Date of AA Screening Determination:	12/12/2018

AA Screening Determination:

That the activity is not directly connected with or necessary to the management of any European site and that it cannot be excluded, on the basis of objective information, that the activity, individually or in combination with other plans or projects, will have a significant effect on any European site and accordingly determined that an Appropriate Assessment of the activity is required. This determination is based on:

- the proximity of the installation to European sites including Slaney River Valley SAC and Wexford Harbour and Slobs SPA.
- the connectivity of the installation to European sites, having regard to emissions from the installation, which could have potential negative effects on European Sites and their qualifying interests.
