# Microsoft Volume Licensing Service Center

The Microsoft Volume Licensing Service Center (VLSC) is the primary site where Microsoft Volume Licensing customers can view and manage their licensing agreements.

You can perform many tasks in the VLSC. Some of the main tasks are downloading software products, obtaining keys and managing subscriptions to online services.

# Using the Downloads and Keys page

In order to access VLSC Downloads, end users must have at least one of the following roles associated with a license ID within their profile.

Administrator
Download
Software Assurance Manager

If you have Open License agreements, then the products you have purchased are displayed for download where available. If you have a Select, Select Plus, Enterprise, Campus or School Agreement, then you can view the entire Volume Licensing product catalog.

You can use the product search filter to find your products and product keys. In the Filters pane, you can type the product name or use the check boxes to narrow your search results. You can also control how many products are displayed on the page by using the paging control at the bottom of the page. You can change the filter settings to display more products on a single page and reduce the page count of your search results. The default value of this control is 16.

This page allows you to do the following:

Download products
View a product description
View a description for a key
Determine which products need key
Locate the correct key for a product

#### 4

# To search for a software product

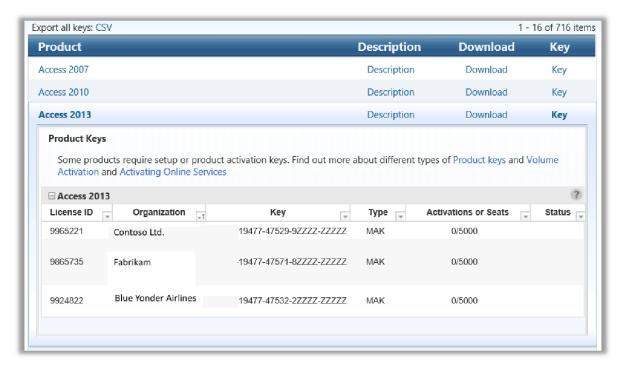

- 1. On the main navigation bar, select **Downloads and Keys**.
- In the Filters panel, type a product name into the Product text box. The
  Product text box displays possible suggestions as you type. You can select
  the suggestion to populate the text box. By default, the All Products check
  box is selected. You can clear this box to narrow your search results.
- If you do not know the name of your product, or if no suggestion appears in the **Product** text box as you type, then type the name of the product into the **Product** search box and select the **Search** icon.
- 4. On the **Product** panel, select the product you want. If the search results are more than one page, then use the arrows at the bottom of the Product panel to advance to the next page of search results.

## To download a product and obtain the keys

- 1. On the main navigation bar, select **Downloads and Keys.**
- 2. Search for a product by typing a product name into the Product text box, or filter products using the product type check boxes.
- 3. Select the product from the results and view the description.

Determine whether the product to be installed requires a product key. Select **Key** to view the type of product key for a product.

- 4. Select **Download** to download the product.
- Filters: Type a product name into the **Product** text box, or use the sort list to limit your search by product type. The Product text box displays possible suggestions as you type. Select the suggestion to populate the text box.

By default, the **All Products** check box is selected. You can clear this box to narrow your search results. If you do not know the name of your product, or if no suggestion appears in the Product text box as you type, enter the name of the software into the **Product** search text box, and then select the **Search** icon.

**NOTE** If you select a specific product family such as, Windows Server, and you type a product name into the filter box belonging to a different product family and select Enter, no search results will appear.

□ **Product**: In the search results, select the product. If your search results are more than one page, use the arrows at the bottom of the page to advance to the next page of search results.

**TIP** To view more search results on the page, select the **Items per page** control at the lower right of the Product column.

- □ **Description**: Select a product **Description** link to view the version, release date, and product description.
- Downloads: Select a product Download link to view special instructions, download settings, including the download method, language, and the operating system type.
- ☐ **Key**: Select a **Product Key** link to view information about
  - Product keys

License ID number
Organization
License Key
Туре
Number of Activations remaining from an initial number of activations for the Volume Activation.
Online Service Keys will display Number of Seats instead of Number of Activations, and the Status of the key.

If there are service packs for the products, these are included below the Product Keys information.

You can select the **Export all keys** link above the **Product** column to open the product keys list in a Microsoft Excel spreadsheet.

# To view a product description

- 1. On the **Download and Keys** page, select either the **Product name** or the **Description** link for the desired product.
- 2. The **Description** panel opens, providing the Version, Release Date, Product Description, and System Requirements for the product selected.
- 3. Select the **Product name** or **Description** again to close the drop-down list.

# To download a software product

After you search for and find your product, select the **Download** link for that product.

the language from the list.

1.	In Download Settings, select <b>Download</b> . Select the following options from the drop-down menus.		
		For the <b>Download Method</b> , select the down arrow, and then select a menu item from the list. There are two download methods:	
		<ul> <li>i. Download Manager is a software application used to download content. When using the Download Manager, you can pause, stop, and resume downloads later.</li> </ul>	
		<ul> <li>Web Browser is an embedded download feature within your web browser to download content.</li> </ul>	
		For the <b>Language</b> , select the down arrow, and then select	

☐ For the **Operating System Type**, select the down arrow, and then

select a menu item from the list (if available).

- 2. Select Continue. The Product section expands to show the Product, OS. Size, and Format in the lower area of the Product section.
- 3. In **Files**, select **Download**, **W** and then follow the download and installation instructions.

## To activate an online product

See the section in this guide titled Online Service Activations and Reservations.

## To locate a product key

If the product that you have installed requires a product key, or if you need a product key to activate an online service, you can obtain the product key from the VLSC. If you have problems with a product key or require assistance to activate your product, contact your local Microsoft Licensing Activation Center.

- 1. On the Downloads and Keys page, select the **Key** link for that product. The Product Keys drop-down panel shows the total number of available keys for this product.
- 2. Select the **Display All** button to display all of the keys. A popup window displays the available keys by License ID, Organization, Key, Type and Activation.
- 3. You have the option to select the **Export all keys: CSV** link above the Product panel to open the product keys list locally in a spreadsheet.
- 4. To locate a key by organization, see Accessing product keys by organization in the VLSC.

# **Product Key options**

If product keys are not available, you will see one of the following messages in the product keys drop-down panel:

- 1. No Product Key assigned The product you have selected requires a product key for activation. To obtain your product key, contact your local Microsoft Licensing Activation Center.
- 2. Online Service Activation (OSA) Key This single-use product key is used to activate subscriptions to Microsoft Online Services. OSA Keys are distributed electronically via the VLSC and can be redeemed at Office 365 Open activation or Azure Open activation.

3. No Key Required - This product does not require a product key.

# Accessing product keys by Licensing ID in the VLSC

When you need to view a product key for a product that you have purchased in a licensing agreement, you can access the product keys that are associated to your License ID by viewing the License Key information on the Enrollment Summary page. The Product Keys tab allows you to view all product keys associated with each product in the selected agreement.

- 1. On the VLSC main navigation bar, select **Licenses**, and then select **Relationship Summary**.
- 2. On the Relationship Summary page, select the Licensing ID link for the enrollment.
  - A Licensing ID may be an Enrollment (Enterprise or Select programs), an Affiliate (Select Plus program), an Agreement (Open Value program), or a License (Open License program). This depends on the Microsoft Volume Licensing program the Licensing ID is used with.
- 3. On the Enrollment Details page, select the **Product Keys** tab.
  - The **Product Keys** tab shows the product keys that are associated with each product on the selected agreement.
- 4. If you have an Online Service Activation key, activate this service by going to Office 365 Open activation or Azure Open activation. This will require you to establish a new account for either Office 365 or Azure using your organizational ID.
  - After you activate the service, you will be able to manage user access to product keys.

# Accessing product keys by organization in the VLSC

If you purchased an Enterprise Agreement, you can track your product keys by the organization and sort them in the open Microsoft Excel file in the Organization column.

- 1. On the VLSC main navigation bar, select **Downloads and Keys**.
- 2. On the Downloads and Keys page, locate the **Export all Keys: CSV** link.
- 3. Select **CSV** to download the product keys.

- 4. At the prompt, select **Open** to view the file in Excel.
- 5. Use the **Organization** column to sort the keys by organization.

# Finding a Part Number in the VLSC

Use the Downloads and Keys page to locate a Part Number in the VLSC. The part number is the last nine characters in the product download file name.

# Using the Services and Subscriptions page

You can also manage certain kinds of subscriptions in the VLSC. The <u>Services and Subscriptions</u> page of the VLSC provides information about managing your online services and subscriptions.

If you ordered an Office 365 subscription or Azure for Open, go to the **Relationship Summary** page or **Downloads and Keys** page in the VLSC to find your keys.

Once you have obtained your Online Service Activation (OSA) Key, you will

be directed to Office 365 Open Activation or Azure Open Activation to activate your Office 365 service.

• On this site, enter the key(s) to manage user access and keys.

# **Visual Studio subscriptions**

Visual Studio Subscriptions (formerly MSDN Subscriptions) offer essential tools, cloud services, resources, downloads, training and support for all developers targeting all platforms and devices.

The Visual Studio Subscriptions license agreement does not allow you to use your software in a business production environment. However, you can activate as many copies as you need for your development purposes.

#### Services and Subscriptions

#### **Online Services**

Microsoft Online Services are subscription-based, feature-rich enterprise software services that provide customers with continuous Microsoft software

- Savings over standalone products. You subscribe only to the software that you need.
- Enterprise-class reliability. Because offerings are hosted by Microsoft, you can enjoy enterprise-class performance with mi
- Latest software versions. You enjoy productivity advantages immediately—without upgrade costs or procedures.
- Please click here to learn more about Microsoft Online Services for Open programs

#### View or Manage Your Online Services

If your organization has purchased Online Services, the related entitlements be viewed or managed by following the link below. You Licensing IDs under which Online Services were purchased.

Online Services Agreement List

#### Subscriptions

Microsoft subscriptions that are available through Volume Licensing programs include Visual Studio Subscriptions (formerly MSDN

#### Visual Studio Subscriptions (formerly MSDN Subscriptions)

. Visual Studio Subscriptions (formerly MSDN Subscriptions) offer essential tools, cloud services, resources, downloads, training and platforms and devices.

Click here to visit the Relationship Summary and select a license ID to manage your organization's Visual Studio subscriptions (

#### Migrated Visual Studio Subscriptions (formerly MSDN Subscriptions)

In 2017, we will begin migrating the management of all Visual Studio Subscriptions (formerly MSDN Subscriptions) to a new portal. number of agreements will be migrated each week, until everyone's agreements have been migrated.

You will receive an email when your organization is ready to be migrated with the next steps you need to take. You will need to be Visual Studio Subscriptions Administration Portal to continue managing your organization's Visual Studio Subscriptions.

# Online Service Activations and Reservations

## Activate your online services (Open program customers)

Microsoft has simplified and streamlined the process Open program customers use to activate their online services. You no longer need to copy an activation key for every new online service.

Under the new simplified system, **Open program** customers can activate their new

online services (except Azure) with just a few steps in a new section of the VLSC for them named Online Service Activations.

**NOTE** Customers with **Enterprise agreements** will not see the **Online Service** Activations link in the top navigation menu. They can learn how to create and manage online services reservations in the <u>VLSC User Guide to Online Services</u>.

The VLSC will remind you if you have online services you have not activated.

Customers who only activate online services without purchasing other software products can activate them using an express method that does not require the VLSC.

To learn more about how to activate your online services, go to the VLSC https://www.microsoft.com/en-us/Licensing/existing-customer/vlsc-training-andresources.aspxTraining and Resources page and select the tab titled **Online service** activations.

How-to videos Related resources Online services activation Overview

# Online services activation

If you have an Open agreement, you can take advantage of a simplified process for activating online services through the Volume Licensing Service Center (VLSC). The Online Service Activations tab in the VLSC makes it easy to find the right page.

Find out how to activate online services in the VLSC.

If you do not use the VLSC and are subscribing to online services only, you can activate your online services by using a process that does not involve the VLSC.

Find out how to activate online services without the VLSC.

For additional information, please check the Online Service Activation FAQ for Open programs.

If you have an Enterprise, Enterprise Subscription, Campus, Schools, or US Government Microsoft Licensing Program, the Online Service Manager will receive an activation email after the first order was processed, asking them to activate the new services either on a new account (sign up) or on an existing account (sign in).

Find out how to activate online services for Enterprise, Enterprise Subscription, Campus, Schools, or US Government.

For additional information, please check the Service Activation FAQ for non-Open programs.

If you have a Microsoft Products and Services Agreement (MPSA), you have the option of subscribing to services on your own in the Microsoft Business Center. Customers with an MPSA agreement use the Business Center to manage their services and licensing instead of the VLSC.

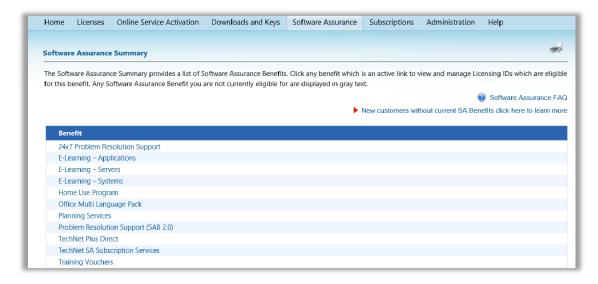

Find additional information on the Microsoft Business Center training and resources page.

### Sign in with your work account

After you activate your Microsoft online services such as Office 365, you and other users in your organization will need to sign in to those services with your work account.

# Microsoft Software Assurance

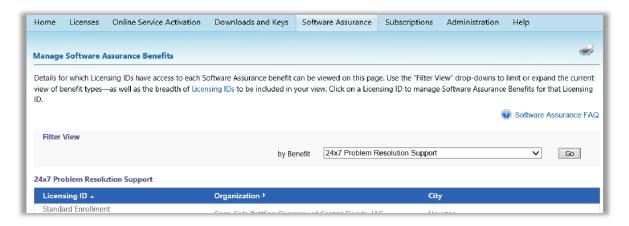

Select **Software Assurance** on the main navigation bar to navigate to the Software Assurance Summary page. This page provides a list of your Software Assurance Benefits (SAB). You can select a benefit to view and manage eligible license IDs for the benefit using the Manage Software Assurance Benefits page.

- To access the Software Assurance for Microsoft Volume Licensing page, select the link that says New customers without current Software Assurance Benefits click here to learn more.
- Select the link for any **Benefit** to open the Manage Software Benefits page.

# Using the Manage Software Assurance Benefits page

The Manage Software Assurance Benefits page allows you to select a Licensing ID associated with each Software Assurance benefit.

- Filter View: Use this menu to select a benefit option.
- Licensing ID: Select the product licensing ID to view the benefit summary for the selected product.
- Organization: View the organization for the selected Software Assurance benefit.
- City: View the where the selected Software Assurance benefit was signed.

# To manage Software Assurance benefits

- 1. On the main navigation bar, select **Software Assurance**.
  - The Software Assurance Summary page appears, showing a list of linked Software Assurance Benefits.
- 2. Select a benefit link to view details on a particular benefit. The Manage **Software Assurance Benefits** page appears.
- 3. Select the **Licensing ID**.
- 4. The **Benefits Summary** page opens. You can select the linked benefit to:
  - View your activated benefits
  - o Activate a benefit
  - View your expired benefits

For further details and instructions for using your Software Assurance benefits, download the VLSC Software Assurance Guide. It will help you accomplish the following tasks:

- Get to Know Your Benefits
- Establish Software Assurance Managers
- Claim Your Benefits Using the VLSC
- Get Help in the VLSC

# Getting help

Select the **Help** link on the main navigation bar to view a drop-down menu with two options: See FAQ (Frequently Asked Questions) or Training & Resources. You do not have to be signed into the VLSC to view and use the VLSC FAQs or Training and Resources.

The **Help** link in the footer at the bottom of every page in the VLSC also points to the FAQs page. There is a **Contact Us** link at the bottom of the FAQs page that points to information about how to contact Microsoft by phone or email if you need support. This Contact Us page has three items:

- Support Center Contact Info: This drop-down menu lets you select your country from the drop-down list to display the Support Center information.
- **Interactive map:** This lets you select the region to limit the number of entries in the Support Center Contact Info drop-down list.
- Support Center Contact Info: This displays contact information and Support Center hours of operation.
