- 17. If your MAC OS doesn't accept to run the installation file because it's from an unknown Developer. <u>Please proceed according to the following steps:</u>
 - Click on System Preferences

Click on Security & Privacy icon

• Click on the lock to make changes

• Provide the MAC administrator logon privilege

| o | | | trying to unloc ype your passw | |
|---|-----------|-----|-----------------------------------|--------|
| | Username: | auc | | |
| | Password: | | | |
| | | | Cancel | Unlock |

• Chose the Anywhere option:

Allow apps downloaded from: Mac App Store Mac App Store and identified developers Anywhere

• Click the lock to prevent further changes

Allow apps downloaded from: Mac App Store Mac App Store and identified developers Anywhere

• Run the SAP GUI installation file then change back the settings to MAC App Store using the same steps.

If you have any issue with the above steps, kindly contact the SAP Basis & Netweaver System Administrator

Thank You!
