Native Plant Design for a Peaceful Garden Corner

By Scott Vogt, Executive Director

Spruce up a corner of your yard with this simple native landscape design, which will provide color and interest for three seasons of the year, use minimal water once established and attract pollinators to your yard. All of the plants listed in the legend should be available at our FloraKansas Spring Plant Sale, while supplies last.

If you need assistance with an area of your yard and would like professional design help from our staff, you may want to consider a landscape design consultation. **For homeowners and businesses, we'll provide designs that are diverse and provide color throughout the seasons.** Costs: Initial consultation \$50, plus mileage, then \$40/hr design time. Typical designs take 2-5 hours. Due to time limitations, we are limited to ten designs for winter and ten for summer. Call Scott if you are interested.
