beat Generation". One cannot agree, however, with the wholesale condemnation of any group, this one included.

For many who are grouped within it, it is perhaps only a more congenial and far less cerebral body of people with which to live, for such persons, the toleration of such a group provides a necessary protection from the restrictions of normal society.

It is with such people that the real value of the group to society lies. The posers and hedonists will live and die and be forgotten before they are interred. The creative and searching mind will rise out of the ashes of this or any group, to continue and justify their search.

**Simple Answer**

Others see their struggle for integrity as a far wiser way. It is, perhaps, a far worse and far more dangerous way. These are the intelligent young people who let themselves be deluged with answers by the apostles of the quick, simple answer.

We are not facing simple problems in this age, and by applying simple, cursory answers we are heading straight for oblivion.

Certain divines would send us straight to God, more likely to Hell, on a road clearly marked by unmistakable guideposts. It sometimes occurs to one that they must, of course, have a sort of commutation ticket to Heaven to know the road so well.

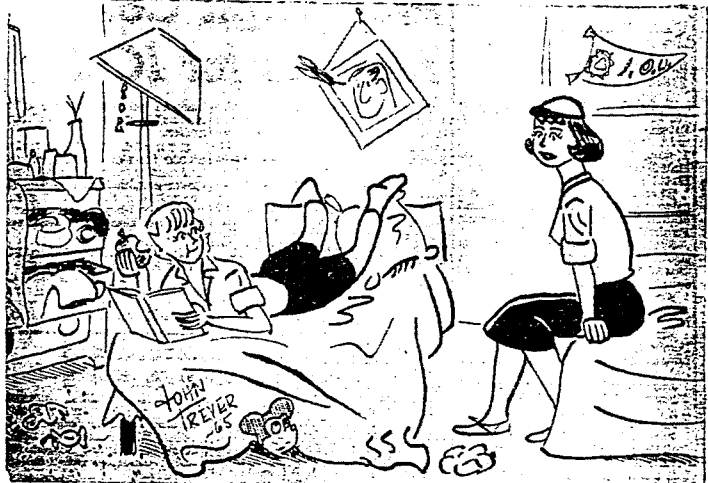

Their counterparts are also found in fact, a certain senator is building a national following by championing such short, positive answers. If the rising generation of intelligent people follows this lead and forgets that complex problems demand complex answers, we are lost.

One must proceed with faith in man, to search for the way to progress and live. The critics of a changing society must take it upon themselves to guide that society out of the morass of a man's own problems with which it is confronted.

To do this they must search for new values and serve a hard apprenticeship of introspection and positive striving for new, creative ideas and ethics. One can only work in his own way, and hope that the rising generation will produce a mature and workable re-evaluation of society in time to meet the impending crisis.

"I understand you have a maid at home."

To the Editor:  
The "Gobbldeygook" that Norman Thomas sprayed over his audience Monday night at the University Methodist Church summed up his answer to the question, "What is the objective of the peace that we are exhorted to plead and work for?"

Norman Thomas said, "Why, to save us from war—to save us from destruction." In other words, our total excuse for survival is to exist.

Nothing else matters, God, principle, country are decadent and unimportant. As for liberty, our country has no "liberty of walking among the dead"—the dead from H-bombs that we Americans, if you please, will have brought on ourselves by our "aggressive action."

We must understand, he explained, "Russia's need for security." He gave us an identified "Pol" who preferred enslavement (this is my word) in Russia to conquest by Germany.

We Americans are committing an unmitigated crime by defending a West Germany that might one day arise and smite down the great Russian Bear. This is a wrong thing to do.

Russia has twice felt the German sword—Mr. Thomas did not go far enough back into history to equate this aggression with the aggression which Russia with security against further attacks. How far, Mr. Thomas, must we extend Russia's sense of "security"?

It already extends around the world, leaving the United States of America a tiny island of opposition that is infiltrated by the Communists. That even our churches and colleges welcome them.

"Negotiate, this is an art," he says. It is certainly a lost art as far as our country is concerned because we have negotiated ourselves right into the bowels of our own earth where we aggressors must cower to avoid the destructive H-bombs.

Asked if we could trust the Russians in negotiations, Mr. Thomas vehemently denounced the Russians who challenged the harasser to prove with facts and figures that Mr. Khrushchev has failed to keep his word. Besides, he inadvertently added that it isn't the Russians we must fear. It is Communism that is gobbling up the world. This he implied was a good thing.

So, as Dr. Bouscaren pointed out in his speech last night, we have the choice of being destroyed by Russian H-bombs or existing by their will.

Mr. Thomas says we must plead for peace. We must disarm. We warlike Americans who rob the Indians of their country must disarm just like the Chinese whom we, under General Marshall, helped disarm.

Are we to assume that we will be dealt with more mercifully than were the Capitalist Chinese overlords whose heads fell to the Communists' swords by the millions? Is this what we must disarm for?

Here are the telegrams we patriotic Americans were asked to sign. To Chinese: "As peace-loving Americans for sake of Humanity we urge cessation of all nuclear testing. Negotiations on military coercion is hereby urged."

To Kennedy: "In spite of Russian resumption of nuclear testing, urge you to cease U.S. testing. Let U.S. lead world away from insanity and toward peace. Urge serious negotiations."

Laurence C. Smith, President, Organization for the United States, Small Business.

# Art School Director to Open Everson Lecture Series

Dr. Laurence Schmeckelober, director of the Syracuse University School of Art, will open the series of four Everson Memorial Lectures at 10:30 a.m., Wednesday at the Everson Museum of Art.

Schmeckelober, who recently returned from a year's study in Germany on a Fulbright grant, will speak on "An Artist's Report from Europe."

Author of seven books on art and artists, a volume on German Medieval art, begun during his studies last year at the University of Munich, is forthcoming. The three remaining lectures in the fall series will be held on Thursday mornings at the museum.

Peter Blake, managing editor of "Architectural Forum" magazine will speak Oct. 19. He will be followed on Nov. 2 by Benjamin F. Bart of the Syracuse University Department of Romance Languages. Prof. Argiro, a member of the faculty of the State University at New Paltz, will lecture on Nov. 16.

# 'Under Milkwood' To Open Regent Celebrity Series

Dylan Thomas' "Under Milkwood" performed by the New York company will be the season opener of the University Regent Theater's Celebrity Series on Oct. 14.

This production will replace the David Ross production of "Hedda Gabler" starring Signo Hasso which was originally scheduled to appear Oct. 14.

Other plans include the return of the Players Inc., who presented "The Merchant of Venice" last year. They will present "Richard III" on Oct. 27 and "A Midsummer Night's Dream" on Oct. 28.

Folk singer Odetta will give a concert on Feb. 2 and Nina Simone and Her Trio will appear on March 17.

Through recently completed negotiations, the Regent will present the centuries-old music and dance theater of Ceylon presented by the Ceylon National Dancers on March 31.

The final attraction of the 1961-62 series will be the Buffalo Philharmonic under the direction of Josef Krips. Ranked as one of the first to orchestras in the country, this will mark the first concert by a major American orchestra to be presented by the Celebrity Series.

Further information regarding the series or individual programs is available at the University Regent Theater.

# 'Francis of Assisi' Another Dull Film

Usually, Hollywood makes two kinds of religious or spiritual films. One is the sumptuous kind, with pagentry and orgies; echo chanters and lightning; and the Halleltuh chorus from Handel's "Messiah" repeated every other reel. In other words, a pretentious bore.

The other, and rarer, kind of religious film tries to stick to the story, emphasizing the spiritual and inspirational elements. Since Hollywood has always had trouble with matters spiritual this type of film usually misses its mark and becomes an ordinary bore.

"Francis of Assisi," now at the Paramount, is of the latter kind; a normal, unassuming bore.

**Pageants Limited**  
True, producer Plato Skouras has limited the pageants and orgies to the barest minimum. He has tried to increase the footage devoted to Francis and his relationship to God.

But, Hollywood has enough trouble trying to delve into a love affair between two human beings that reaches any great extremes. How can we expect it to do justice to the love story of Francis and his God, especially considering the extremes that it goes to?

We don't; and Hollywood doesn't. Instead, "Francis of Assisi" has a rather pedestrian plot. It covers the high points of Francis's life, giving comparative lip service to his devotion to God.

**Love Of God**  
Here is a story of a well-to-do man, so in love with God that it causes him to become a beggar, live in abject poverty, incur self-inflicted wounds, and even want martyrdom.

Such a relationship can't be glossed over in a few words spoken to an off screen voice. Such a passion cannot be summed up by some watery-eyed public statements about peace and love and man's inhumanity to man.

In "Francis of Assisi" Francis seems to talk his way to sainthood. The verbose, awkward script never gives Francis a chance to be himself and it never gives us a chance to know the man, much less the saint.

**Color Useless**  
The cinematoscope and color are useless and even get in the way. The large screen doesn't let us get close enough to Francis in any way intense enough to understand him. Full color can not depict the day to day drabness of Francis's poverty. Indeed, in the Vatican scenes the color photography makes the splendor of the Pope seem inappropriately ironic.

Bradford Dillman walks through his role as the saint, only occasionally stopping to role his eyes heavenward. Strangely enough, Delores Hart is never really given a comparison, as Sister Clair, Francis's platonic girl friend. Michael Curtiz's direction can't smooth out the uneven script.

All in all, "Francis of Assisi" never really gets off the ground. This is a serious error for a film that deals with a man who never really had his feet on the ground.

**THE WARDROBE**

Serving Hill Men for 35 Years  
FORMAL WEAR — MILITARY OUTFITTERS

125 South Salina Street (Near Washington)

PRESENTS

## Orange Lineman

A KEY MEMBER of the Hillmen's starting squad is senior tackle GEORGE FRANCOVITCH, a 6-1, 215-lb. senior from Little Ferry, N. J. Francovitch, a second team performer in 1960, was one of the standouts in the Oregon State game last week.

# Maris, Redlegs Stir Excitement

By MILT JOFFE

Major league baseball reached a high point Tuesday night and the excitement is still in the air.

A guy named Roger and a gang of Reds rose to the top of the baseball heap with stories that would stir the most apathetic of fans.

King Roger Maris of the New York Yankees powered his way into the record book beside the revered name of George Herman "Babe" Ruth Tuesday when he sent his 60th round-tripper of the season into orbit.

The drive, which hit the facade of the upper deck two feet inside the right field foul line in Yankee Stadium, came four games after the limit of 151 games set by Commissioner Ford Frick.

Reg still has four more games to go and he hopes to get at least one more—for personal pride, he said.

Despite the fact his home run total will carry a special notation in the record books, Maris' run for the record within the regulation period and heroic performance will long be remembered.

Meanwhile in Cincinnati, the unsung Cincinnati Redlegs returned from Chicago with something the home folks haven't seen since 1940—a National League

pennant.

An estimated 30,000 fans turned out to greet their heroes when news of the flag-clinching victory reached the home town.

The team, which had been in sixth place at this time last year and was picked there, or lower, this season, pulled off one of the greatest surprises in modern baseball history.

The team of castoffs gave baseball a shot in the arm much like that given by the Pittsburgh Pirates with their upset pennant victory last season. The Reds were the only team not to win a pennant since 1940.

The spirit in Cincinnati also equalled Pittsburgh's last fall and should boost Redleg stock in the World Series.

When the fans start complaining again next year there should first be a long pause when they recall Sept. 26—one of baseball's finest hours.

## Feminine Views On Gridiron Sport Are Revealed

(Editor's note: This is the first of a series of articles, written by two female members of the sports staff, presenting the opinions of the women on the supposedly man's world of sports.)

By FAM CURTIS

And  
MARY RUGH

In general, girls are thought to be at a distinct disadvantage in the world of sports. However, we have been given an opportunity to at least prove our powers of observation via a series of articles giving girls' viewpoints on men's intercollegiate athletics.

Apparently it is the men of Syracuse who are making a reputation for the University. Coeds across the country scream and dream about football heroes day and night. The coeds at Syracuse are no exception.

After several informal interviews with freshman girls we have concluded that the freshman girls go to football games for reasons other than those imagined by the normal, avid football fan.

Female Reasons

As a matter of fact they go to the games for numerous illogical, feminine reasons. First of all, if they don't go, they will be completely out of place in any conversation that takes place for the next few days. They go, because it is the thing to do. They go with their dates or to get a date or to maybe strike up an acquaintance with one of their heroes.

The cheering is an added excitement in that, for the freshman, placard cheering is particularly fun. In fact, the excitement of the game relieves study tension. We hope that you frosh enjoy the upcoming football game. We may not, because the game wouldn't let us placard cheer since we forgot our beanies.

### Only One Color For SU

Syracusians may point with pride to their orange beanies, orange pennants and Orange-clad football players, for their school is the only one in the United States with Orange as the only official school color.

### Sports Staff Meeting Set

There will be a meeting of the Daily Orange sports staff at 4 p.m. today in the mailbox, preface 7E. Anyone interested in signing up for the staff may do so at that time. There are jobs open for both boys and girls.

# West Virginia Star

# Rookie Standout Leads Mountaineer Gridders

**By DANNY GARR**

An air of excitement is slowly building up as the Syracuse Orangemen prepare for their first home contest of the 1961 campaign.

By virtue of a convincing victory over the Oregon State Beavers, the Piety eleven has been ranked fifth in the nation and is an overwhelming 35 - point favorite to take the measure of West Virginia this Saturday.

Despite the fact that a close fight is doubtful, the game promises a keen personal duel between West Virginia's brilliant quarterback, Fred Colvard, and the pride of the Piety eleven, Ernie Davis.

yards for the first Orange score, and then carried all five times on a 1 9- yard drive that culminated in the final Syracuse sojourn to pay - dirt.

**Mountaineer Nemeses**

The 6 - 2, 210 - lb. left halfback has been a terror against West Virginia the past two seasons. The Elmira, N. Y. flash scored 2 touchdowns against the Mountaineers in both 1959 and 1960, rushing over 100 yards on the ground on each occasion.

In 1959, as Syracuse triumphed 44 - 0, Davis tallied on gallops of 57 and 29 yards and totaled 141

yards on nine attempts. Last season, he penetrated the Mountaineer line for 125 yards on fourteen carries.

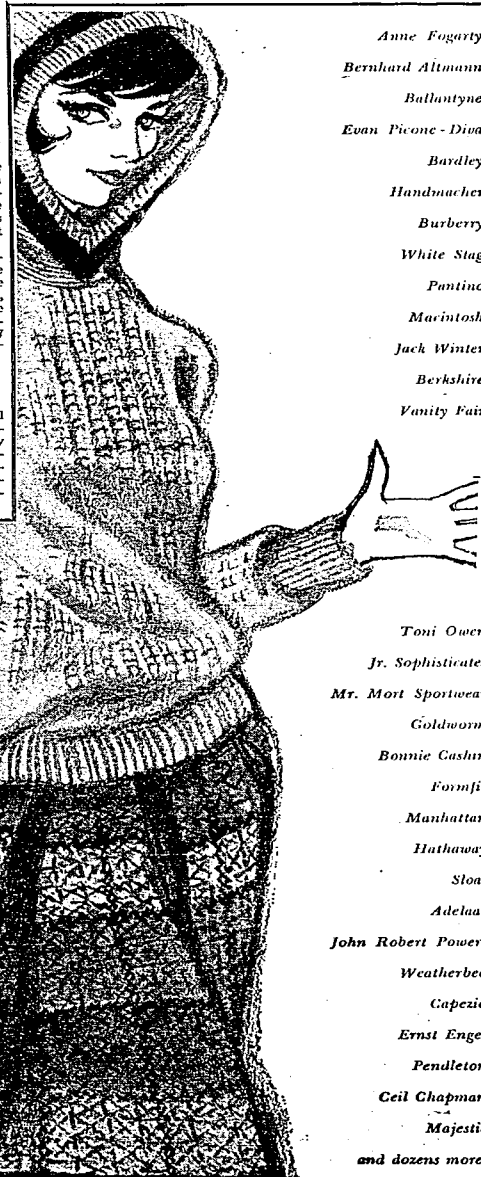

Ernie was the leading Syracuse ground - gainer for the past two seasons and placed third in the nation in 1960 in total rushing yardage, piling up 877 yards.

A two - time All - America, Davis is well on his way to becoming the outstanding back in Syracuse annals. Even if he should have a mediocre season, Ernie will break the great Jimmy Brown's records in both scoring and total rushing.

Colvard, in his varsity debut against Richmond, scored 29 of his team's 26 points and gained 229 yards rushing, passing, and returning punts and kick - offs. The Mountaineer sophomore is adept both as a runner and passer. In addition, he has good speed and is a constant threat off the pass - run quarterback option.

Mountaineer mentor Gene Corum and his staff were not a bit surprised at Colvard's top - flight effort. As a freshman, the 185 - lb. rookie scored 34 points in the spring practice game last year.

Facing the potent Syracuse attack will be senior halfback Ernie Davis. Davis, who headlines the UFT backfield - of - the week, led the Orangemen to their fine win over Orange State by scoring 2 touchdowns. Ernie ran 17

## ARCHIE SAYS:

My cousin Archie—he thought the electric razor his god gave him last Christmas was o.k. Then he tried Old Spice Pro-Electric, the before shave lotion. Now the guy won't stop talking, he thinks electric shaving is so great.

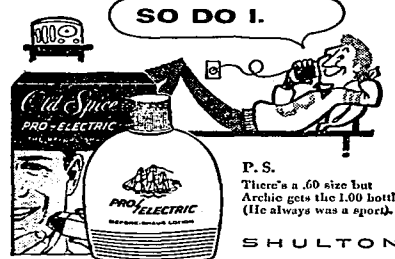

ARCHIE SAYS Pro-Electric improves electric shaving even more than lather improves blade shaving. ARCHIE SAYS Pro-Electric sets up your beard by drying perspiration and whisker oils so you shave blade-close without irritation. ARCHIE SAYS Pro-Electric gives you the closest, cleanest, fastest shave.

If Archie ever stops talking, I'll tell him I use Old Spice Pro-Electric myself.

SO DO I.

P. S.  
There's a .60 size too Archie gets the 1.00 bottle. (He always was a sport.)

SHULTON

# Rev. Hopkinson Leaves Campus

By NITA KAMM

After serving as Methodist Minister to Syracuse students for nearly 15 years, the Reverend Arthur Hopkinson, Jr., will leave this campus November 1 to become a staff minister on the Commission on Chaplains of the Methodist Church.

The Reverend's new position will entail interpreting the work of military, hospital and church chaplains to the Church. He will be based in Washington, but will travel throughout the world to help connect the chaplains in distant areas with the main organization of the Church, to make them know that they are a part of the Church.

"Not only the Methodist Student Fellowship, but the entire campus will miss Reverend Hopkinson. He has been a vital force in the furtherance of not only the Christian Ethic, but for the betterance of the human race as a whole," stated John Burgess, president of MSF.

**Minister's Son**

Reverend Hopkinson, who was born in England, is the son of a Methodist minister. He did his undergraduate and graduate work at Boston University. In 1931, he was ordained to the

## Staffers Wanted For 'Syracuse 10'

"Syracuse 10" will hold its annual get-acquainted staff meeting this afternoon at 4 p.m. in the library of Chapel House.

"We'd like to see a lot of new faces at this meeting," said editor Terrence Hughes. "The new expanded format of the magazine means we will need the ideas and vigor new staff members inevitably bring with them."

"Syracuse 10" was named one of the top college magazines in the country last year by the Associated Collegiate Press.

Hughes said the meeting would be open to students in all fields of study who are interested in working on the publication. "The scope of the magazine will be limited only by the imagination of the new students who turn out to work on it," Hughes said. He said there would be expanded opportunities for newcomers on the editorial, advertising, circulation, and art staffs.

Hughes added that the magazine was looking for fiction, poetry, articles, cartoons and letters-to-the-editor for its first issue. He said that students with material to be submitted for consideration should drop it off next week at the "Syracuse 10" office in Prefab 7.

## Dramatics Dept. Auditions Friday

The Drama Department will hold auditions for singers and dancers from 2 to 5 p.m. Friday in the Drama Building for an upcoming musical to be directed by Robert Scarpato.

Singers should bring their own music and dancers their own leotards. Accompaniment will be supplied by the Drama Department.

The musical shows that are being considered for production are Cole Porter's "Anything Goes," Gershwin's "Oh, Kay," George M. Cohan's "Forty-Five Minutes from Broadway," and "Leave It to Jane," by Jerome Kern.

# Levitt Takes Post As Daily Orange Business Chief

Senior Andrew Levitt is serving as business manager of the Daily Orange this year. Levitt was appointed late this spring, succeeding Harris P. Dulany.

A resident of White Plains, N. Y., Levitt is majoring in accounting in the School of Business Administration.

He is 21, and previously held the positions of assistant layout manager, layout manager and assistant business manager on the DO.

Tau Delta Phi brother, Levitt is now treasurer of his fraternity for these second semester.

He was student government public relations commissioner and a salesman for "Syracuse 10."

"We hope to increase greatly the local advertising in the DO," Levitt said. "We have a very competent sales staff."

He also plans closer coordination between the business and editorial departments of the DO.

After graduation, Levitt plans to study law at either Columbia or New York Universities.

**Tickets for Townies**

Commuting students, by joining the Commuting Students Association, can reserve seats at home football games this fall. Members desiring them should call GI 6-5413 or GI 6-2801 on or before the Tuesday preceding each game and ask for Steven Marshall.

# Deans Discuss Job Pressure

(Continued from Page 1)  
shall miss his insight and leadership, Piskor said.

In regard to Dr. Newsom's statements, Piskor added that although the pressures are real and difficult, they are not intolerable. He feels there is no way of generalizing as to the tenure of office, which should depend entirely upon the individual and situation concerned. As an example, he mentioned Chancellor Tolley, who has been in office for over two decades.

**Fraser From Olsen**  
Dr. Newsom, was also praised by John F. Olsen, executive assistant to the chancellor, said he country owes Newsom "a debt of thanks and gratitude for what he has done for higher education."

However, Olsen considered parts of Dr. Newsom's statement debatable.

In the Dean's opinion the tolerability of the diverse pressures exerted depends entirely upon the personalities of those involved. Each person's constitution determines the amount of pressure he is able to withstand, he said.

To illustrate, Olsen visualized a lonely artist living in seclusion, who could conceivably be a better person than the big company executive constantly withstanding all degrees of pressure.

He added that administration pressures were definitely present and somewhat of a problem, but

were to be expected to a certain degree. He did not feel that at this time financial worries were overly burdensome. Olsen elaborated that at one time, during the depression, there was a question as to whether Syracuse University would survive as an institution.

Now however, the problem is not of survival, but of how best to utilize the funds available.

There are more resources today, but also more demands. There are more students attending classes on complex levels. Yet because of its expansion Olsen felt that higher education today is exciting and rewarding.

He concluded by citing Chancellor Tolley as a direct contradiction of Dr. Newsom's assertion. Olsen said that the Chancellor's great experience is a definite asset and increases his wisdom, patience, and insight.

## DEADLINE SET FOR 'ON' PIX

Today will be the last day for seniors to sign up for appointments to have their "Onondagan" pictures taken.

Appointments may be made in the Slocum Hall basement from 9 a.m. to 5 p.m.

Men should wear suits and ties for the portrait sitting; women should wear dark tailored dresses.

# Dean's Office Advises Draft Deferments

(Continued from Page 1)  
at their discretion and it is possible that requirements may be modified in the light of the present 22 to 23 age of draftees.

DeBrule said that fear of extended liability should not discourage applying for deferment, since with or without a deferment one is not likely to reach age 26 without being called to the draft. Extended liability enlarges draft age from 26 to 35.

The I - D deferment, which is that given a ROTC cadet after 1 semester, is not cancellable by the local board and requires a satisfactory grade in the ROTC course.

To receive this deferment, a student must sign a deferment agreement, in which he agrees to complete the advanced course and accept a commission upon graduation from college.

## Junior to Read At Conference

Carol Sprinchorn, a junior from Jamestown in the School of Speech and Dramatic Art, has been chosen to perform at the national convention of the Speech Association America, to be held in December in New York City. She was selected after competing against students from a number of Eastern schools last May at the Eastern States Poetry Reading Festival at Brooklyn College.

# Norman Hits GOP Bossism

(Continued from Page 1)  
used "to then join with us and move forward for a change."

The Democratic candidate stated that his campaign will cost a record \$60,000 while the Republicans will spend several times this amount.

"They have a million dollar campaign," said Norman, "but a two dollar candidate."  
Norman said that "if we win in Syracuse, we can take the state away from the Republicans and eliminate from power the most likely opponent to President Kennedy in 1964, Governor Nelson Rockefeller."

He said that President Kennedy needs a full eight years to break away from the "stand-pat, do-nothing" previous administration.

The Democratic candidate attacked the local Syracuse press as "being full of lies" with regard to his campaign. He said, however, that the problems was not with the working reporters but with the "front offices" of these newspapers.

Norman said, that Syracuse University is the city's "second biggest industry" and that it adds "a great deal to the city economically."

He suggested, however, that the University should do more to interest local Syracuse residents of the numerous cultural events that take place on the Hill.

Norman indicated that his choice to oppose Governor Rockefeller in 1962 was Schenectady Congressman Samuel Stratton. He said that he was "having enough trouble convincing the people of Syracuse to elect a 32-year-old Mayor" and that he wasn't considering running for Governor.

While waiting for Norman to appear, the Young Democrats were addressed briefly by Prof. Frank L. Smith, the club's advisor, Rudy Norman, the candidate's brother and campaign manager, Mr. Gail John, the

club's previous president and currently a student at the Syracuse Law School, Mr. Jim Blackhurst, of the political science department, and Leslie Kaye, the club's president.

## Phone Service Threatened In Dormitories

(Continued from Page 1)  
trucks were several of Mrs. Day's complaints.

Misinformation and lack of information are sources of trouble. Outside lines cannot be connected unless No. 9 is dialed before the other numbers. A busy signal heard before a number has been dialed does not indicate that the phone is out of order, merely that the machinery is operating at capacity. Many parts of the "orange directory" are out of date and are no longer accurate.

The phones in the offices of head residents are not there for student convenience and should not be tied up. To contact the operator, from an extension phone, depress the carriage button for a period of two seconds and then release them for two seconds. Then repeat the operation until an operator answers. If these basic facts were remembered the service would be faster and easier for all concerned.

Former Daily Orange Managing Editor Andy Jokelson discusses Orange football now in pro ranks. See page 5.

# West Virginia First Home Foe

BY RON ROBERTS

Syracuse's fifth-ranked gridgers will play the role of heavy favorites in their home opener tomorrow when they collide with the Mountaineers of West Virginia at 1:30 p.m. in Archbold Stadium.

The visiting West Virginians haven't enjoyed a win in their last 17 outings, including losses this year to Richmond and Vanderbilt.

But despite the unimpressive record owned by the Mountaineers, Orange coach Ben Schwartzwalder is not one to pass them, or any opponent, off too lightly.

Schwartzwalder, who will be seeking career victory number 100, is looking more at the potential of Gene Corum's upset-minded club.

**Can't Sell Them Short**  
"You just can't sell West Virginia short," said Schwartzwalder. "They're big and they're fast. They have a line averaging 210 pounds and a halfback (Roger) Hlodinsky who holds some records in the 220 - yd. dash."

Schwartzwalder believes that the West Virginia team could have won a bowl game last year if it hadn't been for some careless mistakes.

"We must be prepared for every opponent," continued the fiery mentor, "and injuries have hurt us this week. Davis' practice has been negligible because of his arm, and Brokaw still can't play defense."

**Sofskin Out**  
With sophomore quarterback Walt Sofskin out of action for at least three weeks, and other injuries in the backfield, Schwartzwalder points out that Dick Easterly and Gary Fallon are the only "completely healthy" backs he has.

Experimenting and some position changes have featured the Orange practice sessions this week as Schwartzwalder has tried to protect his injured charges.

"Because of our beat - up condition we've had to do a lot of fudging around," he says. "We have to keep our quarterbacks out of kick offs and punt returns, and with the wild card rule we may fall victim to substitution if a couple of men get whacked." It will be a different looking squad over here Saturday.

**Lelli No. 2**  
Schwartzwalder has moved sophomore Bob Lelli into the (Continued on Page 5)

## ID Exchange In Gym Today

Students who had their I.D. cards and pictures taken during registration last week, but did not receive these cards, may obtain them today in the Men's Gym from 8:30 a.m. to noon and from 1 to 3 p.m.

Any student who has not had his identification card picture taken should do so from 7 to 9 p.m. today, or from 9 a.m. to noon tomorrow.

Returning students who do not have their I.D. card and football tickets may obtain both by presenting their I.D. Exchange Card in the Trophy Room of the Men's Gym today from 7 a.m. to 9 p.m. or tomorrow from 9 a.m. until noon.

Exchange Cards may be obtained in Room 204, Administration Building. These cards must first be validated by the Vehicle Department, Building 19.

## Clark Slated To Lecture In Mexico

Dean Wesley C. Clark, of the School of Journalism, is being asked by the United States government to lecture in Ecuador and Mexico.

He will leave for Washington, D.C. on Oct. 2 and is scheduled to begin a series of lectures on the press and public affairs in Quito, Ecuador on Oct. 15. He will address a group of distinguished South American journalists and educators at the Centro Internacional de Periodismo para America Latina, which was established in Quito several years ago.

After a series of a dozen lectures in Quito, Dean Clark will fly to Mexico where he will also lecture and serve as a consultant to the administration in determining whether a school of journalism and communications should be established at a new university in Toluca, Mexico.

Dean Clark has served in a number of government posts including that of assistant to the Secretary of Interior and consultant to the Caribbean Commission in Port of Spain, B.W.I. Dean Clark was selected for the job by the office of Cultural Exchange of the United States Department of State.

He will be accompanied on the trip by Tom Clark, a Syracuse University graduate in the class of 1957. Dean Clark hopes to be able to confer with a number of Syracuse Alumni, who are scattered throughout Ecuador and Mexico.

# Walsh Spokesman, O'Brien Attacks Norman Platform

By Barbara Cornblatt

Syracuse Democratic candidate for mayor, Henry Norman was severely attacked Thursday for having no definite political platform. The charges were made by David O'Brien, an assistant to Republican mayoralty candidate William Walsh at a County Republican headquarters.

O'Brien, however, refrained from answering the charges of Republican machine corruption leveled at Walsh by Norman on Wednesday when the Democratic candidate appeared on campus to address the Young Democrats.

O'Brien stated that Walsh's platform "will be directly before the people" by next week. He stated that "the time has come for Norman to cease his bobble and state where he stands on the following:

## Goons Lead Pep Rally For Home Opener

"Mounts of Mountaineers," the pep rally and parade led by the Goons to kick off S.U.'s first home game with West Virginia, will be held Friday evening at 8 in front of Sims.

Led by the cheerleaders, the band, S.U.'s orange car, and the goons dressed as mountaineers, a procession of students will thread its way through the campus.

After stopping at the sorority and fraternity houses en route, the line will proceed to the library where the cheerleaders will lead the pep rally and Coach Schwartzwalder will speak. Then the linemen and the co-captain of the football team will be introduced.

As the highlight of the rally, the Goons will dance the West Virginia Reel and the cheerleaders will lead a snake to Sadler where the rally will end with the singing of the Alma Mater.

On Saturday after the game, a jazz concert led by George Andrews will be held. The main band will play on the Chapel steps and on the steps of several of the Greek houses.

All arrangements for this pep rally were made by co-chairmen Kevin Swanson and Robert Davis.

The Goons hope for a large turnout at the pep rally of both upperclassmen and freshmen. The West Virginia game will be the first big time college football event for the members of the Class of 1965.

BY REA TURET and BARBARA HOFFMAN  
Residents of Dewey, Morton and Vernon Cottages have been informed over the past two days that they must vacate their cottages. Later in the term, Mace will also have to be vacated.

Dewey Cottage must be vacated by noon Saturday and Morton and Vernon Cottages must be emptied by 5 p.m.

## Syracuse Law Grads Win Opinion Contest

Three graduates of Syracuse University have won the three top cash awards in the National Opinion Letter Writing Competition.

The three winners, all of whom were members of the graduating class of 1961 of the Syracuse College of Law, won awards that totaled \$900 in the Letter Writing Competition sponsored by the American Law Student Association.

Winner of the top award of \$300 was Donald Horowitz of New York City.

The award for runnerup of \$250 was given to Albert Tesluk of Buffalo, N. Y.

The third place prize of \$150 was awarded to Herman Harding of Liverpool, N. Y.

The award winners were announced at the meeting of the American Bar Association in St. Louis, Missouri, last August.

In the eight years that the Letter Writing Competition has been sponsored, this year was the first time that students from one university have won all three top prizes.

Professor Richard B. Lillich of the Syracuse College of Law faculty served as advisor to the three entrants from Syracuse.

Miss Barbara J. Griffin, Women's Residence Director said that the reason why she wanted to accomplish these moves now was that the girls' could live in one place for the whole year.

Vernon, and later, Mace, are to be torn down to make way for the Newhouse Communications Center. The construction for the building is as actively for March. The buildings will be torn down before then. Originally the two cottages were to be left vacated, but with unexpected large enrollment, they opened the two cottages to upper classmen.

**Fall to Return**  
However, since many students did not return to Syracuse without informing the University of their new plans, there have been a number of vacancies in such living centers as Shaw, Mount Olympus, Washington Arms, Haven Hall, Heffron, Smalley and Lima.

Morie C. Smith, Dean of Women, explained the many vacancies. "We did not expect to have so many people not show up."

Morton and Dewey Cottages, on lower Walnut, are being vacated for a possible move of boys from Seward Cottage on Waverly, and Frick Apartments on Osborn. These boys knew that eventually they would be moved to another residence. Seward is on the block for the Newhouse Communications Center. Frick is in the area for a new men's dorm. As for Heffron, Director of Men's Residence, said, "I am hoping that there is space in the regular housing instead of the two small cottages."

Dean Smith explained the reason for the moves. "We carry a very heavy overhead, and it's important for us to keep as many rooms as possible occupied. When we put them in there, we expected them to be staying longer."

The girls at Vernon objected to the forthcoming move, and had complaints about the project. Talking all at once they mentioned that roommates, who would like to stay together, find that they are to be moved to another cottage with "prefabricated roommates."

Girls with Monday classes protested that they wouldn't be able to move their belongings.

In reply to these two complaints, Miss Griffin said that there were plenty of doubles for girls who want to stay together. As for moving, the girls won't have to move their belongings. Belongings must be left. They have the whole day in order to move from their cottages to their new residences.

## RESERVE TIX TODAY - SAT.

Bill Hyman, football seating chairman, announced yesterday that students may pick up reserved tickets in the Trophy Room, Archbold Gym, from 3:30 to 5:00 p.m. today and from 10:00 a.m. until noon tomorrow.

1. A new water supply for our community.
2. Planning for a metropolitan area.
3. A civil defense program for public buildings.
4. Education and school construction.
5. The fire department and personnel.
6. The community college and where it will be located.
7. Public works as it affects the city.
8. The near east-Juvenile Delinquency.
9. The Police Department's program and personnel.
10. Public Health."

O'Brien continued the Daily Orange interview and speaking for Walsh stated "The people of Syracuse will not be fooled by Mr. Norman's attempts to substitute mud for a program. To replace action with reaction. O'Brien called for Norman to "tell us where you stand and cease the sneers." He added that Norman's "deprecations about a

Walsh are hollow when you consider that he is the same man who, on Oct. 24, 1958, described Walsh as a "dedicated public official for whom I have the greatest respect."

He added, "Who is the same Mr. Norman who, Dec. 9, 1959, called Walsh one of the outstanding county officials whose work has earned him praise from all quarters in terms of political background."

"O'Brien concluded "Who are we to believe? The Henry Norman who spoke about Walsh in 1958 and 1959 before we were opponents for the position of mayor or the Henry Norman who since Feb. 1, 1961, has with a blush on his face attempted to convince the people that Walsh is not the man he was talking about two years ago.

O'Brien, who officially is Director of Research for Onondaga County, issued his statement in retaliation to the attack Norman made on Walsh in his speech on Wednesday.

Publicity Lifts Men To Precarious Perches

Editor-in-Chief Sam B. Girgus Business Manager Andrew Levitt

The 87th Congress

The Eighty-Seventh Congress, which was highlighted by a marked degree of unoriginality, at least adjourned in a peculiar fashion. On the whole it was a frustrating session that saw little in the way of real progress. It was a session that was largely dominated by the House of Representatives and the selfish provincialism of individual legislators.

The Congress is particularly susceptible on two issues, foreign aid and aid to education. The villain in the foreign aid controversy is Representative Passman of Louisiana. Called "a fanatical opponent of all foreign aid" by The New York Times, Passman's position of strength and leadership is an insult and disgrace to the entire legislative body. Passman's unfortunate financial victory over the White House and the more liberal members of Congress may prove to be an exceedingly expensive one in the long run. Also, the Congress' refusal to face the facts about the need for greater national help to education on all levels will be felt by all of America's colleges, secondary and primary schools.

First Home Game

Football returns to the Syracuse campus tomorrow afternoon.

Many freshmen will be getting their first look at big-time college football. But even though they haven't seen a game, they have probably heard much about the sport from other students.

They have probably been told all about the evils of big-time football—how Syracuse University has "earned" the reputation of being a football factory, with academics being pushed to the background; how profits from the games go toward constructing a fieldhouse when a library is so sorely needed.

But there are a few facts that maybe the worldly upperclassmen neglected to impart to the freshmen. Maybe they didn't stop to consider how the football team has put Syracuse University on the map, not just for gridiron fans, but for many other people around the country. Maybe they didn't realize that since the football team has risen to national prominence, alumni have taken a more active interest in the affairs of the school. This means more financial donations, not just for the athletic department but for academic improvements as well.

And maybe the upperclassmen forgot to tell the frosh that since Syracuse University has been placed in the national spotlight athletically, more and better students have been enticed to come here—and not all of them are on football scholarships.

Something else the informed upperclassmen usually overlook is the fact that many of today's outstanding citizens were yesterday's outstanding college athletes. Some of them even played big-time football.

By BOB SEEWALD Probably nobody is easier to caricature and more difficult to accurately identify than a prominent individual.

Misleading material can pour out of the typewriters of honest men at an astonishing rate, material that will delude the masses and set up a smoke-screen around the public hero or public goat.

The well known man who is not really known at all by the consumers of his image—how many of them are practicing their wares on him?

Consider an article that John T. Flynn once wrote for the Atlantic Monthly dealing with "The Science of Bullshoo". It reads in part:

"Let a more or less talkative old Vermontor wander into the news columns with his lips closed tight and a limited diagnosis of the day's doings. The clerk promptly labels him 'the silent man.' He becomes quickly 'the strong, silent man.' With that label on him he will run through ten thousand editions and a whole career, garrulous, erupting words at every opportunity, but he will always be 'the strong, silent man.'"

The more prominent he becomes, the greater the delusion. And ours is a society which loves labels, short simple phrases that are supposed to describe complex individuals and causes. And as we consume and digest these labels we lend energy to our misunderstandings, conviction to our delusions.

Simple Way Out

Such phrases as "Total victory over Communism" then come to represent policies which seem the only patriotic and morally right stances to assume. Then, you are generously offered the alternative of being either for this total victory or against it—an opposition which would mean an obvious softness and readiness to submit to enslavement.

Especially a personality story of the day's hero tends to give him a pretty good whitewashing. His every characteristic can become a symbol of excellence, while, of course, in such a story, his faults would hardly be harped on.

Good Disguises

Even for a thoughtful and wary reader it can be hard to get an accurate impression from such a report. It would be wonderful if the public

could ascertain when a glowing report is really a disguised press release which found its way into print, and when it is genuine news.

As the hazards of prominence are great, and the bigger the buildup, the greater is the plummet to oblivion if it is exposed. And the more regulations-conscious people have suffered the shocks of enough exposes and shattered personalities in recent years to indicate a type of double out to which some heroes are lifted.

But here worship can do no great harm to a baseball fan; it can to a political group. A rise to prominence does not automatically mean also a rise to godliness.

In this respect, danger lurks inherently in our publicity-seeking and publicly-revering society. A prominence for often brings with it the unnecessary info. In the long run such irrational and deceptive evaluation can only be harmful.

How well we have seen this demonstrated recently.

-LETTERS-

Students: Don't Play At Campus Politics

To the Editor:

In Tuesday's Daily Orange, Miss Ranov raised a question that cannot be neglected. What, she asked, is the rationale for student government? Or, is there none?

When an activity requires as much time to be given up as does student government, it must provide an answer for Miss Ranov's question. Neither prestige, status, nor recreation are valid answers.

What are the areas in which student government can operate? It could provide a program for the student. If, then, social activities seem to be the preoccupation of the fraternities and sororities, and there is no need to duplicate their efforts—unless, of course, the independents wanted assistance in setting up their own activities.

Clark's Case

Student government could concern itself with the rules and conditions of student life. Perhaps the case of Mr. Clark should have been handled by the student body? Should not the electorate determine whether or not they wish to re-elect their leader after he has committed an indiscretion?

In the area of administering student life, the students should beware, however, of their limitations. Administration may turn out to be a full-time job which would detract too much time from their studies and thus defeat their purpose at the university.

Furthermore, the university administration is rather firmly entrenched with power. A too obstreperous student may be expelled at the university's discretion.

Why Malice Concessions?

Any serious attempt to gain certain prerogatives from the administration must be carried to a showdown. Why expect the administration to make any concessions if it knows the student will back down when faced with an ultimatum?

If concessions are to be sought, they must be sought with the understanding that someone—most likely the stu-

dent leaders—will have to risk their standings in the university.

Each student must ask himself if he is willing to face this risk. And for what? For often more than the things sought after amount to little else than a few creature comforts for a period of four years.

Risk Not Worthwhile Here's worth the risk? It would be a different story if the stakes consisted of freedom of injury, freedom of expression, freedom of association, or freedom of religion. These would be worth fighting for.

Does this leave student government without a function? It does not. Miss Ranov said that many students see student government as a preparation for a future life in politics. This may, after all, be the only rationale for its existence.

I am suggesting that ALL students, but especially the leaders, consider this rationale and accept it, but that they not play at it.

Serious Business

Politics is the concern of all because democratic government is based on an interested and intelligent citizenry. Politics should not be played at because there are too many things going on in our country and in our world which affect us vitally.

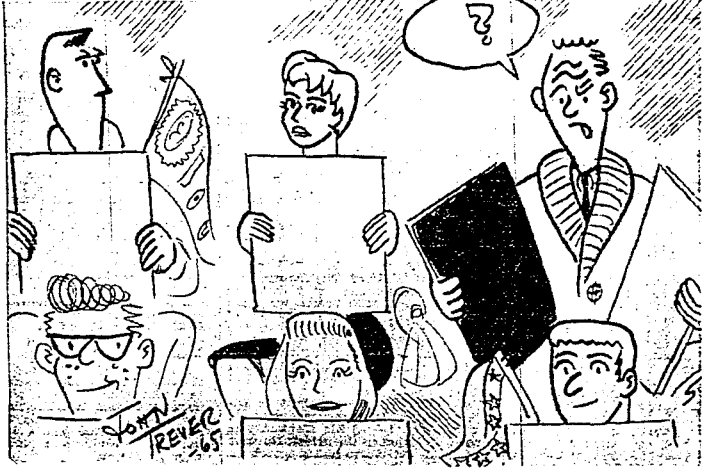

They affect us both now and for the future. As examples I cite the attacks on civil liberties, the question of government aid to education, the distribution of resources, international cooperation, etc.

In this age of threatening totalitarianism, we should be concerned with maintaining and spreading the idea of a government that is responsive to the people yet, at the same time, expect a government to respond if we provide it with no stimulus?

To the members of the JSG, and to all especially civility, I say give the student body responsible leadership. Face life by leading the student body into its arena.

Do not dote yourself and others by playing in a fair-land of pretty diversions. Provide an organization that will help the students to express their views and help them to define their relationship to their society, that will help them to effect, if they wish, a change in society. If you can do this, if you can even provide a beginning, then, and only then, will you have validated the existence of student government.

Ernest M. Madsen Graduate Student Maxwell School

(Placard cheering scene): "You know I thought the entrance exams were awful simple here."

**NO APPOINTMENT NECESSARY**

**CITY OPTICIANS**  
115 WEST WAREN  
CORNER OF WAREN

**FIRST RUN MOVIES**

**RIVERIA** — No fooling, folks and gals, Brigitte acts her sexy little head (and body) off in a pretty good, murder trial film, "The Truth," Brigitte murders her snotty guy friend and the issue of the trial becomes whether or not the murder was a "crime of passion" (got that folks, "passion"). Everyone is surprised at the quality of this film, you will be too. BB at 6 and 9:15 p.m.

**LOWE'S** — Unlike the Dr. Killdare films of medicine for the masses, this one, "The young Doctors has a message. Old doctors don't die, they just get diagnosed away. Frederic March, Ben Gazzara, Ina Balin and Dick Clark (that's right, Dick Clark) play various doctors, interns and nurses in some argument about who was a better doctor. Frederic March or Lionel Barrymore. Unfortunately, they use a rather dull scalpel (and script) and anesthetize the audience. E+ at 6:20 and 9:45 p.m.

**PARAMOUNT** — "Francis of Assisi" is a religious, not much of an epic film with small amounts of sex, sadism and spirituality. B r a d f o r d Dillman doesn't bother to really play the merchant's son who forsakes his rich life to become a beggar and preacher for Christ. If Francis never seems to lack spiritual food, the film writers did, as evidenced by their script. This biblical bore also stars Delores Hart, who, if only by comparison, acts her part of Sister Clare quite well. Go to church, Sunday, you'll enjoy Dean Noble much more than this one, which plays at 7:30 and 9:30 p.m.

**KETTES** — Edgar Allan Poe's short but scary "The Pit and the Pendulum" has been enlarged, with an equal amount of horror, starring (who else?) Vincent Price. Play-a-sadistic inquisitor. Price inquisits the hell out of John Kerr, and squeemish little girls who go to horror movies. The blood is in full color. Torture at 7:30 and 10 p.m., Friday; 8:30 and 11 p.m., Saturday.

**ECKEL** — Revulsion on the Rio Riva in Ferrico Fellini's sensuous sermon on sin, "La Dolce Vita." Well done to the point of being overdone, it stars, mainly the seven sins, with a few new 20th century ones (like Anita Ekberg) thrown in. Decadent Rome at 8:30 p.m.

**SHOPPINGTOWN** — One of the best in town now, "Guns of Navarone" provides plenty

of action and thrills on the Aegean Sea. Gregory Peck and David Niven forgo the charm to provide good, solid, performances as guerrilla fighters. Adventure at 7:15 and 9:47 p.m.

**NEIGHBORHOOD HOUSES HOLLYWOOD** — Troy Donahue parades through his new home in a red sweater and just happens to be the answer to three girls' dreams in "Parish." On the same bill is "Sins of Rachel Cade." Need we say more. Red tobacco at 9:09 p.m., Friday sweaters and Connecticut Saturday.

**MIDDOWN** — Taken from a Broadway play, "Raisin in Sun" doesn't quite hit the mark, but TV's hero David Suskind deserves an "A" for effort in trying to show the problems of a middle-class Negro family. Sidney Poitier turns in a good performance. Raising at 8:08 p.m.

**FRANKLIN** — Haley Mills, now topping pop music charts with "Let's Get Together," stars in "Parent Trap" — the reuniting story of twins and their attempt to reunite their estranged parents. "Flying Fontaines" is fourth class. Togethernesses at 8:30 p.m., "Flying at 7:10 p.m.

**WESCOT** — Put on your sandals friends, walk through Thorden Park, and commune with nature for a while. When you're finished, go to the Wescot and commune with Ingemar Bergman for a while. His two best films "Wild Strawberries" and "The

Magician" are now showing, amid sandals, sneakers and the popcorn. "Strawberries" at 6:45 and 9:55 p.m., Magic at 8:15 p.m.

**PALACE** — Walt Disney and his snowy version of Ilin Tin have invaded Syracuse in "Nikki, Wild Dog of the North." The millionth story (at least that's the way it feels) of Robin Hood, "Sword of Sherwood Forest," shares the bill. Canine at 7 and 9:35 p.m.; "Good old Robin" at 8:13 p.m.

**KALLET - GENESSEE** — For Dog lovers only. "Nikki, Wild Dog of the North" like a visual massage, with good color shots by Disney. "Ring of Fire" is at least another movie for the same price. Art, Art at 6:45 and 9:30 p.m., Friday; 6:30 and 9:30 p.m., Saturday. Fire at 8:05 p.m., Friday and 7:55 p.m., Saturday.

**DRIVE - INS**

**LAKESHORE** — Looks like it's going to be almost impossible to escape Walt Disney this weekend. You guessed it, friends, "Nikki" is here too. Rubber — faced Jerry Lewis provides a few chuckles in "The Ladies Man." Pido at 7:30 and 10:50 p.m., Ladies at 8:55 p.m.

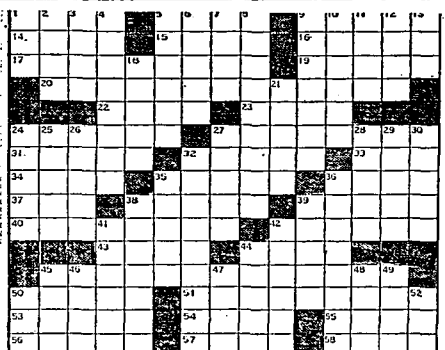

**DEWITT** — We've just about run out of synonyms for dogs so suffice it to say it's "Nikki" again. Fred Astaire proves you're never too old to be debonair in "The Pleasure of His Company." "Nikki" at 7:30 and 11:05 p.m., Pleasure at 9:05 p.m.

## Orange Harriers Open Oct. 7

The only other fall sport besides football at Syracuse gets under way Oct. 7 when both the varsity and freshmen cross-country teams swing into action. A week later, Oct. 14, the frosh football team will open its schedule by facing the Navy Plebes

at Annapolis. Coach Jim Shreve's yearling gridlers have a four - game slate this season. Since Shreve took over the reins as frosh football coach two years ago, the Tangerines have not been beaten.

# West Virginia Invades Hill With 17 Game Losing Streak

By DAVE DEAN  
Associate Editor

A 17 - game winless streak, a physically battered team, and a questionable starter at the quarterback position provide the basis for West Virginia's invasion of Armbold Stadium Saturday.

The Mountaineers came up with 12 injured men during last Saturday's 16 - 6 loss to the Commodores of Vanderbilt, one of the injured men being starting signal - caller Fred Colvard. Colvard, a sophomore, suffered

a broken nose, and is at best a questionable starter against the Orangemen.

**Leads WVU Offense**

The loss of Colvard would deprive the Virginians of their team leader in five of the six offensive categories. The sophomore star leads the team in rushing, passing punt and kickoff returns, and scoring.

Although virtually stopped with only 37 yards in the five departments again - Vanderbilt, Colvard had picked up 239 yards

the previous week against Richmond.

Even Colvard's efforts could not win the Richmond game, a 35-26 setback for the Mountaineers. This, combined with the Vanderbilt loss, extends a losing streak which began on October 17, 1950.

**Winless Years**

During this nearly two - year period, the only credits on the West Virginia ledger have been a pair of ties. The debits include a pair of losses to Syracuse, 44-0 and 45-0.

Colvard, a 6 - foot, 182 - pound - scruber, made a most auspicious premiere in the Richmond game. Playing 32 minutes, he scored 20 points in his first varsity game, more than any WVU player was able to accumulate in all of 1950 or 1960.

This single accomplishment included a 68 - yard punt return and a 33 - yard run from scrimmage, both better than the best gains last season.

#### Backfield Threats

As is considered backfield threats are junior halfback Jim Moss and sophomore fullback John Bosley. Moss owns the top rushing average with 8.1 yards per carry for nine attempts, while second stringer Bosley led the team in rushing against Vanderbilt.

Junior end Ken Herock and yearling fullback Glenn Holtorf are the top pass receivers with a pair of receptions each.

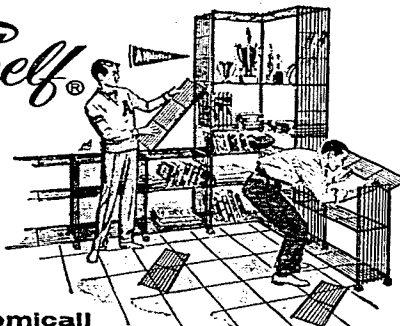

Mountaineer coach Gene Corum attributed superior line play to sophomore centers Clem Gormac and Joe Kiselica, senior tackle Bill Winter and junior guard Bob DeLorenzo in the Vanderbilt loss.

## Just What You've Needed for Your Books!

# Erecta-Shelf®

Design it yourself...  
To Fit Your Space  
and Needs

So easy... So economical!

You don't have to be an engineering major to design and assemble your own bookcases, room-dividers, or TV and Hi-Fi units with Erecta-Shelf. It's fun . . . simple . . . practical and inexpensive!

By combining just 4 panel sizes in satin black or gleaming brass wrought iron, there's no limit to the number of arrangements you can design to fit your space and needs. Note that straight panels can be used horizontally or vertically . . . and horizontal panels may be attached at any desired height on the vertical panels.

#### EASY TO ADD TO OR TAKE APART

Anytime you wish to make your unit taller, longer or deeper simply add more Erecta-Shelf panels . . . or change the arrangement completely. It's a cinch to disassemble for moving too. Plan your unit (we'll help you if you wish) and come in for your Erecta-Shelf panels and free detailed brochure.

#### ERECTA-SHELF PRICE LIST

Panel Size	Satin Black Finish	Gleaming Brass Finish
30" Panel	\$1.99 ea.	\$2.99 ea.
24" Panel	2.39 ea.	3.39 ea.
30" Panel	2.89 ea.	3.89 ea.
Corner Panel (24" x 24")	3.99 ea.	5.99 ea.
Wood Bases	.19 ea.	—

## SU Bookstores

**Vertical Bookcase**  
Consists of 7-20" Panels, 4-20" Panels, 4 Wood Bases. Assembled Size 60" H x 22" L.

**Television and Phone Unit Bookcase**  
Consists of 6-20" Panels, 6-20" Panels, 4 Wood Bases. Assembled Size 30" H x 72" L.

**Horizontal Bookcase**  
Consists of 6-20" Panels, 6 Wood Bases. Assembled Size 30" H x 63" L.

**Corner Step-Down Wall Case or Reading Stand**  
Consists of 4-20" Panels, 5-24" Panels, 2-30" Panels, 8 Corner Panels, 7 Wood Bases. Assembled Size 50" H x 50" L x 25" L.

**Room Divider/Bookcase**  
Consists of 6-20" Panels, 8-24" Panels, 7-30" Panels, 8 Wood Bases. Assembled Size 40" H x 82" L.

## DO Sports Staff Makes Grid Picks

Once again this season, the members of the Daily Orange sports staff are trying their luck at predicting the winners of the important college football games around the country each Saturday. Here are this week's picks, the teams selected to win in capitlan.

- PENN STATE at Miami
- Reston C. at NORTHWESTERN
- Marshall at Col. GONSON
- Coigate at CORNELL
- Villanova at HOLY CROSS
- UCLA at Michigan
- California at IOWA
- MISSOURI at Minnesota
- Arizona at NEBRASKA
- Oklahoma at NOTRE DAME
- Stanford at OREGON STATE
- BYLOR at PITTSBURGH

### WATERCOLORS BY John DeTore

5 MINUTES FROM CAMPUS

# Mountaineer Terror

ONE OF THE best sophomores West Virginia has had in years is big PETE GOIMMARAC. He's the biggest man in the lineup, 6-1 and 235 pounds, and supplies leadership as center and linbacker.

# Hill Eleven Favored In Home Opener

(Continued from Page 1)  
 number two quarterbacking spot vacated by Sotgian, and has been working with another soph, Mert Bane to provide extra depth. Another switch finds second year man Bill Schoonover back at his familiar fullback post on the second string.  
 "Football is a physical sport," said Schwartzwalder, "and if our boys go out there trying to defend themselves because of their injuries ... well, a game only takes 60 minutes, you know."  
 "But 'Bantam Ben' isn't selling his own men short by any means. "They're in good kids and they'll hustle," he commented. "They are smart enough to know that it won't be a picnic - only stupid people would think it would be."  
 Starting center Bob Stiem summed up his view on the players' spirit with an enthusiastic "very good."  
 Schwartzwalder took time to digress a moment on the heavy point spreads that both fans and gamblers alike are expecting his team to win by. "We can never be good enough for what some fans expect from us," he said. "He believed it would be better

if the fans wouldn't always expect the big win, but to get behind their team and give them a lift.  
 The Orange coach seems to be taking the fact that his 100th victory is on the line, and that he will try to snare it by beating his alma mater, for granted.  
 "I've been playing them a long time now," said Schwartzwalder. "I suppose the first time I played them it was different. But there will be a lot of friends of mine from West Virginia up here for the game and I guess that will give some kind of a twist to it."  
 The Piety gridder's hold a 6-2 edge in total games against the Mountaineers. Two years ago the national championship team ran over the West Virginians 44 - 0 in Arehbold, and last year's aggregation trounced Gene Cornum's men 45 - 0 at Morgantown.  
 A crowd of more than 25,000 is expected to witness the home opener, and Ticket Manager Harold Michaels reported a sharp increase in duet sales early in the week.

**Versatile Easterly**  
 Syracuse University football captain and right halfback Dick Easterly was regular center-fielder with the Orange baseball team that placed fourth in the College World Series last June. Dick is a 185 - pound senior from Syracuse.

**"SASHAY TO SADLER"**  
 Open House  
 After West Virginia Game  
 4-6 P.M.—  
 Combo Refreshments;  
 All Welcome!  
 GUSTAVE NELSON, 866 GR 8-9761

# Orange Grid Alumni Active In Pro Ball

(Editor's note: The following article was written by a former member of the sports staff. He was the managing editor of the DO in 1958-61.)

**By ANDY JOELSON**  
 Everybody knows that former Syracuse greats Jimmy Brown and Jim Ringo are now National Football League standouts.  
 But what's become of such other Orange grid stars as Art Baker, Al Bemiller, Fred Mautino, Bruce Tarbox, Ger Schwedes, Roger Davis, Maury Youmans, Tom Stephens, Bob Yates, Ron Luciano, Dick Lasse, Jim Ridlon and Tom Gilburg.  
 Baker and Bemiller, both stalwarts of last year's Piety eleven and the 1959 national championship team, are now with the Buffalo Bills of the American Football League.  
**Baker With Bills**  
 Baker, who got a late start with the Bills because of his appearance in the August College All-Star game, has had a hard time getting untracked and is currently Buffalo's second string fullback.  
 Bemiller, on the other hand, is now the Bills' starting center. He was the only back by a team's coaches that they released last year's first string center weeks before the start of the regular season.  
 Mautino, Tarbox and Schwedes currently are not playing professional football. For no announced reason, Mautino, a 1959 All-America end and a 1961 Hill graduate, quit the NFL Pittsburgh Steelers' training camp at the start of last summer. He's now a Freshman grid coach on the Hill.  
**Draft Choice**  
 Tarbox was the surprise first-round draft choice of the NFL New York Giants last winter. But the big guard was dealt to Los Angeles during the pre-season training period and was subsequently cut by the Rams.  
 Schwedes, the Orange's most dependable halfback in 1959, signed a two-year, no-cut contract with the Boston Patriots of the AFL. But as many suspected, he was too slow for pro football and was traded to the New York Titans and back again to Boston last season, and this year announced he was retiring to enter private business.  
 Dave everybody's 1959 all-America guard, and Youmans are now mainstays for the NFL Chicago Bears. Davis was injured part of last season, but Youmans played the whole year on the Bears' starting offensive line.  
**Boston Boys**  
 Stephens and Yates are now with Boston. Stephens, like Schwedes, was thought by many to be too slow for the pros. But the Patriots have converted the Class of '59 Syracuse halfback to

an end, and he is doing the job. Yates, who with Bemiller, Mautino, Tarbox, Davis and Youmans helped form the Orange's 1959 "Sizable Seven" line, reported to the Patriots last year far out of shape, and sat out the season. But he's back this year, handling the team's kickoff duties and playing on the defensive line on a spot-duty basis.  
 Luciano has been plagued by a shoulder injury ever since his 1958 all-America year at tackle for Syracuse. Originally drafted by Detroit of the NFL, he was cut by the Lions last summer, caught on with the AFL Bills, and was cut by them.  
**Lasse With Redskins**  
 Lasse, the 1958 All - East end and Hill grad, tramped around the NFL for a while before catching on with the Washington Redskins as a defensive end.  
 Jim Ridlon, who played alongside Jim Brown during the 1955, '56 and '57 campaigns, is a defensive backfield specialist with the San Francisco Forty Niners. Tom Gilburg, former Orange tackle and ace punter, does similar duties for the Baltimore Colts. Both clubs are in the western conference of the National Football League. Gilburg averaged 41.4 yards punting for Syracuse last season, a new Hill record.

Notes about other former Syracuse gridder:  
 Carl Karilivacz, for several years an All - NFL defensive halfback, retired at the end of last season. He was a member of the Class of 1953 on the Hill.  
 Gene Grabosky, the mammoth 260-pound second string lineman for the Orange in 1959, was signed by Buffalo last year, but did not play because of a leg injury. Last summer, he announced his retirement.

Due to an overwhelming response against our bold attempt to revolutionize newspaper layouts last week, you will, from this day forward, find our tales always following our heads. We promise.

First on the docket is the hope that Bill Orange, double wing, et al, continues to thrive on this week's batch of goodies, the Mountaineers of West Virginia, as well as he did that first serving of Oregon Duck.

Speaking of winning and food naturally brings us to a nearby restaurant that's a real winner because it caters to almost every taste. In fact, about the only thing they don't have is . . . well, you guessed it.

For example, for those who haven't had the time or energy or wherewithal to spend a second in July, the Caroma Restaurant is the answer to all your problems . . . you won't miss a thing—food wise.

Spaghetti with sauces any way you like it, macaroni and ravioli served with a choice of over two dozen sauces. The Caroma a touch of old Italy right here in the old Salt City.

Lasagna, piping hot with layers of noodles and mozzarella, meat, eggs, ricotta and sauce is another specialty. So is chicken cacciatore.

Some other dishes, rare but tasty, are baked with mozzarella cheese, braciola a la neapolitan with spaghetti and homemade ravioli with ricotta, a sweet cream cheese.

A real delicacy on the menu is Eggplant Parmesan—which Rose Wadanele, one of three sisters operating the Caroma calls her best and most unusual. Baked with the eggplant, delicious by itself, are various cheeses and although it is very rich, once you taste it, you won't mind it one bit. No kiddin'.

Of course they make pizza in about twenty varieties and offer take-out service. Call GR 4-2119.

Now, if you're a steak and potatoes man, hold on, because Caroma matches its Italian cuisine with good old American cooking, too.

Fish, fowl, steaks, chops and veal are all part of Caroma's full course menu. Chicken, golden fried, roast turkey, haddock, lobster, crabmeat, sirloin, tenderloin and on and on, but we'd better stop before we work up your appetite.

What's really amazing about Caroma, however, is the fact that everything is homemade, even the pies! and that's the way CAROL, TOSIE and MARY have had it for 20 years.

So this weekend, or any weekend, when you'd like some real Italian or American cooking, keep Caroma in mind.

It's only about ten blocks from the Hill, follow Course to Burnet to Lodi and you're there. P.S. Good luck to the gridgers, and good luck to you Mountaineers: fellas, we're afraid you'll need it.

## Photojournalism Seminar Slated

The Second Annual Photojournalism Seminar in the East will be held in Syracuse Nov. 15-17. Twenty-five noted editors, writers, photographers and art directors from the United States and Canada will participate in lectures, panel discussions and informal sessions.

The purpose of the conference is to examine photography's role as a effective means of communications in an unsettled world.

One hundred fifty people are expected to attend the sessions to be held in the Hotel Syracuse and the banquet to be held Nov. 16 in Graham Hall on the Hill.

A writer-photographer team, J. Robert Moskin and Jim Hansen who recently did an article on Berlin for Look Magazine, will

attend. Other speakers will be Yoichi Kozumoto, of the United States Information Agency; Douglas Borgstedt, Saturday Evening Post; Arthur Goldsmith, This Week Magazine; Clay Felker, Esquire Magazine; Duwayne Orton, Think Magazine; Norman Orton, Think Magazine; Norman and photographers, editors and writers from the New York Times, Newsweek, the Toronto Star and The New York Daily News.

# Nightmare Film Has Tired Plot

Take four top acting talents Frederick March, Ben Gazzara, Ina Ballin and Eddie Albert and combine with a tired movie plot (it's calling Dr. Kildare again). Add a plea to create higher medical principles by divorcing the operating room from the administrative offices and an overdose of Dick Clark for amateurism and what you have is a critic's nightmare.

"The Young Doctors" is a movie with moments of tremendous impact, overwhelming dramatic force and a tendency to wander deep into fantasy.

Frederic March turns in a superb performance as the cantankerous old chief pathologist (post-mortem examiner) in a small and poorly financed New York City hospital.

Personality Class  
Ben Gazzara also demon-

strates his worthy acting ability as an ambitious young assistant who resorts the sometimes slipshod methods of his superior.

The plot centers around the natural personality clash that develops between the men.

The film was shot on location at five New York hospitals, and to add to the realism there are three corpses (we counted) and closeups of a human brain and liver extracted during an autopsy.

If your stomach is weak, you might consider these scenes a little ghoulish and we would recommend waiting until you have completely digested your dinner before attending the movie.

As for a recommendation, all we can say without qualms is that "The Young Doctors" will hold your attention for the full hour and forty two minutes. S. C.

# Hillel Members To Hear Panel

B'Nai B'rith Hillel Foundation begins its regular series of Sunday night suppers this Sunday, at 6:15 p.m. in the Chapel House.

The program which follows the supper, will feature a panel of students discussing "Israel and the American College Student."

Four students, each of whom have recently visited Israel, will discuss various aspects of the topic. The panelists are: Dania Katzenstein, Deanna Dubina, Ed Fishman, and Michael Kogan. Moshe Krieger, Instructor of Electrical Engineering, will serve as moderator.

The program is under the chairmanship of Sue Amour, Hillel cultural chairman. Hillel members will pay \$50 for supper. The charge for non-members will be \$75. Lynn Kutner, Hillel social chairman, is in charge of the supper arrangements.

## God is Dead Theme of Book

By KEN NORWICK

God is dead. This, very briefly, is the thesis of a new book by Dr. Gabriel Vahanian, an Assistant Professor of Religion at Syracuse. It was published this summer.

The book, "The Death of God," argues that contemporary Western culture, in Vahanian's words, "is more than anti-Christian, it is post-Christian."

"The Biblical idea of God," Vahanian said in a recent Daily Orange interview, "is dead. The cultural relevance of the Judeo-Christian understanding of God has ceased to be meaningful."

Although he does not say when the death of God occurred, Vahanian feels very strongly that the Biblical concept of God is no longer meaningful in Western civilization.

"The Judeo-Christian tradition has been replaced," he says, "by a post-Christian religiosity. God died as soon as He became a cultural accessory and a business partner."

Vahanian, who has become a controversial and popular member of the Syracuse faculty since he joined it four years ago, wrote "The Death of God" in six months in 1960.

Before coming to Syracuse he was an Instructor of Religion at Princeton.

Although he has had numerous articles, reviews and poems published, "The Death of God" is the first book by Vahanian to be published. It was published by George Braziller and sells for five dollars.

Divided into two major sections, "The Religious Agony of Christianity" and "The Cultural Agony of Christianity," Vahanian's book closely examines what he sees as "our soulless culture."

"He dissects," according to a New York Times review of his book by Robert E. Fitch, "Graham Greene, Bernard Shaw, Samuel Beckett, dissects the Gestalt-figure in fiction; has a word for Sartre and for Salinger, for Marjane and for Tillyard, and for the 'vestigial Christian' Bultmann. He also gives us the gist of the difference between Job and MacLeish's character, J. E."

"I'm reporting the present state of Western Culture," Vahanian said, "with the aid of my sources through writings, re-

cent, concrete, history, and such cultural manifestations as novels and plays."

(Continued on Page 8)

## Cressey Appointed Phi Beta Kappa Visiting Scholar

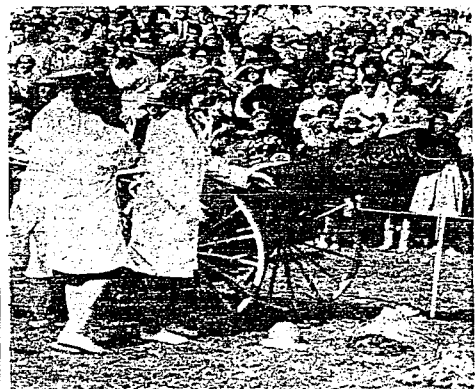

Dr. George Cressey, professor of Geography in the Maxwell School of Citizenship and Public Affairs, has been named by Phi Beta Kappa as one of its seven national visiting scholars of 1961-62.

A visiting scholar is chosen by Phi Beta Kappa to visit campuses around the country and to participate in their academic programs.

He usually gives several public lectures, conducts classroom discussion and meets informally with both faculty and students. Dr. Cressey will spend several days at Angos Scott College in Georgia, Pennsylvania State University, University of Connecticut, University of New Hampshire, Wellesley College, Colgate University, University of Arkansas, University of Kentucky, and Dickinson College in Pennsylvania.

Professor Cressey joined the Syracuse faculty in 1931. Formerly chairman of the Department of Geography, Dr. Cressey has written many books and is one of the most renowned geographers in the world today.

Phi Beta Kappa, the national liberal arts honorary society, began its visiting scholar series in 1956. National Phi Beta Kappa headquarters in Washington, D.C., notified Cressey of his appointment as a visiting scholar.

A NEW HILL tradition was unveiled at Saturday's game in Archbold Stadium. The "Goon-Gun" was manned by a group known as the "goon runners." The new cannon is a replacement for last year's ATON gun, which exploded and was banned from further use at games.

## Goon-Built Cannon Debuts 'Gainst W. Va.

By JOYCE HERGENIEMAN

Spectators at Saturday's game witnessed the debut of what is hoped will be Syracuse's newest tradition.

After each Hill touchdown, a string of orange balloons beaded with orange and blue crepe paper streamers was shot aloft by an eight foot cannon called the "Goon Gun."

To Fill the Void According to Traditions Commission treasurer Robert Gerber, the cannon was created "to fill the spirit and color void left by the unfortunate explosion of last year's cannon."

The orange and black gun was constructed by a group of Goon Squad members under the leadership of Joseph Kinnebrew, a sophomore from Grand Rapids, Mich.

No More Broken Eardrums It is triggered by a carbon dioxide fire extinguisher and it

makes a comparatively quiet whistling sound when fired.

The eight-foot black barrel is held together with friction tape and is decorated with orange stripes and the words "Goon Gun."

The wobbly orange and blue wheels are "genuine wagon wheels" bought at a farm in parish and are, according to Gerber, much sturdier than their appearance would indicate.

A firing squad consisting of Goon Squad and Traditions members in orange crash helmets and white lab coats manned the cannon and attempted to work it in correlation with the band and cheerleaders.

Originally called "The Goons of Navaronne" by one of its punny organizers, the cannon name was changed to preserve the sanity of all concerned.

## Plans Made For Colgate Weekend

"The Last Hurray!" will be the theme for the Colgate Weekend, Saturday November 14, announced the Sophomore executive council. The traditional "5th Quarter" dances are scheduled to be held the night of the game.

Nine committees have been organized and chairmen appointed for each division. Over - all co-chairmen are Burr Cain and Nancy Booth. Lloyd Basin is in charge of entertainment. The publicity committee will be headed by Merrill Shields and Jeff Bonn. Committees for decorations and arrangements will be organized by Pat Thatcher and Charlie Peitosh, Jane Rosenberg and Dick Lasano, respectively. Peter Hyams and George Ann Spota will head the committee for buttons. Refreshments, tickets, and programs is under Steve Bogoff, Louis Willig; Joan Kay, George Norton; Mike Steingard and Bonnie Brigadier.

All interested students may sign up for any of the committees at the main desk of the Wo-

men's Building. Questions and suggestions should be directed to the heads of the various committees.

## Pi Sigma Alpha Inducts Officers

The Syracuse chapter of Pi Sigma Alpha, national political science honorary, inducted new members and elected and inducted officers at the end of last semester.

The new officers are: president, Ken Norwick; vice president, Sue Feicus; secretary, Louise Marquis; and treasurer, Bob Socwold. Elected to the honorary's executive committee were Martha Gallagher, Peter Phillips, and William Mollinneau.

The new inductees were: Martin Nass, Marian List, William Vishno, Laurie Gordon, Barbara Stamm, Howard Falley, Joanne Kraft, Michael Fiat, Gail Pohl, Marian Frommer, and Linda Rosevear.

Also: Bruce Kay, Lawrence Tatum, Sang Un Lim, Michael Anzivina, Leonard Weinberg, Richard Nadler, Sandra Myers, Tod Clark, Benjamin Golub, Al Guido and John Rosstter.

## Gaskell to Resign As US Party Head 'For Party's Sake'

Other Party Officers  
To Resign After  
Frosh Elections

By ALAN G. MILLSTEIN

The three major officers of the United Students political party on campus Friday announced their impending resignations.

While announcing his own resignation as president and chief strategist of US, Ellis Gaskell also said that Kenneth Norwick, party vice-president, and Jacqueline Flamm, party secretary, will also give up their party offices.

The resignations will not be effective until after the freshman election on November 1 of this year, Gaskell said.

For the Party "We are resigning in the best interests of the party," Gaskell said. "Our resignations will enable new blood to take control of the party and thus propagate the life of US," he added.

At present, the major figures in U.S. are for the most part party veterans. Richard Cost, US party treasurer, is a sophomore and his resignation was not handed in by Gaskell.

Gaskell said the official announcement of the resignations will be made at the first meeting of US in the near future. "This is a purposeful act planned only to benefit our party," Gaskell emphatically said.

It appeared on Friday that Gaskell was acting in the hope of perpetuating the life of US. The seriousness of Gaskell's action should be underrated since US swept last spring's campus elections and is expected to repeat its success this year.

Neither Norwick nor Miss Flamm were available for comment on Friday, but Gaskell was certain they would join him in handing in their resignations. US has generally the brains of a child of Ellis Gaskell and is expected that the party will accede to his wishes at the first party meeting.

Possible Successors

Gaskell did not seem concerned over the future of the US party. "I expect that new officers will come from the lower classes on campus," Gaskell said. "There is a wealth of talent awaiting to take over the leadership of the party," he said. Gaskell indicated that sophomores Richard Cost and John Gaskin and juniors Henry Lee and Marjorie Deutsch were all possible successors.

Let Me Emphasize: Gaskell added that there will be absolutely no strings attached to the selection of my successor . . . I will indicate no personal preference."

US Solidified

Gaskell said he expected that his action would in no way cause the collapse of US. "You can't solidify anything as solidified as (Continued on Page 6)

## Freshmen Like Syracuse Life

By MELANIE COHN

A random campus survey indicates that this year's freshmen class thinks Syracuse University is the greatest place ever.

Members of the Class of 1965 who were questioned were unanimous in agreeing the upper-classmen were very friendly and helpful.

Merrill Post of Syracuse said, "What I think of S.U. . . . a wonderful, friendly atmosphere with all at hand."

Campus social life rates high with the Frosh. Another Syracuse girl, Toni Martini, exclaimed, "The social life is amazing, and as for the academics . . ." Bob Jaeger, of St. Louis, Mo., has a different complaint—snobbish girls. He added, however, that he did enjoy the scenery in Thornton Park.

Frosh Glen Eichelberger said he has a "good impression of Syracuse," and added "If the academics are intermingled with the activities, then assuredly there is a good year ahead."

With a glum expression, Bill Quinn aighed, "the food is getting harder and the courses are getting harder." He added, however, that the social life was excellent.

Harry Craig Kowalds of Bel Air, Md. likes the new buildings, especially the field house. He also thought there were comparatively few cliques, "a refreshing change from high school."

The "cosmopolitan atmosphere" of the university is most pleasing to Frosh Dianna Moyer, while classmate Judy Howes thought life on the Hill was "far too hectic."

## DAILY ORANGE MEETING SET

A meeting of the entire editorial staff of the Daily Orange will be held at 4 p.m. today at the "Hollbox" pre-fab 7B. This includes new staffers. Attendance is mandatory. Those who have not yet signed up for the DO are welcome.

Editor-in-Chief \_\_\_\_\_ Sam B. Girgus  
Business Manager \_\_\_\_\_ Andrew Levitt

**Moving Day**

By this morning the residents of Dewey, Morton and Vernon cottages will have left their original living centers for new homes on the Hill. The reason for the change is to save the university the expense of keeping all three living centers in use while there exists vacancies in larger dormitories. University officials obviously expected more students to be coming back to school this year. But perhaps it is a mistake on their part to show more concern for the students who have not returned than for those who did. The girls involved, we think, do have a right to be angry over being forced to move in such a hasty fashion and in uncomfortable conditions. They also will be forced to move into quarters which they deem to be less desirable. This is largely because new residences means the breaking up of old friendships. It is an unfortunate situation and one which we hope the university will be able to rectify in future years.

**Dean Clark**

A man who has made many contributions to Syracuse University, Dean Wesley C. Clark of the School of Journalism, has been asked by the United States government to give a series of lectures in Ecuador and Mexico. Dean Clark will be lecturing on the press and public affairs before some of the most distinguished journalists in South America. He will also serve as a consultant on a prospective school of journalism and communications at a new university in Toluca, Mexico.

Dean Clark was selected for the job by the office of Cultural Exchange of the Department of State. We think the choice was a wise one.

**Dick Nixon**

Former Vice President Richard M. Nixon has announced his entry in the California gubernatorial race. Thus Mr. Nixon has ended a long running mystery in which he was wooed and finally won by the California Republican Party.

For Dick Nixon, the 1962 race against incumbent Pat Brown represents the most important decision of his career. A victory of sizable proportions over the popular Brown and the strong California Democratic party would virtually place the 1964 presidential nomination in his lap. Rockefeller would have to win spectacularly to even stay in the running for the 1964's national convention.

Giving up his role as titular head of the Republican Party, Nixon is trading this honorary title for the chance to demonstrate his vote getting appeal in his home state. A victory at the polls could mean a new political career for Nixon, but a defeat at the hands of his fellow Californians could bring to a dramatic end a political career marked by its soaring heights and unbelievable lows.

**By REN NORWICK**  
Depending on whom you listen to, the Syracuse police force is either "totally corrupt," "rough on college students," or just plain "no good altogether." Really, if ever, do you come across anyone with kind words for "Syracuse's Finest."

Admittedly, until a day or so ago, I would have gone along with this consensus of opinion. Now, however, I have nothing but praise for the city's men in blue. One of the joys of owning a car in the city of Syracuse is an ingenious invention called "Alternate Side of the Street Parking." Practically every street in town is so encumbered, no doubt in an effort to assure consistency in police administration.

**Rules of the Game**  
Anyway, the rules of the game are that the car owner, regardless of the hours he keeps, has to make sure that by 8:30 in the morning, but not too much before, his car has to be parked on the opposite side of the street from which he parked it the night before.

You see, on even days of the month you park on a certain side of the street, while on the month's odd days you park on the other side. It's really very simple.

Except on those days when you don't have to, or for one reason or another, can't get up by the ridiculous hour of 8:30 in the morning. This complicates things a great deal.

**Glorious Slumber**  
Take, for example, the hard-working university student who doesn't happen to have classes on a particular day, and who appreciates a few extra hours of glorious slumber. He's really got a problem.

He has the rather absurd choice of getting up at that ungodly hour and moving his car to the other side of the street, only to return to bed and find he can't fall asleep again, or, of course, staying, in bed with the philosophy: "Ah, what the hell, so what if I get a ticket."

Well, needless to say, on a particular morning last, confronted with this very same choice, this hard-working university student chose the later alternative. And, of course, he got a ticket.

**Pressed to Court**  
The ticket, which is pink, of all colors, states in part: "You are hereby directed to present this tag and your operators license within 3 days of date hereof to traffic Court at 9:30 am. . ."

The following day, incensed with civic obligation, I headed for Traffic Court, intent on having my "day in court" despite my very obnoxious guilt. Only I got there a little too late. "Court is in session," a kindly old ticket taker told me, "from 9:30 until noon, and as you can plainly see it is now 1:30."

The ticket - taker had an excellent point, and I lie, to return another day. But the fates, it seems, had other plans.

**Tugged Again**  
For, as I disappointingly returned to my very legally parked car, which was very legally parked in a metered space for which I inserted a very legal U.S. nickel in an apparently very legal parking meter, I found on my windshield another pink (why pink?) "Notice of Traffic Violation."

It seems the meter into which I inserted my very legal nickell was no damn good. Indeed, not twenty minutes after first inserting the nickell a big red (why red?) sign in the machine read "VIOLATION."

I mean this was really ridiculous.

So, incensed with civic indignation and realizing I was innocent of the charge, I immediately tracked down the accusing officer, not really knowing what to expect or how

— LETTERS —  
**Reader Sees Need to Defeat Communism**

**To the Editor:**  
Norman Thomas seems to have forgotten that the United States is engaged in what could be its final war. Mr. Thomas says "Russia desires peace," but he does not state the kind of peace they want. He fails to remember that the Communists will not rest until the entire world is Communist. This is the "peace" they want.

As for me, I will take war-cold or hot—rather than live in such a distorted "peace."  
The sooner we, as Americans, realize that the U. S. is fighting for its life, the sooner we can defeat the Communist plague. Because if we don't defeat it, it will defeat us.

This is a free country. Mr. Thomas can say what he wants, but surely an attitude like: "I would rather crawl on my knees to Moscow than die under an H-bomb" will surely bring us to our knees!  
George D. Doin, Class of 1964

he would react to my pleas of innocence.

**Moment of Suspense**  
Well, I found the guy, and told him my story, holding my breath and crossing my fingers all the while. Much to my surprise, however, he neither laughed nor sneered nor even tried to take a swing at me.

Instead, as unbelievable as this may sound, he agreed and sympathized with me. He really did. He also told me to hurry on back to Traffic Court and tell them of these recent developments. He wished me "good luck."

I returned to the Court, spoke to about half a dozen different officers and clerks, and finally spoke to the Judge himself.

After convincing that this wasn't a fraternity gig and that yes, I was really serious, he took my second ticket in two days and said something like "We'll take care of this meter ticket, but don't let it happen again."

So I may say the first one, of course, but I still say the Syracuse cops are OK by me.

— LETTERS —  
**JSG Apathy Hit; Columnist Draws Praise**

**To the Editor:**  
Jeannie Ranov's article on SU student government was a refreshing contrast to the "I'm in a rah and 'good citizenship' attitude that has been splashed across the front page and editorial column of the DO these last few days.

The failure of the JSG is not to student apathy, but to the elected representatives' apathy. Syracuse University has not had a strong student government in the past three years, no matter what Dean Faigle or the DO may say.

The student body, varied as it is, does need a place to express itself, but the student government has not been that place, and apparently the editors of the DO are the only ones who do not know it.

Harry Finley,  
Class of '62

**Switchboard Head Praises DO Story**

**To the Editor:**  
I wish to thank both the staff of the Daily Orange and Miss Mary Ruth for the article placed in "This Week" paper, "Phone Service Threatened in dormitories."

It has resulted in an improvement in both student attitude and in student cooperation. It has also been responsible in reducing student requests for dormitory extensions by approximately 50 percent. Evidently students are now requesting telephone information from fellow students.

We do appreciate the cooperation received from all Switchboard Staff.

# Television Programs Seen Reflecting Lax Society

By JAN GRIFFIN

Edward H. Murrow is decrying the lack of public awareness stimulated by television. Educators want television to teach the public more. Mothers want the set to do a better job. Every body wants a piece of the screen to serve their own cause. They want TV to improve society. They forget that television is a product of society, not programmed by a perverted group of outsiders exploiting the human race.

All that is good or bad on television was put there by the same kind of people that run drug stores, insurance agencies and used-car lots. They are not going to walk the straight and narrow any closer than the rest of the race.

They are primarily businessmen, and will program what it pays them to program. If it rets too bad and they are in

danger of losing their license, they will hold off, because a big audience and no license doesn't pay.

This unromantic view of human economics fits into all business, but the cry raised about it depends on the number of people simultaneously involved. Television is the largest of the moral bad boys. It therefore rates the center ring.

Miles of copy have been written about the deplorable state of television. I would here suggest that it reflects a rather lax state of American society. They watch the trash, the "vast wasteland" by the millions. Do something about their taste and television will improve immeasurably.

This is not to say that the television industry has no responsibility to program decent material. They do. They are very derelict in this duty. But, they are businessmen making money. Out of conscience they are improving, slowly, but surely. But to program above the lever of their viewers is financial suicide.

Cultural Taste

If the cultural taste of America is in need of raising,

television is not the place to do it. People don't watch what they don't like, and by presenting high-level drama there is no reason to believe that it is being watched by the kind of people that are boosting the ratings for the trash. The cultural level of America must be altered where the audience is captive . . . in the classroom, the home.

The American educational system has decided that the party is over and it's time to make the kiddies burn a little midnight oil. Increased educational standards bring with them the promise of an educational and cultural awareness that will demand, and get, better television. There will always be some hack programming to serve the lower strata of society, which has every right to get television shown to suit its taste. But the general quality will gradually increase until the norm is at least a little above mediocre.

This does not mean the demise of entertainment programming. Television is not an egg-head medium, because it reaches the many people. Mass society doesn't go to college. But the programs, while maintaining their present forms will generally lift their standards. There will be better Westerns, better crime shows, better audience participation and drama.

The tenaciousness of television will come only after its customers demand something better, and then really watch it. TV is a mirror of society and will not reflect something that is not there.

# Ben Gets 100th Despite Scare

By MILT JOFFE  
Junior Editor

Ben Schwartzwalder won the 100th game of his 13-year coaching career Saturday but not until his alma mater almost spoiled the celebration.

Schwartzwalder played his college ball at West Virginia and by the greatest of coincidences had the bitter-sweet feeling of beating the Mountaineers to reach the milestone.

Most "experts" predicted the easiest of wins for the Orange—17 points, 35 yards, maybe more. It was in the opening moments of the fourth quarter Saturday any a heart stood still as West Virginia moved within seven points of Syracuse and looked as though they would keep coming.

### Tight Win

Fortunately they didn't and Coach Ben had his celebration, although the 29-14 margin made the Orangemen in the locker room look more like a gang that had lost.

"It's better to win than to lose," said Schwartzwalder, and a look around the East proved him to be quite true.

Friday night favored Penn State was soundly beaten by Illinois, 23-8, to burst the Mt. Lions' balloon almost before it could get off the ground. And shortly after the Syracuse game ended, this result was announced: Baylor 16, Pittsburgh 13.

Indeed, for an eastern power this weekend it was much better to win than to lose.

### Must Improve

"If we are going to beat Maryland, we're going to have to be a lot better football team than we

were today," he said. "Out there this afternoon we were just a very average team that almost got beat."

Without looking for excuses, one pops up very plainly, Ernie Davis was nursing an injury most of last week and couldn't get untracked Saturday.

Davis had one of his worst rushing games since he started playing varsity ball in 1959. The left halfback picked up only 35 yards in 14 carries, or less than three yards a try.

Once again the bright spot for Syracuse was the passing game. The Orange scored from the air three times and had 9 completions for 18 attempts.

The inspirational turning point for West Virginia came with seven seconds remaining in the first half when left halfback Jim Moss grabbed a Sarette pass and rumbled 67 yards for the first West Virginia touchdown. After this the two teams played on nearly even terms.

Although the West Virginia string of winless games has now increased to 18 most fans would agree with Mountaineer coach Gene Corum when he entered the locker room after the game and said, "I don't think we played like a team that hasn't won in two years."

ORANGE FOOTBALL captain, DICK EASTERLY (no. 17) gathers in a pass from Dave Sarette in the first quarter of Saturday's contest in Archbold Stadium. This play was a key one in the first period drive by the Hill forces, which resulted in their first touchdown. West Virginia defenders in front of Easterly are GLEN HOLTON (no. 33), who eventually made the tackle on the Plety halfback, and JERRY YOST (no. 15).

### Intramural Entries

All entries for fall intramurals are due at 5 p.m. today. They may be turned in to Intramural Director Mill Howard in Archbold Gym.

John Brown, Syracuse University's touted 235 - pound senior tackle from Camden, N. J., is a mabid weight - lifter.

### SU Soccer Club Holds Tryout

The recently organized Syracuse University soccer club will hold a tryout at 4 p.m. today at Hookway Tract (Collendale).

Soccer was dropped as a varsity sport last year due to lack of interest. However, several of the players have decided to attempt to revive the sport. They hope to plan a full schedule of games for this fall if enough interested boys can be found.

Pete Cataldi, who coached the varsity soccer squad before the

sport was dropped, is supervising the club. Players who have already expressed an interest in the club are lettermen Bob O'rsenstein, Dick Wilcox, and Meary Walsh, and sophomores Kai Dolgin, Don Cronson, and Al Pijlard.

One of the last college coaches to make a move toward offensive deployment, Syracuse University's Ben Schwartzwalder has now added a double - wing T to his offense.

**THAT'S WHAT YOU CAN WIN IN EVERY ONE OF**

# VICEROY'S Big College Football Contests

**IT'S EASY!** Just pick the ten winning teams, predict the scores—and you're in the money!

**FLASH!** ONLY STUDENTS ON THIS CAMPUS ARE ELIGIBLE!  
**FIRST CONTEST OCTOBER 7<sup>TH</sup>**

All you have to do is clip the coupon, pick the winners and predict the scores—then figure out how you're going to spend that hundred bucks! It's easy . . . just clip the coupon below or get an entry blank where you buy cigarettes and fill in your predictions of the ten game scores. Then mail it with an empty Viceroys package or a reasonable rendition of the Viceroys name as it appears on the package from to Viceroys at the Box Number on the entry blank or drop it in the ballot box conveniently located on the campus.

Open only to students and faculty members. Enter as many times as you want. Simply send an empty Viceroys package or reasonable rendition of the Viceroys name with each entry.

Entries must be postmarked or dropped in the ballot box no later than the Wednesday midnight before the games and received by noon Friday of the same week. Next contest will be on games of October 21—when you'll have another chance to win.

**LOOK!**  
**HERE ARE ALL THE PRIZES YOU CAN WIN!**

**1st PRIZE \$100**

**2nd PRIZE \$50**

**3rd PRIZE \$25**

**PLUS**

**20 OTHER PRIZES OF \$10.00 EACH**

And a free carton of Viceroys to every contestant who names all ten winning teams—REGARDLESS OF THE SCORES!

**DON'T SMOKE ANOTHER CIGARETTE UNTIL YOU LEARN WHAT**

**VICEROY'S Deep Weave Filter CAN DO FOR YOUR TASTE!**

It can do plenty. Here's why: the Viceroys filter starts with pure, safe vegetable material, made into the same straight filter strands as most good filters.

But here's the twist: Viceroys weaves those tiny strands into the special Deep-Weave Filter. . . . and that's the filter you can trust to give you the good taste of Viceroys's rich tobacco blend. The fact is . . .

Only Viceroys Got It . . . At Both Ends! Got The Filter . . . Got The Blend!

\*Reg. U.S. Patent Office

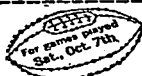

**HERE ARE THE CONTEST RULES—READ 'EM AND WIN!**

1. Any student or faculty member on this campus may enter several envelopes of Ballots & Will-o'-the-Wisps. His sponsoring professor, or members of their immediate families. All entries become the property of Brown & Williamson—none will be returned. Winners will be notified within three weeks after each contest. Winners' names may be published in this newspaper. You may enter an entry on the week, provided each entry is used individually. Contest subject to all governmental regulations. Entries must be postmarked or dropped in ballot box on campus no later than the Wednesday midnight before the games are played and received by noon Friday of the same week. This right to discontinue future contests is reserved.

2. Entries must be in contestant's own name. On the coupon in this ad or on an Official Entry Blank or page of paper of the same size and format, write your predictions of the scores of the games and check the winners. To make an empty Viceroys package or a reasonable rendition of the Viceroys name as it appears on the package blank. Mail only to Viceroys at the Box Number on the entry blank or drop in Viceroys Football Contest Ballot Box on campus.

3. Entries will be judged by the Random N. Doubtless Corp. on the basis of number of correct predictions. Duplicate prizes awarded in case of dead heat.

4. Winners are eligible for any prizes in subsequent contests.

**SU Forestry Prof Starts Broadcasts From Far East**

A special series of radio programs, designed for in-school listening, will be broadcast directly from the Far East each week over The Empire State School of the Air.

Host and narrator for the special series, entitled "Time to Wood Travels," will be Floyd E. Carlson of Syracuse College of Forestry. Professor Carlson is in the Philippine Islands as visiting Professor of Forest Information at the University of the Philippines College of Forestry.

He will discuss in detail programs and accomplishments in the field of conservation in the Philippines, also Far Eastern culture and civilization.

The special, on-the-spot reports, will be broadcast twice each week over AM and FM radio stations in the state. "Free Time Travels" is scheduled to be heard regularly each week on Wednesdays at 11 a.m. and on Fridays at 1:30 p.m.

The first program in the new series, entitled "Ipl-Ipl-Fuelwood for Millions," was presented the week of September 25. Ipl-Ipl, the most common and most important fuelwood in the Philippines, grows like New York State's black locust tree, and can be harvested a year after the seed is initially planted," according to Professor Carlson.

The second program in the series, called "The Kainginero—A Hazard to Philippine Forests," will be broadcast the week of October 2. It will discuss one of the more serious problems facing the Philippines. The Kainginero is like a migrant farmer, who makes a meager living clearing woods and causes thousands of dollars' worth of damage to the Philippine forests.

Other programs will deal with such varied subjects as the banana tree, bamboo, mahogany, coral, Japan, Hong Kong and Tokyo.

Dr. Carlson summed up the purpose of the programs by saying that he hopes the growing youngsters of New York State may have a better understanding and appreciation of how other people, halfway around the world, live, think and feel.

**Gaskell to Resign As US Party Head 'For Party's Sake'**

(Continued from Page 1)  
 the US party," he said. While Gaskell said he knew of no cases that were planning to break away from US, he issued a "no comment" when asked of any new houses coming over to US.

It is generally expected that Gaskell's action will give a new breath of strength to the Campus Alliance Party which took a severe beating in last spring's campus wide elections. Many people in both US and CAP were shocked at the news of the three resignations.

Connection With Clark  
 Steven Diamond, president of CAP, said he believed there was a connection between the recent resignation of Ted Clark, JSG president and elected on the US line, and Ellis Gaskell's announcement Friday.

"There is a distinct possibility that the Clark incident may have prompted or accelerated Gaskell's resignation," Diamond said.

Prefers Direct Primary  
 The prospects for CAP in the coming freshmen election brought a "no comment" from Diamond. "Personally I'd like to see a direct primary substituted

for party elections for freshmen," Diamond said.  
 The organization of CAP for the fall was still in the air, Diamond said, and he knew of no houses defecting from US to CAP or from CAP to US.  
 It is expected that Gaskell's resignation will cause some change in the makeup of both CAP and US. At present, US has 29 fraternity and sorority houses in membership, while CAP has 15.

**Children's Drama Workshop Opens**

Qualified drama majors will teach basic acting techniques to children aged 5 to 15 at University College, 610 E. Fayette St., on Saturday mornings. The skills taught will include pantomime, dance, spontaneous dramatizations and full-scale play productions.

The program, under the direction of Asst. Prof. G.F. Reichenbaugh and Edith M. Smith, graduate assistant, is a joint effort of the Drama Department, the University Regent Theater and University College.  
 Additional information is available from Mrs. Jessica Bolter, program administrator at University College.

# God is Dead Theme of Book

(Continued from Page 1)  
of atheism for religious reasons," Vahanian, who was born in Marselles and educated in France and the United States, commented that since its publication approximately "nine out of ten" of the book's reviews have been highly favorable. He said he was particularly pleased that many of the reviews commended his use of the English language.

The Times' review stated, in part: "The quality of mind which enters into this book is unique and fascinating. . . . He is fierce but eloquent prophet of the Lord, and, with his sense of high drama, worth the watching and the hearing."

Another review, by Virginia Kirkus in a magazine for book sellers, stated: "This is no book for the average layman, but a well trained one would do well by it. Even more, it should be read by anyone at the college or professional level engaged in a religious critique of existentialism. Nor is it possible for serious students of either philosophy or theology to ignore the thesis Vahanian so ably presents."

When asked if his book would be assigned for Syracuse religion courses, Vahanian replied: "I'd be the only one who would dare assign it, and I'm not. However," he added, "I wouldn't mind if students read it or, for that matter, if the University Bookstore sold it."

His book is being sold at Manny's and the Bookstore.

Vahanian said he hoped to have another book ready for publication by next fall.

## Phone Courtesy Has Improved

Misuse of the university telephone service has been greatly curbed according to Mrs. Muriel Day, chief operator of the University switchboard.

In Thursday's Daily Orange, Mrs. Day revealed the students' "lack of common courtesy" in using the telephones.

Extension numbers have since been dialed more carefully and the courtesy mandatory for successful service has been extended, Mrs. Day said.

## Evicted Co-eds Offer Alternatives

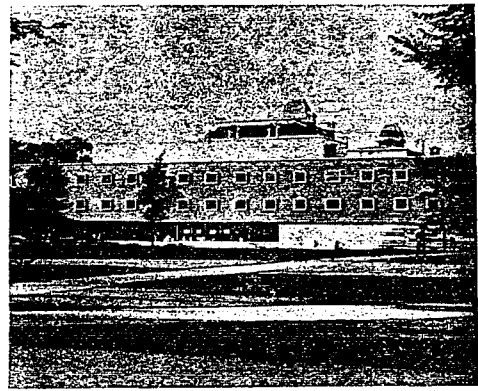

The residents of Morton Cottage, one of those to be vacated today, went as a group to present some possible alternatives to the proposed move to Majorie C. Smith, Dean of Women, last Friday morning.

With few exceptions, roommates can stay together only if they live in Mount Olympus, an idea which is unappealing to the majority of the girls. They felt that they were upperclassmen with priority rights, therefore they suggested a possible move into a freshman cottage, allowing the freshmen, who are generally not as adverse to living on the mount in their places.

However, Dean Smith explained that the only available vacancies were on sophomore floors and that it was preferable not to mix freshmen and sophomores.

## SDS Meets

Students for Democratic Society priority fall organization meeting October 2 at 4 p.m. in the coffee lounge of Hendricks Chapel. They will discuss the ideas of Mr. Thomas. Everyone is welcome to come.

HUNTINGTON B. CROUSE HALL, sat in quiet solitude late Friday afternoon while students speculated on its delayed opening. The installation of new electronic equipment was given as a partial explanation. The needed auditorium will be opened as soon as possible.

## New Crouse Hall Opening Delayed

Exactly when the new Huntington B. Crouse Hall will be completed is a source of speculation on the Hill. The tentative date for the opening of Crouse Hall was set for early September of this year.

Due to new advances, much of the electronic equipment chosen for use in the language labs has become obsolete, according to Dr. William P. Ehling, head of the Information Service. Dr. Ehling said the University has decided to wait and obtain the best equipment possible.

This equipment consists of audio - visual apparatus, including a rear - projection built into the wall of the language laboratory and controlled by the instructor from his desk.

Before this equipment is installed, the faculty offices and the auditorium in the building will be opened for use. Ehling also said the new classrooms will be opened as soon as possible alleviating the need for using the pre - fab buildings for classes.

Although Crouse Hall will largely be used for the language problems, it will also contain modern geography labs and facilities for classes from other schools and colleges.

At the present time, the actual opening date is unknown. Ehling said. The shell of the building is nearly complete and the cold weather will not seriously hamper its completion, he added.

## NDEA Provides Grad Fellowships For 17 Students

This year seventeen students are studying in the Syracuse University Graduate School for fellowships provided by the National Defense Education Act.

Studying political science with overseas training at the Maxwell Graduate School are Jules Koenig, Evert Mankinen, Ann Rippton, Frederick Rosen, and Rodger Yeager.

Medical engineering students are Gene Baxter, Harold Evensen, Thomas Houlihan, James Somerset, John Shanbrook, William Steeran and William L. Sclafan. Fellowships in Slavic Languages have been awarded to John Hyde, Robert King, and Lloyd Young. Students in metropolitan area studies are Susan Fleiss, Rudolf Lombard, and David Ranney.

In the television field, the fellowship holders are Harold Leverston and Joseph Munn.

The Act, aimed to increase enrollment in graduate programs, grants to the institution a stipend for each student to apply toward the cost of the program involved, not exceeding \$2,500 per student per year. Section VI of the Act provides special funds for students who will pursue graduate programs in modern foreign languages of vital interest to this country and who agree to teach the language in an institution of higher learning after completion of their studies. Funds for graduate studies and programs in the use of television and visual aids for educational purposes have been provided by the Act.

These fellowships awarded for one to three years of graduate study, aid students interested in teaching in institutions of higher education.

## 'ON' Meeting Set For New Staffers

Meetings will be held today at 2 p.m. and Tuesday at 3 p.m. in Prefab Seven for freshmen and upperclassmen interested in working on the "Onondagans" editorial staff.

No experience is necessary, according to Editor-in-Chief Edith Frey. Persons unable to attend should contact Nancy Steele at Ext. 2198.

# Parties Plan For Election

By JOYCE HERGENHAN

Nominations for freshmen class officers may be held independently of the campus political parties this November if a method agreeable to the two existing parties can be arranged.

Plans for changing the existing nominating procedures and holding one large convention to nominate two slates

of Freshmen candidates were discussed yesterday at a meeting of leaders from both the Campus Alliance and United Students parties, but nothing will be decided until the proposals are presented to the individual party meetings.

**Jackie, Ken Still In**

In another political development, US party vice president Kenneth Norwick and secretary Jacqueline Flamm stated that Monday's Daily Orange article announcing their resignation was erroneous.

"Jackie and I are considering resigning our party positions," Norwick said, "although we have not yet decided exactly what we will do. We will most likely announce our decisions at the first US party meeting this semester."

US party president Ellis Gaskell clarified some confusion concerning his position in the party, stating, "I haven't formally resigned as president. I only said I planned to submit my resignation at the first US meeting."

**CAP, US Attend**

Gaskell, Norwick and Miss Flamm attended yesterday's meeting along with Campus Alliance Party president Stephen Diamond, CAP secretary Mara Novak and Joint Student Government President Elizabeth Evans. Most of those present felt a change in freshmen nominating procedures is necessary because of the present system of deferred fraternity and sorority rushing. Others, more notably Gaskell, feel the system should remain as is.

Formerly, the Greek houses have had their pledge classes before the nominating conventions and nominations were held through the parties with each of the individual houses were aligned.

With deferred rush, those favoring a revised nominating system. (Continued on Page 8)

# Student Candidate Hoax Created By Watson East 4

By BOB BREIER and ANDY PORTE

The political career of Gary Garrison has come to an end. The Watson 4 East Vice-presidential candidate withdrew from the floor election one hour before the ballots were to be cast.

Insignificant? No! For although quite real to the 4E voters, Gary Garrison never really existed. Gary was a hoax, perpetrated on the minds of the Watson inhabitants. For 4E voters, Garrison was a central figure in Dormitory politics that threatened to destroy floor unity.

Born at 11:30 Friday night, he was the creation of five students. These five discovered whether students cared enough about campus politics to see

# Dell Plain Functional, Luxurious

"It's luxurious!" These sentiments epitomize the feelings of nearly 700 freshmen toward their new living center, Dell Plain Hall. The modern Dormitory, completed for occupancy only a few days before the opening of school has become the envy of all campus residents.

The surrounding grounds, slated for landscaping completion late this year will be covered with grass and shade trees. Its modern exterior design of impo- r- t- e- tile enhances the structure.

Dormitory social functions center on the main floor. It is here that residents can do everything from wash their clothes to collect mail.

**All Activities**

Warren Kinsman, Dell Plain director describes the huppy room as "a room set aside for any type of activities, but is primarily intended for fine arts and architecture students. This is to help prevent those students from marring the appearance of their rooms with chalk and other drawing materials," Kinjman said.

Other modern facilities of the dorm include a modern library with blue Chevrolet novels, reference texts, history books, art books, and works of fiction. A special feature of this room is a complete stereo record player system.

A wide variety of vending machines, television in the lounges, and ping pong tables (Continued on Page 8)

# Dr. Sawyer Knocks U. S. Cultural Lag

By BARBARA CORNELIATT  
We, as Americans, "are a pragmatic people and are not given to a systematic political philosophy," was an introductory statement given by Professor Michael O. Sawyer, Monday afternoon in his Citizenship IA lecture.

He noted that World War II German Prisoners emphatically presented their views to the American soldiers. The American soldiers, on the other hand, had no positive replies to make, although they considered their ideals superior, Sawyer said.

This brought Sawyer to the conclusion that we must "know where we stand in order to present our views to the world."

Sawyer stressed that Western civilization with its accompanying traditions is but one culture, and when compared to the optimistic Communist and neutral nations, is in the definite minority.

Therefore our way of considering problems is with one particular view and other people may regard the same problem from a totally different angle, Sawyer stated.

**"Backward" Nations**

He said that the African nations, which are now termed "backward." The terms gradually progressed to undeveloped. However, in view of recent events, the latest positive title is "emergent."

Sawyer added that he considers the present generation in the United States as the first generation of "emergent Americans."

It is essential that Americans have an understanding of other nations for their own protection as well as for a standard of reference to compare with our own culture, he said.

The professor emphasized, "no man can be educated who knows only his own area or his own era." He said we must recognize that there are no present one culture, not present everywhere in the world."

Sawyer explained that it was not his intention to teach about other cultures, but that he was attempting to call attention to (Continued on Page 8)

# Dorm Scene Of Capture

A room-to-room search of Watson Dormitory Monday afternoon was climaxed at 2:30 p.m. with the re-capture of an escaped prisoner in the dormitory parking lot.

Robert Raymond Johnston, 29, escaped from two deputies at 5:07 a.m. after being treated at University Hospital for a slashed wrist. Johnston was being held in the Cedar Street Jail awaiting arraignment in County Court on charges of first degree burglary, parole violation and grand larceny.

# Albrecht Receives First Landscape Architected License

A faculty member has received the first license as a landscape architect under a New York State law that became effective July 1.

He is George J. Albrecht, professor and chairman of the Department of Landscape Architecture at State University College of Forestry at Syracuse. An SU alumnus, he directs the only accredited landscape architecture curriculum in New York State. Beginning next June, seniors in the course will be awarded the Bachelor of Landscape Architecture degree instead of the B.S. awarded heretofore to them.

**Regent's License**

The 1960 legislation made landscape architecture the 19th profession to come under license by the State Board of Regents.

It provides that "in order to safeguard life, health, and property, on and after July 1, 1961, no person shall practice landscape architecture in this State unless he has secured a license for practice from the State Board of Regents."

The Regents named Professor Albrecht to the first Board of Examiners required by the law.

**Unanimously Elected**

He was unanimously elected chairman by the board organized last spring to solicit and review the credentials of applicants for the newest professional license.

From 500 to 600 men and women who have been practicing landscape architecture in the state are affected by the new law.

Alumni of the College of Forestry curriculum campaigned for passage of the new license law as members of the Upstate and New York City chapters of the American Society of Landscape Architects.

# Hebrew Classes Start Tomorrow

Conversational Hebrew classes will be organized by the E'nal B'rith Hillel Foundation tomorrow, at 4 p.m. All those interested in learning Hebrew are asked to report to Chapel House, 711 Comstock Avenue, Elementary and Intermediate sessions formed, will be taught by Rabbi Louis Neimland. Professor Ephraim Levin will teach the advanced group. Specific days and hours for each semester will be worked out at this session.

# PANHEL SETS RUSH COFFEE

A coffee for all upperclass and transfer women registered for this weekend's sorority rushing will be held at 8:15 p.m. today in the Women's Dining Alumni Lounge.

Miss Jean Crawford, of the Dean of Women's staff will discuss rushing procedures and answers rushers' questions. Attendance is required of all those registered for rush.

## Syracuse Sheriffs

Sarto Major's Onondaga County Sheriffs roared through Watson and Dell Plain Dormitories, invaded closets, awoke late sleepers, turned over mattresses and finally caught their man. Major's men, though adept at catching criminals, seemed confused over the layout of the modern dormitories and often found themselves bumping into each other on the wrong floors and getting lost on the right ones. But they still rose to an extraordinary emergency that could have easily involved physical injury to some unlucky student. They reacted quickly, with a strong force of deputies, many of whom were working on a second shift and missing meals because of the nature of the emergency. Sgt. Blanchard Chrysler, who was in charge of the search party, was working a double shift and did an excellent job. Chrysler and his men deserve a special note of thanks from all Syracuse students for not only doing a difficult job well, but for doing it quickly. The person they were after had just escaped from police authorities, assaulted an officer, and is facing grand jury action on charges of third degree burglary, grand larceny and parole violation.

## Syria and Egypt

The recent and surprising split between Syria and Egypt probably will bring a certain sense of satisfaction to those people who have always felt a dislike for the Middle Eastern political leader, Gamel Nasser. For those people who were especially wary of the threat Nasser presented to the democratic and progressive State of Israel, this latest break in the Arab bloc will represent a long awaited breathing spell. But this is all that can be expected. Conditions of turmoil and revolution do not alter as radically as the governments of underdeveloped nations, and the diseases of hunger, despair and poverty will remain in the Arabian Middle East for a long time. As long as these flourish vicious nationalism and blind hatred will prosper and the border between Israel and Egypt will remain an armed camp.

## Some Schools Have Odd Drinking Policies

By JEANNIE RANOV  
 It looks as though this column will end up running every other week. For the in-between weeks, we'll try to scarp up some ISSUE or other to blast away at. It's such great sport, better than football even.

The marching band at Southern Illinois University must be the coolest, root-a-toot toot group around. The guys wear tuxedo type uniforms, with individual instrument sections sporting different color jackets. The percussion section wears Wallace palid jackets, the woodwinds, black, and the brass boys wear red coats. They all slip black trousers and homburgs!

West Virginia University students have a unique pet called d-o-g, "Dino" and "Sam" are two German Shepherds who make the rounds of the campus with four patrolmen.

The university emphasizes that the security officers' main responsibility is "not to police the student body but to protect it."

### Drinking Policy

Georgetown University administrators have a new twist to the liquor-on-campus deal that's always on the rocks at so many schools. The school is providing a beer and pretzels outfit in the vicinity of the campus.

The AP quoted a Georgetown veep as saying, "Indoctrination in the proper use of alcohol is part of the education of modern young men. There's no use saying students should not drink. We prefer to provide a place with proper atmosphere where they can go for relaxation."

The administration warns, however, that the atmosphere will be carefully controlled, and that disciplinary action awaits "misbehaving students."

### Campus Organizations

Male off-campus residents are getting clubs at Kent State University. MOCRA (Men's Off-Campus Resident Association) is an elected council representing and guiding a program for the almost 2,000 men living off campus in the Kent, O., area. The three committees of MOCRA, social, judicial and athletic, will be fi-

nanced by the Kent Men's Student Association.

Funny, but we always thought people who do not live in university housing were trying to escape from just such organizations, rule-makers and/or ommittee bugs.

A Tulane University fraternity got an itch to make a long distance call, contacted the Melbourne Zoological Gardens and bought two baby kangaroos which they donated to the New Orleans Audubon Park Zoo.

A Kansas State student has constructed a three dimensional spherical chess set. The number of men has been doubled and they move over eight round panes of glass. The student has yet to play a game, so we don't know how to play it?" says he.

University of Arkansas officials are studying a plan for year round class sessions. The trimester schedule divides the school year into three terms: September to mid-December, January to mid-April and mid-April to July. This plan has been instituted by the University of Pittsburgh and Penn State, and is being considered at Wayne State and the University of Massachusetts.

### DO Coverage Called 'Tasteful'

To the Editor:  
 I cannot commend the paper enough for its tasteful coverage on Ted Clark's resignation as president of JSG.

As someone who has known and admired Ted for three years, I can only say that his reactions to this incident again prove what an exceptional person Ted is.

And the Daily Orange has done an expert reporting job, showing the problems facing JSG, the outstanding capabilities of Betsy Evans and the intelligence, leadership and humility of Ted Clark.

Special praise goes to Sam Girgus for his inspired editing. He showed a real insight into university problems as well as a true mastery of the English language. This edit gave Ted all the credit he deserves as a person, the chestnut he has earned by his unfortunate mistake and the confidence and support of the Daily Orange editor, one of his true friends.

## Soviet-American Non-Aggression Pact Suggested

To the Editor:  
 Upon reflection of the world-ly remarks made by Mr. Norman Thomas on Tuesday, I have evolved a parable.

Let us suppose that you and I were the two biggest boys on the block and that each of us had our own territory of satellites. It would be inevitable that eventually we would tangle for supremacy.

Perhaps calculatingly, you might believe that in conjunction with your quiescent friends that you had a temporary advantage. Perhaps I might create an intolerable incident through misuse of a controlled area. There is even the possibility of an accident.

Assuming that you are a rational person who realizes that neither side could emerge without disastrous bodily damage, we might in time attempt to reconcile our differences.

How might we begin? I could insist that you allow one of my gang to inspect your work. You might argue that you are not plotting my destruction. You, in turn, might insist that we both turn in all our weapons and take each other's word for our honesty.

It is obvious that since we fear each other, that neither scheme is mutually acceptable. What we need is a starting place, a declaration of our mutual intentions.

How about an agreement that neither side has any aspirations to acquire that which now belongs to the other. In other words, a traditional Mutual Non-Aggression Pact. Then I will know where you stand, and vice versa.

From this point we might challenge our other differences, such as the final disposition of our former defeated satellites. Well, after all, it is only a suggestion; we still can fight it out.

## New Series Lauded, Hit

To the Editor:  
 Noticed the first of your "profession of campus" articles, which would become a very interesting and welcome series.

Noticed also the return of prodigal Dick Allen, who renounced Dr. Allen's private life to us with all the sensitivity and reverence of a rewrite man for TIME. Allen should be roasted over Dr. Menut's samovar.

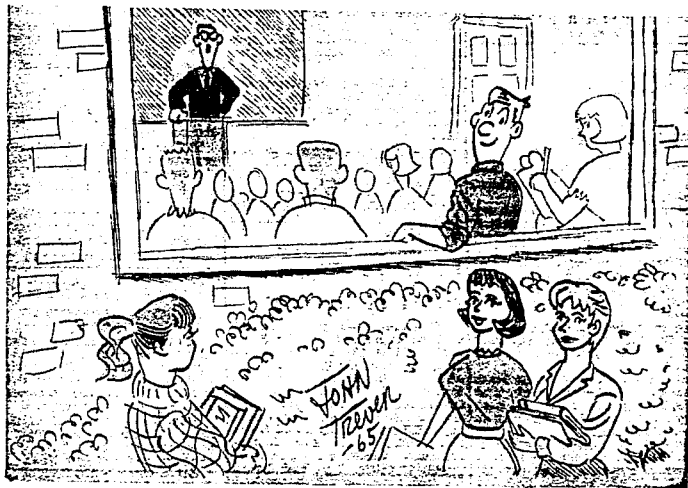

Dale Anderson

## DO Congratulated

To the Editor:  
 I should like to offer my complete sympathy with the Daily Orange and Editor Sam Girgus in their efforts to give all students of Syracuse University a more substantial and meaningful student government.

It is unfortunate that such students as Harry Finley, a writer in yesterday's letters column, fails to recognize the significance of these earnest student leaders. While Mr. Finley is writing his letters attacking student government and leadership, people like Dick Miller are keeping fraternities alive at Syracuse. While Betsy Evans is striving to break the bonds of slavery that envelop the Hill Student body.

# New String Quartet To Debut Thursday

A new string quartet by local composer Earl George will highlight the opening concert of the Syracuse Friends of Chamber Music, Thursday evening at 8:30

p.m. in the Everson Museum of Art on James St.

The Krueser Chamber Ensemble will perform the George work for the first time. George, who is an associate professor on the faculty of Syracuse University's School of Music, wrote the quartet this past summer especially for the SFCM.

Prof. George, a graduate of the Eastman School of Music, has been on the SU faculty since 1959. Prior to that he was the recipient of a Guggenheim Fellowship in music composition and from 1955-56, was a Fulbright lecturer at the University

of Oslo in Oslo, Norway. His published works for orchestra, piano, choral chamber ensembles, and films have been performed in this country and in Europe.

Also on the program for the evening is the String Quartet, Op. 59, No. 3, by Ludwig van Beethoven and the Quintet for Piano and Strings by Brahms. Local pianist Sara Lombardi will perform with the Ensemble in the latter work. Other members of the ensemble are Miss Adrienne Gaimar, violin; Claude Bortel, viola; George Muffinger, Jr., cello, and Prof. Louis Krueser, violin.

Tickets are available at the door as well as at Olmstead's, Clark's and Onondaga music stores. They may also be obtained at the Department of English Office, 109 Hall of Languages, Syracuse University. Special rates are always available for students at SFCM concerts.

## UC To Conduct Music Seminar

Ten-week music seminar will begin from 7:30 to 10 p.m. Wednesday at University College, 610 E. Fayette Street.

Entitled "Listening to Music" the series will provide an opportunity for adults to increase their understanding and enjoyment of some of the musical events scheduled for the winter season in Syracuse.

Dr. Ernst Bacon, professor of Music and Composer in Residence at the University, will direct the seminar. As the composer of several symphonies and operatic scores, Bacon will try to enhance the appreciation of adults and voice and instrumental soloists.

Further information about the series can be had by contacting the Humanistic Studies Center at University College, GR 6-7481.

# Drama Series Set For Lively Arts

By EILEEN STOURMEN

"We intend to bring the theater not only into the market place but into the people's laps," commented Gerald F. Reidenbaugh, acting head of the Drama Department, in explaining the purpose of presenting dramatic productions at the Lively Arts coffeehouse at Genesee St.

The first production planned for Oct. 13 at the Coffeehouse "The Fourth Pig" and a graduate by Richard Harris, author of the play. The Drama Department, "The Man Who Courted January" and an expanded version of "The Glory Man" which was a part of last spring's production of "Sketchbook '61."

Both of the Harris works are being directed and acted by members of the Drama Department. Peter Maloney, a junior, will direct "January" and Barbara Katz, a senior, will direct "Glory Man."

The purpose of the newly instituted program is two-fold, he said. It serves as a training ground for young actors and brings the theater into the main stream of community life.

"The main purpose of any theater," he commented, "is to bring itself to the people."

A number of reasons were listed for the use of the Lively Arts as the place from which to bring theater to the people. "It not only allows but demands inventiveness" on the part of the actors and director involved, Reidenbaugh said.

The small size of the coffeehouse allows plays to be performed in repertoire and gives students more chance to do the same thing a number of times. "Students learn," he commented, "mainly by doing."

Main Stream  
The Lively Arts is on one of

the main streams of the city and it discourages "art for art's sake and avant-gardism." Reidenbaugh continued.

The plays are scheduled so as not to interfere with any other productions connected with the University or local theater groups.

"We hope, however, to have affiliated with us local theater groups and in this way, and through courses given at University College to improve the skills of the local talent thereby strengthening the local programs," Reidenbaugh added.

The first three shows scheduled are drawn completely from members of the Drama Department, but the following productions may have local talent.

The schedule of the production is as follows: "The Man Who Courted January" by Eugene Ionesco; Oct. 27, 1, 3 and 23, Dec. 1. "The Lesson" by Eugene Ionesco; Oct. 27, 1, 3 and 23, Dec. 1, 3 and 23.

Another production planned is "The telephone" by Gian-Carlo Menotti.

There will be no admission charge but there will be a minimum of \$1.50 per person. Call the Lively Arts, 810 E. Genesee St. for reservations at GR 8-9235.

# Shreve Hopeful Frosh Progress Will Improve

By DICK STORVINS  
For those football observers who make it their business to know whether the Syracuse frosh has another Ernie Davis waiting in the wings, it appears as though business will be slow - for the time being.

Coach Jim Shreve, glancing out of the window at the gray, rainy sky Monday afternoon, admitted that the Syracuse frosh was not as rapid as he expected. "The teams not hitting as hard as last year's", Shreve commented, "our '60 squad seems a

lot tougher than this one." Nevertheless, the frosh mentor was pleased at the performance of the Tangerines in their scrimmage against the varsity reserves Friday.

Shreve, in complimenting his squad, noted that the boys played better than they did in the Manlius game in which the Tangerines scored three times. As far as future stars are concerned, Shreve pointed out that it was too early to "call it he had a possible future All-American on his squad."

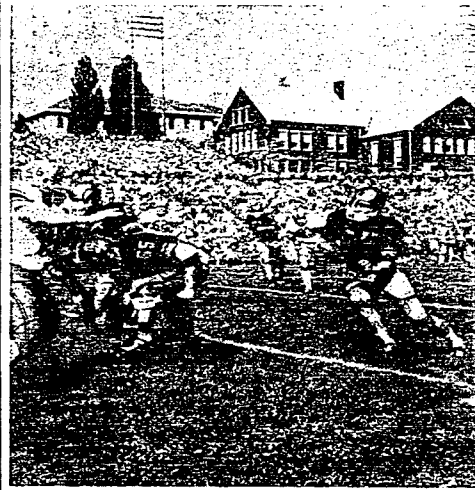

It is highly improbable that Shreve would put the individual player, coaching staff, or the rest of the squad on the spot if there were a player of the calibre of Davis, Brown et al. Should have such a star on his roster, he will undoubtedly go unpublicized until he plays his first game, or for that matter, a season.

While the youthful freshman coach is slightly disappointed with his forward wall, he is, nevertheless, more than satisfied with his backfield. For the first time in many seasons, the Syracuse frosh has excellent depth in the halfback positions.

Billy Hunter was singled out for a fine effort in the scrimmage with the varsity Friday afternoon. Both Hunter and Herb Etzold drew praise from Shreve for their speed and quickness.

"We've never had six backs so big and so fast as we have this year", Shreve said, referring to Hunter, Etzold, Kocsi, Nance, Russell, and Mordue. The frosh head coach emphasized the fact that he tries to recruit big ball players, with the reasoning being that should a big man fail to make the grade in the backfield, he could easily be switched to the line.

## Football Action

SHOWN IN ACTION in the West Virginia-Syracuse contest last Saturday in Mountaineer quarterback FRED COLVARD (No. 45). Colvard is a soph sensation who saw limited action in the game because of injuries. Orangemen pictured are BILL SCHOONOVER (No. 36), JIM MAZUREK (No. 62), and JIM LAFFEY (No. 83).

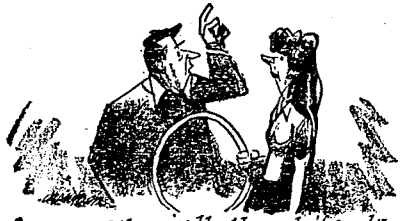

### THE GIRL I LEFT BEHIND ME

It happens every day. A young man goes off to college, leaving his home town sweetheart with vows of eternal love, and then he finds that he has outgrown her. What, in such cases, is the honorable thing to do?

Well sir, you can do what Rock Sigatooe did. When Rock left Cat and Shook, Pa., he said to his sweetheart, a simple country lass named Tess of Urbevilles, "My dear, though I am far away in college, I will love you always. I will never look at another girl. If I do, may my eyeballs parch and wither, may my viscera writhe like adders, may the moths get my new tweed jacket!"

Then he clutched Tess to his bosom and planted a final kiss upon her fragrant young skull and went away, meaning with all his heart to be faithful.

But on the very first day of college he met a coed named Fata Morgana, a girl of such sophistication, such poise, such savoir-faire as Rock had never beheld. She spoke knowingly of Franz Kafka, she hummed Mozart, she smoked Marlboros.

"You can hit me in the stomach, if you like."

Now, Rock didn't know Franz Kafka from Pancho Villa, or Mozart from James K. Polk, but Marlboros he knew full well. He knew that anyone who smoked Marlboros was modern and advanced and as studded with brins as a ham with cloves. Good sense tells you that you can't beat Marlboro's exclusive electric filter, and you never could beat Marlboro's fine flavor. This Rock knew.

So all day he followed Fata around campus and listened to her talk about Franz Kafka, and then in the evening he went back to the dormitory and found this letter from his home town sweetheart Tess:

Dear Rock,  
Us kids had a keen time yesterday. We went down to the pond and caught some frogs. I caught the most of anybody. Then we hitched rides on trucks and did lots of wacky stuff like that. Well, I must close now because I got to whitewash the fence.  
Your friend,  
Tess

P.S.—I can do my Hula Hoop 5,000 times.

Well sir, Rock thought about Tess and then he thought about Fata and then a great sadness fell upon him. Suddenly he knew he had outgrown young, innocent Tess; his heart now belonged to smart, sophisticated Fata.

Rock, being above all things honorable, returned forthwith to his home town and walked up to Tess and looked her in the eye and said manfully, "I do not love you any more. I love a girl named Fata Morgana. You can hit me in the stomach with all your might if you like."

"That's okay, hey," said Tess amiably. "I don't love you neither. I found a new boy."

"What is his name?" asked Rock.

"Franz Kafka," said Tess.

"A splendid fellow," said Rock and shook Tess's hand, and they have remained good friends to this day. In fact, Rock and Fata often double-date with Franz and Tess and have heaps of fun. Franz can do the Hula Hoop 6,000 times.

Marlboro, in the king-size soft pack and famous flip-top box, is sold and enjoyed in all 50 States. And king-size unfiltered Philip Morris Commander, made of superb natural tobaccos, is also available wherever you travel.

## WAA Hostess For Conference

The Syracuse Women's Athletic Association served as hostess for the Central New York Women's Athletic Recreation Association's planning conference.

There were seventeen universities represented at the meeting. The prime object of the conference was to plan sports days for the coming year. The agenda consisted of a business meeting and

various discussion groups. These panels worked on the problems with participation in various athletic endeavors. Another similar conference will be held next year at Alfred Technical Institute.

Syracuse leads Maryland 5-4-1 in a football series that began in 1920.

**Is this the only reason for using Mennen Skin Bracer?**

Skin Bracer's rugged, long-lasting aroma is an obvious attribute. But is it everything?

After all, Mentholated Skin Bracer is the after-shave lotion that cools rather than burns. It helps heal shaving nicks and scrapes. Helps prevent blemishes. Conditions your skin.

Aren't these sound, scientific virtues more important than the purely emotional effect Skin Bracer has on women? In that case, buy a bottle. And—have fun.

IN THE NEW NON-SLIP FLASK

# View From Archbold

By MILT JOFFE

**OUR VANTAGE POINT** is Archbold; our viewpoint is the student's; our view is Syracuse sports. And what better place to view the sports life of Syracuse than the gymnasium and stadium named Archbold.

As a result of this weekly collection of news and views it is fitting to mention a little bit about the man whose name has become synonymous with Orange athletics.

We must travel back to 1907, back to the days before the football polls and the Onondaga County War Memorial.

### New Gym

In that year a new gymnasium was built on campus at a cost to the university of \$30,000. A year later the entire sum was presented to the University by John D. Archbold, former chairman of the board of Standard Oil Co., and former chairman of the Syracuse University Board of Trustees.

Archbold also donated \$75,000 to meet the cost of equipping the gymnasium until its completion it was known as one of the finest in the world.

Simultaneously with the gymnasium, construction work was being completed on the mighty concrete oval known today as Archbold Stadium. The concrete structure, held 20,000 people and with the addition of steel stands in 1951 the capacity nearly doubled. It is presently New York State's largest, collegiate football stadium.

For a time Syracuse baseball games were played in the stadium and it is now used only for football and track, occasionally lacrosse.

### Center of Activity

The gymnasium remains the center of all sporting activities. All coaches' offices, the trophy room and all practice facilities are located in the structure.

The original building was destroyed by fire Jan. 12, 1947. Construction on the present building began in Dec., 1948 and was complete in June, 1952.

That leads us back to the present with thanks to John D. Archbold for his interest in past Syracuse athletic endeavors. The future will find the center of interest moved to Colledge and the soon-to-be-completed Manley Field House. But for now Archbold is the center of activity and we will wander through the center of our sports life with our hands on the typewriter.

The view was clear Saturday as 25,000 fans poured into that concrete oval appended with steel. The air was clear too when the Orangemen took the field. The sun was shining and hearts were gay as the Orangemen romped to a 21-point lead late in the first half.

Then suddenly Dave Sarette lofted the ball into the air and almost instantly a black cloud appeared over the stadium, and while West Virginia halfback Jim Moss rambled down the sidelines for an 87-yard pass interception touchdown, the view from Archbold's press box rapidly became obscured.

The air was filled with doubt and the view became more hazy as the day went along. When it was all over, a satisfied fan was hard to find.

Sure, Syracuse had won, 29-14, but so what, they said. What's 15 points. We'll tell you what it is. Fifteen points is a respectable margin by which to win a football game. So why the gloom and disappointment? Why did the warm autumn sun suddenly become chilling?

The answer is not too hard to see. The goal of the football fans of Syracuse has not become victory, although winning is completely necessary. The goal has rather become winning big and impressing the big bad impersonal animal known as the football poll.

It was as much like a loss as anything else, was the general feeling. "Where will be we in the polls this week, Shirley?" asked the fiend when it was all over.

Then follows a long look at the results from around the nation. Well, our State lost, and so on down the list. Following a lot of mental figuring it's decided we may not suffer too much by this week's "loss."

The fact is that we have been suffering ever since that championship performance of 1959. Syracuse's a sufferer from a poll complex. Each score is not looked upon as a win or a loss but an index which will determine our AP or UPI future.

### Reading Reviews

It's like an over-ambitious actor putting on his performance the night before and running to the paper in the morning to read his reviews.

When the reviews are bad the Syracuse actor is quick to find the reason why.

"Point shaving" yells the disgruntled parley loser. But this brings us into another area, not completely divorced from the original problem, but far enough to let us shy away for now.

We have to admit there is one advantage to this poll complex. Hundreds of coeds and other assorted Syracuseans, who don't know a slug from a flow-through tea bag, studiously follow the football fate of Iowa and TCU and Mississippi and may even start predicting the top ten after each Saturday's results come in.

"A staffer on this paper, now knowing what we were writing, just stopped in and asked (are you ready?): 'Are the polls in today?'" He really did.

# Penn State, Pitt Among Orange Foes Defeated

By DAVE DEAN

A series of upsets held the spotlight last weekend as collegiate football moved into its first full week of the 1961 season. And Syracuse foes weren't immune to the uprisings, as favorites Penn State, Oregon State and Holy Cross fell before their foes.

Maryland and Notre Dame were the only Hill opponents to emerge victorious, while Nebraska managed a tie Boston College, Colgate and Pittsburgh joined the ranks of the losers.

In the top upset of the young football season, the Nittany Lions of Penn State, pre-search favorites for the eastern crown and top contenders for the national title, dropped a 25-8 decision to an aroused Miami eleven.

Stunned into action by repeated Penn State punishment of their starting quarterback, the Hurricanes scored on three touchdowns and a field goal before allowing the Nittany to score with only 10 seconds left in the game.

Miami out - rushed, out passed and out - first danded the favored Lions in handing their coach his 100th career victory.

On the West Coast, Stanford held highly regarded Oregon State scoreless in the first half for a 0-0 tie after the first 30 minutes. Then, the Indians burst the game wide open in the final two periods for a 34-0 Stanford win, the second of the campaign after a winless 1960 season.

Holy Cross, the pre-season prediction for the best in New England, fell before a Villanova team which scored twice in the first period and went on to a 20-6 win. It was the third straight win for the Villanova

team this season. Maryland, next week's Orange foe, won his second straight when end John Hannigan kicked a 23-yard field goal with only eight seconds remaining to give the Terps a 24-21 victory over Clemson.

The passing of quarterbacks Dick Novak and Dick Shiner accounted for all three Terrapin touchdowns. The Irish of Notre Dame opened its season with a 19-6 win over the Sooners of Oklahoma before a nationwide television audience.

Bucks Angelo Dabiero and Mike Lind led the way for the Irish as Dabiero scored once and Lind twice. Dabiero gained 176 yards in only 11 carries for a 16.0 average, while his teammate gained 121 yards in 19 carries.

Nebbraska's Cornhuskers, despite their favorite role, had to settle for a 14-14 tie with Arizona State, and were lucky to do that well as time ran out on a last minute field goal try for the Wildcats. Despite the score,

Arizona State ran up a big edge in first downs and yardage over their hosts.

Northwestern, hosting Boston College's first journey to Big Ten land, scored twice in the first six minutes and went on the top the bigger eastern team, 45-0. Soph Bill Swingled led the rout with three touchdowns, including a 95-yard romp. At Ithaca, the Red Raiders of Colgate fell before an overpowering Cornell team, 34-0, in the season opener for both teams. The Big Red scored once in every period and twice in the third for the rout.

At Pittsburg, the Panthers declined a chance for a 12-yard field goal and a tie in the final seconds, and lost to visiting Baylor, 16-33.

With one of the best kickers in the country, halfback Fred Cox, the field goal would have been a virtual certainty; however, the Panthers tried for the win with Baylor taking over on downs as a fourth-down pass attempt failed.

Men, get rid of embarrassing dandruff easy as 1-2-3 with FITCH! In just 3 minutes (one rubbing, one lathering, one rinsing), every trace of dandruff, grime, gummy old hair tonic goes right down the drain! Your hair looks handsome, healthier. Your scalp tingles, feels so refreshed. Use FITCH Dandruff Remover SHAMPOO every week for positive dandruff control. Keep your hair and scalp really clean, dandruff-free!

### Electrical Fire Put Out Quickly

A small electrical fire in a second floor office in the Journalism Center was quickly extinguished early Monday morning.

Advertising Department Chairman Philip Ward Hurton turned on a desk lamp as he entered his office at 7:40 a.m. The lamp cord began smoking, the wall plug exploded and the cord, plug and baseboard burst into flames.

David Norton, graphic arts instructor, used a foam extinguisher to put out the fire.

The only damage to the office was a sooty wall around the plug.

### Inquirers' Class Set

The Episcopal Church at SU will begin an Inquirers' Class at 4 p.m. Wednesday in the Chapel House on the topic, "Faith and Practice of the Episcopal Church."

Those who wish to become members of the Episcopal Church and those desiring to know more about the Church and those members wishing a refresher course are invited.

DR. MICHAEL O. SAWYER

### 'ON' PIX SET

Senior pictures for the "On-ondagun" will be taken in the Trophy Room of the Men's Gym.

### Dr. Sawyer Knocks U. S. Cultural Lag

(Continued from Page 1) other ways of looking at things. To obtain different perspectives, Sawyer suggested that each individual student develop a reading program about a particular area or country.

**Background Important**  
In order to emphasize his opinion that the way one views a particular problem depends greatly on background, Sawyer listed several illustrations. For example, in this country assassination is regarded with contempt. However, in African countries it is often a common political device.

This contrast can be adequately explained by the difference of the political set - ups of the respective countries. In the United States, if the president is assassinated the vice - president will take his place.

The party in office is still secure for the remainder of the term. However, in Africa, the assassination of the political leader can often mean the overthrow of the entire regime, Sawyer noted.

Sawyer stated that Americans take for granted that the American legal system is the only correct system. However, he cited the Moslem system which is 1400 years old and which governs millions of people.

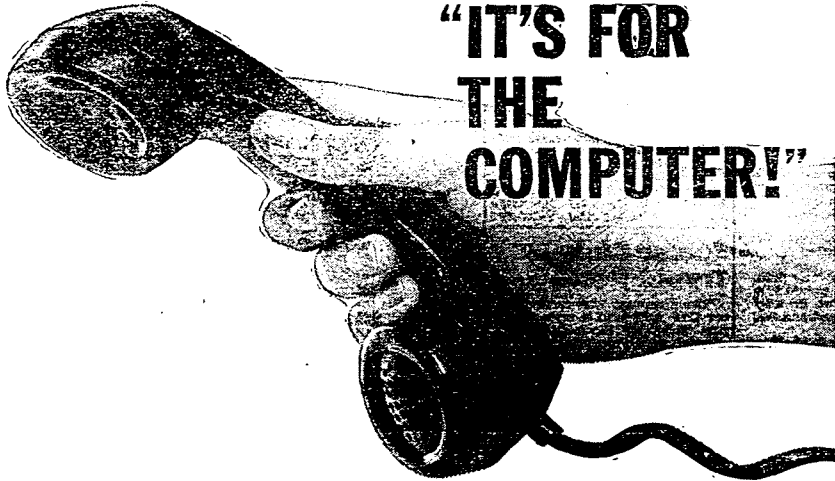

The Moslems, Sawyer explained, consider that man - made laws are merely manifestations of God - made laws, as given to Mohammedan by Allah. Here, civil and religious laws are identical. Americans are constantly striving whereas in the United States to keep them separate.

Sawyer concluded by giving an simplified classification of Americans. The first group he called "the gross Americans". These are the people who are oblivious to other existing customs and couldn't care less.

**2nd Type**  
The second type of people are the "well - meaning" individuals who recognize that other customs exist, but commit great blunders because of lack of complete understanding.

He categorized the third group as "the citizens of the world" who can both understand other cultures and try to learn from them.

Sawyer concluded his lecture by reading a poem written by an African poet as an illustration of the fact that although their ideas may not coincide with our own, other peoples of the world have definite, constructive views on the nature of man and his society.

### COMPUTERS CAN NOW TRADE DATA COAST TO COAST OVER TELEPHONE LINES

IBM has developed systems of computer-to-computer communication, which foretell the greatest advances in data processing since the introduction of the stored-program computer. These Tele-Processing\* systems greatly extend the useful range of data processing - putting their power at the disposal of businessmen and scientists located miles away.

Now it is possible to transmit data between two computer installations at speeds up to 62,500 characters per second via broad-band communications channels. Any number of computing systems can be linked in this way in order to exchange information or feed it to a data processing center. As a result, although they may be separated by a continent,

computers can bring their capacities to bear on a single massive problem or operation.

There can be an exciting future for the graduate at IBM. The choice of jobs is wide. Advancement potential is excellent. All qualified applicants will receive consideration for employment without regard to race, creed, color or national origin. Whatever your talents and skills, there may be just the job you've always looked forward to after college. Why not find out by talking with the IBM representative when he next visits your campus? Or write, outlining your background and interests, to: Manager of Technical Employment, IBM Corporation, Dept. 896, 590 Madison Avenue, N. Y. 22, N. Y.

You naturally have a better chance to grow with a growth company

IBM will interview Nov. 1-2

**GON** Local representatives, bring floors to Maryland Pop Rally Thursday night.

**ALPHA PHI OMEGA** national service fraternity rush meeting, 8 p.m. Sunday, 783 Irving Ave. Anyone interested in serving campus and community welcome.

**METHODIST PASTOR'S** Class meets at noon today, Chapel House.

**CHRISTIAN SCIENCE** organization meeting, 6:45 p.m. today, Colonial Room of Hendricks Chapel.

**COMMUTING STUDENTS** Association meeting 7 p.m. Friday, Commuting Students' Lounge of Women's Building. Members and those interested in joining please attend.

**LUXURIAN DAILY** Devotions, 5:05 p.m., North Wing of Hendricks Chapel.

**ALL INTERESTED** in compiling a list of organizations and honoraries and placing this information in book meet 2 p.m. Saturday, 209 Women's Building.

**ASSOCIATION** of Women Students Court, 7 p.m. Wednesday, Board Room of Women's Building.

**EPISCOPAL HOLY** Communion, 5:05 p.m. today, Chapel House.

**AMERICAN INSTITUTE** of Electrical Engineers, Student Branch, meeting 7:30 p.m. on Thursday, 104 White Hall. Films shown on airborne electronics. Everyone invited.

**SHAW DORMITORY** Graduate Coffee, 3-5 p.m. Sunday, Shaw Dorm.

**HEBREW CLASSES**, those interested meet 4 p.m. Wednesday, Chapel House. Elementary, intermediate and advanced classes to be formed.

**IAFT CORDS** declare "We're not married." For further information call Social Chairman, Ext. 1297.

**Accounting Prof Named to Office**

The Chairman of the Accounting Department of the College of Business Administration at Syracuse University has been designated president - elect of the American Accounting Association for 1962.

Professor Walter C. Kell will head the national organization of 10,000 full members and 8,000 associate members from the National Headquarters at the University of Wisconsin in Madison. The election was held in Dallas, Texas.

Last year, Dr. Kell served as vice president of the same organization.

Dr. Kell is presently on a leave of absence from the College of Business as a visiting professor of accounting at the University of Michigan.

Dr. John T. Burke will act as chairman of the accounting department while Dr. Kell is on leave.

Dr. Burke joined the Syracuse University faculty in 1957. He holds a C.P.A. certificate from the state of Wisconsin and he received his PhD from Michigan State University.

Dr. Kell came to Syracuse in 1953. He received his M.B.A. Degree from the University of Michigan in 1947 and his Ph. D from the University of Illinois in 1951, and holds a C.P.A. certificate from the State of Illinois.

**Panhel Sponsors Ball**

The charity ball, which was reported in Thursday's Daily Orange as being sponsored by both Panhellenic Council and Interfraternity Council, has no connection with Interfraternity Council.

**Philippine Book Program Initiated**

Syracuse University, in cooperation with local sources, has established a book transfer program with the University of the Philippines to help restock its war-ravaged library.

Owen Farrelly, a member of the university's dormitory maintenance staff, initiated the program after receiving a request for a single book from a professor at the Philippine forestry college. Filiberto S. Polinco who received a master's degree from the State University of Forestry at Syracuse last year, later wrote Farrelly of the "dire need of technical books, old and new," in the Philippines.

Contributions of unwanted books from department heads, living center directors, and students will be welcome. Though

Farrelly plans eventually to contact New York publishing houses, he still would like the major effort to remain at Syracuse.

**Women's Pool Hours Listed**

Recreational dips in the Women's Building pool are scheduled for 7:30-9 p.m. Monday, Wednesday and Friday and 4:53-6 p.m. Tuesday and Thursday of this semester. Regular or special privilege cards can be purchased at 202 Women's Building.

Women eligible after purchase of a card are: registered students, faculty and staff, faculty and staff wives, graduate students, graduate wives, members of the Syracuse Alumnae Club and students at University College.

Recently daughters in grades 7-12 can use the pool from 4:30-5:30 p.m. Wednesday afternoons. Medical clearance is required of all participants.

# Dorm Scene

(Continued from Page 1)  
man as dangerous, though un-  
armed.  
A small crowd of Watson residents followed the police around

the dorm as they checked rooms and entrances. Students said the police apparently "got a kick out of" witty signs and playboy type calendars in the rooms.

## Dell Plain Functional, Luxurious

(Continued from Page 1)  
round out the overall facilities of the building.

**One Complaint**  
One of the few complaints of the frosh at Dell Plain is that their dining facilities will not be completed until the Fall of 1963. For the duration the students are eating at Sims Hall, which is not up to the "quality of the luxurious existence to which we are accustomed," one student remarked.

"I am very pleased by the way the students are living despite these minor difficulties," declared director Kinsman.

Student comment was mostly favorable. "The rooms are very convenient," declared Mike Singer. Each room he noted contains functional desks and chairs, large wardrobes, a large picture window, beds, room for books, and other equipment.

Special rooms which are to be turned into guest rooms next year, have private baths.

# Parties Plan For Election

(Continued from Page 1)  
tem feel the best interests of both the freshman and the parties will be realized through a process more evolved from the party system.

Mara Novak, secretary of CAP introduced the plan to hold one large nominating convention. According to Miss Novak's idea, each Greek house would send its political representative to this convention. Also present would be the president of each freshman living center, who, according to Miss Novak, "has been elected to represent this living center on campus."

This convention would nominate two slates of candidates. One slate would be assigned to the US party, the other to CAP.

A plan to keep the campaign completely independent of the two parties was discarded when it was decided the freshmen could conduct a campaign without the experience and financial resources to be gained from working with a party.

"Gaskell is opposed to this plan and feels it will never work. The parties will never support a plan in which they're just another voice in a large convention," he explained. "Once the candidates were nominated, they would be completely on their own."

"Only through the present party system can you raise enough money to conduct the kind of educational campaign needed during the freshman elections," Gaskell explained.

**House Won't Finance**  
"Enough money" was defined as the \$25 per candidate or \$100 per four-candidate slate. Previously, the candidate has donated \$10, the party the other \$15. Gaskell feels the parties will never donate \$60 to support such a slate which "they have had such a small voice in choosing."

"So," Gaskell continued, "only through parties can you get the frosh to meet enough other frosh. They don't know enough about college politics to conduct their own campaigns."

**Still Has Flaws**  
Miss Novak feels, that while her plan "still has a few flaws to be ironed out," it will be much better in the present situation than the one previously used.

"The interest in the election would be basically in the freshman class where it belongs. It would mark the first time the freshmen have had a voice in choosing their candidates," she explained.

"There won't be a lot of politicking going on and therefore the best qualified people will be nominated," Miss Novak continued. "I think the parties will support the campaign in an excellent idea, because they will add experienced leadership."

Miss Novak feels an "old fashioned party-run nominating convention" will serve no function of the freshmen and societies.

"Parties are not relevant to the freshman class and should not have the only voice in picking candidates," she continued. "To restrict to Gaskell's contention that the Greek houses would not help finance a campaign for candidates that they didn't choose, Miss Novak said there would be enough money because the houses have to pay their first semester dues to stay in the parties and to have a voice in next spring's nominating convention."

Also discussed at yesterday's impromptu meeting was the possible realignment of the two campus political parties. CAP president Diamond refused to comment on the rumors floating of this figure because he was finding it difficult to evoke much enthusiasm about its future from many of its members.

Gaskell scoffed at the realignment question. "I don't want to realign the campus parties, not only CAP but also US would have to fold, and the US party is just not going to fold," he said.

## 7,842 Register 130 Over 1960

A total of 7,842 Hill students have registered for this term, according to figures released yesterday by the University's Office of Information Services.

This figure includes only the undergraduate schools of Liberal Arts, Forestry, and Law. The undergraduate enrollment in the College of Liberal Arts is 7,001, an increase of 139 students over last year's figure. However, the Freshman enrollment has dropped from 2,299 in 1960 to 2,174 this Fall.

Some 616 students enrolled in the School of Forestry, an increase of 64 students over the 1960 figures. The school of Law has also increased its enrollment from 190 in 1960 to 225 this Fall.

Graduate enrollment, University College, and Ulica College are not complete at this time.

## Book Describes Life of Pinchot

Martin L. Fausold, who holds a D.S.S. degree from Syracuse University, has written a book dealing with the life of a Chief Forester of the United States during the Theodore Roosevelt administrations.

In "Gifford Pinchot, Bull Moose Progresser" is written a book discussing Pinchot's chief political activities from 1901 to 1917 and depicts the highlights of the Progressive Era.

Pinchot was responsible for conserving the natural resources and scientific government planning during Roosevelt's presidency.

"Gifford Pinchot, Bull Moose Progresser" is published by the Syracuse University Press and sells for \$4.50.

## Seats Available For Commuters

Reserved block seating is now available to commuting students, according to Steve Marshall, the president of the Commuters' Association.

Students may sign up for their reserved seats at the ticket office in the lobby of the men's gym. The bottom pair of the student ticket should be placed in the box marked "Commuters' Association" which has been placed in front of the ticket office.

## Dean Noble Slated To Visit Greece In Air Force Tour

Near East Troops To Hear Chapel Head Lecture

**By CLAYTON RICHARDS**  
The Rev. Charles C. Noble, dean of Hendricks Chapel, will leave Oct. 10 on a Protestant Religious Mission that will carry him to Greece, Turkey, and the Island of Crete.

Dr. Noble, on special invitation of the United States Air Force, will give two Sunday sermons plus daily lectures at various U.S. Air Bases in the Near East. Dean Noble will start his assignments in Athens on October 15. His itinerary for the remainder of the trip will include: Oct. 22, Iraklion, Crete; Oct. 29, Izmir, Turkey; Nov. 5, Adana, Turkey; and Nov. 12, Diyarbakir, Turkey. He expects to return to the Hill on November 21.

The Air Force hopes that through Dr. Noble's mission and that of Protestant clergy, that his personal dynamic preaching will help the men of our armed forces to acquire or deepen their religious faith.

As a chaplain in the national Sunday services, the mission schedule may provide Dean Noble with opportunities for personal meditation, receptions, consultations, radio appearances, addresses to such groups as Sunday School Teachers, officers and non-commissioned officers' wives' clubs, youth groups and staff officers' luncheons or conferences.

### First Trip Abroad

This is the first trip abroad for the well-liked dean. He is no stranger, however, to this type of work. He has spent the past ten years traveling throughout the United States and Canada conducting youth groups among college students or attending adult conferences.

His list includes: Cornell U. North Western U., Penn State, Rutgers, Williams, Mt. Holy-

(Continued on Page 8)

"INKY", the former Phi Gamma mascot, is shown here before his removal to the Bronx Zoo. Inky, an eight-foot black snake, was taken out of the house at the request of Mrs. Allen, Fiji house mother. (Photo by Gary Ginter)

## Fiji Housemother Puts Ban on Boa

**By ELLEN STERN**  
Junior Editor

The brothers of Phi Gamma Delta have decided to keep their housemother rather than an eight-foot black indigo snake. The male snake, originally intended as a mascot, was bought last week from a Long Island pet store.

Yesterday the reptile, named "Inky", was shipped to the Bronx Zoo in New York City, because the fraternity brothers could not find a good cage, according to Andrew Ross, Phi Gamma Delta, social chairman.

Ross, from Glen City, Long Island, is the only person in the house who would handle "Inky", a non-poisonous snake which is a member of the Boa family.

It was unanimously decided to have a snake as a fraternity mascot—before it arrived at the Phi

Gamma house. Ross said Mrs. Malcolm O. Allen, Phi Gamma Housemother, "objected strenuously" to the snake when it came. She was afraid a practical joker would let it out in the house.

Mrs. Allen received letters from parents of some of the fraternity brothers complaining about the snake and how it would let it out in the house.

Mrs. Allen said this is "not the place or the time" to keep a snake. "The boys are here to study and if a snake is part of an education it should be kept in a science department," she said.

"Inky" was originally shipped to the Long Island pet store from Florida and is supposed to be fed frogs and mice about once a week, according to Ross. It was difficult to feed it in the house, Ross said, and this was another reason for giving it up.

## JSL Begins New Season

University administrators will be present at the opening meeting of Joint Student Legislature at 7:30 p.m. today in Maxwell Auditorium.

Dean of Men Earle E. Clifford, Dean of Women Marjorie C. Smith, Dean of Personnel Administration John S. Hafer, Asst. Dean of Men David Talham and Dr. George

## Upperclass Rush Slated For Friday

**By SUE CRUMBAKER**

Two hundred sixty upperclass women and transfer students will begin formal rushing at 5 p.m., Friday, Oct. 6, it was announced at a rushing convocation held Tuesday night at the Women's Building.

Rushing sessions will take the form of 15-minute parties, according to Virginia Frykman, Panhellenic Rushing Chairman.

The rushees have been divided into three classifications, Miss Frykman said. Plan A includes those who are interested in rushing Christian tradition houses. Women rushing only Jewish tradition houses are included in Plan B. Plan C is for coeds who wish to rush houses belonging to both groups.

### Escorts

The rushing counselors, under Chairman Patricia Kelly, will escort the coeds to the sorority houses on Friday. The counselors will be available to answer questions concerning rushing procedures.

Saturday, Oct. 7, additional rushing sessions will take place from 10:30 to 11:30 a.m., rushees are scheduled to pick up their invitations to the day's parties at the SAC Lounge in the Women's Building.

From 1:30 to 5:30 p.m. each sorority will hold an open house for the rushees that it has invited back. Miss Frykman suggested that each rushee stay no longer than half an hour at each house on Saturday.

### Invitations

After 8 p.m. Saturday houses can place an invitation in the mail box of each girl they wish to invite for the next day. The houses have until noon Sunday to do this.

The final open houses of formal rushing are scheduled to be held Friday at 1:30 and 5:30 p.m. on Sunday.

Bids will be received by rushees on Friday, Oct. 13.

Between the opening of rushing and Friday the time the bids are distributed, a silence period will be observed. According to the rushing rules, a sorority member and a rushee may not talk or exchange gifts or visit each other's living centers during this period.

### Closed for Rushing

The sorority members of houses that did not open for rushing may carry on normal conversations with any rushee. The seven houses which will not open for formal rushing this fall are: Chi Omega, Delta Delta Delta, Delta Phi Epsilon, Iota Alpha Phi, Kappa Alpha Theta, Phi Sigma Sigma and Sigma Delta.

Informal upperclass rushing (Continued on Page 8)

## Naval Reserve Posts Available to SU Men

Many Syracuse University junior, sophomore and freshman men are eligible to apply for a U. S. Naval Reserve commission without any advance obligation. Physically qualified young men working toward bachelor's degrees may apply for billets in the Reserve Officer Candidate School without first enlisting in the Naval Reserve. Men need not enlist in the Reserve until after formal acceptance in the officer program.

The ROC program leads to an Ensign's degree following graduation.

Candidates who are selected and who do not enlist in the program serve two summers at a special school at the U. S. Naval Station, Newport, Rhode Island. Each summer tour of duty is of eight weeks duration.

ROC candidates also drill weekly with a Naval Reserve surface division unit. They draw full

pay for drills and the summer duty.

The physical requirements include either 20-20 vision, or 20-40 correctable to 20-20.

Applicants must be 17 years of age, and must not have reached the age of 27 1/2 by their prospective date of commissioning.

Seniors are not eligible for the ROC programs, nor are those pursuing a course of study that would lead to medical, dental or theological degrees.

Applications for the Reserve Officer Candidate School will be accepted through February 15 at the Naval Reserve Training Center on Onondaga Lake Parkway.

Those interested in procuring further information on the ROC program can visit or phone the Training Center. The telephone number is Oldfield 2-5373.

On campus, interested men may contact Prof. John D. Sims, one, 414 Marshall Hall, or Val Pinchbeck Jr., Archbold Gym.

## Number of Colds Termed Normal

Dr. Frederick N. Marty, director of the Student Health Service, declined Tuesday to make a definite statement concerning a flurry of cold viruses on the Hill in the past week.

He said that the slight increase in illnesses is no more than is to be expected during the first month to six weeks of the school year.

Dr. Marty made an analogy between civilians being inducted into the army and students from different areas of the country bringing with them various potential illnesses.

He said the common cold cannot be treated in the same manner as a special disease. It is composed of different viruses and this makes it difficult for the researcher to discover an antibiotic or vaccine as a cure, Dr. Marty said.

The infirmity declined to name specific medication for remedy of the common cold, saying each student requires individual treatment.

## PENN STATE GAME BUSES PROVIDED

The senior class will provide buses to transport students to and from University Park, Pa., where the Syracuse - Pennsylvania State University game will be held Saturday, Oct. 21.

Class of 1962 Vice President Susan Bailey announced that bus tickets will be on sale early next week. Round trip tickets are \$10 per person, she said, and couples may buy special discounts for a total of \$16 each.

Buses will leave the campus at 6 a.m. Saturday. Return trips are scheduled to leave Penn State at 6 p.m. and 2 a.m.

Students will seat 40 students and as many buses as necessary will be used.

Miss Bailey said coeds wishing to take the 2 a.m. bus back must sign out for an overnight permission.

## Drama Honorary Initiates Five

Boar's Head, the Drama Honorary initiated five new members last Sunday. They are: Bonnie Cousins, Joyce Katz, Gerry Lewis, Marion Present and Ellenjoy Schindler.

After the meeting, refreshments were served, and a twisting party and an auction were held in the basement of the Drama Building. Items, including costumes, hats and parties were auctioned off to the highest bidder.

## First Session Of Student Government

The opening session of Joint Student Legislature will take place tonight. For most Hill students it will matter little if it was also the closing session.

To us, this student attitude comprises the major challenge to student government leaders. They are trying to represent a student body that fails to recognize both their importance and effectiveness. To most people on the Hill, student government is about as distant as the latest Sputnik. Its accomplishments seem even harder to see with the naked eye. Usually one must equip himself with a kind of "gung ho" telescope that turns night into day and failure into success. Some people call this rose colored glasses. We simply think that it is innocent silliness for so many people to expend so much energy getting nowhere. For student government and all its leaders are operating in a kind of foggy, distant world. Unless they can bridge the hiatus between their legislative and executive actions and the feelings and desires of the students who shamelessly elect them, student leaders will continue to function in their own little world.

A key fault is that so much talent finds so many areas for abuse and waste. An operation like Syracuse student government requires the brains, time, efforts and energy of dozens of elected and appointed officials. At least this should be recognized and appreciated by the more morose and pessimistic of students. But the honest truth is that not only are most students unappreciative of the work done in their behalf, they are also ignorant and unconcerned. They know two things. One, they cannot drink and two, food service is lousy. After this their precious interest dies and the cackling begins.

## Dean Noble

Charles C. Noble, Dean of Hendricks Chapel, will be leaving the Syracuse campus October 10 on a Protestant Religious Mission. He will not return until November 21. This will be five weeks of the absence of a man who has become almost a legend and an institution on the Hill. If the administration announced that they were going to move the whole Chapel for the same period, the campus would seem no less vacant. Only rarely will a man touch the hearts of such a large student body as has Dean Noble. It is the occasional student who does not know Dean Noble as a man who will show warmth, sympathy, love and understanding to any student who approaches him. We will miss him.

By ALAN G. MILLSTEIN  
The increasingly grim headlines in today's newspapers concerning the possibilities of nuclear war in our time are panicking some people into seeking refuge from nuclear holocaust by burrowing into the ground much like a woodchuck.

Tuesday morning's Syracuse Post-Standard has a by-lined, lead story on page one which screams the news that 10 families living in the suburb of DeWitt have banded together in mutual defense from what they call "the emergency." The atomic shelter they plan to build is described in detail so as to give other prospective shelter builders an idea of what a first-rate whole in the ground should be like.

Further credence is given to the idea of building your own protection, whether it be for one individual or for a family circle, by the list of people who are to share the DeWitt project. Among the names of those involved are a physician and one of the star players for the Syracuse National's basketball team.

### Local Boom

The tail end of the Post-Standard article indicates that other communities in and around Syracuse are showing increasing interest in the bomb shelter building program.

But the city of Syracuse is planning to build underground not alone in news of families mausoleums. Tuesday's edition of the Syracuse Post-Standard of the New York Times has a feature story on page one of section two that describes the increased rate of building of various types of shelters in and around the New York metropolitan area.

The Times story gets down to a few frank comments about shelters that should jolt any prospective builder. The term "bomb shelter" it seems, is rarely used by the people building such a thing, the Times reporter found. "It appears to be generally agreed that few, if any, shelters built for family occupancy can offer protection against direct bomb effects," says the Times story.

### Look of Devastation

But Americans in increasing numbers are going ahead at a rapid pace in their shelter building programs. Apparently

a lot of people hope that for an expenditure ranging anywhere from a few hundred dollars to the several thousand dollars for the more elaborate type of protection being built by the Syracuseans, they will be around to see what the devastation following nuclear suicide looks like.

While those Americans concerned with building protection from something they are sure won't occur in their lifetimes are purchasing lumber and bricks to build family-type toms, it seems that some of the "rugged individualists" in our society are taking precautions against having neighbors, friends or relatives "mooch" off them in the event that there is enough warning for the whole neighborhood to become concerned over impending disaster.

### No Trespassing

"A family in Westwood, N.J. said they had asked a building contractor to install a hasp and lock at the surface level of their shelter to deter intruders. The couple said they planned to wear the keys around their necks at all times," the Times story reported. Norman Thomas told this reporter that he felt shelter builders ought to take guns with them, since they might have to start shooting in order to keep undesirable from saving themselves in a family-type shelter.

Undoubtedly the grim Berlin situation has sparked the new interest in a sport that ostriches for centuries have been credited for excelling at. Burrowing ones head in the ground to hide from truth of reality. Even the ostriches are too smart and don't live up to the legend scientists have spun. But while last year New Yorkers were heaping scorn upon

Governor Rockefeller and his brothers for their warning that we must build shelters, this year it is in the realm of an awakening to the light and sense that "Rocky" may have a point.

### Slightly Crowded

But I'm a city dweller and I just don't go for the idea of heading for the hills in the event of a twenty story apartment, especially, when I am told by Civil Defense officials that New York City is a prime target area. Although I have nothing against the American fetish called "togetherness," I just can't see myself digging out from beneath twenty stories of rubble along with my neighbors and their children.

Although I'm not a fatalist, I must agree with Norman Thomas when he sneers "Life" for their reassuring note that we can get out of the city and can be saved from nuclear disaster. The super-duper bombs that Khrushchev has his scientists busy building out I'm sure will be able to devastate the East Coast without leaving too much area free from the lethal effects of fall-out.

Last week Norman Thomas, who has been actively fighting for peace since before World War I, told me that "I hope I'll be right there when the bombs start falling."

Unless our country awakens to the fact that nuclear war is totally unthinkable in our time or at anytime and that the results of nuclear attacks would be complete devastation of life on earth as we know it today, then I hope I'm standing next to Norman Thomas when the bombs start to fall so that I can see if he has died knowing some people tried to avoid the holocaust.

# Reader Blasts DO, US Party Head

To the Editor:  
I find it dismaying to discover that the Daily Orange is contributing to the unfairness of campus politics. In the Daily Orange of Oct. 2, that carried Ellis Gaskell's resignation, the freshmen's first glimpse at campus politics, the Daily Orange predicts, "The seriousness of Gaskell's action should not be undervalued since the US swept last spring's campus elections and is expected to repeat its success this year."

Since there is only one publication on this campus, it is that publication's obligation to report the news and not to make predictions to the freshmen about the winning side. The Daily Orange in last spring's election also published a pro-US party article.

In the Daily Orange of Oct. 3 an article was carried con-

cerning campus politics and the freshman elections. This article should have been published prior to the one announcing Gaskell's and others' resignations from the pro-US party. Connections Alleged.

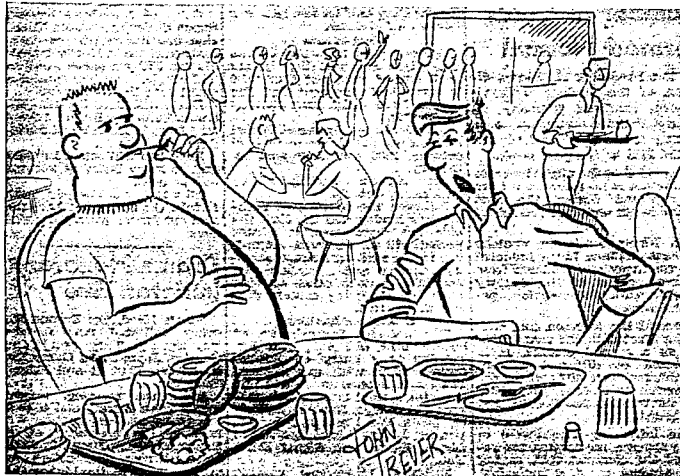

This was only another planned publicity stunt by that shrewd politician, Gaskell. Not only is Gaskell shrewd but it seems likely that the US connection with the Daily Orange.

The psychological effect of having Gaskell's resignation appear before the general article on campus politics was ingenious, although it unfortunately leads to the low tone of campus politics.

The DO neglected to mention the quality of the US party candidates of last year and their status with the university today. The old Tammany Hall tactics of the US party under Boss Gaskell I hope have not taken our university newspaper away from us. I hope as it has in the past, the Tammany Hall of Syracuse will disappear in any way to fair, honest and worthwhile politics, rather than the present day power, prestige and popularity struggle.

We should pay close attention to Mara Novack's suggestion of letting the freshmen run their own election with some university supervision. Let's give the freshmen a chance at honest politics before they are caught in the net of fraternalism and sororities.

Steven Herman

—AT THE FLICKERS— Diplomacy Target Of Ustinov Satire

At a time when the United Nations is facing a great crisis the cold war seems to be getting colder and the so-called neutrals can't make up their minds and continually play East against West, it is refreshing to see someone use this material for comic purposes. Peter Ustinov, who relinquishes his toga for the tux and striped pants of a diplomat, has adapted his hit Broadway play, "Romanoff and Juliet," into an amusing movie that could give pointers to many professional diplomats on the way to negotiate.

The plot revolves around Ustinov as head of the mythical state of Concordia and his mistake of volunteering information that would have been better kept a secret. Revealing to the dejected U.N. that Concordia has the power, by its single vote, to resolve the situation which has the U.S. pitted against the U.S.S.R., involves the bewildered leader in all kinds of situations.

Love to the Rescue Love, however, comes to his

aid in the persons of the Soviet Ambassador to Concordia's son (John Gavin) and the American Ambassador's daughter (Sandra Dee). Always ready to give love and his own problems a helping hand, Ustinov plays the merry matchmaker.

The plot resembles in some areas last year's "The Mouse That Roared" but whereas that country wanted U.S. aid, Concordia is in mortal terror of aid from any country because it would destabilize the Concordia economy.

Many of the stereotypes which appear in other films are also in "Romanoff and Juliet" but each is given a distinctive twist. The Soviet spy who hates his work, the Russian girl who is thoroughly indoctrinated but still wants to be a woman in the feminine sense of the world and so on.

Good Performances Much of the dialogue is crisp, original and witty and adds to the pleasure of the film. The color is glorious and the young people in love are exceedingly handsome. All add to the entertainment and the performances are uniformly good.

The film, however, is a Ustinov tou-de-force and it is he who adds so much to the material. Having written the play and performed it for many performances on Broadway, he is thoroughly at home in the role. He also has the knack of really becoming whatever character he plays.

For an entertaining hour plus, with real insights into international politics (which seems comic in many cases), "Romanoff and Juliet" with Peter Ustinov is more than well worth the price of admission. — E. S.

New ABC Radio Station Started In Solvay Area

By JOHN E. GREENWALD Syracuse has a new radio station, WQSR, 1320 on the AM dial. Operating with 500 watts of power from Solvay, the American Broadcasting Co. affiliate will broadcast from 6 a.m. to sunset.

WQSR features three regular disc jockeys: Pat Esmond the singer; Jim Ameche and Jay Jayson. They play music that station manager Myron Balotin calls "swinging and bouncy." A fourth disc jockey will be added to the programming schedule soon, Balotin said.

All four tape their shows and send them out to their customers. "We think we're one of the first stations in the country to have mainly syndicated programming," Balotin pointed out.

One Local Show At present the only local show is the early morning "Wake-Up" program. Ed, Balotin said, weekly broadcasting devoted to management and manufacturing, unions and politics are being planned.

WQSR is also considering lettering Syracuse and Le Moyne college students use the station's facilities for a 15 minute program.

"One of the reasons ABC took us on as an affiliate," he explained, "was our plan to include the full network programming, something that the current Syracuse outlet, WOLR, is not doing."

WOLR, Balotin continued, will carry the ABC network until the color is received. At present, WOLR uses some network newscasts.

WOLR Comments Andy Andrews, program director of WOLR, admitted that what ABC programs his station did carry added nothing by way of extra revenues or listenership.

"Nothing has been taken away from us," he said. Syndicated programming, Balotin noted, has been quite successful in many midwestern stations and is expected "quite a way in New York City."

"The sunset sign - off is a problem that has to be worked out by both the Federal Communications Commission and our engineers," he said. Stations using the same or similar frequencies, though in different parts of the country, often interfere with one another after sunset.

Cold War Show Set Seven Columbia Broadcasting Co. news correspondents will assess the critical East-West friction in different parts of the world on a CBS news report, "Where We Stand: War or Peace?," at 10 p.m., Thursday, on WHEN-TV, Channel 8.

# Orangemen 7th In AP, 9th In UPI Rankings

Although they picked up their second victory of the young season Saturday, the Syracuse Orangemen dropped to seventh in this week's Associated Press poll. The Hillmen were listed ninth in the first weekly United Press International poll.

In last week's AP rating, the Pity forces held down the fifth listing, but apparently their 29-14 win over West Virginia did

not impress the pollsters. Mighty Iowa, who knocked off California, 28-7, Saturday, held first place in both polls. Mississippi, the pride of the deep South, was runner-up to the midwesterners. Georgia Tech jumped into third place via a 24-0 lacing of Rice.

Alabama, Michigan State Alabama was fourth in the AP listing, but the Spartans of Michigan State held that spot in the

UPI poll. Texas was the number five team in both polls.

Michigan State was sixth according to the AP, followed by the Orangemen, Ohio State, Michigan and Baylor.

Ohio State fell from the third place spot it held last week. The Buckeyes were held to a 6-6 tie by unranked Texas Christian. Baylor moved into the top ten with a 16-13 win over Orange rival Pittsburgh.

Missouri In UPI Unranked by the AP, Missouri held down the sixth spot in the UPI poll. Completing the top ten were Alabama, Michigan, the Hillmen, and Baylor.

The second lot, according to the UPI, was Ohio State, Notre Dame, TCU, Auburn, Colorado, Miami, Purdue, Duke, Wyoming and Utah State. The Fighting Irish from South Bend were the only Orange Joe ranked by either poll, although Maryland and Penn State received votes in both listings.

# Harriers Face Colgate Saturday

By BILL CRONAUER

Hosting Colgate in the opening meet of the fall season on Saturday, the Syracuse University cross-country squads look forward to another successful campaign under Coach Bob Grieve. The two schools will clash for the 38th time in a rivalry that dates back to 1909. Since then, the local runners have emerged victorious on all but three occasions.

According to Grieve, the Red Raiders from Hamilton will field a much improved team over last year. He expects a typical hard-fought contest this weekend when his forces oppose those of Syracuse alumus Jack Warner, who captained the 1951 cross-country club under Grieve. "The Colgate squad features three exceptional runners in Barnshaw, Wilder, and Williams," commented the veteran Syracuse mentor.

The nucleus of the Orangemen squad is formed by senior captain Joe Francello, undefeated in dual meet competition last fall, and juniors Mike Guzman, Dwight Rodgers, and Mike McGuire. Several boys also advance from the undefeated freshman

team, led by Mouncey Ferguson, a potential star from Pittsburgh, Pennsylvania.

Other prominent sophomores include Steve Killorin and Jack DaDile, class A and B New York State cross-country champions respectively, and Bob Brown, Dick McHenry, a senior, offers further support.

### Fresh Runners

In addition to the varsity picture, Grieve expressed satisfaction with the progress of the '61 freshman runners. Among the fresh mentioned were Tom Higgins, Calvin Evans, Tom Driscoll, and James Corl. Ron Rigolosi and John Langlois are also contending for positions, along with Tony Altieri and Rich Radwie. The freshman will compete on a three-mile course instead of the five miles covered by the varsity.

Last season in dual meets, the Syracuse squad compiled three victories while suffering two setbacks, with one of the wins coming over Colgate, 35-48. The freshmen posted a perfect 7 and 0 slate.

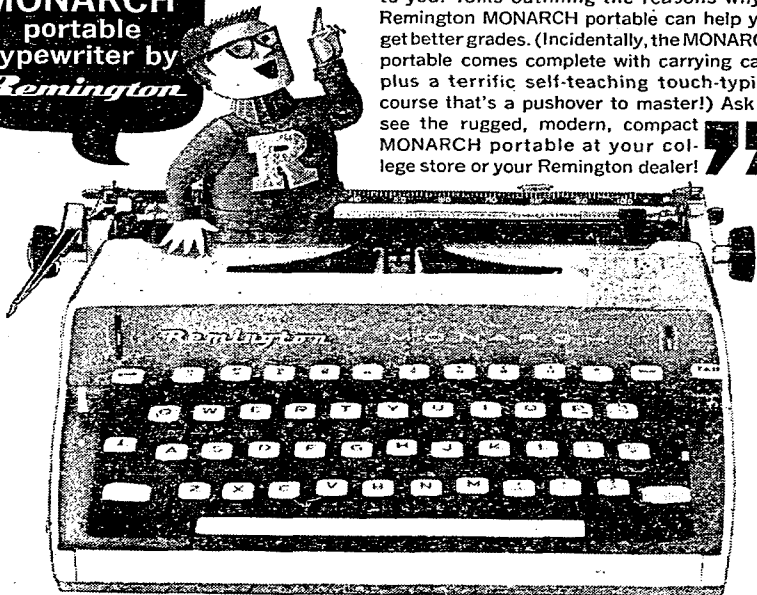

Following the contest with Colgate, Syracuse will journey to Buffalo on Oct. 14 with both the varsity and freshman runners taking part.

How to get yourself a superb new **MONARCH** portable typewriter by *Remington*

“We'll help you convince your parents you should have a Remington **MONARCH** portable typewriter to take the work out of your school work . . . and make homework fun! All you do is fill out and mail the coupon below. Then we write a letter to your folks outlining the reasons why a Remington **MONARCH** portable can help you get better grades. (Incidentally, the **MONARCH** portable comes complete with carrying case plus a terrific self-teaching touch-typing course that's a pushover to master!) Ask to see the rugged, modern, compact **MONARCH** portable at your college store or your Remington dealer!”

CHECK THESE SUPERB "EXTRA FEATURES": 1. Single key instantly sets or clears columns and indent! 2. Touch regulator adjusts to your individual "feel"! 3. Variable line spacer lets you type "right on the lines" of ruled paper! 4. Adjustable paper edge guide lets you insert paper precisely every time! 5. Calibrated scale on paper bail lets you center your headings faster! 6. Numerals and calibrations on paper table simplify margin settings—positively! 7. Erasure table on cylinder simplifies making corrections! 8. Card and writing line scale lets you type more precisely! 9. Removable top cover makes ribbon changing and cleaning easier! 10. Carriage centering device locks machine tight for safer carrying! 11. Two-color ribbon and stencil control! 12. Lighter weight without a hint of flimsiness or "creep" while you type!

# Statistics Show Slow Hill Start

By JUDY ADAMS

Great things are expected of Syracuse this year, things comparable to the national champions of 1959. But, unlike the '59 Orange who literally overwhelmed their opponents statistically, this year they have played little better than average ball.

Syracuse has totaled 31 first downs to their opponents 19. In rushing yardage Oregon and West Virginia totaled a formidable 310 yards while SU has gained only 361. Taking up the gap, however, has been the surprising increase in passing yardage. The '61 Orange has gained 251 yards in the air to their opponents 84, completing 19 out of 33 for a 57.6 and averaging 13.2 yards per completion.

This improvement can be attributed to the passing arms of Dave Sarette and Bob Lelli. Sarette has completed 12 of 20 for 180 yards and 3 touchdowns. Lelli has completed 7 of 10 for 71 yards.

Credit must also go to the receivers. Ernie Davis has caught 5 passes for 59 yards, an average of 11.8. Ken Ericson has

caught 3 for 32 yards averaging 10.7 per pass. Dick Bowman has averaged 10 yds. receiving 3 passes for 27 yards, and Walt Sweeney has picked off 3 for 25 yards and an 8.3 average.

Ernie Davis, in addition to leading in pass receiving, tops the club in scoring with 3 touchdowns and two extra points for a total of 20 points. Sarette and Ericson each have scored 8 points, while Dick Easterly and Bill Schonover have tallied 6 points apiece.

Davis has carried 26 times for 103 yards, both team highs. But his 4.0 average per carry is far below last year's 7.8. Gary Fialon has 17 carries for 91 yards and a 5.4 average, while Pete Brukav has carried 13 times for a 4.3 average. But the big surprise has been Schonover who although he has carried only four times, has gained 51 yards for a 12.8 yard average.

The Orange have punted 10 times for a 32.0 average while their opponents have averaged 33.4 yards for 12 punts. They have fumbled 3 times, losing the ball twice, and they have been penalized 148 yards to their foes 138.

# Orangemen, Terrapins Have Strong Passing, Same Records

Saturday's Maryland - Syracuse game could well turn out to be a contest of acrobatics.

With two games played by each team this fall both the Orangemen and Terrapins have unveiled powerful passing attacks.

A near capacity crowd is expected to witness the ball game in Maryland's Byrd Stadium, which holds 35,000 people.

Dave Sarette and Bob Lelli will be leading the Orange aerial attack. In the West Virginia game Sarette threw three touchdown passes. Lelli has completed seven of ten passes for 71 yards. Sarette has twelve completions for 20 passes and 180 yards.

The Maryland quarterbacks are Dick Novak and Dick Shiner. The pair accounted for three touchdown tosses in the Terrapins' 24-21 victory over Clemson last week.

The passing pair from Maryland completed 19 passes out of 26 tries against Clemson. They picked up 219 yards in that game by the airway.

The two pairs of signal callers are similar in that both teams have a senior and a soph at the helm. Sarette and Novak are both in their final seasons while Lelli and Shiner are rookies in

varsity competition. This game will mark the first trip into Byrd Stadium by Syracuse since 1956 when Jim Brown and company downed the Terrapins, 26-12.

# Lambert Poll Names Syracuse Tops In East

Syracuse, despite its lack-luster performance against the West Virginia Mountaineers Saturday, has been named the number one team in the East by the first Lambert poll listing.

The Orangemen gained 9.9 out of a possible 10 points, while Pittsburg is far behind with a 7.9 rating. The Panthers' stock fell when they were defeated by Ballou Saturday.

### Officials Called

All students interested in officiating in the 1961 - 62 intramural program are urged to attend an officials meeting at 7 p.m. in the Trophy Room, Men's Gym, on Thursday.

Army, with 7.1, is third in the East, followed by Villanova (6.8), Penn State (6.3), Navy (5.0), Yale (4.6), Rutgers (2.9), Cornell (2.1), and Columbia (2.0).

Individual honors this week went to quarterback Dave Sarette of the Hill forces, who was named to the All-East team for his performance in the West Virginia game. George Telesh of Cornell and St. Benedict of Colgate were also named to the first squad. Receiving votes were Orange tackle John Brown, Cornell guard Dave Thomas, and Colgate quarterback Dan Keating.

Among the sophomores mentioned in the balloting was Syracuse punting star John Snider.

### Money Given For Residence To Freshmen

A financial problem proved the bonds of friendship that have sprung up in two short weeks among residents of the sixth floor of DellPlain Hall.

A frosh resident, holder of several scholarships, was about to leave the floor for a cottage because he could not afford the cost of board in DellPlain.

Some of his friend's on the floor got wind of his problem and held an impromptu floor meeting to discuss the situation.

The group decided to raise the needed funds from the floor residents.

The money was raised and a call was put through to J. P. McMurray, director of men's housing.

McMurray said, however, that another student had already been assigned the room.

But when the new resident came to the floor, and the situation was explained, he consented to allow the boy for whom the money had been raised to remain in his room.

Tuesday McMurray said that as far as his office is concerned, as long as the boy pays the difference on his bill he may stay in DellPlain for the rest of the school year.

### AWS ASSEMBLY MEETS TONIGHT

The Association of Women's Students' assembly will meet at 7:15 p.m. today in the Women's Building Dance Studio.

Dean of Women Marjorie C. Smith will address the meeting and discuss the role and responsibility of AWS on campus.

### Construction Set For Men's Dorms

Federal Government  
Approves Contracts

Construction contracts totaling \$2,562,587 for two new men's dormitories at Syracuse University have been approved by the Federal House and Home Finance Corporation, university Vice President F. Gorton Smith announced Tuesday.

Ground has already been broken for construction of the larger dorm, a nine-story building, in the Flick Block northeast of the campus. This is the block bounded by Marshall street on the north, Comstock avenue on the east, Waverly avenue on the south and Walnut avenue on the west.

The other dorm, to be constructed in the same block, will be three stories high with dining facilities for 400. The two dorms will house 419 men, and are expected to be ready for occupancy by fall of 1963.

General contractor is the Ciotoli Construction Co. of Nedrow with a low bid of \$1,638,147.

The low plumbing bid of \$184,000 was made by Edward Joy Co. of Syracuse.

H. H. & F. E. Bean, Nedrow, was low for heating and ventilation with \$327,777.

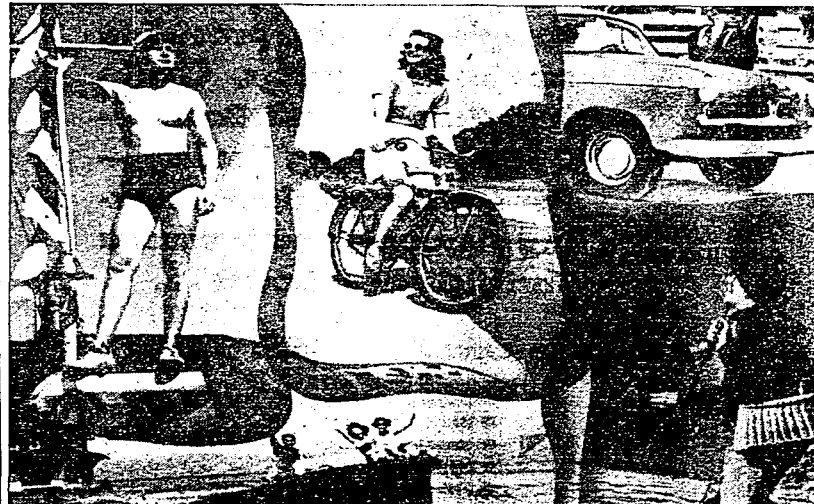

Krause & Hill Inc., has the electrical contract with a \$249,937 bid.

Otis Elevator of Buffalo, will install the elevators for \$81,955.

Kitchen installation will be done by Niagara China, Buffalo, at a cost of \$77,771.

### Spelling Correction

The name of the new men's dormitory is correctly spelled DellPlain. The Daily Orange has misspelled this in recent editions.

**FRESHMEN SKEPTICS**, 4:30 p.m. today, 313 Berkeley Dr.

## Burns Hits Walsh On Education Aid

Dr. Hobart W. Burns, professor of education and Democratic candidate for commissioner of education accused Robert F. Walsh, Republican candidate in the Syracuse mayoralty race of playing dirty politics with education.

Dr. Burns made this statement during a talk before parents and teachers Sat. 29 at the home of Gus Girigliano, 1525 E. Genesee St.

He accused Walsh of "making political promises about education he knows he cannot keep." Dr. Burns referred to a statement by Walsh to the effect that he would attempt to get more state aid to help in the purchase of textbooks.

"According to Dr. Burns, 'Either Mr. Walsh is deliberately misleading the public or he is so completely ignorant or state and city educational procedures that he has only proved he is unable to make educational decisions as mayor.'

"No matter what Walsh says, Burns contended, 'the people of Syracuse must understand that it is impossible for him or anyone else to get textbooks or funds for this purpose from the state.'

Jamison Edits Book on Religion In American Life

Dr. A. Leland Jamison, chairman of the Religion Department and James Wad Smith of the Princeton University Department of Philosophy, edited "Religion in American Life," a new series of four volumes published last spring by the Princeton University Press. In addition to Professors Smith and Jamison, professors from Yale, Harvard, Cathedral College, State University of Iowa and Union Theological Seminary contributed to the series. Professor Jamison has contributed an essay in the first volume on sects and cults in American religion, in which he says

Purse Thieves Plague Campus

"Girls, hang on to your purses," is a warning to all coeds on campus from the Security Police. During the last three weeks, Security has been notified of a number of purse thefts from various classrooms. According to Robert Flaherty, director of Security, someone is roaming the corridors of the campus buildings rifling unattended purses. Flaherty said that these thefts can be avoided if coeds will remember to keep their purses with them at all times and not to leave them in public areas.

that they "belong to the very substance of democracy" and "reflect the insecurities and neuroses of a society fumbling for freedom."

Upperclass Rush Slated For Friday

(Continued from Page 1) will begin Oct. 16, according to Miss Frykman. Sixty more girls will rush this year than last year, Miss Frykman said at Tuesday's Panhellenic meeting. Plan A includes 187 coeds, while 69 women will rush under Plan B and four under Plan C. Panhel also decided to assess each sorority member \$1.50 for the Charity Ball. This assessment will not apply to the new pledges.

Dean Noble Slated To Visit Greece In Air Force Tour

(Continued from Page 1) oke, Smith U., Boston U., Southern Methodist U., West Point, and a score of prep schools. Southern Methodist University has been the scene of much of his recent touring activities as he has been for last year. During an DO interview Noble told of his experiences conducting youth conferences at S.M.U., and his football football greets as Doak Walker and Kyle Rote. Nearly he spends one week at Mississippi State University teaching and counseling the students on the Methodist Philosophy.

Pulitzer Prize Poet to Speak

Pulitzer Prize poet Stanley Kunitz will visit the Hill Oct. 23 as the first speaker in the Visiting Writers lecture series sponsored by the English Department. During his two day visit Kunitz will speak at 4 p.m. on Monday in Maxwell Auditorium, and will attend several class sessions.

The International Typographical Union was founded in 1852 and is the first and oldest labor union in the United States.

Active at Syracuse While here at Syracuse Dean Noble has been instrumental in leading the Campus Chest drives. In November of last year he spoke out strongly in favor of the Junior class blood drive and within half an hour more than 900 had lined up at the hospital offering to donate blood. At that time he told how the donated blood often goes to our armed forces overseas, the men he will be talking to this month. As dean he conducts Chapel his Sunday sermons are familiar to a majority of the Hill students. He has also conducted much personal counseling.

Young GOP'ers Host Candidate

Robert W. Dettor, a candidate for the County Board of Supervisors, will speak to the Young Republicans Club at 7:30 p.m. Thursday in Maxwell Auditorium. Dettor, a graduate of the SU School of Law, is the Republican candidate for the Onondaga County Board of Supervisors from the 16th Ward.

His previous offices and activities include the presidency of the SU Law School Student Council, delegate to the State Commission on Youth and Delinquency, and to the Adult Education Commission of the State Bar Association.

# Dean Bailey Slams Urban Corruption

The Dean of the Syracuse University Maxwell Graduate School of Citizenship and Public Affairs has suggested stiff criminal penalties for individuals and business firms who have business dealings with cities and also contribute to political campaigns.

In a speech last night before the New York Chapter of the American Society for Public Administration at New York University, Dr. Stephen K. Bailey said that 90 percent of the political corruption in New York City and other urban centers would be out and eventually destroyed if this kind of action were taken. He stated that the real evil in urban politics was not within the parties or politicians but rather with an apathetic and cynical citizenry.

### Politicians Scramble

"I have known few politicians who have wanted to do the wrong thing," he said, "but I have known scores of politicians who have been forced to scramble for campaign contributions to nibble at the heart of their consciences or to turn the other way while money was solicited for them."

Dean Bailey continued by saying, "I have been powerful interests in business, labor, agriculture, veterans organizations and the underworld attempt to use their wealth to buy the souls of office holders."

He suggested that a possible solution to urban political corruption would be partly tax supported system of financing political campaigns. The first step toward this program, he said, "would be to outlaw campaign contributions or political services of any type from contractors, builders, architects, insurance salesmen, parking meter companies, automobile and truck suppliers and tire companies—these for a start."

### Wouldn't Take Care

"This wouldn't take care of all the corruption," he said, "but it (Continued on Page 7)

# Med School Author Raps Zen In West

By KEN NORWICK

Zen Buddhism cannot be meaningful in Western culture.

This is the contention of Dr. Ernest Becker, an Institute of Anthropology in the Department of Psychiatry at the Upstate Medical Center of the State University of New York at Syracuse, and author of "Zen: A Rational Critique," a book published this week.

"Zen Buddhism can only be meaningful if you don't believe that rationally has a place in life," Becker said in a Daily Orange interview yesterday. "If you believe in mystical solutions to man's problems.

"And in Western culture," Becker continued, "which goes back over 2,000 years, unique rational traditions have been in force."

### Buddhism Mystical

Becker defined Zen Buddhism as a "mystical or irrational religion imparted in a master-pupil relationship."

# Hill Political Organization Explained

By JEANNIE RANOV  
Junior Editor

(Editor's Note: In response to queries from freshmen and transfer students concerning the campus political scene, the Daily Orange offers a general statement and analysis of student politics on the Hill.)

In recent years, Syracuse class and campus government officers have been elected from slates of candidates nominated through a two-party political system. The parties currently operating are the United Students and Campus Alliance Party, emerged in February of 1959, the result of a readjustment of the Greek-Independent Alliance and Fraternity-Independent Together parties.

GIA and FITTE split primarily because of dissatisfaction with the distribution of power among member groups. The constitutions of both US and CAP were approved by Joint Student Legislature a week after their formation.

### CAP Starts Out

CAP got off to a good start in the spring of 1959 elections, allowing US candidates to take only two offices.

But the following fall, the four US freshmen candidates cleaned up.

The 1960 spring elections left the two parties running nearly (Continued on Page 6)

# Wiley and Hafer Challenge JSL In Keynote Talks

By JOYCE HERGENHAN  
Junior Editor

"We have to get rid of the notion that Student Government, when operating effectively, will operate in harmony with the school administration," said Dr. George Wiley, Joint Student Legislature advisor, in his keynote address to the first meeting of this year's legislature.

"The groups are bound to be at cross-purposes, causing certain student conflicts with both the administration and the faculty," Dr. Wiley continued. "It is therefore the main responsibility of Student Government to keep the administration and faculty bound to the legitimate interests of the student body."

Dr. Wiley began his talk "with the premise of Daily Orange columnist Jeannie Ranov that Student government at Syracuse is a farce," and traced its failure "in some of the most minute details." These included JSL's failure to notify Wiley that he was making last night's keynote address.

### Hafer Speaks

University-life president John Hafer also addressed Wednesday night's meeting. He presented the legislature with five challenges for long range planning that he hopes it will consider this year.

These include: stimulating an educational climate on campus; directing more effort towards improving academic standards; working for a stronger and more functional student government; having student government know more about the general university policy structure for the future and developing of personal concern for the welfare of the entire student body.

"This will not be an easy task," cautioned Hafer, "but what better time to start such a program than under a new student government?"

### Officers Offer Challenge

Miss Privater, Fitzgerald and speaker pro tempore Virginia Privater also addressed the legislature.

"This body, more than any other is the link between the students and the administration," said Fitzgerald, "and we come here to do something positive.

"There are going to be demonstrations this year, they're going to be right here and not in the middle of the quad," he continued. Fitzgerald and speaker pro tempore Virginia Privater also addressed the legislature.

"This body, more than any other is the link between the students and the administration," said Fitzgerald, "and we come here to do something positive. There are going to be demonstrations this year, they're going to be right here and not in the middle of the quad," he continued. Fitzgerald and speaker pro tempore Virginia Privater also addressed the legislature.

# Newman Hits Back At Leftist' Charge

By ALAN G. MILLSTEIN

An unsigned widely-circulated piece of Republican campaign literature accuses Richard A. Newman, Hill graduate assistant in citizenship, of being "an outstanding example of the leftwingers . . . well known in Syracuse . . . who is a prime (Henry) Norman advisor and supporter . . ." the Daily Orange learned Wednesday.

RICHARD A. NEWMAN

These charges were repeated Tuesday night by William F. Walsh, Republican candidate for mayor of Syracuse, while addressing the Syracuse Press Club and the Post-Standard on the night of Wednesday, Oct. 4. Walsh roared: "I made the charge."

The Republican campaign material says that "Henry Norman (Democratic candidate for mayor) is surrounded by former members of the discredited American Labor Party, by the old Progressives of Henry Walsh, Republican candidate for mayor from the Americans for Democratic Action."

The Post-Standard also reported that "Walsh, referring to an unreported statement, then said Newman was a man who signed a petition 'circulated by left-wing groups' which 'begged for the release of . . . convicted atom spy . . . Morton Sobell from federal prison where he is serving a 30-year term for espionage.'"

"Known Leftwingers Named by Republican headquarters," Newman has been Dan Dwyer who the Republicans say "ranks with Richard Newman as one of the city's best known leftwingers—whomals of better magazines Henry Norman's downtown headquarters—and is a member of the Inner Norman group which plots daily strategy."

# Maryland Rally To Begin Tonight With Car Parade

Co-chairmen Doug Shaver and Dedee Calick announced that the Maryland Pop Rally will begin at 6:50 tonight.

All cars for the parade should be up on the mount by 6:45. The Goons have planned the parade to begin at Day Hall. It will descend from the Mount to Comstock, to College Place, down to University Place and down to the Commons. Then across E. Adams, up Walnut Place to Waverly. It will wind its way down Comstock to Euclid, turning in at Sims and finally stopping at Hendricks Chapel.

The rally, however, doesn't end at the Chapel. Once everyone has assembled, the names of the new frosh cheerleaders will be revealed. Approximately 110 freshmen tried out last night. Only 10 will qualify.

### Noble Appears

Following the announcement, Dean Charles Noble will make his final campus appearance before his trip to the continent. His farewell address will be accompanied by several acrobatic renditions—"Noble" style. As an added attraction, for those not gung-ho enough to support the team, the famous Saltine Warrior, John Vorhies, and Torrapin will meet for the symbolic "Terrapin Dance."

Dwyer is accused by the Republicans of being a working member of the American Labor Party from 1942 to 1947. "This was during the same period when Vito Marcantonio, the New York City Communist, was one of the leaders of the ALP. Marcantonio was never critical of Russia, and Dwyer apparently was never critical of Marcantonio. He led the party line consistently while in Congress," the Republican mimeographed material reads.

### Charge Repeated

Wednesday's Post-Standard reports that Walsh repeated this charge before the Syracuse Press Club.

When Walsh asked Norman to answer a question concerning the man named by the Republicans as "leftwinger" at the Press Club meeting, Norman said the (Continued on Page 8)

# PEACE CORPS REP ON HILL

Robert Falasce, Peace Corps representative, will be on campus from 10 a.m. to 5 p.m. Thursday to interview students and faculty interested in joining the Corps. No appointments will be necessary. Interviews, which will be held in Dean of Personnel Administration John S. Hafer's office, 307 Administration Bldg., Hafer told the Daily Orange, will be held in the Peace Corps Recruitment Chief, Thomas Quimby, advising him of the interview.

Editor-in-Chief Sam B. Girusus Business Manager Andrew Levitt

Nkrumah of Ghana

When Kwame Nkrumah became president of the new African nation of Ghana, many in the West considered him to be one of the hopeful guiding lights of African nationalism. Here, many thought, was a counterbalance to the rabid fanaticism of other political leaders on the dark continent. But since then Nkrumah has been forced to envisage problems of devastating proportions. His response to these problems has been a continued assumption of greater personal power. On Tuesday his police force arrested an estimated fifty persons who opposed his policies. To the West, Nkrumah's failure to bring democracy to Ghana is disappointing, though many Africans feel that his actions are necessary for national unity and progress. In any case, Nkrumah should help weaken the bitter and indignant self-righteousness of so many Africans who deprecate colonial injustice, but pardon tyranny at home.

New Foreign Aid Head

Only politically backward individuals could sincerely oppose foreign aid to underdeveloped nations. However, few people would doubt that our present program needs revision and requires new ideas. This is why it is encouraging that both President Kennedy and his head of the new Agency for International Development, Fowler Hamilton, will try to impress upon future recipients of American aid dollars that "God helps those who help themselves." Hamilton said: "... we will regard as the best evidence of their desire to help themselves their willingness to undertake changes, if necessary even in their internal organization ..." The fulfillment of this idea can certainly prove difficult and in many areas even impossible. But to those of us who are tired of seeing American foreign aid used to buy Cadillacs instead of shoes and food, this new shift of emphasis is worthy of much support. In the past we have been far too hesitant to ask other nations to share in the responsibility of somehow keeping this world in tact. This is true not only for the Asians and Africans who readily accept our aid, but also for our historic allies in Europe. While continually and bravely professing their desires to maintain a free Berlin, there has been a concomitant refusal to substantially add to the military force needed to keep that city free.

The New Heart

It is the tragic irony of our time that as the radiation of nuclear bomb testing permeates the skies and darkens the spirit of men, and as free men labor to save the United Nations, Harvard physicians developed a revolutionary kind of heart pump that may be a significant advance against heart disease.

By JACK HAND The Communist menace seems to present a stronger and larger challenge to democratic ideals every day. With Castro's rat pack sitting no more than 90 miles from our shore, Americans are really beginning to worry about the possibilities of a Communist cancer spreading its crushing, smothering growth over the face of the western hemisphere.

It is easy to understand and to share their worries, with the world in its current position. To older people, there is an air of 1939 in the present situation. They fear that Berlin will be another Poland, the start of a world wide holocaust of senseless destruction. To younger people, the fear is even stronger, for they will fight their elder's battles this time.

College men watch the papers eagerly, keeping an eye on developments which may well send them hurtling into an active military life. There is a strange feeling abroad, as many of us watch our brothers and friends leave their homes in the service of their country.

No Holiday Now it comes close to us, as it has to in the past, for these young men are no longer leaving on six month tours of duty, with a sort of holiday air of seeing strange places and people. Now they leave in earnest, well knowing that they may soon be killing men they never knew, and that death may be close to them, close as it has never before been.

Reserve regiments are being called up every day, and no one knows who will be called to duty next. Many young men who have already served their time are being reactivated, leaving budding careers and young wives, who are still shocked at this sudden development. These young men are not heroic, and most of them will tell you that they are rather frightened at the situation. This is as it should be, for the man who claims to face death without fear is a liar or a very sick man.

What is important is that they have accepted the necessity of defending democratic ideals with their lives if they must. They go forward, not in joy, but with a conviction that

they are defending the beliefs that, they, subscribe to, and not those forced upon them by some superior.

John Birch Society

It is the duty of those who remain here at home to preserve the ideals that our young men are being called upon to defend. It is to be hoped that we will do so. This will not be achieved, however, through organizations such as the John Birch Society.

This reactionary group has had the gall to use the name of a young missionary killed in China by the Communists. To some this sounds as inappropriate as naming an atheistic organization after Joan D'Arc.

One begins to wonder if groups such as this are not attempting the substitution of a native totalitarianism for our traditional freedoms.

This would entail a definite betrayal of the very men whom the nation has called upon to defend it: It would also be a betrayal in a larger sense, a betrayal of every man, woman, and child in America, and of more than 300 years of striving for democracy. Even the world at large would bear some of the burden of this fall, for America is the citadel of freedom in this unsure world.

Opportunity for Tyranny

That such organizations are finding fertile ground with which to sow their dragon's teeth has become painfully evident in recent days. The simple positive and dogmatic answer is gaining a large following in politics and other fields, far too large a following.

The simple answer is the stock in trade not of the democratic tradition, but of the totalitarian tradition. Only by force, and through disregard for individual human rights, can these simple answers be implemented.

When one hears from a young man, college educated and trained as a military officer, that he would favor a military dictatorship in America, one wonders at how safe our nation is from internal totalitarianism. This is, of course,

LETTERS

an extreme case, but it is merely an extension of the viewpoints of others.

Patriotic Strait - Jacket

These others would restrict the press and muffle free speech, chanting patriotic slogans as they deny our freedom. They would force their own views on the rest of the population. They are far too quick to say that "there ought to be a law" against other ways of seeing, saying, or doing things.

This quickness to condemn minority opinions is very basically an un-American tendency, and strikes at the foundations of all we hold sacred in this democratic nation. If it is allowed to gain the ascendancy, this will cease to be a democratic nation. Unless we have produced the monster we should fear Communism, a native enemy as much as Communism, a native American totalitarianism.

Our young men will fight, if they must fight, for nothing from within. It is the duty of the American people to keep a close watch on those who would destroy traditional rights. We must not let reactionaries and witch hunters subvert the government, as we the young people defend it against Communism on the battlefields and the ideological front of the cold war.

LETTERS

Student Attacks DO Movie Review Of 'Raisin in Sun'

To the Editor: I do not usually write letters to editors of publications in protest but in this particular matter I could not resist. Although the point may not seem terribly important I believe the article to which I refer is so fallacious that it should be corrected.

In your "Weekend Guide" to movies a scurrilous review of the movie "A Raisin in the Sun" must have either been written by someone who had not even seen the picture or one who rarely appreciates anything particularly outstanding.

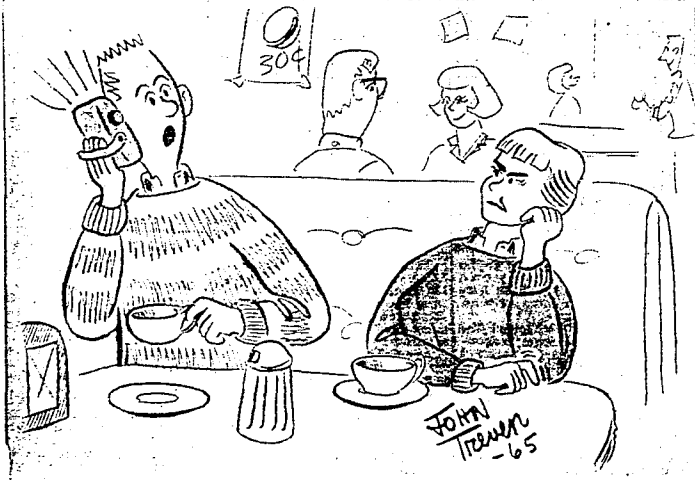

The David Suskind production starring Sidney Poitier is probably the most vivid, poignant and stirring motion picture ever released by Hollywood in about a year.

Cinema Parity The warmth, simplicity, depth and reality of the characters portrayed so superbly by Mr. Poitier, Claudia McNeil and Ruby Dee is something rare in modern cinema going. Of course, as the respondent from my opinion might be somewhat adolescent but it must be noted that the distinguished movie critics of all seven of the major New York City newspapers found this to be one of the most rewarding films of this or any other season.

So I conclude that it does not "miss the mark" and that Mr. Poitier's performance is not "good" but outstanding.

A wonderfully moving play by Miss Lorraine Hansbury has been made into a beautifully written, brilliantly acted, vital and inspiring film.

DelPlain Hall.

Free Infirmary Phone Requested

To the Editor: Every building, living center and office at Syracuse University has an extension telephone. But we students who have been placed in the student infirmary are made to use the pay phone. There is no reason for this situation.

We in the coeds' section would appreciate seeing this condition remedied.

# Two Entertainment Magazines Make Debut This Season

**EDITOR'S NOTE** — This is the first in a series of two articles on the addition of new entertainment publications to the magazine field.

JOHN E. GREENWALD  
"The magazine industry is not a flourishing one," says Huntington Hartford, publisher of the new "Show" magazine. Neither added "Look" magazine last month, is the enter-

tainment industry flourishing. Therefore, it seems a little bit strange that these two somewhat "niche" industries should combine their forces and produce two new, slick and expensive magazines: "Show Business Illustrated" and "Show."

It will also be strange, at least to this writer, if both of these magazines last the decade.

SBI is published by "Playboy" and bears all the markings of that magazine and its mid-western editor, Hugh Hefner. SBI looks and reads like "Playboy."

**Playboy Format**  
Its format, from the opening Showbill to the night-owl mascot, almost reeks with "Playboy" Midwest charm. Only the nudes are changed; they are now postage stamp size.

Like its older brother, SBI's coverage of the entertainment fields broad but shallow. It hops, skips and jumps from new television shows to new movies; from old movie stars to new startlets; from the Kennedys to Jackie Gleason. But, it hardly ever seems to get its teeth into the subject.

SBI's list of contributing editors and writers is impressive. But only a few, like Joe Hyams and Jerry Talmor, manage to deliver more than a quick "look-see."

SBI's reviews are uninspired while their prodigious ratings of films, shows, records, etc. are of a mediocrity that usually results from committee efforts.

Leonard Jossel's art direction is attractive but suffers from a Hugh H. Hefner Publishing Co. neurosis about having as many small, and therefore illegible, four color pictures as possible.

Yet, SBI does have an advertising and editorial strength that seems rare among first, second and even third issues of a new magazine.

# French Film Offers Insight on Women

—AT THE FLICKERS—

The double sexual standard that has been plaguing us Americans seems to have been bothering the French too.

But whereas we discuss double standards, sex etc. on Sunday afternoon television shows or in Unitarian pulpits, the French throw it all into a rather funny, sometimes very beautiful, film.

"Love and the Frenchwoman," which opened at the Riviera Cinema last night, consists of seven separate episodes: childhood, adolescence, virginity, marriage, adultery, divorce and women alone. Each one was written, directed and acted by different people. All are united by some clever, statistical-type cartoons and commentary.

The first, and the weakest, episode concerns the questioning of innocence. As directed by Jean Decau, the often funny dialogue among the bewildered parents and their friends becomes a bit superficial.

**Adolescence**  
The second one, adolescence, tries to describe with a quite humor, the problems of a young girl who has just discovered boys, and naturally enough, herself. As directed by Jean Delannoy, this episode doesn't come to grips with the subject matter. But this is excusable, since who can come to grips with teen-age girls anyway.

In the third sequence, however, "Love and the Frenchwoman" reaches its most moving moments. Virginity probes a young girl's mind as she tries to decide whether to sleep with her fiancé or not. With a tenderness and charm rare among films, director Michel Boisrond has given us a moving insight into innocence. We can also thank writer Jean Constantin for presenting the boy friend in a favorable light.

Tene Claire has written and directed the next episode with his typical love of the human comedy. Telling the simple tale of the honeymoon train ride to Paris, he asks for nothing more than a little understanding between mates.

**Adultery**  
The adultery sequence stars Jean-Paul Belmondo as the not-so-would-be seducer of frustrated wives. What makes this sequence so satiric and biting is the revealed inner thoughts of this middle class

triangle as they try to outwit each other. It's also a bit sad.

Just as humorous is the divorce part. Here a married couple, realizing that they are not passionately in love with each other. It's also a bit sad. The "raw won't" have it that way, and soon the now-almost tragic couple begins to believe the lies their lawyers have made up for the courts.

Women alone, the seventh episode, concerns the bachelor women and how a not-so-middle aged roue pleases their eyes while losing their money. Complications arise when he falls in love with one, but true love wins out. Thank God for the French.

All told, the seven episodes of "Love and the Frenchwoman" create a fine, funny and often moving film. Those aspects that the film satirizes seem strangely American, but those parts of the picture that give it warmth are wonderfully French.

# NCAA Lists Davis 8th In Scoring Race

By ART ROSSKY

Although Syracuse failed to place among the nation's statistical leaders as a team, the Orange-men's Ernie Davis is tied for eighth place among the nation's scorers, according to recent statistics released by the NCAA.

His 20 points, on three touchdowns and two extra points have been matched by Fred Colvard of West Virginia, the Orange-men's last opponent, and Burton of San Jose State. Colvard

scored all his points in his team's opening game, Pete Pedro, a 160-pound speedster from West Texas State, is leading, with nine touchdowns in two games, which ties a record.

Maryland, the next opponent for Coach Ben Schwartzwalder's forces, did not place in any of the 16 statistical departments. Notre Dame, one of the Orange-men's later opponents, ranks 10th in total offense and second in rushing offense. Holy Cross, the only other Orange opponent to earn mention among the leaders, is ninth in passing offense.

The nation's statistical leaders are headed by Dartmouth and Northwestern, who each lead in two departments. Dartmouth leads in total defense and rushing defense while Northwestern is tops in total offense and rushing offense. Other team leaders are Detroit University in forward passing offense, West Texas State in scoring, Illinois in past defense, and North Carolina State in punting.

End Bill Miller of Miami (Fla.) an all-American candidate, is leading the nation in pass receiving with 12 aerials snagged in his first three games. 1960 pass receiving champ Hugh Campbell of Washington State, also an all-American candidate, is pressing Miller with 11 receptions in two games.

Gary Collins of Maryland, still another standout end, ranked eighth in receiving in 1960 although so far he has failed to gain a place among the 1961 leaders. Campbell's teammate Mel Melin, who is currently second in passing, was third in passing and second in total offense among 1960 gridirers.

Iowa, the nation's number one team and reputed to be a mighty offensive force, ranks fifth in defense and only thirteenth in offense. A further surprise is offered by the fact that three Ivy League schools, Dartmouth, Columbia and Yale, hold the top three places in defense. Still another member of the Ivy League, Pennsylvania, is second in pass defense.

# New York Grabs World Series Lead With 2-0 Victory

The New York Yankees utilized two of their most feared weapons in the final game of the pitching of Whitey Ford, to capture the opening game of the 1961 World Series from Cincinnati, 2-0, yesterday in New York.

Neither of the round trippers came from the famed M-M boys, Roger Maris and Mickey Mantle. Maris failed to get a base hit, and Mantle did not play.

Elston Howard and Bill Skowron delivered the home runs, and that was the only margin Ford needed. "The stubby southpaw was maddening in twisting his third straight World Series shutout. Ford gave up only two hits, walked but one and struck out six Redlegs.

The contest was highlighted by several defensive gems. The Yankees' Cleis Boyer came up with a pair of sparkling plays at third base, living up to his reputation of having a magic glove.

Vada Pinson and Eldie Kasko also made some fine defensive plays for the Redlegs.

While yesterday's game was a battle of lefthanders with Ford besting Jim O'Toole, today's contest will pit two righthanders against each other. The Yankees, seeking to take a 2-0 lead into Cincinnati's Crosley Field, will start Ralph Terry. The National League champions will counter with their ace, Joey Jay.

Both of the young righthanders had exceptionally good records over the regular season. Terry, hampered last year with arm trouble, finished with a 16-3 record. Jay, traded by Milwaukee, was the National League's big surprise. He and former teammate Warren Spahn each won 21 contests.

Fair weather is forecast for today's contest. Yesterday's crowd of 62,000 plus should be surpassed today.

# Salem refreshes your taste "air-softens" every puff

Take a puff... it's Springtime! Beneath ancient trees, which have known so many springtimes, you feel renewed and refreshed by the soft, cool air. And so your taste is refreshed by a Salem, the cigarette with springtime freshness in the smoke. Special High Porosity paper "air-softens" every puff. ## Orange Pass Receiver

**MARYLAND** may have its Gary Collins, but the Orangemen have several fine receivers ready for Saturday's game. One of them is senior end **KEN ERICSON**, who has caught three passes good for 32 yards so far this season. Ericson also does the team's extra point kicking.

## Collins Chief Threat In Maryland Attack

By **STU PARKER**

Saturday, when the Syracuse eleven journeys to Maryland, one of their chief concerns will be to contain Terp All-American end candidate, Gary Collins.

Collins, an all-conference selection and honorable mention all-America last season, is an excellent punter, blocker and tackler in addition to being the greatest pass catcher in Maryland football history.

He holds the record for most passes caught in a game and career. He needs only seven more yards to tie the record for most yards gained by passes, which is 761 yards.

Coach Tom Nugent calls his 205-pound, 6-3 star the best end he has coached and one of the finest he has ever seen. Gene Corum, coach of West Virginia, feels that Collins' exceptional pass catching abilities will make him a sure-fire prospect for professional ball.

Because of his great ability other teams usually double and triple team Collins. This has resulted in his use primarily as a

decoy this season.

In Maryland's 14-6 victory over Southern Methodist Collins' ability to act as a decoy helped win the game for the Terps.

The games second and deciding touchdown came with Collins acting as flanker, covered as usual by two men. When Collins sped into his pattern a third man also picked him up. This left halfback Jimmy Davidson in the end zone all alone for the 18-yard scoring pass.

Even with two men covering him Collins seems to pull down the big passes. This has led to his nickname, "the crowded end." Nugent explains the nickname by saying, "Gary has the outstanding facilities, and instinct to go up for a pass with a crowd around him and come down with the ball. He likes a crowd."

On defense he is known for his ability to make the big play. Last season against Wake Forest he blocked three punts and a field goal. He then went on to intercept a last minute pass in front of the end zone to save the game for the Terps.

# Watkins Glen Sports Car Race Attracts Students

By **FAM CURTIS**

The Grand Prix of the United States will be held Sunday afternoon at Watkins Glen, New York. The race is scheduled to begin at 2 p.m.

A two hour drive, Watkins Glen is only about 80 miles from Syracuse University. Due to the proximity of the race, many students from the University will be attending.

The cost of general admission tickets will be \$4. There will be a limited number of bleacher seats available to students at a nominal charge. Most of the large crowd expected will park their cars in the lot at Watkins Glen.

Steward  
The new world road racing champion, Phil Hill, will watch the race from a track-side seat at Watkins Glen. The post of honorary chief steward has been awarded to him in this last championship race of 1961. He is the first American to have won the coveted world road racing championship.

The Watkins Glen course is 2.3 miles long. The course winds around the Clubhouse Eses, down the front straight, through the chute loop, up the back straight, around the big bend, past the pits where the drivers take a sharp right and then over

the grid to the finish line.

The foreign drivers are: Sterling Moss, Jim Clark, John Surtees, Roy Salvadori, Graham Hill, Tony Brooks, and Innis Ireland, all from England; Olivier Gendebien of Belgium; Joakim Bonnier of Sweden; Jack Brabham of Australia, and Bruce McLaren of New Zealand.

**American Drivers**

The Americans are: Dan Gurney, Jim Hall, Hap Sharp, Roger Penske, Walter Hansgen, Lloyd Ruby and Masten Gregory. Peter

Ryan is the Canadian representative.

Even though the Ferrari team, which Phil Hill was a member of, has withdrawn from competition for the remainder of the year, the Watkins Glen contest shapes up as one of the best of the year. Eleven countries are represented, including the United States and Canada.

Previous members of the illustrious list of men who have won the world road racing championship, in addition to Hill, are Farina, Ascari, Fangio, Hawthorn and Brabham. Brabham will be racing this year at Watkins Glen and is one of the most experienced drivers in the race. He should be a contender to watch Sunday.

### Officials Called

All students interested in officiating in the 1961-62 intramural program are urged to attend an officials meeting at 7 p.m. today in the Trophy Room, Men's Gym.

# Hill Political Organization Explained

(Continued from Page 1)

neck and neck, with CAP taking 17 and US 14 posts.

The tide turned for US, however, in fall freshmen elections, with all the US nominees placing first.

And US got the 1961 spring election in its pocket, grabbing 24 out of 32 offices.

Fall Spring Elections

Four freshman class officers are elected in the fall each year, and officers of the other three classes, class senators-at-large and Joint Student Government heads are elected each spring.

The parties are composed of fraternities and sororities. Last spring US numbered 29 houses, CAP 15. But this fall both parties are in a state of flux and these figures will undoubtedly change before the Nov. 1 elections.

Independent groups occasionally spring up just before election and either nominate their own candidates or throw their support to candidates of the existing parties.

However, last spring, both US and CAP had standing invitations

to all independent individuals to attend their respective nominating conventions.

Party heads are now meeting to discuss the political outlook and strategies before the conventions for nominating freshman candidates. In the weeks before the conventions are held, the power of certain houses and individuals in each party may be lessened or underscored. Some houses may change parties or drop out entirely.

Conventions are usually held on a week night in the fall, about two weeks before election day. Joint Student Government repeats the number of days before the election that candidates may campaign.

Spring conventions are generally held the same weekend by both parties, and are lengthy sessions of fasting more than eight hours.

Two delegates from each member house attend all party meetings and conventions, each delegate has one vote.

**Rush Poses Problem**

The advent of deferred fraternity rushing this semester has posed problems for the parties.

Previously, fraternities had their pledge classes before the freshmen nominating conventions were held, but this year, rushing is slated to begin after the frosh elections.

A party may find itself in the awkward position of having nominated freshmen who later pledge houses in the opposition party.

CAP has suggested a plan to have freshman living center representatives as well as Greeks attend and participate in one nomination convention that would select a slate for each of the parties.

# DO Advertising Staff Needs Frosh

Freshmen interested in the field of advertising are needed on the staff of the Daily Orange, according to DO business manager Andrew Levitt.

"We intend to give the DO more local ads than ever before," Levitt said, "and we are looking for capable freshmen who would like to earn money and gain experience on our staff."

Interested freshmen may sign up at Prefab 7b.

Levitt, a senior accounting major in the College of Business Administration, was named DO business manager late last Spring, succeeding Harris P. Durney.

A former assistant business manager, Levitt has worked on the business staff since his freshman year. He was assistant layout manager and layout manager in his freshman and sophomore years.

A brother and treasurer of Tau Delta Phi fraternity, Levitt is a member of Alpha Kappa, national business honorary. He is a former Mens' Student Government Public Relations commissioner and was a salesman for Syracuse 10.

The 21 year - old Levitt, a native of White Plains, N. Y., plans to go to law school after graduation from Syracuse, preferably at Columbia or New York University. He also hopes to earn his CPA degree.

While some men battle their way to the top, others bottle their way to the bottom.

# Med School Author

(Continued from Page 1)

Company, Inc., and sells for four dollars.

It is the first work by Becker to be published.

**Cuts Red Tape**

Becker said Zen first became popular in the West after World War II. He said that this was most likely because it "cuts through a lot of the red tape and outer trappings of conventional religions and allows faster and more direct contact of the individual with the cosmic spirit."

"But," he continued, "this is a mystical religion that does not fit in with the rational traditions of Western culture."

Anyone can call himself a Zen Buddhist, Beck commented, "although the only real Zen Buddhists are the specially trained, certified 'masters' of the religion. He said the "First Zen Institute" in New York City provides the training necessary to become a Zen master.

A strictly Oriental religion, according to Becker, Zen is strongly

est in Japan, although there too it is a minor sect. "We're led to believe that Zen is a major religion in the East," Becker said, "but, in reality, it is not."

Although he is not now nor ever has been a Zen Buddhist, Becker has been interested in the religion for the past six years. He said he utilized personal contact with Zen masters in the preparation of his book.

Even though the book has not yet been reviewed by any major newspapers or review magazines, Becker said the book was selling very well especially at the University Bookstore.

**Bookstore Displays**

The Bookstore had a large display of the book this summer.

When a national television station dedicated to Douglas G. Haring, retired Professor of Anthropology at Syracuse, The dedication states: "... the teacher imparts the spirit of Zen."

Becker is currently doing research in the overlap between the social sciences and psychiatry.

Commenting that his book is the first critical examination of Zen to be published, Becker said "it is important for students at universities like Syracuse to have some background information fed into their thinking. Universities are putting out uncritical people."

# New Duplicator At Corner Store

The Corner Store has announced a new duplicating service for students and faculty.

"The new machine produced by Transmatic will reproduce for permanent records or use any kind of material, such as graphs, drawings, glossy photos and typewritten or printed matter.

The machine will also reproduce books as well as individual sheets either on paper or in transparencies for projection purposes.

According to Mr. Edward Ellis, individual sheets of not more than 12 inches in width and of any length will be reproduced for 15c each.

"Books up to 8 1/2 by 14 will be done for 25c per page. Transparencies are also 25c apiece. The time required to get something reproduced will vary according to the popularity of this service.

Since these machines are movable they can be taken over to the library one or two nights a week if there is sufficient student and faculty demand.

# University Band Will Present Show At Game Saturday

The Syracuse University Marching Band will travel to the University of Maryland, College Park, Maryland, this weekend for the Syracuse-Maryland football game. The party will leave the campus at 11 p.m. Friday and is expected to return at 6 p.m. Sunday.

The "Warrior Band" will present half-time and post-game shows, featuring "Orange Girl" Judy Delp. It is also preparing a special salute to the many Syracuse fans expected to be in the audience.

The Star Spangled Dinner will be performed by the University of Maryland Band and conducted by Syracuse Band Director, Donald E. Schmaus.

Included in the Syracuse Band equipment will be two new "single head revolving bass drums," the first of their kind to be used in the East. They are permanent equipment of the Syracuse Band and can be seen at the next SU home game, October 28.

A campus band to be based at College Park will be the new assistant director, Mr. Larry M. Arnold from New Concord, Ohio, and the student band staff.

### Special Ed Div. Gets U. S. Grant

A U. S. Government grant of \$24,294 was received Tuesday by the University Division of Special Education and Rehabilitation, Dr. William Cruickshank, director of Special Education announced.

The money has come from the United States Office of Vocational Rehabilitation.

Dr. Cruickshank said the funds would be used for the training of advanced graduate students studying in the area of advanced hearing and speech disorders.

The program will be directed by Dr. W. Scott Curtis, coordinator of academic programs in audiology and speech pathology at SU.

In August, a grant of \$56,000 was made to the University by the Office of Vocational Rehabilitation for the training of vocational rehabilitation counselors.

A part of the second grant will be used for the support of a faculty member in the field of speech and hearing. Dr. Cruickshank said.

### ASME to Meet Today in Chapel

The American Society of Mechanical Engineers will meet tonight in the coffee lounge of Hendricks Chapel at 7:30. Films and slides of the Niagara Power Project will head the evening's program.

A new slate of officers was recently announced with John Lazaris as chairman and David Geary, vice - chairman. The new treasurer and secretary are Robert Wolfrom and Harry Irvine respectively.

# Dean Bailey Slams

(Continued from Page 1)  
would certainly take a big bite out of the putrid pie."

Dean Bailey, a former mayor of Middletown, Conn., told the administrators that even any degree of reform would not have

a chance unless the best political leaders, the press and the public got behind the program of revised campaign financing.

Public administrators "have a special responsibility to press for political reforms which will help American local government return to the principle that public service is a public trust," Dean Bailey concluded.

### Phi Beta Kappa Selects Cressey

Dr. George S. Cressey, Maxwell School Professor of Geography at Syracuse University, has been named by Phi Beta Kappa as one of its seven national visiting scholars for 1961-62.

A Visiting Scholar is chosen by the chapters of Phi Beta Kappa to visit their college for a few days and to participate in the academic life of the community.

He usually gives a public lecture, leads classroom discussions and meets informally with students and faculty.

Professor Cressey joined the Syracuse faculty in 1931. Former chairman of the Department of Geography, Dr. Cressey is a world-renowned geographer living today and has written many books.

Phi Beta Kappa, the national liberal arts honorary throughout U.S. colleges and universities, began in 1866.

The opening concert of the 12th season of the Syracuse Friends of Chamber Music will be held at 8:30 p.m., tonight at the Everson Museum of Art. A new string quartet by Earl George, associate professor of

music at Syracuse University, will be the highlight of the evening's performance. Also scheduled is a quartet by Beethoven and a quintet by Brahms. Miss Sara Lombardi, guest pianist, will join the Krassner Chamber Ensemble in performing the works.

# Newman Hits Back

(Continued from Page 1) Republicans were referring to Richard Newman "a Presbyterian minister and a member of ADA just as Mrs. Eleanor Roosevelt and Senator Hubert Humphrey are!

"Dwyer is a man of deep religious convictions" who "has spent most of his life caring for his aged mother", Norman said. "I'm not going to throw him down the river for something that happened twenty years ago," Norman declared.

**Newman Replies**  
Newman, a graduate assistant teaching religion and citizenship at Syracuse since 1958, re-

sponded to the charges made by Walsh and the Republicans in an exclusive Daily Orange interview.

"The subversive attempt to draw sinister implications from my membership in the ADA is to deny everything meaningful in American life," Newman said. "I was a member of the anti-Communist Association for Democratic Action and am proud to have been associated with ADA members like Mrs. Roosevelt, Senator (Herbert) Lehman, Walter Reuther and Senator (Eugene) McCarthy." Newman, an ordained Presbyterian minister was pastor of the Westminster Church of Syracuse for five years, he declared.

In 1960 Newman ran unsuccessfully as Democratic candidate for the State Assembly from Syracuse. An active Democrat in Onondaga County, Newman is, at present, "campaign co-ordinator" for the Democratic slate in this fall's local elections that include the mayoralty contest.

Republican charges that "left-wingers" are associated with the campaign management of Democratic candidate, Henry Norman, were first made public the day after Norman won the Democratic primary on September 17th. The specific identities of these charged by Walsh as being "leftists" was not made public until Tuesday night.

**Attack No Surprise**  
"It is no surprise to me," Newman told the DO, "that whoever writes Mr. Walsh's speeches is so bankrupt of ideas that Republican boss Hughes is so lacking in decency, and that Walsh himself is so willing a puppet that they must attack me rather than campaign on issues."

Newman defended his signing of a petition urging a new trial for atom, Morton Sobel, as being "every man's right in a democracy." He pointed out that he was joined by other clergyman in signing the petition including other George Dunn, S. J., Rabbi Philip Horowitz and

the well-known Rev. Donald Harrington.

"Why does Mr. Walsh not reveal his own record?" Newman said. "The (Walsh) is the product of a party which has made the headlines through its association with machine rule, gambling, and prostitution, dope addiction, bossism" Newman added.

**"Reps. Degenerated"**  
"If the innumerable of the Republican machine are the best campaign they can provide, then their pathetic degeneration is complete," he concluded.

In January Newman is scheduled to go to Vassar College where he will spend a semester as an instructor in "Social Ethics."

## Warrior to Slay Maryland Mascot

The University of Maryland's terrapin mascot will be massacred in effigy by Syracuse's Salline Warrior Thursday night during the student pep rally sponsored by the Goon Squad.

The rally will begin at Day Hall, on the Mount, at 6:30 p.m. A parade will proceed around the campus ending at Watson Dormitory, on the front lawn between the East and West wings, for the rally activities.

Hendricks Chapel Dean Charles C. Noble will make his last appearance with his accordeon before leaving on his trip to Greece. A band will play, cheers will be led, and new freshman cheerleaders will be announced.

Dede Calick and Douglas Shaver are co-chairmen of the pep rally committee. John Vorhes is this year's Salline Warrior.

Practically every sale of every product manufactured in the U.S. will be purchased by one of the 100 million people who read a newspaper on an average day.

# Orange Expect Terrapin Scare

By RON ROBERTS

The revitalized Terrapins of Maryland University, boasting all-American end candidate Gary Collins, an awesome aerial attack, and enough offensive formations to enter an almanac will be trying desperately to waylay Ben Schwartzwalder's Syracuse gridders when they host the Orangemen Saturday in College Park, Md.

A capacity crowd of about 39,000 is expected to jam Byrd Stadium to witness the clash between the new and the old of the football powerhouses. Both schools come into the contest with identical 2-0 season records, making the decision here an all-important one.

After their mediocre showing in last Saturday's West Virginia game, the Orangemen need a decisive victory over the Terps to inject some intangibles but so desirable drive and spirit into the club for their three game road trip.

Schwartzwalder, although hampered by the weather, had a healthy Ernie Davis to work with this week, and is hoping the big halfback can flash his usual line form once again Saturday.

Early in the week Ben touched upon poor execution, slowness in the huddle, and failure to pick up proper assignments as the primary Orange weaknesses. "We can't seem to get that all out effort that we'd like to have," commented the Hill coach. He added the possibility of a "rude awakening" at Maryland if his defense can sharpen up and hustle more physically.

Ben has been concentrating on the correction of these faults all week, and the first outdoor session on Wednesday saw a spirited fifty football team working well and "talking it up" despite the drizzling rain.

Syracuse end coach Joe Szombathy, who scouted Maryland, describes Tommy Nugent's aggression as "well coached, and poised."

Szombathy reports that the starting Terp line will average between 212 and 215 pounds. They will generally split one end and a flanker on opposite sides, according to Szombathy, and will probably show a lot of offensive changes and variations to supplement their famous "T" formation.

Szombathy was impressed by the passing prowess of the Terps, with quarterback Dick Novak and Dick Shiener piling and 6-9 Gary Collins doing a heavy share of the catching. The Hill scout calls Collins one of the best in the country, and notes that Nugent will split his ace receiver to either a pass defense or defensive end.

(Continued on Page 6)

# JSG Names 5 To Fill Posts

Joint Student Government president Elizabeth Evans has announced the appointment of five government civil service officers.

Officers include: Director of Publicity, Peter Fielding; Director of Activities, Joan Wheeler; Secretariat, Helen Miller; and Football Reserve Seating Commissioner, William Hyman and Janet Underwood.

"As provided in the JSG constitution, Miss Evans will appoint other officers and committees when the need arises.

# Step Singing To Take Place In November

Step Singing will be held this semester according to Pam Dillon, Step Singing Chairman. Traditionally it was held as part of Spring Weekend but the crowded spring semester schedule has limited many groups from participating.

Entrants will be divided into large and small divisions according to the number participating. This rule was stipulated by Sigma Alpha Iota, music honorary, and Eta Phi Upsilon, Senior Women's Honorary, co-sponsors of the contest.

Applications should be sent to Pam Dillon, Pi Beta Phi, 210 Walnut Place, by October 15. A one dollar entrance fee is required.

Each group will sing two songs including the Syracuse University Alma Mater and will have a choice of a Christmas Spiritual or winter tune.

The first competitive rounds will be held at 6:15 p.m. Tuesday, November 7 and Wednesday, November 15. The final round is set for 9 p.m. Thursday, November 30.

The dress for every group participating in Step Singing is white blouses or sweaters and black skirts.

Miss Ruth Finnell, associate professor in the School of Music, and Dean of Women Marjorie C. Smith are advisors for the festival.

The basis for judging will be announced at a later date.

# Interested Students Hear Corps Rep

Robert Felasco, a Peace Corps representative, visited the Hill today to explain to interested students the need for young people in the year old organization.

During his visit, Felasco spoke to a small group of students who were "interested and well motivated."

Felasco said that the Peace Corps is open to single skilled laborers and professional people. Married people will be accepted.

Applicants will take an examination and the names of accepted only if both are qualified. Those who pass will be pooled. One out of ten will be selected for duty in his requested country.

Those selected for active duty undergo an extensive six-month training program. Part of this training will take place at an American university and will encompass two months of field, language, medical, and physical instruction. Emphasis will be

# CAP Picks Chase To Lead at First Party Meeting

By JEANNIE RANOV

Senior David Chase of Binghamton was elected president of the Campus Alliance Party Thursday night at a meeting at Kappa Sigma fraternity.

Chase succeeds Stephen Diamond, a senior in Tau Epsilon Phi.

Chase is a member of Kappa Sigma.

James Jung, a junior from Snyder, is new CAP vice president. Senior Marv Novack of Larchmont was elected secretary and James Farrell, a Senior from Niagara Falls is now CAP treasurer.

Novack is a member of Alpha Epsilon Phi and Jung and Farrell are brothers of Sigma Alpha Epsilon.

All four ran unopposed and were unanimously elected. At the first meeting of the year for CAP, Chase announced that the party now numbers 12 houses and that five or six more are expected to join in the near future.

The 13 are Kappa Sigma, Alpha Epsilon Phi, Sigma Alpha Epsilon, Tau Epsilon Phi, Delta Delta Delta, Pi Beta Phi, Alpha Epsilon Tau Epsilon Phi, Eta Phi Upsilon, Sigma Kappa, Acacia, Zeta Delta Tau and Phi Gamma Delta.

Former President Diamond, who saw CAP's slate crushed by the United Students party in last March's elections, expressed no regrets at relinquishing his post.

"I had no desire to maintain the presidency," he told the Daily Orange. "Dave Chase is definitely a most enthusiastic and capable person for the job."

President Chase said his party is in "good shape" financially.

"We've got the potential we can beat them (US)," Chase said. "CAP has the largest houses, the most manpower," he continued.

Secretary Novak called for better organization of the party, especially concerning campaigning.

A CAP meeting is scheduled for 3 p.m. Monday at Sigma Alpha Epsilon.

# Clifford to Speak At Pinebrook

By JOYCE HERGENHAT

The twelfth annual Pinebrook Student Government Conference, and the first held under Joint Student Government leadership, will open tonight with a keynote address by Dean of Men Earle Clifford.

Held at a university-owned lodge in the Adirondacks, the three-day conference has "Unity through Progress" as its theme and over 40 administration, faculty and student government members as its participants.

University Students Advisory Council president Colyn B. Elish and Junior Class president Lee Peterson are serving as Pinebrook co-chairmen.

Discussing the conference, Miss Barchis defined its purpose as being to assist in ways to solve student problems, strengthen student government and improve student and faculty-administration relations.

Cancellor William P. Tolley heads the list of participating administration members. Also taking part are vice presidents Frank Piskor and John Hafetz.

A bus to Pinebrook will leave at 2:00 p.m. Friday from the library steps. Originally scheduled at 12:30 p.m., the bus time has been changed to accommodate students who have later classes.

All students who were planning to drive have been requested to travel by the chartered bus, so that the bus can be filled.

Deans Marjorie C. Smith, Eric H. Faigle, Charles C. Noble and Clifford. Dir. Secretary of Information Services William E. Ebling and university Social Director Margaret Stafford.

Participating faculty members (Continued on Page 8)

# United Campaign Approaches Goal

Syracuse University's United Campaign has already reached twenty-three percent of its \$37,600 goal it was announced last night by campaign co-chairmen George E. Abbott and Professor J. Calvin Callaghan.

The general drive began Wednesday, October 4. Abbott said a hundred and fifteen pledges totaling \$8,500 have been received from top university administration, deans, directors, department chairmen and campaign workers.

This is not an actual air-raid warning signal, Marinelli said. In case of actual attack there will be a three minute warning signal, meaning "alert", followed by a "stand up take cover" signal. The Civil Defense Department feels that the public should be thoroughly familiar with these warning signals.

When the "alert" signal is heard, all radios should be turned off. Those interested in further information should contact Dean Hafetz in Room 307, Administration Building.

County to Hold Air-Raid Alert

The Civil Defense department of Onondaga County will test air raid sirens at 12:05 p.m. today.

Michael Marinelli, Civil Defense Director, said that the sirens are being tested to make sure that they are in good working order.

# Large Crowd Attends Rally, Hears Noble

The Orangemen were pledged to slay the Terrapin of Maryland last night at the Pop Rally on the Chapel steps. Vigorous cheers and shouts to "make soup of the turtle" spirited the large crowd gathered to support the Syracuse team before their departure tomorrow for Saturday.

The highlight of the evening was the pep talk by Hendricks Chapel Dean Charles C. Noble. Dean Noble called for the full support of the right-thinking students of the Orangemen. "We have the boys who can eat the terrapin," stated Noble, "and we will make a good soup out of him." The team is known to make up the pep team, and the Maryland turtle will be one of its specialties, he said.

Dean Noble felt assured that this year's team was extremely strong but it needed that little extra spark of support to make it great. The Orangemen are the best - as good as the team of 1959, said Noble. Support does not mean that it needed that little spark of support to make it great. The Orangemen are the best - as good as the team of 1959, said Noble. Support does not mean that it needed that little spark of support to make it great. The Orangemen are the best - as good as the team of 1959, said Noble. Support does not mean that it needed that little spark of support to make it great.

The freshmen cheerleaders were announced by the head of the Varsity Cheerleaders, Mark (Continued on Page 8)

## The Bush League

The case of the Republican party vs. the people of Syracuse gained considerable ground this week. If the party and its leaders, State Senator John Hughes and candidate for mayor William Walsh, are trying to show Syracuseans how low they can stoop in a political campaign, they are succeeding admirably. If they are also trying to demonstrate that they will do anything, smear anyone, use any tactics, distort facts and attempt to discredit and obliterate all persons who wish to weaken their stranglehold on the people of this city, they are equally doing successfully.

The smear literature these people have circulated about Presbyterian minister and Hill graduate assistant of religion and citizenship, Richard A. Newman, defies political decency. It smothers the air with the stench of McCarthyism. It insults the intelligence of all Syracuse voters. More than anything else, it is downright stupid and shows that this political machine cannot even wage a dirty campaign correctly. In their attack on the Americans for Democratic Action, "leftists" and "leftwingers," in their attempt to make Newman and other Norman supporters appear Communist oriented, they are reverting to the tactics that McCarthy and Richard Milhous Nixon made popular. But unfortunately for the Republicans, Hughes and Walsh are in the bush leagues when compared with the adept manner in which the late Wisconsin senator and former presidential candidate could handle the weapons of guilt by association and innuendo. They only can play effective demagoguery. Perhaps Newman and Democratic candidate Norman have too much respect for themselves and their political feelings to wage this kind of gutter campaign.

But this trend in the campaign is indicative of one important thing. No one can doubt either the strength or success over the past hundred years of the Syracuse Republican machine. When a machine this powerful begins to wage this kind of political campaign, they are scared. But we would suggest that they expel their nervous energy in a manner more beneficial to themselves and more congruous with fair political procedures. One way of doing this would be to discuss the issues instead of creating them. It would also be wise to look towards the future instead of turning to a shameful and indefensible political past for guidance.

## The Shoppers

Communist China is again shopping for grain in the non-Communist world to ease the effects of another poor harvest.—From The New York Times, Thursday, October 5, 1961.

It's nice in an hour of need to have so many nice, good friends to turn to, isn't it?

By KENT BAIWICK  
 We would like to start the second edition of Sweetness and Light this way. "So many readers have written in to the editor's mailbox requesting, my, pleading for the return of Barwick's clever, witty, informative, etc. column which used to brighten the day for so many." However, no such letters have been forthcoming.

In fact, Sweetness and Light was the only column ever published in the DO that never received a letter. (pro or con).

True lovers of the democratic processes, the right to assemble, graft and political chicanery were set aback by Steve Berman's recent letter to the editor. In this missile Berman attacked Boss Gaskell, the DO, the US Party and fraternities.

Completely Fair  
 This, friend Berman, is like attacking mother, God, flag, country, free school lunches or food service. Anyone who ever tried to use the DO for partisan purposes knows that it is impossible, that in fact they bend over backwards almost to the point of being disagreeably contrary to be fair.

Also, off hand I can think of no finer guy than Ellis Gaskell in party politics — anybody finer was chopped a long time ago. The fact is that the US Party did win in Spring elections and probably little harm will come of the freshmen knowing the truth — and as for fraternities and sororities, they're so lousy, rotten,

miserable, and conniving that it will be impossible to keep them from corrupting the freshmen, and as one already corrupted let me tell you it's a lot of fun. \*\*

Each week Sweetness and Light's political and current affairs panel, composed of Zelowy Sawyer, Chester Bowles, Len Newkirk and Sam Freedman will make predictions of the local, national, and campus scene.

THE CAMPUS SCENE — Rumor has it that the almost dormant CAP party is getting some new blood. Look for a big shake-up in party leadership soon. Mentioned most often are the names of new president, Dave Chase.

Gastelli's Resignation  
 In the other camp speculation continues as to just why Gaskell is resigning, just when things have never looked better for US.

Some say it's just a publicity stunt. Others wonder if the return of Gaskell, former US party president, is something to do with it. Big houses in the party have always found it tough to push Gaskell around, possibly they feel Gaskell would be more cooperative. If this is the case look for small houses in party to band together to re-elect Gaskell in spite of other pressures.

There has been much talk in the wind recently about the IPC increasing the strength of its Judicial Board to handle by delegation from the Dean

of Men's Office all disciplinary cases regarding fraternities.

For the first time in the best news to hit the fraternity system in years. A strong Judicial Board doing its job will build of necessity stronger group control in the individual fraternities which some feel is presently lacking.

And, of course, it means a stronger IPC. Independence for the IPC here is a challenge for responsibility, not an excuse for inaction. If the opportunity is given we must not fail to take it up. The only way to preserve fraternities at Syracuse is through a strong IPC, both undergraduate and alumni.

It is hoped that Bill Hyman, Football Seating Commissioner, can straighten out the mess that resulted in last week's game when only one gate was opened to students, apparently in spite of a previous agreement made between the athletic office and student government, and when there was inadequate police patrolling in view of a previous agreement with Security Police. The powers that had best remember that Student-Administration cooperation is not a one way street.

Football fans, who for extra excitement used to debate the probability of Ato's Bob Trainor being blown up, must have suffered a moment of regret when Gerber's cannoners fired their "safe and fun-filled" balloon gun last week. Ah, the horrors of technology.

— AS SEEWALD SEES IT —

# This Year's World Series Holds Delightful Possibilities

By BOB SEEWALD  
 There's nothing like seeing the supposedly anemic underdog arising and clubbing the lofty champion from his perch. Depending on which way you look at it, it's either a refreshing surprise or a shocking disruption. But from either viewpoint such a feat has a unique flavor.

The suspense is great when two superpowers clash, but after all, one has just about as good a chance of winning as the other. In the process a

worthy battle is waged and a weary victor emerges.

But when a David smites a Goliath, when the impossible is achieved and when the experts are fooled, nothing can beat that.

There's not much as thrilling as following the fabled lone, lean man, on the swift white horse, as he battles and defeats the stout, fat and powerful forces of evil.

But this lone man, fighting, of course, for what is right, hardly exists in today's unromantic world. More than likely his real-life impersonator has made a few helpful contacts and his steed is not quite so clean and white.

But remove the issues of right and wrong, good and bad, honesty and corruption, and you still have the dramatic flavor of the mighty vs. the weak (comparatively), and the proud vs. the humble in what has been called "big joke," this year's World Series.

Meanwhile, who hasn't heard of the stupendous efforts of Maris, Mantle and Ford? Even the impish hurler is making an assault on a record set by Babe Ruth — with 27 straight

scoreless innings pitched in World Series competition; he's only two and two-thirds innings shy of the Bambino's record.

All the wealth seems to be in the Yankee Stadium coffers; even Cincinnati's ball park is only half the size of the Stadium. And while the Yankees have an enviable record, they starved in the last two decades, the Reds have not won a pennant since 1940.

They have even shared their name with a dreadful ball game fit — at one time they lost their identity and escaped guilt by association by changing their names to the Redlegs.

And all too often these days the stigma of evil, of some kind of injustice is attached to possessors of wealth, while poverty is thought of as having an ennobling effect. For people affected by this type of phobia, here is a ready-made issue for jumping on the Cincinnati bandwagon.

But happily, morality is not an issue in this sport, and a hero is still a hero regardless of his personal characteristics, goods on the ballfield.

It's the usual that the impossible might just be accomplished that is so intriguing about this World Series.

Last anyone attack me on these grounds, I'm a loyal New Yorker and I would like to see glory heaped upon New York through athletic triumph whenever possible. And we know that when the Yankees are not representing our city, there is hardly hope these days of great victories. But I would love to see the so-called 'faces and hear what they have to say should Cincinnati's cooperative ragmuffins upend the downstate colossus.

"All right, what's her name?"

**Movies  
Concerts**

# WEEKEND

By the Daily Orange Entertainment Staff

**Radio  
Television**

**FIRST RUN THEATERS**

**REVIERA - CINEMA**—Love and the Frenchman probes (guess what?). But it does it well, with warmth, humor, and often biting satire. Seven episodes from childhood to women alone dramatize a recent French Kinsey-type report. Seems that most French troubles are like ours; we would if we could, but we couldn't cause we shouldn't. Double standards at 6:45 and 10 p.m.

**PARAMOUNT**—Peter Ustinov

gives diplomacy a twist and many professional diplomats a few painful minutes in his entertaining adaptation of his Broadway play "Romanoff and Juliet." The films give a lesson in the "how's" of negotiating in our nuclear-clouded world. Ustinov at 7 and 10:03 p.m.

**LEWIS**—Another run - of the mill Western starring television's Richard Boone, George Hamilton, Lorne Greene and the usual amount of Indiana, cavalry, etc.

We've seen it all before. "Thunder" at 6:45 and 9:49 p.m.

**IRKO KRITERS**—The inundation of white stuff hasn't started yet (although the weather is being to feel like it), but this theater has decided to give us a preview of what winter may be like in "White Christmas" (isn't it a little early for Santa Claus?). Gee ma, it's snowing at 6:25 and 10 p.m., Friday; 7:25 and 11 p.m., Saturday.

**ECKEL**—Hurry, hurry, Federico Fellini's sermon, "La Dolce Vita," lasts six more days. Only six more days to see the sights of Rome like Anita Eckberg, decadent society, fake miracles, etc. Only six more days to see one of the best movies of the year. Rome at 8:30 p.m.

**SHOPPINGTOWN**—Gregory Peck, David Niven and Anthony Quinn give up the ladies man roles for a good, solid bit of adventuring on the Greek coast in "The Guns of Navarone." Nothing intellectual in this one, just a full evening's share of excitement. Peck, Niven and Quinn at 7:15 and 9:46 p.m.

**NEIGHBORHOOD THEATERS**  
**HOLLYWOOD**—"Raisin in Sun," criticisms not withstanding, was a fine play, but as filmed by David Susskind is not much of a movie. The excellent performances by Sidney Poitier and Ruby Dee give "Raisin" many fine moments but not fine "cinema." Poitier and company at 8 p.m., Friday and 7:52 p.m., Saturday.

**MIDTOWN**—"The Stranger Wore a Gun" and he, and everyone else, would have been much happier if he had chosen some other town to invade. One more "Shoot 'em up" to add to the long list of others just like it. "The Cyclops" is the second

feature on this bill. (We all have handicaps to overcome)—No times available.  
**FRANKLIN**—"The World of Suzi Wong" is full of bright lights (red), colorful sights (girls), frustrated artists (bad), William Holden and Nancy Kwan (a nice couple). The co-feature is more of a sub-title, "Fast and Sexy." "Suzi" at 9 p.m., "Sexy" at 7:10 p.m.

**WESCOT**—"Fanny" was once three French movies and a fine musical. Now, Josh Logan has rolled it all up into one package starring Leslie Caron, Charles Boyer, Maurice Chevalier, and Horst Buchholz. What are you going to do? 3 in 1 at 7 and 9:15 p.m.

**PALACE**—"Fanny." Girls will cry, scenery lovers will pop their eyes and some film critics will even like the film. But lovers of Pagnol's trilogy or Harold Rome's musical will weep. Boyer's and Chevalier's performances are good, if you like broad comedy. Marseilles at 7 and 9:15 p.m.

**LAKE SHORE**—"Tammy Tell Me True" is a sometimes cute, often saccharine rehash of "Tammy and the Bachelor" which obviously made a bundle of cash and occasioned this sequel. Round-faced Sandra Dee is an innocent, untarnished Debbie Reynolds; John Gavin 8:15 p.m., Friday and 9 p.m., Saturday.

**KALLET - GENESSEDS-pit-**  
**KALLET - GENESSE**—Despite the color photography, the color of Pagnol's Marseilles has been reduced to a monochrome by Josh Logan in "Fanny." Boyer's and Chevalier's acting are a new color: pure nerve. Leslie Caron is a rather bland pink. Old love vs. new love at 6:30 and 9:25 p.m., Friday;

5:50 and 8:55 p.m., Saturday.

**DEWITT**—"Fanny" again. Life (a little) and love (a lot) for the fisher folk of Marseilles. Josh Logan has turned out some good acting from Boyer and Chevalier, while putting in the original stardom and music through a meat grinder. Leslie Caron also stars. No times available.

**NORTH**—They dared us to look into "Doctor Blood's Coffin." We did. So what else is new? Teen-Age beauty turns into deadly reptile ads for the "Snake Woman" say. We thought women were always deadly reptiles. No times available.

**SALINA**—Charles Boyer might get an Academy Award for "Fanny." So might Maurice Chevalier. But the other parts of this saccharin love story, Leslie Caron and Horst Buchholz won't. Full color; 9:57 p.m.

**DRAMA**  
**CAINE MUTINY**—The STAGE Players will present the "Caine Mutiny Court Martial," a play drawn from Herman Wouk's book about the Navy in World War II. 8:30 p.m., Friday and Saturday, University Regent Theater.

**RADIO TELEVISION**  
**WORLD SERIES BASEBALL**—The third and fourth games of the 1961 series between the Cincinnati Reds and the New York Yankees at Crosley Field in Cincinnati, 1:45 p.m., Saturday and Sunday. WSYR-TV (Channel 3).

**COLLEGE FOOTBALL**—The Iowa Hawkeyes meet the University of Southern California Trojans at Memorial Coliseum at Los Angeles, 5:15 p.m., Saturday. WSYR-TV (Channel 3).

# Orange Runners Host Red Raiders

By MEL HOMB

Tomorrow the Harriers of Syracuse University will open their season, when the frosh and varsity teams face the frosh and varsity of Colgate at 11 a.m. at Drumlins.

Tomorrow's meet will mark the 39th time the Syracuse cross-country team will be facing the Red Raiders. In the previous 38 matches Syracuse has been victorious in 35 of them.

The Orange is favored to again defeat Colgate, as they have in the last three straight years.

Any victory should come on the strength of an extremely good sophomore class. This is the frosh team of last year which boasted a record of 7-0.

Coach Bob Grieve praised his sophomores by saying that they are one of the best groups that he has coached in his career. Grieve, a man who does not pat himself out on a limb, made these praises in lieu of the fact that Steve Killorn and Jack Deiley, Class A and B champions of New York State, are sophomores, as is Mouncey Ferguson. Ferguson has been pegged as a man to

watch if he performs as he did on last year's frosh squad.

Colgate Coach Bob Werner will be trying to avenge last year's 35-48 defeat. He is bringing with him a greatly improved squad. In Werner's tenure as Colgate coach he has only been successful in defeating his old alma mater, Syracuse, once.

The Red Raiders of Colgate will be facing the strength of last year's squad in team captain Joe Franco. Franco was defeated in dual meets last year.

Also returning to the varsity squad will be Dick McFenay, a senior, and juniors Mike Gosman, Dwight Rodgers and Mike McGuire.

# Redlegs Gain Victory, Knot World Series

By KEN DARLING  
Sports Editor

The underdog Cincinnati Redlegs knotted the World Series at one game apiece when they defeated New York, 6-2, Thursday in the second game.

It was the first time in World Series history that the Reds have managed to beat the proud Yankees, and they did it behind the four-hit hurrying of ace pitcher Joe Mauer. Although a bit wild, Jay was tough in the clutch and got the hitting support he needed. The visiting squad gathered nine hits off Ralph Terry and his reliever, Lou Avery.

Coleman Unloads

Cincinnati broke into the scoring column for the first time in this season's fall classic when Goody Coleman blasted a two-run homer in the fourth inning.

The Yankees lost little time in tying the game, however, as Yogi Berra connected for a two-run tripper in the bottom of the fourth. But that ended the Yankee scoring for the day.

Rookie Johnny Edwards and veteran Wally Poff combined to drive in the final four Cincinnati runs. Twice the Yankees gave Gene Trosce intentional passes to pitch to Edwards, and both times the young catcher responded by driving home a runner. In the sixth frame he singled, and in the eighth he doubled.

Yankee Errors

While Jay was sifting the big bats of the New Yorkers, the losers hurt their own cause with three errors. Two of the miscues were committed in the eighth inning, when the Reds picked up their final two tallies.

Cincinnati played flawless ball defensively, but again Cletus Boyer of the Bronx Bombers came up with the fielding gem of the day. The third baseman made two sparkling plays in the Yankee opening game win.

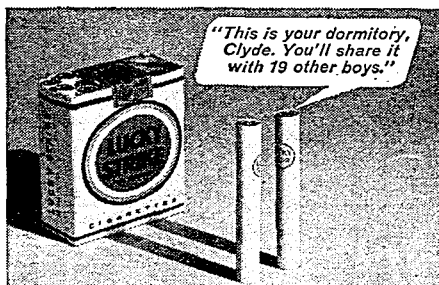

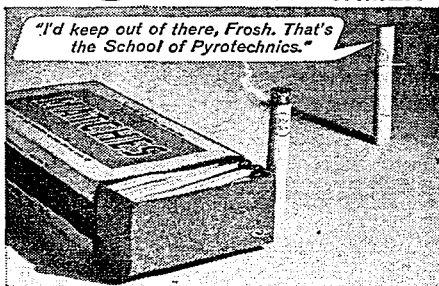

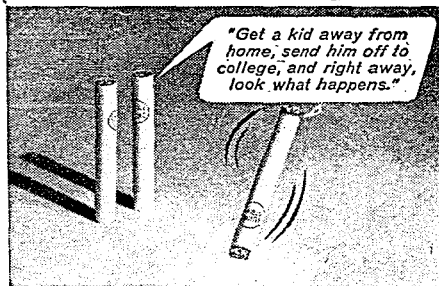

Again home run king Roger Maris played center field in place of the injured Mickey Mantle, and again he was held hitless.

The series now moves to Cincinnati's Crosley Field, where the third game will be played Saturday. The opposing pitchers will be Bob Furkey for the Reds and Bill Stafford for the Yanks.

Syracuse University football coach Ben Schwartzwalder calls Oregon State a team whose explosiveness parallels that of the fine Kansas team of a year ago.

# LUCKY STRIKE presents: LUCKY TUFFERS

## "THE FRESHMEN"

SOPHOMORES, JUNIORS, SENIORS: DON'T TREAD ON FRESHMEN! They have been known to become employers. A freshman wants, above all, to be inaugurated into your world. Walk him to class, teach him longhand, explain how the Ph.D. wears his tassel, introduce him to Luckies (and tell him how college students smoke more Luckies than any other regular). You'll be a bigger man, and you'll be able to borrow Luckies from him any time.

CHANGE TO LUCKIES and get some *taste* for a change!

# Maryland Offense Features Strong Passing Attack

By DAVE DEAN  
Associate Editor

Holding the opinion that it is the first honest to goodness one we've had at national recognition," Maryland coach Tom Nugent will lead his Terrapins against seventh-ranked Syracuse Saturday.

It will be a battle of unbeaten arms, as both have compiled a tir of wins in the 1961 campaign; Maryland also won five of its last six games during the 60 season.

The Terrapins won their season opener over Southern Methodist, 14-6, and added a last-second 24-21 decision over Clemson last weekend.

Taking top billing on a team ded primarily for its passing ower is senior end Gary Collins, who led his team in scoring, receiving and punting during the 1960 season.

However, Collins has been off a slow start this season, failing to receive a pass in the SMU game and failing to score in her of the first contests.

The overall passing attack is not faltered, however, with senior Dick Novak and sophomore Dick Shiner leading the ty in alternating at the quarterback slot.

The Novak-Shiner combination has led the team a two-me total of 25 completions in attempts, a 71.4 per cent urk. Novak has tossed three tchdown passes.

Senior Halfback Jim Davidson leads the parade of pass-revers with two touchdown passes, one in each of the st two games. Davidson's 12 ints also tops the team in that egory.

The Terps also have an expert the place kicking department, nor end John Hannigan, who, last season, ne on a successful kick in his y point-after attempt, has aldy scored on five of five at-pts this season.

On Saturday, it was Hanninis extra-point kicks which of the Terrapins in the game, d his 23-yard field goal with y eight seconds remaining igh broke a 21-11 tie and ve his team the 24-21 vic-ry.

ard game, either. Senior half-ck Dennis Condie proved this the season opener as he gained 3 yards in 20 carries against U. As a junior, he averaged yards per carry for the sea-

is the eleventh game of a ies which dates to 1920; the angemen hold a slight 5-4-1 ged thus far. In the last meet- between the two teams, the 9 national champion Orange n shut out a visiting Mary- d team, 29-0.

DOING MUCH of the passing in Maryland's aerial attack Saturday will be quarterback RICHIE NOVAK. Novak alternates with Dick Shiner in the signal-calling spot, and the two of them have combined to complete 25 of 35 passes in the Terps' first two games. Novak is a senior.

## WAA Schedule Continues

The present Women's Athletic will continue to be held in the Women's Building until Nov. 10. Hockey and fencing take place from 1-5:30 p.m. in gym A on Monday while Orange Splash meets at the same time at the pool. On Tuesday at 4 a.m. there is competitive swimming at the pool and a dance apprentice meeting in the studio. Hockey meets at this same time.

(Continued from Page 1) key to Syracuse success, claims opponents to meet the numerous Szombathy, adding the need for work in these areas.

## FREE LECTURE ON CHRISTIAN SCIENCE

**SUBJECT:** "Christian Science: It's Revelation of God's Healing and Protecting Law"

**LECTURER:** Neil H. Bowles, C.S.B. of Atlanta, Georgia

Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts.

**PLACE:** First Church of Christ, Scientist, Syracuse

728 East Jefferson Street

**TIME:** Monday Evening,  
October 9, 1961  
at 8:15 o'clock

All are cordially invited to attend.

But while the Orangemen are sharpening their defensive teeth in an attempt to defeat Collins and Co., the Piety offense is preparing for an all out duel with the explosive Terps.

Syracuse signal callers Dave Sarette and Bob Leili have combined for 19 completions in 30 attempts so far this year for a net total of 151 yards, and are a good bet to throw even more on Saturday.

Sarette will start, as usual, and will be the game captain, joining permanent leader Dick Easterly. No changes were made in the starting lineup for the Orangemen.

Maryland coach Tommy Nugent is expected to use his usual starting lineup, featuring Collins at end, Novak at quarterback, and standout Roger Shoals at right tackle.

But Nugent is known to be a colorful and very unpredictable man, and may have something up his sleeve.

Nugent, who is in his third year at Maryland, had a few comments on the game with Syracuse earlier this week, including the fact that he felt it was "an honor to play the best."

"We are on our way back," said Nugent, "and some people think we have arrived. You never can tell about a group of kids who want to play, and I'll tell you, these kids want to play."

After giving a good deal of praise to Ben Schwartzwalder as "a man who made it the hard way," Nugent enthusiastically warned, "... but we'll be trying desperately to beat him."

## Sell Party, Sell In Campaigning: GOP Candidate

(Continued from Page 1) candidate's heavy reliance on volunteer workers from the district level. Dettor's volunteer group is headed by award chairman, one committeeman and a woman from each district, a press relations man and a "special effects" man, Volunteer workers, equipped with a kit containing information about the candidate, are urged "to talk to the people, get them registered, and give them confidence in the Republican party."

"A campaign manager who stays behind the scenes and is never seen by the public" is vital to a local politician, according to Dettor, who said that a good candidate is worth nothing without a strongly organized campaign. Members of the campus GOP organization have volunteered to aid Dettor in his bid for ward supervisor, according to Win Whittaker, president of the Young Republicans. A tentative rally is scheduled for Oct. 13 by the organization.

Dettor graduated from Syracuse University College of Law and is a partner in the law firm of Deegan, Dettor and Murphy. An author of "Law Everyone Should Know," Dettor is president of the Nottingham High

ROBERT W. DETTOR

School Alumni Association. He is active in county and state Bar Associations, is a member of the Blood Bank Committee of the American Red Cross and has served as a delegate to the Temporary State Commission on Youth and Delinquency.

## Campus Chest Carnival Set For Oct. 13

This year's Campus Chest Carnival will be held from 7 to 12 p.m. on October 13. It will be located, as in previous years, on the lawn between Sims Dining Hall and the Security pre-fab adjacent to the steps of Mount Olympus.

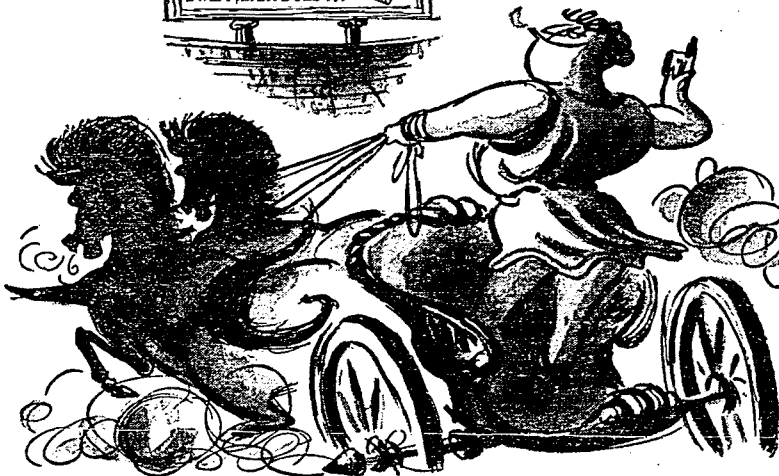

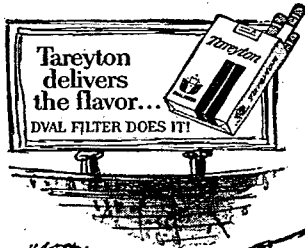

The carnival is a traditional affair which features varied attractions created by sororities, fraternities and the living centers.

Applications for space and suggestions for individual concessions, due this Monday, are to be submitted to booth chairmen Jeff Kovall and Joyce Finkler. Early applications will result in idea priority and top locations.

Chairman of the slave sale, Steve Weinstein, Phi Epsilon Phi, and Pat Thutcher, Kappa Alpha Theta, promise an interesting lineup of campus personalities. The sale, one of the major attractions of the carnival, gives all participants the opportunity of buying their favorite person being auctioned. The auctioneer will be the Syracuse disc jockey, Dandy Dan Leonard.

Overall chairman of the carnival are Nancy Moore and Steve Wimpfheimer. The administration head is Lila Cohen, Delta Phi Epsilon, chairman of the ticket committee, Al Bratten, Phi Epsilon Phi and Lee Gillespie, Kappa Sigma, are the publicity chairmen.

All proceeds from the carnival are pooled and through campus representatives are allotted to charitable organizations. The carnival will feature dancing to both record and a band, refreshments, handwriting analysis, a trivia wheel and all the diversified booths.

"Tareyton's Dual Filter in duas partes divisa est!" says turf king Virgilius (*Big Wheel*) Plutarch. "Try the Appian Way to fine tobacco taste—Dual Filter Tareytons," says *Big Wheel*. "From the Alps to the Aqueduct, we smoke them summo cum gaudio. Try Tareyton, one filter cigarette that really delivers de gustibus!"

UNDIVIDED ATTENTION to the Orangemen is given by Chancellor Tolley and friend, DeAlton J. Ridings.

# Chancellor William P. Tolley

PRESIDENT KENNEDY, THEN Senator Kennedy, receives an honorary degree from Chancellor Tolley in 1957.

## On The Classroom

The goal of the classroom is not to pump the mind of a student full of inert ideas, but to stimulate the mind to action and to provide materials for its use. Since the invention and widespread use of printing, a university would have no reason for existence if its mission were merely the imparting of information. What the university contributes is imagination and direction applied to facts and ideas. It fails utterly if it does not provide the excitement of ideas, the zest and ferment of ideas in conflict, and the opportunity for invention and creation. The measure of a teacher is his success in stimulating and energizing the minds of his students. He does this by bringing imagination, experience, and the contagion of personal enthusiasm and influence to knowledge.

In the realm of the mind we are most creative when young. You are more imaginative now than you will be when you are more experienced. This is a golden gift and you must put it to work as you deal with ideas. Don't be afraid of your inventive powers. Don't be reluctant to fly on your own wings of thought. Use your imagination in the writing of poetry and prose. Use it in the science laboratories and shops. Use it in the study of design. Use it in the study of government. Use it in every subject you study.

I have said that education is concerned with the development of the individual. In most other countries there is no such emphasis. Why is American education so different? Because it is an act of faith growing out of our religious belief about the relationship of men to each other and to God. The major premise of American higher education reflects the influence of our religious heritage. We believe in the fatherhood of God, the brotherhood of man, and the priceless value of an immortal soul. Our point of view with respect to freedom and democracy is not determined by reason but by religious faith.

## On Revolution

A revolutionary change has been taking place in our social and political life and its effect is bound to be felt on the campus. There is not only a new interest in the contemporary scene, but a new concern for social action. Campus life is more and more democratized. Faith in democratic ideals has an energizing effect on student relationships as well as on the classroom.

The day has passed when colleges can discriminate against minority groups without incurring public censure. The day may come when campus opinion will not permit fraternities and sororities to draw hard and fast lines of race and religion.

Colleges and universities should be the instruments of democracy. They should lead and not follow public opinion. They should demonstrate that the problems of a complex urban community can be solved. The colleges should assume special responsibilities for the unfinished business of democracy. They can make a major contribution to the lessening of racial and religious tensions. They can be the most constructive force in American life for human brotherhood and peace. To these tasks we must dedicate more and more of our thought and energy.

There is nothing wrong with personal ambition, nothing unworthy about dreams of personal success, but in every wisely planned life there must also be a vision of social usefulness and a clear commitment to high ideals.

Here at Syracuse we have etched in stone the old Athenian oath which every student reads as he enters Maxwell Hall: "We will ever strive for the ideals and sacred things of the City, both alone and with many. We will increasingly seek to quicken the sense of public duty; we will revere and obey the City's laws; we will transmit this City not only not less, but greater, better and more beautiful than it was transmitted to us."

THE FRENCH LEGION of Honor Medal presented to Chancellor Tolley in 1959.

## DO Photo- Feature by Bruce Anspach and Gerry Ferrick

ROBERT OXMAN is congratulated by Chancellor Tolley, after Mr. Oxman's installation as President of Pratt Institute in Brooklyn, New York.

# Clifford to Speak

(Continued from Page 1)  
include Dr. Gordon E. Conrad, Dr. and Mrs. Charles R. Dibble, Dr. Oatway Pardee, Dr. George G. Stern, Dr. George A. Wiley, Dr. Gabriel Vahanian and Dr. Roger Millman.

**Students Represented**  
The student body will be represented by Joint Student Government president Elizabeth Evans, the three class presidents and approximately twenty other leaders from the various branches of student government.

The president and vice president of the St. Lawrence University student body and the chairman of the student government committee at Cornell will also

attend the three - day conferences.

Friday's opening session will be devoted to the keynote address, a reaction session to discuss the address and a report from the National Students' Association meeting held this summer at Madison, Wis.

Syracuse University has been a member of the NSA but is presently unaffiliated with it. The conference will therefore discuss a possible reaffiliation with the association.

**Panel Discussion**  
"What should be the role of a Student Government of the college campus?" will be the theme of Saturday morning's panel discussion.

At the panel, conference participants will divide into six workshops. These will discuss: university social regulations, government structures, academic atmosphere, local and national issues, student unity and morals, and communications.

It is hoped that through the various speeches, panels and workshops, each participant will gain an over - all perspective of the trends now prevalent on campus. Once this perspective is reached, the conference will draw up resolutions to meet and aid the trends.

These resolutions are expected to form the basis of Joint Student Government's program for the 191-2 academic year.

Next week, JSG president Evans will present the resolutions to a meeting of the Presidents Advisory Board, an organization composed of the heads of major campus activities, for their approval and suggested courses of action.

These activities' leaders have their own three - day conference in the spring at Sagamore, another university - owned lodge and have not previously taken any part in the Pinebrook student government conference.

Pinebrook's closing session Sunday morning will include an evaluation of the conference led by Dr. Ehling and an open discussion session with the Chancellor.

## SU Prof Writes Book

A landscape architecture professor from the State University College of Forestry at Syracuse newly published book on the evolution of the photograph.

He is Walter L. Welch, an assistant professor in the college's Landscape Architecture Dept.

The book is entitled, "From Tin Foil to Stereo."

Federal Hall in New York City served as the first Capitol of the United States, after the Constitution was adopted.

**CHEERLEADERS SURROUND** an all but demolished Terrapin mascot last night's pep rally shortly after it was "stomped" to death by the Saline Warrior. The head of the Terrapin was stolen by pranksters Thursday afternoon. (Photo by Bruce Anspeck)

## Large Crowd Attends Rally Hears Noble

(Continued from Page 1)  
Ingham, Pamela Burrows, Diana Cole, Arlene Elamo, Diane Moyer, Bernard Marcus, Pete Minich, Alan Heifetz, and Harry Kowada make up the squad that will cheer the freshman teams. After introductions, the cheerleaders led the crowd in "The Drum - Beat".

The ritual of burning the opponent's mascot in effigy was dispensed with, since the terrapin would not burn. However, the Saline Warrior, John Vorhes, managed to slay the headless

mascot by stomping it to death.

A new team song was introduced by the Goon Squad and taught to the members of the student body. The words spelled out victory for the Orangemen and were sung with great spirit. "We've got a team that will never relax. We're going to knock that terp right on its back."

The Rally was ended with the singing of the Alma Mater, followed by the girl cheerleaders leading a Snake Dance.

## Lewis to Speak At J-Lecture

Chester M. Lewis, head of The New York Times literary world will speak at a noon luncheon today in Maxwell Auditorium.

He is the first of six authorities, representing all of the mass media, who will address School of Journalism students this semester.

"Reporters, Research and Retrieval—Today's Three R's" will be Mr. Lewis' topic. While serving the Times since 1933, he has also been a visiting lecturer at Pratt Institute and Cornell University.

Also scheduled to speak are Dr. David Manning White, Boston University authority on comic strips, Oct. 20; Charles W. Ferguson, senior editor of the Reader's Digest, Oct. 27; Leonard Lyons, nationally syndicated columnist, Nov. 3; Eliot Elisofon, Life Magazine Photographer, on Nov. 17 and E. R. Vadobaneter, president of WSYR Radio-TV, on Dec. 15.

## A Phi O to Rush

The fall rush meeting of Alpha Phi Omega, National Service Fraternity, will be held at 8 p.m., Sunday, at 783 Irving Ave. To render service for campus, community, nation and the fraternity itself is the purpose of Alpha Phi Omega. Those who are in service activities and interested in joining the Fraternity are invited to attend this meeting.

It's possible that a college education doesn't always pay, but that doesn't release Pop from his financial obligation.

With one of our main claims to fame, the footballers, down in College Park, Md., this weekend trying to rack up No. 3 against the Turtles or Terrapins, if you wish, you might think there would be little to do in making an interesting weekend. Non-football weekends, bah, humbug, you say?

How-so-ever, in casting about these parts, we are reminded of the perfect solution, by just looking out toward East Syracuse. What to our wondering eyes should appear but a quietly, cleverly lighted dance floor and colorful juke box just oozing with that certain atmosphere of one of the smoothest spots around for an evening of dancing, the Meyer's Kenmore Hotel on Main St. in East Syracuse. For two or twenty, for the whole evening or after the show, this is the great set to trip the light fantastic or just sit and enjoy the setting of the fabulous Hacienda Room.

It's taken thirty-four years to create the atmosphere of the Hacienda Room and the two people behind it have always been Betty and Sam Meyers. While it's romantic and dark, as they say, it's clean and comfortable as well, something you notice right away when you walk up to the front of the Kenmore and through to the dance floor.

The permastone and wood interior prepare you for something unusual and that's what greets you when you walk into the Hacienda Room.

Dark except for individual lights along the wall at each booth, the Hacienda Room is as romantic a setting for dancing as you can find.

In the center toward the back is the dance floor, paneled and gleaming, surrounded by white cloth covered tables lined neatly in several rows.

A large juke box at the head of the dance floor provides a little more color and lighting to add to the flavor as do several mirrors around the walls.

Also at each booth are individual record selectors, with all the big name dance bands and all the good dance music you want. If it sounds enticing, it should because it is.

And if you work up an appetite, there is a little snack bar right there in the room serving sandwiches and short orders. Sam told us that his most popular dish with the Syracusans is Kosher style corned beef with Russian Dressing and it does sound pretty good at that.

What's more Meyer's Kenmore Hotel is open every night until 3 a.m., every night till 3 a.m., and besides there is always room for plenty of parking, always. Keep it in mind for an effective change of pace, football or no, OK? OK.

The play, which ran on Broadway, was adapted from a novel about the Navy in World War II. The play will also be presented Saturday night.

# Caine Mutiny Play At Regent Theater Tonight, Saturday

Featured Role Given SU Administrator As Captain Queeg

"The Caine Mutiny Court the S. T. A. G. E. Players at 8:30 Martial" will be presented by pm. tonight and Saturday at the University Regent Theater.

Adapted from the Pulitzer Prize winning novel, "The Caine Mutiny" by Herman Wouk, the play centers around the court martial of a young lieutenant who refused his captain's command in the midst of a typhoon on the grounds that the captain was psychotic during the storm, and was directing the ship and its crew towards destruction.

The role of Lt. Col. Queeg, the allegedly mentally deranged captain, will be played by Rick Breitenfeld, recently appointed assistant dean of summer sessions of Syracuse University's University Division.

**Local Experience**

Breitenfeld and the other members of the cast have all had performance in community theater in Syracuse. The cast includes Joe Lollo, as Barney Greenwald, the defense attorney and Dallas Fowler as Stephen Maryk the young lieutenant on trial. Pete Eovenzi is the director.

S. T. A. G. E. is the Syracuse Theater Arts Guild Experimental, a group which was organized a few years ago and has been recently reactivated for major play productions. The group is planning other productions this season.

Tickets are \$2.50 and \$1.75 with a 20 percent discount for servicemen and students. Tickets and reservations are available at the University Regent Theater, 802 Genesee St., GR 6-4536.

# Mort Sahl to Give Concert Oct. 18

Mort Sahl, the well-known comedian, will give a concert performance at 8:15 p.m., Oct. 18 a Lincoln Auditorium as the opening performer of the 1961-62 season of the Famous Artists Series.

Described by Holiday magazine as a member of the "hip generation," Sahl describes himself as "a troubled member of the community." With this attitude, he comments on everything from the Supreme Court to civil defense.

Sahl proves that he is a dissenter, but claims he feels no connection with any group and belongs to one too small to be a minority.

Also appearing with Sahl will be singer Joany Summers' and the Bob Florence Trio.

—AT THE FLICKERS—

# 'A Thunder of Drums': One More Dragging Horse Opera

An Indian uprising on Salina Street? No such luck, just a scant tempo in front of the Loew's Theater. It was placed there to advertise the new MGM release, "A Thunder of Drums" which opened at the Loew's Theater on Wednesday.

Although CinemaScope and Metrocolor were employed to widen and brighten up the screen, they are of little help to this boring horse opera that never gets its hoofs off the ground.

In the leading role we find Richard Boone of "Have Gun, Will Travel" fame. He portrays a cautious cavalry captain who advises his young lieutenants that "bachelors make the best soldiers—all they have to lose is their loneliness."

New Army Breed  
George Hamilton takes on the assignment as Boone's gun-to first lieutenant. He represents the new breed of gentleman soldiers from West Point, who are as equally adept in a ladies' bedroom as on a battlefield.

Sorry to disappoint you fans of the gory battle scenes, but the bloody Indian battles are crowded out by a love triangle. Nevertheless, we find our hero, Hamilton, surrounded by attacking Apaches in the final scene, when, you guessed it, the cavalry comes charging to the rescue in the nick of time.

For those of you who get your fill of "cowboys and Indians" on TV, "A Thunder of

Drums" should prove a real drag. — S. G.

Maryland Upsets Piety In Thriller

By MILT JOFFE Junior Editor

"It's better to win than to lose," said Ben Schwartz-walder last Saturday when his Orangemen entered the locker room after a tough grid battle with West Virginia. As the warm Maryland sun dipped slowly in the late afternoon sky over Coak Stadium Saturday these words came back to haunt Coach Ben.

For Syracuse was outplayed and lost, 22-21. Before more than 35,000 wild-eyed fans, who overflowed the stands at College Park, the Orangemen engaged in fierce combat and came out on the short end of a story-book finish.

The lead changed hands five times during the afternoon, but it was Maryland that scored first "just to storm its way" to an initial football prominence. Things looked pretty good for Syracuse early in the fourth quarter when Ernie Davis charged on a 13-yard run and the Maryland one-yard line after an errant Terpin punt.

After failing to crack over on three tries Syracuse hit paydirt on fourth down as Davis plunged over a 19-yard lead. Wendell Sarrille bootlegged the ball for two extra points the situation was vastly improved.

But in the momentary let-down which comes so often after the pressure of an important scoring drive has been completed, Syracuse was caught off guard and sophomore halfback Ernie Arizzi took off on a 64-yard gallop which placed the ball on the Syracuse 10. Four minutes later Maryland's most dependable back, Dennis Condie, made the score to put Maryland within one point of the Orange.

In the go-for-broke gamble quarterback Dick Nyak passed to end Gary Collins for the crusher, the two point conversion to wrap up the Maryland win.

There were still seven minutes left in the game but Syracuse couldn't move the ball and was forced to punt. The Orangemen never saw the ball again all afternoon.

In a fine demonstration of ball control the red-shirted Terps, higher than kite for this game, ground out yardage and ended the game close to another score. On the bright side, Ernie Davis played the kind of ball game an All-American halfback should. He ran for 111 yards in 14 carries, and caught two passes for 20 yards.

But Ernie wasn't enough. "It's better to win than to lose."

Dr. Cressey Tells Ga. College That Red China 'Exists'

Special to the Daily Orange

DECATUR, Ga. — Americans shouldn't be surprised if Communist China announces soon that it has produced an atomic bomb, says a Syracuse University professor.

George B. Cressey, Maxwell prof. of geography, told a lecture audience at Aiken, South Carolina that Americans can no longer pretend that Red China does not exist.

"China is there and we will have to live with it the rest of our lives," Cressey said. He also predicted that Red China would be admitted to the United Nations within the year.

Students Receive Voice On Personnel Group

By JOYCE HERGENHAN Junior Editor

The means for obtaining a greater student voice in university affairs was promised Syracuse University students during the annual Pinebrook Conference of administration, faculty and student leaders.

Of the 19 formal resolutions approved by the conference, the most important provides for student representation on the university Personnel Committee.

Need for such student representation was suggested by Dean

of Men Earle Clifford in his keynote address and emphasized by several examples of the poor communication system now existing between the student body and the administration.

Student government has long been needed for a direct and permanent link with administration and, although there is student representation on some university boards, there has been no general administrative group through which students could communicate with the administration regarding the affairs most relevant to the student body.

Since the Personnel Committee is the one office most concerned with these affairs, it was selected to be the necessary link between students and administration.

The approved resolution suggests a minimum of three student representatives on each branch of the government, and will become official as soon as it receives approval from the existing Personnel Committee.

This approval is expected to be only a formality since both administration and faculty helped draft the resolution.

Another important resolution provided for a committee to establish a Student Judicial Review Board to deal with violations of all-university policy. This would be similar in structure to the present Men's Judicial Review Board, but would be composed of both men and women justices.

It was further resolved to establish such a board on an experimental basis with personnel from the two existing courts as soon as the present calendars are cleared.

Other resolutions pledged support for the existing dress, drinking and marriage regulations but suggested they be clarified for the benefit of the student body.

Dean Clifford's keynote address outlining the place of role, responsibility and rebellion in Syracuse Student Government opened the conference. He discussed the difference between student government and student rule in university administration, noting that the latter should be an area of communication rather than an area of action.

This suggestion helped provide the impetus for seeking student representation on the personnel committee as a means of communicating with the administration.

Doggy Afternoon Affects Classes

Indian summer proved the undoing of many students with afternoon classes last Friday. Between the weekend and the weather, rooms were filled in body but not in spirit.

Adding to the attendance but not the interest was Political Science 112 was one of the campus canines. A small, spotted dog, lounging in the heat of Maxwell Auditorium, stretched out beside Professor Frank Mungee and fell asleep.

Large Libraries Cited as Vital For Newspapers

NY Times Librarian Says Paper May Become National

Every newspaper should have a complete library to try to eliminate the problems involved in seeking more efficient means to supply information quickly and accurately, said Chester Lewis, head librarian of the New York Times.

Lecturing on "Research, Reporters and Retrievers" before the freshmen journalism class, Lewis said that during the next decade the information theory will develop "more fully and mechanical research will pass from present prototypes to varying applications on all research levels."

The New York Times has a library of 35,000 books and adds about 3,000 books a year, he observed. It also has 1 1/2 million files with over 8,000 subject headings serviced by 80 people. He estimated the most of running the Times library was over \$500,000 yearly.

One Dictionary Lewis said the Times might have a separate West Coast edition within the next 15 months. This is another step in making the Times a national newspaper, he added, although they do not consider themselves so now.

Several newspapers in cities of over 100,000 people have a "library" consisting of only one battered dictionary," the head librarian said.

The same information has to be given to several people who are interested in different segments of the same story, he said. This multiple task keeps us working. (Continued on Page 7)

Grad Resident Views Peace Corps in India

By SYBILLE WASSERMAN "India needs the Peace Corps," said Mrs. Kusum Singh, an Indian graduate student in Radio and TV and "beat resident at Shaw Dormitory. Americans are "not liked abroad" because "one only hears about business and embassy dignitaries who keep within their own group" and do not bother to go into the local communities.

She believes the Peace Corps attempt is sincere and genuine, but has not met anyone who is willing to make the sacrifice.

Mrs. Singh is the mother of three girls, aged 3, 6 and 11. The oldest daughter attends a boarding school in India while her other two daughters are living with her sister in India. Her husband, Gindra Singh, works for the Indian government.

The Shaw head resident pursuing undergraduate studies in Edinburgh, Scotland and said the undergraduates in Shaw "are interested in learning."

Fine Professors Mrs. Singh is "highly impressed" by the Maxwell School as it is a focal point for "an exchange of ideas and great interest in countries abroad." This is her second year at Syracuse University.

My professors and curriculum are "very fine," she said. Their emphasis is on values in society which must be kept in order to fulfill society's need, she added. "We must give something better than what we have now in radio and television," she stated. (Continued on Page 8)

Economist To Describe Dept. Openings

Opportunities in the State Department and foreign service of officer examinations will be discussed at 2 p.m. Tuesday in Maxwell Auditorium by International Economist Lindsey Grant, a representative of the State Department.

All interested students are invited to attend.

Grant is assigned to the China Desk and his work involves the initiation and coordination of United States economic policies with respect to the area including Taiwan, the China Mainland, Hong Kong and Macao.

Grant attended Hobart College from 1941 to 1945 and received his B.A. from Cornell in 1948. He was at Yale University from 1954 to 1955 for Chinese language-area study.

Appointed originally to the Department of State in March, 1949, he served in Hong Kong from 1950 to 1952 and 1955 to 1958, Singapore from 1952 to 1954, Taipei from 1958 to 1960 and since that time has been an international economist in Washington.

Grant served as an Ensign in the U. S. Navy from 1944 to 1946.

Spanish Class Needs 'Key' To Education

By BARBARA CORNBLETT "Seek and ye shall find, knock and it shall be opened unto you"—but not if the building happens to be Yale U.

Every Monday, Wednesday and Friday morning at 10 Spanish instructor Mario Delgado and students seek their classroom and with the exception of three times, every morning they have been locked out.

Each time Delgado is faced with this problem, he is forced to phone the Building and Grounds Dept. who accommodate, promising to take immediate action.

They have promised this seven times.

None Available Not having an available classroom, Delgado and Co. are forced to troop around the pre-fab buildings in a desperate attempt to find an unoccupied room before class time is over. And in last week's weather, this was somewhat of a problem.

Phoning the Security Department, complaining to the Lan-

LOCKED OUT OF THEIR CLASSROOM, Spanish instructor Mario Delgado and his students stand forlornly in front of Prefab 1-B. The class has had to find an empty room almost every morning. (Photo by Dave Glusser)

## Saturday's Loss

The Syracuse Orangemen played their finest football game of the season Saturday against Maryland. But their best wasn't good enough.

We hope that the setback won't cause the same kind of reaction among Hill fans that last year's defeat at the hands of Pittsburgh did. Immediately after the Panthers had snapped the Hillmen's 16 game winning streak, Piety football followers began to demand an explanation for why their team had "collapsed."

Most college football fans would be satisfied if their team was able to compile a season record of 7-2, but last year's Orange rooters were anything but satisfied. It seems only another undefeated, record-smashing year like 1959 could suit them.

So this fall they waited anxiously to see what kind of a squad coach Ben Schwartzwalder had assembled, hoping that he had put together another gridiron machine that would crush every opponent in its path. The Piety forces were impressive enough in winning the opener with Oregon State on the west coast to keep the fans content. Maybe this was because few of them were able to see the game. But then came the first home game, a narrow victory over fired-up but lightly regarded West Virginia, and right away rumors began circulating about the players not "giving their all" while on the field.

And this weekend all hopes of another perfect season have vanished. The perfection-demanding Orange fan is shaking his head, wondering what happened down in sunny Maryland.

It's obvious what happened. Dave Sarlette played another fine game, keeping the Terrapin defense honest with his accurate passing arm. All-American Ernie Davis put on his finest running show of the season. Hill tacklers were hitting Maryland ball carriers solidly and often. In short, a fine football team played an outstanding game, but was defeated by a better team.

Syracuse had no reason to apologize for its team. The Orangemen can still put together a highly respectable record for the season. Syracuse is not a national champion ball club this fall, but it is still one of the better eleven in the country.

This should be enough for the fans, but it probably won't be. They are still haunted by that 1959 season. Once on top, nothing else is good enough. That seems to be the prevailing attitude.

# SU's Campus Leaders: The Inner In-Group

By KEN NORWICK

In a certain Sociology course given over at Maxwell, it is learned that within every large club or society there are "subcultures" or "smaller groups." Within the whole that are distinguished by manners and methods peculiar unto themselves. It is learned, furthermore, that these subcultures "exist as much and the same" type of pressure upon the individual to make him conform as does the larger group.

This is especially so, it is found, on a college campus such as our own.

Indeed, there are innumerable subcultures represented here at Syracuse. There are fraternities, men, for example, and women, or intellectuals, or playboys, or even campus beatniks. Or even football players.

But among the most interesting and unique subculture found at Syracuse is that amorphous group known as "campus leaders."

Campus leaders come in various sizes and shapes, not to mention their various interests, intellects and egos. And yet, somehow, you can always tell a campus leader when you see one. And for some inexplicable reason there always seems to be on wherever you happen to be.

Probably the most unique characteristic of Syracuse's campus leaders is that most of them really aren't, and will freely admit it whenever the subject may come up. But then, of course, the subject rarely comes up; it almost seems that there's an unwritten law on campus prohibiting the doubting and questioning of a campus leader's leadership.

Campus leaders are almost impossible to define or classify, the great variety being what it is. And yet, curiously, those who are, know they are, while those who aren't, aren't, and also know it. Except for those who think they are, and hope they are, but aren't. These are

is known as "fringe" or "sub" campus leaders.

The primary requisite for membership in this most elite subculture is that the would-be member must be clearly recognizable to at least 20 other students. It helps, of course, if the aspirant holds some sort of position on campus, and manages to get his

name into the DO every once in a while, although membership can still be attained without these achievements.

Genuine campus leaders are usually overappreciated, primarily by the extent to which they so provides much opportunity for the study of previous leaders and for the perfection of an individual campus leader style.

Occasionally, however, the lower classes do turn out a qualified member or two, but, interestingly, these relative newcomers to the group rarely manage to stick with it. Usually, they reach their peaks quite rapidly, stay there for a while, and then flizzle out as quickly as they rose.

Only the upperclassmen, it seems, have the staying power necessary to remain qualified and true campus leaders until graduation.

Generally speaking, there is one major subculture of campus leaders. Within this group, however, there are even stricter delineations of rank, discernible mostly to those within the group and those who have studied the group for some time. The average non-campus leader probably couldn't distinguish between a real campus leader, a real campus leader, or just a campus leader. But then, of course, the average non-campus leader probably doesn't really care.

But for those who do care, a brief perusal of this year's banner crop might prove interesting.

In the first, or real-real category, one would have to include Eetsy Evans, the lovely and charming president of JSG; Bob (Gerberoni) Gerber, who is an exception to the rule in that he's been working at it

for four years now; Lee Peterson, a junior who should be able to stick it out; and, of course, despite whatever the administration may say, the ever-popular Ted Clark.

Are They Real?

In the second, or just real category, one would have the likes of Zam Girgus, fighting officer of the DO; Sloane Dugan, mild-mannered leader of Traditions; Jack Miner, even more mild-mannered senior class president; and, lest we forget, "Boss" Ellis Gaskell, who those who know him agree is really not a bad guy in spite of everything.

In the final category, or just plain campus leaders, are the remainder, and majority, of the group. These are the people who head or belong to the ridiculously large number of committees and councils on campus, as well as those who persist in going out for them even though they never seem to be selected. These are the ones, incidentally, who always seem to be assuring and reassuring themselves and others that they really are, no kidding.

Although there is no clear-cut line to campus leadership, the ambitious aspirant might adhere to the following guide to the revered "inner circle."

1. Believe you are a campus leader, despite what everybody says.
2. Tell your friends about it.
3. Be seen at the right place, at the right time; especially "the Club," TC, the Savoy and/or Varsity, and, on occasion, even the library.
4. Pretend you really know and understand all that's going on on campus.
5. And finally, don't lose faith, keep at it until you're sure it's absolutely hopeless.

See you 'round the quad...

## Hill Arab Students Blast DO Editorial

To the Editor:

The editorial of the Daily Orange entitled, "Syria and Egypt," is the most offensive thing to be published in a university newspaper which should devote itself more to intellectual subjects and to high standards of ethics.

Editorializing about the troubles in the Middle East will not solve the problems in that region. If anything, it will further complicate matters. May we suggest that if a university newspaper, such as the DO has nothing better to print, it should not print anything at all.

Such an editorial shows a contemptible attitude towards other peoples and their troubles, in general, and offers no constructive criticism or even hints as to how the situation should be improved of such a paper.

Such an editorial is a hostile act toward our foreign students who come to this institution in search of knowledge and higher standards.

The Arab Students  
Syracuse University

## SU's Football Ticket System Denounced

To the Editor:

I have seldom seen or been exposed to the complete lack of appreciation or feeling as was shown by the student body at last Saturday's game.

After waiting in a packed, dust-soaked mob in front of the Student Gate-A, B Reserved—we were turned away to join an equally packed mob waiting to surge through the unreserved seats gate.

After waiting for 15's (which should have been mailed) and waiting in line for reserved seats tickets we are further treated to this type of consideration.

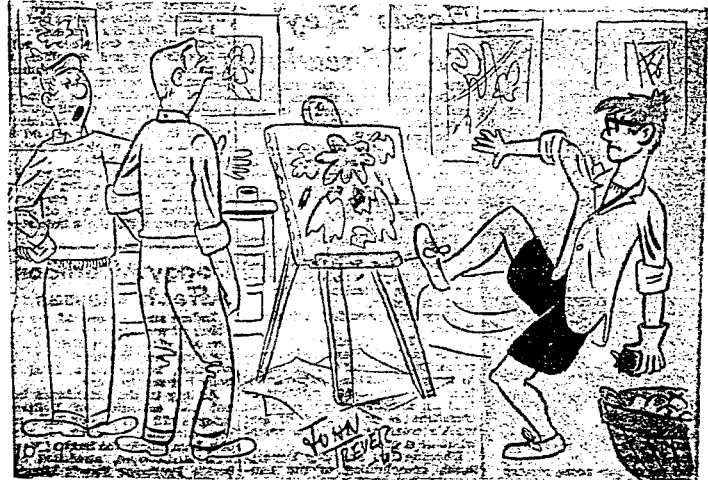

Privilege?

Perhaps the ridiculous amount of money that every student must pay for the "privilege" of attending means little to some, but some distinction should be made for the student as against the outside customer.

It is bad enough our parents can't be sent (free or paid) during Parents' Weekend, but for the students to be unable to get near the stadium a half-hour before they are is typical—and very unbecoming.

The lacking student enthusiasm, about which the illustrious leaders cry, is due directly to this type of treatment. I personally don't care, any longer. My only regret is that after three years I still have two more to endure.

George Lawson  
Fourth Year Architectural Student

"This is Linseed. He's an angry young man."

# 'Show': A Slick Magazine With Coverage-in-Depth

Editor's note: This is the second in a series of two articles on the addition of new publications to the entertainment field.

By JOHN E. GREENWALD  
If the success of "Show Business Illustrated" depends simply on improving editorial matter, the success of "Show" magazine depends on just how much money the publisher,

A & P heir Huntington Hartford, wants to lose a year.

Despite "Shows'" obvious superior editorial and visual qualities, people just won't put down a dollar a month for any magazine. (Remember "Flair" magazine majors?)

That bi-weekly SBI costs the same per month will have no effect on either the public or the advertisers: the latter still

not being able to distinguish between the quantity or quality of an audience.

Editor Robert M. Wool has assembled a fine staff for "Shows." Their approach is less broad but much deeper than SBI. Though both magazines often try to do the same thing, "Shows" does it with an add, often incisive spark.  
The photographs of old Hollywood sets say more about the film capital than the reams written on the subject.

The first of a two part series on Orson Wells tells two stories. One about Wells, the other about the article's author, critic Kenneth Tynan. We would like to read more of this kind of editorial counterpart.

Instead of a pleasantly dull interview with ABC's president as a justification of that network's trivia that appeared in SBI, "Shows" sees Martin Mayer ("Inside Madison Ave.") and "The Schools" to explain what a network has to do before it can even think about programming quality.  
"Victorically," "Shows" ranks among the best. Art Director Henry Wolf has created a quiet but dramatic look for the magazine.

Of course, one does expect such performances at a dollar a shot, but it's nice anyway. Besides, where else could you read film reviews by Arthur Rosenberg, Jr.

## — UP IN THE AIR — Sponsors Beginning to See Commercial Possibilities In Public Affairs Shows

By JAN GRIFFIN

"You can't get blood out of a stone" is a phrase used as an explanation of why news and public affairs programs have not been sponsored. Not enough people were watching, so they weren't worth the money to sponsor. The networks put them on anyway, bias their excess profits, but stations were, and still are, reluctant to carry an unsponsored program... no money in it.

The programs have more appeal than their rock-bottom beginnings, and the life-giving circulation of commercial funds is flowing. News and public affairs programs are getting sponsors. As they raise themselves out of the charity block and into a paying proposition, the network affiliates are showing them, creating better ratings, more reaction, so more programs and sponsors.

A product of this evolution was "War or Peace: Where We Stand" produced by CBS last Thursday night. It was a technical gem, an excellent program on the state of the planet, and it was sponsored.

The program linked three cities containing seven CBS stations and spanning six oceanic news acres from the CBS bureaus in Moscow, London, Paris and Bonn missed in London... Marvin Kalb, Alexander Kendrick, David Schonbrun and Daniel Schorr... joined Howard K. Smith, Washington; Richard Hottelet, the United Nations; and moderator Er Severeid in a force-

ful, knowledgeable and witty discussion of the shape the world is in and where it is headed.

Ending on a note from Severeid, "Don't let them scare you," referring to Russian threats, the program was a tribute to the networks. They believed in these shows, and didn't let the ratings scare them.

CBS now estimates that 96 per cent of their news and public affairs programs are sponsored. Some, like "Twentieth Century" take breaks for commercials. Others, like Thursday's transcendence discussion, has just one commercial, a last-of-its-kind for the company, not the product just because Severeid's summary. The sponsors realized that these programs are worth buying. They had insight to see that they present special problems in the presentation of commercials. Many programs just can not be interrupted.

This is encouraging to the college-trained broadcaster because it means more than "more and better public service." Programs designed to inform the public are no longer poor, neglected studies that have to beg for air time. They take their place as full-fledged partners in the commercial medium of American broadcasting.

# Fall Intramural Setup Opens With Touch Football Games

By **BERNIE MACCULLUM**  
Syracuse University's fall intramural season begins this evening with three touch football games under the lights at Lew Carr Field.

Three games will be played each day of the week, starting at 7 p.m. Schedules will be printed daily, along with the game results of the previous night.

Swimming and bowling are slated to start Tuesday at the Orange Pool and the Women's Building allys.

**Football Field**  
For the information of freshmen who may not know where Lew Carr Field is located, it is at the corner of Lancaster and Colvin streets. Drumlins buses go right by the field.

The football schedule will be conducted on a single elimina-

tion basis. One loss eliminates a team from further play.

Intramural director, Milt Howard stressed that all football games will be played regardless of the weather. There will be no postponements.

Double elimination will be used in the swimming competition, with bowling on a round-robin basis.

**Increase in Teams**  
A near-record number of teams is entered in the fall competition, with the most significant increase in swimming, where 48 teams are entered, as compared with 24 last year.

The bowling program has also been expanded, with competition on three nights a week rather than two. This should allow most teams to roll once a week. The handicap system will be used and

kept from match to match. Howard credits the new field-house and freshmen dormitories as contributing to the improved intramural setup this year. The fieldhouse, when it is completed, will increase the playing area for inter-university athletics, as well as sheltering games in case of bad weather.

**Added Unity**  
Howard feels that the addition of Dellplain Hall will add unity to the intramural program by eliminating many cottages and "spread living centers."

Another new innovation in intramurals this year is that fraternity members living in dormitories will be permitted to play for their fraternity teams. However, they will not be allowed to compete for both the fraternity and dorm teams.

A new group entering intramural competition this year is from the Air Force language program at Skytop. Last year over 3000 men took part in intramurals, with the number expected to increase this year.

In November, cross-country and rifle will be added to the slate of intramural sports.

Intramural participants are urged to check the bulletin board in the locker room of Archbold Gym for flights and last minute schedule changes.

# View From Archbold

By **MILT JOFFE**

PERHAPS, GENTLE READER, you have noticed something new in the sporting pages of this tabloid during the past two weeks. We're referring to the by-lines appearing with many of the stories.

Without keen powers of observation you should still be able to reason that a few of these names belong to members of the, pardon the expression, female sex. Without commenting on the wisdom or folly of this new practice, we merely throw it out to you as an established fact.

The past week has featured stories on football statistics and auto racing, both written with the soft touch of the female.

### Jobs For All

On behalf of the male members of the sporting staff, we conveyed our appreciation to the sports editor. He assured us we would not lose our status on the staff and that there would be work for one and all.

Said editor was backed up rather strongly early this week when the following letter, from a former female sports writer of the Daily Orange staff, reached the hallowed desk of our editor-in-chief:

"It has only been five years since this poor female left the beloved haunts of the helibox sports office and already the subsequent staff members look with surprise at the idea of a woman in the sports office. Why, mercy, gods and goddesses, she married him!"

week about coeds signing up for the sports staff rather than news. This prompts me to write and caution you and your sports editor to treat them kindly. Just ask someone what happened to the last sports editor who tried to talk the last woman sports writer assistant editor, off the staff.

"I must admit that a woman in the sports office can change the usual picture of such a place, but I can assure you a qualified woman sports writer is much more of an asset than many of the not-so-qualified men sports writers who are kept on the list because they wear male attire. I'd be knowing how the gals are getting along if you men don't discourage them before they can get established."

### EDITOR UPSET

The writer of this fan mail is Joan Connor Tennessen, '57. The part about marrying the sports editor was visibly true; our current leader, who is relieved somewhat by the fact that, for the present at least his assistant is wearing male attire.

But what would happen if we lost our titles? And what, if one of these girls became assistant editor? And what if next year she became editor and males were barred from the sports office?

We're afraid it would be something like this: A female sports staff would bring a new point of view to Syracuse sports and soon the sports themselves would change.

### Lost Tradition

The first tragic loss would be the time-honored tradition of the locker room interview. Gone, gone into the files of the past would be these sessions of give and take amidst the sweating and swearing of tired athletes.

Instead we will see stories on the fashions of our starting eleven and what the best dressed lineman will wear this year.

And on the football field, the action and contact won't be of much concern to the lady in the press box. She'll write of the "pretty blue uniforms of the visiting team." And soon there will be sharp editorial pressure to change the traditional, but unfashionable, Orange of the Orangemen.

Then it will happen. One Saturday the fighting eleven will romp onto the field in their beige and cerise uniforms to the huzzahs of the Daily Orange sports editor.

Soon the editor will complain about the roughness of the football game. He'll get into a huff and the athletic department will call a conference.

Touch football will be introduced, girls invited to try out for the team. The big weekend will be Cazenovia Weekend when the fighting females from the south come into Archbold in their latest Paris-designed uniforms.

The other sports, which had previously taken a back seat to football, will receive praise and will grow in popularity. Syracuse will enter the NCAA Bridge Tournament and the United States mixed doubles croquet matches played in Cut-and-Shoot, Vermont.

### New Features

During the slow seasons, features will appear on such interesting topics as: "My Favorite Food" or "The Most Unforgettable Suit I Ever Wore" or maybe even "The Night She Made Me Forget Cross-Country."

Or perhaps it won't be that bad. Perhaps the biggest thing that will happen will be sudden and unexpected prominence for WAA. Each Monday night the coeds will run for the newspaper to see where the field Hockey team ranks in the AP poll.

But this is all speculation. Maybe it will get better, maybe it will go away, maybe it will get worse. You never really know for sure.

**HUNDRED BUCKS?**

THAT'S WHAT YOU CAN WIN IN EVERY ONE OF

# VICEROY'S Big College Football Contests

IT'S EASY! Just pick the ten winning teams, predict the scores—and you're in the money!

**FLASH!** ONLY STUDENTS ON THIS CAMPUS  
 ARE ELIGIBLE!  
 SECOND CONTEST OCTOBER 21<sup>ST</sup>

All you have to do is clip the coupon, pick the winners and predict the scores—then figure out how you're going to spend that hundred bucks! It's easy... Just clip the coupon below or get an entry blank where you buy cigarettes and fill in your predictions of the ten game scores. Then mail it with an empty Viceroys package or a reasonable rendition of the Viceroys name as it appears on the package front to Viceroys at the Box Number on the entry blank or drop it in the ballot box conveniently located on the campus.

Open only to students and faculty members. Enter as many times as you want. Simply send an empty Viceroys package or reasonable rendition of the Viceroys name with each entry.

Entries must be postmarked or dropped in the ballot box no later than the Wednesday midnight before the games and received by noon Friday of the same week. Next contest will be on games of November 4—when you'll have another chance to win.

**LOOK!**  
 HERE ARE ALL THE PRIZES  
 YOU CAN WIN!

- 1st PRIZE \$100
- 2nd PRIZE \$50
- 3rd PRIZE \$25

**P.L.U.S.**  
 20 OTHER PRIZES  
 OF \$10.00 EACH

And a free carton of Viceroys to every contestant who names all ten winning teams—REGARDLESS OF THE SCORES!

 UNTIL YOU LEARN WHAT  
 VICEROY'S Deep Weave Filter  
 CAN DO FOR YOUR TASTE!**

It can do plenty. Here's why: the Viceroys filter starts with pure, safe vegetable material, made into the same straight filter strands as most good filters.

But here's the twist: Viceroys weaves those tiny strands into the special Deep Weave Filter... and that's the filter you can trust to give you the good taste of Viceroys's rich tobacco blend. The fact is...

Only Viceroys' Got It  
 ... At Both Ends!  
 Got The Filter...  
 Got The Blend!

\*Reg. U.S. Patent Office

**HERE ARE THE CONTEST RULES—READ 'EM AND WIN!**

1. Any student or faculty member at this campus may enter except members of Brown & Williamson, its advertising agencies, or members of their immediate families. All entries become the property of Brown & Williamson—cannot will or be returned. Names may be published in this newspaper. Prizes must be claimed by the winner, provided each entry is paid in advance. Contest subject to all conventional regulations. Entries must be postmarked or dropped in ballot box on campus no later than the Wednesday midnight before the games and received by noon Friday of the same week. The right to discontinue future contests is reserved.
2. Entries must be contained in one envelope, on the coupon in this ad or on an Official Entry Blank or piece of paper of the same size and color as the coupon. Entries must be sealed in the envelope, which the winner, confirms an empty Viceroys package or reasonable rendition of the Viceroys name as it appears on the package front. Mail entry to Viceroys at the Box Number on the entry blank or drop in Viceroys' Mailbox on the campus.
3. Entries will be judged by the Random Drawing Unit, in the name of number of releases randomly generated. Top 100 to be chosen on the basis of scores predicted, tie-breaker points awarded in case of tied lot.
4. Winners are eligible for any prize in subsequent contests.

**WOMEN'S ATHLETIC Association** Riding Club meets daily for trail rides and instruction. Contact Sue Pokart Shaw 502C or call Velasco Stables, GR 6-2228.

**BOWLING** Openings for individuals and teams. Men's ABC Sanctioned League. Women's Bldg. Call Ex. 2512.

**COFFEE CORNER** open 9 a.m.-4 p.m. in Chapel. Students, faculty invited for coffee and doughnuts.

**CITIZENSHIP** Conference banquet, 6:30 p.m. today, LeMayne Auditorium, 629 Liverpool Rd. Rides being awarded today 6:15 p.m. R.S.V.P. by calling Ext. 22-26 or GI 6-0989.

**COLGATE WEEK END** 5th Quarter Dance signups, main deck of Women's Building.

**SENIOR PICTURES** for "ON" are being taken daily in the Trophy Room of the Men's Gym. Apartments are also being made there.

**CAMPUS CHREST** booth applications from all living centers, fraternities and sororities must be sent to Jeff Kovalik, Ext. 2910 or James Finken, Ext. 2918 today. Carnival is Friday, Oct. 13.

**LUTHERAN DAILY** Devotions, 5:05 p.m., North Wing of Hendricks Chapel.

**SCHOOL OF EDUCATION**, applications for second term sophomores due October 9-18. First term sophomores' applications due Nov. 27, Dec. 15.

**UKRAINIAN DANCE** Groups, 7-9 p.m. today, Women's Building, Recreation Lounge.

**YOUNG DEMOCRATS**, membership meeting, 4:15 p.m. today, 111 Maxwell. All wishing to join should attend.

**ARMY RESERVE** Intelligence Unit affiliated with Syracuse University has vacancy for an enlisted man. Phone ROTC unit for details.

**PUT MORE FUN** in your life. House mixer with Nottingham Cottage. Call social chairman, Ext. 2795 anytime.

**NON-GREEKS** need an organization on campus or do they? Discussion, 7:15 p.m. today, Chapel House basement.

**SEX LEAGUE** discussion, on "Judaism in Theory and Practice" will begin at 4 p.m. today, Room "C," Chapel House.

**CAP PARTY MEETING** 3 p.m. today at Sigma Alpha Epsilon. Party reps please attend. Any houses interested in joining are welcome.

**SPANISH CLUB** meeting 7:30 p.m. Wednesday in third floor lounge of Women's Building. Round table discussion and slides on Guatemalan culture. Anna's elections. Refreshments served. All welcome.

**WAA RIDING CLUB** 7 p.m. Tuesday in the Shaw Rec. Lounge. Beginner, intermediate and advanced riders. New members welcome.

**SYDNEY SUPPIN'S SEMINAR**, Soc. Sci. 300, Backgrounds of Social Science, will not meet 4 p.m. Tuesday. Students are invited to attend the symposium in the Founders' Room, Maxwell, which will be a joint meeting of the Citizenship Staff and members of the Doctor of Social Science Program. The speaker will be Professor Harold Taylor.

**ADVANCED Conversational Hebrew** class 3 p.m. today in Room 113, Sims, with Prof.

**UPPERCLASS SKEETICS** Corner, 8:30 p.m. Wednesday, at Dean Noble's home, 315 Berkeley Drive. Guest: Dr. Benjamin Bart, Romance Languages.

**ORANGE SPLASH** Synchronized swimming, 4 to 5:30 p.m. today. All coeds invited.

**WAA FIELD HOCKEY**, Monday at Tuesday, Women's Building Field.

**DEBATE CLUB**, 3:30 p.m., Wednesday, 407 Hall of Languages.

**FRESHMAN CHAPEL REFS** will not meet Tuesday because of Cit 1 lecture.

### Chamber Music Concert Today

An Asiatic Musician, Ravi Shankar, a sitar player, will make an appearance Monday at 8:30 p.m. at Colgate University Chapel. Mr. Shankar is being sponsored by the Committee for the Performing Arts, the Asia Society, New York. This same show will play at Cornell this week-end and later at Rochester.

## Large Libraries Cited as Vital For Newspapers

(Continued from Page 1)  
ing 18 to 24 hours a day instead of eight hours, he added.

**Overseas Reporters**  
Lewis has been head librarian at the Times since 1947 and is a member of the International Library Honorary. In 1955 he was elected president of the Special Library Association for one term. He is also a past director of the Telefact Association.

Lewis is best known for his work in educating new foreign correspondents for the Times. Several years ago at a national press convention, he said, "We put a lot of effort into briefing every Times foreign correspondent before he is assigned overseas. We try to make sure that he knows almost as many facts about the situation as if he had lived there all his life."

A man who knows his own imperfections is just about as perfect as it is anyone possible for anyone to be.

## Spanish Class Needs 'Key' To Education

(Continued from Page 1)  
gunge Dept., even leaving a note on the door every day have brought no appreciable results.

It has even been suggested that the group spend part of each class touring the Hall of Languages to find a vacant classroom.

**Exercise**  
While this kind of exercise may help to wake everyone up in the morning, the 10 to 20 minutes wasted each meeting, doesn't add anything to the learning process. Delgado said.

## Ketcham Prepares Franklin Papers For Publication

An SU professor is among a group of distinguished American historians now preparing the Papers of Benjamin Franklin for publication. Dr. Philip L. Ketcham, associate professor of Citizenship and American Studies, is serving on the editorial board for the publicly-endowed project centered at Yale University.

Prof. Ketcham, who also received his D.S.S. degree at Syracuse, joined the faculty in 1956. He left the following year to edit the James Madison Papers at the University of Chicago.

many a knight  
was spent  
in rusty  
armor

In days of yore, men feared not only their mortal enemies, but the elements too. It was the medieval armorer's task to protect his chief against foemen, but weather-protection was a more difficult matter. Thus many a knight was spent in rusty armor.

Engineers and scientists at Ford Motor Company, engaged in both pure and applied research, are coping even today with the problem of body protection (car bodies, that is). Through greater understanding of the chemistry of surfaces, they have developed new paint primers and undercoatings, new rustproofing methods, and special sealers that guard entire car bodies against nature's corrosive forces—all of which add armor-like protection to Ford-built cars.

From other scientific inquiries will undoubtedly come new materials with protective properties vastly superior to those of today. This is another example of Ford's leadership through scientific research and engineering.

# Grad Resident Views Peace Corps in India

(Continued from Page 1)

"Communication in Indian cities is good," she said. "However, instead of the communication centers which are set up by the government, India wants to start making radios on a large manufacturing basis," stated Mrs. Singh.

She explained that television, which is mostly concerned with educational and programs, not entertainment, has improved only in the cities. "Radio," she said, "is more advanced than television and has a tremendous impact upon the people."

**Religious Life**

India is trying to "bring out the dancing and singing" in the old culture "which was pushed aside" during the British period," she said.

"Mrs. Singh commented that there is only group dating in Delhi. "It is not quite nice if two people go by themselves," she said.

# Holy Cross Game Tickets Available For Parents Now

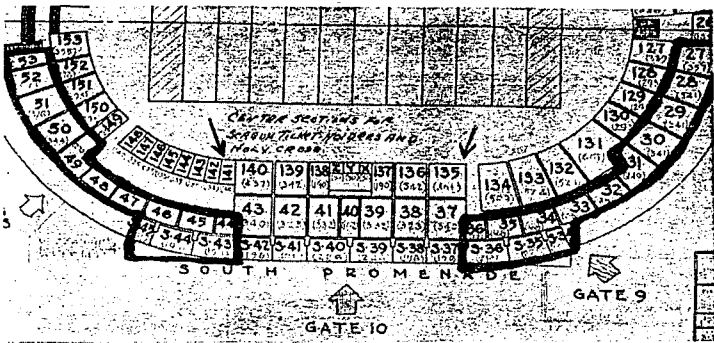

Football tickets for Parent's Weekend, October 27-29, may be purchased Monday through Friday, October 9-13.

Before the tickets may be bought, students must first secure a yellow card outside of the Registrar's Office, room 202, in the Administration Building. Students then must present this card with their ID cards from 9 a.m. to 5 p.m. at the ticket office in trophy room of Archbold Gymnasium.

Each student can purchase a maximum of four tickets at four dollars each. No provisions have been made for student exchange of tickets. Students will not be able to sit with their parents; they must sit in sections reserved for students.

Tickets will be sold on the basis of first come - best seat.

# Parents' Weekend Seating

SECTIONS IN ARCHBOLD STADIUM WHICH ARE BEING HELD FOR RESERVING SEATING FOR PARENTS ON PARENTS' WEEKEND (HOLY CROSS GAME), October 27, are outlined with dark lines in the above chart. These sections, however, are across from the student gates and seats and as a result, students will not be able to sit with their parents. The sections for parents are 27-37; 8 31-8 36; 41-43 and 8 43-8 45. Tickets will be sold on a first-come-best seat basis. No provisions have been made for student exchange of tickets. The parents' section is on the Holy Cross side of the stadium.

A dead person may vote, legally, if he mails an absentee ballot and then dies before election day.

**AN UNPAID TESTIMONIAL**

Napoleon Bonaparte says:

**I'd never have lost to Wellington\* ...if I'd been wearing a Jockey POWER-KNIT T-SHIRT**

Q: You mean...?

A: Ouit! I spent so much time tugging at my baggy, egggy T-shirt... I couldn't concentrate on the battle.

Q: I see. Well do you realize that Jockey's new T-shirt is Power-Knit with a quarter again as much resilient combed-cotton yarn to stay soft and keep its perfect fit, even after countless washings? The new Spandex collar won't sag; the full-proportioned body won't bag. And the deep-tuck tail stays every inch as long as the day your Jockey Power-Knit T-shirt came fresh out of the package.

A: NOW he tells me!

\*Napoleon's final defeat came at the hands of the Duke of Wellington in the Battle of Waterloo, June 18, 1815.

## Brown Teaching At Univ. of Hawaii

Dr. Stuart Gerry Brown, Maxwell School professor of American Civilization, is serving as a visiting professor at the East-West Center for Cultural and Technical Exchange at the University of Hawaii.

Dr. Brown will be there for this academic year. Accompanied by his family, the professor left at the end of the month.

In addition to teaching, Dr. Brown will serve as a consultant on future plans for the center, now in its first year of operation.

After a nine month stay on the Hawaiian Islands, he will lecture at the Pakistan Staff College at Lahore.

Enroute home the Browns are scheduled to visit India, Turkey, Greece, Austria, West Germany, France and England. They are slated to return to Syracuse on August 1.

## Leopold Named Institute Director

The State University of Forestry at SU has announced the appointment of Doctor Bengt Leopold as director of the Empire State Paper Research Institute, an professor of pulp and paper technology.

Dr. Leopold was born in Valbo, Sweden. He obtained his B.S. in chemistry, Master of Science and his Doctor of Technology degrees at the Royal Institute of Technology in Stockholm.

In 1958, Dr. Leopold was appointed group manager and associate director of research for the Mead Corporation in Chillicothe, Ohio. He has published over 25 scientific papers dealing with the chemistry of lignin, fibers and cellulose. He is also the author or co-author of 10 different papers.

The Empire State Paper Research Institute (ESPRI), which Doctor Leopold will direct here at the State University of Forestry is a branch of ESPRA, ESPRA is the Empire State Paper Research Associates, a non-profit organization consisting of all the leading pulp and paper companies in America.

ESPRI has sponsored research at the Syracuse College of Forestry since 1945.

There are two thousand magazine publishing firms in the United States with a total volume of more than one and one-half billion dollars annually.

Passenger car advertisers invested over 13 per cent more in newspaper advertising in 1957 than in the previous year.

Editor-in-Chief ..... Sam B. Girgus  
Business Manager ..... Andrew Levitt

## Pinebrook

Pinebrook is a peculiar kind of place where university vice presidents and deans become waiters and pour coffee for students. Their thanks usually comes in the form of a vehement student's demand for more power for student government. It is a place where a vice president hops into a boat and loses his oar before he gets ten feet from the shore and then laughs about it as hard as his receptive audience. It is a place that requires over five hours of uncomfortable driving so that students, professors and administrators can sit up until two in the morning talking about student government. It was a warm, wonderful and enriching experience for a few people, but in the way of contributing to a strong student government at Syracuse its accomplishments are dubious.

Undoubtedly, it came up with some imposing suggestions. The most important of these was the passage of a resolution to expand the Personnel Committee so that student leaders will have a voice on what happens to their own legislative acts. It took exciting action on the student court and called for an important clarification of university rules, along with the publication of necessary information for all students.

But almost all of these resolutions were orientated to one goal—communication between the administration and student body. As Dr. William P. Ehling of Information Services said, the administration obviously does not intend to make student government a mere messenger boy between the student body and the administration. The role to be played is to be a far more sophisticated and important one. What we want to ask is whether or not this role is the right one for student government to seek.

Certainly, this function of Joint Student Government as a connection between students and administration is necessary. There is an hiatus between the two groups and much of their problems exist as a result of it. But if this becomes the main objective of student government then it would bare only a slight difference from a board of post takers. It would be little more than a loudspeaker, a kind of disseminator of opinion. It certainly would not provide real, effective leadership for a huge student body.

One of the main arguments in favor of this philosophy of student government is that it avoids frustration. But some kinds of frustration result in progress. Some kinds of frustration are compatible with the attempts of youth to move mountains, and often the wish to avoid frustration becomes an excuse for shirking one's real responsibilities. Unfortunately, Syracuse student leaders must come to face one fact that they refuse to recognize. This is that at times it will be necessary to greater rather than diminish their separation from the administration. If they are to lead the student body they must stand with it and not impartially in between.

By JEANNIE RANOV

We were considering doing an anti-football thing this week, but after Saturday's heartbreaker, we decided it just wouldn't be too cool.

So instead we offer a sort of ode to Syracuse.

We don't like people who gripe about this school. Let them get elsewhere. There are plenty of others who recognize the many sterling qualities of the institution that is Syracuse University. We have attended no other college, although we grew up practically on the quad of a smaller university. But however irrational it is, we wouldn't trade campuses for all the grade points in the world.

Nice Scenery

For one thing, though we may be in a minority in stating this, the SU campus is pretty. Not beautiful, but definitely pretty. One of the nicest views can be seen walking down that little hill from the Hall of Languages to the intersection of Walnut and University. Notice it some time.

And on a sunny day, with students relaxing on the steps, Hendrieks Chapel is straight out of a college catalog.

The walk down the steps from Crouse offers a beautiful view. Right now we can hear the Crouse chimes ringing over the Quad. They really add to the atmosphere, although we do wish the bells or whoever is playing them now would practice up a little.

The park between Walnut avenue and Walnut place is another attribute of this campus, especially in nice weather like this. We love to see people studying on the grass, or playing ball, or just strolling through, enjoying the windy little walk between the trees.

We don't care what the architects say, the buildings at SU are wonderful, in that each has its individual atmosphere. Crouse College is the most fascinating. We've never had a class there, but the few times we've wandered in we've noticed the same air of excitement present as there is when an orchestra tunes up before a concert. All over that building people are singing, playing pianos, sitting on the floors in the hall sketching, and in general engaged in interesting, creative activities.

Maxwell has the kind of important air of a Roman forum. One gets the feeling that things of great moment are in the wind. Even the knots of students that gather in the lobby before a class in the auditorium take on the political glamour that permeates even the red bricks of Maxwell.

Atmosphere

We like the idea of attending a school where a folk singer draws a sidewalk crowd, where kids wear sneakers and no socks, where students and teachers meet informally in the Chapel lounge, where Greeks go serenading.

Of course, maybe we're just infatuated with the whole idea of College, but who cares. Anytime we hear someone reiterate "College is the best four years of your life" we say amen. When we go downtown or any place off campus, we get that "own the world" feeling—we're in college and it's the greatest.

Seriously, group, appreciate it. Don't get carried away with the biased, sophisticated college kid act. When else in your life will you be able to devote all your time to one cause—yourself—without worrying about children, taxes, etc.? When else will you be able to experiment with life and pull almost anything, only to have it excuse because you are in college?

After these four years, as any senior can tell you, it's out into the cold cruel. So gather ye education while you may.

## Fresh Denies Political Naivete

To the Editor:

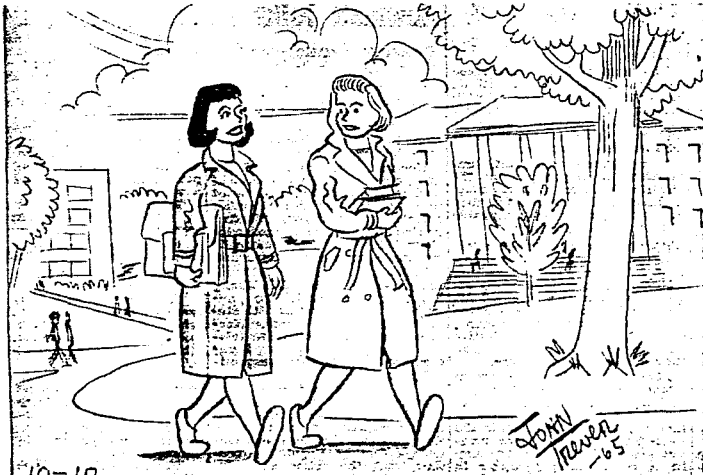

It is evident that a few upperclassmen are worried about the "naivete" of the freshmen. As a fresh, I would like to relieve you of this great burden. I am neither stupid, blind nor naive.

We are quite able to see for ourselves how things are run on this campus, and just what role politics play. However, if there is an organization, activity, or anything for that matter that is not dictated by politics, please let me know.

It makes no difference who won the campus elections last year. Whether it was the US or CAP party candidates has no effect on this year's elections. If we vote for last year's victors without any alternative motives then there is something more serious to worry about.

May I suggest, if you are so intent upon worrying about the freshmen, that you forget Ellis Gaskell's resignation (I still don't know whether he resigned, or not) and get aside your differences to help orient and introduce the new fresh to their campus leaders.

Linda Colten

"Right now, I am majoring in the Romance languages. You know—sweet nothings."

STREET Daily Orange

Published Monday through Friday during the academic year by the Students of Syracuse University. Offices located in Building 7, Syracuse University, Syracuse 10, N.Y.

To the Editor:

Your editorial ("The Bush League—Friday, Oct. 6) displays either the Daily Orange's ignorance of the overall campaign in Syracuse or a near-sighted view that the Democrats are Puritans in the political arena.

Well, Mr. Editor, it was the Democrats who started and made this into a dirty campaign. The Democrats, not the Republicans, have made slanderous charges they cannot prove.

The Democrats claim that Mr. William Walsh is nothing more than a puppet of Sen. Hughes. Because it is not true, the Democrats cannot win it. In fact, they have made no effort to verify the accusation. They just claim.

Distinguished Record  
Mr. Walsh was chosen by a Republican committee because he is the ablest man to lead Syracuse. Walsh's long, distinguished record of public service cannot be attacked.

So in order to say something, the Syracuse Democrats resorted to name-calling and false accusation. The charge that Mr. Walsh has "supported prostitutes and dope adding is another example of the stream of libelous claims which easily can be proven totally false.

Who are the Democrats trying to fool? Their charges passed long before Mr. Walsh was asked for "nice names." I do not agree with the charges they have made against Mr. Walsh. One fact is clear though, the Democrats hit below the belt first.

According to the Daily Orange the Republicans are "running scared." Again the facts. Because the Republican party has continually been the winning political organization in Syracuse, the GOP has naturally attracted the more capable candidates for office—people want to be on the winning side.

The Democrats are running on the defensive. The people of Syracuse realize the Republicans are the ones who have led the way progressively.

Two examples: The Republicans started the movement going for the Community College. Then the Democrats thought this was an excellent idea. The Republicans, in order to have a sound fiscal policy, initiated the idea of a two per cent city sales tax; the Democrats liked the idea. One could go on from now on using the same pattern. Clearly, a person need only look at the record to see how the Republicans have led and the Democrats followed. Followed for the primary and mayoralty campaign in Syracuse the Democrats defend no record.

Their record has been that of the Republicans, which they do not care to admit. Therefore, the Democrats have resorted to name-calling, false accusations, and dirty campaigning. But, when fire returns they yell "four" and dream on.

Win Whittaker  
President of the Syracuse University Young Republicans

# Yankees Bomb Redlegs To Take World Series

SAT. OCT. 14—8:30 P.M.  
Direct From The Circle  
In the Square  
"UNDER MILK WOOD"  
by Bryan Burton  
\$4.00 \$5.50 \$8.00 \$2.50  
for reservations GR 6-4536  
University Regent Theater  
820 East Genesee St.

The New York Yankees captured their 19th championship in 26 tries yesterday by blasting Cincinnati, 13 - 5, to take the World Series four games to one.

The famed Yankee batting power really exerted itself in the final game, leading eight Redleg pitchers for 15 hits. Reserve catcher John Blanchard, filling in for outfielder Yogi Berra, paced the awesome offensive attack by hammering a home run, single, double, and walking twice.

Another Bronx Bomber reserve, Hector Lopez, added a triple and home run to the onslaught. All the Cincinnati runs came on round trippers by Frank Robinson and Wally Pate.

### Big First Inning

The new world champions were a little less getting to Red starter Joey Jay, who had beaten them in the second game of the series, 6 - 2. In the first inning, the Yankees shelled the star right-hander for two singles, two doubles, a triple, and Blanchard's home run. This gave New York a 5-0 lead.

The Yankees stretched their edge to 6-0 before Robinson unloaded a three-run shot into the right-center field seats.

New York quickly bounced back to extend their lead to 11-1 before Post delivered his two-run clout. That ended the Redlegs' scoring for the day, but the Yankees picked up two more tallies for the final 13-5 decision.

Again Ralph Terry failed in his attempt to gather a World Series victory, as reliever Bud Daley got the win. Terry and Daley gave up 11 hits, but they had more than enough hitting support to win.

# Only Three Hill Foes Unbeaten

By DAVE DEAN  
Associate Editor

Notre Dame and Nebraska joined the Terrapins of Maryland as the only remaining undefeated Hill foes Saturday, as four other opponents gained their initial wins of the season.

The Fighting Irish won their second straight, topping Purdue in the final period by a narrow two-point margin, while Nebraska raised its mark to 2-0-1 with a 24-0 shutout win over Kansas State.

Colgate, West Virginia, Holy Cross and Ohio State all posted one-sided decisions for their first wins of the current campaign.

### Everybody Wins

With these four teams on the winning post, all ten of the 1961 Syracuse opponents have at least one win to their credit.

In other weekend action, Pittsburgh and Boston College both lost in inter-sectional contests, while Penn State overwhelmed Boston University for its second win of the season.

Notre Dame won its decision on a 28-yard field goal by senior fullback Joe Perkowski with 12 minutes left in the game. The field goal was necessitated when the Irish, behind by one point, failed in a pass for a two-point conversion in the third period.

### Sophomore Sensation

The Cornhuskers of Nebraska uncovered a new sophomore sensation in right halfback Willie Floss, who scored three times and gained 103 yards in 10 carries to lead his team to a 21-0 win over previously undefeated Kansas State. Floss scored on runs of one, 17 and 51 yards.

Ross' running mate, junior Bill Thornton, added 100 yards in 14 carries and senior quarterback Ron Meade added three extra points and a field goal.

On the West Coast, Oregon State and Terry Baker finally came into their own, as the Beavers won their first of the season, 44-0 over Idaho. Baker, an all-America quarterback prospect, passed for two touchdowns and scored one himself.

# Numerous Injuries, Loss Of Easterly Hurt Orange

By MILT JOFFE  
Junior Editor

"We're gonna shake the bush a little," said Ben Schwartzwalder after reviewing the list of injuries as the result of Saturday's loss to Maryland.

Speaking at Monday's football luncheon at the Hotel Syracuse, Schwartzwalder called the loss of captain Dick Easterly "nothing less than a catastrophe."

Easterly was hurt in the fourth quarter of the Maryland game. He suffered a broken bone in the middle of his left hand. He should be out for three weeks.

Center Bob Stem is hoisting on a badly injured right knee. The Maryland heat loosened the bandages around the injured knee and fluid got into the joint. Stem will miss contact this week

but may be ready to start against Nebraska Saturday.

Schwartzwalder praised Stem's play against Maryland. "Stemmie played a good game and gave 100 per cent, but he paid for it," said the coach.

Other injuries will keep tackle George Frankovitch and end John Mackey out of contact drills for most of the week. Frankovitch injured his leg while Mackey suffered a shoulder injury. Guard Dave Meggsey also injured his shoulder.

Lineup changes  
In the light of these injuries Schwartzwalder started this week's drills with some lineup changes planned. Although they are subject to much revision by game time Saturday, at present the lineup is something like the following:

"Talt Sweeney will remain at left end with Ken Ericson behind him. Inside tackle will be Dick Fiedler backed up by Jim Marchak. For the time being John Brown will be moved to second string outside tackle with sophomore John Paglio moving up.

Jim Mazurek, another sophomore, will be given the chance at right guard with Tom Mingo a possible starter at right end.

Backfield Shifts  
The backfield will be Sarette, Davis, Brokaw and Schoenover. Gary Fallon will be shifted to second unit left halfback with John Humphreys at second unit right half. Ed Conti moves up to second fullback slot.

Schwartzwalder was pleased with the performance of Mingo, Paglio and Schoenover who all "gave 100 per cent effort."

The Nebraska team is big, fast and unbeaten. And they also have the advantage of better physical strength as compared to the mass of Syracuse injuries.

The Maryland game carried two Orange backs closer to records. Davis scored his 25th career touchdown, tying him with Jim Brown. Sarette needs two touchdowns to top Pat Stark's career record of 19 playoff pitches.

## Two Daileys On Squad

Syracuse University has two Daileys involved in its football program this fall. Ted is the SU defensive line coach and his son, Jack is a sophomore quarterback.

# ALL in the GAME

By KEN DARLING  
Daily Orange Sports Editor

IT'S IMPOSSIBLE to make a great team out of a good one. Over 35,000 people in Maryland's Byrd Stadium were made aware of this fact last Saturday.

The Syracuse Orangemen, 1961 version, are a good team. They played what was probably their best game of the season to date against the Terrapins. But their effort wasn't good enough.

This year's Hill team is not a great one. The 1959 team was. That national champion squad, despite the horde of smashed records, the unbeaten season, the thrilling Cotton Bowl triumph, and the widespread publicity, apparently did more harm than good for the Syracuse athletic picture.

Ben Schwartzwalder, in 1959, was able to produce a football machine that may have been the greatest in the history of college football. And since that time both he and Syracuse have been haunted by that machine.

Last year Ben had another fine team. But it didn't set as many records, it lost two games out of nine, and it didn't make a bowl appearance. Football fans, both on the Hill and around the country, were disappointed. This year they looked for a "comeback."

Things have reached a pretty sorry state when a comeback is necessary after a 7-2 season. But Hill fans seem to be hard to satisfy since 1959.

Syracuse football seems to be suffering from growing pains. More precisely, it's Syracuse fans who are suffering. The players and coaches, no doubt, can take setbacks on the gridiron much better than many of their followers.

The trouble with Orange returns is that their team was sprung into national prominence too quickly. True, the Hillmen enjoyed a taste of glory in the days of Jimmy Brown when they invaded the top ten. But 1959 marked the real arrival of Syracuse football in the "big time."

As soon as that one in a lifetime season ended, the fans began speculating about how long the Hill fans could continue their mastery of the nation's gridirons. Would Syracuse become a football dynasty to rival those of the past—like Notre Dame and Oklahoma?

But when it became apparent that 1959 could not be repeated, that no dynasty was in the making, the Hill fans were quick to express their disappointment. Immediately they began looking for the reasons for their team's "downfall." A year before Ben Schwartzwalder, the coach of the year, had been nationally acclaimed and in Syracuse he was a hero.

But 12 short months later his strategies were freely criticized by armchair quarterbacks all over Onondaga County.

After Pittsburgh had first shattered the victory bubble in a dismal Archibald Stadium last October, the fans began searching for a reason why the mighty Orangemen had fallen. No doubt the same thing will happen now that the Hill squad's chances for an undefeated season this year have been destroyed.

What happened at College Park Saturday is obvious. Two top-notch college football teams met in a bruising battle, and the better team won. There is no reason to wonder what happened to the Orangemen—they gave an all-out effort but were edged by a single point. It's certainly no disgrace to bow to a team as fine as the Terrapins by so thin a margin.

There are many reasons why probably no Syracuse team will ever be able to match the records established by the 1959 outfit. One of the major ones is the fact that a group of gentlemen known as the "sizeable seven" doesn't come along every year.

# VICEROY'S Big College Football Contests

IT'S EASY! Just pick the ten winning teams, predict the scores—and you're in the money!

**FLASH!** ONLY STUDENTS ON THIS CAMPUS ARE ELIGIBLE!  
**SECOND CONTEST OCTOBER 21<sup>ST</sup>**

All you have to do is clip the coupon, pick the winners and predict the scores—then figure out how you're going to spend that hundred bucks! It's easy . . . just clip the coupon below or get an entry blank where you buy cigarettes and fill in your predictions of the ten game scores. Then mail it with an empty Viceroys package or a reasonable rendition of the Viceroys name as it appears on the package front to Viceroys at the Box Number on the entry blank or drop it in the ballot box conveniently located on the campus.

Open only to students and faculty members. Enter as many times as you want. Simply send an empty Viceroys package or reasonable rendition of the Viceroys name with each entry.

Entries must be postmarked or dropped in the ballot box no later than the Wednesday midnight before the games and received by noon Friday of the same week. Next contest will be on games of November 4—when you'll have another chance to win.

**LOOK!**  
**HERE ARE ALL THE PRIZES YOU CAN WIN!**

**1st PRIZE \$100**

**2nd PRIZE \$50**

**3rd PRIZE \$25**

**PLUS**

**20 OTHER PRIZES OF \$10.00 EACH**

And a free carton of Viceroys to every contestant who names all ten winning teams—REGARDLESS OF THE SCORES!

**DON'T SMOKE ANOTHER CIGARETTE, UNTIL YOU LEARN WHAT VICEROY'S Deep Weave Filter CAN DO FOR YOUR TASTE!**

It can do plenty. Here's why: The Viceroys filter starts with pure, safe vegetable material, made into the same straight fiber strands as most good filters.

But here's the twist: Viceroys weaves those tiny strands into the special Deep-Weave Filter . . . and that's the filter you can trust to give you the good taste of Viceroys's rich tobacco blend. The fact is . . .

Only Viceroys's Got It . . . At Both Ends! Got The Filter . . . Got The Blend!

\*Reg. U.S. Patent Office

**HERE ARE THE CONTEST RULES—READ 'EM AND WIN!**

1. Any student or faculty member on this campus may enter and so may an official of Brown & Williamson, its advertising agencies, or members of their immediate families. All entries become the property of Brown & Williamson and will be returned. Winners' names may be published in this newspaper. Your entry number or initials may be printed on this entry if you wish. Entries must be postmarked or dropped in the ballot box no later than the Wednesday midnight before the games are played and received by noon Friday of the same week. The right in determining future contests is reserved.

2. Entries must be in contestant's own name. On the coupon in this ad or on an Official Entry Blank or piece of paper of the same size and format, write your prediction of the scores of the games and check the winners. Enclose an empty Viceroys package or a reasonable rendition of the Viceroys name as it appears on the package front. Mail only to Viceroys at the Box Number on the entry blank or drop in Viceroys Football Contest Ballot Box on campus.

3. Entries will be judged by the Random N. Doreyberg Corp. on the basis of number of winners correctly predicted. Prizes will be broken on the basis of scores predicted. Duplicate prizes awarded if tie score of final rank.

4. Winners are eligible for any prize in subsequent contests.

(Attach Viceroys package or facsimile here)

acia, Alpha Epsilon Phi, Alpha Epsilon Pi, Beta Sigma Theta, Delta Delta Delta, Delta Upsilon, Iota Alpha Pi, Kappa Sigma, Psi Beta Phi, Phi Gamma Delta, Psi Upsilon, Sigma Alpha Epsilon, Sigma Kappa, Tau Epsilon Phi, Zeta Beta Tau and the two new houses, Doka and ZTA.

At least two other houses, one presently in US, are now considering CAP membership.

US President Ellis Gaskell told the Daily Orange he considered CAP's plan for freshman representation "noble in its aims." He said US would discuss such a plan at its meeting tonight. "However," Gaskell said, "the decision to implement such a plan will be the party's, not mine."

## DO STAFFERS MEET THURSDAY

There will be a staff meeting of the Daily Orange at 5 p.m. Thursday in the Helbow, room 7. Editor-in-Chief Sam Giroux announced Monday. All editorial staffers are required to attend.

## Commuters To Request JSL Standing

The newly formed Commuting Students' Association of Syracuse University, in this year's first meeting, Friday night, planned JSL representation, lockers for books and lunches, and intramural activities with campus groups.

A commuters' lounge with more readily available facilities than the present one in the Women's Building was also discussed.

The group plans not only to provide adequate representation for commuters, but emphasizes "strengthening commuter-campus relations" explained CSA-SU president Stephen Marshall. So that commuters "will be able to meet more campus students, all social affairs are open to commuters."

## Pinebrook Convo Gives Syracusans New Student Voice

(Continued from Page 1)

will be completely implemented and enforced by students.

Academics were affected by three resolutions: One resolved that final exams the day after classes ended be abolished. Another will request professors to respect the regulation prohibiting part of a final exam during the last week of classes. The third provides for a re-evaluation of the block examination system which prevents students from taking certain combinations of courses.

Other resolutions call for a student government section in the Orange Guide, a JSL-sponsored activities handbook, a committee to investigate the construction of a Student Union, and apprenticeship counselors in Freshmen dorms.

Also called for was stronger International Student Organization participation in JSL, periodic reports on university personnel services and a codification of all laws previously passed by JSL.

Resolutions calling for Syracuse's reaffiliation with the National Students Association and "Who's Who in American Colleges and Universities" were both tabled and sent to the JSL, Local and National Affairs Committee.

## Newman Talks To Young Democrats

(Continued from Page 1)

the Republican administration. He added, "The Republican Party is not a friend of the University." According to Norman, the Republican Party does not stress "youth ideas, influence and enthusiasm," which, he said, the Democrats are "open to, have and want more of."

## J-Fellowship To Meet Today

There is a meeting of the Fellowship of Religious Journalists (FRJ) at 8 p.m. today at 2256 Stratford St.

The program includes a group interview with Prof. Robert S. Laubach of the School of Journalism. Laubach, son of famous Stetson expert, Dr. Frank C. Laubach will discuss his work in the religious journalism field.

All interested journalism students are invited to attend the meeting.

## Prof. Relates Government To Economy

(Continued from Page 1)

historical standpoint, we can see a vast increase in specialization," Burkhed pointed out. "This increased specialization leads to greater interdependence among groups and individuals," he went on.

More Facilities

"This in turn leads to a greater need for increased highway, communication and educational facilities," he said. He also noted that in periods of great economic expansion governmental influence also tends to become greater.

This governmental influence presents a two sided story according to Burkhed. "Each individual seems to lose some degree of personal freedom with each unit of taxation," he remarked.

"But this apparent loss is more than made up by those given more freedom by government expenditure, such as those at the bottom of the economic scale receiving economic aid in the form of public housing and slum clearance," he went on.

Prevent Inflation

The function of government is to stabilize the economy by preventing inflation and depression, influence income distribution and provide goods and services, according to Burkhed.

"Groups must get together and by means of the vote campaign for either greater or less governmental control and services," he said. "We as voters must decide the relative benefits of the various choices available and select those which in our opinion will provide the most freedom to the greatest number of persons," he went on.

"We can expect this conflict to continue in the future and even become a more dominant characteristic of our democratic form of government," he concluded.

## Judaism Classes Begin

A series of six lecture-discussions on "Judaism in Theory and Practice" will begin at 4 p.m. today in Storm 'C' Chapel House. No advanced registration is required.

## Flint Ladies' Day Starts Tomorrow

"Ladies' Day at Flint Hall will begin Wednesday night at 6 p.m. Only coats will be permitted to relax in the main lounge and in the recreation room on Wednesday evening," according to Director Miss Estive Weinstein.

Flint Hall is inaugurating this program as a result of many requests from Flint residents last year an dthis semester.

The head residents in Flint, in order to kick - off the new program, will provide refreshments and recorded classical music in the main lounge this Wednesday evening.

This proposal received a "very favorable" reaction at the meeting of the Flint Assembly, Thursday, October 5.

Men may call for their dates in the lobby, but may not remain in lounges.

"Most of our male guests seem to have mistaken Flint Hall, a women's dormitory, for a student union," reports Miss Weinstein. "More than 500 women reside at Flint, and they have requested one night on which they may dress informally and enjoy the main lounges."

"We are very happy to entertain the friends on Flint girls, but we do ask them to act in accord with the house rules," explains the director.

## Ed School Asks Sophs to Apply

All sophomores interested in teaching as a professional career must apply and be accepted by the School of Education, this year. It is necessary to complete this application in order to fulfill the required program of preparation within the four year period.

School of Education announced the following dates for application of second semester sophomores. These sophomores must apply during October 9-October 18.

First semester sophomores will be able to register during November 27-December 15. These applications will be processed and decisions made before the pre-registrat' as period of Spring semester.

**the SOCIAL SCENE with Larry & Bob!**

We've noted that the reaction to our first column from the socially-minded students has now subsided enough for us to go ahead with our latest masterpiece. In spite of your many letters and phone calls, we plan to write the column anyway. Many social chairmen now have our column sewed in the lining of their Harris Tweed jackets and for that social lift—folded in the beet of their smokers.

Uriah Freemastap suggested that we have a column on the orgy and he was supported by all his friends from Greece and Rome N.Y. Herbert Almost threw in a Full Out Party in honor of Fall. Olga Benford suggested a Guy Fawkes Party and couples would blow up Fire-Fab 85 instead of Parliament. From all of these perverse suggestions, we decided to use our own perverse suggestions that will set your fancy free and make your soul gleefully leap through our proposed pastoral setting.

By now, everyone is jumping up and down and rubbing their hands together in wild anticipation of this week's party idea—and here it is. A HEAVEN and HELL Party!

The Dante Alighieri and John Milton themselves will be glad to open the doors to an evening that will be as fabulous as Paradise's Divine Comedy Lost. And now, the makin's! Your party should have two separate rooms for the opposing environments. Firstly, Heaven. Fiberglass cotton clouds, blue wall sheets painted with clouds and cherubs, blue lights and blue and white crepe join to create the perfect heaven. Your heavenly decorations can be picked up at Jean's Decorations, 321 S. Clinton St. The soft music of Johnny Mathis' "Heavenly" (a glee leaper himself) gives your guests no doubt that they're really there. When not dancing, sit down on soft pillows and enjoy Angel Food cake, Nectar (apricot), and cream puffs. Heaven will probably be so enjoyable that no one will want to leave, but leave they must, because Heaven closes at 10:30 sharp (Union Help).

Cue: Enter Devil. (Some one without a date in that familiar, red costume).

In he comes and leads everyone down, down, down, through molten rock and flaming crags, through burning, searing light, into Hades. Or, just walk across the hall and beat him there. Now you've reached the hot spot of the evening.

You enter Hell happy to find that all your friends are there, just as you suspected. It's a smoky (dry ice), red room decorated by red walls, a red crepe ceiling, red lights, ultraviolet light (makes your teeth and eyes shine), red, yellow, and orange streamers blowing upward to give the effect of fire and a red hot Rock 'n Roll band supplied by hill music associates. When you're tired of dancing you can sit down on hard chairs and eat Red Hot (candy), Devil's eggs, Devils Food Cookies, Apple Cider, and red tomato juice with a dash of Tobasco. Now wasn't Heaven wonderful?? Upon receiving an overwhelming number of requests, Heaven reopens and those five people go over, including the Devil.

The evening is almost over and all your happy guests line up for their favors—Hades—soft plush peedles from Dor's Discount House, 641 S. State St. In Hades—large match books with crests on them from Ruth's Gifts on campus.

We want to let you in on a couple of great party discoveries that we came across last week. First, there's a new organization on campus, hill music associates, which is a central booking agency for the swingingest bands you could ever hope for. And second is "S. State Street, that great street. We just want to say, half a dozen of our advertisers, do business down that way!"

See you swingers—in two weeks!

# Frosh Entry

(Continued from Page 1)  
 acia, Alpha Epsilon Phi, Alpha Epsilon Pi, Beta Sigma Rho, Delta Delta Delta, Delta Upsilon, Iota Alpha Pi, Kappa Sigma, Pi Beta Phi, Phi Gamma Delta, Psi Upsilon, Sigma Alpha Epsilon, Sigma Kappa, Tau Epsilon Phi, Zeta Beta Tau and the two new houses, Döke and ZTA.

At least two other houses, one presently in US, are now considering CAP membership.

US President Ellis Gaskell said the Daily Orange he considered CAP's plan for freshman representation "noble in its aims." He said US would discuss such a plan at its meeting tonight. "However," Gaskell said, "the decision to implement such a plan will be the party's, not mine."

## DO STAFFERS MEET THURSDAY

There will be a staff meeting of the Daily Orange at 5 p.m. Thursday in the H-Box, pre-fab 7, Editor-in-Chief Sam Giroux announced Monday.

All editorial staffers are required to attend.

## Commuters To Request JSL Standing

The newly formed Commuting Students' Association of Syracuse University, in this year's first meeting, Friday night planned JSL representation, lockers for books and lunches, and intramural activities with campus groups.

A commuters' lounge with more readily available facilities than the present one in the Women's Building was also discussed.

The group plans not only to provide adequate representation for commuters, but emphasizes "strengthening commuter-campus relations" explained CSA-SU president Stephen Marshall. So that commuters "will be able to meet more campus students, all social affairs are open to commuters.

## Pinebrook Convo Gives Syracusans New Student Voice

(Continued from Page 1)  
 will be completely implemented and enforced by students.

Academics were affected by three resolutions: One resolved that final exams the day after classes ended be abolished. Another will request professors to respect the regulation prohibiting part of a final exam during the last week of classes. The third provides for a re-evaluation of the block examination system which prevents students from taking certain combinations of courses.

Other resolutions call for a student government action in the Orange Guide, a JSL-sponsored activities handbook, a committee to investigate the construction of a Student Union, and upperclass councilors in Freshmen dorms.

Also called for was stronger International Student Organization participation in JSL, periodic reports on university personnel services and a codification of sex laws previously passed by JSL.

Resolutions calling for Syracuse's affiliation with the National Students Association and "Who's Who in American Colleges and Universities" were both tabled and sent to the JSL Local and National Affairs Committee.

## Newman Talks To Young Democrats

(Continued from Page 1)  
 the Republican administration. He added, "The Republican Party is not a friend of the University." According to Norman, the Republican Party does not stress "youth ideas, influence and enthusiasm," which, he said, the Democrats are "open to, have, and want more of."

## J-Fellowship To Meet Today

There is a meeting of the Fellowship of Religious Journalists (FORJ) at 8 p.m. today at 226 Skatford St.

The program includes a group interview with Prof. Robert S. Leubach of the School of Journalism. Leubach, son of famous Stacey expert, Dr. Frank C. Leubach will discuss his work in the religious journalism field.

All interested journalism students are invited to attend the meeting.

## Prof. Relates Government To Economy

(Continued from Page 1)  
 historical standpoint, we can see a vast increase in specialization," Burkhead pointed out. "This increased specialization leads to greater interdependence among groups and individuals," he went on.

More Facilities  
 "This in turn leads to a great need for increased housing, recreation and educational facilities," he said. He also noted that in periods of great economic expansion governmental influence also tends to become greater.

This governmental influence presents a two sided story according to Burkhead. "Each individual seems to lose some degree of personal freedom with each unit of taxation," he remarked.

"But this apparent loss is more than made up by those given more freedom by government expenditure, such as those at the bottom of the economic scale receiving economic aid in the form of public housing and slum clearance," he went on.

Prevent Inflation  
 The function of government is to stabilize the economy by preventing inflation and depression, influence income distribution and provide goods and services, according to Burkhead.

"Groups must get together and by means of the vote campaign for either greater or less governmental control and services," he said. "We as voters must decide the relative benefits of the various choices available and select those which in our opinion will provide the most freedom to the greatest number of persons," he went on.

"We can expect this conflict to continue in the future and even become a more dominant characteristic of our democratic form of government," he concluded.

## Judaism Classes Begin

A series of six lecture-discussions on "Judaism in Theory and Practice" will begin at 4 p.m. today, in Room "C" Chapel House. No advanced registration is required.

## Flint Ladies' Day Starts Tomorrow

"Ladies' Day at Flint Hall will begin Wednesday night at 6 p.m. Only coeds will be permitted to relax in the main lounge and in the recreation room on Wednesday evenings," according to Director Miss Esthler Weinstein.

Flint Hall is inaugurating this program as a result of many requests from Flint residents; just prior an althi semester.

The head residents in Flint, in order to kick-off the new program, will provide refreshments and recorded classical music in the main lounge this Wednesday evening.

This proposal received a "very favorable" reaction at the meeting of the Flint Assembly, Thursday, October 5.

Men may call for their dates in the lobby, but may not remain in lounges.

"Most of our male guests seem to have mistaken Flint Hall, a women's dormitory, for a student union," reports Miss Weinstein. "More than 500 women reside at Flint, and they have requested one night on which they may dress informally and enjoy the lounge."

"We are very happy to entertain the many friends on Flint girls, but we do ask them to act in accord with the house rules," explains the director.

## Ed School Asks Sophs to Apply

All sophomores interested in teaching as a professional career must apply and be accepted by the School of Education, this year. It is necessary to complete this application in order to fulfill the required program of preparation within the four year period.

School of Education announced the following dates for application of second semester sophomores. These sophomores must apply during October 9-October 18.

First semester sophomores will be able to register during November 27-December 15. These applications will be processed and decisions made before the pre-registrat as period of Spring semester.

## SNAP COURSE

No, we don't mean Girl Watching 2.

Our subject is Money, The Smooth Path To Easy Management Of.

If you're bugged by the tiresome task of keeping tabs on your dough, take heart. Forget mnemonics. It won't help.

But Midland Economy checks will. They'll put you and your cash on a smooth financial course. Like real easy!

Money management is a SNAP course with a Midland Economy checking account. Come into our University Office (just two blocks from campus) and open yours now.

**the SOCIAL SCENE with Larry & Bob**

We've noted that the reaction to our first column from the socially-minded students has now subsided enough for us to go ahead with our latest masterpiece. In spite of your many letters and phone calls, we plan to write the column anyhow. Many social chairmen now have our column saved in the lining of their Harris Tweed jackets and for that social lift—folded in the heel of their sneakers.

Uriah Freemastap suggested that we have a column on the orgy and he was supported by all his friends from Greece and Rome N.Y. Herbert Olmost threw in a Fall Out Party in honor of Fall, Olga Bendover suggested a Guy Fawkes Party and couples would blow up Fire-Fab 80 instead of Parliament. From all of these perverse suggestions, we decided to use our own perverse suggestion that will set your fancy free and make your soul gleefully leap through our proposed pastoral setting.

By now, everyone is jumping up and down and rubbing their hands together in wild anticipation of this week's party idea—and here it is. A HEAVEN and HELL Party!

Dante Alighieri and John Milton themselves will be glad to open the doors to an evening that will be as famous as Paradise's Divine Comedy Lost. And now, the makin's! Your party should have two separate rooms for the opposing environments. Firstly, Heaven. Fiberglass cotton clouds, blue wall sheets painted with clouds and cherubs, blue lights and blue and white crepe jois to create the perfect heaven. Your heavenly decorations can be picked up at Jean's Decorations, 321 S. Clinton St. The soft music of Johnny Mathis's "Heavenly" (a glee leaper himself) gives your guests no doubt that they're really there. When not dancing, sit down on soft pillows and enjoy Angel Food cake, Nectar (apricot), and cream sundaes. Heavens will probably be so enjoyable that no one will want to leave, but leave they must, because Heaven closes at 10:30 sharp (Union Help).

Cue: Enter Devil. (Some one without a date in that familiar, red costume).

In he comes and leads everyone down, down, down, through molten rock and flaming crags, through burning, searing light, into Hades. Or, just walk across the hall and beat him there. Now you've reached the hot spot of the evening.

You enter Hell happy to find that all your friends are there, just as you suspected. It's a smoky (dry ice), red room decorated by red walls, a red crepe ceiling, red lights, ultraviolet light (makes your teeth and eyes shine), red, yellow, and orange streamers blowing upward to give the effect of fire and a red hot Rock 'n Roll band supplied by hill music associates. When you're tired of dancing you can sit down on hard chairs and eat Red Hots (candy), Devilish eggs, Devils Food Cookies, Apple Cider, and red tomato juice with a dash of Tobacco. Now wasn't Heaven wonderful?? Upon receiving an overwhelming number of requests, Heaven reopens and those five people go over, including the Devil.

The evening is almost over and all your happy guests line up for their favors. In Heaven—soft plush poodles from Dor's Discount House, 641 S. State St. In Hades—large match books with crests on them from Ruth's Gifts on campus.

We want to let you in on a couple of great party discoveries that we came across last week. First, there's a new organization on campus, hill music associates, which is a central booking agency for the swiftest bands you could ever hope for. And second is "S. State Street, that great street. We just want to say, half a dozen of our advertisers, do business down that way!"

See you swingers—in two weeks!

# Gaskell Remains US Party Head

By **JOYCE HERGENHIAN**  
 Ellys Gaskell will continue as president of the United Students party until after the freshman elections and possibly through the spring semester.

This decision, announced at Tuesday night's first US meeting, is contrary to Gaskell's previously stated plan to submit his resignation at the meeting.

Citing the "rough campaign ahead" as the reason for his change of heart, Gaskell said he thought it "in the best interests of the party if I stay in office at least until after the November 1 freshmen elections."

US Vice President Ken Norwick did resign, however. He said his position as Daily Orange columnist and reporter might cause a conflict of interest and he thought it best to resign his party post.

**Committee Named**  
 A seven-member committee was appointed to nominate Norwick's successor. Committee members include Kent Barwick, Judd Epstein, Harry Devlin, Alan Millstein, Tom Cullins, Harris Dulany and Susan Rosenberg. In other business, the party announced a coffee will be held from 8:30-5 p.m. Tuesday in the Hendricks Chapel Lounge for all freshmen interested in running for class office and working on the campaign.

Party representatives will explain the responsibility of running for and holding class office and to informally interview prospective nominees.

Plans for the US nominating convention are still indefinite. The convention will be held Thursday, Oct. 19, probably in Maxwell Auditorium, but the question of freshmen representation remains unsettled.

The party decided not to adopt the Campus Alliance party plan of admitting representatives from each freshman living center, but agreed it was important to have some Class of 1967 representation.  
 (Continued on Page 7)

## JSL Names Committees For This Year

New members of the five standing committees of Joint Student Legislature were announced Tuesday by JSL Speaker Brian Fitzgerald.

Members of the Student Conduct and Welfare Committee are: Joel Laskans, Theodore Baer, Lolita Bergs, Jack Bottwell, Roberta Clark, Jane Drexlin, Henry Ippolito, Lee Jacobs, Ann Johnson, Richard Kram, Fred Lewis, James Morris, Jeanne Ranov, Bruce Roswig, Phyllis Truran and Carol Wurtiner.

The Organizations Committee consists of: Rosalie Abbot, Anita Bernstein, Marilyn Creel, Carol Fessinger, James Gray, Bonnie Holland and Marian Jordan.

Also Victoria Knapp, Michele Landes, Carol Lucia, Ellen Jay Schiader, Richard Sherman, Sigmund Sugarman and Marlene Swaske.

On the committee for Local and National Affairs are: Christine Anderson, Herbert Becker, Michael Boardman, Carl Corallo, Lynn Fabian, Joyce Gillan, Jo-Jo Gelsimino, Sandy Hancock, Esther Holridge, Jay Litvin, Russeta Madison, Edward Moseley and Jean Plopper.

Also, Stan Earl, Anthony Sheikler and Alice Tait.

Lined for the Ways and Means Committee are: Steven Burick, Sam Chadwick, Lawrence Hoek, Fredrick Hoffman, Kathy Kapur, Connie Kelley and Susan Packer.

## 100 Trophies Left On Front Porch Of DPhiE

Stolen Trophies Now In Security Police Office: Building 19

One of the biggest pranks on this campus came to an end yesterday morning on the steps of Delta Phi Epsilon sorority. Someone had returned over 100 trophies, plaques, cups and composites taken from various Greek Houses last year.

Alpha Chi Rho had the biggest number of trophies returned, about 20. Psi Upsilon ran second with 18, Delta Tau Delta, third with five trophies and two plaques.

The trophies had been awarded for everything from athletic achievement and step singing to academic excellence and "gracious living."

**Housemother Called**  
 Security Police safety director Charles H. Morgan said someone called Mrs. Helen Brereton, the house-mother of Delta Phi Epsilon about 2:00 this morning and told her to look on the front porch. Mrs. Brereton, after looking on the porch, called Security and asked them to come over and pick up the booty.

Delta Tau Delta chapter president Kenneth H. Murphy and Alpha Chi Rho social chairman Alan Sneider agreed that the thefts had caused them some worry but they were quite relieved to get the trophies back. Both men thought that it was some sort of prank and not a criminal matter.

John Stopher, a sophomore in Delta Tau Delta, said the thefts took place in the spring during the week of final exams. He explained that the pressures of examinations probably caused the thefts to go unnoticed until it was too late to track down the thief. Stopher also said that summer vacation had caused some confusion as to exactly how many trophies had been taken and that

# 'Committees Hide Individual': Taylor

By **JIM WELLER**

"The student has been lost in a complex of factors in which the teacher cannot know the student and in which the personal element has disappeared," said Dr. Harold Taylor at the first Citizenship lecture of the year in Hendricks Chapel Tuesday night.

## Frosh Gather And Threaten Election Changes

An impending break between the Freshman class and the existing campus parties, CAP and US, was imminent last night as representatives from Freshman living centers gathered to discuss the proposed break in DellPlain Dormitory.

However, a final decision will not be reached until 6:00 p.m. Monday when the Freshmen will meet with representatives of CAP and US. A meeting has also been scheduled for 2:00 p.m. Sunday in the DellPlain Lounge for all presidents of freshman dormitory floors and cottages to decide the course of action that will be followed.

Robert Stern, Ierh Stone and Al Heifetz, presidents of various floors on DellPlain, organized last night's meeting because they felt that they did not know enough about the existing campus parties. They also felt that the people selected by the parties would not necessarily be the candidates the Freshman class would select. Stone commented the "we don't want to exert any pressure on anyone, we just want a free election with freshmen voting for candidates selected by the freshman class and not the upperclassmen who run the CAP and US."

Ellis Gaskill, president of the United Students party, asked the gathering why they thought that

## Penn Bus Tax Sale Thursday, Friday

Round-trip bus tickets will be on sale between 11 a.m. and 6 p.m. Thursday and Friday in the basement of Slocum Hall for those wishing to go to University Park, Pa. for the Syracuse-Pennsylvania University football game Saturday, Oct. 21. Tickets are 10 dollars per person and 18 dollars per couple. Sold by members of the senior class executive council, the tickets will be available only at these times.  
 Susan Bailey, senior class vice president emphasized that "these bus tickets do not include admission to the game. They only provide transportation to and from the game."  
 Each bus will seat forty students and, as many buses as necessary will be used. Buses will leave campus at 6 a.m. Saturday and return from University Park at 6:30 p.m. Saturday and 2 a.m. Sunday.  
 Coeds returning on the later buses will sign out for overnight permissions.  
 Students must specify the bus on which they will return when buying their tickets.

Dr. Taylor emphasized that American society today consists of a labyrinth of organizations in which "individuals hide behind the anonymity of committees," Taylor pointed out that this weakness in our society has invaded the university with the effect that many professors are more concerned with publishing their research than teaching the student.

He said the highest reward for such professors is to be able to claim the distinction that no university can hire him because the price of his knowledge can only be purchased by the largest organization.

The irresponsibility of the majority of U.S. college students in failing to face up to the problems which affect the contemporary life of all human beings was stressed by Dr. Taylor. This apathy, he said, can be explained by the fact that the youth of America is presented with a diet that embraces things that greater men have long since dismissed. He cited as an example of this the testimony of Mr. Haverston of the Proctor and Gamble soap company who said "We believe that it is fitting that the character of our national dramas should reflect the situation of the world. However, our writers try to play down the horror aspect. We try to present material which will not offend any lodged minority group."

Such ideas, said Dr. Taylor, cause the average adolescent to be uncertain as to what values he should hold and what course of action he should follow for this problem, according to Dr. Taylor, is for the individual student to remove himself from the turmoils of daily life and consider what is valuable to him personally, and also to consider the value of what he holds to be his guideposts in life. After this consideration, the student should act on his convictions regardless of the opinions of the majority.

Taylor then cited examples comparing the few students who have found the correct channels for their efforts to the majority who have a perverse attitude toward the true values of life and things in life. He compared the actions of some 400 students in Washington last Easter who helped frame the policies of the Peace Corps to the 40,000 students who rioted in Fort Lauderdale last spring.

Taylor also cited the bravery

## ID PHOTOS SATURDAY IN GYM

ID photographs will be taken between 9 a.m. and noon Saturday in the Trophy Room of the Men's Gym. All students who have not already had their pictures taken should report to the Gym. ID cards and football tickets will also be distributed to those students who have not already picked them up.

# SU Continues Construction; Many New Buildings Planned

The building boom is continuing at Syracuse University, with dozens of new buildings under construction in various stages of progress.

The long-awaited opening of the Huntington B. Crouse classroom building is slated for November. The new building in back of the Hall of Languages has cost the University about \$1 million to build.

Meanwhile, the much-publicized George I. Manley Field House is expected to be ready for use late this winter. There will also be two new playing fields to complete the Field House Complex. These will be constructed under the supervision of SU architect Noredd Rotunno. Construction of three men's dormitories is now also under way. One is a 132-man, three-story unit at Skyton. The other

two living centers will house about 440 men and will have dining rooms for 400 people. They will be located in the northeast sector of the campus and are expected to be finished by 1963.

**New Construction**  
 The first step of any new construction is taken by the Buildings and Grounds Department. Buildings and Grounds is responsible for the demolition of old structures. Thirteen thousand dollars has been allocated for razing of old buildings that are on grounds where new structures will be erected.

Renovation of existing structures or portions of buildings is a major expenditure. This year an additional \$50,000 was added to the Buildings and Grounds budget for the refurbishing of all dorms and living centers.

During the summer, when major repairs are done, \$12,000-

13,000 was spent redecorating Watson and Marion dormitories. Newhouse Communications Center

By spring, construction of the first building of the multi-million dollar Newhouse Communications Center will be underway. Demolition of three women's cottages will be completed by the end of November and the site cleared for the center.

There is also extensive building of various science research centers. By next year, the Biological Research Center will be occupied. This building is being constructed in the back of Sims Hall near the entrance of the campus. Funds have already been allocated for the construction of a Zoological Research Center, and another \$20,000 is being spent for an Organic Research Laboratory in Bowne Hall.

This year's University budget

## In Queens

Earlier this week the president of Queens College in New York City refused to permit Benjamin J. Davis, national secretary of the Communist party, to speak on the college campus. He had been invited to speak by the college's Marxist Discussion Club and his invitation was withdrawn by President Harold W. Stoke because of the state of national affairs and "pertinent" decisions of the Supreme Court concerning the party's position in America. Stoke later admitted that protests from some city organizations and civic groups were influential in his making the decision.

No matter what the president's reasons were, his decision was a poor and dangerous one that deracinates civil liberties and makes a mockery of all the principles upon which an institution of higher learning should be dedicated. It is unfortunate that a school with the reputation of Queens College should so easily be victimized by so called civic leaders who would destroy America by their over zealous attempts at saving her. To those people salvation is equivocal with the enervation of the liberties and principles that make America distinct from totalitarian states. It is not necessarily what Davis had to say that is important. It is, rather, the denial of his right to say them that is dangerous. It is especially sad that a college, whose business should be the competition and discussion of ideas, so willingly discards its function as intellectual leader of the community and hands it over to pressure groups.

People who live in dark corners and are afraid of confronting those forces that oppose them, should stay in their corners and leave college students alone. Their own fears and lack of faith should be completely unknown on a college campus. It should also not be forgotten that the wonderful liberal reformer, Mayor Robert Wagner, was the first to receive these complaints. Mayor Wagner, carrying his crusade to clean up New York and make politics in that city clean, then bravely referred the matter to the Queens College president.

**By ALAN G. MILLSTEIN**  
"I believe that instead of shivering and being a prey to fear Americans can better put all their eggs in the fight for peace and a knowledge — a knowledge that the cause of the Russian people want an end to war."

With these words of solemn wisdom Alexander F. Jones, Executive Editor of the Syracuse Herald-Journal, joined the growing ranks of those Americans fighting desperately for a peaceful solution to the critical world situation that exists between Russia and the United States.

Jones concluded the first of three articles he has written in this past week on the stupidity of Americans rushing ahead in a defeatist manner by building underground bomb shelters by saying, "I am more impressed with the man building a new nursery for the baby that is coming, or a recreation room for the whole family in the basement than I am for one influence to return to a cave existence."

### No Act

But Alexander Jones isn't only upset by the mass rush to build human manurebins underground, for he says very plainly that "I am not trying to appear as the brave bold man who would rather die in the sunshine than find safety in subterranean depths . . . nor am I deriding the natural apprehension of any man trying to protect his family."

What "Casey" Jones would like all Americans to realize though is that war with the Soviets will mean all-out nuclear war with unbelievable devastation from bombs and missiles. "If there is nuclear war," Jones warns, "then there will also be biological war, and it is an established fact that people will have a better chance in a bombing raid with a gas mask in an open field than in some Jerry built shelter constructed by persons not experienced engineers."

What I suspect has caused Alexander Jones to spend so much time with the topic of fall-out shelters is his acute awareness that Americans are being subconsciously "sold" the idea that war may be coming and all "smart" Americans

should prepare for its consequences much as we buy life insurance and save money in banks.

### The President

In the September 15th edition of the nation's largest selling weekly family type magazine, "Life," there is an open letter feature signed by the President of the U.S., "My Fellow Americans, the letter begins, "nuclear weapons and the possibility of nuclear war are facts we cannot ignore today. I do not believe that war can solve any of the problems facing the world today. But the decision is not ours alone."

On the same page in this message to all Americans is Life's advice to turn the page and find out what's the latest in fall-out shelters. Kennedy's message graces these words from Life's editors: "You could be among the 97% to survive if you follow advice on these pages . . . how to build shelters."

### WHERE TO HIDE IN CITIES . . . what to do during an attack."

It seems that President Kennedy and his advisors are preparing the great American public to HIDE in the event of an attack by a foreign power. Among the ways to "go underground" listed by Life the great American public is given a choice of "A Big Pipe in the Backyard Under Three Feet of Earth," "A Double-Walled Bunker for Safety above Ground," or in the event time is very short, "A \$700 prefabricated kit to Put Up in Four Hours." You pays your money and gets your choice!

### Stern Warning

There appear to be so many varieties of hideouts already hitting the market that Life sternly warns the public that "Some (shelters) are ill-conceived models which might be both unsafe and uncomfortable." I wonder if the manufacturer offers money-back guarantees.

But Life was wondering

about this too, and it also warned the prospective builder that "There is one good check on fly-by-night shelter engineers: you can get an F.I.A.-INSURED loan for your fall-out shelter . . . with no down payment . . . Think of it, a shelter insured to work, and on credit no less."

But the ballyhoo about shelter building, the official commination of the President of the U.S. and the continued campaign by Governor Rockefeller to spread his mass-shelters like ant cells from coast to coast has reached the point where someone must call a halt and tell this country to come to its senses and THINK.

"If all the government publicity machinery that is now pumping for shelters was directed at arousing the American people to demonstrate in every way possible our insistence on a ban on nuclear weapons, we would need be a need for a fall-out shelter."

No truer or more important words have ever been said by you, "Casey" Jones. I know I am in good company when I read your words that say, "But this business of preaching defeatism for all peace . . . and retreating to sorry little holes in the ground is not for me."

Well it's not for a lot of people, I am happy to report. Because you and I, Mr. Jones, can take comfort from being in the company of Bertrand Russell, Norman Thomas and Norman Cousins. These are some of the distinguished men fighting desperately for the "answer to fears of nuclear war" that Alexander Jones so plainly spelled out, that is: "I do not intend to resist, but a United Nations ban on the use of nuclear weapons as the first step in disarmament."

We have nothing to lose by continuing to fight against the use of nuclear weapons. Americans aware of the consequences, in fact we have everything to gain.

### -LETTERS-

## Student Denounces Henry Norman

To the Editor:  
Henry Norman may well be a brilliant politician of "high calibre and integrity," but his Sept. 28 performance at Maxwell Auditorium was far from that of a "big game" and intellectual opportunity."

The intentions of the Bill Young Democrats should most definitely be commended, but the performance of the man in charge of the manufacter trust is worthy only of criticism.

Apparently, the youthful Democratic candidate had very little confidence in the political intelligence of his "near-con-

temporary" audience, for (as the old cliché goes) Mr. Norman spoke only in "sweeping generalities," inserting political witticisms to "roun out" his afternoon's routine.

It is my regret that I failed to present any sufficient quantity of concrete, meaningful ideas. Instead, Mr. Norman was satisfied in his attempt to transfer the aggressive, youthful political interest of the audience to that of his own character.

I should only like to ask Mr. Norman why is the "natural home of youth only in the Democratic Party." This person was aware that the prerequisites to participation in the activities of the Republican Party, et. al., were age over 35, a head full of gray hair (or none) or even a severe case of rheumatism.

To think that Mr. Norman actually believes the majority of college students will calmly accept his statement, professing the Democratic Party to be an organization that "washes its linen in public, with no closed doors," leads me to believe that Mr. Norman has a lot of "growing up" to do prior to Election Day.

## 'Under Milkwood' To Open Series At Regent Theater

"Under Milkwood," a verse drama by Dylan Thomas, will be the first presentation in the 1961-62 Celebrity Series at 8:30 p.m., Saturday at the University Regent Theater.

The play, which has been running since last March, at New York City's off-Broadway Circle in the Square theater, replaces the David Ross production of Ibsen's Hedda Gabler which was originally scheduled.

The drama concerns the inhabitants of a Welsh fishing village and will be played by a company of 24 with many of the actors taking multiple parts. It was produced by Jose Quintero and Thomas Mann, William Bell is the director.

Tickets are \$4, \$3.50, \$3 and \$2.50. They are available at the University Regent Theater.

Early New England women bleached their sheets by spreading them with sour milk and putting them in the sun.

# 'The Hustler' Proves U.S. Can Still Produce Fine Films

—AT THE FLICKERS—

After a wealth of fine foreign films, it is good to see a solid, if not somewhat sordid, well done American film. Robert Rossen's "The Hustler," which opened at the Paramount, yesterday, proves that even Hollywood can get down and concentrate on a theme, and develop a character here or there.

A hustler is someone who plays a pool for money. It's not a pretty profession. For though the skill is great, the surroundings and the people one deals with are something less than attractive.

Those who hang around pool halls seem to do so because they have nothing better to do.

The money players are under the thumb of their betting managers. They destroy the pride any man might have left after playing a good game by taking their generous cut of the winnings.

Newman and Gleason  
Paul Newman plays Eddie Felson, eager, a young hustler. He is still filled with enthusiasm for the game, but wants the big stakes and the "igger" winnings. Jackie Gleason, as Minnesota Fats, is the man to beat.

"Fast Eddie" Gleason calls Newman. But, George C. Scott, the gambler, tells Newman he is a born loser. Newman is both; and the film depicts his struggle as both.

Rossen has co-authored, directed and produced "The Hus-

ter" with precision and clarity of technique. The film moves with a quite, almost "cool" rhythm. The pool sequences with Newman and Gleason are near masterpieces of camera work, and editing. Rossen has not shied away from letting us see the booze and the luscious, the toughs and the hangers-on. He has made a commitment to provide a realistic context for Newman's world.

Non-Brutal Portrayal  
Yet, Rossen avoids the trap of being brutal with his portrayal of the hustler. The world isn't pretty, it certainly isn't nice, but it makes guys like Newman Gleason and Scott. It doesn't bring the best out in a man, but what it does bring out Rossen wants and he gets.

Where Rossen does get brutal is the love story between Newman and Piper Laurie. She is an excellent but mentally disturbed lush. She clings to Newman's honesty in living the game, but cannot, for both moral and selfish reasons, accept his passion for winning.

The real conflict in "The Hustler" is about because of the medium that enables the hustlers to play: money. In the hands of "Icious" Scott they all yield to it, even the greats like Gleason, because the cue balls to scatter the wealth.

### Loaves Confused

Laurie confuses Newman's love of the game for love of money. She accuses Scott of using Newman, but we wonder whether she dislikes his use of money or of Newman's talents. Her mental illness lets her realize both her own and Newman's tragedy, but cannot let her resolve it.

Unfortunately, Newman's character is either too shallow or not developed enough for his motivations at the end of the film never quite come across. Perhaps he just cannot understand his situation, like Gleason who does, and so must act from instinct.

What character definition we get of "Fast Eddie" seems to come from Newman's fine performance. He captures the drive, the sickness, the humor of Eddie. If Eddie is sometimes nudged, he is always vibrant.

Jackie Gleason is remarkable as "Fats." He, like the white cat, underplays his role, yet, thanks to Rossen's direction, depth and sensitivity remain. Piper Laurie and George C. Scott are also excellent. Their scene together is electric.

Rossen has made "The Hustler" into a tough, real film. Hollywood is not dead.

# Syracuse Harriers Post Victory Over Red Raiders

# Hillmen Dropped From Both Polls

By MEL HONIG  
Syracuse University's varsity cross-country team overwhelmed the Red Raiders of Colgate, 16-45, on the greens of Fountains Saturday morning.

Captain Joe Francoello led the runners throughout as he finished first with a 26:49 clocking, one minute and 27 seconds head of his closest rival, Mike Juzan, also of Syracuse.

Monney Ferguson and Jack Bailey took third and fourth places for Syracuse, while Breadlaw of Colgate took fifth place. It was the only member of the opening team to finish within the top seven. Following Breadlaw were Mike McGuire and Dick McHenry, finishing sixth and seventh respectively.

Francoello, by finishing first, is continuing last year's pace when he finished first in every dual meet that he competed in. His time of 26:49 was indicative of the excellent conditions that prevailed at Drumlins, as all the runners posted respectable times.

The Colgate runners put up a fruitless battle, as they were unable to overcome Francoello, and his cohorts as they lead throughout the five mile race.

The Harrier victory gave Syracuse a 36-3 edge over the Red Raiders in their thirty-nine year old rivalry.

The frosh team tied the Colgate frosh 28-28, in the preliminary to the varsity contest. Cal Evans of Syracuse finished first with a time of 14:19 in the three mile event.

String Broken  
Hall of Colgate finished second, followed by Tom Higgins and Tom Driscoll finishing third and fourth for Syracuse. Thompson, Baughman and Wilson finished fifth, sixth and seventh, respectively for Colgate. By tying

the meet Colgate broke a seven game winning streak compiled by last year's frosh team.

Coach Bob Grieve will lead his Harriers to Buffalo for their next meet October 14. Last year's varsity cross-country team defeated Buffalo University by the perfect score of 15-50.

The frosh team who meet the frosh of Buffalo will team up with the varsity team to try and hand the Bisons a double defeat. Last year the varsity and frosh teams were successful in accomplishing this feat.

After the Bison game the varsity cross-country team will travel to West Point and New York City to meet Army and Fordham University respectively. They will also meet Cornell at Drumlins to finish out their dual meet schedule.

Maryland's upset win over Syracuse Saturday paved the way for the unbeaten Terps' entrance into the national grid polls.

The Terps, unrecognized in last week's polling grabbed the tenth spot in both the AP and UPI ratings with their 22-21 decision over the Orange.

The ailing Piety club failed to place in the top twenty. Syracuse was ranked seventh by AP last week and ninth by UPI.

Mississippi's Rebel, with a 3-0 record this year and unbeaten in its last 18 games, replaced Iowa as the nation's No. 1 team.

The Buckeyes were dropped to the second spot in the AP poll and to fifth place in the UPI ratings.

third- and fourth places spots in the two polls.

Michigan State was rated fifth by AP and sixth by UPI. Ohio State took seventh in the AP and eighth in the UPI poll.

Notre Dame made his first appearance into the top ten since early 1959. The Irish, Syracuse's next to last opponent, was rated seventh by UPI and eighth by AP.

Baylor took the ninth spot in both polls and Maryland closed out the top ten.

The only other Syracuse foe to be mentioned was Penn State, which placed 24th in the AP poll, three notches behind the Orangemen.

Syracuse University's season ticket sale has topped the 7,500 mark and is approaching the record 8,017 figure of 1960.

## INTRAMURALS

### TODAY'S SCHEDULE

#### Touch Football

7:00 — Dell Plain 4 vs. Dell Plain 8

7:45 — Watson E2 vs. Sadler 5

8:30 — Marion 2 vs. Dell Plain

#### Bowling

6:15 — Kappa Sigma vs. Pi Alpha Chi, Alpha Chi Rho vs. Pi Kappa Alpha, Sigma Chi Psi vs. Sigma Nu.

8:30 — Sadler 1 vs. Cleveland, Watson W vs. Watson E1.

Marion 1 vs. Dell Plain 1

#### MONDAY'S RESULTS

Sadler 1 — 7 Dell Plain 1

Watson W1 — 12 Marion 1

Watson W4 by forfeit over Sadler 4.

## Paglio Hurt, Out 3 Weeks

Syracuse's injury-ridden football team suffered another blow Monday when it learned that tackle Joe Paglio will be unable to play for three weeks because of a broken bone in his left wrist.

Paglio, a 6-2, 230-pound sophomore from South Euclid, Ohio, sustained the injury in Saturday's loss to Maryland, but it went undetected until Monday afternoon.

Coach Ben Schwartzwalder had praised Paglio's performance against the Terrapins, and planned to work the sophomore with his first unit this week in place of John Brown at outside tackle. Paglio had started the season on the third line, but his drive and hustle were quickly noted by Schwartzwalder.

Paglio is also the reserve Orange place kicker and kick off man behind Ken Eriksen.

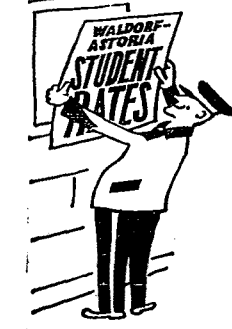

As a result of the loss of Paglio, John Brown will remain the starter, with Stan Sicel on the second team and Jack Salerno in the reserve position.

## Freshmen Crew Candidates Called

More men are needed for the freshmen crew team. There is still an opportunity for fresh candidates for crew. Previous rowing experience is not necessary.

The crew works out daily on Lake Onondaga. Fall practice is important for learning the fundamentals, so anyone interested should report right away.

## GOOD NEWS! NOW YOU CAN STAY AT THE PALACE-ON-PARK-AVENUE!

# Rugged Junior End

**WALT SWEENEY** is a junior letterman from Cohasset, Mass. As an end on last season's Orange squad, big Walt, who stands 6 foot 3 and weighs 225 pounds, gathered in 4 passes and picked up 42 yards. One of his catches was good for a touchdown. So far, this year, Sweeney has caught one TD pass, coming in last week's Maryland game. Sweeney has also drawn praise from Coach Schwartzwalder for his fine defensive play.

# Sweeney's Defensive Play Strengthens Orange Line

By **DAN GARR**  
When Walt Sweeney arrived on the Hill scene in 1959, he was a highly-rated fullback with impressive credentials. His exploits at Cohasset, Mass., high school earned him numerous accolades as well as several scholarship offers.

Standing 6'3" and weighing 225 lbs., Walt was a fine all-around athlete in high school and in each of four years won letters in football, basketball and track.

As a cager he played center in a Clyde Lovelette. As a trackster, he ran the 100-yard dash and broad-jumped. But it was as a grizzer that he achieved his most noted accomplishments. He captained his team, was the conference's Most Valuable Player, and placed fourth in Massachusetts in total scoring with 120 points.

**Moved To End**  
But fresh coach Jim Shreve saw in fullback Sweeney greater things as end Sweeney. So Walt learned the flanker position and learned his lessons well. Coach

Shreve's foresight paid off as Sweeney was a key man in the Tangerine's memorable undefeated campaign of 1959.

Much was expected of Walt last year when he moved up to the varsity. But he couldn't crack the starting lineup and found himself on the bench more often than he had planned.

Yet, as a sophomore, he won a letter and caught 4 passes for 42 yards, a 10.5 average. He also broke into the scoring column with one touchdown. More important, though, he impressed his coaches to such an extent that he was figured to be a real standout for the Orange this year.

**Makes First Team**  
However, it was already fall practice and he still had to make the first team. But this time he did it — the hard way. Walt nailed down his position on the starting eleven by unseating veteran Ken Ericson, and he has more than held his own since then.

To date, Walt has caught 4 passes for 38 yards, a 9.5 aver-

age, and has accounted for one key touchdown. That score came in Bill Orange's upset loss to Maryland.

Quarterback Dave Sarette faded back and pegged a bullet towards the Maryland goal line. Sweeney leaped for the ball and stole it from the Terp defender to make the most brilliant catch of the contest.

But the value of a football player doesn't always show up in offensive statistics. Walt is a fine defensive end and is always in on key tackles in his area. With good size and strength he has made opposing backs learn the hard way how not to make end sweeps. It's not often a halfback will try to "turn the corner" and instead be hit by a force comparable to that of a truck.

Walt's fine play throughout the season has enabled him to retain his starting position although Coach Ben Schwartzwalder plans a big shakeup in the Orange lineup for Saturday's game with the Nebraska Cornhuskers.

# Female Writer Answers Joffe

(Editor's note: In Monday's Daily Orange there was a column by sports writer Mill Joffe discussing the role of women in the sports office. This poem is a reply by one of the female sports writers to MRJ's column.)

By **JUDY ADAMS**  
Monday in this paper, Mill wrote a piece of sorts  
Attacking female writers in the field of sports.  
He told how he went running to his editor  
For fear of losing status to the female sports writing corps.  
Now how, may I ask, could we of the strong . . . er weaker sex  
Cause such apprehension? Yet, the poor boy was so perplexed.  
He said that first we'd lose the locker room interview  
And all the earthy language of the football crew.  
But do you ever see it printed in the news?  
No! All you ever read is: "It's much better to win than to lose."  
So how can what we've never had be so great a loss?

We too can get such quotations from our football boss.  
Then he went berserk, imagining fantastic things  
Of how football would lose prestige to bridge and croquet swings.  
He added one thing more, much to my dismay,  
"But this is all speculation . . . maybe it will go away . . ."  
Ah, but it's too late now, we've been bitten by the bug.  
Like Graham, Rice, and Lardner, we've got it in our blood.  
"Oh! Somewhere in this favored land, the sun is shining bright;  
The hand is playing somewhere, and somewhere hearts are light.  
And somewhere men are laughing, and somewhere children shout!"  
But there is no joy in Hellbox — male sports writers have struck out.  
P.S. I'd like to add but one thing more, just to make it clear.  
We love the Orange uniforms — the most fashionable color this year.

## Hill Construction Boom to Continue

(Continued from Page 1)  
called for a total of \$7,780,000 for the maintenance, improvement, and security of the University buildings and grounds.

Three sections of Archbold Stadium were resurfaced this summer for \$15,000. It is expected that the complete resurfacing of the concrete seats will take five years.

Another major project was the installation of new lighting facilities in the Maxwell Library. Previously each light produced 12 candle feet of power. The new lights are rated at 100 feet candle power, which more than meets the lighting standards for libraries.

The School of Architecture Library has also undergone major changes. During the summer new lighting and steel shelves were installed there.

Financial Aid  
Much of the new construction going on at Syracuse will be virtually impossible without the financial aid of the "Federal Government. The Federal Housing and Home Finance Corporation has loaned the University \$18 million for the construction of new dormitories since the start of the Watson and Merion dormitories in January, 1953.

The Biological Research center is being partially financed by a government grant.

Government grants to educational institutions for building purposes range from a third to over half the costs.

## JSL Names Committees For This Year

(Continued from Page 1)

Christ Hart, Jeffrey Hecht and Sally Laidlaw.  
Also Wayne Lampert, Beverly Ann Lewis, Ronald Middleton, Robert Rogers, Cynthia Webster and Sharron Zablonsky.

Three of the committees are scheduled to meet in the Hall of Languages today. Student Conduct and Welfare will meet at 7 p.m., Organizations at 7:30 p.m. and Local and National Affairs at 8 p.m.

On Thursday in Hill Ways and Means will meet at 7:30 p.m. and Government Structures at 8 p.m.

All the groups will elect committee chairmen at these times. This is the first year that the chairmen have been elected; previously, they were appointed by the speaker.

Speaker Fitzgerald stated his reason for this change in policy: "Election of a committee chairman, instead of appointment by the chair, is my way of expressing confidence in the individual senators and in their judgment."

### Physics Colloquium

A physics colloquium will be held at 4 p.m. Thursday, Oct. 12 in 106 Steele Hall.

"Low Energy Diffraction Studies of Gases on Surfaces" will be discussed by Dr. Alfred MacIntae from Bell Telephone Laboratories.  
Tea will be served at 3:30 p.m.

## Four Candidates Speak Thursday

The four Syracuse mayoral candidates are scheduled to speak at a meeting sponsored by the Syracuse Chapter of Beta Beta Beta Women at 9 p.m. Thursday at the Jewish Community Center on South Geneva street.

The candidates are Paul DeBernadis of the Independent party, Dr. Joseph Grosso of the Dynamic Democrat party, Henry Norman and Republican William Walsh.

Each candidate will speak for about 10 minutes on campaign issues. A question and answer period will follow.

Mrs. Robert Reeve, president of the League of Women Voters, will act as moderator.

The public is invited to attend.

## ROTC Cadets Receive Wings

Eleven Syracuse AROTC juniors Tuesday received Cadet Wings qualifying them for further pilot and navigator training.

The 11 passed the Air Force Flight Physical and the Air Force Officers Qualification Test, winning out over 80 competitors.

The decorations Field ceremony honored: Bruce J. Benzie, Richard A. Bihler, Ralph W. Dewey, John M. Gray, Edward F. Heindinger, David F. Johnson, Eric W. Lawson Jr., Paul Masona, Jon Pangborn, Robert Wheeler, and Lee A. Mietz.

## Security Warns Of Purse Thefts

Several more purse thefts have been reported to the S. curity Police during the past week.

Last Wednesday the Daily Orange carried a warning from the police to avoid that several thefts had been reported.

Robert Flaherty, director of security, wishes to re-emphasize the fact that someone is prowling the corridors of the campus buildings rifling purses left unattended.

These thefts, Flaherty said, can be avoided if students will remember not to leave their purses and personal belongings in public areas.

## Police Re-Define Commuters

Re-definition of students classed as commuters and clarification as to where they may park their vehicles has come from Security Police in response to recent complaints from commuters concerning parking.

According to Robert Flaherty, director of security, a commuting student is a person who travels to the university from outside the city limits and who lives outside the city limits. Students driving to the Hill who live within the city limits are not considered commuting students.

The commuting students' parking lot is located behind the Veteran's Hospital and is entered from Van Buren Street.

## Prof's, Instructors Appointed To Engineer Staff

The College of Engineering has announced the appointment of four professors and eight instructors to its staff.

Dr. Richard L. Anderson has rejoined the staff as associate professor of electrical engineering. He was an instructor here in 1955 - 57 and later a Fulbright Lecturer at the University of Madrid.

William E. Gifford has been named professor of mechanical engineering. Known in the field of cryogenics, he holds several patents.

Dr. John R. Verna was named assistant professor of civil engineering. He obtained his PhD from the Carnegie Institute of Technology.

Named as visiting associate professor of electrical engineering for the first semester this year is Dr. Eberhard Zwicker. Coming from Germany, he recently participated in SU conference on engineering education.

New instructors in the Department of Electrical Engineering are: Harvey A. Brill, Moshe Krieger, Gerald Luchs, Donald W. Melvin, James G. Rudolf and Bradley J. Straub.

Roland A. Paul is a new part-time instructor in the Industrial Engineering Department and Thomas M. Weeks in February of this year became an instructor of mechanical engineering.

"X" before the license number of an airplane denotes that the plane is licensed for experimental purposes.

# Win \$100.00 a month for the entire school year with Sheaffer's "Pen Money" contest

### 2 FIRST PRIZES OF \$100 A MONTH

25 SECOND PRIZES of a new Philco transistor radio

Winners (one man and one woman student) will receive a check for \$400 on Dec. 16th and \$100 a month beginning in January and ending in May.

### IT'S EASY TO ENTER—EASY TO WIN! HERE'S ALL YOU DO

Just tell us in 25 words or less, what you like most about Sheaffer's all-new \$2.95 Cartridge Pen. Write your entry in ink on any sheet of paper, enclose it with the top of a package of Strip cartridges, and mail it to: Sheaffer "Pen Money" Contest, P.O. Box 4399, Chicago 77, Illinois. Entries accompanied with your name, address, school name and class must be received by November 7, 1961.

Entries will be judged on the basis of their believability and freshness of thought. Judges are final and all entries become the property of the W. A. Sheaffer Pen Company. None will be returned. In case of ties, duplicate prizes will be awarded. Every college student in the United States may enter, except employees of W. A. Sheaffer Pen Company, its subsidiaries, its advertising agencies... the independent company judging entries... and members of their immediate families. Contest subject to federal, state and local regulations. Winners will be notified by mail approximately four weeks after contest closes. List of winners available after close of contest if request is accompanied by stamped, self-addressed envelope.

Here are some of the things to keep in mind when you're writing about

### Sheaffer's all-new cartridge fountain pen

- For smooth, easy writing, there's no substitute for a Sheaffer fountain pen.
- Loads like a rifle with leak-proof cartridges of world famous Strip writing fluid.
- Fills quick, clean, easy... just drop a Strip cartridge into barrel.
- Fits easily into a shirt pocket... comes in a choice of five smart colors.

# Gaskell Remains

(Continued from Page 1) Suggested plans of representation included: having the freshmen come only as observers; admitting freshmen groups to temporary party membership at \$2 per group; and dividing the class and choosing at-large representatives from each division.

To save time, Gaskell appointed a committee to discuss the situation and adopt the plan to be used.

In other business, Alpha Chi Omega sorority was voted conditional party membership, dependent upon the approval of the chapter.

## AWS PROGRAM SET TONIGHT

Freshmen house presidents should attend an Association of Women Students Training program meeting at 7:15 p.m. today in 303 Women's Building. Presidents should bring late minute reports to the Women's Building today.

## Oslo Grad on Hill

Sverre N. Haug of Oslo, Norway is studying public administration this year on the Hill. Haug is one of 132 graduate students from 32 countries who are studying abroad on Rotary Foundation Fellowships.

## Frosh Gather And Threaten Election Changes

(Continued from Page 1) The parties on campus weren't capable of safeguarding the freshmen's interest. An unidentified freshman replied that the freshmen did not know enough about the campus or the parties to form an accurate judgment as to what party they should side with. He also said that the parties exert influences on the freshmen candidates which hinder, rather than help them in their office seeking.

The meeting was split into two factions with one group advocating a no party election and the other group desiring that CAP and US parties help the freshmen with their election but not control it.

Dave Chase, president of CAP, agreed that his party will not nominate any freshman candidates this Sunday. CAP's convention was scheduled for Sunday. Gaskell announced that the US Party would hold its nominating convention a week from this Thursday as previously scheduled.

The freshmen emphasized the point that they are not advocating a total break with US and CAP.

## 100 Trophies Left On Front Porch Of DPhiE

(Continued from Page 1) an accurate count would be impossible at the moment.

The following Greek houses can pick up their trophies tomorrow in the classroom next to the Security Police office in ma Kaappa, Pi Kappa Alpha, Sigma Alpha Mu, Phi Delta Theta, Delta Tau Delta, and Psi Epsilon.

The Security Police would appreciate it if anyone who has lost any trophies recently would check over the awards for there are a number of trophies without identifying marks as to their owners.

## Hebrew Classes Set By Hillel

A full schedule of Hebrew classes has been organized. Professor Ephraim Levin will instruct advanced conversational Hebrew: 3 p.m., Mondays, 113 Sims. Benjamin's Hebrew Section A meets 4 p.m., Tu-Thurs., Chapel House; Section B, 7 p.m., Tuesday.

Intermediate Hebrew meets 4 p.m., Wednesday. These sections are taught by Rabbi Louis Neimand. Admittance registration is for all sections and still being taken at the Hillel Office in Hendricks Chapel.

## MUST NOTIFY ADDRESS CHANGES

Students who have changed either their Syracuse or home address since registration are requested to notify the registrar's office, room 204 Administration Building, immediately.

Any changes in address later in the year must also be reported to this office.

"It's well to forget the past because the future will give you plenty to worry about."

## Law Admissions Exam Changed

Beginning November 18, the Law School Admissions Board will require a morning and an afternoon test. The afternoon part will include a test of writing ability and one of general information. Both will be achievement type examinations.

Originally, the Admissions Board had required an aptitude test given during the morning only.

Applications may be obtained from the Educational Testing Service, Princeton N. J.

DR. HAROLD TAYLOE, former president of Sarah Lawrence College, spoke about American society and the effect it has upon American education at the first freshmen Citizenship lecture.

# 'Committees Hide Individual': Taylor

(Continued from Page 1)

and intelligence of the Negroes who participated in the sit-down strikes in the South. He compared them to the fraternities and sororities who will not integrate their organizations. As a final example, he hit the campus politician who is a "Goldwater man because this shows he is interested in politics but doesn't mean business."

To further stress his idea of the student unable to decide how to channel his efforts, Dr. Taylor cited organizations outside student influence which have a bearing on the lives of students. Among these he mentioned the Society of Friends as opposed to the John Birch society, and the TV "wasteland" as opposed to the New York Philharmonic orchestra. These he branded as creative and destructive forces in our society. Taylor believes that the organizational factors in the life of this nation's adolescents, Taylor believes that the students are not to blame for their dilemma, but rather the organizations which have caused such forces to come into existence and perpetuated them.

## Eta Pi Now Runs Hendricks Chapel Coffee Corner

The student - faculty Coffee Corner in the basement of Hendricks Chapel is now being run by Eta Pi Upsilon, senior women's honorary.

Eta Pi President Susan Finegold said the Chapel lacked the staff to run the Corner efficiently and offered the job to the honorary.

Eta Pi plans to start a library of current best selling novels for the corner, to be purchased with an anonymous donation to the Chapel Board last semester. Miss Finegold said displays of student art and activities are also planned, as well as a bulletin board.

The Coffee Corner is scheduled for a paint job during Christmas vacation. Miss Finegold continued. She said the honorary plans to redecorate the Corner, adding a clock, curtains and some new furniture.

The Corner now fills an entire room in the basement of the Chapel, where formerly it occupied only one corner. Miss Finegold explained that since the Corner had picked up greatly during the first few weeks of school, the expansion plan was put into effect.

Miss Finegold said that Eta Pi planned to have fresh fruit on sale if at all possible. "We want to make the Coffee Corner a place for things you can't get anywhere else on campus," she added.

## Forestry College Sponsors Clinic

The State University College of Forestry at Syracuse, in cooperation with the National Wood Pallet Manufacturers Association will sponsor the fifth annual clinic on wooden pallet manufacturing and sales. It will be held Nov. 1 and 2 at the Forestry College.

The purposes of the course are to familiarize the enrollees with good fabrication, marketing, and management techniques used in the manufacturing of wooden pallets and to present information on the overall industry product.

The topics will be handled by authorities from industry, research laboratories, and educational institutions. Time will be given so that enrollees may discuss and obtain possible solutions for their individual problems.

# IFC Sets Firm Rushing Policy

By ADAIR DUFINE

The Inter-Fraternity Council, concerned about the recent rash of rushing infractions during the past two weeks, key-noted their meeting last night at the Hall of Languages with a firm stand on rushing practices. Rushing must be done in its due course, said President Richard Miller. Ignorance of rushing rules in regard to dirty rushing will not be excused by the Office of the Dean of Men, he said.

Upperclass rush was set from 7:30-9:00 next Tuesday. All houses were urged to inform IFC of their plans for rushing and were encouraged to have individual rush.

Miller reminded the members that transfers were regarded by the Administration as freshmen and all rules of deferred rush applied to them until changed. These rushing rules are to be discussed at the Fall Conference this weekend, with the hope of new rushing rules being set for transfer students.

The theme of the IFC Fall Conference will be "Inspiration, Education and Regulation." The major future work of the Greek system will stem from this meeting, stated Conference chairman Thomas Rigoli. Dean Earle Clifford will be the key-note speaker at Friday night's banquet.

Fraternities were urged at the meeting to take a major interest in the committee functions to follow on Saturday at the Skytop Ski Lodge. Breakfast will be served at 8:00 a.m. and followed by the president's address. Members will then adjourn into individual committee meetings to discuss the major issues of this year's Conference.

Dean of Men Earle C. Clifford will conduct a "Meet the Greeks" question and answer period. A buffet luncheon followed by the IFC business meeting will close the conference for the 1961-62 year.

"The purpose of IFC in the past has been mainly regulation. We are now trying to emphasize the inspirational and educational aspects of our program and project them beyond IFC to the entire campus," said Tom Rigoli.

Increased power for the Greek system will be established with the initiation of the new Judiciary Board. The six new members are: Richard Grey, Sigma Alpha Epsilon, Kent Barwick, Sigma Phi Epsilon, Alfred Whitaker, Lambda Chi Alpha, Mark Cohen, Sigma Alpha Mu, and Robert Taylor, Alpha Chi Phi. This new board must prove the worth of the fraternity system and be tougher than the Dean's Office itself in judging fraternity officers, said President Dick Miller.

Tentative plans for Greek Week were announced by co-chairman Jim Lemell. Beginning on Monday night, April, a panel discussion will kick off the festivities, led by outstanding fraternity personal throughout the country. An IFC sing, sponsored by Tau Delta Upsilon, will be featured on Tuesday night. Exchange dinners and social activities will be among the other fraternity and sorority functions for the week.

## DO EDITORIAL STAFF MEETS

A meeting of the Daily Orange editorial staff is scheduled for 5 p.m. today at the Helibox. New beats and other plans will be discussed.

## Committee Plans Parents Weekend Activity Schedule

The half-way mark has been approached in the advance sale of reserve tickets for the Holy Cross-Syracuse football game, Saturday, Oct. 28, it was announced yesterday at the Parents' Weekend Committee meeting.

Twenty-four hundred of the \$5.00 reserve tickets were sold by 4 p.m. Tuesday and all tickets are expected to be sold by Friday afternoon.

The class of 1962 is taking advance orders from societies, fraternities and living centers for mums. The flowers will cost one dollar each and will be delivered to parents before the game.

**Open House**

All living centers that want to have an open house on Saturday must register by Oct. 25 with Mrs. Margaret Stafford, 101 Women's Building. The open house is planned from 4:30 to 6 p.m.

WAER will record all weekend functions in news coverage programs. The WAER program scheduled for 8:30 p.m. on Saturday is cancelled.

The new formation will be executed by the Syracuse University marching band to salute the parents.

Included in the football program will be a history of the Parents' Association and its connection with the annual Parents Weekend.

**Friday Schedule**

The concert originally planned for 9 p.m. Friday, might be presented at 8 p.m. on Saturday. Students are also planning to stage a musical production.

(Continued on Page 7)

## Ticket Manager Tours White House

By MELANIE COHN

Saturday was an exciting day for Syracuse University ticket manager, Harold Michaels, when he was taken on an exclusive White House tour.

Michaels arrived at Maryland for Saturday's game and was contacted by the White House staff who wanted tickets for the Maryland-Syracuse game. He promised to get tickets for the group and was then invited over for a tour of the White House.

There, Michaels and six colleagues met James McKay, a White House aid and several executive secretaries. They were taken on a private tour of the offices and shown Press, Kennedy's office, and the window.

The group said the Chief Executive take off in his helicopter for Newport, Rhode Island.

They also toured the White

## Rush Infractions Incurred By 3 Hill Fraternities

Houses Involved Plead 'Ignorance Of Law'

Three Hill fraternities have been censured by the Alumni Interfraternity Council Rushing Committee for violating rushing rules. Dean of Men Earle C. Clifford disclosed Wednesday.

No further action has been taken against the houses involved, Dean Clifford said. IFC policy rules out the release of names of the offending fraternities.

All three houses were censured for their actions and were warned that any further violations would result in a reevaluation of their original offense. "Serious action would be taken" if these houses should breach another rushing rule, Dean Clifford asserted.

Two houses had had their cases reviewed by the alumni board several weeks ago, with the decision not formally released until Wednesday.

The third house appeared before the board Tuesday night. Its violation involved contact with a transfer student at a social event. Transferee students are subject to the same rushing rules as freshmen are.

The first two cases involved contact between Greeks and freshmen in university dormitories.

The first two houses involved were favorably considered because they had no previous records of dirty rushing and they both had taken disciplinary action against the members who had violated the rules, Dean Clifford said.

Howard Helf, Alumni Rushing Committee Chairman, was reportedly concerned that all houses involved had pleaded "ignorance of the law."

Consequently, Dean Clifford said, Helf will inform all house rushing chairmen fully of the rules at the annual Fall IFC Conference to be held tonight and Saturday.

After that, Helf has declared that ignorance of the rules will no longer be accepted as a plea.

## Freshmen to Seek Own Convention

By ANDY FORTE

A meeting of freshman floor and cottage representatives last night in Day Hall resulted in unanimous support for a program calling for Class of 1965 officers to be chosen entirely by the freshmen.

The meeting, sponsored by "Freshmen for Free Elections," ended with a proposal that candidates for offices in the Nov. 1 elections be chosen at a freshman convention, at which all dormitory floors and living centers would be represented.

Robert Stern, president of Dell Plain 5 and chairman of the meeting, asked "Who knows the freshman class better than freshmen themselves?"

Stern was referring to the present system for the election of freshman officers, in which campus political parties nominate the candidates, and campaigning is done by both upperclassmen and freshmen.

He asked the analysis of two boys entering a dark room to fight each other, not knowing who the other one is or what he stands for.

"We're not a party," said Stern, making it clear that "Freshmen for Free Elections" is not a permanent organization. He stressed that FFE is only concerned with having freshman elections controlled by the freshmen, and has no intent to affect campus politics on other levels.

The FFE plan calls for a nominating convention, at which delegates, chosen by freshman floors and cottages, select a reasonable number of candidates from freshmen expressing a desire to run. All prospective candidates would have an opportunity to address the convention.

It was pointed out that this system is possible because of the deferred fraternity and sorority rushing plan now in effect. In previous years, candidates were usually pledges of fraternities and sororities, which compose the campus political parties.

Several representatives asked what the effect of this plan would be on rushing. Al Heicetz, president of Dell Plain 7, stated "We have faith in the discretion of the fraternities and sororities and believe that abstinence from party affiliation will not hamper rushing."

Earlier in the day, three members of FFE met with Dean of Men Earle Clifford in an effort to explain their plan and to see if it were possible to change the date of fresh elections from November 1st to November 15th. Dean Clifford was unavailable for comment on the question.

Another meeting is scheduled for 2 p.m. Sunday in the Dell Plain Floor Lounge. All fresh floors and cottages are asked to send representatives. The purpose of the Sunday meeting is to set the groundwork for a meeting Monday with representatives of the campus political parties, United Students and Campus Alliance Party.

## Panhel Expands Judiciary Board

Nancy Sanford of Chi Omega and Janet Herenstead of Alpha Xi Delta were appointed to the Panhellenic Council Judiciary Board at a Panhel meeting Tuesday night.

Inward is the law enforcing body of the council. Other members are Panhel President Beth Jensen, Vice President Nancy Moore, Secretary Sally Willis and Treasurer Lee Zobkiv.

Other board members, Mary Schwartzwelder and Gail Katz, were selected last spring. Mrs. Roscoe Martin, Panhel advisor, also advises the board.

In other business the budget for the past year was submitted to the council.

Twenty-five sorority women will be working on plans for the Charity Ball to be sponsored in

## PARENTS' TIX DEADLINE NOW

Tomorrow is the last day for students to buy reserve tickets for their parents for the Holy Cross-Syracuse football game. Students must obtain and fill out yellow cards from the registrar's office and present them to the ticket office in the Men's Gym in order to buy the reserve tickets.

Why Keep Up With Joneses?

Editor-in-Chief Sam B. Girgus
Business Manager Andrew Levitt
Managing Editor: Michael Epinger; Editorial Director: Ken Norwick; Executive Editor: Bob Seaward; Entertainment Editor: Eileen Stoumen; Sports Editor: Ken Darling; Photography Editor: Bruce Ansbach; News Editor Today: Ellen Stern; Associate Editor: Jim Mindell.

Editor's Note: In this space, from time to time, the Daily Orange will present various opinions of students on issues of interest to the campus. Readers are invited to submit questions they would like to see answered here, as well as opinions on questions already in use.

By JACK HAND
Materialism is a driving force in today's world. The thrill of acquiring things over all activity, pushing men on. But is it not time to inquire, to ask where we are going?

Jones people are phenomenal, they move faster every day. They buy by reflex almost, and discard just as rapidly. The value seems to be in the buying, showing, and discarding.

Finding Direction

Last week the floundering British Labor Party took several constructive steps in the direction of re-finding itself. One of the most important of these steps was the party's renewed support for Gaitskell. Meeting at Blackpool for the party's annual conference, the members expressed renewed support for Gaitskell's "modern, moderate socialism."

But in an area of even greater concern for the United States the Labor Party showed support for Gaitskell's policies. This entails the issue of unilateral nuclear disarmament that appealed to many of the members.

What is of special interest is a statement that Gaitskell made before the conference. "There must be a sense of national purpose!" he said. "We must know where we are going. Britain is at the crossroads." It is noteworthy that Britons, who have always considered themselves a kind of father of nations, a more politically mature people are wondering about their own national purpose.

Question: What do you think of the Daily Orange? How do you think it could be improved?
Joe Angard, '62: "I believe the DO fulfills a valuable function in acquainting the student body with campus news and events. As far as anything else is concerned, however, I think the paper fails. This is especially true of the columns and editorials. The DO fails as a 'thinking' college newspaper."

Barbara Miletz, '63: "I don't think the DO is a very good college newspaper. I rarely read it because, usually I just glance through it. The DO should print more national and international news, omitting some of the less important campus news."

Pete Kessel, '63: "On the whole I think the DO is a very fine newspaper. My one complaint is that I feel the paper should publish more conflicting opinions on the editorial page. We always seem to be presented with the same point of view on the various issues discussed."

Rita Parsons, '62: "The DO is a good paper, generally. I do think the crossword puzzles should be less esoteric, and I think the paper should cover national and world news more than it does. I also think the DO takes campus news and events a little too seriously."

Nell Kaplan, '62: "The DO really does an excellent job reporting news of interest to the campus. However, I think it should publish important news that occurs of campus as well."

Gary O'Donnell, '65: "I think the DO fulfills its purpose as a college newspaper. It is very informative, especially in its writeups of lectures and the football team."

Ivan Cudy, graduate student: "For a daily college newspaper in my opinion you can't beat the Daily Orange. I don't know how it could be improved. I especially like the editorials."

Larry Dana, '64: "The DO is as good as a daily campus paper can be. It is the only paper on campus, and I think this lack of competition invites stagnation."

People spend their lives acquiring things, and when the time comes to reckon up, they find that they have acquired nothing. It is a pitiful thing to stand quietly in an old house, looking at the things that have kept people going. The wasted furniture in an old man's house carries an odor of decay, and ancient scrapbooks bulge with memories of nothing. The relatives have come, maddening with guilt, to divide the remnants of life. They stand more uncomfortable than sad, as they glance over the dead possessions of a dead man.

But then one spies what he wants: a picture, a table, or a chair. All at once the others wake, and grasp for the spoils. They begin to quarrel as they lead, for the memory dies. Now the relatives are more easy, for they are in their material element. The old house becomes the marketplace where they are at home. Profaning the essential spirit of man, they quarrel over the very pieces of a life. But let the dead bury the dead, the living must go on.

Why must you go on struggling to grasp the high things, the concrete emptiness they pursue. They seem unaware that it will tarnish, fade, and crumble in their hands. As you are a holder, the things become dissatisfied and bored with them. The price of yesterday becomes the trash of today, and really has no value.

It has no value, for after all it was left of Jones. In television, newspaper buicksters shout about. These are last year's motel now, and one must keep up with the Joneses. Those

Bleached Joneses somewhere along the trail. It seems inevitable. Yet something must go to lighten the load and keep the Jones wagon going.

But then it is probably nothing very concrete. These things are what they have discarded in their hectic race to material ascendancy. It seems to me that there must be bleached Joneses somewhere along the trail. It seems inevitable. Yet something must go to lighten the load and keep the Jones wagon going.

But then it is probably nothing very concrete. These things are what they have discarded in their hectic race to material ascendancy. It seems to me that there must be bleached Joneses somewhere along the trail. It seems inevitable. Yet something must go to lighten the load and keep the Jones wagon going.

But it appears that that Jones wagon is coming to a halt. The wagon has stopped because Jones is dead. The scene is another dead house, but, of course, it is a little shinier than the last. It is a little brighter than the other man. As if the house is shinier, we notice that the relatives are less embarrassed, a little quicker than the other batch to raid what's left of Jones. Jones was a little quicker in the material race because he threw over a few more intangibles, so naturally Jones dies a little quicker too.

Leaving the Arena

Two houses on campus, a fraternity, Psi Upsilon, and a sorority, Iota Alpha Phi, have disengaged themselves from campus politics by breaking their affiliations with the Campus Alliance Party. It is hard now to pass judgment on their considered decisions. Perhaps they can do more to put some sanity into campus politics by withdrawing at this time. Certainly dissatisfaction with the "entire campus political setup" is not restricted to these houses, and their action is probably indicative of a general campus attitude.

Reader Explains Queens Move

To the Editor:
As a graduate of Queens College, I am disappointed rather sympathetically, to your October 21 editorial and its concern for academic freedom. In an attempt to understand the position of academic freedom on a college level, however, you might have tried to understand why an act as "open" as the invitation of Mr. Davis was opposed.

Queens College is a municipal school. Its budget and finances are allocated by the Board of Higher Education which, eventually, receives its moneys from public taxes. At no point in the chain of finance do individual taxpayers, even the parents of Queens College students, have a direct voice in, or control over, the college's administrative policies.

But when a parent sends his child to a university such as Syracuse, generally means that the desires and opinions of the parents agree with those of the university's. In effect, the customer "gets what he pays for."

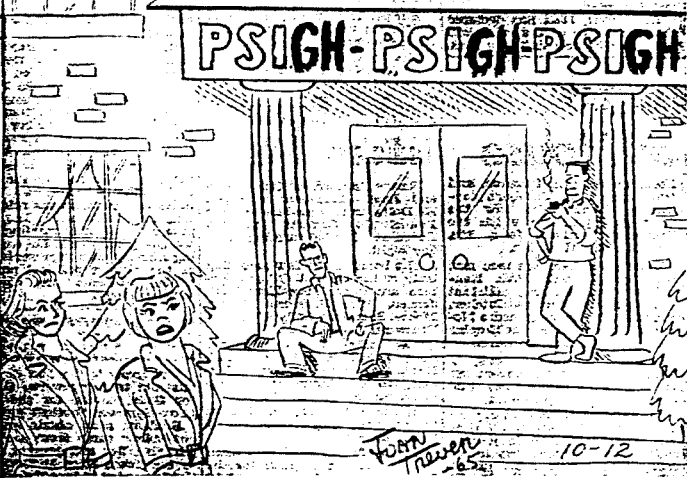

Supporters of a municipal school, however, sometimes feel that they are being forced to pay for something that they do not want, for something that they have the right to refuse. And the taxmen are angry because they feel they are giving free reign to a system which will destroy the values by which they live. (Whether you consider the values important is another matter.)

So you remark that "people who live in their corners and are afraid of confronting those forces that oppose them, should stay in their corners and leave college students alone" is somewhat of an escape in itself.

"Fears and lack of faith" should be known and unknown on a campus. The denial and ignorance of another man's concerns are not the foundations for any change or for any new order.

First know what you want and believe with regard to "libertick." Then as citizens of a new generation the goal of academic freedom will be easier to achieve.

Karl Kregor
Graduate Assistant

"What colossal conceit!"

—AT THE FLICKERS—

# 'The Bridge': War's Horror Seen Through Youths' Eyes

Towards the end of World War II the Germans began drafting anyone who could carry a gun. "The Bridge," which opened at the Riviera Cinema last night, tells the story of a group of 16 year olds called to defend the Fatherland.

Directed by Bernhard Wicki, from an autobiographical novel by Manfred Gregor, "The Bridge" is the first film that takes one's guts and rearranges them.

Most of the film concerns the boys' days prior to induction. Unlike the often depressed, sometimes cynical old men and mothers left at the home front, the boys still have their youthful idealism. They look forward to the day their draft notices come in the mail.

Some of the boys are still babied by their parents. Others find their parents corrupt. Indeed, it would seem that only the children maintain any kind of moral standards, mainly because of a lack of experience.

One of the boy's fathers is a local party head. He sends his wife away, and he himself leaves to have a fling with a local girl; Both his son and the audience are angered and disgusted. When it is revealed that the son is sleeping with the maid, we wonder how far this degeneracy goes.

When a second boy finds his father having an affair with a worker in his beauty salon, the boy's jealousy of the girl, this is another example of a mental sickness creeping into the home front.

There are scenes of humor, such as those between one of the boys and his girl of pathos, when the more militaristic boy, with admiration, tells his mother how unemotional she is.

But his in the war and army scenes, half the film but hardly 24 hours in the lives of the characters, that director Wicki truly excels. In portraying the military, the Germans seem to be unobtainable.

The episode in which the battalion prepare for combat, especially the scene where they all walk down the vibrating metal stairs, give a superb indication of the emotions yet to come.

While the battle scene, when the boys, futilely defend their hometown bridge, and one by one are either killed or driven mad, almost reeks with terror and the insanity of the situation.

The editing and interplay of episodes, that has built up to this moment, now is heightened by an editing of sequences and photography that ranks in effect with the stylized "Attack." J. K. G.

— ON THE BOARDS —

# Sounds, Sensations Mark Thomas Play

A thick evening of diverse sounds and sensations awaits anyone who goes to see the New York production of Dylan Thomas' "Under Milkwood" at 8:30 p.m. Saturday at the University Regent Theater.

Since last March, this verse play has proven to be an anomaly in the dramatic landscape of New York. Seldom does it happen that an expressionistic play of this type can claim even moderate public support.

But Jose Quintero and Thomas Mann, who have had many successes with their off-Broadway experiments which include O'Neill's "The Iceman Cometh," have shown with "Under Milkwood" that the public can and will take notice of a play seemingly destined to end up in silence on a library shelf.

Without plot, and with little overall story, Thomas' play holds its audience glued to a network of characters and sensuous phrases. The poetry is not deep and can be understood with little intellectual effort.

The idea of the play is simple. In almost naturalistic style, the lives and idiosyncrasies of a small Welsh fishing village are exposed, and in no particular hurry.

The New York cast, 24 in all, has migrated to Syracuse for one performance. Their renditions at the Square were immensely capable, with many players taking on multiple

roles. Much theatricality is required of them, for at one moment they are portraying mature adults, the next frolicking children. The two narrators must read their lines in a manner suggesting the voices of the Welsh villagers themselves, a tricky point to put across.

Most of the praise goes to William Ball, the director, who has so skillfully integrated the rambling Thomas' lyric.

The setting and dress of the New York production were keynoted by simplicity. All the characters wore underplayed black and grey clothing, suggesting the garb of Welsh fisher-people, and the set consisted of an imaginative arrangement of ascending rows of plain wooden benches.

"Under Milkwood" strikes the viewer as an extraordinary composition of lush poetic words and phrases, comparable only to an extended piece of music. As one New York critic put it, Dylan Thomas "sacrifices sense for sound." R.L.

# Drama Series Opens at Lively Arts

A program of two plays by Richard Harris will open the series of drama productions at the Lively Arts coffee house Friday night.

"The Man who Courted January" and "The Glory Man" will be presented twice Friday at 9 and 9:45 p.m. These same works will be played again Oct. 20 and 21.

Both plays are described as satiric caricatures. "The Man Who Courted January" concerns love and "The Glory Man" comments on big business. Both the actors and directors of the productions are students in the Hill Drama Department.  
The second production in the

series will be Christopher Fry's "A Phoenix Too Frequent" opening Oct. 25.

Admission to the plays is free but there will be a \$1.50 minimum at the Lively Arts, 810 E. Genesee St.

# Davis Climbs To Fourth In NCAA Scoring Race

By ART ROSSKY

Ernie Davis, ace halfback of the Syracuse eleven, holds fourth place among the nation's scorers, according to the latest NCAA statistics. His season total of 32 points, which includes 5 touchdowns and 2 extra points, enabled him to vault out of a tie for eighth in last week's tables.

West Texas State's Pete Pedro, the scoring leader who tied a record in last week's figures, has set a three-game touchdown record. Pedro has tallied 12 6-pointers and seems a cinch to break the season record of 24 touchdowns.

No other Orange gridded

gained recognition this week. However, a trio of statuts on the squads of Orange opponents earned positions among the nation's leaders in this week's statistics.

West Virginia's Fred Colvard, who has scored 26 points, is tied for eighth in scoring. George Van Cott of Boston College, who has completed 26 passes out of 76 thrown, is 13th in passing. Notre Dame's 15th in total offense. Notre Dame's halfback Angelo Dabiero, who has gained 242 yards on the ground, ranks sixteenth in ball carrying. Dabiero also has a fine 9.7 yard rushing average.

Nebraska, this Saturday's Or-

ange opponent, ranks tenth in pass defense and eleventh in total defense. Boston College holds the fifth position in pass defense.

Oregon State ranks 12th in total offense and Notre Dame 13th while the same pair is fourth and ninth, respectively, in rushing offense. Holy Cross is third in passing offense.

1960 pass receiving champ Hugh Campbell of Washington State has surged into first in pass-catching. He grabbed nine aerials last Saturday to run his total to 20 in three games and vault over Bill Miller, the standout end of Miami (Fla.). Miller has 17 receptions in four contests.

# Fallon, Fiedler Named Captains For Saturday

Co-captains for Syracuse Saturday will be Gary Fallon and Dick Fiedler. The team normally elects one game captain from among the seniors on the squad to serve with permanent team captain Dick Easterly.

However, Easterly has a broken bone in his left hand and will not make the trip to Nebraska Saturday.

Fallon, a 6-1, 210-pounder, has been the starting fullback so far this season although Ben Schwartzwalder was planning to switch him to halfback for this week's contest. This would put him on the second team in back of Ernie Davis.

Fiedler, also 6-1, weighs 215 pounds. He was starting left guard last season but was switched to inside tackle this year. He started the year as a second unit player behind his former understudy at guard, Tom Spillett. Fiedler's recent play, may earn him a starting berth this week.

Besides Easterly, John T. glo, a sophomore tackle, will be the only member of the traveling squad to miss the Nebraska trip.

# Cornhusker Passer

ONE OF SEVERAL sophomores who will be in Nebraska's starting lineup against the Orangemen Saturday is quarterback Dennis Charlidge. Charlidge leads the Cornhuskers in passing with 10 completions in 25 tosses for 111 yards. He is also considered dangerous as a runner.

# Hillmen Hold First In Lambert Poll

Syracuse still holds a slim edge in the Lambert Trophy poll this week, despite the one-point deficit at the hands of the Terrapins of Maryland.

# Hoop Tryouts Begin Monday

Basketball coach Marc Guley has issued a call for all boys interested in trying out for the varsity and freshmen hoop squads. Freshmen are asked to report to the upstairs gym in Archbold Gymnasium at 3 p.m. Monday. The varsity will hold a workout at 7 p.m. Monday in the same gym.

The Orangemen gathered a 9.0 rating, to gain a slight margin over outrushing Penn State. The Nittany Lions were given an 8.5 rating. Navy is third with 8.4.

Unbeaten Villanova is now ranked fourth with a 6.6 percentage. Pittsburgh, last week's runnerup, is now fifth with a 6.0 rating.

Rounding out the top ten teams in the east are Rutgers (5.8 rating), Army (3.0), Yale (2.8), Dartmouth (1.9), and Princeton (1.8).

Other teams who received votes in the race for eastern football supremacy are Columbia, Orange foe Holy Cross, and Harvard.

# Former Hill Star Baker Faces Problems In AFL

By ANDY JORELSON

One of the big stories concerning former Syracuse football stars is fullback Art Baker's failure, thus far, as a runner with the professional Buffalo Bills of the American Football League. Simply stated, Baker's problem is this:

At Syracuse during the 1958-60 seasons, he was called on mostly to do fullback-type, straight-ahead, power running. In the pros, you generally can't bowl over the massive linemen, but have to rely on trickier running, speed, greater balance and other talents besides power.

Stymied Baker, as yet, hasn't been able to adapt to professional-style backfield running, and so he's been pretty well stymied.

Art is the first to admit he's not satisfied with his play, but says he's getting better with each game. To be sure, he's been seeing increasingly more action as the season has progressed.

"I've had a rough time picking up this offense and have made a lot of rookie mistakes," Baker said. "In addition, every guy in this league is a specialist and that multiplies the problems of a first-year man."

Baker got a slow start with the Bills, joining them a week

late because of his appearance in the College All-Star game early in August.

But he was impressive in Buffalo's early exhibition games, and at one point was named to the team's starting backfield.

"Those pre-season games weren't a true indication of the progress I was making," Baker explained. "We didn't play against the other teams' best, since they were naturally trying out different men."

Since the start of the AFL sea-

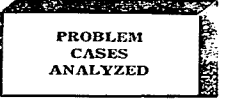

son, Baker has been used as a deep man on kickoff returns and as the second-string fullback. He's also been called on to do more blocking than he ever did at Syracuse.

Everyone blocks here," he said. "At Syracuse, the fullback did a big share of it."

Baker now weighs in at 225 lbs., about 27 lbs. less than what he says is his best playing weight.

At one point during the training season, he was down to 203.

**JSL COMMITTEES**, 204 Hall of Languages.

# Seniors Advised To Register For Placement

Seniors who have not as yet become acquainted with the placement facilities at SU have been advised by the placement directors to visit one of the offices to register. Director of Liberal Arts and Business Administration Placement J. Frederick Way stated that those registering have a permanent file set up for them, which includes biographic information, activities and faculty recommendations.

Also in this file is included a signed statement by which the student allows grade transcripts to be released by the Registrar to concerns interested in the individual as a possible employee. Transcript Release.

Way emphasized that this information cannot be released unless the student signs the form providing for this release. When needed these statements are sent to the Registrar who then keeps it for future use and also sends the desired information to the firm requesting it.

Way also said that even if a student plans to attend graduate school, enter the armed services or is already assured of a job, he should still register to insure the establishment of a permanent folder in case he desires to make use of it in the future.

He stated that he has recently been contacted by firms seeking information on former students desiring to change jobs who graduated up to ten years ago. If they registered he is able to supply it.

Way also mentioned that registering in any of the placement offices permits a student to be interviewed by business representatives in any of them. His own office, 105 Sycum Hall, registers and advises non-technical liberal arts and business administration students.

Science Students Engineering, technical and science students may register with the Engineering Placement Office, Prefab 6. George E. Abbott is the director.

Director of women's placement is Mrs. Marguerite Ruoff, 107 Women's Building. All women students may register there. Way believes that seniors are taking action concerning their future and are seeking information in the placement offices.

Stereotyped plates were used for many years in book printing before they were used in news paper production.

# Two Leave CAParty

Two houses have pulled out of the Campus Alliance Party and one has entered the CAP ranks, the Daily Orange learned Wednesday.

Psi Upsilon fraternity and Iota Alpha Pi sorority each offered disaffiliation with CAP and the entire campus political setup as their reason for leaving the party.

Spokesmen from both houses said there was no connection between the two withdrawals. Neither house plans to be active politically this semester.

Lambda Chi Alpha fraternity Tuesday night informed CAP of its interest in membership. A Lambda Chi spokesman told the Daily Orange, "We felt we should be taking an active part in campus politics and CAP is our choice."

CAP President David Chase said concerning the withdrawals of Psi U and Iota: "I feel it is

very unfortunate that they choose to leave the party at a time when CAP is expanding."

A Psi Upsilon member clarified rumors circulating this week to the effect that his house was forming a new party composed of other CAP houses. Senior Winston Weiler said, "We considered starting another party, and asked other houses about it. Many of them are dissatisfied but none are willing to make the move at the present time."

According to Psi U, plans for any kind of new party have been dropped.

# Judiciary Board

(Continued from Page 1) December by Panhel. Ball chairman is Madge Turner of Kappa Delta. The first meeting of this committee will be tonight.

# Heffron of USIA To Speak Oct. 16 At Maxwell School

A representative from the United States Information Agency (USIA), Mr. Edward Heffron, will be on campus at 11:30 a.m. Monday, October 16. Heffron will speak to interested students and faculty members in the Founder's Room of the Maxwell Building.

The USIA is interested in recruiting students with broad backgrounds in the social sciences. Students who are planning to major in journalism, communications, political science, languages and international relations are being sought by the USIA.

On December 9, 1961, written examinations to establish eligibility lists for USIA Foreign Service Career Reserve Officers, will be given. All applications for this examination must be submitted by October 23. Applications and any further information on the USIA test are available in the Maxwell Placement Office, 211 Maxwell Hall.

The USIA written examination will be given at the same time as the entrance test for the Foreign Service of the State Department. Therefore, no candidate may apply for or take both exams in one year, and eligibility established with one agency is not transferable to the other.

# Revival of '20's: Pep Rally Theme

The Nebraska Pep Rally, at 7:30 p.m. today, in front of Day Hall, will bring back the spirit of the wild and roaring twenties. The Men's Glee Club will revive some old and nearly forgotten songs according to co-chairmen Linda Menaker and Ken Anderson.

The rally will wind its way down University and Walnut, come up Constock avenue and end between Sims and Bowne Hall. Members of the football team will be on hand with the cheerleaders to start the rally going.

From the "Cum Laude Collection"

STUDENTS LISTEN attentively at the Parents Weekend Committee meeting as Dean Kenneth G. Bartlett (at right) makes a point concerning the Parents Weekend schedule.

## Parents Weekend Events Scheduled

(Continued from Page 1)

Saturday night. These plans will be discussed and final arrangements made at the committee's next meeting, Oct. 18.

The schedule for Parents Weekend at the School for Parents, 10 a.m. to 4 p.m. Friday, October 27, will feature discussions on the role of parents in the academic program of the university. Elizabeth J. Ellis, chairman of Parents Weekend, will welcome parents and co-chairman, Stewart B. Gold, will list the weekend events.

Frank P. Piskor, Vice President of Academic Affairs and Dean of Faculties, will moderate a faculty panel with Michael O. Sawyer, director of the citizenship program; Ralph A. Galbraith, Dean of the College of Engineering, and John F. Olson, professor of religion. A noon discussion will follow the panel.

Parents are invited to join their sons and daughters for luncheon from 12:15 to 1:30 p.m. in the university dining hall.

Panel, Reception  
Another panel will be held from 2:30 to 3:30 p.m. Eric H. Faigle, Vice President of Student Services and Dean of the College of Liberal Arts, will be the panel moderator. The panel will consist of Dean of Men Earle W. Clifford, whose topic will be "Extra-Curricular Activities"; Dean of Women Marjorie C. Smith, who will speak on "Sororities and Fraternities"; John S. Hafner, Dean of Personnel Administration, who will discuss "Student Services"; Francis A. Winkler, Vice President and Treasurer of Syracuse University, who will discuss "Business Office Services"; and James G. Carleton, Director of Financial Aids, who will speak on "Financial Aids." A discussion will follow the panel.

A reception will be held from 4:15-5 p.m. in the Colonial Room

## Mindell Resigns Position As DO Executive Editor

Jon Mindell has resigned his post as Daily Orange Executive Editor. Sam Girgus, Editor in Chief, has named Bob Seewald, present editorial director, to succeed Mindell. Ken Norwick, reporter and columnist, will be the new editorial director.

A conflict between the time consumed in doing the job the way I wanted to do it and other demands has caused my resignation," stated Mindell. Mindell's service to the DO will not be terminated completely, however. He will be acting managing editor every Tuesday afternoon and will assist with the promotion and education of new staffers.

Mindell has worked on the DO for four years as a reporter and junior editor. He has interviewed Ogden Nash, Jack White and Hal Holbrook, producer of a one-act Broadway play based on the writings of Mark Twain.

Although Mindell believes that the newspaper plays a significant role in the world, his interest has broadened to other aspects in the communications field. He believes that the DO has given him valuable experience in this field.

New Executive Editor Bob Seewald will be in charge of supervising personnel and handling news assignments. In addition, Seewald will continue his weekly column, "Seewald and Secs 11," on the editorial page.

A student in the School of Journalism, Seewald is a dual major in Political Science and magazine. He is president of Sigma Delta Chi, professional journalistic society, and treasurer of Pi Sigma Alpha, political science honorary. Seewald is also a varsity letterman on the Hill fencing team.

Seewald's successor, Ken Norwick, forecasts some new policies, including variation in layout and content of the editorial page. The regular weekly columns will be continued, however.

Norwick is a pre-law, American Studies student. He is president of Pi Sigma Alpha, political science honorary. He is also a member of the senior class executive council. Tuesday he resigned as vice president of the United Students party.

### Arnold Appointed

Larry M. Arnold has been appointed assistant director of the Syracuse University Marching Band. Donald E. Schmaus, marching band director, announced Friday.

Mr. Arnold is currently on leave of absence from the New Concord Public Schools in Ohio, where he served as instrumental music director and supervisor of music. He is also serving as district president of the Ohio Music Educators Association.

## Defense Plan Formed by CSA

A civil defense committee for the Commuting Students Association at Syracuse University has been formed, according to Stephen Marshall, president of the Commuting Students Association.

Cameron Wheeler is chairman of the organization which will be called C.S.A., SU's Civil Defense committee.

The organization will present speakers and movies on civil defense and its relation to students on campus and their families. Syracuse Civil Defense Headquarters, 715 Glenwood Ave., will place speakers at the group's disposal and supply it with movies and pamphlets on civil defense procedures.

Courses on first aid in civil defense will also be available to C.S.A. members.

### Hillel Session Set

The second session of the Hillel Foundation's series, "Judaism in Theory and Practice," will meet at 4 p.m. Monday, Oct. 16, at Chapel House. Discussion topics will include birth, Bar Mitzvah, Confirmation, sex and marriage, Kaddish and mourning.

## Hillel Sponsors Design Contest

B'nai B'rith Hillel Foundation is sponsoring a design contest for an Eternal Light, feature of Synagogue art and decoration. The Eternal Light symbolizes the continuous presence of God.

One commission of \$150 will be awarded for execution and delivery of the winning design. Five honor awards of \$10 each will also be presented.

Entries must be in the Hillel office, Hendricks Chapel, by 1 p.m. Friday, Dec. 15. Awards will be made during the week of Jan. 8 and all designs will be exhibited at the chapel.

Entry blanks and further information is available at the Hillel office.

The prize money was donated by Serge Cranshaw, past president of the B'nai B'rith Civil Advisory Commission, in memory of his wife.

Judging the contest will be: Cranshaw; Dr. Lawrence Schmeckebier, director of the School of Art; Jack Schulman of Grovesville; Rabbi Benjamin Friedman, Temple Society of Concord, Syracuse, and Rabbi Louis Neimand of the Hillel Foundation.

# CAP Reiterates Frosh Welcome

The Campus Alliance Party Thursday issued a statement repeating and enlarging upon its offer made last Tuesday to assist the freshman class in selecting candidates for the Nov. 1 elections.

The statement follows: "The Campus Alliance Party advocates organized, reasonable, intelligent and effective campaigns run by the campus political parties. However, CAP feels that members of the Class of 1965 should have a voice in choosing their candidates.

"The freshmen should have no fears that CAP will have the only say in picking the candidates. Under the system we proposed earlier this week, each freshman representative would have one vote at the nominating convention.

"Although each CAP house has two delegates, each two have only one vote. There are 16 CAP houses; the frosh groups would probably outnumber these. As another measure to insure fair selection, CAP uses closed balloting.

"Our party looks for the same qualifications that the freshmen do in candidates: for office; capability, enthusiasm, honesty and efficiency.

"While we wish to have the freshmen run their own campaign, we feel we could offer a lot in the way of campaign advice and financial aid.

"CAP will not dictate the platforms of the candidates. The freshmen will write their own platform, but assistance would be available from the party if desired.

"Naturally CAP is interested in backing a winning slate. However, one of our houses will be rooting for plodders, and none will have any personal interest in any of the freshmen who are nominated.

"What we want is a slate of officers who will bring credit to the Class of 1965. CAP will back such a slate all the way, and help them to success in every way we can.

"The CAP convention will be next Tuesday at 7 p.m. The location will be announced.

"Petitions with a minimum of 25 names are necessary from each floor and cottage that wishes to join. Petitions are limited to one per floor or cottage.

"The president of each group requesting entrance into CAP must serve as the representative. If the president wishes to run for office, the vice president of the living center may take his or her place.

"CAP asks no dues from living centers who join the party, and no fees will be necessary for those freshmen who are nominated.

"Once again, we invite all freshman groups interested in campus political activity and in serving their class to attend the CAP convention Tuesday night. Signed, Dave Chase, CAP president, and the members of CAP."

## STEPPINGING REGISTRATION

Entries for the full stepping competition are due no later than Monday, October 15. Applications are available from Pam Dillon, 1210 Walnut Pl., Gfr. G-7282.

# Orange Invades Nebraska; Davis Seeks TD Record

By MILT JOFFE

Junior Editor

Ernie Davis takes lead aim at the Syracuse University touchdown record tomorrow when the Orange battles the University of Nebraska at Lincoln, Neb. The game will be broadcast on WSYR radio (570 kc.) at 4 p.m., EDT.

Davis tied the career touchdown mark of 25 last week by scoring twice. The title was held by Jim Brown who scored his total from 1954 through 1957.

Davis will be the leading man in the Syracuse picture once again. Coach Ben Schwartzwalder is taking a 37-man squad from Lincoln, but two standouts will be missing.

### Easterly Home

Men for men, the Orange have more physical weaknesses for this game than for any other (this season). Captain Dick Easterly is not making the trip. His broken hand is the biggest blow to the Orange's hopes.

John Paglio, a sophomore letterman, been coming along rapidly and was expected to win a starting berth this week, will also stay home. Paglio has a fractured wrist, discovered two days after the Maryland game. One of the starters, Bob Siem, is still suffering from a badly injured knee. The senior center, praised by Schwartzwalder for his fine play last year, will be limited to offensive duty.

### Sofsan Back

The one bright spot for Syracuse is the return of sophomore quarterback Walt Sofsan. Sofsan suffered a cracked rib in the Oregon State game three weeks ago and will see action for the first time since that game. He, also will be limited to offense.

Sofsan will remain in the number three quarterback slot behind Dave Sarette and Bob Lelli. Sarette will also be seeking a new University record in the game. Davis needs two touchdowns to surpass Pat Stark's

career record of 19. Sophomore Lelli is expected to see a good deal of action against the Cornhuskers. Schwartzwalder called his failure to use Lelli last week against Maryland, his "biggest mistake." He explained that he was looking for the right spot to insert Lelli but never did get him in.

"We have to remember that we have to field a team next year so we have to give Bob the experience he'll need," said Coach Ben. "Well me using him and Sofsan now now."

### Nebraska Speedy

Ben expects the Nebraska backfield, packed with speed, to run wide against Syracuse. They also have a massive line and could use some traps up the middle, he added. "It's a much different ball club than any we've played this season," said Ben.

On offense "We're going to show them a few new things," he said. "But Coach Ben didn't go any farther."

From left to right tomorrow the Orange line will look like this: Walt Sweeney, Dave McKezys, Bob Siem, Jim Mazurek, Dick Feidler, John Brown and John Mackey.

The backfield will have Sarette, Davis, Bill Schoonover at fullback and Pete Brokaw at right half. The new starters are Mazurek, Feidler, Brokaw and Schoonover.

Game captains are Gary Fallon, switched to left halfback, and Feidler.

# Mayoral Hopefuls In Verbal Fisticuffs

By ALAN G. MILLSTEIN

The two major party candidates and the two minor party candidates for the office of mayor of Syracuse traded charges and counter-charges Thursday night in an old-fashioned political thurbath.

Speaking before a large crowd in the Syracuse Jewish Community Center in an open meeting with William Walsh, Republican, Henry Norman, Democrat, Joseph Grosso, the Dynamic candidate, and "Independent" party nominee, Paul DeBernardis.

"The meeting of the four candidates called by the sponsors, 'The B'nai B'rith Women No. 536 of Syracuse,' as a debate and question and answer forum. Most of the evening was spent sifting the bait of spoken chaff from the meagre amount of wholesome wheat.

"I've got cars and women and I'm not ashamed of being labeled the 'playboy candidate.'" Paul DeBernardis said as he started the evening's event. DeBernardis billed himself as "the only really independent man, candid."

that the Syracuse debt limit is fast being used up, that the Strand Municipal garage is losing money daily and part of the "Republican confusion."

"Syracuse has become the finest city in the Northeast," County Welfare Commissioner and Republican nominee William Walsh said in his opening remarks. Walsh outlined a part of his program to create a Syracuse plan that would include a "new" plan for downtown Syracuse regarding new industry and revitalization.

"They say I am a wild man because I talk sense," Dr. Joseph Grosso, Dynamic candidate, said. "We need more money coming into our city's coffers," Grosso added as he denounced all three of his opponents as being unfit for mayor if half of what they said about each other is true.

Grosso pointed out that his four years on the Syracuse Community Council has been constructive work at a time when the council was known as the "comical council."

The meeting closed with a challenge by Grosso to a "marathon all night debate" with the other candidates, but his challenge was declined and everyone went home.

## Freshmen Clash Over Issue of Representation

A heated session which saw freshman insurgent leaders and the spokesman for the Freshman Free Election group trade charges occurred last night before about 100 people in the main lounge of DellPlain Dormitory. Stephen Monblat, chief spokesman for the aroused insurgents, complained that the FFE is the only organized freshman political force on campus. "Therefore," he claimed, "they are a political party and this is the entire basis for our argument."

His group, he asserted, feels "obligated to form our own political party."

Meanwhile, Robert Stern, president of DellPlain 5 and spokesman for the FFE, denied that his organization is a political party.

"It's an organization set up so the freshmen can nominate, campaign for and elect their own officers," he asserted. "He said the FFE would disband if the freshman class of 1966 so desired." Next year's frosh could set up the same type of organization, he added.

According to Stern, the FFE's main objective now "is to pull all the frosh together as a unit that will truly represent the freshman class."

But Monblat and Scott Basinger took a dim view of the arguments in favor of the FFE. Monblat issued charges of "communist totalitarianism" because there is allegedly only one political party representing the frosh.

## Dean Clifford To Keynote IFC Meeting

The Inter Fraternity Council Fall Conference will include representatives from the Panhellenic Association for the first time since the conference's creation six years ago.

The conference begins Friday evening at 6:30 with a banquet at Tupper's Restaurant. The keynote address will be delivered by Dean Men Earle W. Clifford. Following the address, committees will be organized and held their first meetings.

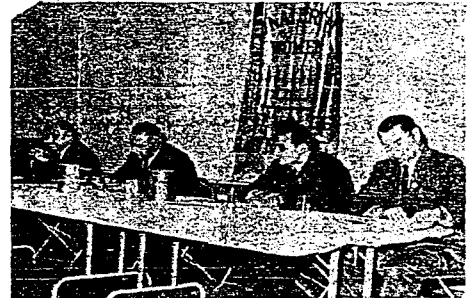

Saturday's activities will begin at 8 a.m. with a breakfast, followed by an address by IFC president Richard Miller. Committee meetings will then resume.

Each fraternity house will be represented by a Junior and Senior delegate, who will make up the various committees. According to chairman of the Conference, Thomas Rigold, one of the most important tasks of the conference will be the creation of new rules by the rushing committee. The Judicial Board will draw up a new manual of procedures, as next year the Board plans to assume increased responsibilities in dealing with disciplinary cases.

The four Panhellenic delegates who will be among the conference's honored guests are: Eth Jensen, President; Nancy Moore, Vice-President; Social Chairwoman Monica Polozic; and Rush chairman Ginny Erickman.

Included among the conference's honored guests are all the Fraternity House Mothers, Alumni IFC President John Morley, Social Director of SU Mrs. G. Stafford, and Mrs. Earl W. Clifford.

Other honored guests, who will also serve as advisors to the individual committees are: Michael Shipley, James McMurray, George Stafford, Bruce DeBruhl, Gene Tallion, David Tatham, and Warren Kinsman and Irving Harney.

TRADING CHARGES in an old-fashioned political thurbath Thursday night were (seated l. to r.): WILLIAM WALSH, HENRY NORMAN, PAUL DEBERNARDIS and DR. JOSEPH GROSSO. Charges flew hot and heavy with Grosso calling the others "unfit" to run for mayor, DeBernardis calling himself the only "independent," Norman calling Walsh "beholden" to the feds, and Grosso called mentally "unstable" by a member of the audience.

## Mississippi Justice

In the name of southern honor and the protection of its citizens the grand old state of Mississippi has now resorted to throwing a fifteen-year-old girl in reform school because she participated in a sit-in. Probably the people of ole Miss don't find this particularly shocking or disturbing. Persecution of children and teenagers who think they live in a democracy has become a long established southern tradition, like drinking mint juleps and lynching union leaders.

But these brethren of the Confederacy carry their wrath further than just one girl. There is now an entire generation of young Negroes in the south who refuse to be quiet about their rights as human beings and the brave upholders of the southern way of life will not be content until all in the south become aware of their manly vengeance. They seem to be waging a kind of war against all Negro youth in Mississippi. But as the grotesque, inhuman nature of their actions becomes more obvious, the whole sickness of prejudice that permeates the south becomes more prominent. The picture of grown men trampling ruthlessly upon the hopes, individuality and rights of high school kids helps to further smother the southern white man in his own brutal degradation.

Besides their mistreatment of this girl, the people of Mississippi have seen fit to arrest over 100 students who were participating in a protest parade. They have also decided that Negroes, not good enough to attend classes with white children, cannot even go to school in segregated institutions if they protest against Mississippi injustice. Sixty such students were told that unless they promised to end their protests, they could not get any education.

But seemingly in an effort to show that the old prejudiced south has not really given up completely to child beating, a Negro attempting to vote was killed by a state official, while another one was clubbed. It is good to see that at least some of the old ritual of the south has not completely vanished.

By KENT L. BARWICK

Each little heart flutters for fall is here. The real, brown leaves fall amidst the mystery and flavor that is college football, accompanied by the strains of the 'Cuse 60 Men and a Gal, and all is happy all is gay or is it?

On the Syracuse campus this fall there is an uneasy air similar to that which hung over Sarajevo before Archduke Ferdinand visited the Normandy Beach before the invasion, and T.C. while waiting to see who would be invited to Reynolds' cocktail party. The questions on everybody's lips are: "Is the old Syracuse gone? Are the good weekends and the horror shows finished? Are we really going to drink Hawaiian punch at the game? Will social probation ever come?"

The answer to these and other important questions NEXT WEEK in an exclusive interview.

Bottle, Zettle, who has the CAP? The talk everywhere this week—the leisure reading room, the Toddle House, and the Club 49—is on one thing and one thing alone.

Instead, we have decided to discuss the CAP party. Is there one? Supposedly after Steve Diamond's resignation (unlike Gaskell he really did resign) a front group of Dave Chase, Jim Farrell, Marn Novack and Jim Jung were supposed to run the party with the behind-the-scenes backing of Ted Clark. But since then, Carl Moacham and Win Webber have allegedly grabbed off several large CAP houses including DU, ZBT, AFPH and DKE into a new party as yet unnamed.

If this is true, then given the supposed desire of SAE to join US, and the leaving out in the cold of T.C. in the last CAP shakeup, just what is left in CAP to effectively beat US party or for that matter any one else? If Sully was here this wouldn't have happened.

Still having received no letters after last week's scintillating column, I am desperate. DO columnists are paid on their ability to annoy people and, "No more fill space with outraged letters. Please, outraged ones, write in; I can't even afford Black Label let alone premium beer."

In the hopes that certain of you would like to see your name in print, somewhere else than on the probation lists in the DeLoach office, Sweetness and Light's current Affairs Panel of the Zeta Phi Beta Chapter includes, Sam Freedman, and Elaine Billings suggests the following topics for letters to the editor:

"The new registration system is really better."

"I enjoy being psychologically tested."

"Free milk for school kids is a socialist plot."

"The Huntington B. Crouse Building does not look like a supermarket."

In bringing this mess to a close this week, we would like to quote a letter by Prof. William E. Stafford in the October 1958 issue of "Motive." It reads as follows:

Department of English  
Dear Coach Musselman:  
Remembering our discussions of your football men who are

having trouble in English, I have decided to ask you, in turn, for help.

We feel that Paul Spinolone, one of our best performing scholars, has a chance for a Rhodes scholarship, which would be a great thing for him and for our college. Paul has the academic record for this award but we find that the aspirant is also required to have other excellences, and ideally should have a good record in athletics. Paul is weak. He tries hard, but he has trouble in athletics.

We propose that you give some special consideration to Paul as a Varsity player, putting him, if possible, in the backfield of the football team. In this way we can show a better college record to the committee deciding on the Rhodes Scholarship.

We realize that Paul will be a problem on the field, but—as you have often said—cooperation between our department and yours is highly desirable and we do expect Paul to try hard of course. During intervals of study we shall coach him as much as we can. His work in English club and on the debate team will force him to miss many practices, but we intend to see that he can carry around an old football to bounce (or whatever is done with a football) during intervals of his work.

We expect Paul to show entire good-will in his work for you, and though he will not be able to begin football practice till late in the season, he will spend the season with good attendance.

Benjamin Plotinus  
Chairman, English Department

## Readers Discuss Cards, Hell

## Fraternity Clauses

This weekend the members and leaders of the fraternity system will gather to discuss the future of the Greeks at Syracuse. To those of us who read about Mississippi and Georgia with a certain disgust, it might be wise to remember that almost all of the Hill's Comstock and Walnut Avenue houses are restricted. It adds a certain southern flavor to cold and smoggy northern Syracuse. Actually it is a rotten taste that is one of the reasons that fraternities throughout the north are going through convulsions in an effort to attract pledges. The freshman who is capable of discerning this bitter aspect of fraternity life from the more ostentatious attractions of fraternities, finds it difficult to go Greek and still justify his conscience. This is something we would like all Greeks this weekend, and next month's rushes, to remember.

To the Editor:  
The recent suspension of six students for gantling again demonstrates the "ostrich-with-head-in-sand" approach to solving the very real problem of the unacademic and frivolous social milieu of much of Syracuse University. Such petty disciplinary maneuver at any western European university could not be contemplated, much less implemented.

The root of the real problem cannot hope to be resolved by

such superficial attempts to restrain a few petty rule-breakers by dangling them from the administrative scaffold, with all its semi-legal regalia. Aside from the question of the social propriety of petty gantling (highly controversial in itself) and the surveillance of the private lives of so much of the campus population, looms the popular image of the "play school," i.e. the too great number of unserious and misplaced students interacting with a struggling and off-pessimistic faculty.

The vast and relatively impersonal beaches, which most students find themselves in every year, the involuntary mass-communal dining modus, and the non-availability of the opportunity to learn by living responsibly (and freely) with oneself, with a friend or in small groups—all result in a spreading identification with the "funful," yet strangely nihilistic, non-academic ideal. All this is a part of the real and administratively rooted problem.

Student bodies in many places in the world have not yet come

upon such sad days as to react with a gutless passivity to arbitrary regulations. Perhaps the mass of the student body has finally been "administered" into such a condition. But the strangest thing about it is that there are not the personal characteristics which we believe the administrators want the students to develop.

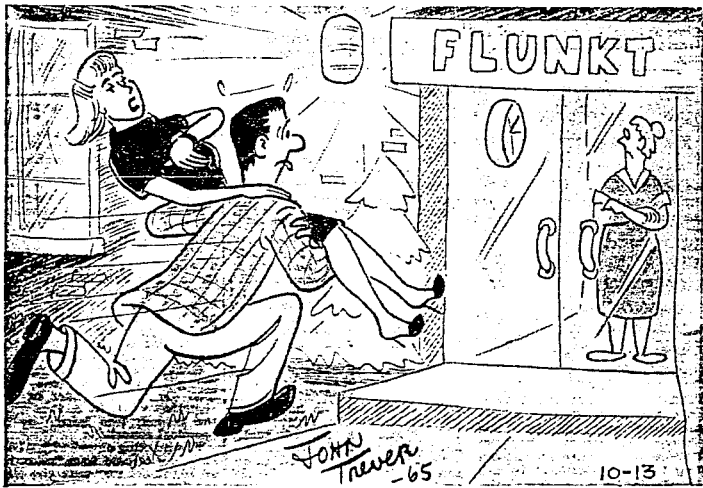

It is the slow, general of paternalistic rule generating increasing student frivolity (and vice versa) in order to be broken will require those fundamental insights that enable men in the group relationship to achieve growth and understanding.

Joseph DellaGrotto  
E. Strauss  
Graduate Assistants

To the Editor:  
After reading "The Social Scene with Larry and Bob" in Tuesday's Daily Orange, I readily concur that their proposed party is a "perverse suggestion," to quote their own words.

The writers unfortunately belong to that numerous group in present day society which has lost all fear of hell, and all hopes of heaven as well. Their sacrifice of sacred concepts is an abomination.

My sympathies to them in their unfortunate plight.  
Robert T. Wilbur, '62

# Inge's 'Splendor In the Grass' Opens Downtown

"What though the radiance which was once so bright  
Be now for ever taken from my sight,  
Though nothing can bring back the hour  
Of splendour in the grass, of glory in the flower."  
William Inge has adopted this brief quote from William Wordsworth's poem, "Immortality," as a basic for his new film, "Splendor in the Grass."

The setting for this social drama is a small town in Southeastern Kansas during the brief period of false prosperity and social madness which preceded the general economic collapse of 1929. In this hypocritical little town we find the peculiar phenomenon of high religious principles accompanied by low moral standards.

The story itself is much more than just an assessment of teenage moral values during this period. It delves deeply into the problems of adolescent love and frustration.

Nathalie Wood and Warren Beatty co-star as a couple of high-school seniors who are deeply in love. She is perplexed as to exactly how far she should go, whereas he is obviously seeking sexual achievement through their love.

Intimidated by the attitudes of both their parents and the townspeople the young couple restrain their sexual desires. This eventually leads to a complete break in their relationship which is closely followed by the disturbing physical and mental consequences of this repression of sex.

Nathalie Wood gives a stunning performance as the confused young girl. Warren Beatty, in his first starring role, displays a remarkable resemblance in looks and mannerisms to the late James Dean. Nevertheless, he still maintains a style which is clearly his own.

# Navy Plebes First Test For Frosh Gridders

By MARK DIAMOND

As the final week of pre-season practice draws to a close, freshman grid coach Jim Shreve and his Tangerines are preparing for their tussle with Navy's plebes tomorrow. The contest is at Annapolis, so the team has to undergo an 11-hour ride before the really rough going, against Navy, begins.

Summarizing his team's prospects, coach Shreve stated "were ready. The team has been looking forward to this for 5 weeks. It certainly will be a challenge to the boys."

The Tangerines have been scrimmaging with most emphasis being placed on defense. Coach Shreve has said that he has "eight good backs" this year, certainly a fine prospect for some good offensive showings, but the defense will be all important in tomorrow's contest.

### Strong Squad

Navy began the year with 250 out for tryouts, and presumably those still remaining on the squad are capable. In their first two quarters of the year, the "Junior Middles" have run up winning scores of 43-6 and 34-12. In this last game, against VPI, Navy exhibited a fine short passing attack as well as a large, tough line.

Included in their arsenal is generally good speed and a left halfback named "H" who bears watching, so the "Pony team" will have a lot to contend with.

Syracuse will have a minor problem concerning the condition of their second string backs. Norm Mordeu has a broken wrist and won't dress, while Jim Nance, Mike Kosk, and Earl Longauer are all just returning from injuries and might not be as sharp as they would like.

At the moment, this will be the Tangerines starting lineup:

The ends will be Jim Cripps, 6-1, 210 pounds from Webster, N.Y. and Paul Houle, 6-2, 210 from Manchester, N.H.

The guards are Jim Wilson, 6-2, 210 from Solon, Ohio, and Dick Chmura, 6-3, 205 from Cheshire, Conn.

The outside tackle is Mike Waxman, who stands 6-3 and weighs 215 pounds. Mike is from Miami, Fla. The inside tackle is Thomas Wilhelm, the heaviest player on the squad at 245 pounds. He stands 6-1 and hails from Cleveland.

Center - the forward wall is Robert Morgan, a 6-2, 200-pounder from Kenil, N.J.

### Backfield

Running the backfield is quarterback Dick King, 6-1, 180 from Ransomville, N.Y.

The right halfback is Bill Hunt-

er, 5-10, 180 from South Merchantville, N.J., while his running mate at left half is Herb Etzold, 6-1, 195 from Springfield, N.J.

Nathaniel "Ducky" Duckett is the fullback. The 5-2, 190-pounder is from Fountainville, Pa.

The Tangerines go into the game with an 11-game winning streak, stretching back three 26-13 victory over the plebes, the years. If they repeat last year's coach, Shreve's streak of never suffering a loss at the Hill.

## Nebraska Threat

ONE OF THE powerful Nebraska runners that the Orangemen will be watching carefully Saturday is BILL (THUNDER) THORNTON, the starting left halfback. Thornton leads the Cornhuskers in rushing yardage with 144 yards on 33 carries. A junior, he was the team's leading ball carrier last year as a fullback, but was switched to halfback this year to capitalize on his speed.

## Hill Harriers Seek Year's Second Win

By ALLAN KORT  
Syracuse University's cross-country harriers, sporting a 1-0 record, travel to the University of Buffalo Saturday to take on the Bulls, who are running strong behind a 4-1 record.

Syracuse opened its five dual meet schedule last weekend with a 16-75 decision over Colgate at Drumhams, while Buffalo has wins over Cortland, Rockport, Canisius, and Buffalo State.

The Orangemen had little trouble with the Bulls last year as they compiled a perfect 15-0 score.

Harrier Coach Bob Grieve feels that he may have one of the better varsity teams this fall if his sophomores come through. Last year's frosh squad had a perfect 7-0 dual meet record, while the varsity ran a 2-2 record.

**Hate races**  
Bill Orange will have several handiaps to overcome in the Buffalo meet. Syracuse harriers are used to running a 5.2 mile hilly course, whereas at Buffalo they will be running on 4.5 mile flat course.

Grieve has high hopes this year for captain Joe Francello, who was undefeated last year in dual meets and who led the Orangemen to the victory over Colgate Saturday.

Captain Francello will lead a strong Orange squad into the meet. Behind Francello will be

# Nebraska Poses Test For Hillmen

By DAVE DEAN  
Associate Editor

The Orangemen of Syracuse, rated by some as underdogs for the first time since the 1959 season, meet an undefeated opponent for the second straight weekend.

Saturday's hosts, the Cornhuskers of Nebraska, are fresh from a 24-0 shutout win over Kansas State and own a season mark of two wins and a tie. Earlier, they topped North Dakota and drew with Arizona.

Nebraska has a well-balanced team, with defensive play making the spotlight from the offense in the latest contest.

**"Sill Sputtering"**  
According to coach Bill Jennings, speaking about the 24-0 Kansas State triumph: "Our defensive play was aggressive and effective. Our offense is still sputtering."

Last weekend the Cornhuskers held Kansas State to 105 yards rushing and one of five passes completed for 12 yards. The pass defense effort was against the top passer in the Big Eight, who had previously completed seven of 13 for 12 yards.

The "Sputtering" offense, despite the description, now ranks second in the Big Eight with 723 yards in the three games.

Another asset of the Nebraska team is their backfield balance; junior left halfback Bill Thornton has gained a total of 144 yards to lead the team in offense, while his running mate, sophomore Willie Ross, has taken 136 yards from the right halfback position.

Ross, however, has by far the better running average, with 76 per cent attempt; Thornton has only averaged 4.4 in his 33 tries.

It was Ross who gained 103 yards in seven rushes in the Kansas State game, scoring all

## WAA Announces Coed Sports Day

The Women's Athletic Association will sponsor a co-ed sports day from 1-4 p.m. Saturday in the Women's Building.

Activities will include badminton, volleyball, trampoline, chess, checkers, bridge, and the radio broadcast of the Orange-Nebraska football game. Everyone is welcome.

# Fiser to Speak To Young Dems

Webb S. Fiser, Democratic candidate for councilman - at large, will be the speaker at the Young Democrats meeting, 4:15 p.m. today in 111 Maxwell.

Dr. Fiser, associate professor of political science at Syracuse, has served as the principal planner for the Near East Side Syracuse Urban Renewal project in 1958 and 1959. Also he served as a member of the Health Department Review Committee, the Citizens' Council on Urban Renewal and as chairman of this county's Research Committee.

As his platform for the coming election, Dr. Fiser is concentrating on industrial and neighborhood rehabilitation for the urban renewal program and on the financial crisis which is facing the city of Syracuse.

The taxes are within \$117,459 of the constitutional tax limit, which has been foreseen but neglected by the present administration, Fiser believes.

Fiser stated, "The present Republican leadership has talked a good deal about the metropolitan approach (on the financial crisis). Too often this has meant joint city-county endeavors, such as the Public Safety Building. With this arrangement city taxpayers pick up nearly 80 per cent of the bill, said Fiser.

"With a genuine metropolitan approach, we would pay 51.4 per cent, which is our share of the assessed values in the county. The impending financial crisis can be adequately met by a genuine metropolitan approach.

"The remedy must correspond to the disease. We can no longer permit a secretive Republican leadership to deceive us into believing that cough syrup will cure pneumonia," he declared.

# ISO Invited To Participate In JSL, IFC

The first general meeting of the ISO was highlighted with addresses delivered by Speaker of JSL Brian Fitzgerald and President of IFC, Richard Miller.

Miller stressed that the problems that exist between the IFC and the ISO arise from the lack of communication between the two groups. Miller proposed another exchange dinner to succeed last year's successful one. He also expressed hope that individual fraternities would invite ISO members to be house guests without the incentive of individual days set aside.

Fitzgerald invited active participation of ISO members in JSL. He stressed that he felt the foreign students deserved representation in the student government. Brian added that foreign students have much to offer culturally and intellectually in student affairs because of their extensive experience.

During his introductory speech, President of ISO Tirandaz Imani mentioned the fact that Thursday is day of commemoration of the independence of the Nigerian Republic. He said that Nigeria has shown itself capable of shouldering the burdens of a new republic, and that Nigeria's success as an independent nation has given hope that the "dark continent can have a ray of light."

After the respective speeches, a motion was accepted to move orientation week to another time. The business meeting was followed by a social hour.

# JSL Committees Elect Officers For First Time

For the first time the five standing committees of Joint Student Legislature have elected their officers for the year. Committee officers previously were named by the Speaker of JSL.

The new chairman and secretary of the Student Conduct and Welfare Committee are Theodore Bayer and Lee Jacobs, respectively. The Government Structures Committee will be led by Larry Dana, with Beverly Lewis as secretary.

Chairman Bob Becker and secretary Esler Hildebrand will head the committee for Local and National Affairs; Sam Patterson and Kathy Kapsol will be officers of the Ways and Means Committee.

Due to lack of a quorum, the Organizations Committee was able to elect only a temporary chairman Jim Grey, and secretary Barbara Filigal.

Election of officers by their respective committees is a change in policy. Formerly, officers were appointed by the speaker.

These committees are empowered to meet at any time and will advise and suggest legislation to the JSL Steering Committee, which then plans the agenda for the JSL Assembly meeting.

# Gulf Grants \$1,000 To Geology Dept.

The Gulf Oil Corporation has given Syracuse University a \$1,000 grant for use in the Department of Geology.

The unrestricted grant was given to Chancellor William P. Tolley and Dr. William Merrill, chairman of the Department of Geology by Gulf Division Manager Homer E. Goddard.

# Busy Week Slated By CAP, US, FFE

By JEANNIE RANOV, Junior Editor

The United Students Party, Campus Alliance Party and the newly-formed freshman political group had meetings planned for the past weekend and have a busy schedule this week.

The Freshmen for Free Elections group was set to meet yesterday at 2 p.m. in DellPlain Hall to tighten up their organization before meeting tonight with US and CAP presidents Ellis Gaskell and David Chaso.

An FFE constitution was written last Thursday and is slated to come to the floor for approval in Joint Student Legislature Wednesday.

JSL Speaker Brian Fitzgerald helped draft the freshmendocument that provides for a self-dissolving organization that will end its existence the day after the president of the Class of 1963 is inaugurated.

Freshman desiring to be nominated must present 150 name petitions, according to the constitution. It also provides that three students be nominated for each of the four offices.

The FFE-US-CAP meeting tonight will attempt to iron out the confused situation that now exists as to which group or groups will nominate and campaign for the freshman candidates in the Nov. 1 elections.

A US meeting has been called for 1 p.m. today at Sigma Phi Epsilon for the purpose of deciding how the party stands on the issue. At last Thursday's US meeting, a committee was assigned to discuss the problem.

A US office is scheduled from 3 to 5 p.m. Tuesday in the Hend-

ricks Chapel Lounge for freshmen interested in learning more about the party and campus politics.

CAP will hold its nominating convention at 7 p.m. Tuesday in 207 Hall of Languages, Freshman living center presidents are invited.

The US convention was previously announced for Sunday but may be moved up to Thursday night.

Political activity began on campus this week with meetings of CAP and US. At a meeting the week before, CAP Secretary Mara Novack had suggested that freshman class representatives be given a voice in nominating their own candidates. Her party followed.

CAP will hold its nominating living centers to join CAP in that party's nominating and campaigning.

Then in the middle of last week, a large number of freshmen announced their dissatisfaction with nominations and elections that would be controlled by upperclassmen, and began work on a proposal for a convention at which all Fresh Living centers would be represented.

# Dr. Pardee Urges Student Realism

EDITOR'S NOTE: This is the second in a series of interviews with Syracuse University professors.

By ADAM DUFINE

"Any university has had problems which must be solved with hard solutions," said Dr. Otway O. Pardee, Associate Professor of Mathematics, Thursday at his campus office. "The students of this, or any campus, must distinguish between good ideas and good ideas and pious hopes," he said. A known campus pragmatist, Dr. Pardee discussed the need for action and method to overcome most obstacles found in college life.

Dr. Pardee, before his appointment at Syracuse, received his BS degree from the University of Washington and his Ph.D. from Stanford University. He spent some time with various aeronautical laboratories and with the National Advisory Committee for Aeronautics. Completing his military term, Dr. Pardee spent two years in the U.S. Navy CPO as an ensign.

Speaking bluntly yesterday, Dr. Pardee stated that a good idea, in reference to problem solving, includes not only the results desired but also a vehicle or method to persuade others to go along with the plan. It is the responsibility of the students to offer concrete ideas and not shrink away from taking a definite stand, he said.

Dr. Pardee illustrated the apathy of the student body on this

campus when discussing the Pinebrook conference last weekend. When he asked for suggestions to amend the football seating problem, not one of the representatives could give good ideas, he said. "Out of 10,000 students on this campus at least one student should have a good idea and find the channel to bring it forth," stated Dr. Pardee.

The Pinebrook Conference afforded the students the opportunity to discuss major campus problems with the administration, yet, very few representatives did so. Dr. Pardee further explained his refusal in accepting hopes for good ideas in the problem of deferred rushing.

It is the place the individual house to solve its financial problem, not that of the university, which should either cut down on outside activities, charge more, or take in a larger pledge class, suggested Dr. Pardee.

"In the area of problem-solving I am a pragmatist," said Dr. Pardee. "either you have a solution or not; problems are opened or solved."

As a graduate student, Dr. Pardee attended Stanford University in California. A social as well as academic honor code was one of the outstanding features of Stanford, Dr. Pardee said. The ethics of the students were higher there than at Syracuse. As a result of this system, he said.

From the first week of orientation (Continued on Page 6)

# Pie In the Eye

COVERED WITH PIE and other goodies a Hill couple grimace as they engage in the Alpha Phi Omega pie-throw booth during the Campus Chest Carnival. Held Friday night, the carnival activities were halted by a sudden rain. One of the features of the evening was an auctioning of campus leaders. Dean of Men Earle Clifford was "sold" for \$36. The booth that seemed to attract the most onlookers featured a twist contest with music by Folk and the Escorts. This one was sponsored by ZBT, Sig Ep and SUT. Over 500 students jammed the carnival grounds near Sims during the night. (Photo by Bruce Ansbach).

**Freshman Politics**

Rarely in recent memory has the Syracuse campus become so aroused about student politics as it is now on this issue of the impending freshman class elections. This is especially true of the freshman class itself. In the past, usually, the student body, and conspicuously the freshman, has been apathetic to say the least when it came to the machinery of campus politics.

That this is no longer the case is a heartening sign. It is an indication that for a change many students seem really interested in who their leaders will be and how they will be chosen. It is an indication that this campus may see in the coming years a student body that will do more than sit back and cry "farce" at every opportunity. It is an indication, finally, that the day may come when the student body will care enough to do something about the state of student government at Syracuse.

For the present, however, it seems that the major emphasis of student concern is centered around the issue of the role of political parties in the fresh election. The parties, of course, feel they should handle the nominations and campaigns. The freshmen, on the other hand, seem to feel that they should be allowed to handle their own political affairs. Clearly, freshman politics has reached a messy, confusing impasse.

We don't pretend to have the panacea to solve the problem for all concerned. We do feel, however, that a compromise solution can be found, and should be found, and soon. For the good of the freshman class and the campus as a whole, we urge the factions involved to meet and rationally discuss this problem and the various solutions possible.

We also urge that once the problem of the machinery of the election is resolved, these same interested students direct their thoughts and enthusiasm towards what can be done after the election; that is, how class government can be made truly representative and meaningful at Syracuse University.

— NEWS ANALYSIS —

**Berlin's Week**

**Editor's Note:** This is the first of a continuing series of analyses and descriptions of important national and world news that will be presented on this page. Today's article discusses recent developments in the Berlin crisis.

**By LEW GROSSBERGER**  
The Western powers attempted to resolve their own differences as negotiations with the Soviet Union on the Berlin question apparently reached an impasse. Secretary of State Dean Rusk met with ambassadors of Great Britain, France and West Germany to set up a foundation for a possible conference of foreign ministers.

While the United States and Britain favor a flexible approach, feeling that discussion of the Berlin problem with Moscow may reduce the threat of war, France and Germany have a more hard-line. They fear that any eagerness to negotiate may be interpreted by the Communists as weakness.

London, Soviet Foreign Minister Gromyko conferred with Prime Minister Macmillan after concluding a series of talks with President Kennedy which were summed up by the diplomats with the phrase "no progress."

Tuesday, Macmillan warned Gromyko of the "grave dangers" of unilateral action by the Soviets. They talked for an hour and 42 minutes but British spokesmen believed that neither the Washington or London talks had seen any firm basis to emerge for further negotiation.

In Berlin itself, tension rose throughout the week. Last Sunday, East German Vopos fired at West Berliners who ventured too near the barbed wire barriers. Wednesday saw ten

East Berlin police entering the western sector to search for comrades who had escaped during the night. They retreated back to the Communist zone when West Berlin police rushed to the scene. On the day before, 50,000 Soviet combat troops had arrived in East Germany to take part in Warsaw Pact maneuvers near the West German border.

West Berlin Mayor Willy Brandt announced that his two-day visit to New York had convinced him that the United States would maintain the freedom of Berlin "at all costs." But Wilhelm Grewe, the West German Ambassador in Washington, felt the Soviet position was hardening. He termed Gromyko's presentation at the White House "a step backward."

Touring the Berlin border in an army helicopter, Senator Hubert Humphrey of Minnesota called the Communist barrier "an incredible manifestation of modern dictatorship." He said the West should seek to obtain "an internationally controlled corridor for uncontrolled access of all forms of transportation and commerce to West Berlin."

**OPINIONS ON CAMPUS**

**By REA TULETT**  
Question: What do you think of the political situation on campus?

**Elliott Schindler, '64:** The Freshmen have a good idea, but I don't think that it is going to work. The parties only work on the campaign. Afterwards, when the candidates get into office, the Greeks take over. CAP is a complete failure, and should merge with US.

**Lloyd Baslin, '64:** I think it's rotten. The Freshmen have a good idea though.

**Wendy Hest, '62:** The Freshmen are joining is a good idea. The independents should have their hand in politics a long time ago. A majority of students on campus are not Greeks, and they have no say in the government.

**Louis Rothbard, '61:** The whole thing is a farce. They don't really do anything anyhow.

**Dave Goldson, '62:** It doesn't really matter. They don't do anything anyway. Political organizations are more for those people involved in them, than for the students as a whole.

**Dave Hamilton, '64:** The whole thing is bloody nonsense. There isn't any political situation. There are just too many people playing politics. What do the Frosh know about it anyway?

**Tom Featherman, '64:** There is a lot of disorganization and disunity within the parties themselves. There will probably be a new political order. What the Freshmen are doing should have been done a long time ago.

**Mike Esposito, '62:** A waste of study time to have the organizations.

**Mike Lesser, Grad.:** Politics are taken too seriously, and if we can take it as a game, it would be much more fun. I have enjoyed watching the Freshmen upset the silly two party system. In fact, while there is little difference between the Republicans and the Democrats there is absolutely no difference between CAP and US.

**Helen Fohn, '63:** It's the most rotten mess I've ever seen.

**Bill Fertik, '64:** The fangs (CAP and US) are out to get the Freshmen. We in the mud salute the Frosh.

**Audley Lipman, '65:** The Freshmen haven't anymore idea of what's going on than anyone else.

— AS SEEWALD SEES IT —

**The New SU**

**By BOB SEEWALD**  
After a weekend that had me escorting a covered wagon (the type that is used on TV's Wagon Train) pulled by a team of Welsh ponies to the park at the house, I can slow down, study, and contemplate the changes that have come over this school in the last few years.

Ever whether wagons were here four years ago or not, this place has changed. The old stalwarts of the campus, the prototypes of the mid-1950 collegian hardly belong on today's scene at all.

When another DO editor and I invaded a freshman floor at the request of an RA last Wednesday, we were rather dubious about the whole affair.

After all, in our freshman year any visiting speaker but Dean Noble would have been laughed right out of the dorm. Four years ago an editor might even have been chased all the way to the Hellobx, in which he might have had to barricade himself for the night, the way those TV heroes in the covered wagons did. And our classmates were a comparatively studious, serious-minded outfit.

Well, when we arrived at the dorm it looked like the RA was trying to round up a few frosh so there could be a turn-out of sorts and he could avoid personal embarrassment.

To make the outlook worse, it was linen night, and after all, sleeping on a clean sheet is more important than listening to a talk.

But they did more than listen. They grumbled as if they were the reporters and we their targets.

With this as a starting point, we remembered how it was in our freshman year when the rushing line that couldn't miss dwelt exclusively on the wild drinking affairs and the like. The seniors at that time thought it best not to mention studies lest their image be destroyed and the rushees harshly disillusioned.

And they were tame and studious compared to their predecessors. But in the last few years things have changed here.

You hear more and more talk about academics, about studying hard, and when the student who constantly proclaims that he is going to hit the books but never does.

Slowly the rushing lines have changed—those who savor only the legends of the old days at Syracuse are anachronisms.

More and more students express dismay that the library is closed on Saturday afternoons when a football game is being played. Fortunately, the prevailing atmosphere does not bring shame to such a student.

The old-style students are a bit like Frank Skeffington, the supermajor in "The Last Thursday"; they're old pros but they neither fit in nor understand fully their new situations. So sooner or later, though they're usually vociferously dominant, they fall by the wayside.

And this is a good thing for Syracuse; though this is no longer the playboy school it used to be, the specter of the old-time reputation still is prominent in the minds of people around the nation.

So it seems that in their increasingly stringent policies, the university officials are trying to forever blot out these old and wicked memories.

Syracuse is indeed in a transitional period. We have the truly studious new students and their growing disenchantment with such inherited situations as the closed libraries on football days, even if you're not going to study it doesn't sound right for a university to close its halls of learning just because the team is doing battle on the gridiron. In more ways than one we are feeling our growing pains.

Thinking of the future we recall Mill Joffe's sports column last week, in which he envisioned DO "stories on the fashions of our starting eleven and what the best dressed lineman will wear this year."

Discussion of this trend may lead some to fear this place turning into a harbor for book-worms, but we are more confident than that. The new generation of students should improve Syracuse vastly, perhaps even to the point that the administrators will not feel it necessary to set down stringent laws to improve our reputation.

Then the students will be able to set a good reputation for themselves.

**POLICY ON LETTERS:** The letters column is maintained for the expression of opinion by readers. However, the Daily Orange reserves the right to edit letters for grammar and good taste or to reject letters. Letters should be written legibly, preferably typed, and no longer than 250 words. All letters must be signed with names and addresses; names will be withheld on request.

# '12 Year Old Mind' Myth Assailed

By JAN GRIFFIN  
How old are you? 187? 20? 22? These are some nice, mature ages, but how old is your mind? This is important, for it seems to govern your taste. The myth of the 12 year old mind is passed down from broadcaster to broadcaster like the wisdom of the long house. It is believed, it is catered to. But does it really exist? It has a chair at the conference table like Harvey the invisible rabbit, but then there has always been some question about the sanity of Harvey's human friend.

It is the 12 year old mind that creates the Westerns and the slobby soap operas, so goes the myth. Non sense. These are in existence due to the efforts of large numbers of intelligent writers who can sell a dollar in an acid factory.

Then, it is the 12 year old mind that supports this kind of entertainment. Maybe so. But heaven of heaven learning is also appealing to the mass mind.

At the fraternity parties, in the dorms, from the cave cones WALTER WAER. Why do these people listen? I hope not, because they passed the same entrance requirements as I did, and I have never classed myself as that for any. I don't think that many in this university have a 12 year old mind. They not only would not have stayed here, they would not have wanted to come in the first place.

And then there is the example of the girl who writes the opera scripts for WAER. Cultural, indeed, refined (to use

a word badly out of style) she can twist better than most, loves opera, classical music, good literature and Tom Lehrer party songs.

Is there something wrong with her that she likes both sides of the fence? Is it a split personality? No. It's a thing called normalcy, (a dirty word since Pearl Harbor, but not without usefulness).

The 12 year old mind, if it does exist, is a very small part of total society. Most of us are a healthy mixture. Broadcasters aiming for the common touch had better not put all their shows into one basket, counting on the mass audience being with them all the time. Audiences are, for the most part, fractional. You reach all of the people some of the time, and only some of the people all of the time, and as Maverick (yes I rather liked the old Maverick show) used to say, that's pretty good odds.

## Mort Sahl to Appear Wednesday

Mort Sahl, the popular satirist, will appear at 8:30 p.m., Wednesday at Lincoln Auditorium as the first artist in this year's Famous Artists Series.

Sahl, 35, graduated from the University of Southern California with a bachelor of science degree before emerging as the honorary head of the Best generation because of his topical and often incisive humor.

In the nine years since Sahl began telling his disjointed monologues at San Francisco's "Hunkey" for \$75 a week, he has made two movies, appeared on many TV shows and cut five best selling record albums.

Dressed in a sweater and tieless shirt, his only prop a rolled-up newspaper, Sahl's humor has made him a college favorite. Writing his own material, he is best known for his satiric attacks on politicians of all political genders.

Appearing with Sahl will be Joanne Summers, a new singer, and the Bob Florence trio.

Tickets are available at the Famous Artists Series, Clark Music Building, 416 S. Salina St.

# Injuries Haunt Mackey

By DAN GARR

With the approach of a football campaign, John Mackey has but one request to make of the Gridiron Gods. He doesn't ask for stars or All-American laurels; all he lean junior end of Freeport, L. I., wants is an even chance to stay healthy.

One of the most talented performers on the Orange squad, John has yet to play a full season. Ever since his freshman year he has been hobbled at one time or another by a serious injury.

As a frosh he saw limited action early in the season but one mishap after another made him retire to the sidelines. Last year he played briefly but brilliantly until slowed by leg injury.

Winning a letter as a sophomore, Mackey impressed as a flashy halfback, slashing out 129 yards on 32 carries - a neat 4.0 average. He indicated his bright future as an end by snarling 4 aerials for 29 yards and one touchdown. In the scoring column John hit paydirt twice in addition to tallying 2 points after-touchdown.

Now, in his third season on the Hill, Mackey has grown to 6-2 and 210-lbs. At the starting right end in Ben Schwartzwalder's unbalanced line, he has quickly learned a new, but not unfamiliar position. Despite the fact he was a back last year, John starred as an end in high school, and flanker coach Stanbathy soon found he had a worthy successor to All-American Fred Martino, who graduated in June.

Mackey is one of the finest athletes to come out of Hempstead High School, a perennial gridiron powerhouse. He starred in basketball and track as well as in football.

Playing forward, John gained All-Metropolitan Area, All-Country in addition to several other honors for his outstanding play as a halfback. Fleet of foot, he ran sprints and was a fine pole-vaulter.

But his forte was on the gridiron. As a speedy, glue-fingered end, Mackey was one of the outstanding football players in the New York area. He was named to varsity every all-star team and his newspaper clippings were enough to fill quite a few scrapbooks. John's exploits earned him several scholarship offers and "Fifty" follows. Viceroy indeed pleased when he made his final decision to come to Syracuse.

Even though John has played good ball all season, he's still wary of the injury bug. Being accident-prone, he must watch his condition and yet, not let it interfere with his customary all-out gridiron effort.

There is a ballplayer that only needs a full season of action to demonstrate his abilities.

This may be John Mackey's year.

# Viceroy's Big College Football Contests

IT'S EASY! Just pick the ten winning teams, predict the scores—and you're in the money!

**FLASH! ONLY STUDENTS ON THIS CAMPUS ARE ELIGIBLE!**

**SECOND CONTEST OCTOBER 21st**

All you have to do is clip the coupon, pick the winners and predict the scores—then figure out how you're going to spend that hundred bucks!

**Only VICEROY'S Got It... At Both Ends! Got The Filter! Got The Blend!**

Only Viceroy's got the *Deep-Weave* Filter. Viceroy's Deep-Weave Filter is made of vegetable material that's pure and safe.

Here are the Contest Rules —Read 'em and Win!

1. Any student or faculty member on this campus may enter except employees of Brown & Williamson, its advertising agencies, or members of their immediate families. All entries become the property of Brown & Williamson and will be returned. Winners will be notified within three weeks after each contest. Winner's names may be published in this newspaper. You may enter as often as you wish, provided each entry is self-individually. Contest subject to all governmental regulations. Entries must be postmarked or dropped in the mail no later than the date the contest is held. Prizes will be shipped and received by noon Friday of the same week. The right to discontinue future contests is reserved.

2. Entries must be in contestant's own name.

3. On the coupon in this ad or on an Official Entry Blank on each of a pair of the same size and format, make your predictions of the scores of the games and check the winning teams on empty Viceroy packages or a reasonable number of the Viceroy name as it appears on the package front. Mail only in Viceroy or the Blue Flamingo on the entry blank or on a Viceroy Football Contest Ballot Box or Envelope.

4. Entries will be judged by The Viceroy Distributor Corp. on the basis of number of correct predictions. Ten will be chosen on the basis of scores predicted. Duplicate prizes awarded on case of exact scores.

5. Winners are eligible for any prize to subsequent contests.

# Piety Crushes Nebraska, 28-6

**By RON ROBERTS**  
Combining an overwhelming rushing game with a clutch defense, the Orangemen rambled to a convincing victory over the Cornhuskers of Nebraska in Memorial Stadium Saturday.

The Syracuse offense chalked up a total of 331 yards as they belted the Nebraska line for touchdown drives of 98, 59, and 92 yards, building their attack around All-American Ernie Davis.

Davis cracked into paydirt for the last two Piety scores, running his college TD total to 27, which breaks Jimmy Brown's old Syracuse record of 23.

**Express Rolls**  
The Elmira Express clattered for a total of 130 yards in 22 carries for the afternoon and was once again the most productive Hill runner.

But this was a team effort and a team victory. Fullback Bill Schoonover picked up 52 yards in six attempts, halfback Pete Brokaw netted 49 yards and eight points in 9 carries, the line just kept opening holes, and the defense got stingy when the Nebraskans got rolling.

Quarterback Dave Sarette thwarted an early Cornhusker drive when he intercepted a Nebraska aerial on the Syracuse two yard line. The senior signal-caller then led the Piety 98 yards in 10 plays, all on the ground, with Brokaw finally shaking loose for a 23-yard scoring jaunt. Davis caught the attempted conversion pass out of bounds.

**Sweeney Stars**  
Junior end Walt Sweeney turned another Nebraska drive into a Syracuse score a bit more suddenly when he intercepted a pass on the Cornhusker 45 and swiveled all the way into the end zone early in the second period. This time Sarette hit Brokaw for the 2-point PAT.

After the Nebraska offense stalled at their own 40, quarterback Dennis Claridge boomed a 59-yard punt which Davis let roll dead on the Orange 3-yard line.

But the visitor's offense was not to be denied, and with Sarette at the helm the Hillmen chewed up the 9 yards in 14 plays with Davis scoring from the five.

Just before the half ended the Nebraskans finally got their potent offense untracked and pushed down to the Syracuse 9-yard line. But the defense stiffened and dropped the hometown for three successive losses, and the half ended with the ball on the 25.

The third quarter went scoreless, until sophomore quarterback Bob Lelli, called on to lead the first unit in the fourth quarter after Sarette bruised his shoulder, engineered a 92-yard march consuming 13 plays. Davis got the touchdown from one yard out, and Lelli added two points on a roll out option.

**Nebraska Scores**  
Nebraska got on the scoreboard late in the last period, when Rudy Johnson made a 42-yard runback, and Thunder Thornton galloped 33 more. Thornton smashed into paydirt

four plays later to end the scoring. The victory was a decisive one for the Orange, but it was also costly. Lelli and sophomore end Dick Bowman both sustained

broken hands and will be sidelined indefinitely. Inside tackle Dick Fiedler and Sarette were both bruised in the rough contest, but are expected to be in

shape for the Penn State trip next week. Davis was selected the best Syracuse back, and Bob Slem got the nod as the top lineman. Coach Ben Schwartzwalter had

praise for these men, John Brown, and a host of others. He also commented on the fine play of the Nebraska team, especially their speedy backfield.

## '62 CORVAIR MONZA

### NEW FACE, SAME SPORTING HEART

We might as well tell you straight off: Corvair's the car for the driving enthusiast. Think that lets you out? Maybe. Maybe not.

Until you've driven one, you really can't say for sure, because Corvair's kind of driving is like no other in the land. The amazing air-cooled rear engine sees to that. You swing around curves flat as you please, in complete control. You whip through the sticky spots other cars should keep out of in the first place. (Especially this year, now that you can get Positraction as an extra-cost option.) You stop smoothly, levelly with Corvair's beautifully balanced, bigger brakes.

And Corvair's found other new ways to please you this year. A forced-air heater and defroster are standard equipment on all coupes, sedans and both Monza and 700 Station Wagons. So are dual sunshades and front-door armrests and some other goodies. You'll note some new styling, inside and out. Nice. And safety-belt installation is easier, too, and cheaper. Another extra-cost option well worth considering is the heavy-duty front and rear suspension; it turns a Corvair into a real tiger.

So you can see we haven't really done much to Corvair this year. Why on earth should we? If this car, just as she is, can't make a driving enthusiast out of you, better take a cab.

A New World of Work

And here's America's only thoroughbred sports car, the '62 CORVETTE. We warn you: If you drive a Corvette after your first sampling of a Corvair, you may well end up a two-car man. And who could blame you?

See the '62 Corvair and Corvette at your local authorized Chevrolet dealer's

# Dr. Pardee Urges

(Continued from Page 1)  
 tion, students learned the meaning of honor and academics with the emphasis placed on outside activities, stated Dr. Pardee.

It was the hope of Dr. Pardee that Syracuse University would instill the feeling with an honor code and do away with old but failing customs on campus. This, thought Pardee, might be a logical answer to the problem of cheating.

As chairman of the Parking Committee, Dr. Pardee discussed his great concern over this campus problem. He believes the major difficulty stemmed from the change in city laws (alternate side of the street parking) and inadequate parking areas around fraternity and sorority houses.

"As householders, it is the responsibility of the fraternities and sororities to provide parking for their own members, not that of the university," he stated. The administration has problems finding adequate parking space for its staff, faculty and commuting students, said Dr. Pardee. But the university is taking care of this problem slowly but surely, he affirmed.

### Ethical Standards

In essence, said Dr. Pardee, the accompanying problem of cars on campus is their effect on the academic and ethical standards of the students. Students violate the university rules on cars, thus lowering the standards of the whole student body, said Dr. Pardee. His major objection to having cars on campus was that "it upsets the students, and causes undue attention."

"This problem could be solved," said Dr. Pardee, by increasing the police squad, which admits defeat and involves unwarranted costs. Ideas have been sent to the Senate and Chancellor, but as of yet have not been acted upon he stated. "Students were also given the use of the Collendale parking field, which they rejected," said Dr. Pardee. However, the committee is still seeking a good idea, not a pious hope, he said.

Asked his opinion of science-math students as opposed to social science students, Dr. Pardee noted a "interesting phenomenon. Gradually more and more students have been drawn into science," said Dr. Pardee. The program of honors in the social sciences, though feasible, is the actual undergraduate program for majors in science, he stated.

"The mathematics major does not spend his time searching for answers as to what to do with his life," said Dr. Pardee. He has an interest and must apply his knowledge gained in college to make his living, he stated. Exclusion of outside reading in math courses, said Dr. Pardee, have enabled science-math students to take more electives.

This increase in mathematicians might have been spurred on by the Russian race for power, Dr. Pardee thought. However, prestige, challenge and satisfactions also enter into the picture, he said. Although in the past few years science majors have increased, it must not be understood that there are enough in the field now, Dr. Pardee stated firmly, "we are always in need of new people."

The ideas and theories of a mathematician do reflect in his life outside the university, said Dr. Pardee. "There is a great

deal of freedom associated with academic life," he said. This freedom is exhibited in the Pardee family's numerous trips to the west coast and through other areas of the United States.

"Like most mathematicians," said Dr. Pardee, "I am very poor in adding and subtracting. My wife checks my totals in our check book." The father of three daughters, Dr. Pardee loves swimming, sailing, picnics, and travel. Used to the cultural benefits of San Francisco, Dr. Pardee stated that his family did not participate in many cultural functions in Syracuse, but made up for their winter loss during the summer.

People who like to be waited on are the hardest ones to be cured of their ailments.

Most of us are beginning to learn that the cost of experience has gone up like everything else.

# Flint Girls Like 'Ladies' Night

A homey atmosphere rather than the impersonality of a large hotel invaded Flint Hall during its first "Ladies' Night" last Wednesday evening.

Instead of a showcase, the lounge became a place where girls could relax from their studies without being labeled a lobby sister. This casual atmosphere induced many girls to partake of activities to a greater extent than before.

Singing around a piano was revived. Strains of old and new songs could be heard throughout the dorm. In addition, ping pong tables were set up for those with athletic inclinations.

The relaxed dress regulations could be seen in the attire of the local residents who found as much enjoyment in wearing Bermuda shorts and slacks as did the girls.

Most of the girls feel that Flint should have a "Ladies' Night" at least once a week.

They feel that a lobby without boys creates a more congenial atmosphere among the girls and is more conducive to meeting new people as well as including a larger number of girls to use the lounge.

Some girls even advocate a "Ladies' Night" four nights a week. Present plans however include only one night a week reserved exclusively for the ladies.

## 'ON' PIX INFO

Seniors who were unable to pick their appointments for Onondagan pictures are asked to report to the Trophy Room of the Men's Gym at assigned hours this week, appropriately dressed.

The hours are: Monday through Thursday, 9 a.m. to 12 noon and 1 p.m. to 5 p.m.; and Friday, from 11 a.m. to 2 p.m. and 3 p.m. to 6:30 p.m.

1956 BUICK Special 2-door hard-top. \$400. Good condition. Call after 5 p.m., GR 2-4849.

## Clifford Urges IFC Immediate Overhaul

**EDITOR'S NOTE:** This is the first of three articles to appear this week on the fall IFC conference. Tomorrow's article will deal with important decisions reached by the various committees and the President's address.

By ADAIR DUFINE and GERRY FERRICK

The Inter-Fraternity Council Fall Conference, working under the theme of unity and accord among its members, was urged to carefully analyze the true worth of its fraternal system by Dean of Men Earle C. Clifford at the banquet dinner on Friday night.

Using the topic the "Best Defense," Dean Clifford reviewed his first hundred days as Dean of Men at Syracuse University, the causes of the problems facing the fraternity system, and suggested solutions in his key-note speech.

Various problems greeted him upon entry to the university, but the high caliber of leadership revealed itself immediately through the executive members of the Greek system, said Dean Clifford.

However, the fraternity system must be definitely examined and its basic fault revealed. The "30 tight little islands" system cannot continue if fraternities are to survive, said Clifford.

### Leadership Impresses

Impressed by the leadership of the fraternal system as a whole, Dean Clifford expressed his disappointment with the apathetic attitude of individual fraternities in regard to each other.

The leadership and structure found in the fraternity system does not reflect the needed results for top performance, said Clifford. As 30 little islands this is impossible, he said, therefore a careful evaluation of the basic causes for this apathy must be examined.

Dean Clifford stated that time was running short for the improvement of the fraternity system. A new program must be tailored for a modern society, and not satisfy itself with the out-dated theories of the 1930's, he said.

### 'Marked Time'

In the thirties, "fraternities marked time," Clifford said, "while the universities and colleges moved ahead." The forcing brought respite and the Greek system served the purpose of increasing housing, thus aiding its growth, he stated. However, with the birth of the fifties the fraternal system found itself deeply entrenched in the ideas of the

past, Clifford maintained.

"In the 1960's the Greeks are on 'trial' and their out-dated system has suffered from dwindling support by members and pledges, stated Dean Clifford. This defensive attitude, bred from years of stagnation, is the major fault of the modern fraternal system, Clifford said.

"The difference between a good team and a bad one is attitude," the dean observed. "The attitude of the Greek system, apathy and defense, is wrong and can be considered the cause of major fraternity problems, he stated.

Each member of the fraternal system should consider the other member and not exist as a separate island, Clifford said.

### Modernization

Modernization, starting with a year long study of the Syracuse fraternity system by the undergraduates, and a scientific analysis of rushing procedure, is a possible solution to the dying system, stated Dean Clifford. The Greeks should have the courage to be creative and experiment to improve themselves. "The best defense is a good offense," he said.

The acceptance of responsibility by the Greeks would lead to a re-evaluation of school ethics, Dean Clifford said when asked his feelings on drinking on campus. "The best social functions are ones which do not impose this responsibility on a person to drink," he said.

Since the fraternity system influences the ethical responsibility of the campus, drinking at fraternity parties will remain opposed by the administration, he added.

The question of liquor is a set policy that does not come before (Continued on Page 6)

## Fiser Addresses Young Democrats On Urban Renewal

By REA TURBT

"There must be cooperation between private institutions and the city form plans for expansion in the Syracuse University area." Thus maintained Dr. Webb S. Fiser, associate professor of Political Science and Democratic candidate for councilman-at-large, in a speech delivered yesterday to the Young Democratic Club in Maxwell Hall.

Fiser discussed the problems of urban renewal, and the effect of the university on the city of Syracuse through its expansion.

The university is expanding toward Thurston Park and is going to Harrison Street. This is going to cause a displacement problem for the people who are now living in that area. They will probably move to the area north of the university, thereby over-crowding that area. A housing code for one and two family houses will be called, Fiser suggested.

### Substandard

Fiser called Marshall Street a substandard area, with substandard housing. Eventually the buildings on Marshall Street will have to be torn down, he said.

The cooperation between the university and the city of Syracuse becomes evident when one considers the traffic problems, and the taxes, Fiser observed.

As the university buys property, it is no longer taxable by the city. This throws a greater burden on the city people who have to raise the additional money. As mentioned, he suggested industrial research between the city and the university as a possible solution.

### Cooperation

Cooperation between the university students and the residents is an important factor in good-neighbor relationships. Fiser (Continued on Page 7)

## Compromise Kills Short-Lived FFE

By AUDREY LIPPMAN and ANDY PORTE  
The week-old organization, Freshmen For Free Elections, is no longer in existence as a result of a meeting Monday night in DellPlain Hall.

FFE, Campus Alliance Party and United Students Party leaders reached a compromise after a stormy two and a half hour discussion of the role the freshman class will play in nominating and campaigning for candidates in the Nov. 1 freshman elections.

The three groups finally decided that CAP and US will both hold nominating conventions Thursday and to each of these all freshman voting centers will select two representatives who will have nominating and voting powers.

At the end of the meeting, former FFE Chairman Robert Stern said in the group's purpose of getting freshmen a voice in the elections had been accomplished. A motion was unanimously accepted to disband the group.

Stern said, "our purpose has been fully realized, it would like to thank all the people who put their hearts into this organization."

CAP President David Chase and US President Ellis Gaskell were invited to the party by the now-defunct FFE to present the views of their parties on the situation.

Chase claimed that the real battle that FFE had fought was to "draw lines between freshmen and upperclassmen." He said it was "strange" to him that FFE could turn down the parties' offers of campaign advice and financial aid.

Gaskell told the gathering he did not think FFE "is the best idea in the interests of your class" and that "certain understanding of how the party system is set up," he said.

He listed the advantages of the party system as a structurally superior slate, advice from experienced upperclassmen and financial support.

In answer to accusations made by the party presidents, Stern replied that FFE had issued ultimatum to the parties to stay out of freshman politics. After the forty freshman representatives had approved the move to send delegates to the conventions, Chase and Gaskell issued a joint statement:

"US and CAP will offer to the freshman Class of 1965 equal representation at nominating conventions; i.e. two representatives from each floor and living centers will be accepted as voting delegates into the convention with the exception of themselves to loyalty to either party."

The possibility of having a committee to insure the rights of the freshmen was also mentioned. (Continued on Page 7)

Quartet, the NBC Symphony Orchestra, in the Music Center at the Box Symphonette.

In 1938 Sukenig married the former Shirley Eron of New York City. From 1940 to 1948 Sukenig taught at the Juilliard School.

He graduated from the City College of New York in 1927 and received degrees from the Juilliard School of Music and the Juilliard graduate school. Sukenig also studied at the American Conservatory of Music in Fontainebleau, France, where he won the Chickering Prize.

In 1930 the fast - progressing musician made his first public appearance with the Berlin Symphony Orchestra. Recitals in Dresden, Vienna, Hamburg, Budapest and London, followed.

After making his Carnegie Hall debut in the same year, Sukenig played with the Perole String

## Hill Mourns Death of Sidney Sukenig

PROF. SIDNEY SUKENIG

One of Syracuse University's best - known faculty members, Prof. Sidney Sukenig, died Saturday night at Memorial Hospital after a short illness.

Sukenig was Professor of Piano in the College of Fine Arts and director of the Hill School. The 54 year - old professor came to Syracuse in 1948 with extensive professional experience. A native New Yorker, he previously had been a member of the Juilliard School of Music for eight years.

### Musik Critic

In addition to his work on the Hill, Sukenig was a music critic for the Syracuse Herald-Journal and Herald - American.

He is survived by his wife, Mrs. Shirley Sukenig, three sons, Alan, David and Martin, a sister and a brother. The family resides at 418 Fellows Ave., Sukenig, the son of Cantor

and Mrs. Abraham Sukenig, studied piano under his father's tutelage. At the age of eight he accompanied his father at song recitals. When he was nine years old, Sukenig was a soprano soloist for the boys' chorus at the Metropolitan Opera Co.

### Juilliard School

He graduated from the City College of New York in 1927 and received degrees from the Juilliard School of Music and the Juilliard graduate school. Sukenig also studied at the American Conservatory of Music in Fontainebleau, France, where he won the Chickering Prize.

In 1930 the fast - progressing musician made his first public appearance with the Berlin Symphony Orchestra. Recitals in Dresden, Vienna, Hamburg, Budapest and London, followed.

After making his Carnegie Hall debut in the same year, Sukenig played with the Perole String

### Kaddish Prayer

Rabbi Louis Nimsin, a personal friend and colleague of Sukenig, announced that a Kaddish prayer in Sukenig's honor will be said at regular Jewish services Friday evening.

"I enjoyed my relationship with him . . . he was conscientious, sincere and hard - working . . . his death is a loss to the total cultural life of the campus," the Rabbi said.

Prof. Kirk Ridge, acting director of the School of Music, commented, "He will be sadly missed as a professor, a performing artist and a colleague. The faculty feels his loss very deeply."

## UPPERCLASS FRATERNITY RUSH TONIGHT

Upperclass fraternity rushing will be held between 7:30 and 9 p.m. today, according to Inter-Fraternity Council Rushing Chairman, James Tallen.

All upperclassmen participating with the exception of first semester transfer students are eligible to rush. Delta Upsilon, and Zeta Psi are the only houses not open for rushing. For more information should call Tallen at GR 5-7954.

## Sidney Sukoenig

University life is something like living in a small town. It is a sequestered existence that creates a feeling of closeness for all university people, students and faculty alike. For this reason a faculty member's death often involves a great feeling of personal loss for many students who have spent hours, months and perhaps even years under one man's tutelage. But the death of Sidney Sukoenig of the School of Music is a great loss to not only this campus but to all the people who knew and appreciated his talents since his first Carnegie Hall recital in 1930. Sukoenig was an accomplished artist whose name was known to music lovers throughout the world. Since his student days in New York City at the Juillard School for Music his talents were recognized as being exceptional. The New York Times said of him after his 1930 recital: "There is no question that he has unusual talent and the instinct of the born virtuoso." Sukoenig came to Syracuse in 1949. He was born in New York, the son of a Cantor, and graduated from the City College. In some ways, perhaps, his life can be seen as representative of an element of society which has greatly contributed to all the arts in America. His loss grieves all his admirers, all of the many Syracusans who looked forward to his frequent concerts in Crouse Hall and his students. All of us at Syracuse will sorely miss him.

## Nuclear Lectures

In this month's issue of Scientific American a small section is devoted to discussing the fact that a super nuclear bomb of 100 megatons or even its equivalent in four 25 megaton bombs dropped on New York would be adequate to "incinerate" and completely devastate an area stretching from Bridgeport, Connecticut to Trenton, New Jersey. It concludes with a statement to the effect that mankind is making steady progress in making his complete annihilation possible. This is particularly interesting in light of the almost frenetic rash of fallout shelter builders of past weeks. Unfortunately, despite the great publicity that has been given to these people the dissemination of scientific information concerning the whole problem has not been adequate. Today the principles and problems of surviving an atomic disaster will be the topic of an 11-lecture series sponsored by the Hill Civil Engineering department. A lecture on "Nuclear Energy—Phenomenon and Protection," will be held every Tuesday afternoon, discussing a different aspect of the whole problem. A little factual knowledge instead of the pseudo-scientific jargon we usually hear could benefit those students who are wise enough to attend.

By JEANNIE RANOV  
Turning from the glories of the Syracuse scene we would like to discuss a more serious topic this week: the fraternity system and discrimination.

At the outset, we'd like to point out that members of fraternities or sororities are far more qualified to praise or condemn the Greek system than independents, for the logical reason that the Greek knows the outlook both from behind the pin and without it. He was an independent for a semester, a year, or two years before he joined a house.

The unaffiliated student, however, can criticize only from his viewpoint as an outsider to Greek tradition. His knowledge of it comes from hearsay and from publicity concerning trivia that are only minor segments of the complete system.

So, speaking as a Greek who was once an independent, we are definitely in favor of fraternal associations. We recognize their many good qualities that contribute so much to a richer four years in college, and we hope that the few problems that beset them at present are soon cleared up.

One of these problems now receiving much attention is discrimination.

We weren't at all happy with the editorial in *Fraternity* that slammed "this bitter aspect of fraternity life" and warned freshmen they would have guilty consciences if they were Greek knowing that the house they chose was restricted in its membership.

Many, many Greeks on this

campus are deeply concerned about restriction clauses. They are not just concerned; they, and Greeks across the country, are waging a battle with the national organizations to have these clauses removed from their constitutions.

The stumbling block is the fact that the South is the birthplace of a number of Greek societies. Southern prejudice from the beginning placed these restrictions in the constitutions, and they are as painful to pluck out as any other segregation laws.

But we are sure that the new enlightenment of tolerance and acceptance that is taking its first steps across modern decades will banish "the rotten taste" of houses that preserve a fraternity from pledging wonderful people because the national organization dislikes their color or faith.

There are several national fraternities and sororities on the Hill whose members are not all white Christians or all Jewish. There are several local non-sectarian houses.

Quite probably the national groups on campus have difficulty pledging the students outside the ethnic and religious groups their nationals accept. Probably there will be only one Oriental girl pledged to a house of white Negroes taken by a fraternity. Big slow and sure will have to be the motto.

Pressure is being exerted by state governments and by university administrations on fraternities to drop restrictive clauses. This is good, but a

—LETTERS—

## Readers Discuss Greek Life

To the Editor:  
It might be wise for Daily Orange readers to consider the other side of the coin in reference to the editorial of Friday, October 13, concerning "Fraternity Clauses."

All secret organizations run the risk of having their methods and motives questioned by those who cannot fully appreciate the situation. There is always a danger that obvious aspects of such organizations may appear biased to the uninitiated. There is usually a logical explanation for anyone willing to take the trouble to seek it out. The fraternity system at Syracuse University may well have fallen victim to this danger.

In the majority of cases, Greek houses are founded on a

religious basis. At the heart of their rituals and traditions lie various theological ethics and concepts. There has been a seemingly restricted aspect of many fraternities has stemmed not from racial hatred or religious intolerance, but rather from the knowledge that by a certain individual may not concur with the ideology of the fraternity.

Indeed, a Jew would not support the principles of a Christian fraternity, any more than a Catholic would endorse the Knights of Columbus, or a Roman Catholic would endorse Masonic membership.

To cross these lines would violate the conscience of any individual firm in his beliefs.

In this vein, let the future rushee concern himself not with the negative, but rather with the positive. Let him choose the organization whose principles and background most closely harmonize with his own conscience. Thus he may justify his fraternity membership as readily as he justifies his own philosophy of life.

Gordon P. Lewis  
Lambda Chi Alpha

To the Editor:  
It is no secret that the national fraternity movement is beleaguered by criticism from all sides. In some notable instances the call to abandon

blanket statement issued to a campus that all houses must drop clauses or go off campus is short-sighted.

The remedy necessary to drop clauses, again, takes time, and there's no use getting all heated about it. No wonder unfortunate schools where this occurs refuse the administration of trying to get rid of the Greek system, not of defects in it.

In the meantime, as long as we know that steps are being taken to remedy the situation, why prevent students presently acceptable from enjoying the benefits of fraternal life?

We've never too much for the theory that says: "Well, if I can't have a piece of pie, then nobody can." As long as the pie is being brought within the reach of everyone, let those who are not hungry for it there will be plenty more for the latecomers.

As a parting thought, let us remember that freedom of choice is not to be taken passively, if your house happens to have no restrictive clause, you don't have to take a Negro just because he is.

Also, it should be remembered that the dropping of clauses only takes away formal barriers. Discrimination can be present no matter how all-embracing a fraternity's constitution may be.

When all the bitter clauses are disposed of, discrimination and prejudice are seen to be the unwritten, human, personal issues that they always were. They can be taken from a charter, but they cannot be amended out of a heart.

them comes from within undergraduate fraternity groups.

In the face of severe and accurate accusations, however, the response of national fraternity executives has tended to be juvenile and intellectually destitute. As a fraternity man I find this embarrassing. Greek spokesmen continue to bring the same old axes of "social guidance" and "academic discipline" to the grinding wheel of astute criticism, which makes short of such rusty tools.

I frequently have the dubious privilege of rolling out of bed to gaze with heavy eyes into the telephone directory to find the listing for some Greek house to request semblance of quietude. I do not see that freedom of expression entitles anyone to invade the privacy of the fellow students and the local citizenry by destroying the conditions essential for study or sleep.

When I level criticism directly at an offending party, some members of the group inevitably join me in the castigation. Yet I have been unable to elicit an adequate justification from any of these same men as to why they did not act against offending brothers before it became necessary for an outside party to do so. That such group ineffectiveness is possible in light of current criticism is incredulous.

In all the apologetics concerning fraternities I have yet to hear their one pertinent response: "To wit, on such a large campus where economic necessity demands large dormitories, the fraternity remains one place where the individual may adequately relate himself to a small community. The justification of such an enterprise, however, presupposes a sense of responsibility not only for self but for the whole group." The question of the day remains: where is it?

Don C. Shinner  
— Director, Chapel House

"I see the upperclassmen are entering into the spirit of the thing."

## Daily Orange

MEMBERS OF THE KEN BOWLES CO. are shown rehearsing for a production of "Rain," adapted from a story by W. Somerset Maugham, to be presented at the University Regent Theater this weekend. From left to right are: Dorothy Lusk as Mrs. Davidson and Ken Bowles as Dr. MacFabbil.

## 'Rain' Will Open At Regent Theater This Weekend

"Rain," the play based on a short story by W. Somerset Maugham, will be presented at 8:30 p.m., Friday, Saturday and Sunday at the University Regent Theater.

This play, the first production in the 1961-62 season of the Ken Bowles Co., concerns a fanatic missionary who tries to reform Sadie Thompson, an unrepentant prostitute. In trying to change Sadie, he discovers in himself an unsuspected sensuality which brings about his own ruin.

Ken Bowles, who directs this production, formed his own company in 1957 after working closely with the late professor Sawyer Falk.

One of the few theater groups which had Hill drama students working on its presentations in the current production, senior majors in the costume design department of the School of Fine Arts have designed the costumes.

John Annas, a student at University College, will play the part of Pvt. Griggs and Karl Stoeker, a Fine Arts major, did much of the posters, displays and special art work for "Rain."

Tickets are now on sale. For further information call GI 6-1740 or GI 6-1035.

## Faculty Art Show On Display at Lowe

The works of George Vanderluis, one of the 40 members of the faculty whose works went on display last week at the Lowe Art Center, impressed this reviewer more than any other paintings or series of paintings at the hanging. There is a simplicity and direct power about the few textured, dulled colors of his "canvases."

Compared to these, the other abstractions of Dwyer, Clark and Pollack seem confused, cluttered, almost gross rather than subtle. Dwyer, however, almost reclaims himself by a unifying theme in his painting. But this was revealed by the title "Fevraldie Trig" rather than the work itself.

Clark's abstracts were haunting by his somewhat weird, offbeat "Figures at the Beach." Unfortunately, nothing could be said of Pollack's paintings, whose unrefined, repetitive of common "Abstract" shapes had a dulling effect upon this viewer's mind.

The representational paintings of Robert Marx appear more intellectual and less direct than Vanderluis' paintings. This reviewer's comparative lack of involvement in Marx's works represents more his own prejudices than Marx's work. His one linograph, however, is quite moving.

So is Robert Pfister's ink drawing of "Deer." Churman Montagne's painting seemed a cliché of idea and technique, while the slickness of Vargo's "Winter Harvest" spoiled something that could have been fitted.

Zapkus' mess of shapes can only amuse a reviewer, regardless of the size of the canvases. Perhaps the works that came closest to evoking a similar quality of emotion as Van-

derluis were William Meehan's water colors. Again, the simplicity of color and form was most moving.

Brenda Bullion's "Seated Woman" was the most dramatic of the sculpture. Again, the direct, simple (for three dimensional work) white plaster shape was most powerful. While Edward Chavez' small bronzes were attractive, they appear frivolous by comparison.

Fred Hauke's paintings and drawings have a raw, honest quality. Despite the fact that what he is saying is not too apparent, they are a lot of fun to look at.

One must mention also two charming drawings by Edward Fricke and Dohman's expert designs.

# Frosh Gridders Beaten By Navy

By DICK STOKVIS

Failure to take advantage of numerous scoring opportunities was the key factor Saturday, as the Syracuse frosh eleven went down to defeat, 8-0, at the hands of host Navy. The loss was the first experienced by coach Jim Shreve in his three years on the Hill.

Throughout the contest, played on a muddy field and through steady rain, the Tangerines were in a striking distance of the Middies, but each time the Syracuse attack faltered. It was in the second period, after the Tangerines fourth down punt traveled a mere 13 yards, that the unbeaten Middies scored the only touchdown of the day.

Navy quarterback Roger Straubach led the Midshipmen six plays before hitting Darrel Hill on a 12 - yard screen touchdown pass. Straubach then faked a kick and ran for two center points.

Hill, a 155 - pound halfback, earlier sprinted fourteen yards from the Hill 16 to the two yard line. There, Dave Round of Syracuse dumped Straubach for a six yard loss, and subsequently, the Tangerines gained possession.

But after failing to gain ground in three tries, the Hillmen punted for only thirteen yards, thus setting up the tone score of the game.

From the start, it looked as though the Hill cubs would have a rough time getting their offense moving.

After having no scoring chance bottled up in the first quarter, Herb Etzold recovered a Navy fumble on the Middies 28. Following a Syracuse 15 -

yard penalty, Etzold circled right out for a 12 - yard pick - up, but Navy halfback Dave Webster crushed the rally by picking off a Hill aerial two yards from the goal line and returning it to the eighteen.

Again, the Tangerines saw golden opportunities. Either away. Guard Gerald Everling picked up a loose ball in the second half as Syracuse gained possession on their own 46. But after two first down plays, the Hill track spluttered and the Middies regained possession on their own 25 - yard line.

A 75 - yard penalty set Navy back to the five before the Midshipmen picked up five yards, and then fumbled again. Syracuse quarterback Dick King recovered the loose ball on the fifteen with 2:00 remaining in the game.

Four plays later, Syracuse lost the ball on downs and the Middies, once again on offense, ran out the clock.

For the Midshipmen it was their third triumph of the season, and for Syracuse, it was their first defeat in as many starts.

Syracuse and Maryland have played just 10 football games to date, but one or both of the squads have failed to score in six of the 10 contests.

# Francello Sets Track Record At Buffalo Meet

Joe Francello, for the second time in successive meets, has set course records. Francello's latest feat was set on the quad of the University of Buffalo, as the Harriers from Syracuse defeated the Bulls 16-47 on Saturday afternoon.

Francello broke the three year old record of Larry Sweet of Alfred as he completed the 4 1/2 mile course in 22:17.6. This was more than 46 seconds better than Sweet's old record of 23:3.10.

Following behind team captain Francello was Mouncey Ferguson 23:11, Jack Dickey 23:14, and Mike Guzman 23:14, all of Syracuse. Buffalo's only placement in the top seven was Jim Stevenson who finished fifth with a 23:18 time. Mike McGuire and Dick McHenry of Syracuse finished sixth and seven with clockings of 23:52 and 24:03 respectively.

### Frosh Also Win

In 11 frosh meets, which preceded the varsity meet, the course record was also broken. Tom Higgins of Syracuse finished the 2.5 mile course in 12:29.7, one tenth of a second better than the old record.

The frosh harriers took this meet from the frosh Bulls 25-31, for the first frosh victory of the season. In their only other meet they tied the frosh of Colgate at Durham 28 - 28. John Katz of Buffalo finished second, with Cal Evans and Tom Driscoll finishing third and fourth for Syracuse. Behind them came three Buffalo runners, Todd Brown, Tony Torrico and Bill Durham, to finish out the top seven.

This is the second time in the last two years that the varsity and frosh cross - country teams have both beaten the varsity and frosh teams of Buffalo. The varsity victory handed the Bulls their second loss against three victories, while it increased the Harrier victories to two against no losses.

This meet also increased Francello's undefeated dual meet record to seven straight five last year and two so far this year.

Couch Bob Grieve expressed great satisfaction with Francello's performances as well as with the rest of the team has been performing. This Friday Grieve will take his harriers to West Point where they will meet Army that same afternoon. Grieve will be trying to avenge last year's defeat, when Army edged out the Syracuse runners at West Point.

Syracuse University football coach Ben Schwartzwalder calls starting inside tackle Tom (AJ) Spilletti, a 250 - pound senior from Syracuse, his most improved lineman.

## Intramural Competition Starts Second Week; Rifle Begins

This is the second week of competition for most intramural sports.

Rifle teams begin action today at the range in the basement of Archbold Gym.

Bill Howard requests team managers to avoid forfeits. The first week saw numerous cancellations swimming and football action.

### TODAY'S SCHEDULE

- Touch Football
  - 7:00 - Aecia vs. Zeta Psi.
  - 7:45 - Alpha Tau, Omega vs. Phi Epsilon Pi.
  - 8:30 - Sigma Chi Psi vs. Delta Tau Delta.
- Bowling
  - 6:15 - Sadler 8 vs. Hurst, Marlon 2 vs. Watson E2, Sadler 2 vs. Dell Plain 2.
  - 6:15 - Watson E3 vs. Sadler 6, Marlon 3 vs. Dell Plain 6, Sadler 3 vs. Dell Plain 3.
- Rifle
  - 7:00 - Watson E4 vs. Marlon 1.
  - 7:30 - Dell Plain 1 vs. Mott 1.
  - 8:00 - Marlon 3 vs. Dell Plain 8.
  - 8:30 - University 1 vs. Dell Plain 6.

- 9:00 - Hurst vs. Dell Plain 7.
- Swimming
  - 4:20 - Dell Plain 5 vs. Dell Plain 8, Skytop vs. Sadler 8.
  - 4:40 - Lambda Chi Alpha vs. Phi Epsilon Pi, Wats on E2 vs. Watson E4.
  - 5:00 - Marlon 1 vs. Sadler 3, Watson E1 vs. Watson E2.
  - 5:20 - Dell Plain 1 vs. Dell Plain 4, Dell Plain 2 vs. Dell Plain 3.
  - 7:30 - Dell Plain 6 vs. Dell Plain 7, Phi Sigma Delta vs. Sigma Alpha Epsilon.
  - 7:50 - Tau Delta Phi vs. Zeta Beta Tau, Beta Sigma Rho vs. Delta Kappa Epsilon.
  - 8:10 - Phi Delta Theta vs. Phi Gamma Delta, Psi Upsilon vs. Sigma Alpha Epsilon.
  - 8:30 - Wilson vs. Mott.

# Notre Dame Rolls Along As Only Undeclared Foe

By DAVE DEAN  
Associate Editor

The Irish of Notre Dame remained the only undefeated Syracuse rival opponent following Saturday's action, by virtue of an overpowering 30-0 victory over the Trojans of Southern California. Both Maryland and Nebraska fell from the unbeaten ranks as a result of wins by North Carolina and Syracuse, respectively.

In other action, West Virginia, Colgate and Holy Cross each recorded its second win of the campaign with Oregon State, while Penn State, Pittsburgh and Boston College suffered setbacks.

Prepping for Saturday's meeting with highly-ranked, and undefeated, Notre Dame overwhelmed the Trojans with a ground game which netted 322 yards for the Irish and minus four for their opponents.

**Three Touchdowns**  
Quarterback Doyle Laonica led the way as he scored a pair of touchdowns and passed for a third; Joe Perkowski added three extra points and a 49-yard field goal.

The strong Irish defense threw Southern Cal's quarterback for a total loss of 123 yards in breaking up 14 plays.

Maryland's hoped - for perfect season ended at three games as North Carolina turned two fumbles into touchdowns to top the

Terrapins, 14-8. Both scores came in the third period; and in both cases, halfback Gil Carson fumbled on the Maryland one with a Carolina back falling on the ball in the end zone.

### Six Long Years

The Red Raiders of Colgate, in upsetting Harvard by a 15-0 score, put together back-to-back wins for the first time since 1955 when they defeated Princeton and Yale on consecutive weekends.

Following a 13-0 win over Bethel (Vt.) in the first consecutive shutouts since 1942, when Syracuse and Brown were the victims.

Danny Keating and Jim Heilman were the big men for the Raiders; Keating scored once, passed to Heilman for another tally, and the pair combined again for two extra points.

### Winning Streak

At Pittsburgh, the Mountaineers of West Virginia, who just last week ended an 18-game winless streak, handed the favored Panthers their third loss in four attempts, 20-6.

West Virginia scored early on a recovered "forward fumble" into the Pitt end zone, and never relinquished the lead.

Boston University scored first, but reserve quarterback Bill Joern and end Tom Hennessey brought Holy Cross back for a

second straight win, 20-7. Hennessey scored twice, once on a Joern pass, and the signal-caller also plunged for a touchdown of his own.

### Narrow Escape

In an inter-sectional battle, Wisconsin scored all of its points in the first half, and then barely withstood an Oregon State rally for a 23-20 win.

Quarterback Terry Baker led the way for the Beavers, who scored on 20- and 24-yard drives in the last half, also turning a fumble into a third tally. Baker capped both drives with touchdown passes to end Roger Johnson.

In another upset, the Cadets of Army topped next Saturday's Hill opponents, Penn State's Lions, by a 10-6 score. It was kicking which made the difference; Army scored first and an extra point kick gave them a 7-6 lead after Penn State's conversion attempt failed. A Dick Hoyt field goal only added to the margin.

On Friday night, Detroit remained undefeated with a 20-3 win over Hill foe Boston College. It was the third straight loss for the Boston team, which fell before the passing prowess of Junior quarterback Jerry Gross, who passed for 196 yards, including touchdown heaves of 43 and 57 yards.

# Davis Paces Pietymen In Offensive Statistics

Ernie Davis' sparkling performance against Nebraska Saturday enabled him to move farther out in front of his teammates in three statistical departments.

The Elmira Express leads the Orangemen in rushing, pass receiving, and scoring. Along the ground he has gathered 334 yards, and needs only 195 more yards to establish an all-time Syracuse rushing record.

In the pass receiving category, the fleet halfback has grabbed eight passes for 89 yards and one touchdown. He has already passed Jim Brown's career touchdown record, with 27 trips to the end zone.

### More Ernie

Davis is also threatening Brown's career scoring standard of 187 points. Ernie has already collected 170 points, 44 this year, and so it seems inevitable that before he's through the pride of Elmira will have smashed another mark.

In the passing department, senior signal-caller Dave Sarette is setting the pace with 20 completions in 35 attempts for 269 yards and four touchdowns. Understudy Bob Lelli has connected on nine of 13 tries for 96 yards.

Sophomore John Snider, who has done almost all of Bill Orange's punting this season, has compiled a 35.4 yards per kick average. Walt Sweeney, John Humphreys, Bob Stem, and Snider have each intercepted one pass, and Sweeney returned his 50 yards for a touchdown against Nebraska.

Schoolover Impressive

While Davis has a big edge in the rushing yardage department, his average per carry 0.54 yards is only second best on the squad. Sophomore fullback Bill Schoolover has picked up 108 yards with only 13 carries for an impressive 8.3 average.

Second to Davis in total rushing yardage is senior fullback Gary Fallon, with 128 yards in 29 carries, while Walt Sweeney runs second in the scoring department with 12 points.

## EVERY COLLEGE STUDENT needs this book

to increase his ability to learn

An understanding of the truth contained in Science and Health with Key to the Scriptures by Mary Baker Eddy can remove the pressure which concerns today's college student upon whom increasing demands are being made for academic excellence.

Christian Science calms fear and gives to the student the full assurance he needs in order to learn easily and to evaluate what he has learned. It teaches that God is man's Mind—his only Mind—from which emanates all the intelligence he needs, when and as he needs it.

Science and Health, the textbook of Christian Science, may be read or examined, together with the Bible, in an atmosphere of quiet and peace, at any Christian Science Reading Room. Information about Science and Health may also be obtained on campus through the

Christian Science Organization at

# Injuries Hamper Hill Grid Forces

By RON ROBERTS

It is a physically battered Syracuse football team that begins practice this week for its invasion of Beaver Stadium and Rip Engle's Penn State eleven next Saturday. And the worst part is that no one knows who will be calling the signals for the Orange.

Sophomore quarterback Bob Lelli is definitely out of the picture as a result of a broken right hand suffered in the Nebraska tilt. Lelli is expected to be sidelined for several weeks.

Dave Sarette, the number one field leader, came out of the scrap with the Huskers with a severely bruised shoulder and is a questionable starter.

Trainer Jules Riechel says it will be at least three days before Sarette's condition can be decided upon.

Walt Solsian, who started the year as the number two quarterback, is able to play, but is still nursing a rib injury sustained in the opening game against Oregon State.

Coach Ben Schwartzwalder was asked at a football luncheon in the Hotel Syracuse Monday that if Dick Easterly was healthy, quarterback Bill Joern (also would he think about shifting him back into the quarterback position.

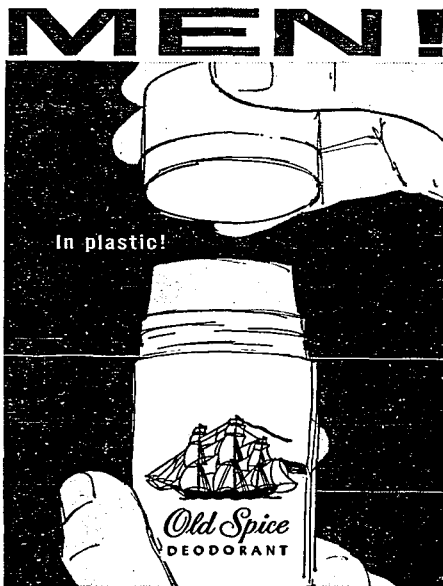

I wouldn't even think about it, replied Ben, I'd just do it.

### More Broken Hands

But the quarterbacks aren't the only members of the Orange squad with broken hands. Sophomore end Dick Bowman, who has drawn praise from Schwartzwalder for his play this year, also broke a bone in his right hand last Saturday and will be out for a month.

Tackle John Paglio is still out with a broken left wrist and may not see action for the remainder of the season.

Counting Don King's pre-season practice injury, the Syracuseans have suffered a total of five broken hands, more than enough to suit Schwartzwalder and to keep Riechel busy.

(Continued from Page 1)  
review, he said. There is no interest by the administration to change the ruling, but merely to administer it.

After firmly stating the administrative policy on drinking, Dean Clifford clarified that the policy "isn't mine." He further stated that responsibility comes with every job and it is also the duty of the Greek system to accept their responsibility.

"You've suggested that all our fraternities exist on drinking," stated Clifford. "This being true we are in worse shape than I expected," he continued. A remedy will not be the simple overhaul of Greek policy as suggested before, if the case is so serious, he said.

#### Mutual Cooperation

Cooperation must be mutual by both fraternities and administration, stated Clifford. The birth of a better fraternity system is not connected with drinking, he said.

However, speaking for the administration, Clifford assured the Council that change cannot occur overnight, including the acceptance of liquor rules.

Now is the time for the fraternity system to assume responsibility as a whole, not as 30 tight little islands, stated Dean Clifford. The attraction of the Greeks has diminished to almost nil, he charged. The system must be willing to assume the duty to strengthen itself financially, academically, judicially and to renew its leadership on campus.

Selling the fraternity system should be the goal of all members of the IFC, Clifford contended. With the exhibition of a broad outlook by the Greeks, Dean Clifford expressed the view that the rest of the campus would soon follow.

#### New Experiences

Building a variety of new experiences, social and academic, around the fraternities, and the willingness of each house to aid the other would unite the Greeks, Dean Clifford said.

## English Dept. To Bring Visiting Authors to Hill

The English department will again present the Visiting Writers' Lecture Series for those interested in creative writing.

The series will consist of five writers who will lecture on their various fields of writing. Each writer will give a lecture open to the public and will participate in a few classes in writing or literary criticism. They will also be available for a few individual conferences with students.

Stanley Kunitz, poet, will be the first lecturer in the series. He will give a public lecture at 4 p.m. on Oct. 23.

Denise Levortov and Philip Roth will visit the campus in Dec. and March, respectively, as part of this series.

There will also be two more authors, not yet announced, presented as part of this series. They will be here in Nov. and April.

**CONTROL SYSTEMS:**  
ORDERS FROM A COMPUTER  
NOW CONTROL  
GIANT OIL REFINERY UNIT

Every 24 hours, the world's largest distillation unit separates crude oil into ten different categories which end up as six million gallons of finished products.

This involves continual monitoring of 250 instruments, followed by precise balancing of controls. To operate at peak efficiency, control directions are changed many times daily to compensate for a multitude of variables.

The IBM computer that took over this job now reads the instruments, makes the calculations, and issues the orders for the control changes. It is guided in its work by over 75,000 instructions stored in its electronic memory.

Just a few years ago electronic control of such a complex industrial process would have been impossible. But such is

the progress in computer systems that in the sixties it will become commonplace.

This dramatic progress means exciting and important jobs at IBM for the college graduate, whether in research, development, manufacturing, or programming.

If you want to find out about opportunities in any one of these areas, you are invited to talk with the IBM representative. He will be interviewing on your campus this year. Your placement office can make an appointment. All qualified applicants will receive consideration for employment without regard to race, creed, color or national origin. Write, outlining your background and interests, to: Mgr. of Technical Employment, Dept. 898, IBM Corporation, 590 Madison Avenue, N. Y. 22, N. Y.

You naturally have  
a better chance to grow  
with a growth company.

IBM will interview Nov. 14.

# Compromise Kills

(Continued from Page 1)  
freshmen at the convention was discussed. However, since the freshmen delegates will probably outnumber the party delegates at both conventions, the group decided no committee would be necessary.

**Two Delegate Plan**  
The two delegate plan was finally selected after discussion and comparison with another plan. This was to require 25 signatures of students who would agree to work for the parties, in return for which they would receive one vote in the nominating conventions.

Both CAP and US stated that under the two-delegate plan that was adopted, students would have to pay no dues to the parties and would be under no obligation to remain members of the parties or to pledge the houses in one or the other party.

**Disputes Annily**  
While Stern announced early in the meeting that 81 per cent of his class had shown support for FPE by signing petitions, Gaskell told the freshmen, "We don't think you are as united as you feel you are; we don't think that you truly represent the freshman class."

Chase, assuring the freshmen that the parties did not really control the elections, said "Political parties do not pull the levers on the voting machines."

Scheduled for tomorrow is a coffee sponsored by US for freshmen interested in politics in general. It will be from 3:30 to 5 in the Hendricks Chapel Lounge.

DR. FISER

## Fiser Addresses Young Democrats On Urban Renewal

(Continued from Page 1)

ser mentioned the poor lawn situation of Greek houses during the summer as a source of friction between the neighbors.

The Thornden Park Neighborhood Council is trying to improve these relationships, and Fiser recommended that it try to improve the lawn appearances.

It isn't so much a question of the "Good guys versus the bad guys" in this problem of urban renewal, Fiser said. There are cases of both. The whole business is enormously complicated and complex. There are few who can understand it, and who can master the complexities of it.

What is needed are men who can see three and four steps ahead over those who see one step ahead. This depends on how well you can advance or take account of the situation, he observed.

Fiser has served on the Near East Side Urban Renewal Project, and was appointed by the mayor to the Citizens' Council on Urban Renewal. He was chairman of the Council's Research Committee. His book, "Mastery of the Metropolis" is to be published next February.

## Cope Knocks Authoritarians

(Continued from Page 1)  
interested in politics, have a great deal of personal flexibility, and are capable administrators with anti-authoritarian principles.

Dr. Cope expressed the wish that no inferences of right or wrong be drawn from the above. He also said that this information may not be produced without his permission.

According to Dr. Cope, the majority of SU students fall into the category of the authoritarian. They are uncoordinated in their actions but they believe what they hold is the truth. Because of the predominance of this type of individual, Dr. Cope feels that democracy, standing for and acting with anti-authoritarian principles, is in danger.

## Dr. Snow Elected To Ed. Assembly

Dr. Robert Snow, program administrator at University College, has been elected to a two-year term as a member of Delegate Assembly, the national governing body of the Adult Education Association of the USA.

Dr. Snow came to Syracuse in 1960, after serving as Director of Adult Education in the Schenectady school system. He is the author of Community Adult Education, and has written numerous articles for professional journals.

## Ten Coeds Now Little Sisters

Ten coeds started their activities this fall as Little Sisters of Minerva, the campus women's auxiliary group of Sigma Alpha Epsilon.

The ten coeds, chosen last spring after three informal rush coffees were: Jane Vrooman, Kappa Alpha Theta; Carol Huppeler, Kappa Alpha Theta; Rae Kessner, Alpha Phi; Ruth Ann Danks, Alpha Phi; Penny Lapham, Kappa Kappa Gamma, Sue Russell, Sigma Kappa; Bonnie Seeman, Sigma Kappa; Beth Jensen, Gamma Phi Beta; Pat Healy, Alpha Chi Omega; and Janet Ross, Delta Gamma.

The "Sisters" will aid the "SAES" during rush and in the public relations facets of chapter activity.

Officers of the group are Sue Russell, president; Bonnie Seeman, vice president; Pat Healy, secretary; and Rae Kessner, treasurer.

Other plans for this year include a car wash and participation in Campus Chest activities.

## Forestry Class Second Largest

The freshman class of State University College of Forestry at Syracuse University is second largest class in the 50-year history of the College. Of the 228 freshmen enrolled in the forestry division, 36 are residents of Syracuse.

After a year of basic studies, students select one of six careers. They have an opportunity to become landscape architects, pulp and paper engineers, forest and wood chemists, wood products engineers, forest managers or forest biologists.

The college operates seven forested properties located in Central and Upstate New York in the Adirondack Mountains. The woodlands are used by the college for teaching, as outdoor laboratories, for demonstrating sound management practices and for research.

# Greek Week 1962 Committees Set

Greek Week 1962 will take place Monday, April 9 to Sunday, April 15, according to Fred Rock and Jim Hornel, co-chairmen. The announcement was made Thursday evening during a meeting at Sigma Nu Fraternity where committee chairmen were named.

They include: Physical Arrangements, Bob Beale; Publicity Manager, Bob Davis; Banquet Chairman, Howie Malka; Exchange Dinners, Jerry Goldstein and Carol Shenkin; Social Actions, Jean Dana and Dick Lasser; Faculty Tea, Kurt Alverston; Printing and Posters, Don Miller; Speakers Chairman, Ken Norwick; and Panel Discussion,

Fred Dressler. Possible speakers were proposed for the annual IFC lecture during Greek Week which may take place during the dedication of the new Huntington Crouse building.

In addition to the annual Friday night formal, Saturday night rock and roll party, and Sunday afternoon entertainment, a new innovation of Greek Games will take place Saturday afternoon during Greek Week. Fraternities as well as societies will compete in chariot races, pie eating contests, and other ancient sports. Awards will be given to winning houses.

## IFC President Hits Immature Greek Attitude

Greeks Must Have Greater Idealism In Future — Miller

By ADAIR DUFINE and GERRY FERRICK

The present fraternity system, like 30 separate islands, will destroy itself at Syracuse University without proper and immediate analysis of its goals.

This idea is from the keynote speech by Dean of Men Earle W. Clifford Friday night, IFC President Richard Miller gave full support to Dean Clifford's theme, "The Best Defense," Saturday at the IFC Conference at Skytop Lodge.

"Fraternities do not care about ideas anymore," said Miller. "Something must be done immediately to change this situation," he said. "We must do away with this idea about rah-rah fraternities. It is the job of public relations to make people realize that fraternities can do some good on the college campus, he said.

Must Work Together  
"We have to prove to Dean Clifford we are not 30 tight little islands," said Tom Ripoli, IFC Fall Conference chairman, after the president's address. By working together instead of against one another, the fraternities can make this a top campus, he predicted.

In order to work out the problems IFC committees were organized and held their initial meetings Saturday.

Five main committees and three minor ones were organized. At a business meeting held in the afternoon, all committees submitted reports on their progress and plans for the coming year.

Housing  
Housing presented one of the main problems of the day. Within the next 10 years the university plans to house 400 people in fraternity housing facilities. In addition, the fraternities are presented with a problem of eventually having to change their sights as the result of university expansion.

Four main suggestions were advanced to alleviate this problem. The first was the formation of a permanent housing committee to promote cooperation between the university and the fraternities.

Second, the joining of the Panhellenic Council to this housing committee will be an advantage to IFC, since the "sororities are stronger in moving the administration." The committee will request a university design board.

Charged with giving information to the university by December 15th, the board will report whether fraternity and sorority houses will be moved, remain or be remodeled, or whether the members would like to move.

It is the job of this committee to get a written guarantee of where the sights for the new  
(Continued on Page 8)

## COLE LECTURE CANCELLED

The Hendricks Chapel lecture by President William Cole of Lake Forest College (Lake Forest, Illinois) set for Thursday and Friday has been cancelled.

# Student Leaders Discuss Benefits of Joining NSA

TED CLARK

By BARBARA CORNBLETT  
The benefits that Syracuse University could obtain by joining the United States National Student Association was the main topic of discussion at a meeting of various student leaders Monday evening as reported by Ted Clark, Program Vice-President of NSA. Tim Zagat was the guest speaker of the dinner-meeting held at Graham Dining Hall. Zagat gave background information on the NSA, explained the advantages to be gained in joining the association and answered several questions. According to Clark, Zagat denied a question asking if obtaining additional dues was the motivation for SU's invitation to join NSA. Zagat explained that the membership dues paid each year accounts for only \$20,000 of the \$2 million yearly budget. Zagat

added that most of the money is granted by various foundations such as Carnegie, Ford and Rockefeller.

In reply to a question as to whether NSA tries to exercise jurisdiction and authority over the students on the campus, Zagat answered that the NSA never interferes with the student government on any campus unless specifically asked to do so by that government, continued Clark.

When questioned about direct benefits that NSA membership would provide Syracuse University, Zagat listed among others: Student Discount Service, World Travel Service, Student Government Information Service, and Student Government Bulletins and Publications, Clark added.

Clark stated that one point which Zagat strongly stressed (Continued on Page 7)

## Girls' Placement Plans Discussed

A placement office that is tailor-made for the women students at SU offers its services the year around and also following graduation, according to its director, Mrs. Marguerite Ruoff.

A letter currently being sent to the women's living centers by Mrs. Ruoff, director of women's placement, urges women students to seriously consider their post-graduate plans.

Mrs. Ruoff listed the advantages of registering at the present time for placement. "First of all," she stated, "the companies seeking employees are in effect coming to the student and informing her of the opportunities available."

She also mentioned that, like in the other placement offices on campus, registering students have set up for them a permanent file which contains valuable information concerning his interests and abilities.

Another value obtained by visiting the placement office is the post graduate follow up of the students registering. Postcards, asking the students' success in obtaining the desired employment and if no indication is received that the student is placed.

"Also," she stated, "almost every day we receive from firms requests concerning information, students graduating years ago. We can be very helpful in this case, especially in supplying names of women who have informed the placement office of a desire to change jobs."

She noted a recent increase of students seeking information from her office since recent information appearing in the DO concerning placement at SU.

## Court Sentences Shoplifting Frosh

A freshman guilty of shoplifting has been placed on suspended probation by the Disciplinary Review Board of the Men's Division of Joint Student Court.

Chief Justice Samuel Farr said the student was arrested in the University Bookstore by a Pinkerton detective employed by the store.

The student, whose name was not disclosed by the court, pleaded guilty before the Review Board last week.

Because of his excellent high school record, Farr said, the probation was suspended. The student must report in writing each week to a court justice concerning his grades and activities.

He will be allowed and encouraged, according to Farr, to participate in social and athletic activities.

The case will be reviewed by the board at the end of the semester to determine whether the student will be allowed to remain at the university.

## Penn State Game Poster Contest

A poster contest will be a special feature of the Penn State Pep Rally Thursday. The posters are to be displayed in front of each living center by Thursday noon.

They will be judged on the originality, pep and spirit portrayed in each poster. The winners of the contest will receive points toward the Orange Trophy, sponsored by the Traditions Commission, to be awarded to the living center which displays the most spirit and enthusiasm in campus activities throughout the year.

The poster winners will be announced in Walnut Park at the end of the pep rally, which begins in front of DePlynn Hall at 6:30 p.m.

The groups interested in participating should notify Jill Christensen at ext. 2196 or Barbara Smyth at ext. 2714.

# Chances of Survival in Atom War Deemed Possible by Dr. Horwitz

By DANIEL RITZY  
Survival of a nuclear war, even against a dirty bomb, is possible, although extraordinary protective measures would have to be used. This was the hopeful conclusion reached by Dr. Nahmin Horwitz at the end of his lecture given yesterday in Hinds Hall.

Dr. Horwitz has been a member of the physics staff for the past two years. Previously, he worked in the radiation labs at the University of California.

Dr. Horwitz discussed nuclear war and its probable results to mankind. He pointed out that the fission bomb (the A-bomb) was a "dirty bomb," while the fusion bomb (the H-bomb) was a "clean" one. This is so because the fission bomb scatters radioactive fallout, while the other does not.

In event of a nuclear war, the inhabitants of the attacked country would be exposed to three types of radioactive particles; the alpha, beta and gamma particles, Horwitz stated. The alpha particles are described as helium nuclei, the beta particles are elec-

trons and the gamma particles are x-rays. If these particles pass through the body, they will collide with and change the atoms of the body. This would lead to cell damage, stated Horwitz.

Gamma rays normally would have no harmful effect on the body if they passed through. However, when this happens, they usually hit electrons within the body causing damage, he said.

Alpha and beta particles, though they are easy to stop, cause direct damage to the body, stated Horwitz. Shielding, therefore, is vital because these particles can be lethal. The measurement of radiation that the body can absorb is denoted by roentgens.

Twenty-five roentgens or less can barely be detected; over 25, one can notice changes in the blood. Two hundred roentgens would cause serious physical damage; 400 would kill about 50% of the people and 600 nearly all of the population, said Horwitz.

Dr. Horwitz presented figures which he believed would give

## Student Court Revokes Junior's Driving Privileges

Hit and Run Charges Result in Action by University

By JEANNIE RANOV Junior Editor

A Syracuse junior's university driving privileges have been revoked for the remainder of his undergraduate term by Joint Student Court.

A majority vote by the court Tuesday night brought the decision.

The student was arrested last Friday night and arraigned in Syracuse traffic court on charges of leaving the scene of an accident and driving while not in possession of a license and registration.

He pleaded technical innocence and after spending a night in jail was released on posting \$1000 bail. His trial is set for Nov. 14.

The student told Joint Student Court that he supposedly sidestepped an automobile parked on Marshall street, but was unaware of the accident because he was intoxicated at the time.

Another motorist said he saw the accident and gave a description of the student's car to the Security Police who picked the student up a few minutes later. Security turned the case over to the city police.

"Conduct Brought Discredit"  
The court took action on the case because the student's conduct "tended to bring discredit to the university."

A university ruling states that suspension is in order when a student violates any civil law.

Chief Justice Samuel Farr clarified the fact that even if the student is not convicted by the city court, JSC will still not permit him to drive a car on campus. Dean of Women Marjorie C. Smith and Asst. Dean of Men David Tatham were present at the meeting.

**IFC Conference**

During the Annual IFC Fall Conference last weekend, Dean of Men Earle Clifford somberly discussed the crises he sees confronting the Hill Greek system. He said, in effect, that unless something is done, and done soon, the Syracuse fraternity system will really be in trouble.

Citing the ever-decreasing rushing figures that particularly plague this campus, as well as the popular but unflattering "image" of fraternities nation-wide, Dean Clifford urgently called for immediate reform within the Syracuse fraternity community. He particularly called for the destruction of the "30 tight little islands" concept that he feels definitely hampers the success and effectiveness of the Syracuse IFC.

There is little question that something must be done to strengthen the Hill fraternity system. There is little question, too, that Dean Clifford and his office is wholly dedicated to such improvement. Indeed, Dean Clifford has said on several occasions that he looks forward to the day when Syracuse will have "the best fraternity system in the nation."

Questions do arise, however, when it comes to the various means possible to effect such improvement. Dean Clifford feels that Greek "attitudes" are vastly "outmoded" and should be brought up-to-date, in compliance with Administration policies and regulations. And here, of course, he is right.

But, of course, there is another side of the coin. It is possible that some, if not many, Administration "attitudes" and policies are also "outmoded" and bear reconsideration and revision. It is possible that the administration could be brought "up-to-date" with the philosophies and habits of college students of the 1960s.

The calibre of Syracuse students has changed, as was clearly demonstrated in Bob Seewald's column yesterday, but Administration policy has not. Perhaps the Administration, as well as the IFC, has some catching up to do.

— SEND ME NO FLOWERS —

**A Boy In Georgia**

**By ALAN G. MILLSTEIN**

A fifteen-year-old boy sits in an unheated cell in death row near the electric chair in Georgia State Prison.

The case of Preston Cobb, Jr., a slim angular Negro boy who lives with his mother on a ten-acre farm, attracted much publicity in the United States. But the New York Times of October 8th reports the fact that this boy will become the youngest person in Georgia's recorded penal history to die in the electric chair and that this has attracted world-wide attention.

Dude," as the boy is called, was convicted by an all-white Jasper County jury on August 16th of murdering a white farm owner. The jury took less than forty-five minutes to reach its verdict. No appeal of the verdict, which was "guilty-without-mercy," was filed by the boy's court-appointed white defense lawyer.

In capital cases in Georgia, defense attorneys almost without exception request a retrial upon conviction, and then follow this up with an appeal. Dude's counsel sought neither, the Times reported.

**SUIC NO Publicity**

Execution of the fifteen-year-old boy was set for September 22 in the state prison at Reidsville. There still wasn't very much publicity in American newspapers about the boy's trial, no less his conviction. Dude's widowed mother, with

eight children, who earns a living by tenant farming, was told by some white people in Jasper County to contact the Southeastern branch of the N.A.A.C.P. She did, and the Atlanta chapter retained a Negro lawyer and filed a motion for a new trial.

Only two things, though, can save Dude from becoming the youngest person to die by execution in a Georgia prison. The first is the legal battle opened by the N.A.A.C.P.

The other possibility is that mercy will be extended by the State Board of Pardons and Paroles, the sole possessor of the clemency power in Georgia.

Frank Dumas, a 70-year-old white farm owner, was killed June 1st as he sat reading in his living room. Dude, close and constant companion of the farmer, was picked up the next day and confessed to the shooting. His only motive was a minor quarrel with the old farmer over some fish.

**True Confession?**

The New York Times reported that Dude's mother and a few white in the area have questioned the truth of the boy's confession.

Justice was swift in the middle Georgia strip of the Old Plantation Belt. After the verdict the presiding judge had no choice but to sentence Dude to death. Dude's so-called defense lawyer didn't appeal the case because he said he "would not attack the judgment of this

fine jury of representative Jasper County citizens by filing a motion for a new trial."

Dude's colored lawyer from Atlanta is expected to seek relief in a federal court on civil rights grounds. He will argue that no Negro has served on juries in Jasper County for at least eighteen years.

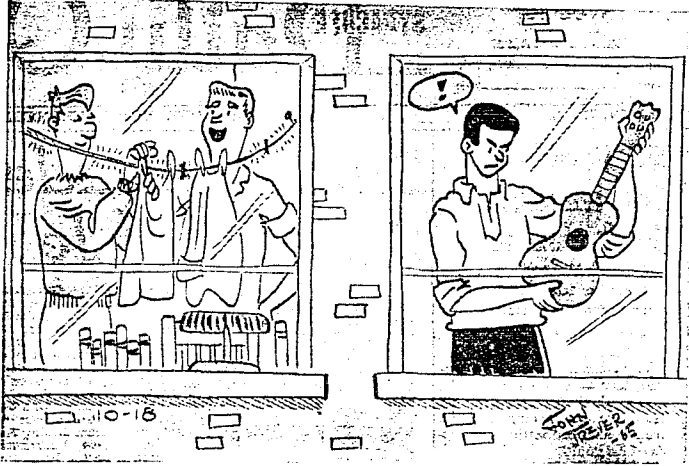

The Times reports that the county prosecutor has challenged the N.A.A.C.P. lawyer's right to represent the boy and has objected to every legal maneuver. The Times report indicates that white lawyers in the area would be reluctant, because of economic pressures, to defend the Negro.

**From Abroad**

A Dutch man and woman have journeyed to the United States to try and have the boy from execution. "With them they have petitions signed by two million persons, most European countries, except for France, to have banned capital punishment.

At fifteen Dude can't be aware of the significance of his distress. His death would reverberate around the world. In Georgia his electrocution would be just another case of justice.

The law can be just and equitable if administered impartially and with prudence, but Dude's death would not be just or even human. Should Georgia justice run its course, then all we can be proud of is that boy, died in a chair and not at the end of a rope.

"That's what I call killing two birds with one stone."

**-LETTERS-**

**Readers Hit SU Justice, Pep**

**To the Editor:**

It has been made public to the students of this University that six of their fellow students have been suspended for a term of one year for gambling. At first appraisal, this would seem to be simply a good indication of our new Dean of Men's get tough policy.

Admirable as this might seem there are a number of points of which the student body should be made aware.

First, this so-called gambling ring which the administration has uncovered was nothing more than six fraternity brothers indulging in a game called "schreck" which was invented by one of the boys this summer. For those of you who are unfamiliar with this game it is not one which is designed to separate any player from his money since one pot can never include more than a dollar and a half.

The game was uncovered by the boys' resident advisor who vividly reported it to the Dean of Men's office. The following morning they were summoned by the Assistant Dean of Men, Dave Tatham, and were interviewed individually. They were told to return later that afternoon when they were to learn what action would be taken.

The verdict was short and uncompromising.

Dean Clifford decreed that all six be suspended and that three others who had been sitting in the same room be placed on disciplinary probation.

Prior to this, Dean Clifford had not met or talked to any of these boys. It is hard to believe that in a matter of a few hours such a severe decision could be reached without Dean Clifford consulting the persons involved.

It has been policy that student disciplinary cases be brought before the student court.

However, in this case the full student court was not assembled nor was a formal meeting held with the defendants present. The only role student court was allowed to play in this situation was that a few of its members were called into the Dean's office and told what decision had been reached. Prior to this, they had no knowledge of the case nor were they allowed to form any decision later.

We think it only right to note that the six boys involved had satisfactory academic and citizenship records. Also that four out of these six boys were to graduate in June.

In sum, we wish to leave the student body with these questions:

Is this what you are willing to accept from your University as justice?

If we are to have a student court, shouldn't it represent and

try us when necessary?

If we are to be brought up on charges severe enough to have us suspended, may we not at least face our accusers and answer in our own behalf to our judge?

If this action is meant as a warning by the Dean of Men to other would-be-offenders, we must ask ourselves if it is worth the price of six boys' education and an inconsistent form of justice.

S.M. B.S.

**To the Editor:**

At the beginning of this semester the Cheerleaders, Traditions Commission members and Goon Squad eagerly looked forward to a football season filled with massive school spirit and pep. Because the football team complained bitterly last season about a dearth of school spirit, careful planning was put into ten pep rallies—more than were ever had before—in order to rally student support and enthusiasm for the team.

At the last two rallies there has been only one incidental missing—namely the band.

It seems to us that a major duty of the band is to fire up school spirit at the rallies. But where on earth has the band been at the last three pep rallies? We realize that the band needs to practice, but must they rehearse on the same night and at the very time as our away game rallies?

Our home game rallies take place on Friday nights when the band does not practice, yet it was disheartening, yet downright disappointing, that only five band members attended the last home rally.

At Maryland University's pep rally for the Syracuse game, their entire band showed up. Their band leader even spoke, promising a roaring crowd of 1,400 that the noise of the drums would beat the juice out of the crowd.

At our Nebraska rally, the chairmen sought to simulate the band by playing band music over a loudspeaker system. When the faculty purchased dormitory the cheerleaders and spirited students were furious and hurt when the student president of the band lambasted the band cheerleaders for interfering with their "precious" band practice and for attempting to replace the band with an artificial device.

It is impossible to expect and install school spirit when one of our greatest assets, the SU Band, fails to take an interest in pep rallies. Tom Travers in *Varsity Cheerleader* and Traditions Pep Co-Chairman

# Syracuse Makes Big Jump In Polls

Thanks to the impressive victory over Nebraska this past Saturday, Syracuse has returned to the top twenty after a weeks absence according to the A.P. and U.P.I. ratings.

The Orangemen, who were dropped last week from national poles, are ranked twelfth on the A.P. and thirteenth on the U.P.I. listings.

Mississippi, who lead both polls last week, again ranks first on the U.P.I. followed by Michigan State, Texas, and Alabama. The A.P. lists Of Miss second behind

Michigan State, followed by Texas, Iowa and Alabama.

Notre Dame, the sole undefeated Orange foe, is ranked fifth and sixth, respectively, on the U.P.I. and A.P. Maryland, the only other Syracuse opponent listed, is seventeenth according to the A.P. but was dropped completely from the U.P.I. top twenty.

Following Notre Dame on the U.P.I. are Iowa, Ohio State, Georgia Tech, Colorado, and Louisiana State. The A.P. rounds out their top ten with Ohio State, Georgia Tech, Colorado with Arkansas and Louisiana State tied for the tenth spot.

For the third straight week the Orangemen are ranked as the top team in the east, again leading in the voting for the Lambert Poll. Ranking second to Syracuse are the Midshipmen of Navy, unlisted in either of the national polls.

**HOWARD HUGHES DOCTORAL FELLOWSHIPS.** If you are interested in studies leading to a doctor's degree in physics or engineering, you are invited to apply for one of the several new awards in 1962 on the Howard Hughes Doctoral Fellowship Program.

This unique program offers the doctoral candidate the optimum combination of high-level study at an outstanding institution plus practical industrial experience in the Hughes laboratories.

Each Howard Hughes Doctoral Fellowship usually provides about \$8,000 annually. Of this amount approximately \$1,800 is for tuition, thesis and research expenses, other academic fees and books. The remainder is composed of salary earned by the fellow and a stipend.

Howard Hughes Doctoral Fellowships are open to outstanding students. A master's degree, or equivalent graduate work, is essential before beginning the Fellowship Program.

**HUGHES MASTERS FELLOWSHIPS.** The Hughes Masters Fellowship Program offers unusual opportunities for education leading to a master's degree... and, in addition, provides each fellow with practical experience in the professional field of his choice.

Approximately fifty new awards will be made in 1962 to qualified applicants possessing a bachelor's degree in engineering or physics.

Most of the award winners will be assigned to the WORK STUDY PROGRAM and will attend a university sufficiently near a facility of the Hughes Aircraft Company to permit them to obtain practical experience in a professional field of their choice, by working at the company at least half time. An appropriate stipend will be awarded.

A small, highly selected group will be offered a **FULL-STUDY PROGRAM.** Participants in this program will receive fellowships that permit them to attend an outstanding university on a full-time basis during the regular academic year with a substantial stipend.

After completion of the Master's Program, fellows are eligible to apply for HUGHES STAFF DOCTORAL FELLOWSHIPS.

For both programs, typical areas of research and development to which fellows may be assigned while working for Hughes include: weapons control systems, infrared search and track systems, advanced propulsion systems... parametric amplifiers, masers, lasers, microwave tubes and devices, electron-tube and solid-state displays, semiconductor materials, antenna arrays, aerospace vehicles and trajectories... plasma electronics; solid-state, atomic, nuclear and aerospace physics; propagation, mechanics of structures, chemistry and metallurgy... systems analysis, human factors and analysis, network analysis and synthesis... microminiaturization, communications, data processing, information theory, simulation.

The classified nature of work at Hughes makes American citizenship and eligibility for security clearance a requirement.

Closing date for applications: January 15, 1962.

How to apply: To apply for either the Howard Hughes Doctoral Fellowship or the Hughes Masters Fellowships write Dr. C. N. Warfield, Manager Educational Relations, Hughes Aircraft Company, Culver City, California.

DICK EASTERLY

By MARK DIAMOND  
Before he was injured in the final quarter of the Maryland game, captain Dick Easterly had been one of the outstanding performers of this year's Syracuse team.

The 5 - 11, 175 - pounder from Syracuse had made the switch from quarterback to halfback with no noticeable loss of effectiveness. His 51 yards gained are 34 more than he garnered all last season, while his receiving has resulted in 75 yards on only three catches. One of these receptions was a touchdown grab against West Virginia.

It is on defense where Easterly has really made his presence known. He has been very adept at coming up from his secondary position and snatching the ball carrier at the line. His "bullhawking" ability is such that there are many who feel that had he been in the Maryland game his presence might have negated much of the Terrapins' passing.

High School and then went into the marines. When he was discharged he attended Manlius for a time and then entered Syracuse. He didn't get a scholarship, but Dick's progress was such that he was awarded a scholarship after his freshman year.

While he had played quarterback, halfback, and blocking back on single wing teams, Dick was mainly used as a defensive specialist and part - time quarterback until this campaign. Concerning his switch to right halfback this year, Dick states, "I like it. Halfback is more difficult to play physically but I don't have to think for the whole team now. There is also more blocking and hitting at half."

On this year's prospects Easterly explains that the inexperience of the numerous sophomores is one factor in the team's comparatively slow start but they should improve as the season advances. The lack of depth on the second team also hurts. As to his own situation, Dick

expects to be back for the last four or five games when the broken bone in his left hand heals. He cautions that the team is playing the games one at a time but that many hope to get into a bowl.

Dick's future is really up in the air now. He has had offers to play pro ball and his baseball ability is such that a national league team has already contacted him about signing after he graduates. Originally the physical education major had hoped to be a teacher but he now is leaning towards the public relations field, if he doesn't continue in athletics.

Among his chief hobbies are hunting and fishing, his problem being that he never seems to have enough time to do either anymore. Time appears to be one of the few factors that Dick Easterly will have trouble overcoming.

By MILT JOFFE

SCIENCE IS AMAZING but you can't beat the system. It took a football game to enable us to come up with this adage. Maybe you didn't know it, but Nebraska had the wonders of medical science on its side when Syracuse invaded Lincoln, Neb., last Saturday.

The members of the University of Nebraska varsity football team are now in their second year serving as guinea pigs for Dr. Kenneth D. Rose, team physician and chief of laboratory and medical research at the university.

During this period the Nebraska players have been fed a unique liquid pre-game meal to increase their stamina.

Dr. Rose's findings were recently published in the Journal of the American Medical Association. The results are certainly interesting.

The liquid, produced by a well-known pharmaceutical laboratory, is a high caloric replacement for the usual pre-game foods.

Dr. Rose reports that with the new feeding method pre-game nausea was completely eliminated; no complaint of muscular cramps was encountered; strength and endurance were improved; and no particular side effects were noted.

So convincing were the findings of Dr. Rose many other teams have adopted the liquid meal this season. The fact that Nebraska won four and lost six last season seemed irrelevant.

For those of you interested in a new diet for a football team, or perhaps for your own needs, here are excerpts from the report:

"The improved physical stamina was particularly noticeable during the final quarter of the games and even in defeat the Nebraska players were the first ones off the ground after the play."

We haven't had the chance to check on who beat whom back to the huddle Saturday but from listening to the radio account of the game, it appeared that the good old fashioned meat proved a better weapon for the Orange than the scientific milk shaken of the Cornhuskers.

One thing worthy of note is the fact that Nebraska made its final score in the last period, and maybe the Cornhusker squad was stronger in the final minutes. The films may even show Nebraska run to the locker room after the game for another refreshing drink of the magic liquid.

"The increased energy results from the fact that with a liquid meal there is a greater blood supply for muscular activity during the game because none is needed for digestion."

"Probably the most significant beneficial change is in the fact that pre-game sickness was completely eliminated. X-ray studies showed that two hours after a liquid meal the stomach was completely empty and at game time the meal had undoubtedly been digested and absorbed."

The report continues by showing the complete satisfaction of the players' hunger. A morning snack of toast, honey and peaches in heavy syrup followed by eight to sixteen ounces of the liquid in mid-morning was completely filling.

No weight change was detected during the varsity season while the team continued on the diet. Sixteen ounces of the liquid contains 275 calories.

The diet was accepted positively by showing the complete satisfaction of the players' hunger. A morning snack of toast, honey and peaches in heavy syrup followed by eight to sixteen ounces of the liquid in mid-morning was completely filling.

# Student Leaders Discuss NSA

(Continued from Page 1)  
 was that membership would only be beneficial to Syracuse if the students had the initiative to take advantage of the programs and benefits offered by the NSA. Zagat said that you can get as much out of NSA as you put into it.

Clark listed those present as: speaker of JSL Brian Fitzgerald; chairman of the local and national affairs committee Bob Becker and secretary Esther Holdridge; S a n d y Hammeken, senator-at-large of the committee; Peter Fielding, executive assistant to the president of JSG; Ted Clark, representative to NSA congress this summer, and Dr. Wiley, advisor to JSL.

Sentiment on part of the students present seemed to be in favor of membership. Many felt that this might be the shot in the arm that Syracuse student government needs, Clark explained. This past summer, Ted Clark, Ex - President of JSG, represented Syracuse University at the 14th National Student Congress held at the University of Wisconsin.

Presented by Pall Mall Famous Cigarettes

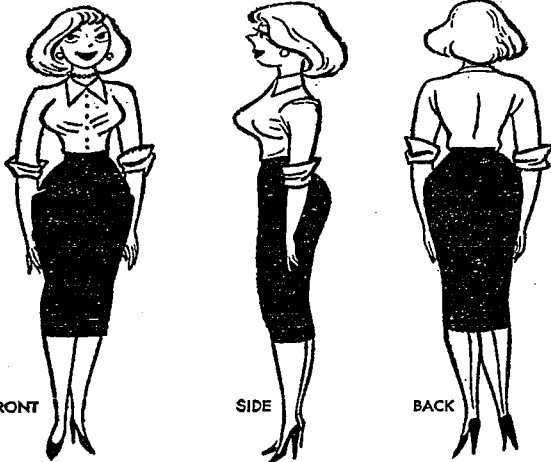

## Survival Chances In Atomic War Deemed Possible

(Continued from Page 1)

people an idea of the results of a nuclear war. He assumed that our country would be struck by 20,000 megatons of bombs. (This is based on the idea that there are at least 3000 targets which might receive 20 megatons each.) Assuming that each square mile of land would receive 5 kilotons of TNT, the following figures might have meaning:

After two hours, there would be 5000 roentgens in the air; after two days, 2000; and after 2 months, 500. As the time after the blast increases, the radiation in the air decreases.

Dr. Horvitz presented some of the ideas of Dr. Kahn, an expert in the field of nuclear war. Dr. Kahn proposed that after the first 90 hours, there would be 50,000 roentgens in the air. He said the effects could be reduced to 200 by the use of shelter totaling a factor of 200. A basement equals 10, and each foot of earth equals 50.

FRONT

SIDE

BACK

Three views of an average, healthy girl

## LESSON 1 - How to recognize a girl

It is not surprising, in these days of constantly changing fashion standards, that girls are often mistaken for men.

Certain popular items of apparel, such as slacks, baggy sweaters and boxy suits, contribute to this unfortunate situation. Therefore, we suggest that new students of girl watching start with the fundamentals (see above diagram). As you can see, girls are easiest

to identify from the side. However, even the beginner will soon achieve proficiency from front and rear as well.

Advanced students can usually tell a girl from a man, at five hundred paces, even when both are wearing asbestos firefighting suits. (You might try offering the subject a Pall Mall, but you won't prove anything. It's an extremely popular brand with both sexes.)

# Greek Attitudes Hit

(Continued from Page 1) housing will be, and to work with the planning board on the type of housing to be used.

The final suggestion made to the council was to form a committee consisting of an undergraduate representative from each class and two alumni advisers, one in business, or finance, and the other in architecture.

"We must sell freshmen and transfers on fraternity life," said President Dick Miller. This was the basic idea of the conference which was discussed in the rushing committee's report. The first proposal presented to the floor was an experimental rush program, breaking the Silence Period, to be held between Nov. 5 and Nov. 20.

**Sell The System**

During this time each man should not push only his individual fraternity but the Greek system itself. It was decided on Nov. 19, the Greeks proposed to set up booths in Watson dining hall, where freshmen and transfers will be able to get information on each fraternity and talk to fraternity members. Regular registration will be held Nov. 20 and 21 in the Dean of Men's office.

Invitations will be issued from various houses, but freshmen and transfers will not be allowed in houses or at social functions of the Greeks. Fraternity men are permitted only in the main lounge of the dormitories. Strict penalties are being applied to dirty rushing during this break in the silence period. After Nov. 28, the old rush rules will go into effect again.

The committee decided that transfer students operate under the same rules as the freshmen for the time being. A great deal of support was given to the idea of rushing transfers as soon as they arrive on campus. This change in policy was expected to be introduced next Fall.

**Rushing Clinic**

Proposal for a rushing clinic was also made, which would stabilize rushing rules and regulations and judge offenses.

The six members of the Judicial Board and its chairman, Richard Miller, met to work out some of the problems facing fraternity control of offenses. It was decided that the cases tried will be those concerning fraternity houses, not individual persons.

By this ruling, the entire house would be punished for committing an offense. Therefore, those members might think twice about committing an offense. Cases may be tried by the Judicial Board, which are not directly associated with IFC, if recommended by the Dean of Men.

Another Meeting

There will be another meeting of the Judicial Board before the IFC meeting. This meeting will clarify the duties of the board and work out problems that face it as a new law enforcement power.

At the Panhellenic - IFC committee meeting there were seven areas of discussion. The first of these was mutual representation. There will be a representative from both Greek organizations and other campus groups present at every meeting.

Cultural activities such as musical programs and lectures should be approved by the IFC-Panhel committee. Fraternity and sorority rushing should run simultaneously and the IFC Panhel kickoff should be initiated before rushing begins.

"Fraternities and sororities are put in a bad light because of the bad things that have been done in the past," said a member of the IFC - Panhel committee. It is the duty of the public relations committee to make known the outstanding achievement of the fraternities and sororities.

articles, thus helping to erase unfavorable publicity.

Service projects carried on through organized volunteer agencies in the city and co-sponsoring service projects to the Greeks toward better public relations, the committee agreed.

It was decided that a joint meeting should be arranged to discuss how fraternities can adapt and benefit from sorority scholarship and methods. Panel will become more active in Greek Week, service projects and cultural activities. More Greek exchange dinners will be held this year.

Trying to break down the system of thirty tight islands, the committee for Cultural Services prepared a program of IFC - Pan - Hellenic Public Relations to be pushed by the Daily Orange and social committees. Members of the committee recommended a public relations man to express the views of the Greek system.

GRAD. STUDENT housing—739 Ostrow. Mr. Wynn. Available Nov. 1st. GR 6-1416.

MODERN FOUR ROOM apt.—heated, private bath and private entrance. Seen anytime. GR 8-2608. Near hospitals and bus lines. Furnished.

**WANTED**

**TEACHER**—immediate opening. 9th grade Social Studies. Apply Superintendent of Schools, Solvay, N.Y., IO 8-2551.

**TYPEWRITERS RENTED, REPAIRED**. We call for and deliver free. Open 24 hours a day. Call Smith Bros. GR 8-8833.

**ALL KINDS** typing done expertly, experienced, free proof-reading. Give specialty, "IBM Electric, GI 6-6381.

**ELECTRIC TYPEWRITER**. All kinds typing; specialize in dissertations. OW 9-2216 after 6.

**TYPING DONE**. Experienced. Call GR 6-1822 after five.

**EXPERT** sec.-typist will type your thesis, term papers, manuscripts, letters and so forth. Call NE 7-9747.

# Board of Six to Head JSG

## Ailing Miss Evans Appoints Group On Interim Basis

Committee Chaired By Justice Farr, Effective Now

By JOYCE HERGENHIAN

A six-man governing board with complete executive authority will act in the absence of Joint Student Government President Elizabeth Evans during her temporary illness, according to an announcement issued by Miss Evans and read to the Joint Student Legislature at its meeting last night.

Justice Samuel Farr of Student Court will head this board. Other members include: Peter Fielding, Director of Student Government Public Relations; Joan Wheeler, Director of Activities; William Hyman, Legislative Commissioner; Brian Fitzgerald, JSL Speaker; and Helen Howard, Chief Justice of Student Court.

"This board and its chairman, shall have complete executive authority, but shall report directly to the president (Miss Evans)," the announcement stated.

The board will go into effect immediately and will continue in power until Miss Evans recovers from the current attack of anemia which has confined her to the university infirmary.

Election Commissioners In another announcement, the JSG president named three students to serve as government election commissioners.

They are Mackey (Nicki) Oshlasky of the Campus Alliance Party, Charles Tampio of the United Students Party and James Kronfeld who is unaffiliated with the campus political organizations.

The three new commissioners will supervise the freshman elections next month and the upper-class contests in the spring.

Four Resolutions Four resolutions, two of them concerning university drinking and gambling regulations, were proposed at Tuesday night's JSL meeting. Senator Brian Fitzgerald referred them to the proper committee to be acted upon before the next legislative session.

Senator Richard Kram (Sadler 8) moved that JSL ask the administration for a clarification and possible reappraisal of the university drinking policy. This motion was referred to the Student Conduct and Welfare Committee.

Also referred to the Student Conduct and Welfare Committee was Senator Theodore Bayer's motion that JSL inquire into the (Continued on Page 7)

## Campus Opens Today in Utica

Some 70 academic deans and administrative officials from Syracuse University will join 3000 guests for the formal opening of the new Utica College campus in Utica today. Ceremonies start at 3 p.m.

Syracuse University Chancellor William P. Tolley will be the main speaker at a luncheon prior to the opening. During the ceremonies the Chancellor will confer an honorary Doctor of Laws degree upon Utica attorney Moses G. Hubbard, Hubbard, a prominent leader in community activities, is president of the Utica College Foundation.

The formal opening marks a major milestone in the history of higher education in New York State. Syracuse University, a private institution, is the only college or university in the state to found another private institution.

Utica College was founded in 1946 with a two-year curriculum. Since then, it has grown to a fully accredited four-year liberal arts college.

The first two buildings on the new campus house 27 classrooms for the 800-member co-educational student body and provides offices for all the administrative officials and the 55-member faculty.

The new campus is a 108-acre plot on the west of Utica, overlooking the Mohawk Valley. Until now, classes were held in a

number of buildings in downtown Utica. Present plans call for an eventual four-building complex.

## Editor to Lecture On Architecture

Peter J. Blake, editor of the magazine Architectural Forum and visiting critic to Syracuse University's School of Architecture will give a lecture titled "Can Architecture Save Our Cities?" The lecture is scheduled for 8 p.m. today in Marshall Auditorium.

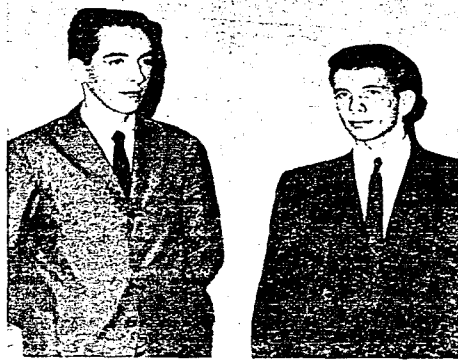

Blake was born in Berlin, Germany, and attended the University of London and the University of Pennsylvania. He received his bachelor of architecture degree from Pratt Institute in 1948.

From 1948 to 1950, he served as curator of architecture and design at the New York Museum of Modern Art. Since then he has served as editor of "House and Home" and associate editor of "Architectural Forum."

He has been visiting critic at Pratt Institute, Cooper Union, Yale and Cornell Universities.

Blake has authored two books, "Marcel Breuer, Architect and Engineer" and "An American Synagogue for Today and Tomorrow."

He has also written numerous magazine articles. Blake designs primarily vacation type and experimental houses.

THESE STUDENT LEADERS, WILLIAM HYMAN and BRIAN FITZGERALD, Legislative Commissioner and Joint Student Legislature Speaker respectively, were the only two present at Wednesday's JSL meeting of the six-man board that will head Joint Student Government.

## Asian Conference Opens Tomorrow

The annual Upstate New York Conference on Asian Studies for nearly 150 college and high school teachers will be held on campus Oct. 20-21.

The lecture program will open Friday at 8:15 p.m. with a talk on "Inside Outer Mongolia" by Robert Rupen, associate professor of political science at the University of North Carolina.

Mrs. Vera M. Dean, director of Non-Western Civilizations at

the University of Rochester, will speak at the Subscription luncheon Saturday afternoon. Mrs. Dean, who has spent the past four summers traveling in Southeast Asia, will speak on "The Minds of Asia."

Planning the program are: Asst. Prof. H. Daniel Smith, Dept. of Religion; Prof. Douglas Haring, Dept. of Anthropology; Prof. George B. Cressey, Dept. of Geography; and Assoc. Prof. Donn V. Hart, Dept. of Anthropology.

Deans Welcome The group will receive an official welcome by Stephen Bailey, dean of the Maxwell School and Frank Pisker, dean of Academic Affairs, Friday afternoon at 1:30 p.m. in Maxwell Auditorium.

Robert Rupen who is lecturing Friday night at Maxwell Auditorium is a graduate of the University of Washington. He is a former member of the political science department of Bryn Mawr College and has been a Research Fellow in the Russian Research Center at Harvard from 1954-1955.

Rupen's list of publications include: "Mongolian Nationalism," which appeared in the "Royal Central Asian Journal"; "Russo-Chinese Rivalry in Outer Mongolia," which appeared in the "Foreign Policy Bulletin"; and "Father Mostwert and Comparative Mongolian Folklore," which appeared in the "Central Asian Journal."

Drumlines Meeting Saturday's program will take place at the Drumlines Country Club, 800 Nottingham Road.

The morning program will open with a panel and discussion on "Asian Studies in Secondary and Undergraduate Education; Recent Trends and Developments."

Members of the panel will include: Ward Morehouse, chairman, The University of the State of New York and the Asian Society; Elizabeth Dodds, of Glen Falls High School, Glenn Falls, N. Y. who will talk on "Second (Continued on Page 6)

## Horwitz Explains His Views On Atom War and Survival

By DANIEL RIFEY "Should there be an all-out atomic war involving the use of fission bombs (known as A-bombs or "dirty" bombs), it is probable that there would be a number of human survivors," Dr. Nahmin Horwitz said in an interview yesterday. It is not possible, however, to predict what condition these people would be living in, he added.

"They might disregard all forms of government and laws of society, but they would still be alive." In essence, this sums up Dr. Horwitz's views on what an atomic war would do to civilization, he added.

This interview was prompted by a lecture given by Dr. Horwitz Oct. 18.

Redefinition Some of the terms and theories that were used in that lecture were redefined by Dr. Horwitz in layman's language, so that more people would have an idea of what the concepts of nuclear energy, radiation limit and survival in a nuclear war really mean.

Dr. Horwitz described the chemical and nuclear reactions—both of which are sources of energy. He compared the chemical reaction to the idea of two boys taking their dates to a dance.

boy may find that he really likes the other boy's date, and, accordingly, he takes his friend's date home.

Force In the same way, atoms rearranged in molecules in certain ways. These atoms are held together by a force. If a stronger force is exerted, however, these atoms rearrange themselves in different molecules.

Such a rearrangement is called a chemical reaction. Energy is released when the atoms form their new pattern in the molecules.

Similarly, in the nuclear reaction, protons and neutrons are rearranged. The attraction of these protons and neutrons to one another is very much stronger than that in the chemical reaction, and as a result, the energy which is released when these particles come together is about a million times greater than the energy released during a chemical reaction.

Size Important It turns out that the forces holding a nucleus together increase with the size of the nucleus, in small nuclei. Therefore, when two small nuclei fuse together energy is released. Such a reaction is called a fusion reaction, Dr. Horwitz said. On the other hand, the forces

get weaker when the nucleus is bigger; this applies only for larger nuclei. Therefore, if a larger nucleus (such as uranium) can be made to break into two medium sized nuclei, energy will again be released, he added.

"This is called a fission reaction. Bombs which generate energy from the fission process alone are commonly called A-bombs. Bombs using the fission and fusion reactions have been called H-bombs."

Murderous "Furthermore," he added, "both bombs would kill their victims with great heat and shock waves from the blast. The A-bomb would also dispose of people with its radioactive fallout. Hence the term 'dirty' bomb applies to the A-bomb. The H-bomb has relatively little fallout and is therefore dubbed a 'clean' bomb."

Dr. Horwitz defined the term "radiation simply. He suggested that one thinks of radiation as small bullets that can pass through the body and strike its cells.

Roentgen, he continued, can therefore be described as a measure of the number of cell hits in one cubic centimeter of body tissue. The higher the roentgen count, the more cells (Continued on Page 7)

## PENN STATE BUS INFO

Buses to Penn State will leave from the Men's Gym at 5 a.m. Saturday, arriving at noon.

Returning buses will leave at 2 a.m. Sunday from the Penn State Student Union and arrive here at 8 a.m. Sunday.

Further information may be obtained from Jack Miner, 2469, or Sue Bailey, 2676.

## State of Welfare

The state of the various welfare programs in the United States has been under great discussion during the past few months. Indeed the whole philosophy of New Deal welfare statism has never really been anything but controversial. The recent inhuman efforts of the city of Newburgh, N.Y. to alleviate its problem of huge welfare roles through a growing disregard of national and state laws merely highlighted the problem of a great many of the nation's urban areas. These cities find themselves supporting whole families and even succeeding generations of the same families who somehow seem caught in the middle of a desperate social, economic and psychological dilemma from which they cannot escape. During this past weekend Abraham Ribicoff, Secretary of Health, Education and Welfare discussed aspects of this whole problem in New York City. He proudly pointed to the fact that Americans worry to the tune of 79 billions of dollars a year about the welfare of their next door neighbor.

However, the real difficulty in our nation's welfare programs is simply that \$79 billion is not enough. What is really needed is more trained personnel who can help the unfortunate millions that are on the dole lists. Their problem is one of adjustment to society and it is for this reason that they cannot support themselves. The current issue of Harper's magazine discusses this welfare problem in an article by Pulitzer Prize winner Edgar May. Interestingly enough, May states that the myth of the welfare victim as being a "chiseler" and a "bum" is not true at all. This was proved by the city of Newburgh itself. He writes "... when Newburgh relief recipients were questioned at police headquarters before receiving their May checks, not one case of fraud was discovered nor was a single chiseler brought to court in 1960." May pays special attention, therefore, to the great lack of adequate social help for these people. In this light, it is hard to understand what many of the citizens of Newburgh think can be accomplished by further humiliating and demoralizing their city welfare cases. The kind of "get tough" policy they have been instituting is really an effort at shirking their responsibilities. Newburgh is not alone in this, however, in its decision to take the pusillanimous path of pocket book decisions when great efforts and actions are needed.

But it would be wise for more Americans to start thinking about the members of the welfare roles as human beings rather than as financial burdens, statistics and tax problems. Ironically, this could result in their saving far more money in the long run.

**By JACK HAND**  
 Here in America we live our everyday lives, and no one seems aware of the bitter film of ash which gathers on the land. We breathe in the vapors that corrode our genes and go laughing on our way. A few protest, but there are always fanatics, and nothing could really happen here. But reconsider, friend, couldn't it happen here?

The Japanese have learned the horrors of direct atomic attack. We taught it to them in Hiroshima. They have not forgotten this lesson, they have enlarged on it. This is why they fear the ash, and the death burdened winds carrying radioactive fallout to their shores. These winds touch our shores, too, but we seem relatively unconcerned. Must the victim be the only one to profit from the horror of Hiroshima?

Japan has learned. It has seen the horrors and knows that we must not sit comfortable in our chairs while the human race hurtles on toward destruction. The Japanese realize that something must be done to protect ourselves and the future of the human race from the unknown, but recognized dangers of fallout.

They have allied with twenty-five other nations in calling upon the World Meteorological Organization to set up a worldwide network for measuring and reporting on radioactive fallout. This organization is a unit of the United Nations.

The planned system of fallout checks would be carried on by the 8500 observation stations already connected with the meteorological organization. It would require the installation of special equipment for radioactive measurements and testing.

I estimate that progress toward integration in the Greek system here at Syracuse has been significantly slower than the meager one per cent per year average school integration rate for the South since the

ing, but no new stations would have to be set up.

The information gathered would be shared by all nations, and transmitted to them on a day-to-day basis. This information would provide the world with a scientific basis for the control of fallout eventually. Studies of cumulative records would greatly increase the sum of effort knowledge on the transmission of fallout by the winds, and probably enable the danger level to be more closely determined.

The immediate cause for the presentation of the resolution was a common fear among the petitioning nations of the effects of recent atmospheric tests by the Russians. Over twenty nuclear weapons have recently been detonated in Siberia and the Arctic by that nation.

Japan announced that the fall-out readings in Tokyo and other communities has risen 800 times due to these tests. This is enough to frighten anyone who is the least bit concerned, but it does not seem to have had much effect in the United States.

The Soviet reaction was as might be expected. Taking the floor a few minutes after the Japanese representatives presented his rather alarming figures, the Czech representative spoke for the Soviet bloc. He tried to stigmatize the reasonable fear of mankind for the fate of civilization as a propaganda move. He charged that the petitioning nations were trying to intercept the "cold war" into a scientific dissection.

The Canadian delegate attempted to remove the joint resolution from the disarmament dispute by stating that

Supreme Court decision. This in spite of the South's acknowledged intention to defy and our pious protestations for progress. The current rate of change is intolerable for a large enlightened university.

It is my view (and I believe that of a considerable number of my faculty colleagues) that the restricted practices of the Syracuse Greek system outweigh the merits of that system. Therefore, in the absence of more tangible signs of progress in the immediate future, I am in favor of a move in the faculty calling for the dissolution of the fraternity-sorority system as it presently exists here.

G. A. Willey  
 Asst. Professor of Chemistry

**To the Editor:**  
 The series of recent articles and letters concerning the social groups to which we apply the singular, unappreciated word "fraternity" has been most interesting,—particularly Miss Ranov's and Mr. Lewis' apologies for membership in admittedly discriminatory groups. Mr. Lewis says, essentially, "the conscience of any individual firm in his beliefs" forbids a Protestant to endorse the

the observation stations would in no way be connected with an attempt to set up inspection stations for a ban on nuclear tests. One can only hope that the nations can accept this at face value, and at least allow the world to know the true effects of fallout. It would be nice to know how and why we will die.

One realization that President Kennedy and Governor Rockefeller are attempting to protect their people through their bomb shelter programs, but aren't there more important things? Disarmament is a hope much too lightly regarded in this country. The people and their leaders seem to have made up their minds that it is impossible. Perhaps it is, but until this is a positive fact, we must work for it!

Unilateral disarmament is a fool's dream, but something that is possible. We must work with the rest of the world towards the goal of peace. It will be a hard struggle, but we must not give it up. By giving up disarmament, we give up the life of the world.

Meanwhile, we should work with the nations concerned to achieve an adequate scientific basis for the study of fallout dangers and effects. This is not a distant danger as war may be, fallout is here now. It works its corruption daily among us. Scientific study may even find a protection against the dangers and effects. This is not a knowledge can only come when there is available and reliable information on a world-wide basis. One can only hope that the vision to support the gathering of fallout observations, lest mankind perish in a cloud of ash.

brotherhood of a Catholic and vice versa.

I guess my religion is slipping, but I never heard that in church. Miss Ranov coins the name of "fraternity" as "religiously acceptable." We're all equal but some of us aren't "presently acceptable."

The most unpleasant aspect of the entire problem is that most of those Syracuse undergraduates who espouse the "traditions" of their fraternities in mysterious initiation rituals do not believe in the policies they tacitly support. This is a situation in which the policies are forced upon them by alumni and national groups.

What is surprising is that they do nothing. We hear periodically of attempts to remove "clauses"; we seldom hear of the repealment of constitutional restrictions by ritual restrictions accomplishing the same end by secrecy while preventing a clean front.

The failure of attempts to remove restrictions can be laid to the refusal of the fraternities to use the weapons at their disposal. A national fraternity cannot exist without chapters. The undergraduate membership of any house concerned with discrimination should merely take over complete control of its membership policy. Give the national no choice but to accept you as you are or expell you.

I am sorry if I sound bitter. Fraternity life meant a great deal to me and fraternities do, on occasion, serve a purpose. This is why I hate to see these apologies for bigotry which are nothing but mouthings of all the national propaganda we have heard in the past. The simple fact is that the majority of national fraternities espouse discrimination, and the majority of their members are hypocrites.

# The Virgin Spring Opens Downtown

Man and his G-d, and paganism versus Christianity are the principal themes of the compelling drama, "The Virgin Spring," now being shown at the Riviera-Cinema.

Svedish director Ingmar Bergman has taken a medieval folk-song and transferred it to the screen with a gripping reality that may shock those accustomed to the mild and honey-sweetness of most Hollywood drama.

Bergman sticks closely to the legend which tells of a young virgin who, during a scene played by Birgitta Pettersson, who is brutally raped and killed by two herdsmen while she is riding to church to pay homage to the Virgin Mary.

The men stop for the evening at a large farm belonging to Karin's father (Max von Sydow). He gives them food and lodging for the night, but discovered that these men killed his daughter.

In a fit of vengeance Torre kills the men and the small boy who is their traveling companion. Then realizing what he has done, Torre seeks to atone for his deed and builds a monument to G-d on the site of Karin's death.

The film ends on a note of religious conviction when, as Torre lifts up Karin into his arms, a spring gushes forth from the spot as a symbol of her purity.

The cast consists of Bergman's regular troupe of actors. Von Sydow is particularly impressive in the role of a man who turns against his G-d only to seek His forgiveness. And Miss Pettersson's portrayal of innocent purity.

Sweden in the thirteenth century was just becoming Christianized and a paganism still held a stronghold on the people. Bergman diverts from the legend to include the story of the servant girl (Gunnel Lindblom) who practices mystic

rituals and, jealous of her sister's innocence, wishes some evil to befall her. She represents the primitive human qualities which Christianity was trying to suppress.

Much of the symbolism, almost an inherent part of Bergman's films, is missing from this simple but powerful movie. However, when Von Sydow wrestles with a birch tree to use the leaves for a cleansing ritual, it is clearly a combat between man and the forces of nature.

As in all his films, Bergman uses the camera as a critical eye to probe the human mind and spirit. He mixes violence and beauty with the touch of a master poet, always keeping before us the message that man needs his G-d and if he deserts Him, he must seek forgiveness. —J.A.P.

## Crouse Concerts To Begin Sunday

The regular series of Sunday Crouse Concerts will begin this Sunday at 4 p.m. with a recital by flutist John Oberbrunner and pianist Veronica Sage in Crouse College Auditorium.

The program will include the Adagio, Allegro, Siciliano and Allegro assai from "Sonata No. 6 in E Major for Flute and Piano" by J. S. Bach; Par. Tityre, Krishna and Mr. de la Peudurie from "Joueurs de Flute" by A. Roussel performed by Oberbrunner and Mrs. Sage.

The third piece will be the Adagio and Rondo from the "Grand Quartet, Op. 103" by Kuhlau. This will be performed by Oberbrunner assisted by flutists Barbara Benn, Cornelian Lyons and Kathryn Hawes.

The second half of the concert will feature the Largo, Allegro-Largo and Presto from "Fantasia No. 7 in D Major for Unaccompanied Flute" by G. Ph. Telemann, "Waltz for Lilac-Time" by S. Hatphing and "Concertino" by C. Chaminade will close the program.

The concert following week, Sunday, Oct. 29 will feature violinist Louis Krauser and pianist Adrienne Calmir. All concerts are free.

## NY Pro Musica To Give Program

The New York Pro Musica, a chamber music ensemble will give a concert at 8:30 p.m., Monday at the University Regent Theater. They will be presented as part of the Syracuse Friends of Chamber Music 1961 - 62 season.

The program will consist of Elizabethan and Jacobean music. Included will be dance songs by Thomas Morley, Ayres by John Dowland, solo instrumental music including "A Fancie" by William Byrd, and "Laments" by John Ward and Thomas Weelkes, "London Street Cries" by Orlando Gibbons will also be performed.

Described by critics as "one of the leading units on the scene" and "a virtuoso ensemble," the group comes to Syracuse as part of a nation-wide tour after a series of New York City concerts.

Noaa Greenberg, the Pro Musica's founder and musical director, is considered an authority on early music. The group concentrates on the music of the five centuries before the time of Bach.

Tickets are available from the Syracuse Friends of Chamber Music, Clark Music Co., Onondaga Music Co., Olmsted's, Council of Cultural Agencies office of the English Department office at Syracuse University. Season ticket holders must exchange them for reserved tickets at the University Regent Theater Box office by 6 p.m. Monday.

## Music School to Present Recital

The School of Music will present a convocation recital program at 10 a.m., today in Crouse College Auditorium.

The first performer will be vocalist Anita Cancarz. She will sing "Oh, Had I Jubal's Lyre" by Händel; "Nacht und Traume" by Schubert and "O Mio Babbin Caro" by Puccini.

The second vocalist will be Edward Hull. His program will include Chanson — "Romanesque," Chanson Epique and Chanson A Boire from "Don Quichotte and Dulcinee" by J. H. He will also sing "Oh, 'Tis an Earth Defiled" by Howard Hanson.

Organist Paula McNamara

will conclude the recital with "Chorale No. 1 in E Major" by Franck.

**Penn State Star**

PENN STATE'S starting fullback when the Orangemen invade University Park Saturday will probably be DAVE HAYES, who is leading the Nittany Lions in rushing with 173 yards gained. Hayes is a 6-1, 205-lb. junior from Baltimore, N.Y. In Penn State's first four games, he has scored a pair of touchdowns for 12 points, the second highest total on the club.

# Hillmen's Woes Increase; Schoonover Breaks Hand

**By REN DAILING**  
The Syracuse Orangemen, already riddled by a rash of broken hands, received still another severe jolt Wednesday. It was learned that first team fullback Bill Schoonover has joined the broken hand brigade and will be sidelined for several weeks.

Schoonover incurred an injury during Tuesday's contact drills, but it was not discovered until Wednesday noon that his right hand was broken. Thus the sophomore ball carrier became the second casualty of the Tuesday practice, joining Jim Gaskins, who also has a broken hand.

Schoonover and Gaskins bring the total of Hillmen sidelined with broken hands to six. Team captain Dick Easterly, quarterback Bob Lelli, tackle John Paglio, and end Dick Bowman have suffered similar fates.

**And King**  
During pre-season practice sessions, halfback Don King also broke his hand, but it has since healed and he is seeing action.

The injury jinx has also hit regular quarterback Dave Sarcette, who is a questionable starter for Saturday's game with Penn State. The senior signal-caller received a bruised shoulder in the Nebraska contest.

The loss of Schoonover is a particularly big blow to coach

Ben Schwartzwalder's forces. The hard - running sophomore, only recently promoted to the first unit, has been averaging 83 yards per carry, with 108 yards in 13 attempts.

**Who's At Fullback?**  
The loss of Schoonover will probably mean that senior Gary Fallon, who started the year with the first team, will be moved back into the number one fullback spot. Fallon had been running at halfback behind Pete Brokaw, who was taken over Easterly's post on the starting squad.

Gaskins, a 5 - 10, 150 - lb sophomore from Vienna, West Virginia, started the year on the fourth team. But due to the

numerous injuries, he had been moved up to the third squad before he was sidelined.

Other players who have been suffering from minor injuries are tackle John Brown and guard Dave Mergysyevy. Both are expected to be at full strength by Saturday, however.

**Brokaw and Stem**  
The only news not concerning injuries to come out of the Orange football camp Wednesday was the announcement of Saturday's game captains. Heading the team for the Penn State encounter will be Pete Brokaw and Bob Stem.

Brokaw, a speedy senior halfback, was slated to be a starter this year, but lost his post to Easterly before the first game. He moved back into the first team when Easterly was hurt. This fall he has been averaging 4.8 yards per carry.

Stem, a spirited senior center, has received much praise this year for his hard - nosed line play. During the Nebraska game he was hobbled by a severe knee injury, but he turned in one of the finest performances of his career.

## 3 Seniors Win Football Contest

Three seniors were the winners in the last Viceroy football contest, held during the first week in October.

Les Lewis won \$100 for first place, Terrance Constable won \$50 for second, and Joseph Najioli took the \$25 third place prize. There were 20 runner-ups, who won \$10 each.

Viceroy's contest is a bi-weekly affair. Two more contests will be held during this football season.

Career Cues

## "Hitch your wagon to a 'growth' industry—and grow with it!"

Douglas Leigh, President  
Douglas Leigh, Inc.

"A growth industry is a new industry that is on the way up — moving quickly, expanding fast. When you join a company in one of the growth fields you have something extra working for you . . . you grow up with it. To find out which industry is right for you, try this: Ask someone in a good investment office to give you a list of the industries he considers 'growth industries.' Data

Processing, plastics, and electronics are a few examples. Then pick the one you have a leaning toward, and get the names of the most progressive companies in that field.

One thing I'd like to point out from my own career is . . . a growth industry may also be an old business that's on the verge of new development. Shortly after leaving college I found this situation in the Outdoor Advertising field. What my associates and I did was to employ color, action and motion to dramatically personify the product, brand or services being advertised. In doing so, we developed the modern type 'Spectaculars' that talked, blew smoke rings, soap bubbles, etc. . . . signs that changed the face of Broadway and the famous Times Square area.

This is just one example. The really important thing to remember is this: When you set your sights on a career, aim for an industry that is going to grow, so you can grow with it. It's the difference between a rocket that blasts off, and one that just sits there. Good luck!"

Get with it, man! You belong in the indispensable **WEATHER CHECKER**

Whether the weather is balmy or biting, you're ready with Weather Checker, knockout new H-I-S style with zip-out Orlon pile lining. 40" long - it has a Bal Collar, raglan shoulders, slash pockets, center vent, sleeve tabs. In washable fabrics - at stores that are "with it". \$25.

# Asian Conference

(Continued from Page 1)  
ondary Education;" and John Maskill of Bernard College, who will speak on "Undergraduate Education."

The group will then meet in the main Ballroom of the Dramatists Country Club for a Subscription Luncheon. Mrs. Dean will be the luncheon speaker.

Her books, which are well known to many Hill students, include: "New Patterns of Democracy in India," "The Nature of the Non-Western World," "Foreign Policy Without Fear," "Europe and the United States," "The United States and Russia," and "The United States and Russia."

Her most recent book, "Builded in 1961, is based in part on her personal experiences with Prime Ministers Nehru, Nkrumah, Ben Guriion, Presidents Tito, Bourguiba and Sukarno, and others.

Recently Mrs. Dean added journalism as a new facet to her varied and active life. She is credited to the United Nations by India News and Feature Alliance, a syndicate representing 60 English and vernacular newspapers.

The program will close with a discussion forum on "Urbanization in Latin America" which will be Gordon Dumtes of Syracuse University and Robert Smith of Cornell University.

The conference, in its third decade, will be open to all students and faculty members of the University and is recommended by all courses related to Asian studies.

## Committee Head Named by Panel

Joan Duremus, of Gamma Phi Beta sorority, was appointed Constitution Committee Chairman at the Panhellenic meeting, Tuesday night. The Constitution Committee Chairman is a member of Executive Council of Panhellenic.

Virginia Frykman, Rushing Chairman, announced that 94 girls pledged Plan A, 20 girls pledged Plan B, and one girl pledged Plan C.

Informal rushing for upperclass and transfer students started Sunday, October 15 and will end Friday, October 27, Miss Frykman announced that bidding will start Monday, October 23.

## Prof Writes Book

A landscape architecture professor from the State University College of Forestry at Syracuse University is co-author of a newly-published book on the evolution of the monograph. The author is Walter L. Kuehler, an assistant professor in the college's Landscape Architecture Department.

The book is entitled, "From Tin Foil to Stereo."

ROBERT RUPEN

## Faculty Can Defer Retirement Taxes, Wingate Reports

All faculty members can now defer tax payments on contributions to the Teachers Insurance Annuity Association for their retirement funds, SU Vice-President Francis A. Wingate, announced after he received a ruling from the US Internal Revenue Service.

This will permit a faculty member to reduce his taxable salary by the amount he is now contributing to TIAA. For example, if a faculty member earns \$10,000 and pays 6 percent to the TIAA retirement fund, he can now request that the government tax \$9,400 instead of the \$10,000, which is currently being taxed under the old system. The other \$600 will be taxed later when he receives it under the retirement plan.

The SU (Senate) Sub-Committee on Services to the faculty, announced that a special meeting of the faculty will be held at 4 p.m. Wednesday, Oct. 25, in the lounge of the Faculty Club. Either Vice President Wingate or Victor Colway will be present to answer questions.

## More House to Speak

L. Judson Morehouse, chairman of the New York State Republican Party, will address the Onondaga County Young Republicans today at 8 p.m. at the Yates Hotel. The meeting is open to all Hill students.

## ISO Schedules Niagara Falls Trip

The International Students Organization is planning an excursion to Niagara Falls on Saturday, Oct. 21.

Any university student wishing to go on the trip must sign up with Mrs. Hagan in the administration Building today. There is a five dollar charge; lunch will be served. International students are requested to take their passports along with the fee to Mrs. Hagan.

ISO hopes to have as many students going as possible. Buses will be chartered according to how many sign up.

ISO has a temporary office in room 807 in the Administration Building. Hours are 11 a.m. to 2 p.m.

## Band Travels To Penn State

The Syracuse University Marching Band will travel to Pennsylvania State University Saturday to perform at the Syracuse - Penn State football game.

The band will present pre-game, half-time and post-game shows in the Penn State Stadium. During the half time, and post-game shows, our "Grange Girl", Miss Judy Delp will be featured. The band is preparing a special salute to the Nittany Lions and to the many Syracuse students expected to be in the audience.

## 'Angels' Sponsor Women's Coffee

The Arnold Air Society and the Angel Flight, both associated with the Air Force ROTC at Syracuse University, will hold a coffee, 7-9 p.m. tonight, on the second floor of the Women's Building.

All AFROTC cadets and women interested in aviation and the Air Force are invited.

The program tonight will include a general information session followed by a question and answer period. A current film on air power will be shown.

## MR CATALINA

MAN RELAXED... a man selects a hand-some sweeter as he would a companion to share his most enjoyed moments... relaxing... or actively engaged in his favorite pastime. Created by our fine designer, John Norman, who himself makes a study of the art in 'moments of relaxation'.

## Holy Cross Tix Still Available

Tickets for the Holy Cross game on Parents' Weekend are still available. Four thousand tickets have been sold, but there are two thousand good seats remaining, reserved for parents. Tickets will be on sale until Thursday, October 25.

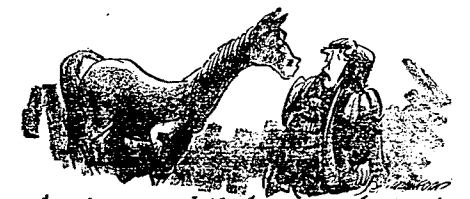

**Notice to SENIOR and GRADUATE MEN Students**  
who will complete their education and commence work this year. If you urgently require funds to complete your education, and are unable to secure the money elsewhere, apply to STEVENS BROS. FOUNDATION INC.  
A Non-Profit Educational Corporation.  
610-612 ENDICOTT BUILDING ST. PAUL I, MINN.

## SAIL ON, SAIL ON!

I suppose October 12 is just another day to you. You get up in the ordinary way and do all the ordinary things you ordinarily do. You have your breakfast, you walk your cat, you go to classes, you write home for money, you burn the dean in effigy, you watch Howdy-Doody, and you go to bed. And you do give one little thought to the fact that October 12 is Columbus Day? No, you do not.

Nobody thinks about Columbus these days. Let us, therefore, pause for a moment and retell his ever-glorious, endlessly stirring saga.

Columbus never wanted to clap eyes on a horse again...

Christopher Columbus was born in Genoa on August 25, 1451. His father, Ralph T. Columbus, was in the three-minute auto wash game. His mother, Eleanora (Swiftly) Columbus, was a sprinter. Christopher was an only child, except for his four brothers and eight sisters. With his father busy all day at the auto wash and his mother constantly away at track meets, young Columbus was left pretty much to his own devices. However, the lad did not sulk or brood. He was an avid reader and spent all his waking hours immersed in a book. Unfortunately, there was only one book in Genoa at the time - *Care of the Horse*. Columbus grew restless. So when rumor reached him that there was another book in Barcelona, off he ran as fast as his fat little legs would carry him.

The rumor, alas, proved false. The only book in Barcelona was *Cuidar un Caballo* by Aristotle, which proved to be nothing more than a Spanish translation of *Care of the Horse*.

Bitterly disappointed, Columbus began to dream of going to India where, according to legend, there was a whole lot of books. But the only way to go to India was on horseback, and after so many years of reading *Care of the Horse*, Columbus never wanted to clap eyes on a horse again. Then a new thought struck him: perhaps it was possible to get to India by sea!

Fired by his revolutionary new idea, Columbus need to the court of Ferdinand and Isabella on his little fat legs (Columbus, though six feet tall, was plagued with little fat legs all his life) and pleaded his case with such fervor that the rulers were persuaded.

On October 12, 1492, Columbus set foot on the New World. The following year he returned to Spain with a cargo of wonders never before seen in Europe - spices and metals and plants and flowers and - most wondrous of all - tobacco! Oh, what a sensation tobacco caused in Europe! The filter had long since been invented (by Aristotle, curiously enough) but it was nobody's business what to do with it. Now, then, Columbus, the Great Discoverer, made still another great discovery: he took a filter, put tobacco in front of it, and invented the world's first filter cigarette!

Through the centuries filters have been steadily improved and so has tobacco, until today we have achieved the ultimate in the filter cigarette - Marlboro, of course! Oh, what a piece of work is Marlboro! Great tobacco, great filter, great smoke! And so, good friends, when next you enjoy a fine Marlboro Cigarette, give a thought to the plucky Genoese, Christopher Columbus, whose vision and perseverance made the whole lovely thing possible.

And thank Columbus too for the King-size Philip Morris Commander. If unfiltered cigarettes are your choice, you'll find Commander the choice of the unfiltered. Welcome aboard.

Carpenter & Hughes place at your disposal all the facilities of the largest and best equipped optical dispensing establishment in Central New York. We maintain the only complete dispensing laboratory in this locality, to afford you excellence of product and superior service.

Over three thousand color, style and size combinations afford you an unequalled frame selection. Appropriately styled for each occasion, they give you positive assurance of correct and flattering eyewear.

## Ailing Miss Evans Appoints Group On Interim Basis

(Continued from Page 1)  
 university rules and penalties regarding gambling, for the purpose of clarifying them for the student body.

Senator Marc Goldstein (ISO) moved that JSU pass an official protest against the State of Georgia in "regard to its recent decision to execute a 15-year-old boy" and that it sponsor an official petition to express student disapproval of such action.

This motion was referred to the Local and National Affairs Committee along with one by Junior Senator-at-Large Robert Becker calling for Syracuse's affiliation with the United States National Students Association (USNSA).

### Discrimination Questioned

In other business, Senator Krum questioned the legality of sorority and fraternity discrimination clauses on the Syracuse campus and referred to an old JSL bill which attempted to outlaw such clauses.

The question was given to the Ways and Means Committee which will check existing legislation and discuss the situation with the administration.

Speaker Fitzgerald, although satisfied with Tuesday night's turnout, expressed a desire that more senators, especially freshmen, will attend future meetings. "The next meeting will be the first at which legislation will be discussed on the floor. It is imperative that every living center send a representative," Fitzgerald noted.

### Dress Standards Asked

He also asked the senators to be more careful of their appearance at future meetings, noting that jackets and ties for men and skirts or dresses for coeds are standard dress for all JSL meetings.

## Chapel Displays 18 Art Works

The Motive Art Exhibition is on display in the Colonial Room of Hendrick's Chapel. The eighteen original works included in this exhibit have all been featured in Motive magazine and have been displayed at 50 campuses during the past two years.

Rev. Arthur Hopkinson, Methodist Chaplain of Hendrick's Chapel, said that Motive magazine brings together religious and modern art.

## Horwitz Discusses

(Continued from Page 1)  
 hit, and the greater the damage to the body.

Coming to the subject of genetics, Dr. Horwitz stated that in everyone receives a fifty-percent dose of radiation, future generations would be affected. He said that today four per cent of all births had genetic defects. If we (and succeeding generations) were all to get a 50R dose, within 14 generations the mutation rate will have doubled. The rate would rise about seven per cent each generation.

If this generation was subjected to an atomic war, and if it is assumed that every survivor would receive a 250R dose of radiation, then the number of genetically defective births in the next generation would jump to six per cent from the normal four per cent, or about a 35 per cent increase. As time passed (assuming there would be no other war) this number would slowly drop back to the four per cent level, he said.

Giving a personal view of the arms race, dealing with the Russians and nuclear testing, he said, "I think it is important to realize that there are risks in any course of action that we may follow. Although negotiating with the Rus-

sians about the arms race and a test ban involved risks, I would like to see the U.S. take such risks, because, in my opinion, it would be smaller than the risk we face in allowing the arms race to go on."

He continued, "I presume that both countries are exerting a big effort to develop new arms. Unless there is some stop to this race, the risks of war would be very large."

Dr. Horwitz hastened to add that his opinions were those of a layman when it came to problems of political and military affairs. "I would say, in hindsight, that it would have been better to accept a test ban on terms which involved limited inspection, when the U.S.S.R. was for the idea," he added.

Both east and west fear a China with atom weapons, he said. "We should be very alarmed about nuclear tests; but the reason for alarm should not be the fallout, but the danger of using these giant bombs for warfare," he said.

Syracuse University's symbolic colors at one time were pink and pea green. Early in the century these were changed for the present single color, orange.

## Young Dems Give \$100 to City Party

The Young Democrats Club of Syracuse University has given a contribution of \$100 to the current Democratic Campaign in Syracuse.

Henry H. Norman, Democratic Candidate for Mayor of Syracuse, wrote a letter of appreciation to the club, stating that this contribution proves that, contrary to public opinion, University people are not guilty of ivory tower irrelevance, but rather they think and act wisely.

Norman also said that he is glad to see that even though most of the members of Young Democrats are not local residents, but are mature enough to desire better government for the city which is their home for four years.

The Young Democrats also received a letter from Charles H. Keene, Democratic County Committee Chairman, expressing

## Rally to Feature Parade, Speaker

The Penn State Pep Rally, 6:30 p.m. tonight, will start in front of DellPlain Hall and terminate in Walnut Park.

Judy Delp, Syracuse major-ette and varsity and freshman cheerleaders will take part in the parade and pep rally. Coach Ben Schwartzwalder will address the rally. The winner of the Penn State poster contest will be announced.

Security police have asked that all participating students remain in the park and stay out of the streets after the parade. Both Security and City police will be at the rally. If students co-operate more rallies will be held in the park.

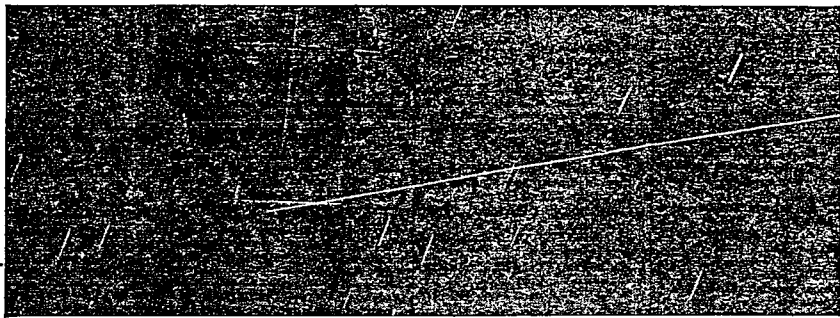

Co-chairmen for this pep rally are Barbara Emyth and Jon Christensen.

appreciation of the time and money the Young Democrats have given to the present campaign.

## PROJECTS OF THE BELL SYSTEM

range from the reaches of space

Unretouched time exposure shows Echo I communications satellite (long line) crossing the heavens right to left. Shorter lines are stars "in motion."

to the depths of the sea

Actual undersea photo of telephone cable off coast of Florida.

Our job is providing communications of all kinds, wherever needed—whether in the northern snows to flash word of possible enemy missile attack, or in your home or college, or in serving the nation's business.

When we can't fill a need off the shelf, then we start fresh and create the answer to the problem. We've done that hundreds of times.

We began transatlantic radiotelephone service in 1927. Then we developed the

world's first undersea telephone cables to speed calls between continents.

We handled the world's first telephone conversation via satellite. And we have started development of an important world-wide communications system employing satellites.

When industry and government needed a way of gathering huge amounts of coded information from distant points, we were ready with our vast telephone network and Data-Phone, which can

transmit mountains of data at extremely high speeds.

And so it goes—Long Distance service, Direct Distance Dialing, the Transistor, the Solar Battery—a succession of firsts which goes back to the invention of the telephone itself.

Universal communications—the finest, most dependable anywhere—are what we deliver. Inside: for home, office, or plant. Outside: on land, under the sea, through the air,

The Campus Alliance Party and United Students party freshmen nominating conventions are scheduled for 7:30 p.m. today. The 7:30 time is for freshman delegates and nominees. Upperclass delegates to both conventions must be there at 7 p.m. CAP will hold its convention in 117 Maxwell Hall. US is tentatively scheduled to meet in the Hendricks Chapel

Lounge. A note on the door will inform delegates of any change in location. All freshman floors and living centers may send two delegates to each convention. Freshmen wishing to be nominated by either party should bring applications with their campus address, telephone number, ideas, campus and high school activities.

### MISCELLANEOUS

**ALTERATIONS DONE** within 24 hours. Lillian M. Potter. Call for appointment. GR 8-5847, 207 Comstock.

**LEARN TO DRIVE**, easily, correctly, safely. Try our 1.5-10 lesson course. UPSTATE DRIVING SCHOOL. Phone HO 8-4040.

**WATCH AND JEWELRY** repair, school supplies, stationary Studio cards, gifts at RUTH'S GIFTS, 734 S. Crouse Street. GR 6-1837.

**PRIVATE DRIVING LESSONS**, accelerated courses, automatic or standard shift. Qualified professional instructors.

**SOCIAL STUDIES POSITION** currently opened at Fayetteville, Manlius. Senior high school, preferred experience. Telephone Mr. Merrett Louis, principal, at NE 7-6660.

**PERSONAL CATERING SERVICE**, (LU) and (DR); let us take your worries for your party needs. Planning, preparing and serving. Fraternities, sororities and class get together. Specializing buffets, hors d'oeuvres, canapes and tea cakes. GR 4-6233 or HY 2-1078.

**FOUR TICKETS** to Syracuse home game; if lost, call GI 8-0561.

### FOR SALE

**1961 SIMCA**, Monterey 4-door, all extras 35 mpg, reasonable, Ext. 2651, Dr. Cheng.

**OLDS, 1948**—excellent condition. Automatic. Mr. Mant job. Best offer. Call HO 8-5238 or GR 4-3338.

**1959 VOLVO**, two-door, Rand H. One owner only. 12,000 miles. Priced to sell. Blue Ribbon Motors Inc., 521 South Ave., Syracuse. GI 5-5219.

**1956 BUICK** Special 2-door hardtop, \$400. Good condition. Call after 5 p.m., GR 2-4849.

**1956 M.G.A. ROASTER**, red; good condition; reasonable. Call GR ext. 2512.

**1951 PACKARD**, Excellent condition, six good white walls, wheels, snow tires, "self-seeking" radio. GR 6-6397, \$80.

**1958 SUPER 88** Oldsmobile, excellent condition, automatic, radio, heater, deofrost, \$1,000. Call GI 6-2994 evenings.

**FUR COAT**—Full length sheared raccoon coat—size 16—perfect condition. \$125. Call Gibson 6-2431 after 5.

**VOLKSWAGEN**, 1957 convertible. Radio, seat belts, trailer hitch, \$750. Call John Wright, GR 2-1746 Saturday or Sunday p.m.

### FOR RENT

**NOT APPROVED FOR SINGLE UNDERGRADUATES**

**MODERN FOUR ROOM APT.**—heated, private bath and private entrance. See anytime. GR 8-2608. Near hospitals and bus lines. Furnished.

**GRAD**, student in large, recent apartment development will rent unfurnished extra room \$50 or share apartment \$75. Village Drive. Hempstead 7-3753 mornings.

**FURNISHED HOUSE**, Gas heat, hot water, garage. No utilities included. \$90 month. Call Mrs. Julian, HE 7-8653 or GR 9-6088.

### WANTED

**TEACHER**—Immediate opening, 9th grade Social Studies. Apply Superintendent of Schools, Solvay, N.Y., HO 8-2551.

**PART TIME WORK**, college men afternoons and evenings, 18 hrs. per week. Work schedule arranged to suit study and class schedule. We want primarily BUS, ED., LIBERAL ARTS students, who have an interest in publicity and promotion. For interview call Mr. Edge, HA 2-8756, 9 a.m. to 2 p.m. Salary \$42.50 per week.

**RIDE TO Lake George** or Glenn Falls area, 20th or 21st. Contact Dania, ext. 2197.

**RIDE TO New York Friday**, return Sunday. Call Barb Reed, ext. 2680.

**RIDE TO Bridgeport, Conn.**, or vicinity. Leave Friday, Oct. 20, return Sunday. Larry Eskwith, ext. 2022.

**RIDE TO Westchester County** or vicinity. Leave Friday, Oct. 20, return Sunday. Duncan Hale, ext. 2022.

**RIDE FOR TWO TO BOSTON**, Leaving Friday, Oct. 20. Call ext. 2954, Lynne. Returning Sunday.

**THIRD MALE** to share exceptional apartment including TV, telephone, garage, \$10 week. GR 8-6198 after 4 p.m.

**RIDE TO BOSTON** — Leaving Friday, Oct. 20. Call Judy Cohen, ext. 2294.

**RIDES TO Penn State**, Leave Friday afternoon, return Sunday afternoon. John Plattnec, ext. 2520.

### TYPING

**TYPEWRITERS RENTED**, repaired. We call for and deliver free. Open 24 hours a day. Call Smith Bros. GR 8-8833.

**ALL KINDS** typing done expertly. Experienced, free proof-reading, thesis specialty, "IBM" Electric, GI 6-6361.

**ELECTRIC TYPEWRITER**. All kinds typing; specialize in dissertations. OW 9-2216 after 6. **TYPING DONE**. Experienced. Call GR 8-6182 after five.

**EXPERT** thesis typist will type your thesis, term papers, manuscripts, letters and so forth. Call NE 7-9747.

**TYPING DONE** — Reasonable rates. HY 2-9414.

**WILL DO AT HOME**. GI 6-3090.

**TYPING DONE** — Experienced. Call GR 4-7481.

The Mark of Distinction MCMLXII "ON"

# Frosh Bolt 2 Conventions; Nomination Dates Reset

## Bailey Nominated President On US Freshman Slate

US To Finish Work Sunday; CAP Sets Tuesday Meeting

By JEANNIE RANOV  
Junior Editor

After freshman delegates walked out on both United Students and Campus Alliance Party conventions Thursday night, US nominated a presidential candidate and adjourned its convention to Sunday and CAP reset its entire convention for Tuesday night.

In the first few minutes of the CAP gathering in Maxwell, freshman Michael O'Brien stated the demands of his class: that only freshman delegates vote for nominees, that freshmen only serve as campaign managers and that the party's only contribution to the campaigns be financial.

CAP President David Chase immediately rejected all three demands. O'Brien said, "Thank you, sir," and over thirty freshman delegates marched from the room.

The CAP convention then adjourned.

Later in the evening, Chase issued a statement to the Daily Orange. "CAP has decided to hold a Class of 1965 nominating convention at 7:30 p.m. Tuesday, in 111 Maxwell. My party has been contacted by living centers and cottages who have expressed their dissatisfaction with the present situation.

"I strongly urge all freshmen to discuss the issues at their next meeting. CAP will still offer equal representation at its convention Tuesday."

Chase said he was "very hopeful" about CAP's future. He said he expects to draw the party's candidates from "the overflow" from US and the freshmen group's would-be nominees.

In a closed meeting before the US convention began, that party decided it too would refuse the three freshman demands.

US President Ellis Gaskell told the freshmen delegates of the decision, and all but about 30 of them left the convention.

As several freshmen remained who wished to be nominated, the convention proceeded.

David Bailey, 18, of Kinderhook, a forestry student who is president of Seymour Cottage took a second ballot victory over John Manara.

Five candidates were voted upon in the first balloting. Bailey was president of his sophomore and senior classes and student council vice-president in high school.

Ten vice-presidential candidates were interviewed, but the lateness of the hour caused voting to be postponed. The convention moved to continue at 6 p.m. Sunday. The location will be announced.

MICHAEL LIEBERMAN — one of the leaders of the frosh political revolt — is interviewed by a WAER announcer while other freshmen discuss plans. To the far right is ROBERT STERN who was speaker pro tempore at last night's meeting. Lieberman is a member of a 7-man committee which is drafting the constitution for the frosh party. (Photo by Bruce Anspach)

## Frosh Delegates Present Ultimatum To Both Parties

Late Night Session Drafts Constitution For '65 Party

By JOYCE HERGENHAN  
Junior Editor

Freshman political discontent erupted into full-scale revolution last night.

Denied their request for a more powerful voice at the two campus party nominating conventions, 123 elected class political representatives left the meetings and held one of their own.

An unpublishing gathering on the steps of Hendricks Chapel early Thursday evening set the stage for the later fireworks. At the impromptu meeting, the representatives approved the ultimatum later delivered at both US and CAP party conventions.

The ultimatum demanded that only freshmen be allowed to vote for candidates and that the freshman candidates be allowed to choose their own freshman campaign managers. It further demanded that the upperclassmen act only in a passive advisory capacity.

The parties were quick to reject the demands. The freshman representatives from both meetings left immediately for DeLl Plain lounge. Here they laid plans for an independent freshman political organization.

After electing Robert Stern, a rebel from Charlotte, North Carolina, as their speaker pro tempore, the delegates discussed plans for holding their own convention, independent of party influence or control.

Joint Student Government Governing Board members Peter Fielding and William Hyman clarified government rules and procedures in regard to political organizations and explained that the freshman couldn't hold a convention and run candidates until their constitution is approved by the Joint Student Legislature.

The first JSL meeting is scheduled for November 1. Since this is also the day set for Freshman elections, the governing board will meet today to consider holding a special legislative session Monday night to review the Freshmen's proposed constitution.

Stern appointed seven delegates to draft the constitution for their own political organization. The document will be presented to the Freshmen at a meeting Sunday afternoon in DeLl Plain.

If this constitution is approved by the governing board, the tentatively slated Monday-night JSL session, the frosh will hold a nominating convention Tuesday.

The question of one or two slates was the main point of contention among the delegates last night. Although they felt one slate stood a better chance of being elected into office, many delegates felt that the tentative giving of the class a choice of independent candidates was better served by nominating two slates. This question will be resolved at Sunday's meeting.

# Badly Battered Orangemen Battle For Eastern Honors

By MILT JOFFE  
Junior Editor

The remains of the Syracuse University football team journey to University Park, Pa., today. The Orange's three-year winning streak against Penn State will be placed in serious jeopardy when the battered Syracuse squad takes the field tomorrow.

Tomorrow's game will be broadcast by WSYR (579 kc.) and will be televised by WSYR-TV (channel 3). The game is the NCAA - ABC game of the week in the east.

Coach Ben Schwartzwalder, plagued by the worst rash of injuries in his 13 years on the Hill, will be counting heavily on another standout performance by All - America halfback Ernie Davis. Ernie's presence in the lineup is about the only thing Ben can be happy about.

The six broken hands on the Syracuse squad have caused disbelief and gloom on the campus, with the gloom being heaviest in the vicinity of the coaches' offices in Archbold Stadium.

Along with the broken hands, sported by lineman John Paglio and Dick Bowman, and backs Dick Easterly, Bob Lelli, Bill Schoonover and Jim Gaskins, first string quarterback Dave

Sarette is suffering from a badly hurt shoulder and is almost definitely out of action for the Penn State tilt.

Billed as the top contest in the east, tomorrow's contest is expected to fill Beaver Field to the brim. The pre-game estimate is 45,000 people, many of which will be Syracuse students.

The Syracuse - Penn State rivalry dates back to 1922 and has been continued every year since with the exception of one year when Syracuse discontinued football.

In the 39 games played Penn State has won 17, Syracuse 16, and there have been five ties. Since 1954 neither team has won by more than one touchdown.

Tomorrow's game also shapes up into a battle of the coaches. State's Rip Engle will be seeking his 100th career coaching victory for the second straight week. Army spoiled Engle's celebration last week.

Schwartzwalder has 101 lifetime victories and a six to five edge in the personal duel with Engle. However, in his 12 years against Penn State, Ben is 6-5. He started here one year before Engle moved to State from Brown.

This season was to be Penn State's year, but they too, have

suffered serious blows to key men and are presently playing 500 ball with a 2 - 2 record.

Getting back to the personnel for tomorrow's game, the Syracuse backfield will go with sophomore Walt Sofisan at quarterback, Davis at left half, Pete Brokaw at right half, and sophomore Bill Meyers at fullback.

Meyers, who moved from fourth string end to second unit fullback against Nebraska, was impressive in that position and also played defensive linebacker well. He gained 36 yards in six carries against the Cornhuskers.

The first string line will be remain intact. Walt Sweeney and John Mackey will be at the ends with John Brown and Dick Fielder at tackle. The guards will be Jim Mazurek and Dave Meggyesy with Bob Stern centering.

The second string line will be more or less a patchwork unit. The backfield will have untested soph. Mert Rauer at quarterback, John Humphreys and Gary Falzon at the halves, and John Charrette in the fullback slot.

In all, 42 men will make the trip, five by automobile. Coach Ben is taking everyone he thinks can help the team at all. Many of the boys making the trip have no varsity experience.

Editor-in-Chief ..... Sam B. Girusg  
Business Manager ..... Andrew Levitt

## First Response

Yesterday, Assistant Professor of Chemistry George Wiley dropped a bombshell in the middle of Walnut Avenue. In a letter to the Daily Orange, Wiley proposed the end of fraternities at Syracuse because of their racial and religious discriminatory practices. Today, Interfraternity Council President Dick Miller answered Wiley's words by writing that ending fraternities because of discrimination would, in effect, be like abolishing schools in the South because of segregation. The solution to this problem, Miller writes, is a needed one that will take time but requires fighting from within the fraternity system even more than outside interference.

Our dispute with Miller comes in his attempt to equate the importance of Syracuse fraternities as a social institution with the southern school system. In a democracy, children have to go to school but college students do not have to belong to fraternities. And to us, the denial of fraternity membership to one student because he is Negro degrades the whole system to a point where justification for its existence becomes almost impossible.

## The Twist

Yesterday's New York Times brought a certain dignity and respect to the current American phenomenon called the twist. In an article written by Arthur Gelb, it is pointed out that not since the twenties has the tradition of "slumming" been so popular, with greater numbers of New York's elite cafe society offering competition to fanatical teenage twisters in mid-town New York. We are not too sure if this offers a particularly significant comment on the current American scene, except to say that it is a little discouraging to find the adult "sophisticated" world giving up psychotherapy for more juvenile panaceas. As for the ever current Syracuse rumor mill, it might prove worthwhile that in his discussion of the leaders of the twist, Gelb writes, "Mr. Checker will leave soon on a European tour." No, Virginia, Chubby is not at Syracuse.

— SWEETNESS AND LIGHT —

# On Dr. Wiley's Letter

By KENT L. BARWICK

For some reason it is Anti-Fraternity Week again. I guess if the weather's good and team wins there is nothing else to cry about but fraternities. Latest to add his voice to the unlonely crowd is Dr. George Wiley of the Chemistry department, a man for whom, if it makes any "ference, I have the highest personal regard and whom I am sure has the students' interest foremost in his mind when he speaks.

Dr. Wiley has, though, announced that he is going to initiate a motion withing the Faculty Senate to get rid of social fraternities. The reason: that they have made no progress in accord with the speed of integration in the Deep South, and that this is intolerable to a "large, enlightened university."

First of all I will agree with Dr. Wiley that intergration has occurred more slowly here than in the South, but, then, I never realized that intergration was the question here. "Brown v. Topeka, Kansas" in 1954 decided that separate but equal school facilities were not in accord with the right of all citizens to be equally considered and treated in the eyes of the law. And this is both just and desirable.

The forced integration of a non-public meet society may be desirable but it certainly is not just. Universities, like Syracuse, are considered semi-

public and are denied discriminatory funds if they discriminate, but Syracuse fraternities for the most part are privately owned, privately and heavily taxed (as private institutions, not educational ones), and are not helped a hell of a lot by Syracuse University and us are not supported by public funds. Interestingly enough, Syracuse University is supported considerably by alumni, and most of these happen to be fraternity men.

The issue of discrimination is always a sticky one. All for integration are liberals, all against are reactionaries. But this is a poor distinction. If all discrimination occurred in "the public realm, then the distinction, for my money, would hold, but in the private realm it simply makes no sense. As often as possible we should turn out of their pigged halls change their opinions? Not instead, a worthwhile experience now granted to most would be erased because it could not be enjoyed by all.

Another point not directly concerned: Dr. Wiley has the right to self-expression and if his conscience so dictates he should stick by his guns, but since fraternities and sororities represent a sizeable piece of the student body, and since Dr. Wiley is the advisor to student government, it hardly seems consistent with the tradition of non-biased advisors for Dr. Wiley to remain in that post.

To the Editor:

Since the Supreme Court decision on school integration in 1954, school desegregation has been effected at only a one per cent per year rate. This is truly very slow progress.

Does Assistant Professor Wiley feel that the schools should be closed in the South? Truly not, yet this is his solution to the problem as it affects the Syracuse University fraternities and sororities.

What Mr. Wiley proposes is the disbandment of the Greek system. We cannot see any logic in his reasoning. The fraternities and sororities at this university have always been against racial or religious clauses. Indeed, the few who

still have them in their charters are leading the fight at national conventions. Is it wise to disband the system so that these houses will no longer have the chance to fight. We think not.

Rather than "estimate" the progress made by Hill fraternities on this issue, let's look at the facts. In the past year two fraternities have found solutions to the problem of racial and religious discrimination, and their national organizations have adopted new policies.

We admit rather readily that the Greek system has problems, but the problems of any organization are never solved by disbandment. We are looking the issues squarely in the face, and we are making rapid steps toward their solution.

During our Greek Week we plan to hear a discussion by national fraternity leaders on this subject. We plan to lay the facts bare and let the campus decide for itself whether the Greeks are fighting discrimination effectively.

The solution, however, does not lie in surrender. It lies with meeting the problem head-on; just like in chemistry.

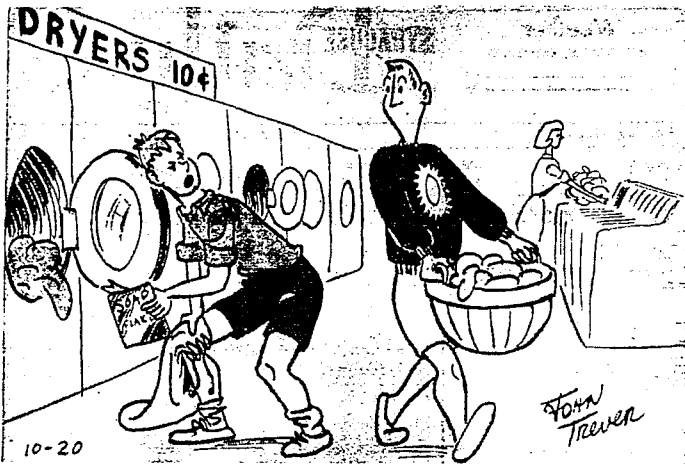

Richard Miller  
President, IFC

To the Editor:

According to our information the IFC has dictated that transfer students shall be deferred until their second semester at the university. In our opinion, such a system produces a marked incongruity between the academic and social standing of a significant group of Syracuseans, and thereby cuts down the ease with which they are absorbed in university and fraternity life.

We present our case to the IFC for consideration in the hope that it will clarify the reasons for its position on this issue.

Transfer Students, '63

"How much soap do you put in for a load?"

## IFC Upheld, Hit

## OPINIONS ON CAMPUS

By REA TURET

Question: What do you think of fraternity and sorority restrictive clauses?

Richard Cogan, '64, Greek: The restrictive clauses are archaic. Fraternities and sororities that employ them belong to the narrow-minded and outdated South where segregation still flourishes. Part of emotional maturity is not only learning about, but accepting differences in people's races and religions.

Anne Gilson, '63, Greek: Fraternities and sororities should be without restrictions. The majority of the Greek houses don't have restrictions, either national or local. In a house, you select a couple whom you care to live with, and like. This is not a problem of integration, but of selection. It doesn't matter which majority, or minority, group you are dealing with.

Pete Farrell, '64, Greek: A fraternity is a group of people joined by similar interests. So, why not have restrictions?

Marianne Pomstein, '64, Independent: It is wrong to have a restrictive clause, nationally, although there are still advantages to it. I don't condemn people having a clause, but I condemn the people who made them up in the first place.

Perry Irvine, '62, Greek: A fraternity is a social organization. You accept members on the basis that you will be able to live with them, and that they will be acceptable to other members of the group. If you find that through various prejudices certain individuals are not socially acceptable to you, you find that you have to discriminate by arbitrary standards. A private organization, such as a fraternity, cannot be governed by the discriminatory clauses of the state government.

Fredrick Eckhardt, '64, Independent: The restrictive clauses force the houses to limit the people they can take. If they didn't have the clauses, then they would be a better chance of their accepting students of different religions. The charters should be more flexible so that the principles could be changed on the different campuses. For example, on a campus such as this, where there isn't prejudice, there should be acceptance of different groups into the houses, whereas in the South, such a thing would not happen.

# 'Rain' Production To Open Tonight

A taste of the theater of the 1920's will be had with Ken Bowles' production of "Rain," to be presented at 8:30 p.m. at the University Regent Theater Friday through Sunday.

The play deals with the meeting of Sadie Thomson, a colorful prostitute, and a farnatical minister on a South Seas island. The clash of their personalities and the idea of mistaken, tyrannical righteousness give us the material for a morality play which has survived the test of time.

Director Bowles has made many changes in the script of the London production to suit American audiences. In a few of the play's crucial points, such as the all-troublesome opening in the third act, he has differed from traditional interpretations.

When, after two acts of bawdy and flamboyant behavior, Sadie is suddenly prayerful and repentant, there has not been, in most productions of the drama, any credible explanation for this turnaround. But Bowles has played down the flaw by having Sadie appear hypnotized by the minister. Instead of totally converted, her eventual reversion into her old self is then be-

lievable.

Judging from the dense rehearsal held Wednesday night, we can expect a memorable amateur production of this difficult play. Difficult because many jostling, noisy characters must be staged at one time, and because so much of the suspense depends upon precise timing.

Lucille Markson has showed remarkable understanding in her role as Sadie. She so aptly conveys the impression of hidden goodness that cannot express itself in words but only by undertones of facial expression and action. Great, electric vitality is required of her at all times. When asked at the end of rehearsal what she thought most characterized her role, she answered, "energy."

Obviously, this is not the kind of play written for present day audiences. The idea of the outright morality drama has long been considered a thing of the past. But this production of "Rain," though making no claims to modernity, is important because it presents a well-written play on a theme once important to theater goers, and therefore important to us as a strong reminder of the past.

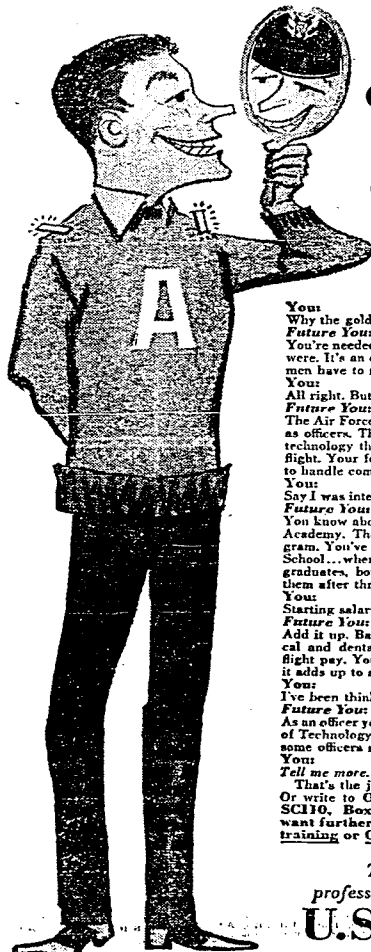

R.L.

## had a one-man conference about your future lately?

**You:** Why the gold bars?  
**Future You:** You've neglected... just as your father and grandfather were. It's an obligation that a lot of qualified college men have to meet. If we don't...  
**You:** All right. But what can I do for the Air Force?  
**Future You:** The Air Force needs college trained men and women as officers. This is caused by the rapidly advancing technology that goes with hypersonic air and space flight. Your four years of college have equipped you to handle complex jobs.  
**You:** Say I was interested... how can I get to be an officer?  
**Future You:** You know about Air Force ROTC and the Air Force Academy. Then there's the navigator training program. You've probably heard about Officer Training School... where the Air Force takes certain college graduates, both men and women, and commissions them after three months of training.  
**You:** Starting salary is important. What about that?  
**Future You:** Add it up. Base pay, tax-free allowances, free medical and dental care, retirement provision, perhaps flight pay. You don't have to be an eco major to see it adds up to an attractive package.  
**You:** I've been thinking about getting my Master's.  
**Future You:** As an officer you can apply for the Air Force Institute of Technology. At no cost, and while on active duty some officers may even win their Ph.D. degree.  
**You:** Tell me more.  
 That's the job of your local Air Force Recruiter. Or write to Officer Career Information, Dept. SC110, Box 7608, Washington 4, D.C., if you want further information about the navigator training or Officer Training School programs.

There's a place for professional achievement in the  
**U.S. Air Force.**

# Freshman Eleven Entertains Buffalo At Low Carr Field

By DICK STOKVIS

With the Syracuse varsity grid-deres hitting it out for eastern honors at Penn State, Jim Shreve's Tangerines will play before the home fans for the first time in two years.

Buffalo will furnish the opposition as the Hill frosh try to right themselves after last week's performance at Annapolis where Navy blanked the Tangerines, 8-0. The contest is scheduled for 10:30 a.m. at Low Carr Field in Colledale. Admission is free.

While the Piety freshmen were having their trouble against Navy, the Bison were going down to their second straight defeat. Following an opening game trouncing by Army, 34-20, the Buffalo frosh bowed to Colgate, 19-8.

**Workouts**

Coach Shreve's crew worked on fundamentals and play execution this week in an attempt to better the club. A key defense was the culprit in last Saturday's game and the frosh mentor put special emphasis on hitting and tackling.

"We didn't strike a blow, we didn't tuckle, and we didn't pursue against Navy", Shreve stated. The team was strickly out-played."

Singleed out for poor defensive work was tuckle Mike Waxman, end Paul Houle, center Bob Morgan and several other players including backs Dick King, and Jim Nance. Lineemen Jim Wilson and Nick Cirone also performed below par according to Shreve.

At the same time, Shreve expressed satisfaction with the solving of backs Billy Hunter, Herb Etzold, Mike Kosci, and Ducky Duckett.

"We worked hard this week and there was an attitude of more seriousness", Shreve said, "I hope that the football players will show up real good Saturday. The switching of guard Gerald Everling to first string inside tackle and the promotion of half-back Jim Nance to fullback on the first team highlighted the line-up changes for Saturdays game."

# Undefeated Harriers Seek Third Victory

Coach Bob Grieve's undefeated cross-country runners journey to West Point today to take on the Army Harriers. The Orange-men will be seeking their third victory of the season, having defeated Colgate and Buffalo.

The Syracuse freshmen harriers are also making the trip and will be after their second win of the young season. They defeated Buffalo last Saturday after trying Colgate in their first outing of the year.

Pacing the varsity harriers will be Joe Francello, who in the first two meets this fall has cracked course records. He has won the last seven dual meets in which he has appeared. Also competing for the Hill squad include Mike Guzman, Steve Killorin, Mooney Ferguson, Jack Dailey, Mike McGuire, and Dick McHenry.

The Tangerine runners will be paced by Tom Higgins, who broke a course record in the Buffalo meet.

**WHY ONLY 11 MEN ON A FOOTBALL TEAM?** Because all the other students are just too busy. Yes, busy doing research, studying, smoking Luckies, playing bongos, smoking Luckies, dating, partying, praising professors and smoking Luckies—much too busy for football. Why so many "smoking Luckies"? Simply this: We try to give an honest representation of college life; and college students smoke more Luckies than any other regular cigarette—so smoke Luckies.

**CHANGE TO LUCKIES and get some taste for a change!**

# Galen Hall's Return Boosts Penn State Passing Attack

By DAVE DEAN  
Associate Editor

Syracuse will try Saturday for a fourth straight win over the Nittany Lions of Penn. State, while the home - standing Pennsylvanians will be trying for their second comeback of the young season.

The Nittany, rated tops in the east before the season began, opened their season with a 20-10 win over Navy, but then lost to Miami in an upset, 25 - 8. Boston University fell in a 32 - 0 comeback win; however, the favored Staters followed this with a 10 - 6 loss to Army last weekend.

Thus, the hosts bring a 2 - 2 mark against the 3 - 1 record of the Orangemen.

### Some Returns

The Penn State offense, which lagged in the Army encounter, should receive a boost when starting quarterback Galen Hall, a senior, returns to the "P" after a two - game absence.

Hall, who led his team in passing offense during the 1960 season, missed both the Boston University and Army games with a shoulder injury incurred in the Miami contest. With sophomores Don Caum and Pete Listie taking over, the Lions have completed 32 of 73 passes for 45 yards and three touchdowns in four games.

### New Starter

Junior halfback Roger Koehman, who nearly ruined the Orange national title bid during the 1959 season, has been promoted to the first team offense for the Syracuse encounter. Koehman, a second - team performer who missed last season with an injury, has the leading rushing average for the team, 4.9 yards per carry.

He is joined in the backfield by junior fullback Dave Hayes,

the top ground - gainer with 173 yards, and senior halfback Don Jonas, who gained 143 yards.

Top pass receiver for the Lions is alternate left halfback Al Gur-

sky, who has caught five passes for 67 yards; halfbacks Jones and Hal Powell each have four catches and one touchdown reception.

**2 FIRST PRIZES OF \$100 A MONTH**

Winners (one man and one woman student) will receive a check for \$400 on Dec. 16th and \$100 a month beginning in January and ending in May.

**25 SECOND PRIZES** of a new Philco transistor radio

**IT'S EASY TO ENTER—EASY TO WIN! HERE'S ALL YOU DO**

Just tell us in 25 words or less, what you like most about Sheaffer's all-new \$2.95 Cartridge Fountain Pen. Write your entry in ink on any sheet of paper, enclose it with the top from a package of Strip cartridges, and mail it to: Sheaffer "Pen Money" Contest, P.O. Box 4399, Chicago 77, Illinois. Entries accompanied with your name, address, school name and class must be received by November 7, 1961.

Entries will be judged on the basis of their believability and freshness of thought. Judges' decisions are final and all entries become the property of the W. A. Sheaffer Pen Company. None will be returned. In case of ties, duplicate prizes will be awarded. Every college student in the United States may enter, except employees of W. A. Sheaffer Pen Company, its subsidiaries, its advertising agencies... the independent company judging entries... and members of their immediate families. Contest subject to federal, state and local regulations.

Winners will be notified by mail approximately four weeks after contest closes. List of winners available after close of contest if request is accompanied by stamped, self-addressed envelope.

# Win \$100.00 a month

for the entire school year with Sheaffer's "Pen Money" contest

Here are some of the things to keep in mind when you're writing about Sheaffer's all-new cartridge fountain pen

- For smooth, easy writing, there's no substitute for a Sheaffer fountain pen.
- Loads like a rifle with leak-proof cartridges of world famous Strip writing fluid.
- Fills quick, clean, easy... just drop a Strip cartridge into barrel.
- Fits easily into a shirt pocket... comes in a choice of five smart colors.

By the Daily Orange Entertainment Staff

**Radio  
Television**

★  
**T  
G  
I  
F**  
★

**FIRST RUN THEATERS**  
**RIVIERA-CINEMA** — Ingmar Bergman's "The Virgin Spring" is a well-done study of the relationship between man and his God using 13th century Sweden as his setting. The story revolves around the rape and murder of a young girl, and the consequences of this act. One of the simpler and more compelling movies by this talented director. "Gates of Paris," a French film, is the co-feature. Spring at 6:45 and 10 p.m., Paris at 8:20 p.m.

**LOEW'S** — Paul Newman hustles with a trombone instead of a pool cue in "Paris Blues." Unfortunately, though the life

is just as sordid (Paris beats, interracial and homosexual love affairs and all), it isn't as good as "Hustler." Sidney Poitier and Diahann Carroll play one love duet, to the tune of "Overcome." Newman, it almost, with Joan Crawford. The jazz, with Duke Ellington and Louis Armstrong, is fun, though. "The Last Days of Disco" didn't. It should have. Blues at 6:45 and 9:40 p.m., Flight at 8:30 p.m.

**FARAMOUNT** — Pool halls might not be good for man or beast, but there's a pile of money to be made for the pool shark who can hustle around. Paul Newman, in one of his

best performances, plays "The Hustler," wisely directed and produced by Robert Ross. A sharp, tense film, it depicts Newman's ups and downs with gamblers and neurotic girls, well played by Gene, C. Smith and Piper Laurie. Jack Gleason is exceptional as "Minnesola Fats." "8 Ball" at 7:54; 9:28.

**KEIFF'S** — William Inge and Elin Kazan have combined to present a social commentary on teen-age love and the social attitudes about same in "Splendor in the Grass." Warren Beatty, who seems to be in line to inherit James Dean's position as a screen idol, gives a good debut performance assisted by Natalie Wood. Splendor at 6:20 and 9:55 p.m., Friday, 6:15 and 10:45, Saturday.

**ECKEL** — Some more schmaltz from Walt Disney. Uncle Dismal tells a story about some dog, loved by kids and hated by the Scotties and Andy. But true love wins out, and the dog gains social recognition. We've seen it before. And if you haven't, don't. Oops, we almost forgot, the title is "Governing Robby." Dog-eared 8 and 10:00 p.m.

**SHOPPING-TOWN** — A high adventure film, "The Guns of Navarone" presents David Niven, Gregory Peck and Anthony Quinn. They slay one of the reasons our side won World War II, and win themselves applause for a rousing evening of chills, thrills and excitement. Guns at 7:15 and 9:47 p.m.

**NEIGHBORHOOD THEATERS**  
**HOLLYWOOD** — The brief onset of winter may have prepared some people for a "White Christmas." But their old film starring Bing Crosby, Danny Kaye and Rosemary Clooney leaves lots to be desired. The score by Irving Berlin is pleasing. "Two Loves" with Shirley Maclaine and Lawrence Harvey has some good acting, but the plot is humdrum — all about a spinster school teacher who discovers love.

**MIDTOWN** — Academy award winner "The Apartment" stars Jack Lemmon and Shirley Maclaine. All about an organization man who moves up by lending his apartment for immoral but funny purposes. Also, "Smiley Gets His Gun." Apartment at 8:19 p.m., Friday; 9:32 Saturday; Smiley at 6:47 p.m., Friday; 7 p.m., Saturday.

**FRANKLIN** — A technician spectacular in the tradition of "Around the World in 80 Days," "Pepe" features a multi-ethnic stars who are and very little else besides Mexican comedian Continofas. The

second feature "Cat on a Hot Tin Roof" is a good translation of Tennessee Williams' play starring Elizabeth Taylor, WESGOT — Bing Crosby and his little troupe have taken their wigs through Theater on this week, but to little avail. "White Christmas" is no more meaningful here than elsewhere. "On the Double" gives Danny Kaye a chance to use his wonderful talents of mimicry, although there isn't much substance in this film either. Snow at 9 p.m., Double at 7:30 p.m.

**FALACE** — "The Honeymoon Machine" is a very light comedy about love in the IBM set. Steve McQueen is better in tv westerns. "Atlantis, the Lost Continent" is another highly done science fiction film.

**KALLET-GENESESE** — Steve McQueen and his IBM machine are here too, proving love in a mechanized age is one thing that shouldn't be left to machines in "The Honeymoon Machine." The second feature is a cute adaptation of Jean Kerr's best selling book of humor "Please Don't Eat the Daisies." Dog-eared Niven and Doris Day play the harassed parents in this one. Machines at 6:30 and 10:05, Friday; 9:25 p.m., Saturday. Daisies at 8:15 p.m., Friday; 7:20 p.m., Saturday.

**DRIVE-INS**  
**LAKESHORE** — "White Christmas" should bore a lot of people with what was once pleasant. Bing, Rosemary, and Danny. For drive-ins fans only. "Atlantis, the Lost Continent" is one of George Pal's sillier efforts. But the special effects are quite good. Why doesn't it snow into the next reel, at 7:30 and 11:20 a.m.; Lost 9:45 p.m.

**SALINA** — "The Honeymoon Machine" popped on E'way, and is now being on egg-ationally. Breaking the bank at Monte Carlo, even with an IBM machine, sounds familiar. "Two Loves" with Laurence Harvey and Shirley Maclaine has good acting, slow story. Machine at 9:32 p.m., Loves at 7:37 p.m.

**DRAMA**  
**KEN HOWLES CO.** — "Rain," a play adapted from E. Somerville Maughan's story of the same name, will be presented at 8:30 p.m., Friday through Sunday, at the University Regent Theater.

**LEWIS ALFES** — "The Man Who Courted January" and "The Glory Man" by Richard Harris will be presented at the coffeehouse at 810 E. Genesee, "January" at 9 p.m., "Glory Man" at 9:45 p.m., Friday and Saturday.

**CONCERT**  
**CROSS CONCERT** — John Oberbrunner, flute, and Veronica Brown, soprano, pianist, will perform, 4 p.m., Sunday, Crouse Concert Auditorium, SPORTS

**VARSITY CROSS COUNTRY** — Syracuse meets the Army at West Point.

**FRESHMAN CROSS COUNTRY** — The Syracuse frosh run against Army plebes at West Point.

*Good food for every mood!*

All us poor unfortunate souls who weren't lucky enough to fanagle a ride or grab a seat on the bus down to Pa., take heart. The game's on T.V. and besides, in our very midst, right here, remind you, you can have a wonderful weekend on the town after the game anyway.

Its as simple as heading out toward Court and N. Salina here in town to a large white mansion called Tubbert's. This is the place for a victory celebration because you'll dine in an atmosphere of unburied luxury, giving you a chance to think about what went on during the game.

It's all on purpose; they simply want you to come, relax and enjoy their wonderful meals and actually make Tubbert's an occasion.

To the original mansion, over one hundred years old, Tubbert's has just added a new wing, the Gaslight Room, and this too, is entirely in the traditional style of fine dining.

The Gaslight Room, large enough for seventy three people, is finished in cherry paneling, with two large bay windows at one wall. Chandeliers and gaslights, from the 1890 era add a real colonial flavor with their dim soft light. Music by pianists Tony Riposa or Phil Klein complete to the unhurried, intimate background for your meal.

In the way of food, The House of Gracious Dining has always been famous for its prime ribs, frog leg dinners and seafoods. But in a word, their whole menu is good.

Tubbert's serves dinners until 10:30 every night and offers a late evening sandwich menu until 12, so you always have time to make it over there after the show.

If you want to reserve large parties, or small two weeks advance is plenty; just ask for Mrs. Hickey at HA 2-3677, or GR 1-0569, and remember the Gaslight Room, even if you are going down to Nittanyland, it'll be here when you get back.

# Responsibilities Set For Band Director

Syracuse University Marching Band's new director, Donald Schmauss, has finally been informed of what his responsibilities are concerning the band's role at pep rallies.

Through an administrative oversight, Schmauss was never informed that the band was supposed to play at the pre game football rallies. This resulted in a letter to the editor in Wednesday's DO, and many hard feelings between Schmauss, the band members and the pep committee.

Schmauss wishes to assure everyone that now that his responsibilities have been clarified, the band will play at the remaining pep rallies.

Concerning the band's dwindling membership, now down to 64 men, Schmauss said that in previous years this problem had also arisen. To counter this non-playing personnel were inserted into the ranks so that appearances were kept up. Schmauss, however, feels that this is not the correct thing to do. He wants to stress the quality and not the quantity of the band. When the quality is to the desired level, he believes that the band will again regain its full complement of 100 men.

## Young Dem Pres Mildly Censured For \$100 Outlay

Young Democrats executive council mildly censured president Leslie Kaye yesterday in a closed meeting. This action was taken because Miss Kaye had neglected to present her plan to donate \$100 to Henry Norman, mayoral candidate, to the council for approval before she presented it to the general membership.

The vote was 5-3 with one abstention. Even though the general membership supersedes the executive council in all matters, it has been the policy to present all proposals to the council for approval first. Miss Kaye's action, in the eyes of the council was unethical rather than illegal.

Young Democrats presented this money to Norman Tuesday for the purpose of buying two minutes of television time. Because this money represents almost half of the treasury, the council felt this decision was unwise.

## SENIOR PIX DEADLINE SET

Today and next week are the last times that seniors will be able to have their pictures taken for the '62 "Ononodagan." Pictures will be taken 11 a.m.-2 p.m. and 5-6 p.m. today, and 9 a.m.-12 noon and 1-5 p.m. all next week in the Men's Gym Trophy Room.

### JSL To Discuss Fresh Constitution At Meeting Today

Emergency Session Deemed Necessary By Governing Board  
By JOYCE HERGENHIAN  
Junior Editor  
Joint Student Legislature will consider the constitution of the freshman political organization at a special session slated for 7:15 p.m. today. The decision to hold the session was reached Friday night at a meeting of the new six-member Joint Student Government governing board.

The meeting is tentatively scheduled for Maxwell Auditorium, but if a previous reservation makes this impossible, a sign will be posted to notify representatives of the change in rooms. The freshmen's constitution must be approved by JSL before their organization can nominate and run candidates.

Students' election commissioners have set Wednesday as the deadline for submitting candidates' petitions, so unless the constitution is approved tonight, the group will be unable to nominate a slate before the midweek deadline. If it is approved, the freshmen will hold a nominating convention tomorrow evening.

JSG Statements  
After its meeting Friday night, the six-member governing board released the following statement:

"The executive governing board, by unanimous decision and under Article Four, Section One, paragraph three of the Joint Student Government Constitution, calls a special meeting of the Joint Student Legislature for the expressed purpose of considering the constitution of the freshmen political organization.

The governing board feels that it is in the best interests of the student body to recognize the appeal of so sizeable a portion of the campus community."

Disappointment with the tactics of the two existing campus political parties and the desire to have a stronger voice in the freshmen ranks, the JSG campaigns prompted convention delegates representing more than 75 per cent of the Freshmen living centers to leave the United Students and Campus Alliance party conventions Thursday night.

These delegates later met in the DellPlain lounge where they organized an independent freshman political party. Seven representatives were appointed to draw up a constitution to be submitted at another freshman meeting yesterday and at the USL session tonight.

### LAST WEEK FOR 'ON' PIX

Five hundred seniors will not have their pictures in the '62 "ON" unless they take action immediately. This week is possibly the last week that seniors can get their portraits taken for their yearbooks.

## Prompt Anti-Bias Action By Greeks Needed: Wiley

By JON MINDELL  
Associate Editor  
"I'm sick and tired of waiting." These were the words of Ass't. Prof. George Wiley, who stirred campus controversy last week by proposing the "dissolution" of the Greek system "as it exists here" because of their "lack of progress toward eliminating racial and religious bias."

"Everyone agrees with the ideal that racial and religious discrimination in living groups is a serious evil on a University campus," he said.

"But as with most ideals," he added, "most of us are inclined to pay lip service."

"The real test," Wiley emphasized, "is what sacrifices will be made to achieve it."

The 30-year-old Negro chemist paused, then said "neither the students nor the administration are enough concerned with the problem."

He expressed disappointment with reports that the Intergovernmental Council address given by Dean of Men Earle Clifford only barely mentioned the subject.

To a maturing college person trying to understand himself and

his work, Wiley commented "cutting off part of society-in-general is bad."  
He compared the segregation of minority groups to that of society amputating one of its arms and asking it "to grow up by itself."

"I object," he added, "to the concept of sticking to your own kind." Wiley said a person can form his own society but this is like the ostrich with its head in the sand.

"The steps," he stated, "taken to solve the problem of bias are far too slow." There is a question, he added, "as to whether the problem will ever evolve."

"Wiley feels that there must be an "upgrade in active rushing" that truly negates prejudice and gives fraternities and sororities the chance to consider "people they might like to have."

"My feelings," he explained, "are based on the premise that the Greek system is that good that we can put up with this slow evolution."

"The world isn't going to wait," he said. Unless there is a sharp upturn after rushing, Wiley continued, "I am prepared to raise the question seriously as to whether we can drastically reorganize."

Wiley says he would bring the proposal to the college of liberal arts faculty since it is an "academic affair."  
Wiley stated the liberal arts faculty could pass "on to the Faculty Senate which is "our" roots to the administration.

He depicted the problem of racial bias as one clouded by the argument that the solution lies in eliminating "clauses" in local and national charters.

When asked what would happen if the present system were seriously altered, Dr. Wiley replied that a number of workable systems have worked and provided a healthy atmosphere.

He pictured the maintenance of "small-self determined group as an important part of a community."

But the system, he added, should have a "bulld in safe-guard which would guard against pleague biases and prejudices."

Wiley referred to the "black-ball system" in which a "small group of bigots" can control a house as an "atrocity."  
A fraternity man at the University of Rhode Island, Wiley said "the prejudicial attitudes will be stamped out by the non-white world."

"What we offer to the world-American Democracy-is being tarnished," he concluded.

## Instructor Attacks Capital Punishment

By ELLEN STERN  
Junior Editor  
The abolishment of capital punishment in New York State is the "first step towards the abolition of war" when the right of everyone to live will be recognized, said Gene Gilmore, instructor in the School of Journalism.

He is acting chairman of a 10-man group which is considering forming the Syracuse chapter of the New York State Committee to Abolish Capital Punishment.

The abolishment of capital punishment is advocated for five reasons, said Gilmore. The wrong person might be executed and no sort of restitution can be attempted. A person's attitude can change and he can go "from a scoundrel to a good citizen."

Third, murderers make "model prisoners," Gilmore stated, because they sometimes "fall in a wild fit of rage." Since only about one per cent of persons convicted of homicide are executed, capital punishment does not deter crime, a statistic.

Fifth, one person should not take any other person's life. About 20 religions and other organizations with numerous chapters are on record as being in opposition to capital punishment.

A prison term would be substituted for the death penalty, Gilmore, said persons convicted of first degree murder in New York could be paroled.

"We would naturally feel bad" if someone in our own family was killed, observed Gilmore while discussing the people who join committees on the abolition of capital punishment. But the "law says we cannot sit on the jury or be the judge" and we would be paying tribute to the "law of the jungle" if all prisoners and murderers were shot, he said.

We "could also engage in mercy killings for incurable persons" but this is not done for "humane reasons," added Gilmore.

It is difficult to obtain jurors in capital punishment cases, according to a pamphlet published by the NY State committee and sometimes defendants are found guilty of lesser offenses or acquitted.

Murder, kidnapping and treason are punishable by death in New York and, since January 1889, the death sentence has been carried out by electrocution.

A commission has been appointed by Gov. Rockefeller to review the state penal code which includes the death penalty. Until the commission reports in 1962, the NY State Committee to Abolish Capital Punishment wants Gov. Rockefeller to declare a moratorium (suspension of the death penalty) and grant clemency to prisoners now in the

(Continued on Page 6).

### \$2000 Robbery Leaves Security Police Baffled

Speed of Theft Indicates Well Planned Job

By JIM WELLES  
A well planned robbery last Thursday night left the Security Police red faced and the engineering department red inked to the tune of \$2000, according to Robert Flaherty, director of security. Sometime between 4:30 p.m. and 8 a.m. Thursday, an undetermined number of men hauled off a large amount of equipment from the loading platform of the engineering building.

Missing are one 900-lb. rectifier valued originally at \$1500, a three-inch screw iron valve, a six-inch flanged iron valve, miscellaneous brass and copper fittings and a platform scale. The total value of this equipment is approximately \$2000 which makes the theft a grand larceny.

Flaherty has expressed the opinion that because of the weight and bulk of the stolen items, it must have taken at least three or four men to move the equipment and also a heavy truck to load it on. This unusual amount of activity must have been noticed by some students and Flaherty would appreciate it if those students who saw anything strange in the vicinity of Engineering Building 2 would contact him.

City Police have been notified of the theft and are investigating according to Flaherty.

The theft was reported to Security by Albert Garner, supervisor of Engineering Building 2.

### Low Tests Set

The Law School Admission Test of November 18, 1961, will require a full day. Previously, the test was administered in a single morning session and was exclusively a test of aptitude.

**Don't Try This!**

**No. 20**

**SYRACUSE UNIVERSITY**

A FORGERY ATTEMPT was foiled by campus Security Police last week when they caught a student trying to drive on campus with this phony admittance sticker. Dean of Men Earle Clifford said the car would be referred to the Joint Student Court Tuesday night. The matter was discussed with the student involved before the regular legal procedure was instituted, Clifford said.

Editor-in-Chief ..... Sam B. Girgus  
Business Manager ..... Andrew Levitt

## Frosh Revolution

For the first time in at least three years, Syracuse University seems to have a class of students with guts. Such a class that displays enough courage to defy upper-class buffoonery in order to break its own path and write its own rules deserves at least our respect if not our support. For so long now, Syracuse has seemed to be completely out of the mainstream of thought and action exhibited at other colleges and universities. It has always been other schools that have demonstrated strong determination on both campus and national problems. For the most part we have slept. For the most part we are deadheads who have been occasionally aroused to feel any kind of passion about student liberty or civil rights. What we have done has been sporadic and half-hearted, limited by the basic, self-defeating apathy that always has been the insurmountable opponent to all student movements.

Perhaps now we have the class for which the Hill has been waiting. During the past few years Syracuse University has grown immensely in size and academic scope and always we have been waiting for a concomitant increase in both the maturity and intelligence of its student body. The class of '65 may very well be the first of what we have been waiting for. Obviously they are different, obviously they have more substance than their predecessors and perhaps there is good reason to place great hopes in them. Observation of their activities seems to indicate that on an individual level, at least, and in many ways as a group, they have exhibited an intelligence and insight that is amazing for the amount of time they have had to get used to the pathetic game that Hill campus politics has turned into. And only a few people would dispute the fact that Syracuse student leadership on the whole has been worthy of little more than laughter.

### LEAL AND LOYAL

# A Cold, Hard Look

By KEN NORWICK

Much has been said and written recently of the various gestures at times of this university, including the "changing and improving" of the calibre of the student body and the physical charm of the campus itself. But little has actually been said from the opposite, or negative, point of view. And I think there is much to be said here.

The time has come, I think, for a cold, hard look at Syracuse University, and, in particular, the administration thereof.

The term "administration" is a curiously nebulous and impersonal one, including at one time or another almost everyone affiliated with the university except the student body. And yet, for want of a more concrete and definite target, the "administration" will have to do.

I have one specific, and yet all-encompassing beef with the administration. This is, namely, that I feel the administration considers us, and in turn treats us, as students, as an immature, irresponsible lot, unable to adequately handle or adjust to the very same "adult" facts of life we are undoubtedly expected to face after graduation.

Such a view, I think, is not only incorrect and unfounded, but truly insulting as well.

We are told, for example, that we cannot "drink" anywhere on campus but that we are to frequent any "publie" bar at any time. We are told that the privilege of drinking "on campus" would disrupt the academic and intellectual demeanor of the students, whereas, apparently, this cannot happen "off campus." We are told,

further, that a so-called "wet" campus is far more conducive to accidents due to drunken driving than a campus that is "dry."

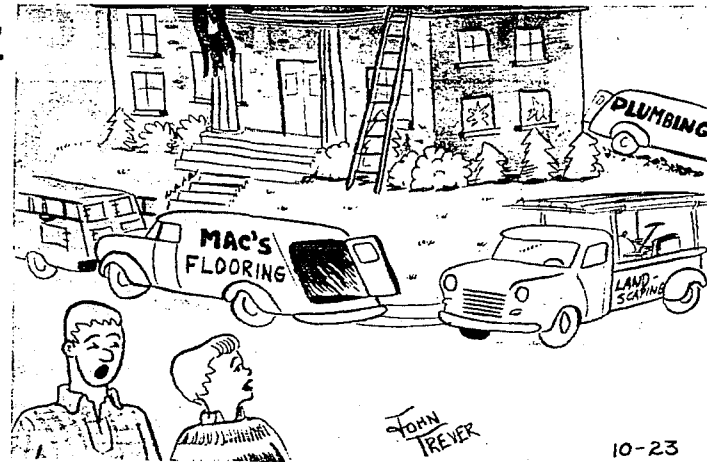

I do not see the logic in these pronouncements. I cannot understand why a fraternity party with an "open" bar is perfectly acceptable to the powers that be, while a party with a "closed" bar is strictly taboo. I cannot perceive, looking at some of the notorious, most highly regarded institutions which happen to be wet, why we have to abstain on campus for "academic" reasons. And I do see why the incidence of accidents is bound to increase when a dry campus becomes a wet one.

Unless, of course, we just can't handle the stuff, and even this is not the perfect answer. And I just don't think it's true. But, apparently, the administration does.

Along the same lines, and for pretty much the same reasons, I disagree with administration policy prohibiting any kind of gambling on campus, as well as the prohibition of women in unchaperoned fraternity houses and living centers.

We are legally permitted, at age 18, to marry, frequent bars, and attend lawful gambling establishments, not to mention defend our country through service in its armed forces. Indeed, I am sure that most of us, if not in fact all of us, have exercised at one time or another at least some of these privileges—and without undue ill effects.

It seems strangely ironic, somehow, that the State and Nation have more faith in our maturity and responsibility than does the administration of our school.

"... Must have been quite a party last night..."

### LETTERS

## SU Band, Food, Heat Hit

To the Editor:

Coming back to Syracuse for my first football game as an alumnus was a treat I had been looking forward to all summer. Not so much that I wanted to see the game. I've seen my share of thrilling Syracuse games — but to see the Syracuse Marching Band for the first time on the field.

Having been in the band for four years, I naturally did not have the opportunity to see a government means government.

But so much for the more personal administration policies. It seems to me that an administrator's lack of faith in us as mature, responsible people is further manifest in the force that is called "student government." To me, student government means government of the students, by the students, and, if you will, for the students, and, if this is the case at Syracuse? Just how much self-governing power has the administration actually granted us? I desarey very little. A student government that hasn't the power to govern, it seems to me, is almost by definition a waste of valuable time and energy on the part of those who participate therein.

I believe that the Syracuse student body can handle, and handle well, the various responsibilities it is currently being denied. I certainly believe we deserve a chance. If the administration is trying to blot from memory the "playboy" reputation of Syracuse's past, what better proof could there be than by concrete demonstration of the maturity and responsibility of its students?

I may be wrong in my estimation of my fellow students, and the administration may be right. But I doubt it. And in any case, it seems to me that one of the primary purposes of an institution such as Syracuse is to prepare us for life in the outside world, not exclude us from it for four years.

There is much that is good about Syracuse University, and there is much that I'll miss after I'm gone, but there is also much that can be improved, and, maybe, someday will be. Maybe.

another indication that another fine tradition is travelling the road to obscurity.

Where were the 100 men? Where was the snappy strut? Where were the dance routines? And where was Marice Stitt?

I saw this debacle coming last year when the dance routines were toned down, when the marching tempo was cut in half, and when we tried desperately to get a "Big Ter" sound out of the band. Syracuse no longer has its 100 Men and a Girl — it has a band that resembles Colgate and Boston University — a band that is not listened to a band that is ridiculed while it performs on the field.

Three short years ago the band pranced and danced down Biscayne Boulevard into the Orange Bowl and received a standing ovation from the 75,000 fans, only to leave the game before its end in order to make a train. The following year the band was voted the outstanding band in the Oyster Bowl, and one Virginia newspaper praised the 100 men and a girl as "playing better running and dancing than most bands do standing still."

And what kind of treatment did the band receive after these noteworthy appearances? Roach - filled rooms in sleazy hotels in Miami, Dallas, New York, and Boston, etc., and, of course, after the famous Carl Gottlieb Column, orders from higher up to just march in line and be like any normal band in the nation.

Under such conditions it is no wonder that there are not one hundred men on the field, it is no wonder that no one listens to the band, and it is no wonder that the best director Syracuse ever had left his job.

Jay Kasparaly, '61

To the Editor:

There was an unusually long line at 11:15 last Wednesday at the Sadler dining hall. Again Food Service had not opened on time. After waiting till 11:35, I decided to see if the alternate side had opened for business. It hadn't.

Upon investigating the cause of the delay, I came upon a very interesting scene. A photographer was taking pictures of various food displays on the counters. And as if this wasn't enough, the supposedly typical lunch he was photographing was composed of a beautiful heart of lettuce and tomato salad, thick sandwiches with a fancy toothpick on each half, luscious varieties of plastic fruit, and some other assorted trimmings. Finally, after dismantling the displays, Food Service opened.

What did Food Service do with the food used in the displays? They brought it upstairs to the Sadler snackbar and sold it to the students!

Incidentally, the main dish served for Wednesday's lunch consisted of two overcooked, salty, thin and stringy slices of corned beef with a small scoopful of something that resembled potato salad.

Larry S. Feigan, '64

To the Editor:

Do we students pay hundreds of dollars a year for (enforced) room contracts in order to be roasted alive by 24-hour-a-day steam heat in 75 degree weather? Can't something be done about the irrationally conceived and executed all-university central heating system? This system imposes unnatural and unhealthy living conditions, and makes it impossible to sleep, study, or even relax safely or sanely.

Debbie Ashe, '63  
Shaw Dormitory

## Policy On Letters

**POLICY ON LETTERS:** The letters column is maintained for the expression of opinion by readers. However, the Daily Orange reserves the right to cut letters for grammar and good taste or to reject letters. Letters should be written legibly, preferably typed, and no longer than 250 words. All letters must be signed with names and addresses; names will be withheld on request.

## Engle Wins No. 100, 14-0

## Penn State Topples Piety

By RON ROBERTS

Penn State's Nittany Lions blanked the injury-ridden Syracuse gridlers 14-0 before 44,390 fans in Beaver Stadium Saturday, and moved back into heavy contention for the Lambert Cup, emblematic of Eastern football supremacy.

Seeking Rip Engle's 100th win, the Lions were fired-up, and ready; the Orange were battered and weakened; and the Penn Staters made the game look that way. They scored early and made it stand up as they keyed on Ernie Davis, and limited him to 35 yards in 14 carries. The line charged hard, Rog Koehman ran well, and the Lion won it decisively.

Quarterback Galen Hall pitched a 44-yard touchdown pass to his left halfback Roe Koehman after five minutes of the first period to give the homesters all the points they needed for the afternoon. Don Jonas kicked the extra point and it was 7-0, State.

Orange Break  
Syracuse got a break following the kickoff when Penn State's Hal Powell fumbled John Snider's punt at the 50-yard line. Bob Stem, an outstanding defender for the Orange all day, bounced on the loose ball at the Nittany 47.

With sophomore quarterback Walt Sofsian holding the reins

in place of the injured Dave Sarette, the Piety drove to a first-and-goal situation on the six.

Sofsian gave to Ernie Davis for a yard, then to fullback John Chareite for three. Davis got the call again on third down and banged to within one foot of paydirt. The Elmira Express carried again on the desperation down, but the right side of the State line turned him back inches shy of his 28th touchdown.

Penn State had one more scoring opportunity with time running out in the first half, when they drove to the three yard line. On the final play of the half Abner Hayes pushed to the one-foot line where Davis halted him for Syracuse.

## Rough Play

In the second half play got rougher, but more rugged as both teams were plagued by fumbles. Fullback Bill Meyers, Syracuse's top ground gainer with 101 yards on 10 plays, lost the ball twice on fumbles, once on the Orange 16 to set up the second Penn State tally.

This time State moved the ball to the 15 in two plays, when Hall hit Dick Anderson on the four-yard line and he bulled into the end zone. Jonas, with his arm in a sling as a result of a shoulder injury in the first half, once again converted and terminated the scoring for the afternoon.

Jonas missed two field goal attempts in the fourth quarter, but it was of little consequence, as the Nittany defense stayed tight. Meyers wrapped up 60 of his 101 yards on three of the last four plays of the half game as he got loose on quick spasers. But the game ended with the ball on the State 11.

## Big Win for R'p

For Penn State coach Rip Engle it was victory number 100, and it evened his personal duel with Ben Schwartzwalder at six games since. Ben has enjoyed 101 victories.

Schwartzwalder wanted no part of using his weakened condition as an alibi, and called the loss a fair and square one to a solid Penn State team.

"Sure it might have been different if we had our seven cripples in there," said Ben, "but we

didn't. You play the halfgame with what you have available . . . and that's that."

Even more injury woes were piled onto Coach Schwartzwalder in the hard-hitting contest. John "Big Daddy" Brown was smashed in the ankle and knee, and his replacement at the outside tackle spot, Stan Sokol also injured his leg.

With sophomore outside tackle John Faggio out with a broken hand, Schwartzwalder is thinking about shifting big center Henry Huettner over to fill the gap.

X-rays for possible broken hands were taken of Walt Sweeney and Dave Meggysey, but proved negative.

The Syracuse University career records for most passes caught and most yards gained on receptions are held by Joe Szomabthy, the present Orange end coach. Joe snared 52 passes for 658 yards from 1950 through 1952.

# Impresses Coaches

## Early All-America Poll Selects Davis, Brown

A total of 76 players, including Syracuse's Ernie Davis and John Brown, have been mentioned by more than 2,000 college football coaches in the United States in first balloting to select the 1961 edition of the original All-American team.

Voting by members of the American Football Coaches Association was based on individual player performances during the season's first three games.

Jack Curtice, Stanford University head coach and AFCA president, announced that a second vote will be taken after the next three games are played. Final selections for the All-American first team will be made after the games of November 25.

The final ballot will be reviewed by the All-American Board of Coaches, representing the eight football districts in the country.

Opponents of the Hillmen who were selected in the preliminary balloting were ends Gary Collins of Maryland and Don Purcell of Nebraska, and guards Nick Buoniconiti of Notre Dame and Larry Vignali of Pitt.

# Ed. School Placement Plans Announced

A meeting for all seniors and graduate students in the School of Education desiring teaching positions in February or September, 1962 is set for 4 p.m. Tuesday in 117 Lyman Hall.

Miss Lina Stedman, director of the Educational Placement Bureau, will discuss details of registering for teacher placement and application forms will be given out.

This placement office handles the placement of all Syracuse-trained teachers of elementary, secondary and college education. It covers almost all campus departments except those with their own placement facilities.

Miss Stedman said in an interview that this placement office

## Ed. Professor Speaks Today

Dr. Robert Burns, associate professor of history and philosophy of education, will speak at 4:15 p.m. today in 111 Maxwell to the Young Democrats at SU.

Dr. Burns has been a Fulbright Professor of Sociology at the University of Chile, 1959-60 and was an assistant professor of education at Rutgers University, 1957-60.

Also he is a member of several organizations such as the American Association of University Professors and the History of Education Society.

He has published several books and articles in the field of history and philosophy of education and educational theory.

# 'Our Cities Are A Mess' Blake Tells Architects

By JOAN KERIENY  
"It is never going to be earlier than now to do something about our cities. Most of our cities are a literally terrible mess," said Peter J. Blake, in a lecture Thursday night in Marshall Auditorium on the College of Forestry campus.

Blake, managing editor of the magazine Architectural Forum, addressed 200 students, faculty and a guests of the School of Architecture.

His topic was "Can Architecture Save Our Cities?"

Dean D. Kenneth Sargent of the School of Architecture introduced Blake as "a man who brings the idea of architecture to the layman."

A series of slides was the next part of Blake's presentation. After the lights in the auditorium were out, the speaker realized that the operator for the projector was not in the room. Spontaneously, with his British accent, Blake asked the audience, "Is there is projectionist in the house?"

The operator returned, and he showed slides of architectural sore thumbs in New York and Miami. One picture showed a Miami street with one lone tree, but with a regular border of telephone poles. Blake commented, "It's nice to see that when when

they pull out the trees, they substitute telephone poles, so that the vertical elements are maintained.

A slide of the towering Pan American Building to be built on New York's Park Avenue provided the speaker with a meaty subject. He explained that the three-acre site for this monstrosity cost \$37,500,000, and that an owner must use every possible foot of space to bring in money, if he wishes to charge competitive rents.

"Builders today face several obstacles: tax laws, zoning laws, real estate agents and engineers. When these factors combine, the shape of the building is determined. Then architects are called in to pretty up this shape.

"Stim proper owners pay minimum taxes," Blake con-

tinued. "But the immediate results of urban renewal are greatly stepped - up tax assessments. SLum owners who want to improve their property are thus penalized.

"This country is turning into the foulest mess on the earth," said the lecturer. "What can we do? First, skyscrapers can be built with an allowance for space in between them; second, the best we can hope for are laws which reward people who effect decent urban design."

"The architect concluded that there must be a gradual change in the government's policy which now allows unlimited private speculation in land.

After an enthusiastic ovation, Mr. Blake sat on the platform, lit a cigarette and answered questions.

## Instructor Attacks

(Continued from Page 1)  
death house.

A warden who led 150 men to the electric chair at Sing Sing Prison testified that it was the "poor, friendless, feeble" who were executed. Others could afford an appeal or influence the governor to grant them clemency, he stated.

Statistics seem to support the warden's testimony. From May 1959 to June 1961, two white persons and 30 Negroes were executed in New York.

"There has been a definite decrease in capital punishment in the US from 1920 to 1960, and it has been abolished in nine states.

# WINNERS FOOTBALL CONTEST No. 1

(For games played Saturday, Oct. 7)

### 1st Prize \$100.00 CASH!

Les Lewis, Class of '62, naturally, walked off with Viceroy's first hundred bucks prize money. A political science major, Les is a ZBT. Terrence Constable, DKE, '62, another one, picked up second prize, \$50, and Joseph Naitoi, '62, gee whiz, won third prize of \$25.

### 20 PRIZES OF \$10 EACH WON BY THESE STUDENTS ON CAMPUS!

- 20 Prizes of \$10 each to these students on campus: Ira Bakst '65; Ted Bayer '63; Lois Blom '63; Richard Callen '63; Maj. Wm. DeLoach, grad.; Al Gerlick, grad.; Gus Giardi '64; John Kapelewski '63; Sam Katurin; S. Koloski '65; Gary Labrech, grad.; Andy Levitt '62; Wilbur Linton '65; Russell Miller '62; Michael Nelson '65; Jr. Palaske, grad.; Helene Reiber '62; Sherman Rogers, grad.; Robert Rosen '62; George Yahnak '65.

*Pius*—A carton of Viceroy's to all students who get all the winners right, regardless of scores!

ENTER CONTEST NO. 3 *clip this now!*

Here Are the Contest Rules:

- Any student or faculty member on this campus may enter except employees of Brown & Williams agencies, or members of the family of Brown & Williams—none will be returned. Winners will be notified within three weeks after each contest. Winner's names may be published in the newspaper. You may enter as often as you wish, provided each entry is used individually. Contest subject to all governmental regulations. Entries must be postmarked or dropped in ballot box on campus no later than the Wednesday midnight before the games are played and received by noon Friday of the same week. The right to discontinue future contests is reserved.
- Entries must be in contestant's own name. On the coupon in this ad or on an Official Entry Blank or piece of paper of the same size and format, write your predictions of the scores of the games and check the winners. Enclose an empty Viceroy package or a reasonable rendition of the Viceroy name as it appears on the package logo. Mail entry to Viceroy at the Back Number on the entry blank, or drop in Viceroy Football Contest Ballot Box on campus.
- Entries will be judged by The Ruben H. Donnelly Corp., on the basis of number of winners correctly predicted. Tie will be broken on a basis of scores predicted. Duplicate prizes awarded in case of ties.
- Winners are eligible for any prize in subsequent contests.

(Attach Viceroy package or facsimile here)

**UKRAINIAN DANCE GROUP** meets today, 7 to 9 p.m., Women's Building Recreation Lounge.

**HILLEL COURSE** "Judaism in Theory and Practice" meets 4 p.m. today, Chapel House.

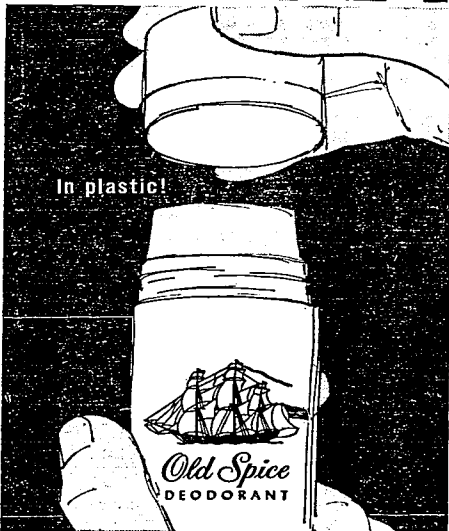

**REFERENCE LIBRARY** on Jewish Ceremonial Art is available in the Hillel Office for use by students who are interested in the Eternal Light Competition.

**NEWSPAPER HISTORY**

The first colonial newspaper was issued in Boston on September 25, 1689. Named "Publick Occurrences Both Foreign and Domestic," the paper was soon suppressed by English authorities because it contained reflections of a very high nature and "sundry doubtful, uncertain reports." Fourteen years after the suppression of the first colonial newspaper, John Campbell, postmaster of Boston, issued the first edition of the Boston News-Letter. Continuing for 72 years, the News-Letter was America's first successful newspaper.

# Mort Sahl's Caustic Quips Spark Shaw Dorm Reception

By NITA KAMM  
Slouched comfortably in a chair, the weary looking, unshaven comedian Mort Sahl, wearing a blue jacket over the sweater which has become his trademark, spoke caustically with his student audience.

"I do missionar, work anywhere since I like to help the underprivileged — like the faculty," quipped Sahl at a reception held in his former dormitory at Shaw Dormitory after his concert in Lincoln Auditorium.

He said his style evolved while he was a "campus rat" (undergraduate) at the University of California. "Actually, I still haven't talent" when a break came via an audition at San Francisco's "hungry 4". In the past six years, his salary has jumped from \$75 to \$7,500 a week.

Day - to Day Events  
Drawing on day to day events for his material, Sahl admitted that things can get "a little bit somber" since a writer can't always wait for inspiration. "You just have to keep going and something will

happen. It always does," he said.  
Sahl contended that he does not direct his material at any particular type of audience. He labeled the impression that not everyone understands his humor as a myth. It can appeal to anyone, he said, since the interpretation is "in the ear of the beholder."

Questioned on his alleged leadership of the beat generation, Sahl said in his opinion the Beats "had it made." Most people who don't work are generally attacked as bums, Sahl said, but this strategy couldn't work with Beats since attacking their idleness is "like attacking their religion."

Sahl agreed, however, that there is a growing tendency towards apathy among college students today. This, he said, is bothersome and blames much of it on an era where people can't care out of having an opinion.

"When I see a boy of 22 with a wife, kids and a home to pay off, it bothers me that he isn't panicked." Not from a sense that things are wrong but "simply from immaturity," Sahl said.

Comedians  
Jumping rapidly from to-

day's college generation to the comedians, Sahl said that Mark Twain was a favorite of his. Not a fan of "sick" jokes, the comedian admitted he doesn't like jokes which downgraded mankind.

Sahl graciously accepted a "praise mug from the girls in Shaw" as a token of their appreciation. He quipped that he "had a Japanese mumble" which would be the perfect place for it. (Many of Sahl's comments in his show centered around a Japanese — type house he is building in California. He assured the girls that nothing but coffee would be drunk from it, since he still maintains the habits of his poverty stricken college days. "I still insist that people come to my home drink coffee" because of this background, he said.)

Whisked away by his manager after signing autographs almost as quickly as he had come, Sahl was on his way to another downtown appearance. Syracuse was the fifth city he has visited so far on a nation wide tour of 37 cities.

# White Tells J-Students Comics Reflect Culture

By JUDY NADLER and WENDY RHINE

Dr. David Manning White, Professor of Journalism Research at Boston University, informed the Journalism Convocation at Maxwell Auditorium Friday that through the comics, one can tell a great deal about the culture and general attitude of a particular era.

The lecture, "Comics and Their Effects on the American Culture," was based on three years of extensive research concerning comic strips, underwritten by the Newspapers Council of America. "A medium which receives upward of fifty billion exposures each year, clearly must reflect some of the mores and manners of the culture in which it flourishes," he said.

He stated that comic strips are an important and interesting part of the American culture, appealing to people of all ages and walks of life.

The favorite comic strip today is "Peanuts," according to the findings of Dr. White. He described the humor of the strip as being "very sophisticated."

He referred to the comic page as being "projective" and ac-

counted for the trend toward the humor strip because the news today is "terribly grim and the comics provide a relief from the tension of the world situation."

He brought with him samples from the cartoonist's drawing board and at the end of the lecture gave a "Steve Canyon" original to one of the students.

Dr. White is a well-known lecturer, author, drama critic and radio-TV commentator. He is the author of numerous articles dealing with Journalism and communications research.

# Navy Information Team to Visit

A Navy Officer Information team will be on campus from 8:30 a.m. to 4:30 p.m., Tuesday and Wednesday, at Slalom Hall. The team will provide all interested students with information about the opportunities available as commissioned officers in the United States Navy.

Team members will have detailed data on Navy, OCS, aviation, nurse corps, medical, dental, supply, staff, Wave officer, and other programs.

# Doctor Presents Research Paper

"Because of the rapid development and growth of technical writers, confusion has risen over the status of the technical writer," stated Mr. Stewart Dwyer during a presentation of his paper "Profile of the Technical Writer" at Michigan State University.

Dwyer would be engineer-turned writer, should he be turned engineer or an entirely separate and distinct?" continued Doctor. The results of his research aids in answering this question. His paper is a report on a study he made at Syracuse University School of Journalism of the education, experience and background of over 200 technical and engineering writers.

# Tigner Receives Forestry Award

The Fifth annual Empire State Forest Products Association (ESFPA) Scholarship Award for 1961 has been given to Timothy C. Tigner, of Riverhead, L. I. Tigner is a forester enrolled at the New York State Ranger School, a division of the State University College of Forestry at Syracuse University.

Tigner received a \$200 grant which will enable him to complete his education. He hopes to continue at a professional forestry college upon graduation in February, 1962, from the Ranger School's 44-week program.

Presenting the scholarship to Tigner was Laurence P. Plumley, director of the Ranger School, and Nelson C. Brown, professor emeritus at the College and ESFPA executive secretary.

Doctor presented his paper to the Institute of Radio Engineers National Symposium on Engineering Writing and Speech. This is the second consecutive year that Doctor has addressed this group.

Doctor is the Technical Publications Engineer of the General Electric Co. Advance Projects Development Section, Heavy Military Electronics Department.

He received his BA at Syracuse University, including one year of Law School. He is now in the program of study for a Master of Science Degree in technical journalism at SU School of Journalism.

In 1957 Doctor joined G.E. as a technical writer of instruction books and manuals. Two years later he was transferred to the Advanced Projects Development Section (Heavy Military Electronics Department) where he is now Technical Publications Engineer specializing in technical reports, proposals and presentation writing.

## JSL Okays Frosh Constitution '65 Party To Hold Convention Today

### Kunitz Discusses Art in Society

By ANN CUTLER

"All art is the reflection of the world in which the artist lives and of the intellectual ideas which govern his thoughts," said Stanley Kunitz, poet, in a lecture yesterday.

Most people today complain that modern art is too confused and unintelligible, without realizing that confused art is only the result of a confused world, said Kunitz.

Science and philosophy have left us with a world that contains no eternal concepts or laws and a world of disillusionment on the nature of man, claimed Kunitz.

No longer impartial  
 "As a result of Einstein and others like him man can no longer consider himself an impartial observer of nature, he has become a part of the world of nature which no longer has any rules to live by," said Kunitz.

The only constant thing about poetry is that it will constantly change, and thus today's confused and formless poetry is only a result of today's confused and ever changing life, according to Kunitz.

"Disorder becomes order according to the changing ideas of each generation," said Kunitz. "Thus by the time modern art is recognized as the true expression of its time, it is no longer modern art."

#### Confusion

As a result of the confusion over what is real and what is fantasy, art has turned in upon itself and art has become the subject of art, stated Kunitz.

According to Kunitz, self-examination is just a true and vital form of art as the examination of the outside world.

Everywhere we go we meet ourselves, thus in order to understand the world we must understand ourselves. We must continue to re-examine ourselves if

STANLEY KUNITZ

We are to understand our continually changing world, said Kunitz.

#### No Longer Symptom

Because of this necessity, art is no longer just a symptom of society, it is also a part of society, explained Kunitz.

Kunitz is the winner of the 1959 Pulitzer Prize, as well as many other literary awards. He is also one of the editors of the well known reference work, 20th Century Authors.

He is the first of five authors to be presented in the English Department's Visiting Writers Series.

### CAP CONVO SET TODAY

The Campus Alliance Party will hold its freshman nominating convention at 7:15 p.m. today in 111 Maxwell. Each freshman living center is invited to send two voting delegates.

All freshmen interested in running for class office should bring an application listing name, campus address, activities and ideas for the Class of 1965.

### US Nominates 3 Frosh; Charges Of "Fix" Made

Jorgensen, Misses Noble, Shapiro On Ticket

By JEANNIE RANOV  
 Junior Editor

A three and a half hour United Students party convention Sunday night nominated three freshmen candidates and ended with freshmen firing accusations of a "fixed" nomination at party heads.

Karson Noble will run for vice president on the US ticket, Penny Shapiro for secretary and Storm Jorgensen for treasurer of the Class of 1965.

Presidential nominee David Bailey was selected last Thursday.

The convention was about to adjourn when freshman Jane Maltz, who had tried unsuccessfully for the US nomination for frosh vice president, secretary and treasurer, stood up in the back of Maxwell Auditorium and charged that "somebody went out and got" Jorgensen to run.

#### Last Minute

Lowell Drutman and Samuel Kissel, out on nominations, joined Miss Maltz in accusing the party of bringing Jorgensen in at the last minute to be nominated. The three also questioned Jorgensen's qualifications for the treasury post.

Phi Delta Theta delegate Thomas Cullins told the convention that he had asked Jorgensen to come to the convention. Cullins explained that he was a Goon on Watson East Four, the nominee's floor. Because there were only a small number of would-be nominees, Cullins said, he thought

(Continued on Page 8)

By JOYCE HERGENHAN  
 Junior Editor

A special session of Joint Student Legislature Monday night approved the constitution of the Reformed Independent party (RIP), a freshman political organization, and thereby cleared the way for the group to place its name on the November 1 freshman ballot.

A short debate preceded the ratification.

### City Schools Found Faulty By Dr. Burns

By REV LURIA

"Education is not free in Syracuse—because it is not free, it is not public," Dr. Herbert Burns, Democrat candidate for Commissioner of Education said yesterday at a meeting of the Syracuse University Young Democrat Club.

Dr. Burns, associate professor of history and philosophy here, explained that many students drop out of high school because they cannot afford to pay for books and busfare. He feels that the transit authorities should have lower bus rates for school children.

Syracuse City schools are about 20 years behind the times, he said, explaining that books, science equipment and general curriculum are often out dated.

#### Teachers Leave

One out of every five teachers leaves the system each year. Of the ones remaining, 51% are not fully certified. Consequently, students cannot get proper training, he said. Exceptional students and backward ones usually go unrecognized.

City students fall about 20% (Continued on Page 8)

A short debate preceded the ratification.

James Gray, a sophomore class senator-at-large elected on the United Students party ticket, challenged the motives of the freshman organization.

"They're engaging in an effort to exploit the class at the uninformed majority in the class who don't know what's going on," said Gray, discussing the leaders of the RIP organization.

#### Frosh Defended

Freshman spokesman Carl Corrallo, Murray, defended the party and clarified its aims.

"Our purpose is to have freshman representatives nominate freshman candidates for freshman office and to have freshmen run freshman activities," Corrallo explained.

"We don't feel the upperclassmen should take part in our politics," he continued.

Another frosh senator, Ivan Fisher of DellPlain 3, defended the ultimatum presented by the freshmen at the CAP and US nominating conventions Thursday night.

"The ultimatum was simply an acknowledgement of our inability to cope with the corruption of the two political parties," said Fisher.

#### Convention Today

Ratification of the constitution makes RIP a recognized campus political party and allows the freshmen to hold a nominating convention and choose a slate of candidates for class office.

The convention will be 6 p.m. today in the Day Hall recreation lounge. All party delegates are urged to attend, and cords are advised to take 12 o'clock permissions.

Candidates for office are requested to bring a petition listing their name, college, a position sought and a list of 25 unduplicated freshmen signatures.

Freshman delegates approved the RIP constitution at a meeting Sunday in the DellPlain lounge. Party officers were also elected at this meeting.

#### Lieberman, Chairman

Michael Lieberman, of Massapequa, was elected party chairman. Searsdale resident Susan Teschner was chosen secretary and Manlius graduate Michael Gorman was elected campaign manager. A treasurer will be elected at tonight's party convention.

The entire RIP slate must be nominated at this convention. Joint Student Government election committees have set tomorrow noon as the deadline for submitting candidates' petitions and 8 a.m. Friday as the start of campaigning.

### Good Hunting!

THREE BROTHERS of Delta Kappa Epsilon fraternity pose with their prizes of the opening of hunting season. Proudly displaying their pheasants are left to right: TERRY CONSTABLE, CARMIEN DAVOLI and HARVEY SCHAND. Fair skies and chilly temperatures greeted early-morning enthusiasts Monday.

### Theft Case Closed By Return Of Goods

By JIM WELLER

The wheels of justice and the power of the press meshed yesterday to close the books on last Thursday's \$2,000 robbery from the Engineering Department.

About the time the DO appeared this morning with an article about the theft, the missing materials suddenly were returned to the loading platform of the engineering building.

Robert Flaherty, director of security, said that it was a strange coincidence that as soon as it was public news that the city police were investigating the theft as a grand larceny, the stolen goods suddenly showed up.

Taped to the side of one of the missing pieces of equipment was the following message: "To whom it may concern, this material represent the total amount received by us from the rear of

The Engineering building last Thursday afternoon, October 19th.

"It was taken under the impression that it was to be discarded as junk. We had been informed that this was so by the custodian who said that if we wanted to take any of the material, to do so. In his own words, 'you'd better take it before someone else gets it.' However, it has turned out that the material was not to be taken, and that the engineering dept. has reported it as stolen.

"The material was gathered on Thursday afternoon around 4 to 5:00 p.m., in full view of all who happened by, — including the faculty, staff, and students of the dept. At no time were our activities questioned. We acted in full confidence of the legality and acceptability of our actions."

## Wiley and Fraternities

Assistant Professor George Wiley could not have put it more aptly in yesterday's Daily Orange article, when he said that the key to fraternity racial and religious discrimination was not necessarily clauses, but the prejudice and ignorance that they foster. Perhaps it is not as easy for Dr. Wiley to be as sweet and light about racial prejudice as it is for some students on campus. Perhaps it is hard to be patient when the dominant feeling is one of being "sick and tired of waiting"; of disappointment at hearing the "lip service" paid to causes of racial equality and tolerance with a concomitant hesitancy to commit words to action.

No one is trying to disparage the important influence fraternities can have at a university. Indeed, for many students, the Greek system has been a vital and predominant aspect of college life, that has tended to make college more meaningful, beneficial and even educational. But the fraternity system of the twenties can not suffice for the sixties. It must rise to the times.

Fraternity men have been getting into the habit of saying what all people who find themselves aligned with the forces of social injustice must say, "It will take time." But while they say this, Negro youths of our own age, college students in the South are entering voluntary imprisonment in order to fight for their rights as Americans and human beings. Perhaps it is not now possible for most of us to contribute significantly to this fight. But we do not have to add our names to the list of people who are keeping them imprisoned.

If columnist Kent Barwick wishes to defend the right of association for fraternities, we would like to attack the gross lack of moral substance of an argument that would do little or nothing to improve conditions. Barwick speaks well about the importance of this right. But he speaks little of the importance of people, of human beings whose lives are constricted and humiliated by people preaching a right of association. Humiliate and stifle whom you will, but do not deny us our equal right to express our disdain and abhorrence of your practices and beliefs. And if upperclass fraternity men refuse to recognize the impossibility of their position, perhaps they can once again learn something from the class of '65. Perhaps they can carry their fight for sense at Syracuse to the Houses of Prejudice on fraternity row.

Last week an injustice was perpetrated and went unnoticed.

On Wednesday the Daily Orange carried a story about a student whose campus driving privileges were revoked by Joint Student Court after he was charged with a hit and run accident.

In that story Chief Justice Samuel Farr was quoted as saying that even if the downtown courts did not find the student guilty as charged, the university's punishment would still stand!

This shocks us. It is shocking to think of the twisted rules and reasoning that must be behind this judgment.

To begin with, at the trial, the defendant raised the question of double jeopardy. He asked if he wasn't being punished by two different courts for the same offense.

He was assured that this was not the case.

The downtown courts charged and may convict him Nov. 14 of driving without a license or registration and of leaving the scene of an accident.

The university charged and convicted him of "conduct tending to bring discredit to the University."

As one of the more clear thinking justices pointed out, the city court may discover that they arrested the wrong student, or the case may be thrown out of court on a technicality.

Then what? In the eyes of the city of Syracuse the stu-

dent will have committed no crime, but the university has already punished him for this crime that he may not be guilty of.

Does this mean that merely being arrested makes a student liable to severe punishment?

Does the university feel that they must punish this student merely for coming in contact with a civil servant—an officer concerned with upholding the laws of the land—and thereby sullying Piety Hill?

The court's sin was in acting on the case too soon. It should have waited until after the student's civil trial before passing its judgment. If he was convicted as charged, it could then have decided whether he brought discredit on the university.

In this particular case, Joint Student Court took too much upon itself. We realize that it is now having growing pains, and efforts are being made to coordinate the Men's and Women's Divisions. We were glad to hear of this.

But if these combined efforts are going to result in such irrationalities as punishing a student before it is ascertained legally whether he has done anything, then we cannot be happy about it.

Something is wrong. It could be with some of the individuals who serve as justices. Perhaps some of them are not as responsible and lacking in self-righteousness as they should be.

Incidentally we understand that the DO reporter will no longer be allowed to sit in on

JSC's deliberations. We shudder to think of what other injustices will be hidden from the student body.

We believe that student government, and the courts specifically, are too precariously respected by the student body to dare to hold secret meetings.

How often must public servants be reminded that they hold offices in accord with the wishes of the electorate and are servants, not bosses?

Perhaps what is wrong is the judicial code under which the courts operate. We feel very strongly that the university has had too heavy a hand on student activities other than those academic.

We really don't think that a college has to be so responsible for student morality that "conduct which would tend to bring discredit to the individual" is the first infraction listed in Article 1 of the Men's Court code.

We know when we're doing something wrong and we generally know the consequences. We don't need a judicial code to punish us from ourselves.

If we drive when drunk, as the student in question may have done, that is our problem, ours and the city police's if we have an accident.

In justice, how discredited do any of you out there feel because some guy sideswiped a car on Marshall street (assuming he did)? Not very, we're willing to bet. Too bad the administration has to be so touchy about their public image.

## LETTERS

# Readers Discuss '65 Politics

To the Editor:

We, the majority of members of Watson East 1, hereby protest the actions of the Reform Independent Party (RIP) in the running of its election meeting Sunday evening.

We protest:

1. The fallacy of the basic formation of this party, in that there was no real need for it. CAP and US offered all that was desired, but the freshmen, who were led like sheep by a certain group of so-called spokesmen of the freshman class and who were obsessed by power and ignorance, refused to listen to or partake in these

parties' nominating conventions.

2. The attempt of these few to dominate the thoughts and actions of the many in what reputedly was our basic democratic thinking and appears to be demagoguery in the purest sense.

3. The refusal of these leaders to distribute the constitution of the RIP to the attending assembly.

4. The chairman's not following accepted rules of procedure, in that he allowed people having the floor to be shouted down by hecklers who were out of order.

How can the leaders of RIP state that CAP and US have no aims when these same leaders with closed minds walked out of the conventions of CAP and US?

Kenneth Kurz  
Secretary, Watson East 1

To the Editor:

The following comments are presented as an "open letter" to the political insurgents of the Class of 1965:

As a group of freshmen at Syracuse University, you have an admirable objective—that of class unity. Your original stand against university and society interference in your political

affairs seemed to be valid. Although we Greeks don't believe we're the ogres you seem to think we are, we can understand the way you feel, or, rather, felt.

Since you are now accepting the support of several houses, however, we should like to ask why you discarded your primary objective—class unity. You wished to keep your hands clean, by staying out of "dirty politics." Why change now?

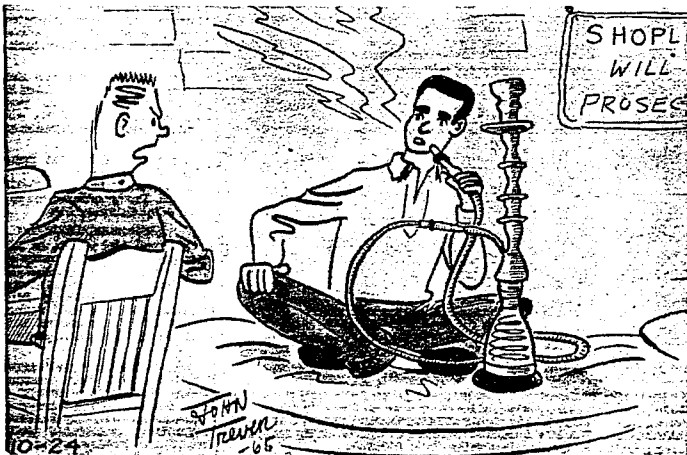

At one time you believed your leadership was different from the two political parties' "bossism." However, you have failed to notice the politicking going on within your own group. Remind yourselves of this fact when you hold your nominating convention and hear the antiquated phrase: "I'll back your candidate if you'll back mine." It's been uttered innumerable times within your class and it will be heard again. This is undeniably symbolic of dirty politics.

It is conceivable that with three or four slates running in the coming frosh election, a candidate not associated with your group could be the most qualified to hold office. To a rational individual, it would be foolish to neglect this more competent candidate merely to prove a point.

It is also possible that some of your would-be class officers will not be able to run because they had a hand in forming your original organization. Although this may appear to be idealistic, it is nevertheless irrational.

As you can see, your original ideal of class unity has been put at risk by the wishes of a few of your leaders. Isn't it evident that you have failed to accomplish your objectives because of political maneuvering?

Dave Chave  
Mara Novack

"Don't you think you're carrying this pipe-smoking too far?"

MEMBERS OF THE PLAYERS, INC. rehearse for their production of Shakespeare's "A Midsummer Night's Dream," opening Saturday at the University Regent Theater. The company will present "Richard III" on Friday night.

— CONCERT HALL —

## Fine Concert Given By Syracuse Pair

The flute may not be the virtuoso instrument, but at a good recital as that given Sunday afternoon by the Syracuse School of Music, it most certainly holds its own.

John Oberbrunner and Veronica Sage, chief instrumentalists on flute and piano respectively, skillfully integrated their talents to present music from baroque to modern flavor. The program opened with a stately minuet-like sonata by the seventeenth century master, Bach and ended with a concertino in the salon style of 19th century France by a composer of that period, Cecile Chaminade.

Three out of the seven offerings were decidedly fine. Jovisurs le Flute (Joys of the Flute), by the 19th century French composer, Roussel, conveyed four brilliant images to rival those of the finest program music. Heard were the sylvan mischievousness of pan, the flowing arpeggios of Cityre, the weird East and the memories of pagan idols in the one called Krishna, and in Mr. de a Prelude the tete a tete of Paris salons.

**Outstanding Piece**  
Perhaps the most outstanding piece of the whole concert was the Grand Quartet by Kautaus. German composer of the 19th century. A mere four flutes

were able to convey a sound like those of the purist organ and a small symphony of brooks and streams. Here the enormous possibilities of this usually sheltered instrument became apparent. Each flute was used in a different way here. At one time many voices were progressing as in a future, and in other places we heard both melody, accompaniment, and fine imitation of pedal-point, the organ technique.

The Chaminade concertino is noted for its flowing style, and certain virtuoso passages brought Mrs. Sage, the piano accompanist, to the fore. Her ability is to be commended.

On the whole the concert was deftly handled, and attempts at contrast of styles were mainly successful.

R.L. —

## Shakespeare Plays Set for Weekend

The Players, Inc., who scored a hit here last year with their production of William Shakespeare's "The Merchant of Venice," will return with two Shakespearean plays at 8:30 p.m. on Friday and Saturday at the University Regent Theater.

On Friday, they will present "Richard III," one of Shakespeare's earliest and most popular plays. Filled with conspiracy and intrigue, the play traces the rise of Richard, Duke of Gloucester, to the throne of England.

John Sage, in his first season with the Players, portrays the wily, deformed Monarch. No stranger to classical portrayals, Stars performed last summer at the Cincinnati Shakespeare Festival.

On Saturday, "A Midsummer Night's Dream" will be played. It is a fantasy of folklore and sprites.

Carol Keefe, who portrayed Portia in "The Merchant of Venice" last year, plays Titania, the beautiful Fairy Queen whose domestic bickerings with her husband Oberon and violent affection (under the workings of a magic spell) for a bumpkin in donkey's head provide much of the humor of this charade.

"The Players" is an outgrowth of the Speech and Drama Depart-

ment of Catholic University of America in Washington, D.C., has made 12 annual tours of the country since its inception in 1949. In addition, it has toured Europe eight times in the past 12 years.

Tickets are available at the University Regent Theater, 820 E. Genesee St.

# Tangerines Top Buffalo Frosh

By MARK DIAMOND

Striking fast and often Saturday, the Syracuse freshmen gridders overwhelmed the Baby Bisons of Buffalo, 39-6. The contest at Low Carr Field was the first home performance by the Tangerines in two years.

With Dick King at the controls, the Hillmen began to move midway through the opening period. By benefit of a short punt, the Tangerines took over on the Buffalo 40. That distance disappeared in one play, however, as fullback "Ducky" Duckett took a handoff and burst to hole off left tackle. He scored untouched, and the forces of Jim Shreve led 6-0 as the kick failed.

When another Buffalo kick only traveled 15 yards, Syracuse gained position of 32 yards from paydirt. The culmination of a seven-play drive to the touchdown was a beautifully executed 18-yard screen pass to Billy Hunter, who scored behind five blockers. Once again the PAT was wide and the tally stood at 12-0.

Nance Shows Speed  
Later Jim Nance gave a demonstration of sheer speed by taking a King handoff and galloping 73 yards up the middle on a quick opener. This time he proceeded to successfully kick the extra point, after his two previous misses, making it 19-0.

After the ensuing kickoff, Buffalo tried a pass from its 24 yard line. Hunter intercepted and the

Tangerines were knocking on the door again, this time on the 20. Taking rapid advantage of this break, King faded back to pass. A lofted high aerial down the left sideline.

Rangy end Jim Cripps gathered the ball in and continued into the end zone without breaking stride.

Syracuse lost a 61-yard touchdown jaunt by Hunter because of clipping but he made this up on the next series, when he skirted right end for a 5-yard score. At the half, Syracuse led 32-0, but the amazing statistic was that each team had amassed only one first down.

Mahic took over for King after interception and exhibited fine ball handling ability on the winner's last touchdown of the day. He faked to 11 back Herb Elzold and looked upfield where Dave Rounds was free. This 57-yard play illustrated the balanced attack shown all game.

# Harriers' Victory Streak Ended By Army Runners

By MEL HONG

West Point's Army cadets handed the Syracuse University cross-country team its first defeat of the season as they edged the Harriers 25-32 on their hour and a half Friday afternoon.

Team captain Joe Francello came in first for Syracuse with a time of 26:53 over the 5-mile course. This is the third time in three meets that Francello has come in first, and the eighth time in the last two years.

The frosh Harriers also lost their meet, this one by the score of 20-41. The plebes completely overwhelmed the frosh team as they placed four of their men in the top five positions.

Frosh Winner

Malpass of Army finished first with a 17:20.0 clocking. Tom Higgins of Syracuse was a stride behind Malpass in the three-mile event. His time was 17:20.4.

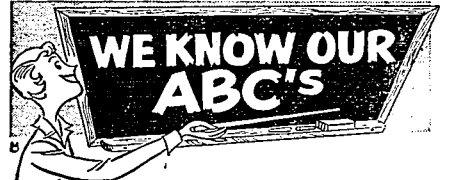

Francello's placing first in the Army race was not enough to bring Syracuse into the win column as Army was able to place the next three runners. They were Jones, Lingle and Staub, who placed second, third and fourth respectively. Following Staub was Mike Guzman of Syracuse, fifth, and Mouncey Ferguson, also of Syracuse, sixth.

Due to Friday's loss the Orange harrier record stands at

2-1, with victories coming at Drumlins against Colgate and at Buffalo against the University of Buffalo.

The frosh Harriers record stands at 1-1-1. They have beaten the University of Buffalo frosh and have tied the Colgate frosh previous to the Army meet.

With the Army meet behind him, coach Bob Grieve will be looking forward to this Friday's meet when his harriers will take of the Big Red of Cornell at Drumlins. This meet promises to be the outstanding cross-country track meet in the east this season as Syracuse will pit Joe Francello against Steve Macchooka of Cornell.

# Too Soon To Think Of Bowls-Andreas

Although the loss to Penn State Saturday marked only the half-way point in Syracuse's 1961 football schedule, it was announced Monday that the Orange gridders and the Cadets of Army have been invited to the Gotham Bowl in the Polo Grounds Dec. 9.

The announcement was made by Gotham Bowl official Bob Curran at a luncheon in New York City yesterday.

Syracuse Director of Athletics Lew Andreas said Monday that the Orangemen will be definitely interested in playing in a bowl if the team has a successful season, but added that he would make no comment at this time.

"This is certainly not the time to decide how good our team is," said Andreas. "It will take another three or four games, at least."

"A good season," continued Andreas, "usually means offers from more than one bowl," but added that a Gotham Bowl bid would be considered."

The Syracuse team is still riddled with injuries, making an

appraisal of the squad's potential ability very difficult.

Outside tackles John Brown and Stan Sokol were added to the disabled list in the State game as a result of leg injuries. Coach Ben Snywa, taxidermist, has decided to give Bob Hnat and Dave Archer a shot at that position and keep Henry Huetner, who he had thought about switching, at his usual center spot.

Quarterback Dave Sarette is a possible starter for the Holy Cross game next Saturday and halfback Dick Easterly may get a medical o.k. later in the week.

# Orange Opponents Break Even In Weekend Action

By DAVE DEAN  
Associate Editor

Syracuse's ten grid opponents broke even over the weekend with five wins (including Penn State over the Orange) and five losses.

In the top game of the weekend, the Irish of Notre Dame, last of the undefeated Hill foes, fell before the nation's top team, Michigan State, by a 17-7 score.

At Princeton, the Red Raiders of Colgate put together three consecutive wins for the first time since 1954, topping the Tigers by a 15-0 score.

Once-beaten Maryland intercepted six Air Force passes and capitalized on three of them for a 21-0 shutout win over the Falcons.

Another once-defeated team and next weekend's Orange opponent, Holy Cross took its third straight by topping Dartmouth, 17-13. The Crusaders slew a 10-0 lead before scoring on a catch by halfback Al Snyder in the final minutes of the game.

Three-beaten Boston College also played the giant-killing role, d-opping Villanova from the un-

defeated ranks with a 22-6 win. George VanCott, alternating from quarterback and left half-back, passed for one touchdown, set up another and had two of BC's four interceptions.

On the West Coast, UCLA handed the Panthers of Pittsburgh their fourth straight loss, 20-6. Two of the Bruin touchdowns came as the direct result of interceptions, only one on offensive play.

Boston University ended West

Virginia's win streak at two with a 12-6 victory over the Mountaineers. BU had to hold off the visitors at the one-yard line in the waning seconds of the game to preserve the lead it had gained midway through the period.

Oklahoma State stalled Nebraska's vaunted offensive and handed the Cornhuskers their second straight loss, 14-6.

In the far west, Oregon State dropped its fourth game in five starts, 24-23, to Arizona State.

### THE TRUE AND HARROWING FACTS ABOUT RUSHING

It is very enoga to sit in one's Morris chair and theorize about sorority rushing, but if one really wishes to know the facts, one must leave one's Morris chair and go out into the field. (My Morris chair, incidentally, was given to me by the Philip Morris Company, makers of Marlboro Cigarettes. They are great-hearted folk, the makers of Marlboro Cigarettes, as millions of you know who have enjoyed their excellent cigarettes. Only from hountful souls could come such mildness, such flavor, such filters, such pleasure, as you will find in Marlboros! For those who prefer crushproof boxes, Marlboro is available in crushproof boxes. For those who prefer soft packs, Marlboro is available in soft packs. For those who prefer to buy their cigarettes in bulk, please contact Emmett R. Sigafos, friendly manager of our factory in Richmond, Virginia.)

But I digress. I was saying that in order to know the true facts about sorority rushing, one must go into the field and investigate. Consequently, I went last week to the Indiana College of Spot Welding and Belles Lettres and interviewed several million coeds, among them a lovely lass named Gerund McKeever. (It is, incidentally, quite an interesting little story about how she came to be named Gerund. It seems that her father, Ralph T. McKeever, loved grammar better than anything in the world, and so he named all his children after parts of speech. In addition to Gerund, there were three girls named Preposition, Adverb, and Pronoun, and one boy named Dative Case. The girls seemed not to be unduly depressed by their names, but Dative Case, alas, grew steadily more morose and was finally found one night dangling from a participle. After this tragic event, the father abandoned his practice of grammatical nomenclature, and whatever children were subsequently born to him—eight in all—were named Everett.)

*They Needed more birds than they had room for...*

But I digress. I was interviewing a lovely coed named Gerund McKeever. "Gerund," I said, "were you rushed by a sorority?"

"Yes, mister," she said, "I was rushed by a sorority."

"Did they give you a high-pressure pitch?" I asked. "Did they use the hard sell?"

"No, mister," she replied. "It was all done with quiet dignity. They simply talked to me about the chapter and the girls for about three minutes and then I pledged."

"My goodness!" I said. "Three minutes is not very long for a sales talk!"

"It is when they are holding you under water, mister," said Gerund.

"Well, Gerund," I said, "how do you like the house?"

"I like the house fine, mister," she replied. "But I don't live there. Unfortunately, they pledged more girls than they have room for, so they are sleeping some of us in the bell tower."

"How's that rather nice?" I said.

"Only on the quarter-hour," said Gerund.

"Well, Gerund," I said, "it has certainly been a pleasure talking to you." I said.

"Likewise, mister," she said, and with many a laugh and cheer we went our separate ways—she to the campanile, I to the Morris chair.

*The Philip Morris Company makes, in addition to Marlboro, the new unfiltered, king-size Philip Morris Cambrander choice tobacco, gently vacuum cleaned by a new process to assure you the finest in smoking pleasure.*

SOCIAL  
with SCENE  
Larry & Bob**

When we got off the plane from Transylvania yesterday, there was a cheering throng of one drooling student with a sign "Cuba Si, Larry and Bob No!" We put a curse on the kid and as he started to turn green, got into our hears. Our chauffeur wiped the blood away from his chipped fangs and said to us in an eric tone . . . "Til bet you're going to have a Thriller Party this week." We emphatically denied this while decapitating him with the blunt edge of a crochet hook.

After the hears was towed away we were met by all the patriotic social chairmen who had patiently waited for two weeks for the next party. We fought them off and told them to control their salivating as they shouted in unison . . . "We bet you're going to have a Thriller Party this week." We threw vomit gas into the crowd and hurried into the crypt.

Now, Halloween is next week, the moon will be full, Khrushchev doesn't like us, Thriller is on tonight, it's the 8th anniversary of Bella Lugosi's death (maybe), and we're reading Poe in English 156. So we're not going to have the swim party, but as a big surprise to everyone, we're having — a **THRILLER PARTY**.

So, get out your pots, witches, and we'll give you the brew. Pick up your date in a rented hears with your party lettered on the side. Everyone should have those charming masks on depicting people like Frankenstein, the Wolfman or our Uncle Louie. When you get to the appointed place of the party's execution, you will enter through a paper cave entrance. The rooms' walls are covered with black paper, and on that colorless black paper, your artist should draw spiders, bats, webs, etc. (preferably with fluorescent paint). To illuminate the drawings and guests we suggest an ultra-violet light — it's a great effect.

For the entrance you'll want to borrow the slightly used coffin we sold Alpha Chi Rho two years ago. Put anything in it — hors d'oeuvres, housemothers, punch, or one of the many stuffed (old clothes and masks) bodies you'll have lying around. Outside the spot play 13th century organ music; this is on record as having goose-pimple power. On the ceiling of the main room be sure to hang black thread — feels just like spider webs and you can't see it. A few paper skeletons on the wall and lighted pumpkins tell you its only old fashioned Halloween fun and the band starts the first dance with "I Love Your Form in the Formaldehyde."

The favors really top the evening off. Snakes and shrunken heads (rubber and plastic) from Barnes Enterprises, 318 Cortland Ave. And the most fantastic stuffed animals from Better Home Products, 1051 So Salina St. (talk to Eugene or Harry). Now everyone can go home (in the dark) with a party in mind that won't ever be forgotten.

And say, if you want to make this a complete weekend success, hop out to the Brookside. It's smart, sociable and secluded. The Brookside is left off Erie Blvd. at the second traffic light after Thompson Rd. Look for the sign.

Note to the social chairmen . . . We sincerely hope that you're taking full advantage of the finest prices, deals, and locations you can get. Patronize them and mention us when you buy. See you eats in two weeks . . . and look out for big bats.

DR. ROBERT BURNS

### City Schools Found Faulty By Dr. Burns

(Continued from Page 1)

below the national average in the Iowa tests and about 16% below in the high school Regents, Burns charged. Only about 15% of the students even go on to four year universities, he said.

Politics in the school system helps account for many of its faults, Dr. Burns said. School appropriations must be approved by City Hall before coming into effect. Dr. Burns said he prefers a system of fiscal independence, rather than political dependence.

If you want to reform political control in the school system, the only way is to have an entire municipal reform, Dr. Burns said. He feels that results can be obtained in an entire Democratic slate is elected to office.

### Block Seating Rules Changed

New reserve seating regulations for home games have been announced by Janet Underwood and William Hyman, commissioners of reserve seating.

Petitions for reserve seating must be submitted to the commissioners on the Tuesday before each home game in the Trophy Room of the Men's Gym.

Ticket exchange will take place Wednesday through Friday from 3:30 to 5 p.m. for persons not in group seating. Groups should exchange tickets on Wednesday or Thursday from 3:30 to 5 p.m.

For information on all further rules changes contact either Miss Underwood at extension 2658 or Hyman at extensions 2931 and 2932.

### US Nominates 3 Frosh; Charges Of "Fix" Made

(Continued from Page 1)

of asking two freshmen from the floor to come down to Maxwell. At 7:25 p.m. Sunday, US President Ellis Gaskett called a five-minute recess which stretched to half an hour.

Cullins told the Daily Orange during that recess he had gone to the floor and found Jorgensen, one of the two people he had in mind as likely nominees.

Jorgensen agreed to come to the convention when asked by Cullins.

**Gaskell Defends**

Defender of the action of the Phi Delta delegate, Gaskell said it is quite in order "to go out and drum up more kids" to give the convention more of a choice of candidates.

All would-be nominees, Gaskell said, have equal opportunity to be nominated. It is up to the convention delegates to decide which individuals are best qualified for office, he continued.

Drutman said the incident had made him understand the freshmen political group's contention that upperclassmen controlled nominations.

Miss Noble, 18, resides in Rochester and lives in Whitman Cottage on campus. She is a pre-law student, and was president of her high school band and orchestra, class secretary and a student council member.

From Jenkintown, Pa., Miss Shapiro's Hill address is Fine IC. She is 18 and plans on elementary education major. She was high school student council secretary and cheerleading captain.

Jorgensen, 19, of Riverside, Conn. is a Varsity Football and East resident. A history major, he played football and soccer in high school.

## Locke to Head CAP Party Ticket

By JEANNIE RANOV

Junior Editor

Campus Alliance Party Tuesday night picked four freshmen to run on their slate in the Nov. 1 elections.

Peter Locke is the CAP presidential nominee, Carol Roudreau will run for vice president, Bonnie Scalese was nominated for secretary and Philip Quartier for treasurer of the Class of 1965.

Locke was secretary of his sophomore and junior classes and treasurer of his senior class at preparatory school. From Bell Harbour, he is 18, a liberal arts student and social chairman of DellPlain 2.

Miss Roudreau, 18, of Livingston, N.J., plans a history major. She is vice president of Flint 2C and in high school was student council vice president and captain of the cheerleading squad.

Queen Candidate

From Orange, Conn., Miss Scalese is 17, and a home economics major. She was a high school student council representative for four years, and is Day candidate for queen of the Engineers Ball.

Quartier is from Richfield Springs, and is a resident of DellPlain 6. A liberal arts student, he is 18, was president of his preparatory school sophomore class and vocalist for the school band.

When the convention opened at 7:30 p.m. in Maxwell Hall, only two would-be freshman candidates were present. These were interviewed and then CAP President David Chase called a ten minute recess until the arrival of more candidates.

The recess ended over an hour's wait and the convention got back to work at about 9:30 p.m.

Both upperclass and freshmen delegates okayed Chase's suggestion to use open balloting to save time.

Several days ago CAP announced to the freshmen that closed

(Continued on Page 8)

## Walsh to Speak On Government's Duty to Citizens

By BARBARA CORNBHATT

Responsibility in government will be the main theme of a speech to be delivered today by Republican candidate for mayor of Syracuse, William Walsh. His talk will begin at 4 p.m. in Maxwell Auditorium.

Walsh will discuss the responsibility of government to individuals. He indicated that it is important for college students to have a basic understanding of this concept.

He will further elaborate on the importance of experience in dealing proficiently in politics. Walsh has had extensive political administrative experience including work in the Onondaga County Welfare Department, which he is presently heading. Also, he served as the Director of the State Commission Against Discrimination for ten years.

Walsh was the first research director for Onondaga County. This position he made suggestions which, amongst other things, lead to the development of the Community College and an expanded Mental Health program.

Walsh indicated that he will also include discussion on discrimination and housing relocation problems.

Walsh's appearance is being sponsored by the Young Republicans Club, President of the Young Republicans, A. I. Reed (War) Whitaker, stated that Walsh's speech is not intended to answer accusations against Richard Newman, but rather to deal with the local campaign and issues in the Syracuse area.

Whitaker mentioned that special letters were sent out last

(Continued on Page 6)

## Frosh RI Party Chooses Milbury to Lead New Slate

FIRST OF A KIND are these two freshmen, DOUGLAS MILBURY and ALAN ANDLER. They are seen here after winning nominations from the newly-organized Reformed Independent Party for president and vice president respectively of the freshman Class of 1965.

By JOYCE HELEGHAN

Junior Editor

A five and one half hour Reformed Independent party convention Tuesday night nominated four freshmen to run for class office in the Nov. 1 election.

Heading the slate of the newly organized freshman party is presidential nominee Douglas Milbury. Alan Andler will run for vice president on the RI ticket, Nancy Walker for secretary and Charles Carter for treasurer.

Milbury, from Snewbury, Mass., is in the College of Liberal Arts and a resident of Marion 1. He was president of his high school senior class and captain of the high school crew team. He is a member of the freshman crew at Syracuse.

Andler, the vice presidential nominee, is a resident of Newton, Mass., and Marion 3. He was a high school student government parliamentarian on the school's finance board and a member of the track and basketball teams. He is also in the College of Liberal Arts.

Walker, Liberal Arts student, Miss Walker hails from Schenectady and is vice president of Nottingham Cottage. She was secretary of her high school drama and pop clubs and a member of the school orchestra.

Carter, a College of Business Administration student from Plainfield, N.J., resides in Dell Plain 5. In high school, he was active in student government and the school orchestra.

Noting that both the presidential and vice presidential candidates are residents of Marion dormitory and the state of Massachusetts, a situation usually

(Continued on Page 8)

## Meeting to Evaluate Pinebrook Slated

A post Pinebrook meeting will be held between 4 and 7 p.m. today at the Shaw Recreation lounge.

This meeting has a three-fold purpose.

1) To impart some of the Pinebrook enthusiasm to a larger group of students through those who attended the initial meeting.

2) To discuss each of the 18 Pinebrook resolutions in order to see where each of them stand in

terms of what progress has been made in JSL.

3) To give the JSL Government board and opportunity to explain to the administration and students its progress to date and hopes for the remainder of the year.

At the meeting, the "Pinebrook Booklet," a resume of the entire Pinebrook conference, will be distributed to all those who attend.

Students who were at Pinebrook, other campus leaders, and several freshmen have been invited to attend. Faculty and administration members will also be there.

Peter Fielding, president of JSL Governing Board, and Carolyn Bareish, Chairman of Pinebrook, the co-chairmen for the meeting.

## Student Nearly Gets Book Thief

The near interception of a thief who sold a stolen book has brought to light a number of book thefts on campus.

Arthur Hodley, an SU student, reported to Security that someone had stolen one of his books from outside the Commons restaurant. As soon as Hodley discovered the theft, he notified the Bookstore and the Corner Store to be on the alert for anyone trying to sell the book.

The Corner Store then told Hodley that a person had just sold the book to them for four dollars.

Robert Flatshery, director of Security, said that a number of these thefts have been reported and the way to counter them would be for students to keep their books with them and for anyone buying a book to ask for identification of the seller.

## Professor Off Campus

## J-Prof's Key: Impromptu Talks

By BILL BURCH JR.

"He is really amazing — this whole course is taught off the top of his head." That was a comment spoken by a senior radio television major sitting in the back row of Room 313 of the Maxwell School. The object of this awe-struck comment was Professor William T. Burch Sr., of the School of Journalism.

His manner of teaching without notes is possible because Professor Burch has had long experience in the course that he teaches, Communications Law, or Publishing 111 as the catalogue reads.

This man is recognized as one of the newspapered-in lawyers teaching in the nation on the laws of libel and slander and he has combined long experience in both the fields of journalism and law to become an acknowledged expert in his field.

Communications Law is the only course which Prof. Burch teaches, since he has conflicting interests on and off campus in the forms of Estate Director for the University, his private law and

insurance work, and various real estate holdings in both Onondaga and Oswego Counties, all of which take up most of his time. He is a physically large man, six feet, one inch; 220 pounds). Professor Burch is rarely seen sitting still, and one wonders on observation, how he keeps from becoming the proverbial "absent-minded professor" with all that he has to do.

When he is not teaching or inspecting buildings with Charles Morgan, Director of Security for the University, or in court he is at home marking papers or at his weekend law office in Pulaski, N.Y.

Professor Burch lives in an English-colonial home at 203 Berkeley Drive, about two blocks from the Women's Building. His home is furnished in a combination of French Provincial and modern, and the rooms in the three-story house have Persian Oriental Rugs.

Mrs. Burch is a small woman whose interests are in collecting oriental rugs, Sticks furniture, and antique glassware. The glass-

ware can be found in all the downstairs rooms, either on side tables or in two large bookcases in the living room of their winter home.

The Burch's summer home is a small old house, built in 1847, in Pulaski. Their summer house is pink painted brick, while the interior is completely furnished with modern furniture, more orientals, and wood-paneled walls.

The professor is quite popular with his students. He is a constant source of amazement to them, and is known as being highly unpredictable. In the past, he had had trouble associating names with faces in his class, so this year he solved the problem by simply bringing his Polaroid Camera to class and photographing the members in groups of five.

Off campus, he is constantly on the move and could be referred to as a prime example of constant action among diversified interests.

He once wrote a book of 226 (Continued on Page 6)

## Campus Sticker Forger Fined \$15

A Syracuse University senior Tuesday night was convicted by Joint Student Court of forging a campus auto sticker.

He was fined \$15.

The court also revoked his campus driving privileges. However this sentence was suspended because a job held by the student necessitates the operation of a car on campus.

It is the court's policy not to release the names of student offenders.

This was the only case considered by JSC in its regular Tuesday meeting.

Other cases handled so far this year have concerned a student shoplifter and a hit and run charged student.

This year the Men's and Women's Divisions of Joint Student Court are working to establish closer cooperation in the handling of student disciplinary problems.

Men's Division Chief Justice Samuel Farr was appointed last Wednesday to head a six-man board that will run Joint Student Government during the illness of JSC head Elizabeth Evans.

In the Daily Orange last Wednesday, Farr was referred to as JSC Chief Justice. This was incorrect, as Helen Howard of the Women's Division now serves as chief justice of the joint court.

Editor-in-Chief ..... Sam B. Girgus  
Business Manager ..... Andrew Levitt

## The Fight Against Capital Punishment

The Daily Orange is in complete sympathy with the formation of a Syracuse chapter of the New York State Committee to Abolish Capital Punishment. The acting chairman of a ten-man group considering this action is Hill Journalism instructor, Eugene Gilmore. Gilmore, in this leadership role, is attempting to add New York to the list of nine states that have abolished capital punishment. In an article appearing earlier this week in the Daily Orange, the former newspaperman listed some of the major arguments against capital punishment. Among these are the facts that the wrong man may be killed and that even a murderer can be changed into an important member of society.

Of equal importance is the fact that even in states where capital punishment exists, it is often only the poor who feel its effects. This is a result of their inability to afford adequate legal aid. New York State, fortunately, is now taking steps to abolish this and a special commission has been appointed by Governor Nelson Rockefeller to review the state penal code. But not until 1962 when the commission reports can anything be done. During this time the number of people who die in New York's electric chair can rest on the conscience of all its citizens.

SEND ME NO FLOWERS

## The Greek Game

By ALAN G. MILLSTEIN

"We need a Jew for a balanced ticket," the secretary of United Students party reminded the freshman nominating convention Sunday in Maxwell Auditorium.

"I hate to bring this subject up again," president and chief strategist of the party, Ellis Gaskell said, picking up where the secretary left off, "but since this is a college campus and personal biases do exist here, may I remind the convention delegates, and especially the freshmen, that it is imperative that a Jew be added to balance the ticket."

This was the first practical lesson in campus politics for the 30 or so freshmen in attendance. In a matter of minutes they were reminded of their petty hatreds. In essence, they were told point blank that an SU student is no more tolerant in his voting habits than those men who sweep streets after high school.

It would be committing political suicide, Gaskell warned, should the convention have nominated candidates purely on the basis of merit. At SU "political suicide" means offering a ticket that fails to give equal representation to the three major religious groups on campus.

Nominating a non-Jew for the office of secretary of the freshman class was an impossibility after Gaskell's tirade on religion. With two Christians already selected, it was imperative that a Jewish candidate be added. To avoid what was suggested to be sure defeat, by Gaskell, the convention promptly nominated someone named Shapiro.

### SU Tradition

Gaskell's lecture on SU religious prejudice has been repeated by other party leaders ever since the Greek game of politics began on this campus.

Unless the tickets put up by the parties are balanced, most political buffs think defeat is inevitable. Since the best local residents can remember as far back as four years ago Gaskell's word must be taken that the last attempt here to run an

unbalanced slate failed. Further insight into the workings of campus politics was afforded the freshmen at the US convention when they had the opportunity to see how a sure-winner is added to the ticket with the full approval of the delegates.

Before the prospective nominees for treasurer were heard by the delegates, a twenty-minute "five-minute break" was called by Gaskell. During this recess, many of those present felt the upperclassmen at the meeting pre-selected the candidate for the office of treasurer.

Many of these same upperclassmen carefully coached and groomed their candidate for his convention appearance. He was a strapping fellow with red hair and a goatee across his face, with enough of a foreign accent to make him unique.

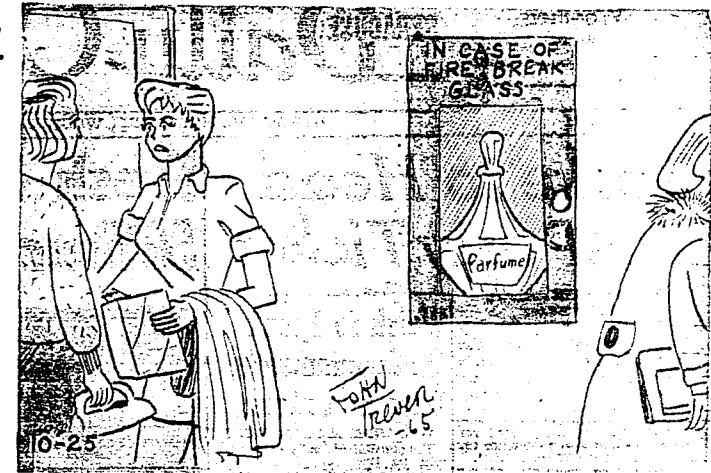

But the other freshmen at the convention refused to put up with these political maneuvers. Enough of them were hurt by the degree that they started squawking out loud.

### A Loud Moan

"I have never been exposed to anything like this," a sweet faced lass of the class of '65 moaned loud enough for party chairman Gaskell to hear. In several brief moments, she tore the facade of sweetness and light right off the faces of the party leaders.

In a desperate attempt to quell the ensuing protests, Gaskell turned the floor over to the freshmen who were crying "foul play" in unison. Many of them, especially the losers, felt that a pre-selecting of the candidates, as in a local had taken place. The fact that the nominee for treasurer had arrived at the convention minutes before he was nominated clearly disturbed many present.

It took the liberty of inviting people to this convention," Gaskell said in defense, "but never was an attempt made to control the nominations." At this time it was getting pretty hot in the convention hall and Ellis was heard to be

-LETTERS-

## DO Reviews Hit

To the Editor:

On Friday, October 20, the following item appeared among the "Letters" section in the WEEKEND section:

"Loew's — Paul Newman hustles with a trombone instead of a pool cue in 'Paris Blues.' Unfortunately, though life is just as sordid (Paris beats, interracial and homosexual love affairs and all), it isn't as good as 'The Hustler.'"

Apparently the reviewer classifies "interracial love as sordid, and in same category as "homosexual love affairs and all."

My wife and I are of different races. We have never considered our relationship sordid. We are aware, of course, that certain types of people hold this view, but it came as a shock to discover that there are such on the staff of a university newspaper. Graduate Student

To the Editor:

In response to the review of the Faculty Art Show (Tuesday, October 17) by J.E.C., I find the most questionable identity of the man behind these letters.

J.E.C., let us not compare our professors' paintings until we have made a valid effort to comprehend each piece. A painting is in essence an end in itself. In my opinion, if Pollock's "common 'Abstract' shapes had a dulling effect on the viewer's mind," to be blunt, it is the viewer's mind that is dull, if not dead.

Let us remember that how form is expressed is relative to the artist's way of formulating his statement as an individual. It seems that the critique which was presented in the DO was written by one who is completely insensitive to, or ignorant of, individual forms of interpretation.

Narrowmindedness, or the lack of ability to comprehend via visual perception and mental adaptation, is evidenced too frequently in those who see with closed eyes, and utter words of little or no meaning.

Marion Rosenfeld  
Graduate Student (Painting)

## Policy On Letters

**POLICY ON LETTERS:** The letters column is maintained for the expression of opinion by readers. However, the Daily Orange reserves the right to edit letters for grammar and good taste or to reject letters. Letters should be written legibly, preferably typed, and no longer than 250 words. All letters must be signed with names and addresses; names will be withheld on request.

## OPINIONS ON CAMPUS

By BEA TURET

**Question:** Do you feel Administration policies treat Syracuse students as mature, responsible individuals?

**Dave Bresler, '64:** The Administration obviously feels that Syracuse students haven't sufficient maturity and responsibility. If they felt otherwise, their policies would not be so stringent.

**Susan Owens, '65:** I think the Administration is really pretty fair in comparison to other schools. They think of us and treat us as mature individuals.

**Ronnie Litz, '68:** Definitely not. This is especially shown by the fact that we don't have a very effective voice in student government or in the formulation of any policy that affects the welfare of the student body.

**Norm LaCholter, '62:** I don't think there are any set judgments by the administration officials about university students. Any generalizations they might make are probably based on actions of student groups that they have observed. If these groups reflect a mature outlook, then the students can be expected to be regarded as mature.

**Jack Kligerman, graduate student:** The average college student, from his freshman year through his senior year, is immature, and thus needs such university rules and regulations.

**Jack Sanzeri, '64:** Administration policies tend to treat the Syracuse coeds more as little girls than mature women. The boys are luckier, however, for they are not bothered by all of the rules and regulations that apply to the girls.

**Margaret Corby, '64:** The Administration doesn't have enough confidence or faith in the students, and for this reason they have as many stringent policies as they do.

**Jerry Miesler, '63:** If we are old enough to fight for Uncle Sam, we are surely old enough to drink on campus.

**Roberta Elias, '64:** I think the Administration treats us like youngsters, especially with their restriction on curfews. If we are old enough to go away to school, we are old enough to manage for ourselves regarding our personal lives.

**Beverly Morse, '64:** No. My reason is that I think that at our age, college students are able to think and do things for themselves. The restrictions imposed on us now are not applicable to our age level.

# American Ballet Theater to Perform

The American Ballet Theater will open its nationwide tour with a performance at 8:30 p.m., Friday at Lincoln Auditorium.

America's oldest ballet company, the group has performed over 100 ballets, 32 of which were world premieres and another 29 which were premieres of the company's experimental workshop.

Many of the works have become American classics including "Fall River Legend", "Fancy Free" and "Billy the Kid."

"Billy the Kid," by Aaron Copland will be among the four works the ballet will present here. The rest of their program is George Balanchine's "Theme and Variations," the Pas de Deux from "Don Quixote" and "Les Patineurs."

The American Ballet Theater, founded 22 years ago, has done more tours than any other company in history. They have performed in 48 states and 37 countries on four continents.

Their tour in the fall of 1960 in Russia was the first time an American ballet company had performed there. The company's present tour will cover 41 cities.

The Theater was the first American company to go abroad after World War II, gave the first televised ballet, was the first

company to tour under the auspices of the U.S. State Department and was the first ballet company chosen for the International Cultural Exchange program.

Tickets are available at the Famous Artists office in the Clark Music Building.

## Assn. Sponsors Poetry Contest

The National Poetry Association is now accepting manuscripts in its annual poetry competition.

Any student attending a Junior or senior college is eligible to submit verse, and there is no limitation on theme or form. Shorter works are preferred because of space limitations.

Each poem must be typed or printed on a separate sheet and must have the student's name, home address and college. Manuscripts should be sent to the offices of the National Poetry Association, 3210 Solby Ave., Los Angeles 34, Calif. The deadline for work is Nov. 5, 1961.

Mrs. Elizabeth M. Gilmer, more widely known as Dorothy Dix, started to write her newspaper column in 1896 for the New Orleans Picayune.

# Krasner, Wife To Give Crouse Concert Sunday

Louis Krasner, violinist, assisted by his wife Adrienne Krasner, pianist, and Edward Lisk, clarinetist, will present the second of this season's Crouse Concerts at 4 p.m., Sunday in Crouse College Auditorium.

The first group will consist of a Grave by Friedman Bach and the Adagio for Violin, Clarinet and Piano by Alban Berg. Krasner will then perform the Concerto for Violin, No. 5 in A major by Mozart.

Following an intermission, the Krasners will present the Ravel Sonata for Violin and Piano. The program will conclude with Airs Russes by Wieniawsky.

Krasner has given recitals in the United States and Europe and has been featured soloist with many well-known orchestras including the Boston Symphony and Philadelphia Orchestra. He spent last spring playing recitals and lecturing in Europe.

Admission is free. The next concert will be presented by Sigma Alpha Iota, women's professional music fraternity on Nov. 5.

# Track Coach Grieve Voices AAU Support

Hill track and field mentor Bob Grieve has stepped out against the newly proposed United States Track and Field Federation while favoring the continued operation of the Amateur Athletic Union.

The formation of the federation would weaken the highly criticized Amateur Athletic Union which has complete control over track athletics in this country. The proposed split was revealed in an article in a national magazine last week.

Under the new plan the N.C.A.A. and the National Collegiate coaches Association would form a federation to govern U.S. track athletes. Presently the I.C.A.A. has jurisdiction only over collegiate athletes.

Grieve, who is on the N.C.A.A. advisory board for this district, termed it ridiculous that an organization of collegiate track coaches could rule amateur track.

He cited money and unity as reasons for the failure of such an organization. Grieve stated that a proposed federation would not have the money to carry out the administrative functions which the A.A.U. performs. Most of the money which allows the A.A.U. to operate is received in the form of donations "from friends."

Grieve went on to say that the A.A.U. "is a tightly knit organization with established policies. The N.C.A.A. is a loose organization. Forty coaches would have forty different opinions as to how things should be run."

Grieve admitted that athletes have "a legitimate gripe" in complaining about conditions on A.A.U. sponsored trips to compete abroad.

As a possible solution Grieve

suggested that a five man board be set up consisting of two members from the A.A.U. and two from the N.C.A.A. in addition to a president. Such a board could revise programs on "friendly terms." Both sides should "stop throwing rocks at each other and be willing to give a little to resolve differences."

Times and styles change. Syracuse played Nebraska in football seven times between 1917 and 1928 and scored a total of just five touchdowns, although winning three of the seven games. In the two modern games between the two schools, however, Syracuse garnered some nine scores, winning both times.

# Girl Watcher's Guide

Presented by Pall Mall Famous Cigarettes

Bare-Backed Beachbomb

## LESSON 2 - What about standards?

Advanced students of girl watching never waste eyeball effort watching girls who are not beautiful. Standards must be kept high.

But how do we judge whether a girl is worth watching? Although many strict academicians will shudder at our aesthetics, we must insist that a girl is beautiful if she is beautiful to you. (That's the beauty of girl watch-

ing. Every girl is beautiful to someone!) For example, many observers have pointed out that the Bare-Backed Beachbomb (see above) has a weak chin.

Yet none of these keen-eyed experts would deny that she is indeed an attractive specimen. And, speaking of standards, don't forget to keep your smoking standards high. Smoke Pall Mall!

# View From Archbold

By MILT JOFFE

**NOW WE'VE HEARD EVERYTHING!** Seldom in the world of sports has anything been as ridiculously surprising as Monday's announcement that Syracuse and Army were invited to play in the Gotham Bowl December 9.

Picking up right where they left off last December, the Gotham Bowl committee has helped add more credibility to that post-season mutation of football known as the bowl game.

We're amazed at the lack of subtlety shown by the bowl committee. How more obvious can they make it that their only motive in promoting the post-season duel is the good old profit motive.

Last year the heads of the Gotham Bowl were red over the confusion and embarrassment they were involved in. The net result of that mess was no game at all.

It was last year that Holy Cross was invited to play in the bowl. At the last minute, almost as the team was voting whether to play, the committee retracted the bid. To add further insult, when other offers were accepted, they had the nerve to re-invite Holy Cross. Needless to say, the Crusaders declined and Oregon State, which had accepted, was without an opponent.

Left without a game, the committee must have made some sort of pact, sealed in blood, not to miss out on a buck this year.

So with all the grace of a wounded hippo, the committee issued what by now should be the famous invitations to Syracuse and Army.

We'll admit this conceivably could be a good contest. But who's to say that, now?

Army, sporting a 4-1 record, is playing fine football. When the dust clears, they could very well be the best team in the East.

The many-splintered Orange team is not bad either. Unfortunately, we may never see this squad of great potential at full strength.

So, to repeat, this could be a good game. But the timing was horrible. Almost immediately after the Syracuse team was held scoreless by Penn State the invitation came. We're sure no one was more surprised than the athletic department heads.

Lew Andreas said Monday that it is too early to consider a bowl bid. We would like to differ.

It seems to be too late to accept a bid. The Syracuse team has lost twice this season and most likely will lose again. Unless, like the Gotham Bowl people, we're out for a quick buck, we should stay home.

Last season, following a great win over Miami, Syracuse's athletic heads turned down a more glamorous bid. This season, then, they should not even have visions of bowl games in their heads.

We don't know what the reaction to the invitation was at West Point. We like to think they have more serious things to think about.

Nevertheless, the bids are out and the Gotham Bowl heads are preparing for a long month of sleepless nights.

It will have to be billed, we guess, as the Second Periodic Gotham Bowl (they can't say annual). Instead of fooling around with this steslow of the bowl games, we would like to see the good men in Archbold say clearly and convincingly, "No!"

Then if we win the rest of our games, we can travel into sunnier climes.

Let the Gotham Bowl have Colgate or some other darkhorse eastern power to fill up Yankee Stadium December 9.

As for the mighty Orangemen, let us band together and in a voice of solid unity say, "Please, Mr. Andreas, I don't wanna go."

## INTRAMURAL SCHEDULE

### Touch Football

7:00—Zeta Psi vs. Sigma Alpha Mu.

7:45—Kappa Sigma vs. Pi Kappa Alpha.

8:30—Tau Epsilon Phi vs. Phi Kappa Psi.

### Bowling

6:15—Phi Epsilon Pi vs. Alpha Tau Omega, Sigma Chi Psi vs. Theta Chi, Pi Kappa Alpha vs. Delta Tau Delta.

8:30—Sadler vs. Watson El, Cleveland vs. Dell Plain 1, Watson W1 vs. Marion 1.

### Rifle

7:00—Phi Kappa Psi vs. Phi Sigma Delta.

7:30—Alpha Chi Rho vs. Acacia.

8:30—Sigma Alpha Epsilon vs. Phi Epsilon Pi.

9:00—Pi Alpha Chi vs. Beta Sigma Rho.

Those who signed up for intramural tennis should check the bulletin board in the locker room. A ladder has been set up with each man responsible for contacting his opponent.

# Midseason Statistics Reflect Rough Going

With the season half over, Syracuse's 3-2 record seems to indicate fairly accurately their all-round performance. In the five games already played, the Orangemen have compiled statistics almost identical to their opponents.

The Orange has totaled 72 first downs to the opposition's 70. They have gained 991 yards rushing and 423 yards passing, connecting on 35 of their 64 passes attempted, for a total of 1419 yards.

Thus far the first five Orange opponents have totaled 1344 yards, rushing for 926 yards and completing 35 of 69 tosses for 418 yards.

Individually, Ernie Davis is closing in on Jimmy Brown's total rushing record, needing only 159 more yards to tie. Despite last week's disappointing 36 yards in 14 carries, Davis still leads the club carrying 76 times for 370 yards, averaging 4.9 yards a try.

Gary Fallon has gained 137 yards, Bill Meyers, a fourth-string end until two weeks ago, has carried for 137 yards, averaging 8.6 a try, tops on the club. Pete Erskow has gained 119 yards, while the injured Bill Schoonover has carried for 108 yards, averaging

8.3 yards per carry.

Davis also leads in total scoring with 44 points, needing only 18 more to tie Brown's all-time scoring record. Following Davis are Walt Sweeney with 12 points, and Dave Sarette with 10.

Sarette has completed 20 of 35 passes for a total of 280 yards. Bob Lelli has hit on 9 of 13 for a 96 yard total.

# Professor Burch

(Continued from Page 1)  
pages compiling all the publication notices laws of the State of New York in a month. He also edited a text of 100 precedent-making cases in libel which is used in his classes and hopes to find time some day to convert it to a full book.

Formally, he graduated with a journalism degree from business administration in 1934. On V-J Day, he entered the University Law School. Two years later in the day he graduated. Meanwhile he had joined the School of Journalism staff. He has never left.

**Five Courses**  
His past experiences include teaching five other courses in the J-school as well as supervising editorial and financial aspects of the Daily Orange, Syracuse 10, and the Onondagan.

Professor Burch's work in real estate includes spending more than one-quarter million dollars a year in acquiring property for the University—as much as it would cost to purchase the housing in a village of 200 people.

Last year he had to miss a few classes while he negotiated with Russian U.N. officials over a multi-million dollar hotel deal in New York. He later lectured to a class studying Soviet foreign relations revealing that this time it was the University representative who "took off his shoe and pounded the table."

His classes have heard about his defense of a man who "borrowed" nearly two million dollars from a bank check, only drawn on the novel defense that the law preventing such action had yet to be passed.

The infamous Dudleys, now ap for murder in Virginia for the starvation deaths of their family were once assigned to him for de-

ference, but due to a final examination on the same day he avoided representing them. But he lectures to classes on delinquency or deviant behavior in their past life almost annually.

## Walsh to Speak On Government's Duty to Citizens

(Continued from Page 1)  
week to the city students notifying them of the meeting. He said that this should be of particular interest to the Syracuse residents as the election directly involves them. He added that although the majority of the students will be ineligible to vote, it will be their responsibility to convey their views to their parents.

Walsh is presently engaged in a four cornered political race, in which his major opponent is Democratic candidate Henry Normora.

Walsh will have a press conference with University Vice-President Kenneth Bartlett at 3:30 this afternoon. Following Walsh's speech, there will be a short question and answer period.

First appearing in Boston on August 7, 1721, the New-England Courant was the first American newspaper established in any colony which openly opposed recognized leaders of the time.

### 2 FIRST PRIZES OF \$100 A MONTH

Winners (one man and one woman student) will receive a check for \$400 on Dec. 15th and \$100 a month beginning in January and ending in May.

### 25 SECOND PRIZES of a new Philco transistor radio

### IT'S EASY TO ENTER—EASY TO WIN! HERE'S ALL YOU DO

Just tell us in 25 words or less, what you like most about Sheaffer's all-new \$2.95 Cartridge Fountain Pen. Write your entry in ink on any sheet of paper, enclose it with the top from a package of Strip cartridges, and mail it to: Sheaffer "Pen Money" Contest, P. O. Box 4399, Chicago 77, Illinois. Entries accompanied with your name, address, school name and class must be received by November 7, 1951.

Entries will be judged on the basis of their believability and freshness of thought. Judges' decisions are final and all entries become the property of the W. A. Sheaffer Pen Company. None will be returned. In case of ties, duplicate prizes will be awarded. Every college student in the United States may enter, except employees of W. A. Sheaffer Pen Company, its subsidiaries, its advertising agencies, the independent company judging entries... and members of their immediate families. Contest subject to federal, state and local regulations. Winners will be notified by mail approximately four weeks after contest closes. List of winners available after close of contest if request is accompanied by stamped, self-addressed envelope.

Here are some of the things to keep in mind when you're writing about Sheaffer's all-new cartridge fountain pen

- For smooth, easy writing, there's no substitute for a Sheaffer fountain pen.
- Loads like a rifle with leakproof cartridges of world famous Strip writing fluid.
- Fills quick, clean, easy... just drop a Strip cartridge into barrel.
- Fits easily into a shirt pocket... comes in a choice of five smart colors.

## IFC Agenda To Include Rush Plans

The Inter-Fraternity Council will meet at 7:30 p.m. tonight in room 207 at the Hall of Languages. This meeting will enable the delegates of the various Greek houses to discuss and evaluate the resolutions discussed at the IFC Fall Conference.

The main topic for debate will be the Rushing resolution and rules, said IFC President Richard Miller. The rules governing transferring students and freshmen, which

were suggested to be re-stated, will be covered in the meeting. Other topics of the Fall Conference, Housing, Pan-Hell relations, President's Manual, Judiciary Board, and Cultural Advancement, will be brought up if the time permits.

Diek Miller urged members of the IFC to fill the vacant chairs for the Pan-Hell Exchange dinner and Publicity committees. These chairmen are needed for the success of the sorority-fraternity plans for the year.

Scrrips-Howard newspapers bought the Pittsburgh Press on July 27, 1923 from the Hershman interests. A record transaction at that time, the transfer involved six million dollars.

## JSL Announces Five Committees On Government

Joint Student Legislature Speaker Pro Tempore, Ginny Privateer, has announced the assignment of five government committee memberships: Student Council and Welfare, Local and National Affairs, Ways and Means, Government Structures, and Organizations.

Members of the committee for Student Conduct and Welfare are: Nancy Ames, Ivan Fisher, Eelsey Van Sickle, Tom Francis, Nancy Smith, Charles Frankel, Barry Vetere, and Sonja Muller.

Assigned to Local and National Affairs are, Ginny Waugh, Jack Sidor, Sharon Weiner, Linda Rich, Bonnie Barnes, and Diane Hendrick.

The Ways and Means committee will be conducted by Mara Novack, Barbara Ballou, and Don Grippo.

Fran Zupljani and Leonard Symons are the members of the committee of Government Structure.

The Organizations committee members are Frances Rodomanski, Jeanne Dana, and Ellen Walkins.

JSL speaker, Ginny Privateer, urged these members to watch the campus policies for meetings for their specified groups since attendance is imperative.

The Steering committee, consisting of all committee chairmen and Senators-at-Large, will be held at 4 p.m. on October 31 in the Chapel House. Chairmen are reminded to bring written reports from their individual committees to the meeting.

# Locke to Head

(Continued from Page 1)  
balloting would be used to insure fair nominations.

**CAP Recruits**  
None of the freshmen trying for CAP nominations previously had been in either the United Students or Reform Independent Party conventions, Chase told his delegates. All were CAP recruits.

In the first balloting for president, Ronald Penn lost out to Locke and Quarter. Locke took the nomination on the second ballot.

One ballot got Miss Roudou her nomination over Miss Sealce, Barbara Smotrich and Elaine Pinsky.

Two ballotings for secretary showed no majority and Miss Sealce was most troublesome on the third ballot over Misses Smotrich and Pinsky.

Quarter was unanimously selected CAP's candidate for frosh treasurer.

Chase told the Daily Orange that Pi Delta Phi society is no longer a CAP member.

All three parties have now nominated candidates for the elections next Wednesday.

CAP was early on the political scene when party secretary Mara

Novack suggested a month ago a plan to have freshmen delegates at both CAP and US conventions.

Her suggestion as well as deferred fraternity rush gave impetus to the formation of the now defunct Experiment for Free Elections organization which led to the now-legalized Reformed Independent Party.

CAP ran into trouble two weeks ago when rumor had it that several houses were pulling out of the party to form a new group, but nothing concrete came of efforts in this direction by Psi Upsilon fraternity.

Last Thursday night the CAP convention adjourned minutes after it opened. Reformed delegates to the gathering demanded that CAP play only a passive role in nominating and campaigning. This demand was refused by CAP and the frosh walked out, leaving with no candidates.

As early as 1859, 24 newspapers covered the U.S. Senate for 21 newspapers and the Associated Press while 51 reporters covered the U.S. Senate for 21 newspapers and the Associated Press while 51 reporters covered the U.S. House of Representatives for the papers.

# Frosh RParty Chooses

(Continued from Page 1)  
not allowed by the other campus political parties in the frosh elections, RIP president Michael Lieberman said.

"We came to pick the best qualified candidates, not to head the campus political adage advocating a certain distribution factor among members of the slate," Lieberman explained.

A departure from the procedure usually used at campus nominating conventions accounted for the length of Tuesday night's meeting.

The RIP procedure, as defined in the party's constitution, provides for speeches by the candidate and two of his supporters and a discussion session among the delegates and all the candidates for each nomination before the first ballot is taken.

Only one ballot was needed for both the presidential and vice

presidential nominations. Milbury defeated Ivan Fisher, a Liberal Arts student from New York City for top spot on the ticket and Andler won the second place from Mary Ruth Thier and Hiss Glaubman, two coeds from New York City and Lawrence, respectively.

Three ballots and a recount were held before Miss Walker was nominated secretary.

Wendy Ryan, Helaine Gold, Joan Silberfeld, and Lois Petner also sought the nomination.

Misses Silberfeld and Ryan were dropped after the first ballot in compliance with the constitution provision that states if no candidate receives a majority, the two candidates receiving the smallest number of votes are taken off the next ballot.

Miss Petner's name was dropped after the second ballot following a revolt which proved she had received fewer votes than

Miss Gold.  
Miss Walker defeated Miss Gold on the third ballot.

Two ballots were required to nominate a candidate for treasurer.

Five names, Patricia Hannum, Nancy Cassone, Bruce Bernhard, Paul Litwin and Carter, appeared on the first ballot. When no one received a majority of the votes, Bernhardt and Miss Cassone's names were dropped, and Carter defeated the other two candidates on the second ballot.

Before the balloting for class officer nominations began, RIP president Lieberman announced it was necessary to elect a new party treasurer.

Alan Heifetz, who had been elected to that position Sunday resigned, Lieberman said, because he had not been a regular convention delegate at the time of his election as required by the party's constitution.

# Neighborhood Group Urges Co-operation

With the development of the Thornden Park Neighborhood Council, great progress has been made in cooperation between the University and its surrounding neighbors, asserted neighborhood representative, William S. Andrews, presently seeking reelection on the Democratic ticket as supervisor for the 16th Ward.

However, Andrews continued, there are still a great many problems remaining to be solved. His most troublesome one concerns traffic, parking, neighborhood upkeep, tax-exemption and University owned property.

Andrews suggested that reorganizing the traffic particularly during rush hour, from College Place and the University, might be a partial solution.

Hope for More Parking  
He also expressed the hope that the University might build larger parking areas, within the campus area, to accommodate the larger number of student owned cars.

Syracuse University is the biggest property owner in the neighborhood, Andrews stated. This in itself poses several problems.

When the University buys property, the traffic automatically becomes tax-exempt. However, it still requires the same maintenance. Also, the residents of these areas are uncertain as to the true existence of their present homes.

Stresses Neatness of Houses  
Andrews stressed that it is essential for the various fraternities and societies to maintain adequate upkeep. Any slippage on the part of these living centers will result in the depreciation of the neighboring property values.

Andrew's father, Dean Paul Shapiro Andrews, was the head of the Law School for 25 years. His father-in-law is Dean Virgil M. Rogers of the School of Education.

# Mangone Named To Maxwell Post

Dr. Gerard J. Mangone, professor of political science, has been appointed Executive Assistant to the Dean of the Maxwell School of Citizenship and Public Affairs.

Announcing the appointment, Dean Stephen K. Brey noted that Dr. Mangone would be of great assistance in planning programs and long range development of the Maxwell School.

Professor of International Law and American Foreign Policy, Dr. Mangone came to Syracuse University in 1956. He was the director of the Maxwell Graduate Overseas Operations and Research program. Mangone has authored several books on international affairs and has traveled extensively throughout Europe.

Before joining the faculty of the Maxwell School, Dr. Mangone was on the faculties of Swarthmore College and Wesleyan University. Visiting professor at Yale, Princeton, Trinity, and Mt. Holyoke, Dr. Mangone received his Ph.D. from Harvard in 1949, where his dissertation won the Charles Sumner Award for the most distinctive contribution to world peace.

# IFC Fights Back On Discrimination

By ADAIR DUFFINE

In an effort to clear up anti-fraternity feeling on campus, caused by recent accusations against the discriminatory clauses in various Greek houses, Inter-Fraternity Council President Richard Miller Wednesday night called for the support of the members to refute these charges.

Miller asked for the representatives of the Greek houses to submit, on paper, sections of individual charters which dealt with such clauses.

Rules to improve the Greek rushing program and dispell any anti-fraternity sentiments of freshman was the major discussion of the meeting. James Tallon, IFC rushing chairman, restated the resolutions made at the IFC Fall Conference.

### Difficult to Enforce

The breaking of the silence period from Nov. 5 to 28, with personal contact by fraternity members, would be difficult to enforce and cause much dissension among the Greeks, said the majority of representatives. The period would bring the greatest pressure upon small houses and those on social probation, therefore defeating the entire idea to sell the Greek system as a whole, it was said.

A suggestion was made by James MacMurray, IFC advisor, to have "an open rush, but also a controlled rush." Due to anti-fraternity sentiment, he said it would not be wise to have a complete open rush, which could raise strong feelings of dislike and animosity towards the Greeks. The fraternity system should be able to control individual brothers and sell the entire Greek system, rather than have a mass rush upon incoming freshmen, MacMurray stated.

The revision of rushing theory this year is necessary for the survival of the Greeks, said Thomas Rigoff. The number of students who will decide not to rush will increase every year, therefore prompt action must be taken, he said.

### Narrow Down

Trying to narrow down the vast program proposed by the rushing committee, Miller amended the resolution for breaking the silence period with the idea of "preaching" the fraternity system during this time.

It suggested an open rush with (Continued on Page 7)

# Classes Assigned Additional Duties By Post-Pinebrook

The junior class will be in charge of the improvement of the cultural and academic conditions of the university. This was stated at yesterday's Post-Pinebrook Conference held at Shaw Dormitory.

The two other major goals of the convention were to implement a student handbook and to plan an opinion poll to determine student views of JSG matters.

Because the class officers have been asking for more responsibility, the sophomore class was also assigned a project.

That class will make up a handbook containing university reputations and the penalties for violating them.

The junior class, through class President Lee Peterson, will en- (Continued on Page 7)

# Good Turnout Of Parents Anticipated

The student committee for Parents Weekend announced yesterday that a record turnout of 6,000 parents is expected for the weekend. Tickets sold to parents for the Syracuse-Holy Cross game on Saturday number 4,300.

An information booth will be set up on the lawn at the south side of Hendricks Chapel on Friday to Sunday. This booth will be manned by students before and after all main events of the weekend to answer any questions parents may have.

1,000 reservations have been received for the School for Parents on Friday and 1100 parents are expected to eat in campus dining halls on that day. The schedule for the school will be the same as previously announced, except that Mr. Henry Worth will speak in place of Ralph A. Galbraith, Dean of College of Engineering.

The only time parents will be able to hear Chancellor William P. Tolley is at the 9:30 a.m. convocation in Hendricks Chapel. After the convocation the band will play for the parents as they leave the chapel.

Students are urged to take (Continued on Page 8)

# Walsh Concerned Over Urban Blight

By ALAN G. MILLSTEIN  
Junior Editor

William F. Walsh, Republican candidate for mayor of Syracuse, Wednesday revealed his program to combat discrimination involved in relocating the Negroes displaced by the urban renewal program.

Speaking before the Syracuse University Young Republicans, Walsh said that "one of Syracuse's biggest problems is finding new places to house those people dispossessed by the community plaza project in the 15th ward."

WILLIAM F. WALSH

As an area director of the State Commission Against Discrimination for ten years, Walsh said he was very familiar with the problems involved with discrimination and the methods of tackling the problem locally.

### Fighting Discrimination

While working with the SCAD program we early recognized that problems involving discrimination could best be handled by persuasion, conference and conciliation, Walsh said.

These same tools, Walsh said, can be applied in the Syracuse area and to our problems.

As County Commissioner of Welfare I added if trained people with my staff to specifically help and third care welfare cases lift themselves up economically and socially so they will be prepared to move to new parts of the city, Walsh said.

### Displaced Persons

Many of the problems involved with the finding of adequate housing for displaced persons results from the fact that "most of these people are failures of society" without moral backgrounds and devoid of moral teachings, Walsh declared.

Walsh expressed concern for the "patterns of blight" now existing in the 15th ward and he pledged that his administration would control the blight. "We don't want new slums," he added.

### To Call Meeting

"As soon as a light office," Walsh said, "I am prepared to call a meeting of all community agencies and community leaders in order to concentrate on handling the spread of blight on fringe areas."

Of course, Walsh said, any program to relocate people and to eliminate blight takes a lot of money and the trained people to handle these problems.

Responding to a question about the role Syracuse University could play in housing and relocation, Walsh said that leadership must come from the city itself. What is vitally needed, he added, was a tougher housing code with greater emphasis on enforcement.

Walsh's appearance before the Young Republicans was part of his widespread campaign pace that calls for 88 public appearances from now to election day. An aide of the Republican candidate said he believed Walsh had grown in stature daily as a human being and his victory should be overwhelming.

### RIP Treasurer

Freshman Michael Moecker, of Niagara Falls and DellPlain 3, Tuesday night was elected treasurer of the Reformed Independent Party.

A typographical error inadvertently caused Moecker's name to be left out of yesterday's Daily Orange article.

# Candidate Denies 'Leftist' Charges Against Newman

"I am not questioning the loyalty of either Richard Newman or Dan Dwyer, but I do question their judgement," William F. Walsh said at a press conference for the Daily Orange and WAER. Walsh, the Republican nominee for mayor, was responding to a question concerning his connection with campaign literature attacking Hill citizenship instructor, Richard Newman.

Newman, an ordained minister and active member of the Onondaga Democratic County Committee, was attacked by the Republicans for "distillings and membership in the Americans for Democratic Action."

### Right to Question

"The taxpayers of Syracuse have a right to question the campaign backers of my rival," Walsh said. The amount of campaign literature concerning Newman has been small, he added.

Turning the discussion to the charges made by his opponents of vice and gambling being wide open in Syracuse, Walsh defended the Syracuse police force and the job it is doing.

"We have good law enforcement," Walsh retorted, and my three opponents ought to stop the smearing. This community or we will not sell this community to new industry," Walsh pointed out that gambling is a constant (Continued on Page 7)

# Prof Offers Criteria For Judging Greeks

By BOB SEEWALD  
Executive Editor

In an effort to clear the air surrounding the "fraternity and sorority discrimination controversy," Ed. Roger Milkman of the Zoology department offered a series of criteria recently by which to judge the Greek system on this campus.

After asserting that "I don't think the main issue has been faced," in an interview Milkman urged that the nature of the group, fraternity or sorority, be analyzed. Is the organization accepted in isolation? Milkman would first ask.

The second important question would be whether or not the group is really isolated. For example, Milkman asked: "Can fraternalists regard as having the effect of an organized opposition to the goals of the university?"

Finally, Milkman asked, assuming fraternalists and sororities are at present exerting a harmful or powerful influence on the university would it be worth taking the drastic step of disbanding them all? And if they are harmful are their undesirable aspects necessary parts of their makeup? Can the Greeks be reformed? he asked.

After raising his questions to

establish valid criteria for judging the campus Greek system, Milkman asserted: "I believe that there is a serious conflict between the ideals of a fraternity and the ideals of a university."

The mental and moral development of the Syracuse fraternity man is "definitely retarded," he charged.

Milkman was careful to point out, however, that he is not prepared to support Dr. George Wiley's drive to disband Hill fraternities. But "if what he says is correct and they don't rectify it," then I would side with Wiley."

Milkman also added that there is a good side to the Hill Greek system. Sororities in particular, he said, "provide some impetus to living that is more gracious than in some dormitories."

Secondly, the "ability to throw a party as a group is something that should not be denied to college students." But since he said that he does not have a full picture of the situation at his grasp, Milkman regarded his questions as of more import to the campus than his personal and tentative viewpoints. He repeated often that the campus should judge whether the Greeks have a favorable or unfavorable influence on the campus as a whole.

# Threatening Callers Assail DO Columnist

Daily Orange Junior Editor, Alan Millstein, received two threats Wednesday afternoon as a result of a column he wrote yesterday condemning "balanced" campus political tickets.

A person who gave him his name as Hawkins telephoned Millstein about 2:30 p.m. Wednesday and told him "We will take care of you and see to it that you will no longer work for the DO."

The caller said he and his friends objected strongly to Millstein's comments on religious faceters that were brought up Sunday's United Students party freshman nominating convention.

Millstein's signed editorial, entitled "The Greek Game," discussed the methods of nominating candidates at Sunday's United Student's Party convention. In his weekly column, Millstein criticized the nominating conventions for their failure to nominate freshmen purely on the basis of qualifications.

The other threat to Millstein came early Wednesday afternoon. An infuriated upperclassman demanded Millstein apologize to some of the people mentioned in his article. Physical harm to the columnist was inferred from the remarks made to him.

The Wednesday column complained that the freshman attending the US convention were made to understand that "at SU the student is no more tolerant in his voting habits than those men who sweep streets after high school."

Millstein is a junior majoring in Political Science. He is a brother of Phi Epsilon Pi fraternity. His column, "Send Me No Flowers," appears as a weekly feature on the DO editorial page. Millstein has written for the DO news staff for two years.

By JACK HAND

Editor-in-Chief Sam B. Girgus
Business Manager Andrew Levitt

Reporter Millstein

Readers of today's Daily Orange will see that reporter and columnist Alan Millstein is still writing, despite the fact that he was personally threatened because of his comments in yesterday's newspaper. In most cases the stupidity that Millstein was forced to face Wednesday would not be worthy of mention. It is important now because such threats represent not only an infringement on freedom of the press but also a complete lack of responsibility on the part of individuals who seem to feel that personal criticism is beyond them.

Now the Parties

It is interesting to note that the subject matter of Millstein's column dealt with the tactics often employed by the political parties on this campus. He wrote, in effect, that the political parties constituted merely a "game" for some Syracuse Greeks—a game in which "foul play" is often the rule and not the exception.

There is no question that the campus political parties have often pulled stunts that were hard to take. There is no question that a prospective candidate's race or religion should have no part in the consideration of his qualifications for class office. And there is no question that "foul play" has often characterized these student groups.

But there is also no question, however, that political parties on this campus do serve a vital and important function. We do not condone the mistakes of the parties in the past. We do hope that their experiences this semester will tend to remind them of their responsibilities to the campus and will help them to remove the various skeletons from their assorted closets.

Something is missing on the Syracuse campus and it is something which is very important to the student body. Students at this university lack a forum in which to expound their ideas and realize their opinions into effective action.

Some will point to the Student newspaper as an effective forum. It does serve in this capacity, but within severely limited bounds. In a newspaper there can be little vital give and take of ideas, due to the time factor.

Students at this school have been each and apathetic. And they are, but it is time to look into the cause of this. One of the major reasons is the fact that there is no adequate, centralized meeting place for all students on this campus.

Taking what is perhaps the largest division among the undergraduates, the division between Greeks and Independents, one can readily see this. Each Greek house is like an island, a sort of world unto itself.

With the large group of Independents on campus, the Greeks have almost no contact, except perhaps on a very limited person-to-person basis.

Among the Independents this is also true. In many instances their basic unit, and outside of this group they often only know a few students in their classes or in whatever campus organizations they may happen to belong to.

This basic lack of communications within the student body makes it very difficult for the undergraduates to make their voices heard and to get the administration to take action on fundamental issues.

To get their voices heard there must be organization and coordination among the students themselves. To get this kind of activity, there must be a place for students to congregate and discuss their problems, with a view towards taking an active part in their solutions.

There must be an adequate forum or meeting place open to all the students in the university.

A Student Union is the answer to many of Syracuse's problems along the lines just described. In such a Student Union, Greeks and Independents alike could exchange ideas in a friendly atmosphere.

Communication between all students would be greatly improved and the possibility of

collective action to improve conditions on campus would become almost unlimited. Separated as they now are, the undergraduates are swept along in an apathetic tide which almost amounts to complete impotence.

We have little to say in campus affairs, and, unlike the students at many other American universities, our voice is utterly unheard in the larger socio-political picture.

The immense social advantages possible through a Student Union are also lost to the students here at Syracuse. At other schools, the Student Union is the focal point of campus life.

It is time that the students at Syracuse discovered a vital part of college life which they are now missing. It is time that they and the administration took this step towards dispelling apathy and strengthening participation in campus affairs.

Building up the character of the student body will certainly improve the character and image of the school. But then, being the administration is a little afraid of a strong student body with solid, coordinated opinions and ideas.

LETTERS-

Politics, Clauses Cited

To the Editor:

I was pleased to see the front coverage (Monday, October 23) given Dr. Wiley's opinion of the prejudice existing in fraternities and sororities.

However, the solution is not to bring the problem to the faculty or the administration. This is not an "academic affair." An ultimatum from the administration is the worst thing that could happen to the elimination of bias.

command would deter progress in the hearts and actions of the students. The only thing the faculty and administration can do is attempt to influence students alike through suggestions and expressions of their general opinion, as in speeches and interviews.

The ideal solution is elimination, by Greeks themselves, of discriminatory policies in local and national charters. The next step is gradual acceptance and use of the new policies.

The student body as a whole can have great influence on the initiation of such liberal reforms. A common reaction is individual examination of values and a quiet refusal to pledge. Those who find they cannot conscientiously pledge a society with prejudicial policies must join with others and make their position clear.

The students who do elect to join a Greek society, while disapproving of such discrimi-

natory practices, can expend their efforts towards changes in the charters.

When everyone who has strong feelings against racial and religious prejudice makes a firm, unshakable stand, we will see a change, in Dr. Wiley deems so necessary, without interference from the administration or the faculty.

Eleanor Leithbridge, '65

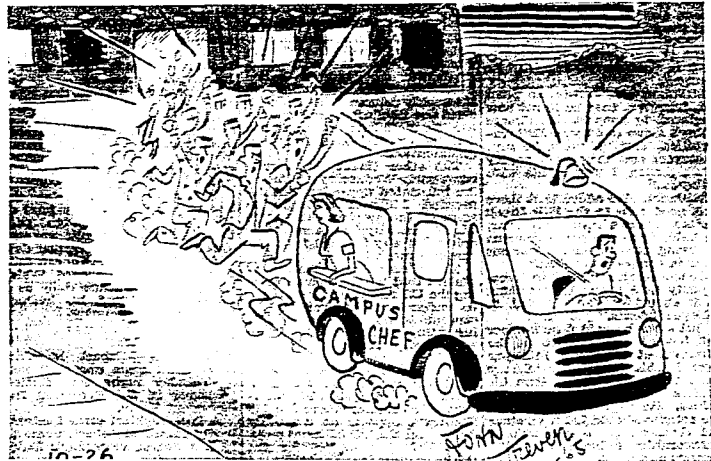

To the Editor:

We would like to congratulate Alan Millstein for finally bringing out the aims of the political parties on this campus. It appears to us that their sole intention is to present a slate of candidates they feel capable of winning, regardless of the ethical means.

The goal of any political party should be to place in office candidates who are qualified for the position, regardless of race, creed, color or sex. However, it seems that the US party, headed by Ellis Gaskell, is out solely to continue as a dominant force in student politics. By their actions Sunday evening they condoned violence and corruption in student politics at SU.

We honestly feel that our course of action, in leaving the two established political parties and forming our own organization, was justified. It is extremely regrettable that when freshmen enter any university they are idealists, but by the time they graduate they are realists. If the actions of the parties in this case are realistic, then something or somebody better come to our aid.

Michael Lieberman
Robert Stern

—AT THE FLICKERS—

# Hurst Soap Opera Opens at Paramount

"Back Street," an adaptation of Fannie Hurst's novel of the same name, opened Tuesday at the Paramount. It should prove a real treat for old maids and others of the lavender-scented hanky act.

Susan Hayward, an old hand at tear jerking, turns in a performance popping in melodrama as the "other woman." John Gavin, a Madison Avenue type, gives her little acting support as the unfaithful husband. Vera Miles gives most of the cat with her role as the alcoholic wife.

For those of you interested in high-fashion, this picture is dressed to the teeth with gowns from Paris, Rome and New York.

Scenery a Relief

The scenery also provides a relief from the dialogue which is laced with gush.

The story is burdened with far too many "coincidences." A love affair that extends over 16 years held together by chance meetings, is too much of a stretch of the imagination.

This is definitely a commercial film designed to fill the pockets of producer Ross.

Hunter Here, as in the past, Hunter has shown a tendency towards realism in favor of audience appeal.

"Back Street" is making its third appearance as a movie. If you missed the first two versions, now is your chance to make a clean sweep.

# Russian Movie 'Don Quixote' Opens at Riviera

"Don Quixote" is a very difficult novel to make into a film. Many producers have considered making it, including Allice Todd. A few have actually filmed Cervantes' novel, most unsuccessfully.

The Russian "Don Quixote" which opened at the Riviera-Cinema last night, is probably the best of the lot. As directed by G. Kozintsev, the tale of the Spanish lawbreaker deluded by the medieval legends and manuscripts into becoming a seriocomic knight errant, is done with style and taste.

As posed against some beautiful, if not arid scenery, many of the scenes have a power and magnitude. Quixote's final bout with the windmills, instead of pathetic and futile, symbolizes the old man's desire for justice and his inevitable failure.

Nikolai Cherkassov's tall, lanky, gothic figure is striking. Yur Tolubeyev, though sometimes grotesque, as Sancho Panza, has a humor and warmth as Quixote's servant.

"Don Quixote," part of our Cultural Exchange Program, is dubbed. But the dubbing is strangely well done. The voices fit the faces, and sound quite believable. The synchronization is quite good. And face it: for 17th century Spain, which is more congruous, Russian or an almost cockney English.

# Harrier Francello Ready For Top Duel Of Season

By MEL HONG  
 Lost in the shadow of big-time college football is Joe Francello, nearly unheard of at his school, Syracuse University, but acclaimed by many as the best cross-country runner produced in the east in this decade.  
 Francello started out his track career, strangely enough, as a football player. He was on his high school football team, and to build up his legs Joe decided to go out for the track team.  
 In 1957 Francello became the New Jersey State Champion in the mile while representing his home town of North Arlington. His best time was 1:22 for the mile in high school.  
 Now in his senior year, Francello can be found in the seclusion of Slocum Heights where he lives with his wife, Lois, and two sons - Joe Jr., two years old, and Steven, six months.

JOE FRANCELLO

**Busy Schedule**  
 Being taken out of circulation by Lois in his freshman year, Joe has found little free time since for anything but taking care of his family, cross-country track and his studies.  
 The 155-pound, 5 ft. 10 1/2 inch North Arlington flash will be running in what promises to be the greatest race of his career this Friday when he will be pitted against Steve Machooka of Cornell.  
 These two men have made equally notable achievements in

the last two years. Machooka, an exchange student from Kenya, was last year's Eastern Freshman mile champion. As a freshman Machooka went undefeated in dual meets, and so far this year as a sophomore he is also undefeated.  
 Francello likewise has an impressive record. He is currently sporting a sliver of eight straight dual meet first places. A college enters six or seven men in each dual meet, or 13 or more participants in each race. It is a considerable feat for anyone to win eight straight dual meets.  
 Francello has accomplished

the improbable through hard and conscientious work, work that will reach a climax this Friday afternoon at 4 p.m.

So far this year the Arlington flash has broken two track records and has come within five seconds of breaking a third in the three meets in which he has participated.

At Buffalo Francello broke the old record set by Larry Sweet by 43 seconds. Last year Sweet was third in the IC4A, which is the highlight of the track season.

After Friday's meet Francello, a 21-year-old sociology major will be aiming for the IC4A meet which takes place in December in New York. Last season Joe claimed only a 14th place finish in the IC4A race, and he hopes to improve his standing considerably this time around.

# Davis Drops In NCAA Scoring, Rushing Races

By DAN GARR

Despite a frustrating afternoon at Penn State, Jill Hallback Ernie Davis has retained his positions among the leaders in two individual offense departments, according to this week's NCAA statistics.

The Elmira Express found the Nittany Lion line a tough nut to crack, and as a result, slipped from eighth to twelfth in rushing; his efforts for that day amounted to only 36 yards.

Davis, missing a touchdown by inches, also dropped a notch from fourth to fifth in scoring; he has the added incentive of accumulating only 18 more points to break Jim Brown's school record for total scoring.

Pete Pavia of West Texas state has lengthened an already commanding lead in these two departments. No other Orangemen ranks among individual leaders on offense, but stars from five Piety foes remain in the national spotlight.

Boston College's George Van Cott ranks tenth in total offense and fifteenth in forward passing. Terry Baker of Oregon State is four slots below Van Cott in the first category.

Holding down the eighth spot in rushing vacated by Ernie Davis is Bill "Thunder" Thon-

ton, Nebraska's fine halfback. Another Cornhusker, Dennis Claridge, has been booming out punts at an average of 41.4 yards per kick, good for fifth place. Al Snyder of Holy Cross ranks seventh in pass receiving on the strength of 17 aerial receptions. And West Virginia's outstanding sophomore, Fred Colvard, holds

down first place in punt returns. Explosive Oregon State is seventh in team total offense. In forward passing, Saturday foe Holy Cross places fifth, with Maryland in the ninth position. Notre Dame's Fighting Irish are second in rushing, with Oregon State two notches behind in fourth place.

how far is  
"way out"?

Like about 239,000 miles if you're part of the scientific team at Ford Motor Company's Aeronutronic Division in Newport Beach, California.

A leader in missile development, Aeronutronic was assigned to build the U.S.'s first moon capsule for the NASA Ranger lunar exploration program. This 300-pound instrumented package will be launched by a larger spacecraft for impact on the moon's surface where it will transmit computer data to earth. Meanwhile, back on this planet, men and ideas are in constant motion at Aeronutronic, planning scientific breakthroughs which will effectively transform new concepts into practical products for industry and defense.

Aeronutronic has been awarded prime contracts for the Air Force "Blue Scout", rocket-space program; the development of DECOYS in the Air Force ICBM program; SHILLELAGH surface-to-surface guided missile sites for the Army.

Ford Motor Company recognizes the vital relationship of science to national security. Through our Aeronutronic Division supplemented by our scientific research and engineering facilities at Dearborn, Michigan, we actively support long-range basic research, as an indispensable source of today's security and tomorrow's products. This is another example of Ford's leadership through scientific research and engineering.

# IFC Fights Back

(Continued from Page 1)  
 representation of four brothers from each house going to the dormitories to sell the Greek system to the freshmen. The details of the plan were left to the rushing council, recently made a subsidiary of IFC.

However, the council revised Miller's amendment and set up a workable plan for freshmen rush. It was resolved last from Nov. 5 to 28, IFC would sponsor an all-fraternity rush session, other details to be set up by the rushing council, using the theme of encouraging freshmen rushing throughout the campus.

**Extends Power**  
 Extending the new power given to the Greeks in control of their offenses, MacMurray announced that the Security Police will now bring to the attention of fraternity presidents all misdemeanors dealing with university property. The action for these offenses will be left to the houses, although the duties of men's office will be informed, said MacMurray.

To elevate the fraternity system in the eyes of the public, Dick Miller called for the representatives of IFC to choose a public

relations chairman and the support of individual houses for this plan.

## 'Africa' Topic Of ISO, ASA Open House

An "African Evening" will be the theme of the open house sponsored by the African Students Association and the International Students Organization, 7:30 p.m. October 27 in Shaw Dormitory.

Key speakers for the evening will be Dr. Edward Mundlane and Dr. Fred Burke. Dr. Mundlane, who was formerly an official for the United Nations, comes from Mozambique, Portuguese East Africa. His topic will be "Africa and the United Nations." Dr. Burke, an associate professor in political science at SU, will speak on "Africa and the United States."

Kamau Mwangi, president of the African Students Association, announced that an open floor discussion will follow the speeches. Refreshments will be served and everyone is invited, he said.

## Junior Class Set to Improve School Conditions

(Continued from Page 1)  
 courage informal discussions with overseas students and sponsor USAC representation of the committee determining the cultural calendar.

The resolution that one student each from the three branches of JSC legislation will probably be accepted by the committee, according to Dean Earle C. Clifford. This action will give the student body greater control over legislation passed by JSL.

The Joint Student Judicial Review Board has already been formed and has passed on three cases.

Resolutions against reaffiliation with "Who's Who in American Colleges and Universities" and for the investigation into the reaffiliation with the National Students Association were referred to the Local and National Affairs Committee of JSL.

It was suggested that an opinion poll be taken of the students to determine their preferences in the composition of the proposed student union. This poll might be taken through the Daily Orange to insure a diversity of opinion, it was suggested.

## Candidate Denies 'Leftist' Charges Against Newman

(Continued from Page 1)  
 source of irritation to every community and is as old as civilization.

**Not Crime Hidden**  
 "Fercy Harris does not make a Syracusean a better community," Walsh emphatically said. A concerted drive by every means of law enforcement and public vigilance is the only way to stamp out crime, he added.

Definite achievements have been made in education in Syracuse under Republican leadership, Walsh said. He pointed with pride to the \$19.5 million school building program instituted at Republican prompting.

"We have the best education for our children in this city as compared with cities of comparable size," Walsh said when questioned why the \$17 million school budget had been cut by 900,000 dollars for 1962.

Deploping the name calling and petty bickering associated with the majority campaigns, Walsh insisted that the Republican program for Syracuse has been one of record accomplishment.

Walsh defended the county charter and was hopeful that it would improve county management. "I am still in favor of a county wide sales tax," he said, but I think serious study of the means of using the revenue collected should be made.

Denying that the Republican party was entrenched and lethargic in Syracuse, Walsh said that under the new leadership State Sen. John Hughes, the party will act to help restore the vision of Syracuse as the greatest city in the Northeast.

## Prof to Address Cornell Meeting

Professor Robert M. Anderson will speak at the Fifth Annual Conference of the Organization of Cornell Planners, Friday, October 27 and Saturday, October 28, at Statler Hall at Cornell University.

The theme of the conference will be planning for urban aesthetics. Professor Anderson will speak on "Government Regulations of Land for Aesthetic Purposes."

Professor Anderson is an instructor of law in White Hall. For four years, he has been the faculty adviser for the Syracuse University "Law Review."

## NO PARKING AT ONE LOT ON GAME DAYS

Robert Flaherty, director of Security Police, announced yesterday that the St. Mary's parking lot on Van Buren street is not on days of home noon on days of home football games.

This parking lot is currently being used by medical, commuting and law students. After noon on days of the remaining football games, October 28, November 4, and November 11, the lot will be used for public parking. A \$50 fee will be charged for any car in the parking lot after 12 on these days.

## Goon Show Set For Parents

The Goon Show will play a repeat performance for parents 9 p.m., Friday night at Crouse Auditorium.

Playing the same parts that they created at the beginning of the year, Lloyd Daskin will portray the knowledgeable Senior; Sue Leibowitz, the baffled Fresh; and Ann Quinly the Fairy Goon-mother. There will also be a chorus of 34 students.

Norman Berkowitz will play the piano again for the show.

## Good Turnout

(Continued from Page 3) their parents to the pep rally at 10:45 a.m. on the quad in front of Hendrieks Chapel. The rally will be sponsored by the Goons and students.

After the football game, there will be open houses at most living centers on campus. As of Wednesday there were 103 open houses registered.

### Old Act Bars Discrimination

By SUE WEINBERG

With all of the recent controversy over fraternities, sororities, and their discriminatory clauses, the legislation already passed dealing with this problem seems to have been overlooked.

A Compromise Discriminatory Clauses Act, passed in 1952 and revised in 1955, concerns itself with the problem

of racial and religious discrimination in all student organizations. Moreover, it proposes a solution, which if energetically enforced could do much to further integrate SU life.

Its basic provisions are: no organization at SU shall have any discriminatory clauses either in its local or national charter, constitution, or by-laws; a Board shall be formed to consider actions already taken in removing clauses, to decide whether these actions are sufficient, to encourage further action, and to report annually to JSG, IFC, and Panhol.

Section 5 of this act deals specifically with an organization which is affiliated with a national organization that has a discriminatory clause. The local group "... is urged to make a satisfactory effort either to achieve home rule on the matter of discrimination or to eliminate the national discriminatory clause."

"Satisfactory effort" is subject to the Board's definition. Activities illustrating this effort are: "contacting fellow chapters to support either of the actions prescribed above, introducing a motion for either of these actions on the floor of the national convention, and voting for all motions hastening the adoption of either of these actions."

Representatives to this Board consist of the Presidents of IFC, Panhol, JSG; the Deans of

### Adman to Speak To Radio Dept.

Aaron Brekwith, vice president of Batten, Barton, Durstine and Osborn will address the students of the Department of Radio and TV at 11 a.m. today in the Main Library.

Brekwith was formerly affiliated with WSYR and WIEN radio stations in Syracuse before his present position. In 1956 he received an award from SU for his contributions to television and communications.

His talk is given in conjunction with Parents' Weekend at SU.

### PARENTS MUST OBEY PARKING

Lt. Charles Dawson, head of the traffic bureau of the Syracuse Police Department, has requested that students remember their parents of city alternate side parking ordinances.

Lt. Dawson warned that parking violators may have their cars towed away at the owner's expense as well as pay parking fines.

Parents may park their cars in the Colonnade area.

Women and Men; a faculty representative from honorary societies; and a faculty member elected unanimously by the rest of the board. The Dean of Men is chairman.

This board met each year for nine years. Last year, however, the board did not convene at all.

During the years it did operate, it succeeded in eliminating discriminatory clauses in many organizations.

### Objections To NSA Membership Listed

By JIM WELLESZ

The question of the re-affiliation of Syracuse University with the United States National Student Association has been raised on the campus by Tim Zagat, Program Vice-President of NSA. The Joint Student Legislation Committee on Local and National Affairs has considered the question and has made a report public on the committee's attitude toward the proposed re-affiliation.

The report centers around the unofficial objections the administration has toward the re-affiliation.

The administration's unofficial objections are as follows:

1. USNSA is extremely liberal, to the point of being subversive.
2. The cost of joining is prohibitively high.
3. USNSA has the potential to interfere with the administration's policy on a member campus. The committee, in refuting the administration's objections, has learned that the label subversive was applied to the NSA because of its position on the issue of the House Un-American Activities Committee. In its summer Congress, the NSA adopted the resolution asking for the abolition of the House Comm.

Concerning the administrations stand on the cost of NSA membership being prohibitive, the JSL committee realizes that the cost is high and to offset this, they are looking into the possibility of raising money from an outside source to send the SU delegates to the NSA national convention. This will make it necessary for the student government to contribute only \$130 for the membership out of its \$1800 budget.

As for the NSA's ability to interfere with administrative decisions on member campuses, Tim Zagat said that it can only advise members upon request of their student government. It does not have the power to force any school administration to obey its

### TODAY'S SCHEDULE

ALL WEEKEND

7:50 a.m. to 11 p.m.—Display of recent acquisitions from Southeastern Asia, Foyer, Main Library.

9 a.m. to 5 p.m., 7 to 10 p.m.—Foyer Art Exhibit, Lowe Art Center.

10 a.m. to 12 noon, 2 to 4 p.m.—Lona R. Arents Rare Book Room, Main Library.

TODAY  
10 a.m. to 4 p.m.—School for Parents.

5 p.m.—Lutheran Holy Communion, North Wing, Hendricks Chapel.

5 to 6:15 p.m.—Dinner in University Dining Halls, also served in the Club and Commons, Stoum Hall.

8 p.m.—Jewish Services, Hendricks Chapel.

8:50 p.m.—"Richard III", Players, Inc., Regent Theater. Tickets, \$1.50-\$5.00.

9 p.m.—"Big Chum-Little Chum Show," Crouse Auditorium.

decisions, it can merely ask the administration to comply.

The JSL National and Local Affairs committee wishes that the administration would release an official statement concerning their specific objections. The committee feels that there is a definite interest and need for re-affiliation on this campus, but until the time the administration releases a statement, positive action cannot be taken.

### African Evening Program Tonight

Dr. Edwardo Mundlane is slated to be the speaker at the African Evening program sponsored by the African Students Association at 7:30 p.m. today in Shaw Dormitory.

Dr. Mundlane is a professor of anthropology in the Maxwell School and was formerly with the United Nations in an advisory capacity. He is from Mozambique.

Also speaking is Dr. Fred G. Burke, professor of political science. The session is open to the public.

### SU Debate Team To Open Season

The S.U. varsity debate team opens its season tomorrow at Saint Andrew's Seminary in Rochester. The program consists of three rounds on the national topic—Resolved: That labor organizations should be under the jurisdiction of anti-trust legislation.

William Sittig and Paul DeSantis will represent the affirmative for Syracuse, while Chris Lucas and David Binsse represent the negative side.

Many top colleges and universities in New York State will be participating in this tournament. A trophy will be awarded to the top team, and plaques to the best negative and affirmative speakers.

### Football Game, School Included

By BARBARA CORNBALTT

A "School for Parents" and the Syracuse v Holy Cross football game will be the highlights of this year's eighth annual Parents' Weekend.

An estimated 6,000 parents are expected to attend the three-day weekend, which is traditionally the biggest attraction of the year.

The festivities will begin with the "School for Parents" program. This is the third year that the university will attempt to introduce parents to the academic program by making available lectures. Over 1,000 parents have indicated their intentions of participating in this year's expanded one-day program. All parents of freshmen and transfer students are invited to attend.

The program will begin today at 10 a.m. in Hendricks Chapel.

Following the opening address, there will be a panel discussion with Vice-President of Academic Affairs Frank P. Pliskor presiding. The panel will discuss the university and its distinguishing characteristics, and will explain how parents can best participate in the academic community. The discussion will terminate with a question and answer period.

At 12:15 p.m. the university dining halls will begin serving lunch to students and their parents. Food service plans to have 4,000 extra meals at each serving.

Eric H. Faigle, Dean of the College of Liberal Arts, will preside over a personnel panel discussion which will constitute Friday's afternoon program. The discussion will deal with the more personal problems of the student's academic life.

"School for Parents" will close with a reception at 4:15 in the Colonial Room of Hendricks Chapel.

There will be a pep rally from 7:30 to 8:30 tonight in the university football game which will begin at 1:30. The rally, which will feature Coach Ben Schwartzwalder, the Syracuse University Band, and Audrey Duggan to produce their slide. They are Dave Bailey, President; Karen Noble, Vice President; Penny Shapiro, Secretary; and Storm Jorgensen, Treasurer. The elections will be held on Wednesday.

### US 'Twister' Starts Campaign

"Twisting Time is Here Again" as U.S. kicked off its campaign by sponsoring a "twister" in Watson Loungs to produce their slide. They are Dave Bailey, President; Karen Noble, Vice President; Penny Shapiro, Secretary; and Storm Jorgensen, Treasurer. The elections will be held on Wednesday.

Three of R. I. P.'s nominees were also there; Doug Millbury, candidate for President; Alan Anderson, candidate for Vice President; and Nancy Walker, candidate for Secretary.

The music was supplied by Felix and the Escorts and there were about 175 people there. Dancing was held on the upper level of the lounge.

The purpose of the mixer was to give the member of the Freshman class a chance to meet the U.S. candidates on an informal basis.

Main Library. In conjunction with Parents Weekend, Jewish Services Friday Evening will begin at 8 p.m. in Hendricks Chapel. There will be an Oneg Shabbat and a reception following services.

Tonight's program offers the parents a choice of two shows. Players Inc. will put on a production of "Richard III" at 8:30 in the Regent Theatre. The other choice will be the traditional "Big Chum-Little Chum Show" in Crouse Auditorium at 9 p.m.

Breakfast in the university dining halls followed by convocation for parents will open Saturday's program. The convocation will begin at 9:30 a.m. in Hendricks Chapel. Chancellor William P. Tolley will deliver the main address.

As the parents leave the chapel, they will witness a special pep rally on the quad, preceding the football game. The senior class will sell the traditional flowers worn by mothers to football games. The band and cheerleaders will also be present.

After the football game there will be coffee and open house at all the university living centers from 1:30-6 p.m.

Saturday evening there will be three alternative programs offered to the parents. At 8 p.m. the Syracuse and the Modern Dance Group will present an aqua show and modern dance interpretation. At 8:30 there will be a student and faculty panel discussion in Maxwell Auditorium. At 8:30, "Midsummer's Night Dream," will be put on by the Players Inc., at the Regent Theatre.

Protestant, Episcopal, and Roman Catholic services are scheduled for Sunday morning. The weekend will conclude with a violin recital by Louis Krasner in Crouse Auditorium at 4 p.m.

Throughout the entire weekend, Lowe Art Center will display the annual Faculty Art Exhibit. The Main Library will open the Lona R. Arents Rare Book Room and will also accept questions from Southeastern Asia in the foyer.

### FOOTBALL TIX DEADLINE SET

Students who have not received their football ticket booklets should pick them up in Trophy Room, Men's Gymnasium, Saturday from 9:00 a.m. to 11:00 a.m. I.D. cards and other credentials will be required. This will be the season's final issue.

### DO TO PRINT SAT. ISSUE

The Daily Orange will publish a special edition this Saturday, October 28, for Parents' Weekend. This special issue will take the place of the usual Monday morning edition.

Editor-in-Chief Sam B. Girgus  
Business Manager Andrew Levitt

Fathers and Sons

This probably will be a hectic weekend for parents, students, faculty and administrators. Over 6,000 people will be visiting the Syracuse campus with a very definite idea of seeing how their kids are being treated and what life at Syracuse is like. Unfortunately, most parents will not really be seeing Syracuse University at all but only Parents' Weekend. The Parents' Weekend program and schedule improves each year, but the grasping and understanding of daily campus life is an impossibility for just a weekend.

Of equal significance is the fact that much of what parents will learn from this weekend depends on the ideas and illusions they bring with them. If students are often guilty of being hazy and unsure of what they expect from a college education, parents are often more confused themselves. Student apathy is many times a result of parental apathy about education. For some parents the entire educational experience seems to be neatly wrapped up in a college diploma that represents an investment of thousands of dollars. With this attitude a college education is reduced to the level of a new automobile or a fashionable suit. Everything in between the first day of classes and the day of graduation seems inconsequential. Parents who imbue their children with this feeling will probably find that a university cannot really be equated with a kind of young adult summer camp and that supporting their child during the semesters in which he was forced to drop out of school eventually is more expensive than the cost of making a student out of him.

SWEETNESS AND LIGHT

Some Campus Liberals

By KENT L. BARWICK

Prof. Kenneth Dailey, in a recent lecture, pointed out to me a condition that never occurred to me before; a condition which seems to apply more and more the more I think of it. This is that liberals are among the most dogmatic forces in a society.

The local examples I offer are these:

The Syracuse Daily Orange: After having been connected with the paper in one way or another for four years, I am ashamed to admit that its present news and editorial policy is biased — biased not in favor of any group, but biased towards big, sensational stories with very often more ink in the headline than truth or real perspective in the story.

The DO is headed by a bright young liberal brains called Samuel Bruce Girgus. In his liberal fervor, Sam finds it quite consistent to:

1. take an anti-fraternity stand on fringe integration while belonging to a fraternity which is nationally notorious for its discrimination.

2. criticize the United Students Party when he himself belongs to a member house, and  
3. defend Alan Milstein (who is incidentally remembered for his blunt statements on Ayn Rand, and who also belongs to the US party) on his right of free expression, as Alan Milstein knows that free expression is not the issue with Milstein—the issue is free, undocummented, irresponsible quoting.

Mr. Messer, Girgus, and Milstein, everyone is aware of the popularity of deriding certain institutions, everyone expects the DO in its liberal bark against the forces of darkness to take up the cause, and everyone defends the right of the DO to print the truth as the DO sees it. Furthermore, we expect the DO to print anything that is possible to print (no matter how far out the kid is), or anyone else sees it, but it is best to remember that

with the great power of the printed word goes great responsibility, and that to misuse it is a crime, and that to continually misinterpret plain truths in favor of more exciting suppositions is not legally, but morally criminal.

The Freshman Freedom Fighters (FFF or something): So much tommyrot has recently appeared lauding this group as the saviors of virtue for our time that will devote a few lines to my opinion of this group.

Robert Stern and Michael Lieberman make Ellis Gaskell and Dave Chase look sick. The tactics employed by all three groups are quite similar, only Stern et al. have the backing of the anti-politics in their particular brand of spotlight-shining.

The fresh, according to Stern, wanted to run their own election, free of upperclass control. But, Stern admitted in essence, the money and the advice of the parties could supply would be nice. So the rotten of parties and the virtuous frosh maidens made, an agreement to have the fresh come to the party, conventions, as non-paying delegates (the regular party members pay from seven to ten dollars) and have the parties supply the knowhow and money for the campaigns. Stern, Lieberman, Chase and Gaskell all thought this a fine settlement. Chase and Gaskell knew they were defeated—the frosh would be nominating their own candidates while spending the parties' money.

The conventions were planned, but sometime before they actually began Stern and Lieberman realized that the headlines they were making daily would soon be over and that the issue they had goaded the freshman class into agitating had been decided in their favor.

To regain and keep the spotlight, Stern and Lieberman told their followers about a secret ultimatum to be sprung on the

parties in the presence of the DO reporters covering the conventions. One girl admitted that she was told, before the ultimatum was delivered, to walk out in the middle of the meeting.

What was the ultimatum? It stated that only freshmen be allowed to vote at the party conventions. On the surface this is no more than just bad faith on Stern's part, not entirely out of character. Yet on a second look the ultimatum was entirely unnecessary and Stern and Lieberman knew it. What if upperclassmen did vote — they only had 26 votes in the US party as compared to twice that number of freshmen, and the same was true for CAP.

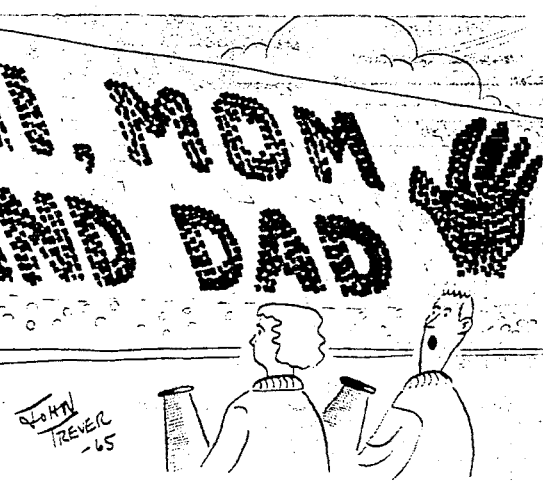

The tragedy here is not that Stern and Lieberman have bamboozled the freshman class, for people deserve the leaders they allow, or that Ellis Gaskell and Dave Chase and the Greek houses are being ridiculed—it won't hurt and will probably help them—but that eight nice freshman kids nominated by the parties are being used as a football to assure the election of four equally nice kids nominated by the freedom fighters, and all for the continual prominence of Stern and Lieberman.

It is a way past time for a hard, non-emotional, look at the facts.

"That's what you get for televising a game..."

-LETTERS-

'Greek Game' Discussed

To the Editor:  
I am writing in protest of Alan Milstein's column entitled "The Greek Game." I firmly believe that Mr. Milstein has the right to express his views concerning the political situation on campus, however, I

strongly object to his expressing these views at the expense of an innocent individual.

He clearly inferred that this individual was nominated not on her merit, but because of her religion. This misrepresentation of the facts is an example of poor journalism in that he did not present the complete story.

The candidate stood the best chance of being nominated even before the issue was brought up at the convention. This is evident by her election as president of her floor and by her outstanding high school record.

Gerr Porter, '65

it was concluded that religion did NOT matter and the candidate "named Shapiro" was the best suited for the job.

The fact that she was Jewish was a coincidence, and in the eyes of the delegates, freshmen included, it was irrelevant. Therefore Mr. Milstein has nothing to back his assinine statement which said Gaskell warned that "it would be committing political suicide should the convention have nominated candidates purely on the basis of merit." Gaskell never said or inferred any such thing.

Linda Messner, '64

To the Editor:

In his column "The Greek Game," which dealt with Greek-backed campus political parties, Alan Milstein seems to be very much against the way in which these parties are run. His article was totally negative, and he has in his "report" overemphasized the fact that religious frictions exist on the Syracuse campus. He has taken the results of a nominating convention and the discussions therein and turned them into what appears to be a clear-cut case of "Christian vs. Jew."

To those of you who know about campus politics, you know that the foremost goal of the parties is to nominate a capable, well-rounded slate—a slate that offers the best possible candidates to the voters. The second aim of the parties is to win. In order to combine these two goals, compromises have to be made, and compromise is the foundation of democracy.

Mr. Milstein states, "Nominating a non-Jew for the office of secretary of the freshman class was an impossibility after Gaskell's tone on religion..." This WAS NOT the case. Discussion of religion continued among the delegates and

To the Editor:

I am infuriated at the idea that anyone could have the gall to run a nominating convention as Ellis Gaskell ran the US convention. It is appalling to find out how things were accomplished at this convention and, even more disgusting, what the motives of the leaders were.

I was not a delegate to US, CAP or RFP, but I have been interested from the beginning in how things were developing in the political rat-race on the SU campus. If the column "The Greek Game" has any merit or truth in it, then I am sickened by the thought that something like this actually happened at my school.

What happened to the announcement after only a few days of class that Ellis Gaskell had resigned? I can remember a letter by Steve Berman in which he accused Gaskell of resigning as a publicity stunt. Obviously he never did have any intentions of leaving his post. Why doesn't someone force his resignation? How can the members of the US party, the Greeks, allow him to remain after what kind of a politician he is? I find it hard to believe that any university student could condone such activities that are taking place directly before him. I know that I cannot!

But, as disgusted and furious as I am to learn about the Ellis Gaskell on this campus, I am even more proud of the freshmen class of which I am a part. I won't even pretend to hope that the move we have taken will encourage some of the upperclassmen to do likewise. Rather, when the Greeks make their move to disband these political farces called parties, I will be surprised and amazed about the possibility in campus politics that lie ahead.

Linda Colten, '65

Policy On Letters

POLICY ON LETTERS: The letters column is maintained for the expression of opinion by readers. However, the Daily Orange reserves the right to edit letters for grammar and good taste or to reject letters. Letters should be written legibly, preferably typed, and no longer than 250 words. All letters must be signed with names and addresses; names will be withheld on request.

# Orange Harriers Meet Cornell As Francello Battles Machooka

Remember to Mention The Daily Orange When You Buy

**By MEL HONIG**  
Steve Machooka and his fellow runners of Cornell will invade Syracuse this afternoon, as they will face the Orange cross-country team at 4 p.m. at Drumlins.

This meet has been labeled as one of the outstanding dual meets of the year by coaches throughout the East. Highlighting the afternoon's activities will be the personal battle between a pair of unbeatn runners, Syracuse captain Joe Francello and Cornell sophomore Machooka.

This meet, however, is not one of individuals. Also participating in the event will be the best cross-country men that Syracuse has to offer. Mike Guzman, who has consistently finished behind Francello, will be in there as will be Mounsey Ferguson.

**Promising Sophs**  
Jack Dailey and Steve Killorin, two promising sophomores, along with Mike McGuire and Dick McHenry, will be trying to bring home the honors for Syracuse.

Coach Grieve's harriers will also be trying to avenge last week's defeat at the hands of the Army Cadets, as the West Pointers edged out the harriers 25-32.

The loss at West Point was the first one of the season encountered by the harriers, as they tamed the Red Raiders of Colgate 16-16 in the season's opener at Drumlins, and crushed the Bulls of the University of Buffalo at Buffalo.

**Francello Impressive**  
The outstanding record of Syracuse can be laid in part to the running of Francello, as well as to the rest of the team. In the three meets this year Francello

has finished first in all three, setting new track records in two of them.

Steve Machooka also has been impressive this season. Last year, his freshman year, he finished first in every meet that he participated in, and he has been holding true to form so far this year.

Last year's Eastern Freshman Mile Champion, Machooka, an ex-

change student from Kenya, will be trying to stop Francello's record of eight first places in dual meets. This record has been established over a two-year period, five last year and three so far this year.

No matter which way this afternoon's race goes, Grieve has expressed great admiration for Francello, and the effort that he

has put into trying to make this a successful cross-country season.

## Tangerines Face Army At West Point Today

Jim Shreve's Tangerine grid-ders look for their second straight victory of the year as they engage the Army plebes at West Point this afternoon.

Last Saturday, after their eleven-game winning streak, encompassing three years, had been broken by an 8-0 loss to Navy, the Hill yearlings rebounded smartly against Buffalo.

Sparked by the fine showings of Jim Nance (73-yard TD run), Ducky Duckett (40-yard TD run), and Billy Hunter (two touchdowns), the Tangerines battered the Elisons 39-6. Quarterback Dick King, who was at the helm

for the first five scores, also was impressive.

Shreve called extra attention to the work of the defensive line. "They hit together, and showed excellent aggressiveness and hustle. We overwhelmed them."

In today's contest, the Piety-men will be meeting a tough Army squad that won its first three outings before last week's 19-0 defeat to Colgate. The key to the game could be how well King has recovered from the muscle pull he suffered in the back of his right shoulder, for if he's well the offense is better able to move.

# Piety Set For Crusaders

By RON ROBERTS

With the return of Dave Sarette to the quarterbacking slot, and a week of hard work on pass defense, Coach Ben Schwartzwalder is hoping to rally his forces and hang a convincing decision on Holy Cross Saturday.

Sarette, who missed last week's Penn State tilt because of a shoulder injury, is expected to be ready and able for combat this week, and his passing ability may be called on early by Coach Schwartzwalder.

But the senior signal caller will have a rough afternoon watching the vaunted aerial attack of the visiting Crusaders if there are any lapses in the range defense.

**Crusader Passers**  
Starting quarterback Pat McCarthy and his equally talented replacement, Bill Joern, have thrown between 15 and 20 passes a game for a total aerial offense of 664 yards. Their average of 66 yards a game is fifth in the country, and the Orange secondary will have to be alert to keep them from improving it.

But aside from devising a way to stop McCarthy & Co., Schwartzwalder must try to reamp the Orange offense which earned up a bit sluggish in the Penn State encounter.

Ben has moved Gary Fallon

back into the starting fullback position, but figures that he may have to shuffle the 6-1, 210 pound senior in and out on defense, keeping him in the line-up.

**Archer Starting**  
The loss of outside tackles John Brown and Stan Sokol as a result of injuries has given sophomores

Dave Archer and Bob Hnat a shot at that position. Archer will probably hold the starting spot Saturday.

The visitors from Worcester are always "up" for the Piety contest, and their coach, Dr. Eddie Anderson says "We think this team is a little further along

than we were last year at this time."

Last year Syracuse squeaked out a 15-6 decision over a spirited Holy Cross team. But Schwartzwalder is hoping that a tight defense and revamped offense will discourage the upset-minded Crusaders Saturday.

Well, the long suffering, "long gone" heroes finally get some home cooking in Ol Archbold tomorrow. Holy Cross should behave itself and listen to the odds, especially when they'll be playing in front of the parents of the hosts. After all: Welcome Mom and Dad—so where's the money? All in all, even the weather looks promising, so you might say the books are due for a beating. (Brace yourself now, here comes the commercial).

And when you want to forget it all, really, head out James St. and stop just before you get lost at Eastwood Shopping plaza, turn left and head for the arrow pointing down.

Trip lightly down the one short flight of stairs and you're there at the GROTTO. At first you'll think you're in Val Pinchbeck's office because Ed Wycocki is an ardent fan, in any event you'll feel right at home. Player's pictures and pennants dot the walls as do our heroes.

**THE GROTTO** is quite a place to relax; its dark and downstairs, everything a grotto should be. Piano music in the background completes the atmosphere. Food wise, Delmonico steak, french fries, chef salad at \$1.95 is a fair sample of Ed's varied menu for collegians. Another, a little quicker, is his roast beef on kimmel roll at \$65 is more definite proof that Ed embraces the good will policy toward Hill students.

Besides all this, **THE GROTTO** is open every night till three. For parties, fraternity or otherwise, Ed can seat one hundred easily and even has smorgasbord. Like they say, "Make it your motto, meet at the GROTTO."

# Movies Concerts

# WEEKEND

By the Daily Orange Entertainment Staff

# Radio Television

### FIRST RUN THEATERS

**RIVERA-CINEMA**—The Russians have filmed a rather good version of "Don Quixote." The Cervantes tale of the would-be, if not somewhat anachronistic Spanish knight, is done with warmth, biting satire and a sense of tragedy. The color photography of what looks like Spanish scenery is exciting. The Russian passion for peasants that look like peasants is exhilarating. And the dubbing of this Russo-American exchange film probably improves what would have been wacky subtitles. Also playing, Jean Gabin in "The Possessors." Don at 6:50 and 10:16 p.m., Gabin at 8:20 p.m.

**PARAMOUNT** — Susan Hayward, that drunken, Auburn-haired little dope, found we learned to love in "I'll Cry Tomorrow" and "I Want to Live" is back! Put away your syringes and bottles; this time she struts around in ridiculously expensive clothes, leaning against outlandishly plush props, and steers John Gavin through some of the worst acting seen this side of "Stella Dallas." "Back Street" has left the plot in an alley somewhere; and hired Edith Head to disguise the fact. Vera Miles is in his slick too—big thrill. Save your money and look at the fashions in Doy's window downtown—it's cheaper. Susan struts at 7:53 and 9:55 p.m. No co-feature; the "girls" have to get home to put the supper on.

**LOEWS**—Carroll Baker, who slinked to fame in "Baby Doll" now slinks to fame in "Bride to the Sun." In a word, "Baby Doll" was better. This touching love story, of a sweet little home-town blonde who married a Japanese diplomat and made a mint for M-G-M. James "Hiroshima Mon Amour" Shigeta (dig the neat Time bit), is interesting to watch. No times available.

**EKO KEITH'S** — "One Plus One" is our next subject. (You greedy little devils — stop drooling and hold this page steady). The Kinsey Reports have supposedly been used as a basis for this film which means that this should be a "wild one," but damnation! It isn't. Arch Oboler (of radio's

"Suspense" and "CBS Radio Workshop" fame) has made all the nice old perversions "arty" on us. Very disappointing. No one can tell us that the Kinsey gang dealt exclusively in divorce and pregnancy—there were some good old fashioned smutty situations too. They're not in the film. A pity. Non-secid at 6:25 and 10 p.m., Friday; 7 and 10:50 p.m., Saturday.

**ECKEL**—There's this cute little Seattle see? (Maybe it's not a Seattle—it's a hairy beagel, who the hell knows?) And the technician people are

sneaking around painting the trees yellow-green and making the English countryside look like a Sir James Barrie nightmare. Take all of this, plus the usual brom from the Walt Disney stable, and a dear old man, dearly played by dear old Donald Crisp, and poof! Instant pudding! No, no such luck — it's only "Greyfriars Bobby," Disney's newest diabetic sugarcane, destined to make a zillion dollars and send half-swits humming out of the theater. And after all, isn't that what great theater is—people humming happily as they skip lightly out of "The Virgin Spring" or

something. Holden Cawfield would not have seen this movie—though it plays at 7:30 and 9:30 p.m.  
**SHOPPINGTOWN** — Spencer Tracy, that kindly old cleric on a desert island (not Pagan, thank God), has taken Frank Sinatra, a naughty old criminal and poof! Instant pudding! Now there's this volcano — erupting of course — have you ever seen an inactive volcano in a movie? Anyway, it spews all over—but there are these left-over kids from a road company of "Sound of Music" and they hover on the side of the volcano. It's all too sick. Well, the film ends in a

glorious blaze of novenas, lava, creaky bridges and minor miracles, and before you know it, the film's over and everyone's running for the last bus downtown. Save your transfers, the Shoppingtown will rise again. By the way, the flick is "The Devil at 4 O'Clock." Shown at 7:20 and 9:45 p.m.

A special rehearsal of the Marching Band has been scheduled for 9 a.m. tomorrow.

## Parents Attend School at SU

By JAN SCHMITT  
Junior Editor

An estimated 1,000 parents of Syracuse University students got a taste of what their sons and daughters go through every day when they attended the university's third annual School for Parents yesterday.

The morning session started at 10 a.m. with Dean Frank Piskor as the featured speaker. Student Week-end Chairmen Elizabeth Ellis and Stewart Gold welcomed parents.

The academic side of the university is organized to hasten adulthood, said Piskor. On the other hand, he added, social life should not be under-emphasized. The university is not organized to ignore the importance of human relations.

The six aims of the university are, according to Piskor: encourage intellectual interest; the love of books; adaptation to social environment; development of a sense of values and standards; a culture awareness; and a vocational life goal.

Prof. Michael Sawyer told the parents that their children should be taking advantage of the cultural opportunities offered here. The city has concerts and mu-

seums, and the great facilities of the university are also available, he said.

The afternoon session featured a panel discussion moderated by Dean Eric Faigle, who was introduced by Vice President John F. Olson. Members of the panel were Dean of Women Marjorie C. Smith; Dean of Men Earle Clifford; Dean of Personnel Administration, William S. Hafer; Dr. Francis Wingate, director of the university; and Director of Financial Aid, Jim Carleton.

Dean Faigle prefaced the question and answer session by telling parents not to worry about their children. "They are just growing up," he said. He said that the university tries to make "the best man or woman possible out of the students."

Dean Hafer spoke about the problems of adjusting to college routines. He said that freshmen run into difficulty in adjusting to the new freedoms. They are used to a single world where they must determine their own study hours and work habits, and their marks go down because they are used to high school work for which they did not "have to use their minds," he observed.

Treasurer Wingate mentioned the great demand for increased lab and class space by professors, but he added that this is the mark of a progressive faculty.

## SU Parents Find Campus Enjoyable

The parents of Syracuse University students were visibly impressed with the campus and the administration.

"I'd like to send my daughter home, and go to school here myself."

"I think it's terrific and you can quote me on that I'm from Penn State!"

"This is our first experience with Syracuse. We are impressed by the friendly atmosphere of the campus. It is not as big as I thought it was, via Lovejoy (College Guide)."

"It's lovely" or "it's beautiful," were comments that many made. Some adjectives used to describe the campus were "lively" and "active."

Alumni found the campus different from the time that they had gone here.

The campus has remained attractive, but has changed greatly. When we were here, Hendricks Chapel hadn't been built yet. The women's gym was in what is now the Journalism Building, as found Olympus was used for skiing."

Another alumnus found it a welcomed change to be on the "opposite side of the fence" during Parents' Weekend.

One parent coming out of Friday's convocation said, "Syracuse has a great deal to offer, but listening to members of the faculty, I get the impression that it's big business. The people who run this place are interested in making money."

Another dissenting voice amidst the praise, however, "I'm entirely different from the way that I pictured it. Every building is different. There certainly isn't any monotony on this campus."

Some parents felt that they were sending their children to the best possible school.

"We wouldn't have had our son go here if we didn't think it was a highly rated school."

The convocations that the parents have been attending Friday satisfied many parents.

"We were impressed with the set up of the colleges, departments and faculty. It is a terrific opportunity for a youngster, if they avail themselves. On the social side, it is good because of foreign students, and students from a cross-section of the country."

"The Administration seems to do everything they can to make us comfortable, and give us the opportunity to have services available."

The same questions will be asked every year. There will be the same mental qualms about sending a daughter away to college. Nevertheless, it still seems good that an opportunity to ask these questions is available."

Students may complain about the administration and the faculty, but it seems that the administration has won another ally in their corner of the ring: the parents.

## WEEKEND SCHEDULE

### SATURDAY

7 to 9 a.m.—Breakfast in University Dining Halls; also served in the Club and Commons. Parents are invited to join their sons and daughters for breakfast.

9:30 a.m.—Convocation for parents, Chancellor William P. Tolley to speak, Hendricks Chapel.

10:45 a.m.—Pep Rally, quadrangle in front of Hendricks Chapel.

11 a.m. to 1 p.m.—Luncheon in University Dining Halls, also served in the Club and Commons.

1:30 p.m.—Syracuse-Holy Cross Football Game, Archbold Stadium.

4:30 to 6 p.m.—Open houses in living centers.

4:30 to 5:30 p.m.—Photography Display, School of Journalism.

8 p.m.—Syrain Synchron-Swim and Modern Dance Program, Second Floor, Women's Building.

8:30 p.m.—"Today's Controversies," Student and Faculty Panel, Maxwell Auditorium.

8:30 p.m.—Fidulummer Night's Dream," Playlet, Inc., Regent Theater, Tickets, \$1.50 to \$3.00.

### SUNDAY

9:30 to 9:30 a.m.—Breakfast in University Dining Halls also served in the Club and Commons.

9 and 10:50 a.m. Protestant Services, Hendricks Chapel.

9:30 and 11 a.m.—Episcopal Holy Communion, Chapel House.

9:30 and 11 a.m.—Roman Catholic Masses, Crouse Auditorium.

4 p.m.—Violin Recital, Louis Krasser, Crouse Auditorium.

5 p.m.—Lutheran Holy Communion, North Wing, Hendricks Chapel.

## IFC Works to Foster Greek Cooperation

By ADAIR DUFFNE

While fraternities may differ in the details of organization and personnel, most have similar ideas and objectives. Problems which confront fraternities are much the same. To develop cooperation among fraternities on the Hill, and between the fraternities and the university administration, the Inter-Fraternity Council was created in 1916.

The IFC has since sought to eliminate the jealousies and excisions engendered by competition between fraternities, and to substitute a united program under which all the Greeks would work for the best interests of Syracuse University.

In the hope of instituting a firm policy on rushing rules, in 1937, the IFC was given a mandate by the Board of Trustees of the university to draw up a constitution under the auspices of the Alumni Inter-Fraternity Council. This council of alumni was given the power to run the IFC and was charged with regulating and instituting rushing procedures. Today, however, IFC is managed by the representatives of the individual Greek houses.

## Sarette, Davis Pace Pietymen

By KEN DARLING  
Sports Editor

Coach Ben Schwartzwalder puts his grid troops on review before an expected crowd of over 30,000 parents, students, and alumni at 1:30 p.m. today in Archbold Stadium. The Hillmen will be hosting an old nemesis, the Crusaders of Holy Cross.

After dropping a 14-0 decision to Penn State last week-end, the Orangemen are hoping to bounce back against the forces of Dr. Eddie Anderson.

It was Holy Cross that spoiled Syracuse's dreams of an unbeaten season in 1958, and that came within a touchdown of upsetting the heralded Orange last fall.

This season the Crusaders are riding the crest of a three-game winning streak, and have a record of 3-1. They will be pitting the nation's fifth leading passing attack against the 3-2 slate of the Pietymen.

Sarette Back

Schwartzwalder's gridders will probably do some throwing of their own today, since regular quarterback Dave Sarette is back in the lineup. Sarette, a shoulder in the Nebraska game, and was forced to sit out the Nittany Lion encounter.

Although Sarette's return is a big boost for the Hill squad, several of the key performers will be confined to the sidelines this afternoon. Still on the disabled list are halfback Dick Easterly, tackles John Brown, Stan Sokul, and John Paglio, fullback Bill Schenover, and quarterback Bob Lelli.

Despite the mishaps which have plagued the Orange forces this season, Schwartzwalder has been able to piece together an imposing squad to face Holy Cross at kickoff time. Here is the starting lineup:

(Continued on Page 7)

Left end, Walt Sweeney. Walt is a 6-3, 225-lb. junior from Co-hasset, Mass. A strong defender, he has gathered in four passes for 35 yards this year, and has scored two touchdowns.

Right end, John Mackey. John, an outstanding halfback last year, was converted to end this fall and is a 6-2, 210-lb. senior from 70 yards. He is a 6-2, 210-lb. native of Freeport, N.Y.

Outside tackle, Dave Archer. Dave, a 6-2 210-lb. Syracuse boy, was on the first four teams when the year started. But he has improved rapidly and injuries have mounted, so he has been given a chance at a starting assignment.

Inside tackle, Dick Fiedler. A steady performer at guard last year, he has moved to the tackle slot this season. The Erie, Pa. senior stands 6-1 and weighs 215 pounds.

Left guard, Dave McGeehey. Outstanding as a sophomore, Dave landed a starting berth on this fall's team. He is a 6-1, 210-lb. junior from Solon, Ohio.

Right guard, Dave Franco-vitch. A 6-1, 235-lb. senior from Little Ferry, N.J., he was a second team tackle last year.

Center, Bob Stern. The sparkling of the squad this fall, the 5-11, 210 lb. senior has been the outstanding lineman for the Orange all season. He hails from Phillipsburg, N.J.

Quarterback, Dave Sarette. In the first four games, Sarette. (Continued on Page 5)

## JSG Plagued By Problems In First Year

By JOYCE HERGENHAN  
Junior Editor

Joint Student Government at Syracuse University is less than one year old.

Formerly composed of two separate bodies, Men's Student Government and Women's Student Government, the governmental machinery was formally consolidated last November when students approved an all-campus referendum setting up one joint governing body.

JSG, as it is commonly called, is patterned after the federal government and has executive, legislative and judicial branches. Due to an unfortunate set of circumstances the executive branch is not operating as planned this year.

The student body party last

(Continued on Page 7)

Editor-in-Chief Sam B. Girgus
Business Manager Andrew Levitt

Choose Your Candidate

Any national or local political party feels it is forced to appeal to the ethnic, religious and social backgrounds of its constituents. Most times a Jew does not run for office in an Italian or Irish district.

But if this feeling is degrading to American democracy, it should seem no less spurious in a college political setup. If, as some think, this has often been the practice at Syracuse University it is particularly discouraging.

'The class of 1965,' gushed muckraker Alan Mattlein in that now infamous column, 'is the greatest student group to ever enter SU...'

'For the first time in at least three years,' spluttered DO editor Sam Girgus in one of his less inspired editorials, 'Syracuse University seems to have a class of students with guts.'

'What utter and complete nonsense,' Really. The class of 1965, bless their idealistic and rebellious souls has been here six (count them) weeks. Six weeks. Today they will see their second home football game. They've yet to take a mid-term, much less a final.

And yet, according to that same editorial, 'now we have the class for which the Hill has been waiting.'

'Who the Frack?' On what are these platitudes based? They can't be based on academic or athletic achievements, for its far too early in the game for any such judgments.

No, these mighty words of praise are based on something else. They are based on the fact that these marvellous frosh, in the interests of good, clean self-government, have broken away

from the corrupt, bigoted, upper-class Greek party, and parties and formed their own non-corrupt, non-bigoted freshman party. As Editor Girgus wrote: 'Observation of their activities would indicate that on an individual level, at least, and in many ways as a group, they have exhibited an intelligence an insight that is amazing for the amount of time they have had to get used to the political game that Hill campus politics has turned into.'

Amazing? But let's just examine this "amazing" intelligence quia insight for a moment.

This is the first year that Syracuse fraternities and sororities have not had their pledge classes. At least a good idea of who their pledges would be, before the frosh nominating conventions were held. For the first time probably in Syracuse history the frosh were truly independent at this political time.

As it "amazing" then, that they had no great desire to rush to the parties and declare "take us, we're yours." I think not. They did what any freshman would have done in like circumstances.

And, interestingly, the '65 Revolt' was not a clean or immediate one. Indeed, the frosh did everything they could, on their own terms of course, to

remain affiliated with the parties. And when the revolution finally occurred, these idealistic freshmen found themselves reneging a written and signed agreement with the parties produced at four days before. Ah, true idealism. But wait, there's more.

Upperclass Inspiration

The inspiration for the frosh revolt did not even come from within the freshman class. In fact, incredible as this may sound, not only was the revolt inspired by Greek upperclassmen, but it was inspired by officers of both campus political parties. Indeed, long before the amazing class of '65 even knew from such things, these same party officers were trying to devise a scheme for an independent frosh campaign and election.

The class of 1965 may well be the greatest student group to ever enter SU and it may very well be the class for which the Hill has been waiting. It's still far too early to tell and they certainly haven't proved it thus far. The frosh may not realize it, but like their beanie, it is a tradition at Syracuse University that every successful freshman class is automatically dubbed "the best ever."

The class of 1965 is off to a rather inauspicious start. It has a long way to go, and a great deal to learn, before it can start believing its press.

DO Reporter Defends Frosh Political Movement

By JOYCE HERGENHAN After three weeks of friendly namecalling and brotherly jesting, Daily Orange columnist Kent Barwick has finally come to the defense of fraternity brother Ellis Gaskell.

In the process, he has emptied his poison pen on the freshman political movement as personified in Robert Stern and Michael Lieberman.

As the reporter who covered the development of the Reformed Independent party, I feel a certain obligation to clarify the workings of the organization for Mr. Barwick and any other doubting upperclassmen who assume this party is run in the same cut-throat manner as the United Students and Campus Alliance parties.

Several fact points to the good faith in which Messrs. Stern, Lieberman, O'Brian, Moecker, etc. are operating.

First of all, there is the matter of the ultimatum delivered at the US and CAP conventions last Thursday night.

The reason for the ultimatum as explained by the freshmen was that they were "afraid of another snow job, similar to the one given to them from Gaskell and Chase before."

Mr. Barwick says the freshmen were not acting in good faith by delivering the ultimatum. Actually, the only reason the ultimatum was delivered was that the freshmen felt CAP and US were not acting in good faith.

To document this, two frosh, Mary Ruth Thier and Michael Moecker, told of under-the-table promises made to them by the two parties if they would work for the respective party organizations. The freshmen, perhaps idealistically, decided any organizations guilty of such conduct were not to be trusted.

Therefore, in order to safeguard their class's interests, they drew up an ultimatum requesting a larger voice in the freshmen elections.

Other factors point to the good motives of the freshman organization. Indicative of these is the statement RIP chairman Michael Lieberman made after

the party nominating convention Tuesday night when someone questioned the political soundness of running two candidates from the same living center.

"We came to pick the best qualified candidates, not to heed the campus political adage that advocates a certain distribution factor among the members of the slate," Lieberman stated.

"Certain distribution factors" meant, of course, the matter of religious and living center distribution, something the other parties are overly cautious about when choosing their slates.

And as for Mr. Barwick's contention that Lieberman and Stern are active in the organization only for personal glory, I say no. There have been at the RIP convention Tuesday night.

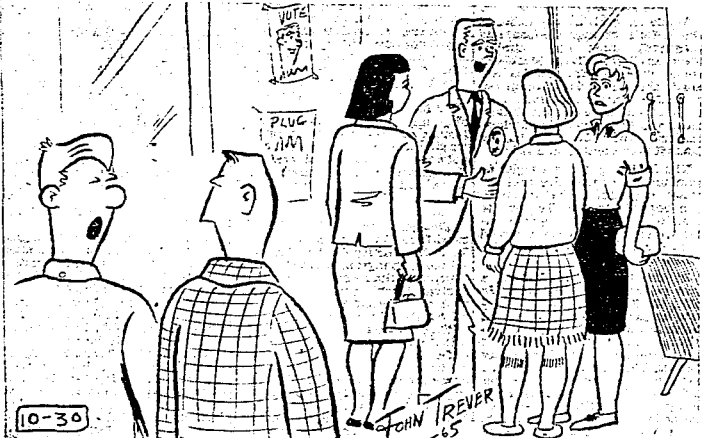

Robert Stern was present as one of approximately 130 voting delegates and acted only in this capacity. Lieberman, in his role as party chairman, conducted a rather calm and orderly nominating convention fully compliant with Robert's Rules of Order.

This is, of course, all personal opinion. However, after watching RIP through its ten-day existence, I feel safe in saying Lieberman, Stern, etc. are doing what they honestly feel is best for the freshman class.

This is not meant as an editorial in favor of the four students running on the RIP ticket. Neither has it been meant to cast any discredit on the eight freshmen campaigning on the CAP and US slates.

Not being personally acquainted with these 12 students, I have no reason to support any individual or group among them.

I have only tried to clear away some of the mud Mr. Barwick has cast upon two members of the freshman class and the ideas they represent.

'Campus politics is a lot like professional politics—you have to kiss as many babes as possible...'

# WAER's Program Policies Clarified

By JAN GRIFFIN

It is to my continuing amazement that no one from WAER has defended the station in the Daily Orange after last week's column. There was plenty of reaction within the prefabricated walls, but nobody chose to share that defense with the rest of the campus. Therefore, as public relations director for WAER, I am rising to the situation and presenting the argument for the status quo.

This is not to say that I have retreated from my stand of last week. I have not. But there are some very sensible reasons for the present policies at WAER, and they deserve notice.

1. The present audience for WAER is a town, not a campus audience. Primarily, these people listen for classical music. WAER is not a "top 50 classics" station, that is, one that programs the same well-known pieces over and over. The record library for the campus station is stocked with a number of interesting lesser-known works.

### Lecture Audience

The second largest listener group is the lecture audience. Any interference with the continued presentation of these two kinds of programs would be disastrous to the station's present followers.

2. At present, the campus does not listen to WAER, preferring the city's rock and roll stations on the whole. Therefore, not many of the students own FM radios. With so small a potential campus audience, further efforts to cater to their needs would fall on very deaf ears.

WAER under no circumstances would convert to a pop or rock and roll station, as it would be acting against its purposes as an educational station. There are already a couple of jazz programs, and some others in a fairly light vein, for instance "Midnight on the Town" late Sunday night. In order to offer more programs of this type, time would have to be taken from the classical music block, and this WAER is not of a mind to do, feeling it would be too great a risk to give up an already established audience to try to

build one that may never materialize.

3. In the matter of campus coverage, there is the Daily Orange. This paper, designed for students and other campus people alone, is a complete information service for them. WAER feels that under these circumstances, there is no need to duplicate most of the material.

## 'Bridge to Sun' Opens Downtown

One would expect that a film based on a Readers Digest special feature would be a pretty sugary affair; especially when it concerns a Tennessee blonde's experiences as wife of a Japanese diplomat during World War II. Strangely enough, "Bridge to the Sun," which opened at Loew's yesterday, has none of these maudlin Readers Digest characteristics.

Based on Gwon Terasaki's autobiography, "Bridge to the Sun" comes over pretty well. It is done with style and taste, resisting most of the temptations to become overdrawn and sentimental.

This admirable and rare quality for a "woman's film" is probably due to the directness of Mrs. Terasaki's approach. Her story of love and devotion (there still are such things, amazing!) to her Japanese husband, despite the problems of war and different backgrounds, is a moving and courageous one.

Charles Kaufman's screenplay and Etienne Perier's direction, if a bit sluggish at times, are direct and to the point. Mrs. Terasaki has included no subtlety in her autobiography; and rightly so, neither has the film. If "Hiroshima, Mon Amour" analysed the issues, "Bridge to the Sun" shows them in action.

Carroll Baker is surprisingly good as Gwon Terasaki. In a role that could easily be overdone, she acts with care and reserve. James Shigeta, of Hiroshima, Mon Amour, plays the Japanese diplomat wanting peace between the U.S. and Japan. He plays his role with ease.

## Work by Williams Given at Lively Arts Coffee House

A successful presentation of one of Tennessee Williams's first plays, "Hello From Bertha," was seen Wednesday night at the Lively Arts. With near professional skill, the actors made the brief, three-character sketch move with vibrant theatricality.

Dealing with a withered prostitute in the throes of a serious, unspecified illness, the play slowly reveals her state of mind as she copes with the inevitable end to her "career," and possibly her life. The resemblance between the destitute Bertha in this play and the destitute Blanche DuBois of "A Streetcar Named Desire," is striking. Certainly one can detect the now-classical "Streetcar" in its early stages of conception in this entertaining little piece.

Though less sensitive than "Streetcar," the character study, "Hello From Bertha," catches the viewer's attention from the start. Where "Bertha" fails to give us the darily beautiful moments we have come to expect from all of Williams's later plays, there still remains here a singing vitality.

The director, Chicky Lipton, did a fine job of staging the play to fit the scarce performing area of the Lively Arts. Also one notes the well-timed ebb and flow of emotion as the characters reveal their situation. Good timing is usually an indication of good direction.

# Cornell Topples Piety Harriers

By MEL HONIG

Steve Machooka led the Big Red of Cornell to a 25-31 victory over the Syracuse University Harriers at Drumlins Friday afternoon.

The cross-country race, ran in clear, but chilly weather, saw the first three finishers break the old course record of 26:43 set by Joe Francello earlier in the year.

Machooka, who came in first, completed the 5-mile course in 23:54. Francello came in second, 23 seconds behind Machooka, with Westendorph of Cornell third with a time of 26:37.

Syracuse placed the next two runners in order with Ferguson finishing 4th, 27:00, and Mike Guzman coming in fifth, 27:10. Jack Dailey who came in 8th, was the only other member of the Harrier squad that same in the top ten positions.

### Machooka, Francello

Machooka took the lead at the outset of the race and never relinquished it. Francello fell in the second spot, staying behind the fleet-footed Machooka, but he was never able to head the sophomore exchange student from Kenya, Africa at any time.

Westendorph and Ferguson fought for third and fourth places during the first part of the race, but at the halfway point Westendorph took over third place and held it the rest of the way.

Baynard of Cornell held down fifth position during most of the meet, but Mike Guzman of Syracuse passed him at the three quarter mark to take fifth position with Baynard coming in sixth.

### Meet to Watch

Coach Bob Grieve predicted that this was the meet to watch. He stated that both Francello and Machooka were fine runners, and that they would prove their worth in Friday's meet. Grieve's prediction was true. Young Steve Machooka ended Francello's string of eight straight victories, and at the same time topped his own streak.

Machooka has yet to be defeated in dual meet competition. Last year as a freshman Steve was Eastern Freshman mile champion and so far this year he has not only won every dual meet that he has participated in, but he has also set new track records in most of them.

With Francello breaking his old record on the Drumlin greens, he has failed to break a track record in all but one meet. In the meet at West Point team captain Francello came within five seconds of the old track record.

In the meet preceding the var-

sity event, the freshman team was edged out by the Big Red (fresh 27-28. Tom Higgins finished first for Syracuse, and in doing so bettered Cal Evans' old track record of 14:19 by 28 seconds.

Carey of Cornell finished second, completing the three mile course in 13:56, with Evans of Syracuse following behind him.

The Syracuse University cross-country team will journey to New York City next week when they will meet Fordham University for the final dual meet of the season.

The Harriers will return to New York on Nov. 24 when they will participate in the IC4A. The week following the IC4A meet they will take part in the NCAA meet.

## Syrain, Modern Dance Groups Perform Tonight

Centered around the theme "Autumn Whirlpool," Syracuse's synchronized swim group, the Syrains, will open their fall season of activities with a special show today. The program will be held in the swimming pool of the Women's Building at 8 p.m.

Highlights for the evening will include "Orange on Parade," clown diving, and as a grand finale, a candlelight number.

Also, the Modern Dance Production group will interpret campus life in "Syr-Suite," one of the performances in their theme "Theater of Imagination." Both men and women will participate. This show will follow the Syrarin program, and will be held in the Dance Studio.

Admission is free but a ticket is required. They can be obtained at 202 Women's Building.

# Holy Cross Risks Three-Game Skein

By DAVE DEAN  
Associate Editor

The Crusaders of Holy Cross, riding high on a three-game winning streak, invade Archbold Stadium today with one of the stronger passing offenses seen by local fans in the past several seasons.

The Holy Cross team, in completing 40 of 81 passes for 664 yards this season, have not a single passer, but a triumvirate. Junior Pat McCarthy, who led the team's pass offense last season, has the first team spot.

Following McCarthy are senior quarterback Bill Joern and sophomore Jack Wheaton, considered the most accurate of the trio. It was Joern who completed seven of 14 for 63 yards, scoring the lone touchdown, in last year's near upset over the Orangemen. He also topped all Crusader rushers in the 15-6 loss.

Halfback Al Snyder is the favorite receiver for the Holy Cross tossers, snaring 17 passes for 201 yards and one touchdown in the four games this season. This performance places him seventh in the nation in the NCAA pass receiving statistics.

Joining the junior halfback to earn the Crusaders fifth place in the nation in passing offense are another junior halfback, Tom Hennessy, and senior end Jack Fellin.

The Crusaders have an average of 166 yards per game and a total of four touchdowns via the aerial route; additionally, they have only had three interceptions in four games.

The Crusaders do not lack a running game, either, as they demonstrated against Dartmouth last weekend. Before the game, the Indians led the nation in total defense, with an average of 91 yards per game allowed their opponents, 49 of these on the ground.

After the game, Dartmouth was not to be found on the defensive lists: Holy Cross had gained 121 yards, and the air and added another humiliating 306 yards on the ground, (more than their first three games combined).

For the second straight year, junior Hennessy is the rushing leader for the Crusaders. In 1960, Hennessy averaged 5.0 yards

per carry with 365 yards in 73 tries.

Fellin, top Holy Cross end, has been named by sports writers as the Crusaders' lineman of the week for the past three weeks, and has hopes of making it four straight against Syracuse. He set the precedent against the Orange last season when he caught four passes for 43 yards, better than half the team total.

The Crusaders haven't lost since their season opener against Villanova, when they dropped a 20-6 decision. They followed this loss with wins over Buffalo, 20-8, Boston University, 20-7, and Dartmouth, 17-13.

This is the 19th game of a series which began in 1905. The Orangemen have won the last two games, while Holy Cross took the pair preceding those by one-point margins. Syracuse has won nine of the last 13 games, and has an overall margin of 13-5.

# Syracuse Boasts Expanded Fall Intramural Program

By BERNIE MACCULLUM  
Syracuse University has the largest collegiate intramural program in the East, according to director of inter-university athletics Milt Howard.

An estimated 3000 men will participate in this year's activities, competing in 17 sports.

This fall 150 teams representing fraternities, living centers and independent organizations are competing in touch football, swimming, bowling, cross country, riflery, tennis and golf.

Football games are played Monday through Friday evenings under the lights at Lew Carr Field under the supervision of officials.

Grid Competition One loss eliminates a grid team from competition because of the large number of teams entered as well as limited facilities. Howard points to the field house and playing areas now under construction as factors which will allow a greatly expanded program.

Other fall sports have most teams competing on a weekly basis with the exception of cross country, where only one all-university meet is held.

Howard, a twenty-year veteran on the Syracuse campus, devotes full time to administering the intramural program. A graduate of the University of Illinois, Howard has 36 years of experience in the physical education and recreation field.

Awards are presented to the winners in all team and individual sports. Team trophies are given to fraternity champions, with living center and independent winners being presented medals.

# Dining Facilities Stir Controversy

By HARVEY MOSS

Dining facilities at universities are traditionally centers of controversy among the student body. Syracuse University is no exception.

Despite many recent additions and improvements many students still continued to complain about Syracuse Food Service. Many of these complaints have been dismissed after investigation as being just student "gripping."

Complaints, however, do include dissatisfaction with long lines and the quality of the food, in addition to alleged uncleanliness of silverware, glasses, dishes and trays.

Long Lines  
Some students have commented that the organization of the eating centers could be more efficient. One student who eats at Sims Dining Hall commented that "the lines are too long. The situation could probably be remedied with more organization."

Others said that they often found food left from previous servings on the dishes and especially the trays. Pat Ross Moriarty, Assistant Director of Food Service, said that this should not be happening. There are machines in the eating center designed to clean the specific utensils, he said.

Mrs. Ursula F. Pettengill, Director of the Food Service, has asked for student understanding of the problems involved. She said that "we have about 100 new kitchen employees and 80 new student employees." Some students, however, have complained that they have noticed little improvement since the beginning of the semester.

Alternatives Desired  
Jewish students have asserted that the Food Service has provided neither food nor facilities for them to obey the dietary laws. Some thought that on days when ham or pork is served, there should be something besides cheese for the Jewish students.

Last Monday afternoon, a DO reporter and photographer were asked to leave Sims Dining Hall after taking pictures of the students and staff. Later that day, Moriarty apologized and made provisions for the photographer to enter the Sims kitchen with him.

A similar incident occurred when Onondaga photographer Peter Bennett was not allowed to enter the dining hall. An appointment was made with Moriarty to enter Sims with him at lunch on Sunday.

No Rendezvous  
Bennett was there at the appointed time, but Moriarty was

not. He later claimed that he had no knowledge of this commitment.

Not all students are completely dissatisfied with the conditions at the eating centers. Some have called it "the best institutional food I have ever had."

Members of the staff felt that the food is good considering the conditions under which it is made. "The Food Service prepares 20,000 meals each week. Several staff members admitted that "there is room for improvement."

The girls from Mount Olympus had several unique complaints. They feel that it is impossible to eat lunch when it is sandwiched between two classes and the lines are as long as they usually are.

Another of the girls' complaints is that books cannot be taken out to eat. This, they say, only serves to waste unnecessary time.

Mrs. Pettengill is out of town and unavailable for comment on this situation. Moriarty, who is assuming Mrs. Pettengill's duties this week, refused to comment because he thought that he "couldn't justify the situation."

## SAE, DelPlain 8 Place in Contest

Sigma Alpha Epsilon fraternity took first place in the Penn State poster contest held last week. Their winning entry pictured a nebbish holding the slogan "SAE says 'Upset Penn State.'"

The second place poster, product of DelPlain 8, featured an Indian, the SU saltine warrior, rolling the cap of a pickle jar. Nearby, a pickled lion reposed in a jar with several other pickles. The caption read "Orange Pickles Penn State."

Delta Delta Delta sorority won third place with a big Orange football player, holding his foot on the tail of a sad-looking lion. The poster read: "Hold that Lion."

Over 25 fraternities, sororities and independent living centers participated in the Penn State poster contest. The judges were Dean of Men Earle Clifford; Donald Sturtevant of the English Department and Mr. and Mrs. Donald Skinner. Skinner is director of Chapel House.

Points will be given towards the "Bill Orange" trophy for those living centers which placed in the poster contest. The trophy, sponsored by Traditions Commission, is awarded annually to the living center on campus which has displayed the most school spirit and enthusiasm.

# SU Building Boom Includes Fieldhouse, Research Center

By ALAN MILLSTEIN

Since the close of World War II, Syracuse University has experienced a building boom that has seen 34 new projects constructed at a cost of \$23 million.

The opening of the new Crouse classroom building on the main quad November 16th will be just one more phase of the long range building and development program at Syracuse.

Plans already drawn up and awaiting action call for even greater expansion and development for the near future.

Under construction on campus today are four new buildings which include the new biological research center located behind Sims Hall, two new multi-story mens dormitories located behind Marion Hall near Marshall Street, and the newly completed Manley Fieldhouse to be opened next spring in the Colledale area off Comstock Avenue.

Future growth of the University has been carefully planned by the Office of Development in conjunction with the university's landscape architect, Prof. Noroda Rotunno.

Plans now call for three step redevelopment program in the uni-

versity area which in the next 10 to 15 years will bring about the completion of north, west and east quadrangles bounded on the North by East Adams Street, on the East by Ostrom Avenue, and on the West by Irving Avenue.

The three new quads will include the sites for the long awaited new library, a new theatre, new student health center, a student union, an administration building and additional classroom buildings.

Present plans call for the library to be built east of College place on the block bounded by Euclid Ave., Comstock Ave., and

University Place. The proposed building is one of the primary goals of Chancellor William P. Tooley's building program.

Spring of 1962 will see the ground breaking of the initial phase of the Samuel I. Newhouse Communication Center on the Northern part of the campus. The \$2 million Newhouse center will include housing for all the means of communication in the modern world, including television, newspapers and radio, in one separate quad located on the block bounded by University Place and South Crouse Ave.

# JSG Plagued By Problems In First Year

(Continued from Page 1)  
March elected Theodore Clark and Elizabeth Evans to serve as JSG president and vice president, respectively, for the current school year.

Clark resigned from his post in September because of a disciplinary problem, and Miss Evans ascended to the presidency.

### Six Member Board

Soon after taking office, however, Miss Evans became ill and found it necessary to appoint a six-member executive governing board to operate during her absence.

Consequently, the JSG executive branch is now headed by six government leaders drawn from all three branches of student government.

These six will head the executive branch until Miss Evans is able to resume her official duties.

The oldest government branch, and the only one in operation before this fall, is the Joint Student Legislature (JSL). Representatives from every campus living center attend the twice-monthly legislature meetings where they discuss and legislate on matters affecting the student body.

Fitzgerald is JSL speaker. Speaker pro tempore is Virginia Privateer.

The men's and women's courts have recently been consolidated into a temporary Joint Student Review Board, with the provision that if this board succeeds on a temporary basis, it will be developed into a permanent body.

The duty of the board is to handle cases involving infractions of university rules which have been referred to it by the Dean of Men's and Dean of Women's offices.

# Crouse Opens November 16th

Hidden behind the small square frames the campus' new Crouse Hall is the most modern, comfortable and functional classroom building on the Hill.

The \$1.3 million building, slated to be opened Nov. 16, will house the offices and classrooms of the Departments of Philosophy, Religion, Geography, Germanic, Slavic and Romance Languages, and Fine Arts within Liberal Arts.

These departments will have at their disposal the most modern educational aids such as foreign language laboratories, recording facilities, photography dark rooms and map rooms.

The two auditoriums, seating 450 and 220 students respectively, constitute two of the most necessary features of the building. The excellent acoustics, the modern seating arrangement, and the technical equipment, offer the much needed adequate lecture facilities to the entire campus.

# Crowd Warned Of Purse Thefts

Today's game, no matter what the final score, will have a dismal ending for some Hill students and their parents. These will be the unfortunate who will have their wallets and purses stolen.

Robert Flaherty, director of security, is appealing to all students and their parents to keep their wallets and purses in their pockets or on their laps at all times. This warning is particularly applicable to those sitting in the wooden bleachers.

According to Flaherty, juveniles get under the bleachers and prowl their length looking for purses that have been left on the seats. When they spot a purse, or wallet, they reach up, pull it under the bleachers and rifle it for money or other valuables. Because these thefts are impossible to trace, the only outcome is an expensive loss to some fan.

DEADLINE 1:30

SYRACUSE-IN-ASIA BOARD meeting, Monday, Chapel House. All members welcome.

COMMUTING STUDENTS Assn. Decoration Committee for Halloween Ho-Down, 10:30 a.m. Saturday, Sky Top Ski Lodge.

UNITED CAMPUS Christian Fellowship; worship, Sunday, 5:30 p. m.; supper, 6 p. m.; speaker and slides, 6:45 p. m. Norman Klein, Religion and Modern Art.

ISRAELI DANCE GROUP, 2:30 p. m. Sunday, Chapel House.

HILLEL SUPPER and program 6:15 p. m. Sunday, Chapel House.

NOTE DAME PEP RALLY Committee compulsory meeting 3 p. m. Sunday, Delta Upsilon.

CHAPEL HALLOWEEN Costume party 8-12 p. m. Saturday, Chapel House.

STUDENTS FOR DEMOCRATIC Society, 4 p. m., Monday, Chapel Lounge.

GOONS-DORM REPS-Girls have permission to attend final house meeting, Sunday. Be sure your floor has poster for Pitt game. Call Monica if questions ext. 2185.

TRAFFIC COURT SESSION 4 p. m. Monday at Security Police Office. All appeals will be heard. For further information call either Bob Dick, ext. 2712 or Bob Hart, ext. 2593.

METHODIST GRADUATE FELLOWSHIP 8 p. m. Saturday, 736 Ostrom Ave., 2nd floor. A panel of four African students will discuss Africa: Nationalism, Evangelism and Education. Worship will be led by Josie Runes, Philippines.

GOONS - Will the following Goons please report to the stadium by 11:30 a.m. Saturday: Steve Nathan, Dick Hoff, Logan Soliday, Bob Sena, Ron Tucker, Bob Davis and Ron Burzinski, and any other Goons who would like to help with placard cheering.

ALL PERSONS assigned by campus political parties to supervise ballot boxes for freshman elections on Wednesday must meet at the JSG office at 7 p. m. Tuesday, third floor of the Men's Gym.

JSL WAYS AND MEANS Committee, 7:30 p. m. Monday, 203 Hall of Languages.

JUNIOR CLASS NEWSLETTER - all articles due Nov. 1, typewritten, 751 Comstock Ave.

JUNIOR CLASS Executive Council pictures, 4:45 p. m. Monday, Hendricks Chapel.

SYMPHONIC BAND brass auditions for prospective members, 3 p. m. Monday. Wind and percussion auditions, 4:30 p. m. Thursday, 303 Crouse. Former members should report to Dr.

Harwood Simmons this week. First rehearsal Tuesday, Nov. 14.

PANHEL MEETING, 7 p. m. Tuesday, 305 Women's Building.

HILLEL COURSE on "Judaism in Theory and Practice", 4 p. m. Monday, Chapel House. Discussion of the Sabbath.

AIEE - THE meeting, 7:30 p. m. Thursday, 104 White Hall. Panel of electrical engineers will discuss "After Graduation, What?" Refreshments.

COMMUTING STUDENTS - interested in playing intramural basketball call Ron, NE 7-3471; Frank, GR 6-0890; or Jim, GR 5-1913.

FROSH CHAPEL REPS, meeting 7 p. m. Tuesday, Chapel House, 711 Comstock Ave.

ALPHA KAPPA PSI professional business fraternity, smoker and picnic meeting, 4:30 p. m. Thursday, 309 Women's Bldg.

ORANGE SPLASH synchronized swimming, 4 p. m. Monday. All coeds welcome.

METHODIST Parents' Tea, 4:15 to 6 p. m. Saturday, Colonial Room, Hendricks Chapel.

METHODIST Student Fellowship, 5:30 p. m. Sunday, Colonial Room, Hendricks Chapel. Supper will be served. Dr. Beck of the Religion Department will speak on "The Christ Event and Christian Love."

W.A.A. FENCING, 4-5:30 p. m. Monday, 112 Women's Bldg. Open to anyone interested.

W.A.A. FIELD HOCKEY, 4:50 p. m. Monday and Tuesday, Women's Building field.

AMERICAN ROCKET Society, 7:30 p. m. Wednesday, 104 Law Building. Refreshments.

SOCIETY of Military Engineers, 7:30 p. m. Tuesday, prefab 1A. Everyone interested. Trips to Niagara Falls Power Project and Fort Belvedere will be discussed.

DO CLASSES BEGIN MONDAY

The Daily Orange will hold its first classes of the term for all new students at 4 p. m. Monday at the Helbock. Attendance is imperative.

Leavitt Captures Viceroy Contest

For the second consecutive week, Viceroy's football contest was won by three members of the class of 1962. Capturing first prize of \$100 was Andrew Levitt. Second prize of \$50 was Helen Reibe, and winning third prize, worth \$25, was Joseph Naufoi.

CAP Candidate Locke Will Speak

Campus Alliance Party freshman presidential candidate, Peter Locke will address the freshman class at 4:15 p. m. Monday in Maxwell Auditorium. Locke also challenged the Reform Party's nominee Douglas Milbury Friday to a debate on political parties and their functions at 4:15 p. m. Tuesday in the auditorium.

candidates would like this opportunity to fully explain their platform and why we chose to run on an established party's ticket.

RIP is also campaigning for Wednesday's elections. Their candidates are visiting living centers, and "will not stop campaigning until midnight Tuesday," according to party President Michael Lelherman.

RIP rallies are planned for Sunday and Tuesday at times to be announced.

## Frosh Candidates

RIP freshmen candidates are left to right: President, DOUGLAS MILBURY; Treasurer, CHARLES CARTER; Secretary, NANCY WALKER; and Vice-president, ALAN ANDLER.

US freshmen candidates are left to right: Treasurer, STORM JORGENSEN; Vice-president, KAREN NOBLE; Secretary, PENNY SHAPIRO; and President, DAVID BAILEY.

CAP freshmen candidates are left to right: Treasurer, PHILIP QUARTIER; Secretary, BONITA SCALESE; President, PETER LOCKIE; and Vice-president, CAROL RONDEAU.

# New Strength Needed—Nixon

By ALAN G. MILLSTEIN  
Junior Editor

Former Vice-President Richard M. Nixon endorsed the resumption of above ground atomic testing by the United States as a necessity of national security.

"The U.S. must put security first without waiting to poll the rest of the world," Nixon said before the 1961 Syracuse Republican Dinner Monday night in the War Memorial. Before the sell-out \$100 a plate fund raising dinner, Nixon said that America can't accept a national policy of defeat, but instead must stand at all times for the victory of peace.

## JSG Board Sets Student Union For Freshmen

By AUDREY LEFFMAN

The newly-elected freshmen officers will be associated with the long-term project of planning the construction of a Student Union for the Syracuse campus, the six-man governing board of Joint Student Government announced Monday.

Sam Farr, head of the governing board, strongly urged that the freshmen undertake this project.

This Student Union, which is now considering fourth priority on the building plans for the fall, will give the freshmen a goal to work for in their four years at Syracuse, according to Farr. The convalescing president of JSG, Betsy Evans, mentioned that a senior thesis of a former architecture student on student unions would be a source of information for the freshmen.

The governing board reported to Farr and Miss Evans the procedures for the freshmen elections. Charles Tumpio, one of three election commissioners, reported that voting will take place at Graham, Watson, Sins and DellPlain from 11 a.m. to 6:30 p.m. Wednesday, November 1. One representative from each party will be at each voting place to watch the ballot boxes.

Ballots Counted  
A representative from each party as well as the three election commissioners and members of the governing board of JSG will count the ballots Wednesday

(Continued on Page 6)

## RIP, CAP, US Nominees Set Platforms

The Freshman candidates in the three campus parties, United Students, Reformed Independent Party and Campus Alliance Party, all urge the representative voice of the freshman class in their platforms. This representative voice will be heard in the newly formed Freshman Assembly, which each party advocated.

US nominees are: David Bailey, president, from Valatie, a forestry student; Karen Noble, vice president, from Rochester, majoring in pre-law; Penny Shapiro, secretary, from Philadelphia, Pa., majoring in elementary education; and Storm Jorgensen, treasurer, from Port Hope, Ont., majoring in history.

Each of the candidates of the US party has had experience in student government in high school or from outside interests. The party advocates making the Executive Council an advisory body and making the freshman assembly a representative body of the Class of 1965. US desires to make the executives and the students unified.

A platform by the individual candidates is the policy of the Reformed Independent Party. Candidates are: Douglas Milbury, president, from Shrewsbury, Mass., majoring in pre-law; Alan Andler, vice president, from Newton, Mass., majoring in political science; Nancy Walker, from Schenectady, a liberal arts student, and Charles Carter, treasurer, from Plainfield, N.J., majoring in accounting.

Milbury advocates having an executive council composed of 10-15 members chosen at large by merit. The Freshman Assembly will be a representative body from each living center. Andler

urges a uniting of freshmen through social, athletic, charitable and cultural activities.

(Continued on Page 8)

"Never should we say anything to run America down," he warned the overflowed crowd of 8,000. "The heart of the matter today," the 1960 Republican candidate for President said, "is that one man, Nikita Khrushchev, has the power to destroy the world."

But, he said, Khrushchev desires to conquer the world without a war. Nixon then went on to give the three reasons he feels the Russian leader doesn't desire a world atomic war.

First, Nixon said, Khrushchev knows of the destructive powers of nuclear weapons. Earlier in the day, Nixon told a press conference that he believed the Russian leader was most upset by the radioactivity without from Russia's recent super-bomb explosions.

Second, he said, war in Europe would mean a "powder keg" for the Russians in Eastern Europe where the anti-Soviet satellites would blow up in Khrushchev's face.

Third, the Russian people themselves have experienced war and hate it, Nixon said. Khrushchev knows his people don't want a war and knows very well that his closest ally, Red China, would be around after a war.

With these facts in mind, Nixon said, American must continue more ahead at the strongest nation on earth. "We must at all times stand for the freedom of all people."

(Continued on Page 8)

## Cable Break Disrupts Telephones; Renewed Service Expected By Noon

Frustrated phoners set the tone for a cable break in a main trunk by the university telephone system yesterday.

Phone connections in the Western section of the campus were poor or non-existent throughout the afternoon and late into the evening. Most callers found that static, crackling noises, and broken connections were all that resulted from an effort to call to or from most areas of the campus.

The trouble in the lines developed about noon yesterday and servicemen spent the remainder of the afternoon trying to trace the break. The linemen were hindered in their efforts because many of the main cables run under and thru the foundations of the campus buildings.

About 6:00 p.m. the faulty section of the line was located between Iliad and Chapel and Journalism Building. The line, stretching for some 360 feet, was

thought to be damaged by electrolysis. Electrolysis, as explained by Bud Troy, a Bell Telephone Co. employee, is caused when water seeps into the cable. A corrosive action then takes place between the lead shielding and the power lines eventually resulting in the disintegration of the line.

William Griep, a foreman for the Bell Telephone Co., said that this entire section of the line would have to be taken out and replaced for service to be restored.

He explained that to remove this type of line, both ends had to be severed and that a block and tackle gear have to be hooked up, the truck backs up pulling the old cable out of the pipe and the new one in.

After the new cable is pulled through, the wire has to be spliced back into the original line. Because of the large number of

wires in this line, Griep said that it will take most of the night to repair the cable. Service should be restored by noon tomorrow.

## SIGNUPS SET FOR 'ON' PIX

All campus activities, organizations and honoraries desiring group pictures in the 1962 Omniplex should notify the "On" office in Prefab 7, according to Lois Finkelstein, activities editor.

On a piece of paper include name of organization, president and his phone number and address so the staff can contact the group.

This information should be submitted so that arrangements for pictures can be made before Thanksgiving. The above data can be left in the activities mailbox in Prefab 7.

## Not Without Pledges

This is addressed to freshmen, more particularly to freshmen who have been reading the Daily Orange during the past few weeks, who have been thinking about rushing fraternities, who hate prejudice and discrimination and who are wondering how they can compromise the two. This is to frosh who are sensitive to the needs of about nine tenths of the world's population who are crying for equality while most people tell them to keep waiting and to keep quiet. This is to frosh who feel guilty telling a Negro that he must wait before he can be allowed to ride on the front of a bus or live in a fraternity house. To such freshmen the decision to go Greek, to join a particular fraternity house over another one, is, as it should be, a moral decision. It is a decision that many others have had to make and it is not an easy one. But to us there can be only one rule of thumb for such a freshman and this is simply action. We feel absolutely no sympathy for the fraternity man who has spent three years pondering over his fraternity's injustice but has done nothing about it. This can be the rushing frosh's one guideline—what has the fraternity he is interested in done about this problem. Perhaps more important, what does it intend to do.

Some frosh concerned with this problem may easily decide that the best way to handle this decision is by avoiding it. We think this would be wrong and we think this is not worthy of the frosh. In just a few short weeks you have had the incentive and insight to create the most significant change in campus politics that we have yet seen. Freshmen have made seniors look like amateurs. The same can be done on Walnut and Comstock Avenues. The fight for integration, the fight for social justice is never a simple one with easy answers. It can be fought on many fields from without the system—from faculty, administrators, independent students in dormitories and, if you will, the Daily Orange. But all these forces can really do is pinpoint and focalize the wrong. Only the fraternity men themselves can correct it. They have, on the whole, been hesitant and afraid. You, as the so-called "lifeblood" of the fraternities, by showing your deprecation of their stagnancy, can cause them to act. Fraternities can live without nationals, without their prejudiced members; they cannot live without pledges.

We feel fraternity mollifiers are wrong and dangerous to the system itself in attempting to keep this conflict quiet. It cannot be kept quiet. As long as the conscience of America, as long as the voice of the southern school boy, the Afro-Asian, cry out for justice it cannot be stifled. But not only have some fraternity men tried to avoid this fight, they have tried to justify it. This is the unforgivable sin. This deceit, pusillanimous lack of moral fervor is what casts a shadow upon fraternity row that cannot be swept away. For some people to publicly espouse this point of view is one thing. What we would like to know is what has happened to the Interfraternity Council through all this?

## SU Membership In NSA Urged

**To the Editor:**  
In an article in last Friday's Daily Orange concerning the National Students Association, the following ridiculous statement of what is evidently the administration's position was made:

"USNSA is extremely liberal, to the point of being subversive."

Even for our backward administration, this attitude can only be called McCarthyite, if, as the Daily says, it is based on the fact that the USNSA is in favor of the abolition of the House Un-American Activities Committee.

Any progressive person wanting to preserve American democracy must be for the abolition of that dictatorial and unjust body. It is in itself un-American, in that it constitutes a serious menace to free speech.

If USNSA is for the abolition of this committee, a fact which I did not previously know, then I am not the more happy that an traveling with this organization this summer. I think Syracuse University should definitely rejoin it.

Diana Landschoff, '64

**To the Editor:**  
I was pleasantly surprised, for several reasons, to see an article headed "Student Leaders Discuss Benefits of Joining NSA" in a recent Daily Orange.

My colleague, LeMoynes, has been a member of the National Student Association for a number of years and has profited from this affiliation. The NSA offers another bridge for cooperation and student interaction between Syracuse University and LeMoynes College in the upstate region of institutions of higher learning and their student leadership.

Only the United States National Student Association represents American students as a national group abroad, particularly in the International Student Conference, in COSEC (the Coordinating Secretariat of the National Union of Students), and similar international student organizations.

It is regrettable that the student leadership and student government of SU has neglected active membership and participation in the activities and higher councils of the only American university student organization in this country

that represents all the United States student body at home and abroad. Thank God that you have finally seen the light. Jerry King, '62  
LeMoynes College

## Girgus Defended, Greek Bigotry Hit

**To the Editor:**  
In last Friday's Daily Orange, columnist Kent Barwick criticized DO editor Sam Girgus because he takes "an anti-fraternally stand on forced integration while belonging to a fraternity which is nationally notorious for its discrimination."

While not in complete agreement with all of Mr. Girgus' stands on the issue of fraternity discrimination, we cannot help but defend his membership in this fraternity.

Sam Girgus joined his fraternity knowing, as we all do, that it had a discriminatory clause in its bylaws. In fact, it was one of the few houses on this campus in which he could find a completely non-sectarian brotherhood. After becoming a brother, Sam proposed that a letter be sent to the Northern Chapters in regard to eliminating the discriminatory clause.

By a unanimous vote of 63 members it was decided that the Syracuse chapter would lead the fight at the coming national convention by organizing the northern segment of the fraternity. Sam Girgus and his chapter were behind the decision at our last national convention which now allows any chapter a "waiver with honor" from the clause.

When word came from Barwick, Sam Girgus and the members of his fraternity have over the last few years partially won the fight against discrimination. This is what Sam calls positive action, and this is why his fraternity stands among the leaders on this campus in attempting to shed the label "house of prejudice."

Bill Kofone  
President, Sigma Nu

**To the Editor:**  
As a newcomer this fall to the Syracuse campus, I was impressed during my first few weeks by the apparent democracy and openness of the institution. The diversity of ethnic, racial and religious backgrounds represented in both the faculty and the student body seemed to make Syracuse a more realistic microcosm of the modern world than most campuses.

Then I began to learn, through your pages, of the strength of residual bigotry entrenched in some of the fraternities. I have been sadly disillusioned, for example, to read letters defending racial and religious bars on the purported ground that one has a right to associate with those who share one's own interests. Can students really mean this, and not realize that there is no interest—whether it be in sports, music, public affairs or even academic studies—that is the exclusive preserve of a

particular ethnic or religious group?

I had always thought that the basic point in the Judeo-Christian heritage—which we all share through our immersion in secularized Western culture even if not through formal religious association—was the dignity of each man and that the necessary corollary was the right of each individual to be judged by his own personal qualities.

Quite apart from the ethics of the matter, there is of course the inane stupidity of assuming that WASPS (White Anglo-Saxon Protestants) can successfully isolate themselves from a world which is ninety per cent non-WASP.

Abolition of fraternities may be an unrealistic goal, but prompt drastic reforms seem to me the only avenue a humanist can take with good conscience. The university cannot afford to permit the kind of irrationality represented by some fraternity policies, any more than it can afford to retain students who are irrational in their formal studies.

Finally let me state that while disillusioned by fraternity snobbery I have also been heartened by the realization among many students that prevailing conditions can no longer be tolerated.

Michael E. Seagoe  
Asst. Prof. of Political Science

## Watson Parking Policy Knocked

**To the Editor:**  
The university has succeeded once again in ignoring the convenience of the students. Upperclassmen living in Watson dormitory can no longer park their cars directly in front of the dorm on University Place. In addition, the Watson parking lot is now used by R.A.s and the students are supposed to use the commuters lot on Walnut Place and Waverly Avenue or the Marion lot.

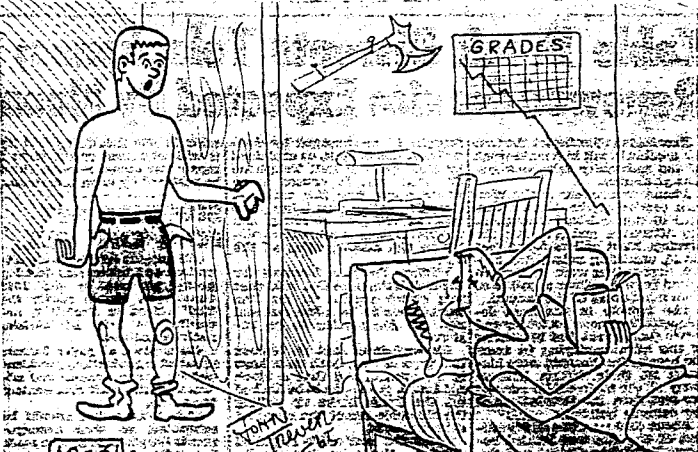

The former is in deplorable condition. You must be lucky not to hit the frame of your car on the sidewalk while entering or leaving. The lot is so overpacked that it is almost difficult or impossible to move your car until noon. Similar conditions exist in the Marion lot. However, the Watson lot is the worst. The R.A.s distributed tickets to students parked in the Watson lot even though the sign at the entrance reads "parking lot for Watson residents and staff only."

Why does the university inconvenience students without making proper facilities to compensate for the seeming such measure of providing an empty parking lot for R.A.s and help? Furthermore, wouldn't it be courteous for the university to explain such actions to the students affected?

We all know that in a large university the student is far removed from the administration. However, the student is still the basis of any university, although this is not evident at Syracuse by the way the administration considers us children in the areas in which they do consider us.

Name Withheld

**POLICY ON LETTERS:** The letters column is maintained for the expression of opinion by readers. However, the Daily Orange reserves the right to edit letters for grammar and good taste or to reject letters. Letters should be written legibly, preferably typed, and no longer than 250 words. All letters must be signed with names and addresses; names will be withheld on request.

"You learn something every day at college. Today I learned never to draw to an inside straight."

—TUNING IN—

# Olivier Excellent In 'Power and Glory'

An impressive mounting and superior performances by a cast headed by Laurence Olivier marked David Susskind's production of "The Power and the Glory" last night on WHEN-TV channel 8.

The two-hour spectacular was based on Graham Greene's novel dealing with an alcoholic priest, the last priest in a vicious historical Mexican state during the '30's.

The plot is basically a chase story, the priest trying to escape to the border, followed by a determined Army lieutenant. The priest goes to his old parish where he is rejected by his illegitimate daughter. He returns to the city in search of liquor only to be arrested for drunkenness and possession of wine.

### Final Capture

He is released from prison, and eventually crosses the border. There he celebrates mass and returns to a semblance of his old success as a priest. Finally, entering an obvious trap, he re-crosses the border to minister last rites to a dying "going" killer. The lieutenant captures him, and the priest is returned to the city where he is executed.

Throughout the play the priest is continually trying to understand his predicament. His idea of beauty and innocence is destroyed when his own daughter spits in his face. His faith in the institution of the church is crushed by the hypocritical spinster he meets in jail.

While running from the police, the priest finds solace in wine. Indeed, in one of the play's finest moments the priest is tortured by Keanan Wynn, Roddy McDowall and Martin Gabel's draining his precious wine. But, when the priest is no longer running, no longer afraid, he takes solace in the ceremony of the church and such priestly rituals as bargaining over the price of baptisms and smoking cigars.

### Olivier Performance

Laurence Olivier gives one of his best performances as the drunken priest. He captures his desperate quality. It is with

beauty and human force that Olivier eventually finds humble solace in the power and glory of God. The priest is no martyr.

In his final conversations with the lieutenant, magnificently portrayed by George C. Scott, Olivier superbly realizes the ultimate difference between the strangely similar priest and army officer.

Other cast members, including Julie Harris, Patty Duke, and Mildred Dunnock, were excellent. After a slow start Dale Wasserman's script and Marc Daniels' direction picked up pace, never losing track of Greene's theme. Burr Schmitt's sets achieved a remarkably accurate effect. J.E.G.

# Ravel Violin Sonata Highlights Concert

Many of the diverse lyrical qualities of the violin were examined Sunday afternoon at a concert in Crozer Auditorium sponsored by the Syracuse University School of Music. Spotlighted was Louis Kraemer playing the violin parts of the music of Beethoven, Mozart, and Ravel. He was assisted on the piano by his wife, Adrienne.

All the pieces selected were good, and skillfully played, and one item, Maurice Ravel's Sonata for Violin and Piano, stood out from the rest with its dramatic departure from the usual.

The last two movements of this Sonata constituted the departure: one written in imitation of the Blues popular today, and the other more subtle, though recognizable, variation on a traditional Blues pattern. Ravel, who wrote the piece in 1923, is noted for classical pieces which go beyond classicism into a world of rhythmic analysis.

A fantasia-like conglomeration of violin, clarinet and piano was heard earlier in Alban Berg's Adagio, an arrangement from his own chamber violin concerto. The colorful affair had a tedious beginning, but soon the detached melodies conveyed and from here on the movement became understandable. Berg's streams of lyric seem to suggest a wierd, sensuousness, perhaps a fleshy sensation not heard before.

However, the most outstanding performance by an individual was Kraemer's rendition of Mozart's Concerto for Violin in A Major. The sensitive per-

Vocalist Johnny Mathis will give a concert at 8:30 p.m. Thursday at the Syracuse War Memorial. Mathis will present a two-hour show accompanied by Jimmy Cook and his Orchestra. Tickets are \$5.50, \$3, \$2.50 and \$2 and are available at Olmsted's and the War Memorial.

formance was given by memory (something done so seldom at these concerts), showing Mozart a master of graceful optimism.

Bach's Grave for violin and piano, melancholic and delicate and Wieniawski's Russian Airs were entertaining. R.L.

# Readers Theater Slates 'Candida'

The Readers Theater will present George Bernard Shaw's "Candida" as its first production this year at 7:30 p.m. on Nov. 19 and Dec. 3 in the main auditorium at Huntington B. Crouse classroom building.

The Readers Theater productions are under the sponsorship of the Department of Oral Interpretation of the School of Speech and Dramatic Art. Faculty and students from the school will participate in the production.

# Accident Victim

PETE BROKAW

# Pete Brokaw's Football Career Ended By Injury

By MILT JOFFE  
Junior Editor

Once again the joy of victory has been shortlived for Syracuse. Following weeks of frustration and broken bones, the outlook became brighter after the Orange's convincing 34-6 victory over Holy Cross Saturday.

But shortly after 6:30 p.m. Saturday—little more than three hours since the game had ended—an injury once again struck the Orangemen. This injury surprised all the broken bones of the previous weeks, for this one came in the form of tragedy.

Pete Brokaw, the likeable right halfback from Nyack, became the latest victim of the horrible fate that has been haunting the Syracuse football team. Pete Brokaw will not play football again.

sity Hospital recovering from a two-hour operation that was performed early Sunday morning to remove his ruptured spleen.

The 21-year old, two letter athlete, who has withstood the bumps and bruises of physical contact in football and lacrosse, was stopped by the mechanical force of colliding automobiles.

Pete will be all right. No announcement was made about his future in lacrosse, but he will not play football again.

Pete started his football career with the Syracuse frosh as a quarterback and continued in that position at the start of the 1959 season. In mid-season he was switched to halfback, the position he played in high school.

In his sophomore year, Pete won the Devil's Own Trophy as the outstanding sophomore ath-

lete, based on his freshman year's performance.

In the championship year of 1959, Pete led the team in rushing average. He picked up 148 yards in 17 carries for an 8.7 per rush average.

Last year Pete was second in scoring with 30 points. He rushed for 333 yards in 52 carries, a 6.4 yard average.

In six games this season he has 146 yards in 33 carries for 4.4 yards per rush. He has one four-down and two extra points this year.

Pete's outstanding game was last year's contest against Colgate when he ran for three touchdowns and was voted the game's valuable player.

The doctors have told Pete his football days are over. Pete told Ben Schwartzwalder he'll play again.

# Brokaw Loss Stuns Hillmen

By KEN DARLING  
Sports Editor

Coach Ben Schwartzwalder must be praying to the wrong football gods.

For most of last Saturday, everything was going favorably for the Orange grid mentor. His team had racked up its easiest win of the season, 34-6, over Holy Cross, and in the process had managed to avoid any serious injuries.

Dave Sarette had returned to top form, and Bernie Davis was running like an All-American again. As an added bonus, little-known Gus Girardi had suddenly emerged from nowhere as a running threat.

But Saturday evening the injury plague which has been haunting Schwartzwalder and his boys struck again. Pete Brokaw was involved in an auto accident, underwent a spleen operation, and as a result is evidently through playing college football.

Although losing Pete for the rest of the year is a crucial blow to the Hillmen, his loss can be partially offset by the return of Dick Easterly to the lineup. Easterly had the cast removed from his broken hand Monday, and may be able to play against Pittsburgh Saturday.

The Parents' Weekend contest was highlighted by the performances of Sarette, Davis, and Girardi. Quarterback Sarette provided the highlights that were missing from the Piety attack against Penn State. Running the offense smoothly, he clicked on seven of 11 passes for 97 yards, and was voted the game's outstanding player.

Davis showed the running power and speed that has made him one of the nation's most feared backs. He picked up 91 yards with 10 carries and crossed one goal line twice. He now needs just six points to eclipse Jim Brown's Syracuse scoring record of 187 points, and 68 yards to top Brown's rushing record of 2,091 yards.

But the crowd's favorite had to be Girardi, a 162-lb. scabback playing in his first varsity game. In addition to scoring a touchdown, he picked up 63 yards in eight carries, second only to Davis for the afternoon. He also accounted for six first downs.

# Piety Freshmen Defeat Army Plebes, 28-15

By MARK DIAMOND

The freshmen football team of Jim Shreve scored its second victory this season by defeating the Army Plebes, 28-15, Friday, at West Point. This win followed the recent 39-6 whipping that the Tangerines had administered to the Buffalo Irish.

The Tangerines drew first blood with barely two minutes remaining in the initial quarter. With the ball on the Army 14, quarterback Walter Bunkle completed a scoring toss to end Dave Russell. The point after attempt failed so the tally stayed at 6-0.

Neither team could then mount an effective offensive until the waning moments of the first half. Here, with less than a minute left in the half, Army's Fyzz hit Johnson on a nine-yard pass. When the kick was good, the Hillmen trailed 7-6 at the intermission.

Tangerines strike  
In the third quarter, the Tangerines struck quickly. With a fine balance of passing and rushing, they swept into Army territory. Ducky Duckett ended the drive by bucking 10 yards for a touchdown. Dick King then connected with Jim Cripps for the two point conversion, and the Tangerines led 14-7.

For the rest of the stanza, the Piety forces continued to apply the pressure. Culminating another third quarter drive, Billy Hunter scored on a 30-yard screen pass from King. Once again the Tangerines went for two points and once again they were successful. This time Paul Houle was on the receiving end of a pass from King, making the score 22-7.

That tally remained until less than four minutes were left in the game. At 11:38, Army's Lehr hit

# Colgate, Pitt, W. Virginia Wins Top Weekend Action

BY DAVE DEAN  
Associate Editor

Colgate won its fourth in a row. Pittsburgh snapped a four-game losing streak, and West Virginia pulled an upset victory over favored Army to highlight the weekend's grid action for Hill foes.

Penn State also recorded a win, while Maryland, Notre Dame and Nebraska all lost; Oregon State and Boston College were not scheduled.

At New Haven, Colgate won four straight for the first time since 1954, topping Yale, 14-8. The Red Raiders scored the winning touchdown midway through the final period following a blocked punt, but had to hold off the Bulldogs until the game ended with a Yale pass through the Colgate end zone.

Heilman Injured

Left halfback Jim Heilman, who left in the second half with a leg injury, scored the first eight points, while a Danny Keating pass accounted for the second TD.

When Fyzz ran for the two points after touchdown, Syracuse had a 22-15 lead.

Nance Scores

After taking the kickoff, the winners put the game out reach. After the Hill had driven past midfield, Jim Nance took a hand-off and streaked 40 yards for the final touchdown. Though the try for two failed, the 28-15 advantage stood up.

Coach Shreve had much praise for his linemen, who were the difference in the victory. Among those singled out were the ends Houle, Cripps, and Russell. In addition, he called Duckett "the outstanding player based on all around performance."

## Intra Meeting Set For Tonight

Intramural managers will hold a meeting at 7 p.m. today in the Archbold Gym trophy room. Purpose of the meeting will be to elect an intramural council.

At West Point, the Mountaineers of West Virginia completely disregarded the oddsmakers and outplayed highly favored Army, winning 7-3. All scoring took place in the third period, as the Cadets tallied first on a 40-yard field goal by Dick Dleydt.

The visitors, however, came back when a punt pass from center on an Army fourth down gave them the ball on the Cadet 13. Glenn Holton punted in from the nine for the winning tally. It was only the second loss for the Cadets in six games; West Virginia is 3-4 for the season.

Snap Loss Sreak

Pittsburgh took its second win of the season, snapping a four-game losing streak, at the expense of Navy, 28-14. Quarterback Jim Traficant, recently recovered from pre-season injuries, led the way as he scored on runs of six and eight yards and handed off for a third tally.

Navy never scored until the final two minutes of the game when Pitt had built up a 28-0 lead.

Penn State made it two in a row when, after spotting California a 10-3 lead in the first period, the Lions came on to score in every period and top the Bears, 33-16. Senior quarterback Galen Hill led the Lions to their fourth win of the season with 36- and 51-yard touchdown pass plays and a one-yard scoring plunge. Injured Don Jonas added a pair of field goals, from 28 and 34 yards.

Come-From-Behind

Trailing by four points with nine minutes left in the game, Northwestern came from behind

to lead Notre Dame, 12-10, and stopped an Irish scoring drive with only 44 seconds left in the game to preserve the win.

Missouri remained undefeated by topping Hill foe Nebraska, 13-0, the fourth straight shutout (see Col) by a Missouri team over a Cornhusker eleven. Nebraska is now 2-3-1 for the campaign, with three consecutive losses.

Maryland held a brief 10-6 lead in the second period by virtue of John Hannigan's 26-yard field goal and a Dick Shirer to Gary Collins touchdown pass, but fell before an aroused underdog South Carolina team, 20-10. It was the Terp's second loss against four wins.

now it's Pepsi  
for those who think young

# Placement Interviews Set For This Week

Following is the campus interview schedule as released by the Liberal Arts Division Administration and Engineering Placement officers for the coming week.

On Tuesday, Oct. 31 in Building 8: The Ewing Co., ChE; Ph.D. (Heat and Thermo), Ce, EE, ME, Aero, Phys, Math: BS (Feb. grads only), MS, Ph.D. Also Norwich Pharmacy Co., ChE, BS, Chem; BS, MS, Ph.D.; Scientific Editor: BS Bact: MS, Ph.D.; sophs, jrs and grads from summer.

Wednesday, Nov. 1 at Building 8: Bendix Corp., ChE, ME, Phys; BS, MS, Ph.D. Colanese Corp. of America, ChE, Phys; BS, MS, Ph.D.; ME: BS, MS; also grads from summer.

Also General Aniline and Film, Chem; Ph.D.; W. R. Grace Co. Research Div., Chem: Ph.D.

On Wednesday at 105 Slocum Hall: Jones and Laughlin Steel Corp., Jan and June accounting grads for Accounting training program.

On Thursday, Nov. 2 at Building 8: High Voltage Engineering Corp., EE, ME, Phys; Math: MS, Ph.D. Also grads for summer. Linde Co., Div of Union Carbide Co., ChE, MetE, CE, ME, EE.

Aero: BS, MS; Standard Oil Co. of Ohio, ChE: BS, MS, IE, EE, ME; BS.

On Thursday at 105 Slocum Hall: Gillette, Jan. and June accounting grads for training program, Jan. production management grads.

On Friday, Nov. 3 in Building 8: Sikorski Aircraft, MetE; BS; CE, EE, Math: BS, MS, ME, Aero; BS, MS, Ph.D.; United States Steel, ChE, MetE, CE, EE, IE, ME, Chem, Phys, Math: MS, BS, Ph.D.

## JSG Board Sets Student Union For Freshmen

(Continued from Page 1) night. The commissioners will also present a report soon to JSG on a check of expenses incurred by the candidates since complaints have been received that some candidates may be spending more than the allotted sums, it was revealed.

Freshmen officers may continue to be given upperclass student advisors to advise them on certain matters.

The board announced that another all university committee may be formed to consider academic dishonesty. If possible, students from JSG will serve on this committee along with faculty and administrative officials.

**Surveys on Cars**  
JSG intends to discuss the possibility of taking surveys and compiling statistics on undergraduate use of cars. It was generally agreed that there are enough parking spaces for all cars presently on campus, and that the argument of lack of space is unfounded. Miss Evans pointed out that students illegally use faculty parking lots and that this is a sore spot for the faculty.

Insight training programs intended for students aspiring to be Goons or Traditions Commission appointees, will be conducted by JSG on Tuesdays, Nov. 7 and 14, and on Monday, Nov. 20.

JSG also discussed the possibility of referring complaints about Food Service to the Personnel Committee. The complaints, received from many undergraduates and parents are that food is not well cooked, is not appetizing, and that the dishes, silver and other implements, such as sugar bowls, are not clean.

## SONG LEADERS MEET TUESDAY

Meeting for Song Leaders whose living centers, floors or houses are Steppingstone, Crouse College Main Hall, 6:30 p.m., Tuesday.

## Theft Attempt Discovered During Game

A fifteen year old Syracuse youth was apprehended at Archbold Stadium last Saturday for theft.

The youth, captured under the wooden bleachers by the Security Police, was charged with trying to steal money from a Rochester woman's purse.

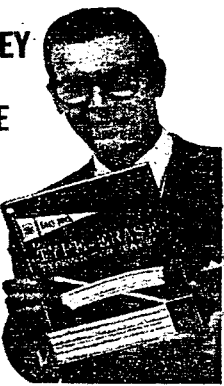

Richard Flynn of Rochester noticed the boy's hand in his companion's purse when they stood up during the Syracuse-Holy Cross football game. His companion, Miss Patricia Tarey, screamed and the boy fled with two other youths, both sixteen.

When the boys were captured, according to Robert Flaherty, director of security, they claimed to be under the bleachers searching for game programs. No money was found in the boy's possession.

The Security Police turned the boys over to the Syracuse City Police. Flynn and Miss Tarey swore out affidavits against the fifteen year old who was subsequently turned over to the Youth Bureau. The older boys were not seen committing any crime and had to be released.

### NOW! WE CAN SAVE YOU MONEY ON FINE EASY-TO-ERASE TYPEWRITER PAPER!

Now we have a fine quality, famous brand easy-to-erase paper at the lowest price yet! It's Eagle-A Type-Erase, the popular paper for cleaner, faster typing and quick erasability. ## Editor Hits Today's News Coverage

Modern journalism pays too little attention to ideas and too much attention to superficial news items, asserted Charles Ferguson, senior editor of the Reader's Digest, Friday in Maxwell Auditorium.

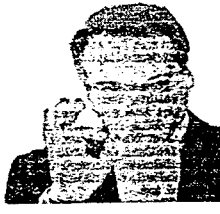

Ferguson told a class of Journalism 1A students that the human interest side of the news has been emphasized to such an extent that ideas—"forms which have been given substance by study and reflection"—are not realized as potential bases for front page coverage.

Ferguson stated that active coverage is given to Caroline Kennedy, United States resolutions concerning the fight for peace and Khrushchev's latest plans for a stateside trip. Little or no front page space is devoted to ideas.

As a newspaper reader, he observed that modern journalism seems to concentrate on events and human activities, not on processes.

Within the realm of ideas, the point of view he took was of reading and writing; the value of the printed word without assistance from the visual media. Ferguson said today's world has nearly lost sight of the ideas upon which our nation was founded. In the "Federalist" and other media of the 18th century, ideas were published. Since World War I, some reanimation of the idea, per se, has evolved, he stated, but there is rarely any investigation of "remote causes."

**BALLOT BOXES** for the Freshman elections on Wednesday will be in the following locations: Dining hall entrance of Watson East, Sims dining hall entrance, Graham dining hall entrance.

**VOTING PROCEDURE:** At each of the voting locations a registration table will be set up. Before casting their votes

freshmen must sign the registration list and have their ID card punched by one of the officials at the table. After completing this registration procedure the voter will be given a paper ballot listing all the candidates. Only one name can be voted for each office, although it is permissible to vote for candidates of different parties for the various offices. After voting the ballots will be placed in the boxes provided for the locations. **ONLY V FRESHMEN MAY VOTE IN THIS ELECTION.**

**PANEL MEETING**, 7 p.m. Tuesday, 305 Women's Bldg.

**AREE-IRE** meeting, 7:30 p.m. Thursday, 104 White Hall. Panel of electrical engineers will discuss "After Graduation, What?" Refreshments.

**COMMUTING STUDENTS** interested in playing intramural basketball call Ron, NE 7-3471; Frank, GR 6-0890; or Jim, GR 5-4913.

**FROSH CHAPEL REFS**, meeting 7 p.m. Tuesday, Chapel House, 711 Comstock Ave.

**METHODIST** Pre-Ministerial luncheon meeting, Chapel Lounge. Dr. Howard Hunter, Boston University School of Theology, will interview candidates in the Methodist Chaplain's office.

**HILLEL** Cultural Committee

# Three Grads Honored at Dinner

At the 16th annual meeting and dinner of the National Board of Syracuse University Alumni Club Presidents recently held in Sadler Hall, Mrs. Kenneth Erskine, class of 1917, was cited for her alumni activities and presented with a silver bowl. Clifford Strait, class of 1929, and George Kirkgasser, class of 1907, also received alumni awards.

Kappa Delta sorority. Strait is president of the Canandaigua Alumni Association and Watershed Inspector for the

Canandaigua Lake Watershed. Secretary of the Hershey Manufacturing Company from 1928 to 1960, Kirkgasser is now retired.

Citations were read and the presentations made by Chancellor William P. Tolley, who also gave a brief address to the 175 alumni who attended the dinner.

Mrs. Erskine, wife of the late Kenneth Erskine, served the unexpired term of her husband as a member of the Board of Directors of the SU Alumni Association. She is house mother at

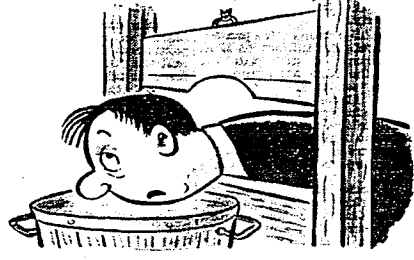

meets Wednesday, 7:30 p.m., Room C, Chapel House, to complete plans for the Nov. 19 Institute.

**ALL PERSONS** assigned by campus political parties to supervise ballot boxes for freshman elections on Wednesday must meet at the JSG office at 7 p.m. Tuesday, 143rd floor of the Men's Gym.

**JUNIOR CLASS NEWSLETTER**—all articles due Nov. 1, typewritten, 751 Comstock Ave.

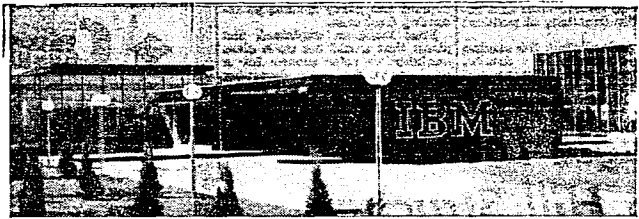

**SOCIETY of Military Engineers**, 7:30 p.m. Tuesday, prefab 1a. Everyone interested. Trips to Niagara Falls Power Project and Fort Belvedere will be discussed.

## DOING IT THE HARD WAY by haff (GETTING RID OF DANDRUFF, THAT IS!)

**easier 3-minute way for men: FITCH**  
Men, get rid of embarrassing dandruff easy as 1-2-3 with FITCH! In just 3 minutes (one rubbing, one lathering, one rinsing), every trace of dandruff, grime, gummy old hair tonic goes right down the drain! Your hair looks handsomer, healthier. Your scalp tingles, feels so refreshed. Use FITCH Dandruff Remover SHAMPOO every week for positive dandruff control. Keep your hair and scalp really clean, dandruff-free!

# IBM WILL INTERVIEW NOVEMBER 14

Candidates for Bachelor's or Master's Degrees are invited to discuss opportunities in:

### Engineering

This is a unique opportunity to find out about the many career opportunities at IBM. The IBM representative can discuss with you typical jobs, various training programs, chances for advanced education, financial rewards, and company benefits—all important factors that affect your future.

#### SOME FACTS ABOUT IBM

**An Unusual Growth Story:** IBM has had one of the exceptional growth rates in industry. It has been a planned growth, based on ideas and products having an almost infinite application in our modern economy.

**Diverse and Important Products:** IBM develops, manufactures and markets a wide range of products in the data processing field. IBM computers and allied products play a vital role in the operations of business, industry, science, and government.

**Across-the-Country Operations:** Laboratory and manufacturing facilities are located in

Endicott, Kingston, Owego, Poughkeepsie, Vestal, Yorktown, N. Y.; Burlington, Vermont; Lexington, Ky.; San Jose, Calif.; Bethesda, Md.; and Rochester, Minn. Headquarters is located in New York City with sales and service offices in 180 major cities throughout the United States.

The Accent is on the Individual: No matter what type of work a person does at IBM, he is given all the responsibility he is able to handle, and all the support he needs to do his job. Advancement is by merit.

The areas in which IBM is engaged have an unlimited future. This is your opportunity to find out what that future has to offer you. All qualified applicants will be considered for employment without regard to race, creed, color or national origin.

Your placement officer can help you to learn more about IBM. He can give you literature describing the many career fields at IBM. He will arrange an appointment for you with the IBM representative. If you cannot attend an interview, write or call the manager of the nearest IBM office:

R. V. Neary, Branch Manager  
IBM Corporation, Dept. 882,

"WHERE EVERYONE MEETS UNDER THE CLOCK"

# CAP Candidates Hold Discussion

By JEANNIE KANOV

An address by Peter Locke, Campus Alliance Party freshman presidential nominee, Monday afternoon turned into a spirited half hour discussion between the four CAP candidates and members of the Reformed Independent Party.

About 15 persons were present in Maxwell Auditorium to hear Locke speak at 1:15 p.m. He blamed the slim attendance on the rainy weather. Peter Locke, Carol Rondeau, CAP candidate for frosh vice president, Bonita Sealise, candidate for secretary and Philip Quartier, running for treasurer, spoke briefly to the group about the CAP platform.

Then Locke asked for questions from the floor and in a few minutes the discussion was focused on the corruption charges that have been placed against both CAP and United Students in recent weeks.

Locke emphasized that no influence was or would be exerted upon him by CAP, and charged that the RIP candidates were trying to "ride into office on the corruption issue."

At this point, at least four of the present, who from their comments were probably RIP members, began refuting Locke's statements.

A coed, who refused to give her name to the Daily Orange, said if "there were no corruption, we wouldn't have felt the need to form the party (RIP)."

Then Locke mentioned the charge he would bring to RIP presidential candidate Douglas Millbury to debate with him today on the functions of political parties.

He explained that the session would not actually be a debate, but a forum, with Millbury and himself answering questions put then by a freshman audience.

The unidentified coed told Locke that Millbury had already declined the challenge. RIP member John Trever said Millbury had a class at the time Locke wanted to debate, and also that Millbury "was afraid it would turn into a mudslinging contest."

Locke charged that RIP was fearful of having its candidate participate in such a forum, he said the RIP candidates had refused to take part in an on-the-spot debate in a cottage Sunday night when the opposing candidates met while campaigning.

In earlier discussion about the CAP freshman platform, the candidates took turns explaining and enlarging upon the seven main planks.

Locke said a strong executive council is vital to the effective functioning of the class. He said that if elected, he and his officers, plus the defeated United Students and RIP presidential candidates, would screen applicants for the council, trying to distribute them evenly among freshman living centers.

In addition, the CAP platform calls for a monthly frosh assembly meeting with representatives from each freshman floor and cottage attending to discuss class and living center problems and projects.

Locke and Quartier emphasized that their plans call for their class to govern itself, and that CAP would not interfere in any way.

The CAP candidates also endorsed a plan for a political convention to be held next fall to explain the party system to incoming freshmen.

Miss Rondeau explained the plank that would set up a class workday to raise money for a scholarship for one deserving freshman who could not return to school for financial reasons.

# RIP, CAP, US Nominees Set Platforms

(Continued from Page 1)

ble and cultural programs. The entire slate advocates unity, in a government which will represent the freshmen and act on their behalf.

The candidates in the Campus Alliance Party are: Peter Locke, president, from Bell Harbour, in liberal arts; Carol Rondeau, vice president, from Livingston, N.J., majoring in history; Bonita Sealise, from Orange, Conn., majoring in home economics, and Philip Quartier, treasurer, from Richfield Springs, majoring in liberal arts.

Each party stated their desires to acquit the incoming freshmen with the political system at the university and unify the freshmen as one body.

# Leaders Deny Party Influence

In a statement released Sunday, eight campus student leaders affirmed that political parties do not interfere with the actions of elected student officers.

Among those signing the statement were Betsy Evans, president of Joint Student Government, and Ted Clark, former JSG head.

The statement, distributed by the Campus Alliance Party, read: "Political parties have not and will not dictate any policy regarding class policy after elections."

# Nixon Sees Survival In Added Strength

(Continued from Page 1)

times let the Russian leader know that we are determined to show our strength to preserve freedom," he added.

"Whenever any American feels we have been going down the wrong road it is his duty to speak up," the former vice-president said. Today, he said, I am concerned because for 8 months we have been talking bigger than we have acted both in Cuba and in Laos.

Khrushchev is a poker player, Nixon said, and the U.S. shouldn't bluff if we feel he will call our hand. We encouraged the Communist in Laos and Cuba and now they have the idea we will back down in Berlin, he added.

Nixon listed what he said was Khrushchev's strategy for winning the war of peaceful coexistence. First, the Russians demand something they don't have or aren't entitled to.

Second, Khrushchev threatens. Finally, Nixon said, the Russians demand we settle the matter by giving them half of what they want but aren't entitled to.

"We know Khrushchev is a cold sober man," Nixon said, "and we must realize that when the chips are down he will act only after cold calculation."

This is why we must answer the Russian threat to conquer the world by peaceful competition by staying strong and never accepting for America a policy of defeat, the 1962 candidate for governor of California warned.

"The greatest mistake we could make today," he concluded, "would be to give Washington more power." We Republicans, he added, believe that the individual enterprise by 180 million Americans will bring the victory over Communism for all time.

Nixon had been introduced to the enthusiastic audience by New York Governor Nelson Rockefeller as the "symbol of unity in the Republican party."

# Faigle Lectures On Hill Structure

Dr. Eric Faigle, Dean of the College of Liberal Arts, spoke yesterday afternoon to the freshmen Citizenship students on the structure and composition of the university.

Faigle pointed out that the part of all major policies on the Hill is the Board of Trustees. These men and women meet twice a year in a spring and fall conference to map out policy affecting all students and faculty at the university. The Board of Trustees is also composed of an executive committee which meets twice monthly to confer on current university problems.

The policies of the trustees are then funneled into the offices of the campus administrators, such as the Dean of Men and the Deans of the various colleges where they are acted upon and put into effect.

Next in line in the university is the faculty. According to Faigle, "here rests the most important part of any university. This is why an outstanding faculty is important to both students and to administration."

The students, the students government, and the various student groups compose the fourth division of the university. This group, according to Faigle, is the largest policy making body in the university.

Between this group and all others exist the greatest communication problem on campus. According to Faigle, the numerous committees and groups exist on this level so that student opinion can be drawn from these various sources and fed more effec-

tently into the other policy making areas in the university.

The remaining three groups in the university which make and affect policy on the Hill are the Alumni, the parents, and the residents of Syracuse. These groups vary in their effectiveness but each can make its wants felt when a major issue is to be decided.

All these groups, said Faigle, combine to form a structure similar to what one will find outside the university. "Teaching a student to move himself and his ideas thru these groups or similar organizations is one of the main functions of the university. If, after four years, if a student can not do this, he has failed the university and the university has failed him."

## Student Panel to Consider 'How Ugly is Ugly American' Tonight in Maxwell Hall

"How Ugly is the Ugly American?" This is the theme of a panel discussion to be held at 8:30 p.m. today in Maxwell Auditorium.

The discussion, co-sponsored by the International Students Organization and the Syracuse chapter of Pi Sigma Alpha, national political science honorary, will consider the relative merits of the Peace Corps and other American attempts at good-will diplomacy.

Moderator for the panel will be Dr. Carol Fisher, of the sociology and anthropology departments. The panel will consist of Dr. George Crespi, of the geography department, Fairouz Fatemi of Iran, Mutih Sammeri of Iraq, Hugo Bianche of Chile, and Robert Sewald of the United States.

The meeting will be opened by Tirandaz (Tiru) Irani, of India, president of the ISO, Kenneth Norwick, president of Pi Sigma Alpha, will conduct the program with a brief summation.

"This is the first of a series of such discussions," Irani said. "It is hoped that through these programs students will become better acquainted with the problems confronting foreign people in the United States and Americans in other countries."

Today's discussion, Irani said, will attempt to consider "well-intentioned" American efforts at

diplomacy that have "backfired." He cited the recent incident concerning a Peace Corps member in Nigeria as an example of the many difficulties the Peace Corps is bound to meet.

Irani said that these discussions will also attempt to clarify where international students in

America stand with regard to the question of international understanding.

"Through this series," Irani said, "we hope to explore new possibilities for international understanding as well as to determine where and why we have failed."

## White House Aid To Address ESSPA

White House Assistant Edwin R. Bayley will be guest speaker at the Empire State School Press Association banquet Friday night in Sims Hall.

The 24th annual ESSPA convention Friday and Saturday marks the first time that all meetings, conventions, classes and the banquet will be held entirely on campus.

Bayley, former director of public information with the Peace Corps, was appointed special assistant to the president in September.

Gene Gilmore, journalism instructor and executive secretary of ESSPA in New York State, said he expects 650 high school students to attend the convention.

ESSPA representatives will assemble at 9 a.m. Friday in the Colonial Room of Hendricks Chapel. After campus tours, Edmund Arnold of the School of

Journalism will address the opening assembly.

Scholarship examinations will be given during the day to seniors who wish to study journalism at Syracuse next year. Three scholarships will be awarded in newswriting and current events.

Meetings and discussion groups will convene all afternoon. The discussion sections will be divided into reporters and editors, yearbook staffers, magazine staffers and school paper staffers. There will be a special section for advisors.

More meetings are scheduled for Saturday morning. These will include a yearbook clinic a mimeograph demonstration and a seminar on photography and cartooning.

As a finale to the weekend, ESSPA convention members will attend the Syracuse-Pittsburgh football game Saturday afternoon.

## Three Slates Vie For '65 Offices

By HARVEY MOSS

Freshman class officer elections will be held all day today at the entrances to Sims, Watson and Graham dining halls and at DellPlain Hall. For the first time in several years, paper ballots will be used instead of voting machines.

According to Samuel Farr, Chief Justice of Joint Student Court, the change to a joint student government this year caused some confusion and the voting machines were not applied for soon enough. Ballot boxes, used before the machines, were available and will be used.

The freshman campaign has been marked by a heated controversy over whether the freshman candidates nominated by United Students Party or Campus Alliance Party would owe their allegiance to the freshman class or to their party upon election.

The Reformed Independent Party has contended that because of alleged corruption in the other two parties, this is the major issue. It appears that the election might hinge on this point.

Similar Platforms  
The platforms of the three parties do not vary very much. US and CAP want the Executive Council to serve in an advisory capacity and the Freshman Assembly to be a representative board. RIP wants the Executive Council to consist of 10 to 15 members chosen at large from the freshman class solely on merit.

The three parties also have contended that freshman unity will be one of their major objectives. They plan to achieve this through social, charitable, athletic and cultural functions.

Different Baals  
Both CAP and US candidates have asked that the freshmen vote on these platforms and base their choices more heavily on the candidates' personal qualifications and not on their party. Many RIP supporters, however, say this is the most important issue.

Reformed Independent Party are: Douglas Milbury, of Shrewsbury, Mass., a pre-law student, for president; Alan Andler, of Newton, Mass., a political science major, for vice-president; Nancy Walker, a liberal arts student from Schenectady, for secretary; and Charles Carter of Plainfield, N.J., an accounting major, for treasurer.

CAP  
CAP is running Peter Locke, a liberal arts student from Belle Harbor, for president; Carol Roudeau, a history major from Livingston, N.J., for vice-president; Bonita Sciales, an Orange, Conn., home economics student, for secretary; and Phillip Quartier, a liberal arts student from Richfield Springs, for treasurer.

US  
The US candidates are: David Baily, from Valatie, a forestry student, for president; Karen Nobler, vice-president, from Rochester, a pre-law major; Penny Shapiro from Philadelphia, Pa., majoring in elementary education, for secretary; and Storm Jorgenson, treasurer, a history major from Fort Hope, Ont.

## Fallout Shelter Food

## Dr. Dibble Presents Problems About Water and Food in Shelters

By DANIEL RUTEX  
Any prospective fallout shelter should have at least a two-week supply of food for all its inhabitants. This was the conclusion reached by Dr. Maxine Dibble during a lecture on the subject of "Food for survivors in atom shelters."

This lecture is the third in a series of ten to be given under the auspices of the Civil Engineering Dept. of the University. It was given yesterday in 201 Hinds Hall.

Dr. Dibble stressed that any conclusions that could be drawn relating to food in a shelter would have to be based on a two-week stay in the shelter. This is so, because theoretically the individual is held responsible for his own survival for the first two weeks following an atomic war.

After a two-week period in the shelter, people could come out to look for food and, also, for this time local and Federal officials should be able to help survivors obtain food. Furthermore, Dr. Dibble said, a two-week food supply could be stretched to cover a four-week period if the need arose.

Other pressing problems for the shelter inhabitants would be the lack of room to dispose of garbage, the primitive sanitary conditions that would arise and most important, the problem of water supply.

Dr. Dibble pointed out certain requirements that foods in a shelter would have to meet. The food would have to be cheap to maintain, and cheap to buy. This is so because an individual would have to foot the bill for a two-week supply by himself.

Furthermore, she added, the food would have to be able to stay on a shelf for long times—up to five years in emergency. The food would have to be easy to prepare, cause a minimum of waste, and most of all, be low in protein.

This last point is vital, because foods with high protein content would tend to make people thirsty and would harmfully affect the fluids in the body. Under average circumstances, the water supply of a shelter would not be sufficient to allow for the extra water which would be needed because of a high protein diet.

Commenting on the problem

of water in the shelter, Dr. Dibble stated that the minimum amount of water per person per day should be one gallon. Of this, two quarts would be for consumption and cooking, and the rest would be used for other needs such as washing, medical use and emergency.

Dr. Dibble stressed that only clean water should be kept in a shelter, and that it should be stored in heavy plastic containers with tight lids or in glass jars. These jars, she added, would have to be guarded against accidental breakage.

In cases of extreme emergency, Dr. Dibble said, most people could live for two weeks in a shelter without food, but with water. Food, however, would enable the survivors to fight off disease, keep their strength, and maintain their morale.

If possible, Dr. Dibble stated, clean water in the shelter should be allowed 2000 calories of food a day. This would allow for an unforeseen extension of the time that a person would have to remain in the shelter. Also, it would allow for a 100 per cent increase

(Continued on Page 8)

## Alleged Shaw Thief Caught By SU Cops

A long series of thefts in Shaw Dormitory was capped Tuesday afternoon when the Security Police apprehended an alleged suspect.

Since September, about 15 thefts have occurred in Shaw involving money and jewelry. The police were notified of the thefts and in an attempt to catch a suspect they planted phosphate-marked money where it would be noticed and possibly picked up by the thief.

Yesterday afternoon it was observed that the money was missing and the Security Police were called to investigate the theft.

Patrolmen Howard Baldwin and Raymond Cretzer went to Shaw and began a search of the rooms that were involved. In their search, they came across indications that the person who had allegedly taken the money had tried to remove the phosphate indicator from her person by scrubbing her hands and changing some of her clothes.

The alleged thief was questioned by Baldwin, Cretzer and Miss Cico McCracken, director of Shaw Dormitory.

The girl denied taking the money, Robert Flaherty, director of Security Police, and Assistant Dean of Women Jean Crawford were called to further question the girl. After more than a half hour's questioning, the girl still denied any connection with the theft.

Flaherty said that although the girl did not admit the theft, the indicator on her person made her suspect.

No charges were placed against the girl because the stolen money was not found on her person, and positive proof could not be obtained.

## LOST, FOUND IN BLDG. 19

The Security Police wish to notify all students and university employees that lost and found items should be turned in to the Security Police in Building 19 opposite Sims dining hall as soon as they are found.

Such items are not to be given to or kept by the janitors of the buildings in which they are found. All lost items should be reported immediately to the Security Police so they can be traced and returned.

The Reformed Independent Party has contended that because of so-called corruption in the other two parties, this is the major issue. It appears that the election might hinge on this point.

### Alleged Shaw Thief Caught By SU Cops

A long series of thefts in Shaw Dormitory was capped Tuesday afternoon when the Security Police apprehended an alleged suspect.

Since September, about 15 thefts have occurred in Shaw involving money and jewelry. The police have notified the thefts and in an attempt to catch a suspect they planted phosphate-marked money where it would be noticed and possibly picked up by the thief.

Yesterday afternoon it was observed that the money was missing and the Security Police were called to investigate the theft.

Patrolmen Howard Ealdwin and Raymond Cretzer went to Shaw and began a search of the rooms that were involved. In their search, they came across indications that the person who had allegedly taken the money had tried to remove the phosphate indicator from her person by scrubbing her hands and changing some of her clothes.

The alleged thief was questioned by Baldwin, Cretzer and Miss Cicco McCracken, director of Shaw Dormitory.

The girl denied taking the money. Robert Flaherty, director of Security Police, and Assistant Dean of Women Jean Crawford were called to further question the girl. After more than a half-hour's questioning, the girl still denied any connection with the theft.

Flaherty said that although the girl did not admit the theft, the indicator on her person made her suspect.

No charges were placed against the girl because the stolen money was not found on her person, and positive proof could not be obtained.

#### Similar Platforms

The platforms of the three parties do not vary very much. UIS and CAP want the Executive Council to serve in an advisory capacity and the Freshman Assembly to be a representative board. RIP wants the Executive Council to consist of 10 to 15 members chosen at large from the freshman class solely on merit.

The three parties also have contended that freshman unity will be one of their major objectives. They plan to achieve this through social, charitable, athletic and cultural functions.

#### Different Goals

Both CAP and US candidates have asked that the freshmen vote on these platforms and base their choices more heavily on the candidates' personal qualifications and not on their party. Many RIP supporters, however, say this is the most important issue.

The candidates for the Reformed Independent Party are: Douglas Hillary, of Newbury, Mass., a pre-law student, for president; Alan Andler, of Newton, Mass., a political science major, for vice-president; Nancy Walker, a journal art student, for president-elect; secretary, Charles Carter of Plainfield, N.J., an accounting major, for treasurer.

#### CAP

CAP is running Peter Locke, a Liberal arts student from Belle Harbor, for president; Carol Tondreau, a history major from Livingston, N.J., for vice-president; Esota Scales, an Orange, Conn. home economics student, for secretary; and Phillip Quartier, a Liberal arts student from Richfield Springs, for treasurer.

#### UIS

The US candidates are: David Eball, from Valatie, a forestry student, for president; Karan Nobile, vice-president, from Rochester, a pre-law major; Penny Shapiro from Philadelphia, Pa., history major, for education; for secretary; and Storm Jorgenson, treasurer, a former major from Port Hope, Ont.

### Fallout Shelter Food

## Dr. Dibble Presents Problems About Water and Food in Shelters

By DANIEL RITKEY  
Any prospective fallout shelter should have at least a two-week supply of food for all its inhabitants. This was the conclusion reached by Dr. Majorie Dibble during a lecture on the subject of food for survivors in atom shelters.

This lecture is the third in a series of ten to be given under the auspices of the Civil Engineering Dept. of the University. Dr. Dibble spoke yesterday in 201 Hinds Hall.

Dr. Dibble stressed that any conclusions that could be drawn relating to food in a shelter would have to be based on a two-week supply in the shelter. This is so, because theoretically the individual is held responsible for his own survival for the first two weeks following an atomic war.

After a two-week period in the shelter, people could come out to look for food, and also, by this time local and federal officials should be able to help survivors obtain food. Furthermore, Dr. Dibble said, a two-week food supply could be stretched to cover a four-week period if the need arose.

Other pressing problems for the shelter inhabitants would be the lack of room to dispose of garbage, the primitive sanitary conditions that would arise and most important, the problem of water supply.

Dr. Dibble pointed out certain requirements that foods in a shelter would have to meet. The food would have to be cheap to maintain, and cheap to buy. This is so because an individual would have to foot the bill for a two-week supply by himself.

Furthermore, she added, the food would have to be able to stay on a shelf for long times—up to five years in emergency. The food would have to be easy to prepare, cause a minimum of waste and, most of all, be low in protein.

This last point is vital, because foods with high protein content would tend to make people thirsty, and would harmfully affect the fluids in the body. Under average circumstances, the water supply of a shelter would not be sufficient to allow for the extra water which would be needed because of a high protein diet.

Commenting on the problem

of water in the shelter, Dr. Dibble stated that the minimum amount of water per person per day should be one gallon. Of this, two quarts would be for consumption and cooking, and the rest would be used for other needs such as washing, medical use and emergency.

Dr. Dibble stressed that only clean water should be kept in a shelter, and that it should be stored in heavy plastic containers with tight lids or in glass jars. These jars, she added, would have to be guarded against accidental breakage.

In cases of extreme emergency, Dr. Dibble said, most people could live for two weeks in a shelter without food, but with water. Food, however, would enable the survivors to fight off disease, keep their strength, and maintain their morale.

If possible, Dr. Dibble stated, each person in the shelter should be allowed 2000 calories of food a day. This would allow for an unforeseen extension of the time that a person would have to remain in the shelter. Also, it would allow for a 100 per cent increase

(Continued on Page 8)

### LOST, FOUND IN BLDG. 19

The Security Police wish to notify all students and university employes that lost and found items should be turned in to the Security Police in Building 19 opposite Sims dining hall as soon as they are found.

Such items are not to be given to or kept by the janitors of the buildings in which they are found.

All lost items should be reported immediately to the Security Police so they can be traced and returned.

Business Manager ..... Andrew Levitt

## Election Day

During the past few weeks the Daily Orange has supported the so-called "Frosh Revolution," deeming it an admirable indication and manifestation of the independence and political courage a particular class can exercise on this campus. We applaud the freshmen for their political achievements thus far. We hope that the class of 1965 continues to exhibit the intelligence and insight they have shown thus far.

We do not endorse the frosh party's slate of candidates in today's freshman elections. But, for that matter, we also do not endorse the slates of either of the other two parties. Instead, we heartily recommend that all freshmen who vote in today's election, and we hope that all freshmen do vote, consider only the qualifications and platforms of the individual candidates and disregard completely the particular parties they represent.

Once the polls are closed and the new officers determined, campus political parties are meaningless. Only the new class officers are important. And if the freshman class intends to continue its admirable record, it needs only the best for its leaders.

## Pete Brokaw

Hill football fans were stunned over the weekend at the news of the auto accident which abbreviated Pete Brokaw's college career as a grider. Pete's loss is a great blow to the Orange squad, for he was an integral part of the offense, one of the Piety eleven's leading halfbacks.

But even more than this, his misfortune was a personal blow to many of his teammates. For while enemy tacklers felt no love for the Nyack speed-merchant, his fellow players valued his friendship. Pistol Pete's quiet humor and sincerity made him a real favorite among the Hill gridders.

## Frosh Examines Political Revolt

Editor's Note: The writer of this analysis is a freshman who has closely observed the political activities of his class.

By JOHN D. MANARA  
The political turmoil that has disrupted the normally smooth process of party machinery is almost over. Since he has been formed and the candidates have finished their campaigning; now only the voting remains. . . retrospect, one can see both good and bad results from the recent political revolution.

It is, without a doubt, good that many of the students who previously scorned campus politics have been aroused by happenings of the past weeks and become interested in their future leaders. Because of this new student interest in campus government, political leaders have realized that they can no longer continue to make unchallenged policies.

The new political movement forced a long overdue change in party nomenclature, procedures. The sacrosanct pillars of campus politics have been shaken at their foundations; it is an experience the parties will not soon forget. The freshman class revolt appears to have been exactly what Syracuse student government needed.

There is, however, much to be said against the revolutionary movement on campus. This movement, attributed to the FFE, RIP, has employed many of the corrupt methods that their leaders claim the other campus parties are practicing. Offers for candidacy and "fines" have been utilized to gain backing, political agreements have been recanted, and unnecessary mud-slinging has taken place.

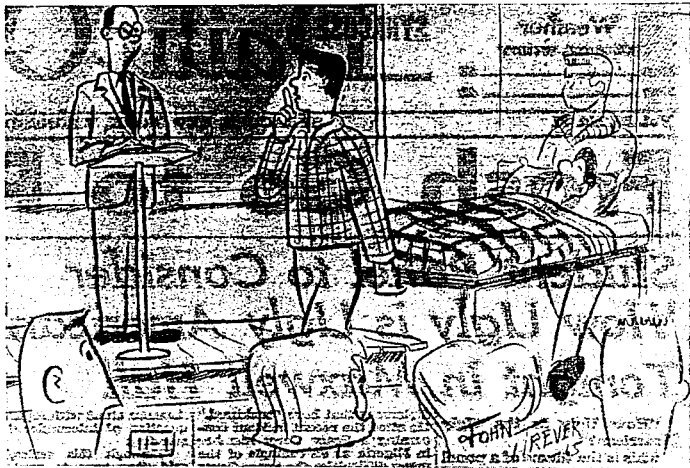

It seems that a group which expounded high ideals has fallen far short of its mark. Unfortunately, this group has depended on a following which is, in many cases, bedazzled by the thought of being associated with well-publicized "angry revolutionaries." This fact was admitted by one of the new party's bosses.

It appears that RIP's original goal, to nominate a slate of superior candidates, has been lost in an abyss of political expediency. It is probable that their third slate will only add confusion to the elections, for at this point all the slates seem about equal in the quality of candidates.

Now it is up to the freshmen. If votes are cast for a candidate merely because he is or is not affiliated with a certain party, or because he is good-looking, or smooth, or witty, we're back where we started. If, however, the freshman splits his ticket and votes for candidates he feels will be superior leaders, the original objectives of the freshman revolt will have been realized.

—LETTERS—

## Reader Knocks US Complacency

To the Editor:

I have seen no news in your paper of the popular indignation and its accompanying frustrations regarding the threat of nuclear warfare.

I have just returned from two years spent living as a student in Europe and Britain. In England and Scotland the students and the people have organized nationally to demonstrate in protest against prevalent nuclear armament policies.

I see no sign of any such active popular demonstration here, only an appallingly passive and indifferent atmosphere, which is only disturbingly broken by the now occasionally heard advertisement for fallout shelters. . .

Where does the great American freedom-to-live find solace or strength in this decadent inaction and effete complacency?

Puerile attitudes are, of course, especially shocking and underlined if they find a welcome in the student community. If the student, the only social member sanctioned to live and think experimentally, within the law, does not feel able—or even worse, willing—to dissent, to make literate protest, or seek ways of expressing liberal democratic ideas more clearly, who ever will, in this country?

I am curious to know if there are other similarly inclined persons in the university community, and whether they are aware of the effectiveness of marches and public demonstrations, such as have been staged in Britain, and whether they believe such a mode of protest would succeed here, in however limited a way.

Gordou H. Hills

## Policy On Letters

**POLICY ON LETTERS:** The letters column is maintained for the expression of opinion by readers. However, the Daily Orange reserves the right to edit letters for grammar and good taste or to reject letters. Letters should be written legibly, preferably typed, and no longer than 250 words. All letters must be signed with names and addresses; names will be withheld on request.

—Send Me No Flowers—

## And In The City

By ALAN G. MILLSTEIN

It has become imperative that Henry Norman be elected mayor of Syracuse. The events of the last few days have created the necessity and urgency of Norman's victory at the polls next Tuesday.

The Republicans offer very little in the way of leadership or programs for Americans in the sixties. Anyone who listened to the national party leaders, Rockefeller and Nixon, addressing the local pre-sold audience Monday realizes that the Grand Old Party is very old and very tired.

Nixon told the \$100-a-plate guests at the Republicans will continue to fight to give individual initiative back to the American people. We must restrain the Kennedy Administration, he went on, from taking more power and giving power instead to 180 million Americans and we will win the fight with Communism.

Anyone unconvinced that the Republicans are bankrupt of ideas (certainly not financially after Monday's blowout) need only read the recent and past editorials of the Syracuse journalistic sage, Alexander F. Jones.

Jones, in his customary spot on the editorial page of the Herald-Journal, endorsed William Walsh last week in glowing terms. According to the interesting "Notes of Cases" Jones which involves a fascinating bit of reasoning and rationale, Bill Walsh is the best man for mayor because in a television debate with the other three candidates he failed to stand out and there was considerable nose holding.

But, Jones goes on, "a real performer never looks good arrayed against inexperienced and punchy opponents." In other words, Walsh is really better than the opposition but he hasn't been able to let us know.

"There is a forward march quietly sounded in the Walsh program . . ." Jones says, and most of his readers agree that Walsh has been pretty quiet when it comes to answering some of the vital questions facing the future of this city.

Apparently the great Jones reading audience wasn't getting the message he was so quietly putting across so Monday he sharpened his journalistic fangs and really let Norman have it square between the eyes.

Jones went after the "small group of faculty eggheads on Piety Hill who are deeply interested in political experimen-

tation." Sinister implications were drawn by Jones from the fact that political theorists at Syracuse University were brewing some supernatural potion which was dragging the city into believing that the Republicans hadn't done a good job in the last forty years and that Bill Walsh wasn't going to City Hall right on schedule.

The accusation was made that Norman was a guinea pig for the enjoyment of the Hill people. For Norman, who knew Joseph Goebbels' technique of the "big lie" to win the election,

What has been eating up Jones is that for the first time in forty years the Democrats have a candidate who is filling the "political vacuum" in Syracuse. For four years on the Board of Supervisors and ever since he handily won the primary in September, Norman has never ceased to talk about the issues, about the crises facing this city and about what he plans to do when elected.

What has been frightening the local Republicans, and Monday's diatribe is good evidence that they think they needed some heavy support from prominent national figures, has been Norman's presentation of the issues. For Norman, the crisis in this city is in black and white, but for the Republicans there is no crisis and they make it seem a crisis: to dare to say publicly that civic leaders have not done a good job of that Syracuse is not the greatest city in the Northeast.

And the national Republican leadership has seen fit to bring a paragon to town which stresses the unity of Republicans wherever they exist. They hope a bond of common devotion to the party will produce victories at the polls today and tomorrow.

On several occasions I asked William Walsh what the Republicans can offer to counter their lethargy of the past four years. Honestly he has answered that what he offers is himself. This is not enough. What is needed is a complete overhaul and disinfecting of city government. The job is too big for Walsh—his nomination is endorsed to too many people. It would be impossible for him to set the house in order.

Henry Norman can bring to Syracuse the youthful outlook that President Kennedy has taken to Washington. His ideas are imaginative, but sound, and his enthusiasm is unbounded. Literally, he could bring a new frontier to this slowly disintegrating city—all he needs is your help.

# Bob Stem: Blockbuster With A Battered Knee

## Mister 100 Per Cent

BOB STEM

By DAN GARR  
If Bob Stem had been dubbed with a nickname like many other outstanding athletes, it undoubtedly would have been "Mr. 100%." Such a figure is indeed indicative of his all-out play for the Orange both on offense and defense. Stem's performances this season rate him as one of the outstanding linemen in the East.

Standing 5-11, the solidly built (210-lb) senior center and line-backer from Phillipsburg, N.J., is a rugged athlete who has been hampered by injuries for the past two seasons. He is off to a fine start as a sophomore, but a combination of mishaps and incumbent Al Bemiller kept him on the bench.

Things looked good for Bob this year also, but after the injury he had his number 1 in the season, however, he was promoted to the first team, where he is

today a key fixture in the Orange front wall.

**Superb Efforts**  
Stem's superb efforts this year are a continual source of joy to Coach Ben Schwartzwalder and defensive line mentor Ted Dailey. In every game to date he has provided countless hard blocks, firm tackles, and a keen diagnosis of action around him.

Bob has intercepted one pass this year - and it was an important one. His snaring of an errant West Virginia aerial halted a drive by the inspired Mountaineers in the second half of the Orange's home opener.

But Stem played the outstanding game of his career against Nebraska. Even for a healthy person, it was a brilliant performance. However, when one considers that Bob played on a knee that was severely bruised and swollen, his superb effort can be

rated as one of the top individual performances of the year.

While the average person would hesitate to venture off his back in such a condition, Stem played an entire game.

**All-Around Athlete**  
A fine all-around athlete at Phillipsburg High, Bob was a three-letter man, winning monogram in wrestling, track, and football. As a matman, he was state champion in the 165-lb. class. In track and field he was versatile in the weight events, throwing the discus and the shot. His good speed also made him a fine sprinter.

But it was in football that Stem excelled. As a fast, mobile guard, he won All-State honors. And after the season, he was selected for honorable mention on the National Scholastic All-American squad. With such an impressive record, Bob received many scholarship offers, but he decided to attend Syracuse and Piety fans are unanimous in applauding his decision.

With the 1961 campaign past the halfway point, Bob has played outstanding football, and he's improving with every game. Although most fans are aware of what goes on in the offensive backfield, few appreciate the value of good line play. Watching Bob Stem in action is an opportunity that should not be passed up. He's one of the best.

# ALL in the GAME

By KEN DARLING  
Daily Orange Staff Writer

LATE IN THE FIRST QUARTER of Saturday's Holy Cross-Syracuse game, a short, stocky Orangeman wearing no. 42 jumped off the bench and darted onto the field. Immediately the sports writers in the Archbold press box began asking, "Who's this?"

A quick check revealed that no. 42 was not listed on the official program. Scurrying to the roster, the writers found that the newcomer was Augustine "Gus" Giardi, identified as a 5-9, 170-lb. sophomore halfback.

Before the members of the press corps had time to wonder who Ben Schwartzwalder had found this body, little Mr. Giardi had gone to work. Taking the first handoff of his varsity career, Gus proceeded to dash nine yards and the men of the press began to take notice.

Before the afternoon was over, Giardi had made his first varsity appearance one that will be long remembered by the Parents' Weekend crowd of 31,000. All he did was gain 68 yards with just eight carries, pick up six first downs, score a touchdown, and win the game's outstanding sophomore award. Not bad for a fellow who was so lightly regarded in September that he wasn't given a place on the program.

During the post-game locker room celebration, much attention was given to the Hillmen's new secret weapon. A check revealed that Gus is closer to 5-7 than 5-9, although he does tip the scales at 170 pounds. His stocky build, coupled with his dodging and darting running style, prompted him teammates to christen him "the Joe Bellino of Syracuse."

Gus informed his new-found admirers from the press that last year he was one of the managers of the freshman football team, since an injury kept him from seeing active duty. This fall he was lost among the army of varsity reserves until the rash of injuries to highly-rated players gave him a chance to demonstrate his abilities.

Although unknown until last Saturday to Syracuse grid fans, Giardi's name is a familiar one among football followers in New Hampshire. Gus hails from New Bedford, N.H., and played his scholastic football at Manchester Central High School. One of Giardi's teammates during his sophomore year at Manchester was a young fellow named Dave Sarette.

During his New Hampshire career, Gus gained many laurels. He lettered in three sports, was All-State in football for two years, and made honorable mention high school All-America for two years. Giardi also was named the best back in New Hampshire by that state's sportswriters in 1959, and was selected to play in the 1960 Florida Maple-Sugar Bowl game between Vermont and New Hampshire.

After all these honors, it was quite a change to come to Syracuse and ride the bench for a year and a half. At one point this smallest member of the Hill squad was wondering if he would ever see foot on the Archbold turf. But Gus got his chance and he certainly made the most of it.

## Skytop Meeting Opens Hill Ski Club's Season

The first meeting of the Syracuse University Ski Team, Freshman and varsity, will be held tonight at 8 in the Skytop Ski Lodge. A new racing film will be shown and workout schedules will be arranged.

The ski team, coached by Elton Fairbanks, will compete in approximately 10 meets this winter, including St. Lawrence, Colgate, Cornell and the Winter Weekend meet.

For the past four weekends members of last year's team have been rebuilding the two ski jumps at Skytop using railroad ties for the lips of both the 15 meter and 30 meter jumps.

Cocher Fairbanks, in his second year at Syracuse, has invited any-

one interested in joining the team to attend tonight's meeting. Varsity as well as freshman team members are needed. Last year's squad carried 18 men. In addition to jumping the team competes in cross-country skiing races.

# Holy Cross Game Jumps Syracuse Team Statistics

This past Saturday Syracuse finally played like the pre-season predictions said they would. With a strong offensive game, the Orangemen increased their first down total to 94, ten more than their opponents.

Their rushing yardage has jumped to 1270 yards which, added to their 523 yards gained passing, shows a fine 1793 yards on total offense. Their opponents have totaled 1546 yards on offense, 956 yards on the ground and 590 yards in the air.

The Orange have completed 43

of 77 passes attempted while their foes have hit on 47 of 103 tries. Syracuse has been penalized 284 yards as compared to their opponents' 216.

Ernie Davis has totaled 461 yards rushing to bring his average up to 5.4 yards per carry. Gary Fallon has gained 180 yards, Bill Meyers has carried for 153 yards and the injured Pete Brokaw and Bill Schoonover have rushed 146 and 108 yards respectively. Schoonover leads with 8.3 yards per carry followed by Meyers with 7.7. Fallon with 4.6 and

Brokaw with 4.4. Davis remains the leading scorer with 9 touchdowns and 56 points. Dave Sarette is second with 16 followed by Ken Ericson with 13. Walt Sawyer with 12 and Mike Wynn with 8.

Quarterback Sarette has completed 27 of 46 attempts for a 58.7 percentage and 377 yards. Bob Lelli has hit on 9 of 13 for a 69.2 percentage and 56 yards. Walt Salsman has gained 46 yards completing 6 of 13 for a 46.2 percentage.

## SU Voted 2nd in East, Returns to AP Listings

Syracuse made a mild comeback in this week's football polls while Michigan State rolled along in first place.

Although the Orangemen remained off the UPI poll for the second straight week, they did garner enough votes to place 19th in the Associated Press version of football's hierarchy.

The brightest light for Syracuse shone in the Lambert Trophy voting, emblematic of Eastern football supremacy. The Orangemen moved up to second place after falling to fourth last week.

Penn State leads the Lambert voting. Navy and Army, both upset losers over the weekend, dropped to fourth and fifth, respectively. Unbeaten Rutgers placed third in the voting.

The sixth to tenth positions are filled by: Pittsburgh, Villanova, Colgate, Princeton and Holy Cross.

For the third week in a row, Michigan State copped the top spot in the AP poll followed by Mississippi. Texas and Alabama remained three-four. The first four teams are unbeaten and untied.

Once tied Ohio State moved up to fifth in place of Iowa, which dropped to ninth after losing, 9-0, to Purdue.

Michigan State and Mississippi were one-two in the UPI poll for the second straight week. The top five in the UPI list matches the AP version exactly.

The only spot in the top ten in which the two polls differ is number ten. AP named Missouri while UPI went with Minnesota.

Both polls list Georgia Tech sixth, Louisiana State seventh, Colorado eighth, and Iowa ninth. The only Syracuse opponents on the polls are Penn State and Notre Dame. The Irish placed 20th in the UPI list and 12th in AP. Penn State ranked 17th in the AP list.

Outside of the first five teams, the only other unbeaten squad is Colorado.

The Lambert Trophy could very well be decided this Saturday when Syracuse plays Pitt in Archbold Stadium.

## J-School Gets Grant

A check for \$1,000 will be presented to the Syracuse School of Journalism at the Empire State School Press Association banquet Friday night.

William H. Freeman, chairman of the board of Associated Business Publications, Inc. will present the money, which is a grant-in-aid from ABP to the J-school.

Syracuse and the Medill School of Journalism at Northwestern University are the recipients of the 1961 ABP grants.

The check will be accepted by Dr. George L. Bird, chairman of the graduate division of the School of Journalism.

The banquet will be a highlight of the 24th annual ESSA convention to be held on campus Friday and Saturday. About 800 high school journalism students and advisors and J-School faculty and staff are expected to attend.

The Moon, the only satellite of the Earth, from which her mean distance is 238,857 miles, has a diameter of 2,160 miles.

## Anthropologists Form New Club

The new S.U. anthropology club will hold its first meeting at 8 p.m. Thursday, 226 Kensington Road. All anthropology faculty members, graduate students, and upper division anthropology majors are urged to attend this meeting.

The main object of the club will be to have members meet together and exchange ideas about their fields, to have speakers meet with the group throughout the year, and to sponsor service projects.

# Panhel May Rent Coats To Foreign Students

By SUE CRUMBAKER  
 —Operation Rent-Coat— by which foreign students can rent warm winter coats for a nominal fee was suggested to Panhellenic Council at its meeting Tuesday night by Miss Emma Pangliani, Delta Xi member.

Miss Pangliani, explained to the council, "many foreign students are unprepared for Syracuse's cold winters, but do not feel it is essential to spend the money for a winter coat when they are here for only nine months."

Panhellenic could obtain coats from the Salvation Army and could, get used coats from coeds, suggested Miss Pangliani.

Panhellenic president Beth Jensen said that the Interfraternity Council also may be interested in the project and could

## Slim Attendance Prevents Fresh Political Debate

Slim attendance Tuesday afternoon caused cancellation of a debate between freshman class presidential candidates in Maxwell Auditorium.

About 25 Campus Alliance Party, United Students and Reformed Independent Party candidates and campaign managers were present, but few freshmen voters showed up.

So the candidates went on to a discussion in First Hall and an RIP "twister" in Watson Dormitory.

The lack of an audience was blamed on poor publicity by some of those present.

CAP presidential candidate Peter Locke Friday challenged RIP candidate Douglas Millbury to a debate, and Monday Locke extended his invitation to include the US presidential candidate David Bailey.

Locke had wanted to discuss the functions of the political parties and the corruption charges that have been made against US and CAP in recent weeks.

Locke spoke Monday in Maxwell Auditorium to a handful of freshmen, and was told by an RIP member that she thought such a discussion would be "pointless." Another RIP member said Millbury had declined the challenge, but he was present Tuesday.

Campaigning ended at midnight Tuesday.

## Social Security Interviews Set

A representative from the Social Security Administration will be on campus Nov. 16 to interview graduating seniors for representative training positions in its New York State and New Jersey offices.

Maurice C. Warren, assistant district manager of the Syracuse office, will be in Room 206, Women's Building that day.

Any interested seniors should contact Placement Officers Marguerite Ruoff or Frederic Way for details.

**L. G. BALFOUR CO.**

donate the men's coats. Rox Koff, Panhellenic activities chairman, will be in charge of the project.

Miss Pangliani also asked Panhellenic to consider "adopting international brothers and sisters among the 561 foreign students on the Syracuse campus."

Each sorority of the sororities as a whole set up a list of sisters to the foreign students, according to Miss Pangliani. They would answer any questions the foreign students might have, or write to the students' brothers or sisters back home.

One hundred fifteen upper-classwomen pledged sororities during formal fall rush and 21 pledged during informal fall rush, according to Virginia Frykman, Panhellenic rushing chairman.

The annual "Panhellenic on Parade" will be held November 18 for the freshmen coeds, said

Miss Frykman. This will include a convocation to explain rushing procedures in the prospective rushes and a poster display by each sorority.

"Future of the University" will be the topic for discussion at Panhellenic's Sky Top Conference November 19. Dean Marjorie Smith will speak and the president and Panhellenic delegate of each sorority will attend discussion groups.

One of the major officers of Panhellenic may not be able to attend the conference. According to Miss Jensen, Panhellenic Vice-President Nancy Moore has contracted mononucleosis and gone home. It is yet unknown whether she will be able to return to school this year.

Exchange dinners between sororities and fraternities are scheduled to begin November 18.

## DKEs Traditionally Ring Daily Chimes

By SANDI EHRlich  
 Some day while walking across the quad, you may hear the Crouse chimes peal out the "twist!" The pledges of Delta Kappa Epsilon work minor miracles with only 11 notes at their command.

Three times a day, one of the DKE's climbs three flights of stairs in Crouse to a picturesque room with a fascinating history. The parmes written all over the walls of the circular room remind one of the fathers of DKE's, who were in a "miliar position years ago.

The room, which is approximately 30 feet high, has wooden rods connected to a rectangular box. The rods are attached to levers, which ring the chimes.

Chimes Master Junior Paul Ivory, a Latin American relations major, is the appointed chimesmaster. He schedules the pledges, keeps the bells and room in condition, and keeps track of the music.

Ringling of the chimes is one of the oldest Syracuse traditions. They were built in 1871 in Troy, New York, and given to the school by D. Edgar Crouse, son of the founder of Crouse College. The first DKE to ring the chimes was C. Winfred Douglas, who later became an Episcopal canon. They have been continuously rung by the DKE's since then,

except for a few years during World War II, when Alpha Phi Sorority girls took over for the men.

St. Louis Blues  
 In 1931, there was a minor misfortune. A slightly inebriated DKE played "St. Louis Blues" on the chimes at 3 a.m., which put the house on social probation for a semester.

However, on the "plus" side, in 1958 Dean Noble awarded a plaque to the DKE's for distinguished service with the chimes for over 75 years.

This year, the chimes add a definite atmosphere to the campus at 12 noon, 1 and 5 p.m. If mms are played at noon, but the afternoon chimes may be any form of popular music (as long as it ranges from middle C to D in the next octave).

## What makes Artcarved Diamonds the favorite of America's College Queens?

Actually there are many reasons. Artcarved diamond rings must meet traditionally high standards for color, cut, clarity and carat weight. Their award-winning styles are a delight to the eye. And, they take all of the guesswork out of buying a diamond. Every Artcarved ring carries a written guarantee for quality and permanent value that's recognized and respected by fine jewelers from coast to coast. We think you'll agree with America's lovely College Queens.

Stop in at your jeweler and be sure to see all the exquisite Artcarved diamond rings—the rings you buy with confidence and wear with pride.

# Dibble Discusses Shelter Problems

(Continued from Page 1)

in the shelter's population. These calculations are based on the fact that the average person could exist on 1000 calories a day.

Dr. Dibble pointed out that all foods are perishable, except for cans. The idea for a person in a shelter would be to obtain the cheapest, and most long lasting food possible.

Highly refined foods are the most stable, said Dr. Dibble. Such foods like salts, sugars, sea food and fermented beverages would have the longest shelf life—up to between 5-10 years.

Temperature would be a very important factor where food is concerned. Assuming that the average temperature in a shelter would be around 70 degrees F, canned foods kept at that heat would probably last a couple of years. If, however, the temperature was raised to 85 degrees F, these same foods would last only one and a half years. If it was lowered to 55 degrees F, the food would last for four and a half years.

On the matter of storing food in tin cans as opposed to glass containers, Dr. Dibble stated that tins would usually be safer, because they could take more punishment. However, she added, glass holders could be used if stored carefully and if the food was kept away from the lids.

Dr. Dibble noted some figures from the U.S. Department of Agriculture. She said that these were conservative estimates, but were on the safe side. For instance, at 70 degrees F, evaporated milk would have a six-month shelf life, vegetables and canned meats would last 18 months and canned fruits and soups would be edible for about eight months. These figures are subject to changes due to temperature, humidity and packaging of the food.

Foods that would require extensive cooking would not be practical in a shelter. Likewise, foods that leave a lot of scraps would similarly be unusable. Stove-top cooking would be the best cooking utensil—they would cut down on excessive heat and smoke.

Another problem that shelter inhabitants would face is that of the disposal of wastes. The two most serious would be human waste and dirty cans and scraps. A low bulk diet would help cut down the problem of human waste disposal.

Dr. Dibble put forward several plans by which the shelter's food could be made up into meals. One method, the dinner as usual way, would allow one person seven quarts of milk, 8-9 lbs. canned meat and vegetables and 2-1/2 lbs. canned fruits, for a two-week span. It would also allow for various starches and oils. This method would provide a variety of palatable foods which could be obtained fairly easily. On the other hand, this method would be expensive, high in protein, hard to store and waste producing.

Other methods include a one-dish plan—one can of corn beef hash or macaroni and cheese a day which would be good except for the facts that it would be high and low in calories; the survival pack plan which would use rations much like the military "C" rations, and the austere diet plan which would, use, say, peanuts as the main staple.

Dr. Dibble concluded by saying that foods in cans which were above ground during an attack could be used by survivors only after they had thoroughly washed off any radioactive dust from the can itself. Radiation from a bomb would not really harm the food, the only danger would be from the settling dust.

### New SDX Officers

Senior Robert Secwald has been elected president of Sigma Delta Chi, professional journalistic society.

The new vice-president is senior Michael Eppinger, Joseph Montebello, a junior, has been elected treasurer and senior Lewis Grossberger, secretary and publicity director.

Joel Fishman represented the Syracuse chapter at the national convention in Miami Beach last weekend.

# JSL to Consider NSA Membership

By MELANIE COHN

The issue of Syracuse University's membership in the National Students Association will be presented to the Joint Student Legislature at its Wednesday night meeting. The decision to present this issue was made by the JSL Steering Committee Tuesday afternoon.

Joint Student Government President Betsy Evans said membership in NSA would be good for Syracuse. Such a move must be approved by JSL members and then the University Personnel Committee consisting of JSL committee heads and administration members. The final decision, however, rests with the JSL.

A discussion on food service will also be held at today's meeting. JSL will take a positive action on this matter if necessary. Plans for a student handbook

to be published in the near future by the University sub-committee were discussed. This handbook will take the place of the Orange Guide and will also contain rules and regulations of the University. The handbook will also clarify gambling and drinking laws.

Revlon Clause Ted Dayer, Chairman of Student Conduct and Welfare Committee, announced that a revision of the 1950 Discrimination Clause for social organizations is in order. At the present time any discrimination charges are brought through student government officers to the Personnel Committee.

A public opinion poll is among JSL's plans for the year. This poll will be set up by either JSL Executive Branch or a new JSL committee. Students will be able to sound opinions on any important campus issues.

JSL has discovered that enough parking space is available on the campus for undergraduates with cars. Last year the faculty senate passed a resolution stating undergraduates could not have cars due to the lack of parking space. Bayer said that it has been found that there is enough space and JSL will hold an investigation to determine the amount of space available.

JSL is moving to action. So that they are able to take as much action as possible, more people must take an active interest in JSL. The leadership is ready and willing to do something and only needs more people. The Student Committee is prepared to do all the student body wants them to do this year, but students must realize that they too must support JSL," said Ginny Privatero, Speaker Pro Tempore.

## JSL Discusses Discrimination

By JOYCE HERGENHAN  
Junior Editor

A university board created in 1955 to work for the elimination of campus fraternity and sorority discriminatory clauses has not been doing its job, according to a report presented at Wednesday night's Joint Student Legislature meeting.

Sen. Sam Patterson, Sadler 7, delivered the report for the JSL Ways and Means Committee. In it, he described a Discriminatory Clauses Act passed by JSL six years ago and the anti-discrimination board this act created.

This board was to consist of the Deans of Men and Women, the presidents of Panhel, IFC, Women's Student Government and Men's Student Government, a faculty representative from the honoraries and a faculty representative elected by the rest of the board and was to meet annually to work for the elimination of restrictive clauses.

The board, according to Patterson's report, held its last recorded meeting in 1956 and has not met at all since 1959.

Although the board has not been meeting as provided, Dean of Women Marjorie C. Smith and university Vice President Frank Eskler, the chairman of the board, feel definite progress has been made towards eliminating discrimination on campus.

As evidence of this, Patterson noted that in the one-year span between 1951 and 1952, three Hill fraternities and two Hill sororities eliminated restrictive clauses. No records have been kept since 1952, so these statistics have to be considered the most recent ones compiled on the subject.

### Proposals to Board

In an effort to discover the present position of the board, JSL voted to present it with six proposals at its first meeting this year.

These proposals request: an evaluation of how successful the board has been; an annual report to JSL on its progress; more meetings throughout the school year; a report of the board's proposed plan of operation; and an invitation into the possibility of publishing anti-discrimination literature.

In other business, JSL voted to go on record as opposed to some of the present practices of the university food service and to prepare a letter to students' parents describing the shortcomings of the service.

### Petition Presented

Junior Class Senator-at-Large Robert Becker presented the legislature with a petition protesting the abuse of a 15-year-old Georgia boy. Representatives were asked to take the petitions back to their living centers for signatures.

Living centers not represented at Wednesday night's meeting are requested to pick up petitions from Helen Miller at Marshall Cottage, 204 Marshall St. before (Continued on Page 7)

DOUGLAS MILBURY

## Panel Concludes All Americans Not 'Ugly Americans'

By HARVEY J. MOSS  
All Americans are certainly not "ugly" decided a discussion panel of five students and a faculty member Wednesday night in Maxwell Auditorium.

The panel, sponsored by the International Students Organization and Pi Sigma Alpha, national political science honorary, consisted of students from Chile, Iran, Pakistan, the United States, and Dr. George Cressey of the geography department.

Dr. Carol Fisher, of the Sociology and anthropology department, served as moderator.

During the discussion of "Ugly Americans" (Continued on Page 7)

## Applications Due For Grad Exams

Applications are due Friday for the Graduate Record Examinations to be given on campus Saturday, November 18.

Information and forms are available at the Committee on Special Opportunities office, 106 Hall of Languages.

The Graduate Record Examination is required for admission at many graduate schools and also for New York State Regent College Teaching Fellowships, Danforth Fellowships and other grants.

The examination will be re-opened January 20, 1962. Applications for this date should be filed by January 5.

## Ticket Scores In Heavy Vote

By JEANNIE RANOV  
Junior Editor

An avalanche of freshman votes Wednesday swept all four Reform Independent Party candidates into Class of 1965 offices.

Douglas Milbury pulled in 695 presidential votes, topping the 337 votes for United Students' David Bailey and 255 for Campus Alliance Party's Peter Locke.

## SU United Fund Goal Surpassed By Faculty, Staff

The SU drive for the Unit 1 Fund Campaign more than exceeded its goal for 1961, according to George Abbott, co-chairman of the campus drive and assistant to the dean of the College of Engineering.

Faculty and staff pledges totaled \$38,215.60, which was 103 per cent of the set goal. Abbott reported that he expected the total to go even higher, due to post-drive pledges.

SU students pledged \$500. J. Alvin Callahan was co-chairman along with Abbott. Assistant chairmen were Burton L. Fink, Jane Cammaridella, Paul W. Gilbert, Robert Satterlee, John B. S. neore and Thomas B. Clayton.

Alan Andler took the vice presidency, with 628 votes, defeating CAP's Carol Rondeau with 391 votes and US' Karen Noble with 280 votes. New frosh secretary Nancy Walker received 608 votes over Penny Shapiro of US with 483 votes and CAP's Bonita Sealace with 239 votes.

Charles Carter overwhelmed his opponents for treasurer with 813 votes. CAP's Philip Quarter got 263 votes and Storm Jorgenson of US took 256 votes.

Voting was heavy with 1369 freshmen casting ballots. Balloting was generally evenly divided between Graham, Sims, Watson and DellPlain polling booths.

### Straight Tickets

A straight RIP ticket was voted by 248 students, 78 went US all the way, and 65 voted a solid CAP ticket.

Counting was heavy with 1369 ballots, and then the actual tabulation was made. A slight discrepancy was found involving a few votes. US President, Ellis Gaskell, said he wanted a recount, but it was then discovered that about 300 ballots cast in Sims had not been counted in.

After these were added to the totals, a small discrepancy still existed, but not one that would change the outcome of any of the balloting. US and CAP officials said they would ask no further recounting.

RIP President Michael Leiberman said minutes after the final count, "The freshman class has justified the existence of our party—they proved this today by supporting our candidates."

### CAP, US

David Chase, CAP President said the real fight had been between his party and US. "Everything was basically in favor of the frosh winning," he said, "but CAP has made a good job."

In last spring's elections, CAP candidates took only four posts, and US candidates 28.

US President Ellis Gaskell congratulated Leiberman, and expressed disappointment in Joint Student Government's handling of the election machinery.

"I am somewhat disappointed," he said, "because US had a good slate and our candidates did a good job of campaigning."

Acting Joint Student Government head Samuel Farr praised the election commissioners for "doing a good job in a difficult election."

## DeBernardis Knocks GOP Charter 'Rush'

By NITA KAMM

Slamming the Republican Party's "rush" to pass through the proposed county charter, Paul C. DeBernardis, mayoral candidate on the Independent ticket, called the move a plan to present "another political plum" to the Republican party.

DeBernardis was the only candidate to show up at a panel Wednesday. Democrat Henry Norman was represented by Richard Newman of the Maxwell School of Citizenship, while Dr. Joseph C. Deane, dynamic candidate, sent his campaign manager, William Maloney, Republican William Walsh was not represented because of a heavy schedule.

DeBernardis charged that the plan to have the first county executive appointed by the incumbent board of supervisors was an attempt to continue Republican control of the county.

### Newman Reads

Newman, reading a prepared statement from his candidate, attacked the charter for "freezing in the abuses which we desire to correct." He criticized the lame-duck effect of appointing the executive and called the charter

the "weakest of all possible charters."

Labeling the charter a "tyrannical, drastic instrument," Maloney said that it gave too much power to the executive. He refused Republican claims that the charter would save the county money, stating it would end up costing the tax-payers an additional half million dollars.

Newman attacked the charter because it did not eliminate the overlapping and duplication in the present governing system. He supported a more definite form of metropolitanism than that presented in the charter.

Maloney took issue with Newman on this point, predicting that such metropolitanism would lead to the destruction of government on the local level.

DeBernardis sarcastically attacked Walsh for not making the needed statement, stating that "it's the third time in three successive weeks that he's pulled this." This is the only time he hasn't shown up," DeBernardis added.

Walsh, in a statement read by moderator Edward McEvoy, assistant professor of public address, stated that he was very sorry that he couldn't attend, but

that he had informed McEvoy of this two weeks ago.

The present mayoral campaign comes to a close with election Tuesday November 6. It has been a hard fighting, mud-slinging, charge-exchanging campaign, in which all four candidates have been actively involved.

Among the many counter-charges thrown around were those involving bribe, leftis and inefficiency.

Major issues in the campaign have been urban renewal in city's 15th ward, wa-- rights, taxes, and the city charter.

### Students Present

An additional highlight to the incident was the presence of a large number of university journalism students who were assigned to cover the story for their journalism classes. Such classes or journalism laboratories, one student explained, are designed to give journalism students actual field experience rather than just book knowledge.

"This requires us to know a great deal about what is going on in city, state and national politics," another student said. "We never know what our next assignment will be."

Editor-in-Chief Sam B. Girgus Business Manager Andrew Levitt

RIP Victory

We would like to give our complete and wholehearted congratulations to last night's winners in the freshman election. The fact that the frosh chose the Reform Independent Party candidates by such a landslide vote is perhaps an expression of their desire to raise the level of student politics on campus.

Sorority Sisters

A story in yesterday's Daily Orange reported a suggestion made by a Day Hall student dean to the Panhellenic Council to the effect that Panhel rent "warm winter coats for a nominal fee" to foreign students who are not adequately prepared for the wonder that is a Syracuse winter.

On the surface, these suggestions would seem an admirable indication of Panhel's good will and tolerance towards others not quite like themselves. There is no doubt that the many international students represented on this campus would greatly appreciate the services Panhel is considering rendering them.

Beneath the surface, however, these seemingly noble suggestions are really a rather poor example of how to evade the heart of the matter. Why is it that a suggestion was not made to invite these same international students to rush and pledge? Why is it that the whole question of discrimination, and, particularly, Panhel's blatantly discriminatory system of rushing, was not discussed?

There is no longer time for pussyfooting; there is only time for action.

Nobody can say that prominent Syracuseans are caught in the throes of apathy now. They should be congratulated for pulling themselves out of the alleged world of stagnation they formerly inhabited.

Controversial issues on the Hill have appeared in abundance this year. Perhaps the most stagnant world of all, the world of SU politics has exploded into an issue of vital importance for many.

Perhaps the frosh took their cue from the reformer of New York City, Mayor Robert F. Wagner. But whether they led or were merely following, the frosh, probably the greatest class at Syracuse since the one which preceded it, lit the flames of controversy.

And we also saw the Greek system being challenged, with tempers flaring and ultimatums being issued. Like the political controversy, the fraternity issue became one of the good, far-sighted guys vs. the bigoted, narrow-minded bad guys.

When I pledged my fraternity back in my freshman days, I was happy to know that it had no religious or racial barriers, and I considered that tolerance a point in the fraternity's favor. Now I am not a bigot,

nor do I get with tainted conscience, but I do not think that the absence of discrimination on the part of my house was THE reason I joined it. And I am proud of the fact that my house does not discriminate against any racial or religious group.

But this factor was one of many contributing characteristics. It would be silly indeed for a freshman to pledge a house on the basis of that house's anti-discrimination stand if he couldn't get along with its members.

Pledging a house has been overplayed as a moral issue. DO editorials have declared that pledging must certainly be a moral issue. Is pledging a fraternity to be equated with spearheading a political movement?

I hardly think that I would have become an immoral bigot had I joined a different house, Sam Girgus has been defended, and rightfully so, for having joined a fraternity with a discriminatory clause on the basis of his fight for enlightenment once in the house. Why does that defense not hold true now?
