RS Pro Signal Amplifier, UHF 4 860MHz

RS Stock No: **439-4747**

Product Details

RS Pro signal amplifier is ideal to boost low signal levels in domestic TV or radio applications. It boosts weak digital terrestrial UHF TV signals; also conventional analogue signals. It includes mains plug and lead. This signal amplifier is designed for indoor use only.

Features and Benefits

- Combination of switched gain and excellent signal handling for optimal reception in most conditions
- Signal power boost switch for high power and low power option
- Includes mains plug and lead
- Designed for indoor use only
- Fully screened
- 230 V - 50 Hz
- Less than 5 W

ENGLISH

Specifications:

Maximum UHF Frequency 860 MHz

Minimum UHF Frequency 40 MHz

Number of Outputs 4

Supported Frequency Bands UHF

UHF Gain 10 dB
