(Incidental Take Permit Application for American Burying Beetle)

Submitted Wednesday, Sept. 16, 2020

View online: <https://actionnetwork.org/petitions/reject-keystone-xl-permit-to-kill-endangered-burying-beetles/>

Text of comment:

We urge the U.S. Fish & Wildlife Service to reject TransCanada / TC Energy's application for an Incidental Take Permit to kill 551 endangered American burying beetles during the construction and operation of its proposed Keystone XL pipeline.

The American burying beetle is one of nature's most efficient recyclers, feeding and sheltering its own brood while simultaneously returning nutrients to the earth to nourish vegetation and keeping ant and fly populations in check. Unfortunately, the beetle's own populations — which once flourished in 35 U.S. states, plus parts of Canada — were in dramatic decline throughout most of the 20th century due to a complex list of threats, with habitat loss, pesticides and disease likely topping it. Since it was listed as an endangered species in 1989, the American burying beetle has rebounded from just one known population to six native and introduced populations, including habitat in Nebraska prairies, open woodlands, scrubland, and forest edge.

TransCanada / TC Energy's proposed Keystone XL pipeline threatens the endangered American burying beetle with construction equipment that will crush them, and destroy their habitat. In addition, the Keystone XL project poses threats to the endangered beetle species habitat from both oil spills, and climate change, deriving from increased greenhouse gas emissions of the dirty tarsands oil being burned for fuel after it is pumped through the pipeline. The company proposes insufficient mitigation that will not protect the beetles from harm.

There is no reason to further endanger the habitat of the American burying beetle or any other endangered species threatened by the proposed Keystone XL pipeline project. We oppose the permit application and urge you to reject it.

Sincerely,

Patricia A	Lenzen	WA	98684	Absolutely do not give them to destroy another of the environment. Trans Canada cumulative destruction must stop! or be severely constrained!
Kae	Bender	CA	93536	After working for decades to restore the American burying beetle to some of its native habitats, it is incongruous and foolish to allow a foreign company to wantonly crush them and destroy the newly reestablished habitat. The midwest relies on species like the American burying beetle to return nutrients to the earth to nourish vegetation and to keep ant and fly populations in check. Stop consideration of reversing the progress. Reject the KXL application to destroy the American burying beetle.

Edward	Griffiths	WA	98103	I grew up in Hastings and am a graduate of Hastings College. I'm also a third generation farmer from Geneva, the crops of which sustain my family in retirement. It is amoral to knowingly kill any endangered species. It is unfathomable to allow a foreign corporation to place at grave risk the aquifer upon which the bread basket of the entire Midwest relies upon for fossil fuel profits--that's literally tens of millions of real people. NOT IN MY NAME DO I CONSENT to this abomination, this ecocide. this insanity. Bold Nebraska speaks for me, for farmers, for ranchers, for indigenous, & for the beetles & whooping cranes in REPUDIATING "incidental take permits".

Thank you.
David	Weible	IL	61821	I know that trump and his crowd do not care one bit about wildlife or our environment in general, which brings destruction everywhere they go. Keystone XL has been a damnable project led by damnable uncaring people all along the way. I oppose this application to kill, and to ignore endangered species, all in the interest of more fossil fuel damage and making money whatever the cost. REJECT this application to KILL.
				<p>I oppose any granting of an "incidental take permit" to TransCanada/TC Energy. The attempt by this totally unaccountable corporation to proceed with the devastating KXL pipeline is both crass and unconsionable. If granting of the permit is allowed, it would abuse and harm the sovereign rights of local Tribal nations, destroy local wildlilfe, abuse eminent domain for private gain to seize farmers' land against their will, and create a permanent threat to our land, water, and climate.</p> <p>As we have seen in the recent massive wildfires, climate breakdown is increasing, and allowing further destruction of the climate by the fossil fuels the KXL would carry would basically guarantee the destruction of the only environment we will ever have.</p> <p>I ask that no so-called "incidental take permit" be issued, now or in future.</p> <p>Than you for considering my comments.</p>

Richard	Johnson		68782	I oppose the Keystone XL pipeline.... endangering the habitat of the American burying beetle and other endangered species!
Stephanie	Stout	TX	77057	I OPPOSE the Keystone XL pipeline for multiple reasons. The construction itself endangers wetlands and aquifers, and any oil or DILBIT moving through that leaks out will pose a major contamination to the soil, water table, and waterways it would drain into. If we are to stop or at least reduce greenhouse gases caused by excessive fossil fuel burning, then we must phase out fossil fuel extraction, processing, shipping, and burning as fast as possible and permit no new oil and gas drilling or production. The Climate Crisis caused by global burning of fossil fuels is more dangerous to our environment including human life than all out nuclear war. Stop this pipeline.

Craig	Hanson	ID	83856	I say NO to the pipeline and NO to the Canadians wanting to circumvent our laws. Stuff your crappy oil.
Judith	Miller	WA	98404	I strongly oppose the permitting of an "incidental take permit" for the Keystone XL tarsands pipeline!!!. This is a devastating project on many fronts that exacerbate our climate crisis in a multitude of ways. Destroying habitat and losing species is a major assault on nature;s ability to sequester the CO2 and fight the climate impact upon us. Also, ANY support for fossil fuel use is short-sighted and foolish with the devastating impacts to our environment. Wake up and protect our country and our planet!!!.
D	Bell	NC	27525	I strongly urge you to reject the Keystone XL Permit to kill endangered American Burying Beetles.
Carol	Schmid	NE	68112	I urge you to reject TC Energy's request for an incidental take permit. Here in Nebraska, the construction of the pipeline will destroy the habitat of the endangered burying beetle not to mention endanger our ground water.
Cristina	Ramos-Payne	NY	10603	I vehemently oppose this permit application. It's harmful and sets a dangerous precedent for exploitation at the expense of our endangered species.

Lorraine	Feldhausen	NE	68046	Insects are important to the survival of an ecosystem. The pipeline is a threat to our planet. Protect the endangered beetles.,
Dakota	Altman	NE	68508	Invertebrates are tiny but mighty. Without them we would not exist. This is uncalled for. Our dependency on oil must stop, there are alternatives and maybe one of them being the reduction of how much we travel and be okay with the places we live by. Judith	Falck-Madsen		04593	It is sad that this petition is necessary.
William	Funk	VA	24401-46	It is simply illegal, contrary to federal law, for this pipeline to be approved contrary to the explicit intent of the ESA. Do your jobs and kill the motherfucker.
Linda	Carroll	WA	99205	It is time to move beyond filthy fuel and environment-destroying pipelines and adopt 100% clean, CHEAP renewables.
Valory	Mitchell	CA	94602	It is time we use our laws to prevent the kind of wanton destruction that has been proposed. I urge you to retain the application of the law! This is the intention of the law, and it is incumbent on you to uphold it.
Marilyn	Stachenfeld	CA	92656	It looks like a ladybug. don't kill it!
Pauline	Hunneman	ME	04032	It should be obvious by now that given an inch, oil companies will take a mile. We need less oil, more solar, and to pay attention to preservation of the species we have left.

Adam	Rivera	DC	20002	It's absurd to threaten what's precious and scarce in this world when we can meet our energy needs in ways that are much cleaner, safer, and respectful of biodiversity.
Deborah	Armor	OH	45014	It's always anything for money. It's destroying our world
Sara	Woodhull	CA	94043	It's not enough to grab and endanger Native American land; TransCanada wants to wipe out endangered animals TOO??? NO!
Shelley	Strohm	CA	90025	It's not just one useful, beautiful, and generally impressive beetle. It's a huge (and impressive) ecosystem. Save the burying beetle, the habitat and species it helps, and the land it needs.
Monika	Winchester	NC	27712	It's time the US Fish and Wildlife Service tell TransCanada/TC Energy no to everything. We do not need their tar sands destroying our environment -- which they will as there will be spills -- we do not need them destroying wildlife -- especially endangered species. Tell them to process their tar sands in Canada. Protect our environment and wildlife.
Wayne	Moss	IN	46208	It,Âs been a long fight.
Lois	Grossman	MA	02155	It,Âs not the beetle that matters; it,Âs the whole ecosystem that will be destroyed along with it, just to allow more oil to flow. We need to invest in RENEWABLES, not pipelines.
Robert	Goldman	ME	04104	It,Âs time to kill this pipeline, not endangered wildlife.
Elizabeth	Duvert	TX	78004	Just stop it. Not just the killing of beetles. All the destruction of burrowing wildlife and other creatures habitats. Just stop it. We don't need your fucking oil.
Inoshi	De	NY	10017	Just stop oil extraction and processing, and switch to clean energy systems please.
Linda	Lyke	CA	90065	Just stop the Keystone XL pipeline. You are killing the planet and all of its wondrous creatures including the American burying beetle! Tar sands is terrible for the planet!
Rasa	Gierstikas	IL	60622	Just stop. The most selfish and greedy behavior. Once something becomes extinct, that's it.

Laureen	McLaughlin	MA	02155	So many reasons to not go forward with Keystone XL's tarsands pipeline!
				So, not only do they want to have the right to do enormous environmental damage with oil spills, and their record on this suggests that there will not be just one, but multiple failures, they want the right to exterminate endangered species. Doesn't that show exactly what they care about? This corporation has done enough damage. They should be charged with all the previous damage they have done and made to pay for cleaning up everything, just prior to the governing board members going to prison for intentional failure to adequately employ safety measures.

				The American burying beetle is one of nature's most efficient recyclers, feeding and sheltering its own brood while simultaneously returning nutrients to the earth to nourish vegetation and keeping ant and fly populations in check.
Hope	Stevenson	NE	68524	There is no reason to further endanger the habitat of the American burying beetle or any other endangered species threatened by the proposed Keystone XL pipeline project. We oppose the permit application and urge you to reject it.
				The American people have been clear on not wanting KXL at all, for Indigenous rights and health, for everyone's health, against water and air pollution, for the planet and most of its species including ourselves--our very survival! These beetles and hundreds of other species are indicators of the Sixth Extinction which is happening RiGHT NOW. Stop, just stop this train wreck immediately. Every "incidental take permit" should be denied; every "license to kill" is an outmoded concept; laws protecting the environment generally and species-specifically must all be strengthened or we all crash and burn.

				The big picture is this: Fossil fuels are relics of previous centuries. They are dirty, and dangerous to our people and to our precious and fragile planet. These obsolete fuels should remain in the ground. We should spend our time and effort to develop and implement clean, modern, renewable energy sources in the 21st century.

Mary	More	PA	19031	This pipeline must be stopped.
Michael	Osberg	NE	68135	This pipeline not only endangered wildlife, but humanity as well in light of the climate change dangers posed by fossil fuel.
Jan	Thomas	IL	62966	This pipeline should be rejected for ALL necessary permit applications. It is a disaster waiting to happen on so many fronts. This little bug is only one of the life forms threatened. The true picture is that we are ALL threatened. Just say NO.
Sue	Morrison	IN	47630	This pipeline will be obsolete before it is finished. There is no justification for allowing its construction to further damage the Earth. Please deny this application.
Shelley	Stroh	CA	90025	This pretty and useful insect is just one of many organisms that would suffer--and many people would suffer too.
Christy	Elamma	IL	61813	This project is a disaster for the environment from its very beginning! It should be stopped forever!
Catherine	Ruha	WA	98115	This project is all about death. The death of any creature that gets in the way of money making. Humanity must stop killing everything in order to make money. There is no reason for this pipeline. Humanity and the beautiful American Burying Beetles can all live full and productive lives without it.
Hannah	Lee	WI	53704-91	This project is NOTHING BUT destructive. It brings short-term benefit in the form of excess profit to those who already have too much; for all other living beings in the planet, it brings nothing but further pillage, ugliness, poison, chaos, grief, and death. STOP IT!
Jeanne	Pryor	CA	95409	This would be insane!!! We are already in climate crisis and the fossil fuel industry wants permission to kill beetles that are vital to our ecology!! And for more fossil fuel!!!! Totally insane!!

James	Klein	TX	78411	This, like numerous other issues (climate change, food labeling, gun safety, immigration reform, prison reform, education reform, short-term lending regulation, healthcare reform, banking regulation, opioid regulation) remains a vexing problem primarily due to corporations' ability to curry favor with elected officials. The corrupting influence of money in our political system is undermining our democratic traditions and discouraging Americans from voting and/or running for office. This ominous development may well end our experiment in representative democracy unless we alter this decades-long trend. For the sake of the republic, we must amend the US Constitution to state that corporations are not people (and do not have constitutional rights) and money is not speech (and thus can be regulated by state and/or federal campaign finance laws). Short of accomplishing this, no other reform of significance will be achieved. The moneyed interests will turn any reform to their benefit, often at the expense of the nation as a whole.
Perry	Gx	CA	92780	Time For A Simple Change Of Heart In Regards.
Thomas J	Teters	CO	80525	To Destroy a Species that is endangered, for the Profit of another Countries Company is beyond Criminal. Do NOT Allow this!!
Thomas	Kuehler	CO	80205	Total Moratorium on any new oil/gas pipelines. Shut down this filthy destructive industry. CLEAN RENEWABLE ENERGY NOW!!!!!!
carol	jagiello	NJ	07403	Transcanada has a poor record record on ESA violations. A take of 500 beetles is significant since the are proven easily vulnerable by any manner of disturbance. The actual number of American burying beetles killed would likely be significantly higher since habitat loss is irreplaceable. A foreign company with a poor record worldwide of disregard for regulations and concern for the public good and safety should not be permitted to take any ESA designee.
Eric	West	FL	32127	TransCanada has a terrible safety record and the government oversight, enforcement and penalties has been weak. Letting this company endanger the water supplies for the entire length of the pipeline and kill off endangered species without penalty would be a crime committed by our own government.
Joyce	Petit	NE	68954	TransCanada must be stopped from endangering our waterways, killing endangered species. None of it is of any benefit to America.
Natalie	Ranker	OR	97459	TransCanada should respect the US Endangered Species Act. They have no right to kill species listed.
Richard	allan III		22911	TransCanada tar sands are the largest single Fossil Fuel carbon bomb on the planet. It is urgent for preserving habitat as well as the CO2 reduction to global warming that this project come to Full Stop at once.
Mirijana	Beram	WV	26456	TransCanadas track record in my neighborhood has been less than stellar. Please do not allow the destruction of more of ecosystems to be destroyed.
Bartley	Deason	MT	59829	Under this administration, they will get their permit. This government just doesn't care. There's NO money for them in doing this, so.....
nancy	goodell	NE	68127	US fish and wildlife it is your job to protect the environment. If you allow KXL to move forward, then you are not doing your job! You have been paid off by oil! There have been countless oil spills and environmental disasters. They do not clean up thief messes properly. The land and water is ruined forever.
Joseph	Zefran	IL	60625	USA does not need toxic XL pipeline. It will hurt America.Be patriotic. Reject TransCanada's "incidental take permit".
Ellen	Wade	CA	92107	use alternative energy, stop wild habitat destruction

Marion	Mayer	WI	53150	Want to save ALL endangered species? Research LFTRs (liquid fluoride thorium reactors) the "new" generation of clean, safe nuclear reactors first developed at Oak Ridge 70 years ago. Nixon stopped the research. If these safe reactors, which cannot meltdown, do not even need a human operator to prevent meltdown,--if these reactors had been developed a generation ago we would be clean energy independent today and would not need any pipelines.

Barbara	Johns	PA	17339	We are here to protect the wildlife and their habitats now and we will. We are here to protect the environment now and we will. We are here to protect the national parks and public lands now and we will. We are here to protect the forests mountains and wilderness now and we will. We are here to protect the wetlands, water and state game lands and state parks now and we will. We know the damage these pipelines causes now. We are here to make sure these pipelines do not go through now and it won't. We won't stop until we do finally get action and justice for the environment and wildlife and their habitats now. We don't want anything to happen to our environment and wildlife and their habitats now or ever. We don't want anything to happen to our national parks and public lands now or ever. We don't want anything to happen to our forests mountains and wilderness now or ever. We don't want anything to happen to the wetlands state game lands and state parks now or ever. We don't want anything to happen to private properties now or ever. We are here to ban all pipelines to go through now and we can and we will. This has been going on for awhile now. It is time for changes to be made now. We are here to make those changes now and we will. We don't want any kind of pipelines going through now or ever. If you so called people think this will go away anytime soon now think again because it won't now will it? Of course not it won't. We are the voices now and our voices will be heard loud and clear now. We are not afraid to speak our minds now and we won't. We do have plenty to say now and we will. We are not giving up on this and this fight anytime soon now and we won't. We are making this a very big deal now and we will. This is not over yet! We are here to get answers now and we will. We are here to get to the real truth now and we will. We are not here for excuses and lies now. We have the right to protect our land now and we will. We have the right to protect the environment and wildlife and their habitats now and we will. If this continues like this it will become a much bigger issue and problem now and that will not be good or smart at all. The pressure is on now. We will get to the bottom of this now and we will. We will continue to fight back hard and strong now and we will.

Judith	Wierzbowski	MD	21060	We cannot afford to lose any more wild creatures!
Charlotte	Fremaux	WV	25425	We cannot expect our natural world to continue to support our lives if we erode it species by species. Your job is to draw a line in defense of the natural world that cannot be crossed, no matter the greed or political pressure that pushes you to do so. Keystone XL has been a major destructive force for the environment, for indigenous peoples, for our water and endangered species. We have been fighting it for over a decade -- from its source in the tar sands of Canada through its rights-of-way which have proved to be dangerous and unreliable. Please draw the line and do not allow this appalling permit to be won by a company that does not care what happens to the rest of us, as long as they make money.
Holly	G. Graham	WA	98502	We cannot live without the insect kingdom. Please, there are so many things we need to save.
Anita	Garrison	FL	32008	We cannot lose this very important beetle that is a vital part of the eco system. They were endangered before. Let this sink in they nourish vegetation, keep ants & flies in check. We need them. We also do not need to lose any more whooping cranes as they are endangered as well. Bottom line we do not need any expansion of the disaster that is the Keystone pipeline. We need it taken out not expanded. Do you know how many major leaks etc that spew thousands of gallons of this dangerous sludge that leak already. This company just disregards the leaks and they are destroying the environment wherever the pipelines are. Please stop them NOW. Our environment is already unstable and with all of the cuts to regulations we will be destroyed. Does this not bother any of you? Please stop the greed.
Nigel	Berridge	TN	37076	We created protection and we should stand by it and not let any reason break our law.
Heather	Henthorne	VA	20135	We disregard the plight of other species and the disruption of the complex interrelationships upon which a healthy environment depends at, literally, our own peril. We cannot expect humans to fair well when the myriad beings upon which so much of our existence depends are treated as nuisances in the path to resource exploitation. All species have their role to play, and we are not intelligent for being able to bring about their demise, only arrogant. I believe that the other species have value completely separate from any value that humans ascribe to them. However, if you are not so persuaded or the law does not allow you to make your determination on that basis, then think of the eventual (additional) suffering of humans that will be the result of ignorant behavior toward the system that sustains us.
Stephen	Bartlett-R√©	CA	94109	We do not need another pipeline. We do need these beetles in saving our environment.
JoEllen	Rudolph	MI	49770	We DO NOT need this pipeline. It will be obsolete very soon as the a American public is already accepting and transitioning to renewable energy.. We must get off our dependence on oil and all fossil fuels.

Kathy	Gynane	NY	12201	Who the hell do these damn people think they are, God? This is disgusting, arrogant and not to be tolerated. Who the hell gave this company the right to wipe out an endangered species?
Dan	Onischuk		T5K0V8	Why are they not being relocated by wealthy TCPL ? There is absolutely no excuse to justify killing anything when they can simply be moved to a suitable habitat nearby.
Glenda	Piiler	FL	32966	Why bother with laws at all if you are going to make exceptions for profit?
Paula	Cronin	NH	03106	Why do greedy corporations and wealthy individuals within those companies have no hesitation to further destroy the land, animals and human beings negatively impacted by their crimes against nature at this dire time for planet earth? Because they lack something basic to humanity. Greed destroys. The dirty, tar sands Keystone XL has been rejected by the courts more than once. If the Fish and Wildlife Service allows this permit to go through, that would indicate political pressure is at play and no agency under this deadly administration has a person in charge who is willing to grow a spine even if the country and the world depends on it.
Rita	Simpson	IA	50315	Why does the United States allow this TransCanada / TC Energy entity to challenge our laws that were established to protect our resources and the rights of our legal land owners? Julie	Glover	WA	98236	You are supposed to PROTECT wildlife. Why aren't you???
Julie	Glover	WA	98236	You destroy different parts of an ecosystem at our peril! Endangered species are NEEDED to maintain balance in the natural world. STOP ruining our environment!
Dee		IN	46410	You have no right to destroy our country for profit. What you take away cannot be returned. It is our heritage that is our responsibility to protect for future generations.
Kristina	Adler	VA	24437	You should be fighting against the advancement of natural gas and working towards a sustainable future in renewables! Are you not paying any N to the increasingly drastic climate emergencies??? Do you not think this will impact Fish and wildlife that you are supposed to be protecting??? ... Not to mention every other life form on this planet!!! Take some responsibility!!! Stop pandering to big oil \$! Don't be a sell out!
Timothy	Gilmore	CA	94109	do your job!!! You're killing the earth and its insect and animal populations are being decimated for profit - God is judging you. How will you be rewarded for such destruction? Prayers will not suffice. You can't buy your way into Heaven, either.
Brian	Ayers	NE	68104	You're the U.S. Fish & Wildlife Service, not the Canadian Business Interests & Harmful Pipeline Service. It should be an easy decision to honor protections established by the Endangered Species Act for the American burying beetle, not make exceptions that affect their habitat for the benefit of Canadian companies. In addition to the risk Keystone XL also poses to the American burying beetle, it also poses threats American communities and to our natural resources. Please do the right thing and reject the permit application.

				<p>Your actions and inactions regarding this and all related concerns have been, are being and will be remembered by all of us who will live in the world that you are shaping with your decisions right now, in addition to being a matter of public record. We are all on it together. Environmental emergencies affect everybody,Âs health and livelihood, and will do so for generations to come. All other issues need to be considered as facets of the critical state of the biosphere.</p> <p>Given the consistency with which this administration and its predecessors have managed to weaponize each current and foreseeable crisis against the vulnerable majority of the population of the United States of America, and the exceptional leniency and overwhelming subsidization of any industry which creates and perpetuates such crises, any failure to directly address and act upon these issues can only be seen as complicity in a clearly genocidal agenda.</p>
