Welcome to our 2022 catalogue.

Well 2021 was unfortunately very similar to 2020 in that there were little-to-no shows as people continued to hunker down to safely ride out the Covid 19 storm. Thankfully we seem to be coming out the other side of it, and with plenty of local and international shows on the horizon it feels like we're nearly getting back to 'how things should be'. While we thoroughly enjoyed all the support we had for our virtual show over the last 2 years - it was a lot of work and nowhere near as much fun as real-life showing!

Our 2022 catalogue has a number of new introductions from both Brian and Nial's breeding, as well as a John Hunter variety - any or all of which will add interest and points for your show bench entries.

We are starting to see some of our own seedlings coming through and hope that you'll be able to see them at some 'in-the-flesh' shows this year.

Dave and Jules Hardy

We are really happy to announce that due to the relaxing of Covid restrictions we are, once again, able to welcome visitors to our farm.
(Through prior arrangement only- contact us for details)

All our bulbs can come supplied with a Phyto-sanitary certificate issued by DAERA, if required.

Our European Community Quality Plant Passport Number is UK/NI 8401.

Despatch of bulbs is September/October, in strict chronological order of paid receipt, unless you specifically request otherwise.

If you require any further information or assistance; or indeed have any suggestions or requests, feel free to contact us using email, telephone or via messenger on our Facebook page.

Each daffodil name is followed by a letter to indicate the approximate time of flowering.

VE = very early; **E** = early; **M** = mid-season; **L** = late; **VL** = very late **AF** = Autumn Flowering.

The breeder's name is shown in brackets, followed by the parentage and original seedling number. All our varieties have been registered with The Royal Horticultural Society and the classification and colour code is shown in the left margin. For full RHS Classification details see our website.
