High-Speed, High-Capacity Storage with Video and Netbook Versatility

Lexar offers a complete line of award-winning memory cards in various speeds, formats, and capacities. With so many options, it's easy to find the right Lexar® solution to fit your needs and lifestyle.

Designed for photo and video enthusiasts, the Lexar Platinum II Secure Digital High Capacity (SDHC™) card is a high-speed, high-capacity card designed for sustained rapid-fire picture-taking and full-motion video with SDHC-enabled digital devices. The card has a transfer speed of up to 100x (15MB/s)*, and is available in 4GB, 8GB, 16GB, and 32GB capacities.

Designed for Fast-Action Photos and HD Video

Maximize Your Photo- and Video-Taking Experience. Leverage the video and photo-taking abilities of your SDHC-enabled DSLR, point-and-shoot digital camera, or digital camcorder. With the high-capacity, high-speed performance of the Lexar Platinum II SDHC card, you can take a huge number of photos in quick succession using the "burst mode" feature of your camera, as well as fully leverage the video capabilities of your point-and-shoot digital camera. Using a Lexar Platinum II SDHC card means you can always capture that perfect moment.

Optimize the Storage Capacity of Your Netbook. The high-capacity Platinum II 32GB SDHC card also provides a convenient solution for significantly expanding the memory of your netbook computer. It's a great way to store and watch a large number of HD movies on the device, as well as transfer content to other devices via the card.

Performance, Reliability, and Compatibility. The Lexar team works with major camera manufacturers to ensure all Lexar memory cards are compatible with their digital cameras—from the simplest to most complex. The cards are also tested in the Lexar Quality Labs, facilities with more than 800 digital cameras and memory card devices, to further ensure compatibility and performance. In addition, all Lexar Platinum II cards come with a limited lifetime warranty. Whether you're shooting and storing action photos or HD video, the Lexar Platinum II SDHC card is an excellent high-capacity, high-performance solution to your storage needs.

Lexar offers a comprehensive line of innovative, award-winning memory products in several categories, including memory cards, card readers, DRAM, USB flash drives, and portable backup drives. With so many options, it's easy to find the right Lexar solution to fit your needs.

Lexar. When Memory Matters.™

Lexar Platinum II cards are sold in Europe as Lexar Premium Series cards. Limited lifetime warranty is limited to 10 years from purchase in Germany.

*Up to 15MB/s read transfer, write speeds lower. Speeds based on TestMetrix certified tester. X=150KB/s.

Some of the listed storage capacity is used for formatting and other purposes and is not available for data storage. 1GB equals 1 billion bytes. For more information, go to www.lexar.com/capacity.
