

## Creating and Delivering Engaging Content

September 7-25

Learn how to create interactive presentations, foster collaboration and explain concepts with digital white boards, record your screen/lessons, gamify your practice, and assess student understanding with digital tools!

## Communication, Collaboration, and Critical Thinking in Digital Environments

Sept. 28-Oct. 16

Learn how to build classroom community, support rich discussion, and engage in critical thinking and collaboration in digital spaces.

Each course will also include synchronous office hours.

# Teach from Anywhere!
