¹ State refers to the administrative jurisdiction of the BLM state office for the state listed. Therefore, MT indicates that the species may occur in Montana, North Dakota, and/or South Dakota; NM indicates that the species may occur in New Mexico, Texas, and/or Kansas; OR indicates that the species may occur in Oregon and/or Washington; and WY indicates that the species may occur in Wyoming and/or Nebraska.

² BS = BLM sensitive species; C = Candidate species for listing under the ESA; FE = Federal endangered species; FT = Federal threatened species; PE = Proposed for listing as an endangered species; PT = Proposed for listing as a threatened species; XE = Experimental population, essential; and XN = Experimental population, nonessential.

³ ESU = Evolutionary Significant Unit.

⁴ DPS = Distinct Population Segment.
