

Order PRISTIOPHORIFORMES

Saw Sharks

Family PRISTIOPHORIDAE

Bleeker 1859

Pristiophorus nancyae, paratype, mature male, 522 mm TL. Illustration by Jayna A. Schaaf-DaSilva. From: Ebert, D. A. and G. M. Cailliet. 2011. *Pristiophorus nancyae*, a new species of sawshark (Chondrichthyes: Pristiophoridae) from Southern Africa. Bulletin of Marine Science 87 (3): 501–512.

Pliotrema

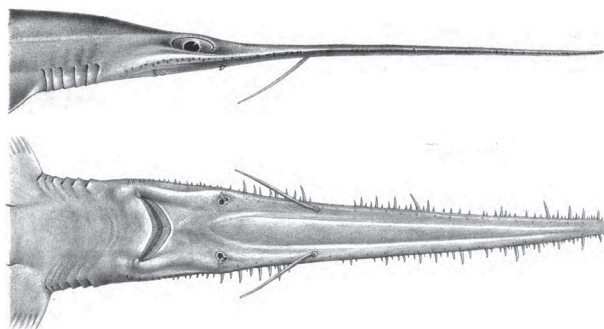

Regan 1906

pléōn (Gr. πλέων), more; *tréma* (Gr. τρήμα), hole, referring to six gill slits compared with five in *Pristiophorus*

Pliotrema annae Weigmann, Gon, Leeney & Temple 2020 in honor of Anna Weigmann Huerta, the senior author's niece, "to express its relationship" to *P. kajae*, named after the senior author's daughter

Pliotrema kajae Weigmann, Gon, Leeney & Temple 2020 in honor of Kaja Magdalena Weigmann, the senior author's daughter, "who had her first contact with chondrichthyan taxonomy when observing with great interest the examination of *Pliotrema* specimens for the present study"; "*Kaja*" is also Frisian (Germanic ethnic group from coastal Netherlands and northwest Germany) for "warrior," referring to the shark's saw-like rostrum

Pliotrema warreni Regan 1906 in honor of English-born South African zoologist Ernest Warren (1871–1945), Director, Natal Government Museum (Pietermaritzburg), who sent specimens to the British Museum

Pliotrema warreni. From: Regan, C. T. 1906. Descriptions of new or little known fishes from the coast of Natal. Annals of the Natal Government Museum 1 (1): 1–6, Pls. 1–5.

Pristiophorus

Müller & Henle 1837

pristio-, from *pristēs* (Gr. πρίστης), sawyer (but here meaning saw); *phorus*, from *phoreús* (Gr. φορέυς), bearer or carrier, referring to saw-like snout

Pristiophorus cirratus (Latham 1794) Latin for curly or fringed, referring to long, string-like ventral barbels

Pristiophorus delicatus Yearsley, Last & White 2008 Latin for dainty or delicate, referring to fine, delicate rostral teeth on elongated rostrum

Pristiophorus japonicus Günther 1870 *-icus* (L.), belonging to: Japan, where type locality (not specified) is situated

Pristiophorus lanae Ebert & Wilms 2013 in honor of "shark enthusiast" Lana Ebert (the senior author's niece) on the occasion of her graduation from the University of San Francisco (her brother is similarly honored; see *Rhinobatos austini*, Rhinobatidae)

Pristiophorus nancyae Ebert & Cailliet 2011 in honor of philanthropist Nancy Packard Burnett (b. 1943), co-founder of the Monterey Bay Aquarium (Monterey, California, USA), for her "gracious support" of chondrichthyan research at the Pacific Shark Research Center at Moss Landing Marine Laboratories (also in California)

Pristiophorus nudipinnis Günther 1870 *nudus* (L.), bare or naked; *pinnis*, scientific Neo-Latin adjective of *pinna* (L.), fin, referring to most of dorsal fins and upper sides of pectoral fins being scaleless

Pristiophorus schroederi Springer & Bullis 1960 patronym not identified but almost certainly in honor of American ichthyologist William C. Schroeder (1895–1977), Woods Hole Oceanographic Institution (Falmouth, Massachusetts, USA), a world expert on chondrichthyan fishes
