Aoyagi is sometimes referred to as the green counterpart to Sango kaku. The foliage is a bright lime in spring and throughout the summer. It is one of the few palmatum cultivars with a consistent clear yellow fall color. It has bright pea green branches that become yellowish in the winter. Aoyagi's leaves are smaller and more twisted than Ukon's. (Green coral)

Shindeshojo is a variegated upright with flaming pink-scarlet leaves in spring. Its summer color is a mottled green, and its fall color is a brilliant red. It has better color than and lasts longer than any flowering tree. Shindeshojo is taller than Beni maiko, but still will only grow to be approximately 12'. (New hands of a young girl)
