

Appendix 3: Current Name Evidence Documents

Attached are files of recent use of name evidence.

The first is from a webpage entitled “Flora & Fauna Northwest” (<http://science.halleyhosting.com/nature/index.htm>) which Gresham, OR, High School teacher Paul Slichter uses for his biology classes. Please note the title below the photo which species that the area where the material is from is The Burn.

The second is from the current website that Klickitat County uses for information for the general public for recreation and other activities. The Burn is clearly identified as an area within the county and a place to go.

[[Wildflower Bloom in the Columbia River Gorge: 2011](#)]

Wildflowers Currently in Bloom in the Columbia River Gorge

Washington State Highway SR 14

BLM Parcel at T3N R20E S20 NW1/4

April 20, 2011

A view southwest towards the Columbia River of slopes densely covered with fiddlenecks (*Amsinckia lycopsoides* and *Amsinckia tessellata*) from hillsides **in an area of south-central Klickitat County known as The Burn.....**April 20, 2011.

* indicates the wildflower is currently blooming.

This parcel can only be accessed by crossing private property, so permission needs to be obtained by the land owners. It should be pointed out that most of the plants listed on this page can be seen by driving along both Washington Highway 14 as well as in the public right of way along the secondary roads in this area.

[Netleaf Hackberry](#): *Celtis reticulata*

[Poison Ivy](#): *Toxicodendron rydbergii*

* [Crested Wheatgrass](#): *Agropyron cristatum*

Intermediate Wheatgrass: *Thinopyrum intermedium* ?

* [Cheatgrass](#): *Bromus tectorum*

[Bottlebrush Squirreltail](#): *Elymus elymoides*

[Basin Wildrye](#): *Leymus cinereus*

* [Bulbous Bluegrass](#): *Poa bulbosa*

* [Leiberg's Bluegrass](#): *Poa leibergii*

* [Sandberg Bluegrass](#): *Poa secunda*

[Bluebunch Wheatgrass](#): *Pseudoroegneria spicata*

[Medusa-head](#): *Taenitherum caput-medusae* - Dried stalks from last year present.

Rat-tail Fescue: *Vulpia* sp.

[Bastard Toadflax](#): *Comandra californica* (var. *pallida* ?) ???

[Sagebrush Mariposa](#): *Calochortus macrocarpus* var. *macrocarpus*

[Yellow Bells](#): *Fritillaria pudica* - Pods forming, numerous.

* [Bicolored Cluster Lily](#): *Triteleia grandiflora* ssp. *howellii*

* [Northern Buckwheat](#): *Eriogonum compositum* (var. *compositum* ?)

[Parsnipflower Buckwheat](#): *Eriogonum heracleoides* var. *heracleoides* - Several plants in bud.

[Strict Buckwheat](#): *Eriogonum strictum* (var. *proliferum* ?)

[Wiry Knotweed](#): *Polygonum majus* - Last year's stems.

* [Pallid Claytonia](#): *Claytonia exigua* (ssp. *glauca* ?)

* [Cushion Miner's Lettuce](#): *Claytonia rubra* ssp. *depressa*

[Lineleaf Montia](#): *Montia linearis*

* [Jagged Chickweed](#): *Holosteum umbellatum*

* [Upland Larkspur](#): *Delphinium nuttallianum* var. *nuttallianum*

[Hornseed](#): *Ranunculus testiculatus* - Spiny fruits forming.

* [Spring Whitlow-grass](#): *Draba verna*

* [Pale Wallflower](#): *Erysimum occidentale*

* [Tumble Mustard](#): *Sisymbrium altissimum*

* [Thick-leaf Thelypody](#): *Thelypodium laciniatum* var. *laciniatum* - Just beginning to bloom.

* [Fringepods](#): *Thysanocarpus curvipes*

* [Smooth Prairie Star](#): *Lithophragma glabrum*

* [Small-flowered Prairie Star](#): *Lithophragma parviflorum*

* [Woollypod Milkvetch](#): *Astragalus purshii* (var. *glareosus* ?) - Woolly pods present too.

Lupine: *Lupinus* sp.

* [Filaree](#): *Erodium cicutarium*

* [Burr Chervil](#): *Anthriscus caucalis*

[Gorman's Desert Parsley](#): *Lomatium gormanii* ? - Past bloom.

* [Pungent Desert Parsley](#): *Lomatium grayi*

* [Nineleaf Desert Parsley](#): *Lomatium triternatum* (var. *triternatum* ?)

* False Hedge-parsley: *Yabea microcarpa*

[Desert Shooting Star](#): *Dodecatheon conjugens* - Past bloom.

* [Midget Phlox](#): *Microsteris gracilis*

* [Longleaf Phlox](#): *Phlox longifolia* - large swaths of pink covering much of the more naturalized ground.

[Silverleaf Phacelia](#): *Phacelia hastata* var. *hastata* - In bud.

* [Tarweed Fiddleneck](#): *Amsinckia lycopsoides*

* [Rigid Fiddleneck](#): *Amsinckia retrorsa*

* [Bristly Fiddleneck](#): *Amsinckia tessellata*

* [Weakstem Cryptanth](#): *Cryptantha flaccida* - Small flowers, very thin linear leaves that spread from stem at right angles.

* [Slender Popcornflower](#): *Plagiobothrys tenellus*

[Sand Penstemon](#): *Penstemon acuminatus* var. *acuminatus* - In bud.

[Suksdorf's Broomrape](#): *Orobanche ludoviciana* - Last year's dried stems.

* [Naked Broomrape](#): *Orobanche uniflora*

* [White Plectritis](#): *Plectritis macrocera*

[Yarrow](#): *Achillea millefolium* - In bud.

* [Annual Agoseris](#): *Agoseris heterophylla*

* [Low Pussytoes](#): *Antennaria dimorpha*

[Dragon Wormwood](#): *Artemisia dracunculus*

[Big Sagebrush](#): *Artemisia tridentata* (ssp. *tridentata* ?)

* [Carey's Balsamroot](#): *Balsamorhiza careyana*

* Hybrid Balsamroot: *Balsamorhiza careyana* x *serrata* ?

* [Serrate Balsamroot](#): *Balsamorhiza serrata*

[Spotted Knapweed](#): *Centaurea (maculosa?)*

[Green Rabbitbrush](#): *Chrysothamnus viscidiflorus*

[Wavyleaf Thistle](#): *Cirsium undulatum*

[Horseweed](#): *Conyza canadensis* - Dried stalks from last year.

Hawksbeard: *Crepis* sp.

* [Gold Stars](#): *Crocidium multicaule* - Beginning to fade out of bloom.

[Gray Rabbitbrush](#): *Ericameria nauseosa* var. *speciosa*

[Match Brush](#): *Gutierrezia sarothrae*

[Hairy Goldaster](#): *Heterotheca villosa*

Tarweed: *Madia* sp.

* [Narrowleaf Goldenweed](#): *Nestotus stenophyllus* - Beginning to bloom.

* [False Agoseris](#): *Nothocalais troximoides*

[Salsify](#): *Tragopogon dubius*

Animals Seen at this Site:

Turkey Vultures

Long-billed Curlews

Chukar

White-crowned Sparrows

Horned Larks

Canyon Wren

Two views of The Bum near Sundale in the south-central portion of Klickitat County, WA......April 20, 2011. The photo at left shows a view southwest from the escarpment towards the Columbia River. The photo at right shows a view of the scabland prairie (currently grazed, at least lightly) looking south (from several hundred meters north of the previous location) towards the wind towers on the south side of the Columbia River.....April 20, 2011.
