"DARE YOU?" Doubting Thomas and Loving John, With Others Walking On.

Tell me now, John, dare you be Of the small minority; To be lonely in your thought, Never to be sought or bought; To be dropped and shunned, and go Through the world esteemed its foe; To bear off your titles well-Heretic and infidel; To be singled out and hissed. Pointed at as one unblessed: Warned against in whispers faint, Lest the children catch a taint? If you dare, come now with me,

"Thomas, do you dare to be Of the great majority: To be only as the rest, With God's common blessings blest; To accept in humble part Truth that shines on every heart; To be never set on high, Where the envious curses fly; Never name or fame to find, Far outstripped in soul and mind, To be hid, except to God As one grass-blade in the sod Under foot with millions trod?

Fearless, confident and free.

PERSONAL MENTION.

The manager of Spreckelsville plantation, Mr. Hugh Morrison, has returned. At 1 p. m. the literary exercises by the visit to England, and now rejoins her cipal's room. The floral decorations on husband at Honolulu.

Capt. H.C. Houdlette has resumed his duties on the S. S. Australia where his familiar face is again to be seen.

Mr. W. A. Kinney, attorney-at-law, has returned to Honolulu after a rather lengtheued stay at the Coast. Rev. J. Forbes and wife have arrived consisted of singing, recitations, diaby the Australia, and will sail by the logues, and compositions. A band of

other tradesmen of Honolulu, have re- tions by the Misses Alice Wall and Inez turned after more or less lengthened absence in the United States. OFFICE :- Corner of Betset and Eine Sts. Mr. and Mrs. A. J. Cartwright, Jr., go to wait relatives and friends in the United States. They will probably

be absent about three months. Mr. James Steiner, partner in the Alfred Wall. Miss Hassinger's compofirm of Hart & Co., will probably be absent several months. He goes for recreation combined with business.

Mr. J. J. Williams has returned, just in time before his assistant, Mr. A. W. Bolster, leaves by the Mariposa to take a position in San Francisco. Miss Adrienne Dudoit goes during her vacation to visit relatives in California; but she may be absent longer than

Mr. H. W. Severance, wife and daughter arrived and are staying at the Hawaiian Hotel. Mr. Severance takes the place of Mr. J. H. Putnam as United

States Consul-General. Mr. W.A. Bolster, until now an assistant of Mr. J. J. Williams photographer, goes to San Francisco for the purpose of filling a position in the photograph gallery of Bradley & Rudolphison.

Mr. H. J. Agnew leaves for California to search for a suitable ranch on which to breed horses, etc. He says that if he can find a good location for his purpose, that it is probable his permanent residence will be in California.

Among the passengers who returned to Honolulu by the steamer Australia on Friday are: Mr. E. R. Hendry and wife who have been on a three month's visit to the United States. Mr. Hendry has done considerable business since he went away, in relation to the new enterprise to be opened in the store lately occupied by Geo. Engelhardt.

The newly-appointed American Min-ister Mr. J. L. Stephens will leave San Francisco in the Australia September 13th, arriving here on the 20th. He will be accompanied by Mrs. Stephens and daughters. Mr. Stephens was appointed without solicitation on his part or that of his friends, and the appointment took him and not he the office. He has twice represented the United States abroad, once in Equador and again as Minister to Norway and Sweden.

Booked to Leave.

Australia, Aug. 2-Miss M. B. Walker, Thomas Hind, Misses Hind (2), R. R. Hind and wife, Miss M. A. Whittier, W. E. Taylor, C. O. Shields, Miss A. Elliott, Miss A. Blake, Miss H. C. Hitchcock, Miss Meserole, Shinichi Ando, Mrs. S. J. Knowles, Miss Beckwith, Miss Wallace, S. Roth, Miss K. Long, Masters T. and STOVES, WITH ALL KINDS OF C. Long, J. F. Colburn, Mrs. G. Osborne. His Excellency G. W. Merrill and wife J. J. Egan. T. R. Walker, C. A. Chapin, C. E. Chapin, J. L. Wight, J. H. Put-nam, W. P. Toler, wife and niece, Mr. Green, wife 5 children and nurse, Miss Hersie J. Dickson, Miss Laurita F. Dickson, Miss A. Dutton, Mrs. W.W.Dimond, W. P. A. Brewer, wife, 3 children and maid, Miss A. M. McCandless, Mrs. S.G. Wilder, Miss Helen Wilder, S.G. Wilder, Palmer Woods, J. Parker, C. Lehman, wife and daughter.

An explosion of fire-damp occurred in a coal pit at St. Etienne, France, July 2d. Three hundred miners were entombed. great difficulty.

FORT ST. SCHOOL EXAMINATIONS

cessful Exercises, Etc. The public examinations and closing held no Friday. Parents and visitors istic way that the persual of it will cause TUESDAY. : JULY 30, 1889. attended in large numbers. The little a smile from the reader. As to the children under Misses Coursen and worms they can be banished in a very blackboard, and their penmanship was mynahs and sparrows, which destroy exceptionally good for children of their the moths as well as the worms. But age. At 11 o'clock the little ones gave to his story: recitations in the presence of a large by their audible applause. Very excellent blackboard writings were done by children in Miss Winter's room, and much progress has been attained in Miss Needham's classes. The children under Miss Brown's charge also deserve favorable mention. Maps of Oahu, Maui, and Hawaii, made by the pupils under Miss Brown's training, were placed on exhibition, and were highly commended. Mr. A. V. Gear, the vice-Principal, conducted his classes in science, algebra and Latin. The first class read and translated several chapters from Cæsar's Gallic War, and also some portions from the first book of Virgil's Æneid. The students gave evidence of possessing a thorough knowledge in those studies. Prof. M.M. Scott, the Principal, held examinations of his classes in geometry and literature. The first class solved a problem on the blackboard. This class also recited in literature, both writing and memorizing poetic selections from leading English authors. The second class was examined from works of American authors, quotations from Evangeline, and many other leading poems, being readily given. In Prof. Scott's room was a large map of Maui made from wax, the work of his scholars. It is a very creditable production, and all who inspected it expressed admiration. Mrs. W. S. Luce has returned from a advanced pupils were held in the printhe walls were executed with good taste. Mr. A. V. Gear's room was also thrown open for the accommodation of visitors. Among the audience present were H. R. H. Princess Liliuokalani, Mr. and Mrs. A. T. Atkinson, Mr. and Mrs. J. A. Hassinger, Rev. A. and Mrs. Mackintosh, and others of note. The programme Morning Star to the South Sea Islands little girls sang six songs under the leadership of Prof. Berger, and these Mr. John Emmeluth, and several were all beautifully rendered. Recita-Perry were given with much taste. Wm. Lucas gave, "Miss Maloney on the Chinese question" in an excellent manner, his impersonations of the Irish tone being very laughable. There were ex-

> sition of "Advantages and Disadvantages of Reading" of three and a half foolscap sheets were written in one hour, which is considered a remarkable production. "The Sawing Society" given by several small girls in character dresses caused a great deal of laughter among the audience. Misses Bella Weight and May Atkinson delivered recitations of a

cellent compositions read by Misses

sublime character, the young ladies bearing themselves with ease. Miss Jane the limit—possibly remaining several Hare's recitation of, "How 'Ruby' months." played on the Piano" was magnificent, and she captivated the audience with her comic style of delivery. The piece required great elecutionary powers, which the young lady possesses, and she

> Miss Berry's Seminary. The closing exercises of this school took place before a large number of persons including the parents of the scholars. The ordinary routine of school work was gone through under the conduct of Miss Berry, and the lessons were relieved by songs and recitations. A portion of a duet from the Opera of "Patience" was sweetly rendered by Walter Giffard and Sadie Brown. Selections from Dickens

disappeared amidst prolonged applause.

were read by Leila Wodehouse. The charge of the Six Hundred was recited by Willie Godfrey. Sadie Brown recited a pathetic piece on an accident to her doll, and read one of Mrs. Caudle's complaining lectures in a most appropriate style. Willie Rawlins and Willie Godfrey read Handy Andy, to the great amusement of the audience. Several prizes were given for excellence in school work during the past year. Among those present were Mrs. Justice

Dole, Mrs. Mist, Mr. and Mrs. J. E. Brown, Rev. Alexander Mackintosh and Mrs. Mackintosh, Mrs. Hulbert, Mrs. Babcock, Mrs. Rawlins, Mrs. T. Lucas, Mrs. Hill, Mrs. Baeton, Miss Corney, him by surprise. It certainly speaks Miss Payson, Miss Coney, Mrs. Muller, well for any man when the office seeks Mrs. French, Miss Wodehouse, Mrs. Ordenstein, and Miss Horn. The whole exhibition gave much satisfaction, and all showing unmistakable signs of having had great pains and attention bestowed upon them.

> Arrival of the Australia and Mariposa. Following are the pursers' reports of the Australia and Mariposa, from San Francisco and Sydney respectively, both of which arrived here on time on family, which would be impossible

> .The S. S. Australia, H. C. Houdlette, master, sailed from San Francisco, Friday, July 19th, at 12:30 p. m. with thirty-nine cabin and forty steerage passengers; freight, 1,040 tons general merchandise; treasure, \$40,000. Experi-enced northeast trades, smooth sea and 300 marks. In 1874 the average infine weather during the entire trip. MARIPOSA.

The R. M. S. Mariposa arrived July from Auckland to port. Time-From A number of bodies were taken out of Sydney 17 days, from Auckland 12 days, the pit, and the total loss of life was 180. and from Tutuila 7 days. [The pas-Those who were saved were rescued with senger and cargo lists will be found in another column.]

KONA NOTES.

Very Large Attendance-Highly Suc- Arrival of the New Government Physic-

A correspondent living in Kona writes exercises of the Fort St. School were his opinion of the district, in such a real-Walker did very clever work on the few years, by the introduction of the

"Some time ago I had occasion to desaudience, who showed their appreciation | cribe this district, and gave it as follows-All Kona is divided into three

1. Lantana Jungles:

2. Guava Forests; Pahoehoe and Chinkers. In the air spaces between the lantana. the guava and the volcanic rocks, a few cattle pick out a little herbage during the wet season. But the miserable brutes were deprived last month, of even that comfort; for the army worms overran the whole tace of the land. As the result of a week's operations, every blade of grass was cleaned off as effectually as if it had been struck by a December frost

or a Dakota blizzard. The grass is however beginning to recuperate a little.

The country parsons need not spend much exegesis on the prophecies relating to the desolations of Babylon and Nineveh. They have only to substitute North Kona and South Kona for Babylon and Nineveh and thus make a whole story clear and impressively realistic.

The Hawaii Konas were for a long time supposed to have been deserted of the gods. The many ills to which Konaian as well as other good flesh is heir seemed destined to have it all their own way, there being no barrier of certifled allopathy, homeopathy, or any other kind of pathy to throw up against them. Just two days ago, a change came over the spirit of the Kona dreams. Dr. W. A. Mack arrived duly armed with the imprimatur of the Board of Health, and authorized to practice his profession as government physician for the Kona district.

The new doctor is already in active service. It is to be hoped that he may find a sufficiently remunerative practice to induce him to settle down.

MAUI ITEMS.

Robberies-Balloon Ascension-Person-

als, Etc. We are having a nice rain on Maui this morning. Hope it extends all over this island. It looks as though the July rains had come at last.

spending a week on Maui, he has visited several of the Makawao schools and is pleased with the advance of education. Mr. E. F. Zumwalt, Principal of Hamakuapoko school, leaves for a vacation

Prof. W. D. Alexander, has been

trip to the Coast. He has earned it and we hope it will do him good. Miss Martha Beckwith and Miss May Wallace also leave us to-day for America the former to attend school at Mt.

Holyoke Seminary and the latter to join her family at Chicago. Bon voyage. Makawao schools close with a good showing. The attendance is nearly double what it was at the time of the revolution, and comfortable school houses have replaced the shantles and makeshifts of the old regime. The new

Government is a success in school mat-

ters as well as others. The residence of Mr. J. F. Noble was entered by thieves last Monday night, They were disturbed before doing any mischief. Thieves seem to be on the rampage now. Mr. Colvill's house was entered a few weeks ago and two valuable watches were stolen.

Mani is well pleased with the new Minister of Finance. X. X. P. S.—Prof. E. L. Melville started from Wailuku on his heavenward flight at 6 p. m. to-day, (Saturday the 27th inst.) and at present writing, the balloon is lost from view in the clouds, and drifting toward Waikapu mountains. When last seen the Professor was hanging on to the bar, and will probably land somewhere near Waikapu

SCHOOLS IN GERMANY.

In Germany the public schools are

SUPREME COURT.

G. Luens vs. C. Brewer & Co., Assump-

This is a case in which plaintiff sued for an unpaid balance on a contract for erecting a building; and the defence was that the building had not been finished and delivered within the time specified ingly in the centract.

Instructions to the jury by Mr. Justice McCally were as follows:

Gentlemen: I said to you before that you must entirely exclude from your minds any observations made between Mr. Lucas and Mr. Carter about regarding or disregarding the six months term in the contract.

The parties settled their agreement into a written contract, by which both of them are bound, notwithstanding any remark which may have been made by Mr. Luras. This contract was made with Mr. George Lucas after bids were asked for and tenders obtained.

They settled that they would take the reice and they made their contract which mis both parties strictly and entirely. it is immaterial whether it is a hard case for one or for the other. There is a claim by the defendant to have sustained a loss on account of his building not being completed within contract time. Should be sear that loss or should Mr. Lucas? Mr. Lucas contracted and it is one of the essential elements of the contract that the building should be finished within six

months from the date of the contract.

In many of this class of contracts a penalty would have been inserted of so much a month or a day for the time within which the work was not done after the limit of time stated in the contract for the completion of the work. In this case there is no such clause, but if there has been a damage resulting from its non-completion in that time, that can be proven as it has been offered to be done in this case. The contract was to do it between the 17th of August the 17th of February, six and hidden it away for his friend, he months; now, it was a contract made for work to be done in Honolulu and under this contract to build a brick building and therefore knowing the conemun of the weather at that time of the year, it being the rainy season it is presumed that an allowance of time was made for that purpose. The contract shows the building was to be completed in six months "unless prevented by ac-No accident has been so shown here; I should say an accident would be an earthquake, which would tumble the walls down, or a fire which

wanted destroy their work or a trilal wave or a cyclone, but raining is not an acci-An extraordinary flood would come within the illustrations I have it might be an accident if through no fault of the builder the building after erection had fallen down, as for instance it were so erected as to lean against the walls of an adjoining building which it had a right to lean against and fell Now as to "causes not under his This contract was made for a building to be put up here in Honolulu parties are supposed to know what can be gotten in Honolulu and what most be sent for to San Francisco or Boston, or wherever else it must be sent to lor; and it would not have done for instance, to have sent to England for this work; because it might be got chasper there, and throw the loss of time on the defendants. It was made in view of the existing circumstances.

The contracting parties had a right, before closing this contract to conclude upon the time as one of the elements; it certainly made a great deal of difference to Brewer & Co., whether the building was to be done in six, nine or twelve months and that was one of the things they contracted for, and any loss sustained by the contracting parties does not warrant the contracting builder to throw that loss upon Brewer & Co., unless "beyond his control;" I will leave to your consideration whether any causes have been shown here beyond his control. I should say extraordinary causes and not ordinary causes. The delay in the beginning as to the excavation is not an extraordinary cause or bewand his control. The fact that one contractor ran away with the money to be used for carrying on the work cannot throw the injury of the delay upon Brewer & Co., because the contractor should at his own expense and loss immediately pursue the work if it were possible to be done

It would not do to say because the Chinese contractor ran away, let Brewer & Co. lose a month or six months use of

It is not a "set off" nor anything like in but it is a deduction from the full amount of the contract. They have paid up the contract less \$1,128 in all. They have shown to you by the evidence of Bly Jones that they lost rentals to the entent of \$300 per month engaged for from the time of the completion of the building, amounting to as much as \$1,200, and I refuse the instructions of Mr. Ashford plaintiff's counsel that because they did not execute a lease that this loss should not be so considered. They have proven to you by evidence that is not contradicted that they had an empayement for the rent of that building and they have showed that loss. They took those rents immediately after the building was completed. They have shown you a loss of \$200 paid to their supervising architect. It is not however for the defendant to recover anything although the amount of loss that has been proven is greater than the amount of the unpaid balance, it is that the plaintiff cannot recover anything from the delendants. I am asked to instruct you as to the impropriety of ordering these materials by sailing vessels instead of by steam vessels. It was not for a contractor to lose time by taking lower freight by sailing vessels and longer time, and if he lose thereby it is not the loss of Brewer & Co. So with regard to getting the work done here, if it were possible, the loss of the increased expense is not to be thrown upon them; he contracted to do it within six months and unless accidents are shown, and I have stated that nothing of that kind has been shown here at all, and unless you consider there are causes beyond the control of the contractor, he knowing precisely what he had to do, you will find a verdict for the defendant. Your ance of the evidence. That is the case

Defendant excepts to the Court strikon building by plaintiff.

shown beyond the plaintiff's control also that that it cannot be shown that

there was extraordinary cause. Plaintiff objects to Court saying they have lost \$300 in rentals a month. The jury afterwards came in and in

reply to enquiry were instructed that if they found a part of the delay were due to causes beyond the contractor's control they could adjust their verdict accord-

Later the jury returned a verdict for plaintiff in \$775

Instructions of the Court, to the jury in the case of the King vs. Ah Hin, for having unlawful possession of opium:

There may be a possession with or without ownership and the law has simply said possession, in order to avoid the proof of ownership.

Opium is a probibited article, prohibited to be imported, and the law goes further and makes it prohibited wherever it is found, even after it is landed. In whose possession is that opium which is on the table now? No one is touching it but it is undoubtedly in the possession of the police department. If any of you should take it in your hand to smell it, it would still be in the possession of the Anything may be taken up and looked at without going into the posses-sion of the person who has so taken it up. The Court reads the definitions of pos-

"Entering a room in which there might be opium would not charge all persons who had so entered the room with the possession of the opium. Seeing a tin of opium in a room which belonged to another and merely putting it in another place, and touching it only for that purpose, not retaining possession of it but concealing it on the premises to pro-tect a friend, I should charge you would not be taking into possession. The law must have a reasonable construction and especially so in criminal cases. If, for instance, the defendant had put the opium in his pocket, carried it home,

would then have taken possession of it. | If you believe the evidence for the prosecution, can you find a possession, if not you will find the defendant not I am taking it entirely upon the evi-

dence offered by the prosecution. On the other hand, the defence brings on a man who says it was his, in his room and belonged to him. If this is true, unless the other man has taken possession, he is not guilty.

Baseball League Meeting.

A meeting of the Hawaiian Baseball League was held at 12:30 o'clock Tuesday afternoon at the Chamber of Commentioned. The word "accident" is to merce, Hon, W. F. Allen, President, in be taken in the general sense. In fact the chair. The minutes of the previous meeting were read by Secretary Jas. G. Spencer, and approved.

Mr. Oleson for the Kamehamehas said that Pahau, the catcher, had his hand seriously injured, and he would like to have the game with the Honolulus set later than August 3.

Mr. H. M. Whitney, Jr., moved that as the Kamehamehas and Stars were scinded, and a new one drawn up.

Mr. Whitney also moved that the game on July 4th between the Stars and Honolulus be a drawn game. Carried. The following schedule for the balance of the season was presented to the meeting and finally adopted:

July 27-Honolulus vs. Kaiulanis. Aug. 3-Stars vs. Kajulanis. 10-Stars vs. Hawaiis.

17-Honolulus vs. Kamehamehas. " 24-Stars vs. Kaiulanis. 31-Honolulus vs. Hawaiis.

Sept. 7-Kamehamehas vs. Hawaiis. Mr. Oleson moved that the drawn game of July 4th be considered by the League at its next meeting. Carried. The meeting then adjourned.

Difference Between "Hit" and "Heat." An amusing little incident that is too good to keep, is going the rounds. It seems that a well-known gentleman in one of the rural districts, directed his Portuguese boy, a new hand, to heat some water on the kerosene stove. On going out sometime afterward and finding no traces of warm water or fire, he made his way to the boy's room, and a dialogue somewhat after the following

style took place: 'Manuel, where is that water I told

you to heat?" "It's in there.

"In where?"

"In the kitchen." "Well, but I've looked all round and I

can't find any warm water. "Oh, when you throw stone at something, you say it 'hit' 'im. You speak me 'bit' some water on stove, I tek

some water I 'hit' it on the stove. Returning to the kitchen for further investigation, sure enough, the floor about the stove was found to be wet, with water that had been dashed against it from a cup, which also accounts for their being no fire in the stove.

St. Andrew's Cathedral Building Fund. The Treasurer for the Trustees of the Anglican Church in Hawaii, Mr. H.

Smith, has received the following sums towards the Cathedral Building Fund: Per Rev. Alex, Mackintosh... St. Andrew's Cathedral Sewing So-241 75 ciety and sale of work, July 16. Do, proceeds of work. Small sums per the Bishop. 28 66

DR. J. COLLIS BROWNE'S CHLORODYNE.

THE ORIGINAL and ONLY GENUINE. THE ORIGINAL and ONLY GENUINE.

Advice to Invalida.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (fate Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarreceived. CHLORODYNE acts like a charm in Diarr-hea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and CHLORODYNE is the only palliative in Neu-ralgia. Rheumatism, Gout, Cancer, Toothache Meningitis, &c.

Meningitis, &c.

From Symes & Co.. Pharmacentical Chem ists, Medical Hall, Simis, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. Dear Sir.—We embrace this opportunity of congratulating you upon the wide-spread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has carned for itself, not only in Hindostan, but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances ad infinium of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhæa and Dysentery. Spasms Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occured under our personal observation during many years. In Choleraic Diarrhæa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidely the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a printered the collis Browne's and any other form of this medicine than Collis Browne's from a firm Conviction that it is decidely the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a printer a printer of the cumulation. of the chemist to prescribe and patient alike. We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britian. His Excellency the Viceroy's Chemistry.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Colliss Browne was, undoubtedly, the Inventor of Chlorodyne; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See "The Times," July 13, 1884.

soid in bottles at 1s. 114d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle. Caution .- Beware of Piracy and Imitations. Sole Manufacture—J. T. DAVENPORT, 38 Great Russell Street, Bloomsbury, London, 1251 6m

TEN-PAGE EDITION

TUESDAY, : : JULY 30, 1889.

THE annual examination of the Government and private schools closed last week, with credit to both teachers and pupils. The improvement, as compared with previous years, has been very noticeable, in the ambition shown by scholars to excel, resulting in a much greater development of intellect than formerly. Particularly in the three large schools, the Royal, Fort Street and Saint Louis, where over seven hundred scholars are on the rolls. the evidences of improvement in drawing, writing, declamation, composition, singing and deportment were abundant and very gratifying. The teachers of these schools, and also of other schools lately examined, deserve credit for the faithful labor bestowed in their work. The English language being now the only medium of teaching, the work will be greatly simplified. The Board of Education is taking special pains to provide the best of teachers, and where any are

filled by others. One great necessity remains still to be provided for--a public hall for the closing examination exhibitions. north of Hakalau Mill, and one mile from A school that numbers two or three hundred pupils will naturally draw out as many of their parents and friends, and not one half of them can obtain admittance, and hardly a quarter of them find seats. HAWAHAN NEWS SUMMARY.

The month of July has shown a gratifying amount of material progress, both under the auspices of Government and by means of private enterprise. A number of important large undertakings have been consolidated and others are being rapidly brought into shape; while some have been completed during the month.

Among the most important works now in process of rapid construction, is the Oahu railway to Pearl Harbor, which is already approaching completion, so far as grading is concerned. Eleven miles of this line will have the grading completed in two weeks; and of this length ten miles are already finished. The material for the bridges is already ago, has now reached a point about on the ground, and the work of driving the piles has been begun at the quarter of its entire length-301 larger estuaries of Kalihi and miles. Moanalua. A few of the bridges on this line will be of considerable project is again being talked of, and being displayed, only a short time that line of about forty miles will be will elapse before the gaps in the taken hold of by a syndicate. There line will all disappear. Many of the are also other railroad projects smaller bridges or culverts have spoken of. been already built. There will be altogether twenty bridges between we learn, to be increased soon by the Honolulu and Ewa, of various addition of a large and fast boat, aggregate length of 1250 feet.

Plans have been approved by which the main depot will be placed 180 feet from King street in what is large portion, if not all, of this extensive fish-pond will be filled in value by close proximity to the main depot buildings. The depot itself membership of only 6532. will be of imposing size and made as ornamental in appearance as convenience and traffic requirements will division of this line, twelve miles, decrease and indicates the remedy. will be completed within the next | The authors of the death of milmonth; and the laying of the rails lions of these pretty birds are the ladies, who wear the feathers, wings

Interior Office until MONDAY, August lie for the Fourth Judicial Circuit of the now nearly due from Germany. The progress of this important work has been so rapid during the month of July that we give it first place among the works in progress during the past month.

> Among the important works completed are the tramcar lines of the Hawaiian Tramway Co., which run through five of the principal avenues of this city. These aggregate a total of twelve miles completed and in running order. Twelve cars ran on these lines continuously every day during June, and these carried over 90,000 passengers during that month. Several lines have been added in July, and it is not an over-estimate to say that about 20,000 passengers per week are now being carried by this local means of travel. On some of the lines an average of \$31 per car each day is realized in fares; and the benefit to the community; both directly and indirectly, is correspondingly large. Waikiki and Palama have been brought within the residence district of Honolulu by these tramways, and building allotments and properties in the suburbs have an enhanced value in consequence.

> The streets of the city have also undergone some improvements during the past month; and labor has now full employment in most of its departments. Buildings are not going up so rapidly as the past month's progress would warrant; but still, there are a number of these being erected, and improvements and addition to buildings already built are being plentifully made.

The ground for the new market is being prepared; and the large area upon which the building will stand, near the Pacific mail wharf, has found deficient in the necessary been made level and supplied with the harbor.

The new drive up Punchbowl Hill is approaching completion, and bids fair to become one of the most beautiful and interesting roadways in the kingdom. It leads to an elevated plateau 500 feet above the to suburban sites for residence pur poses than formerly; and building

The ccean cable project has now assumed shape, in a wealthy syndiporated with a capital of one million dollars, with power to increase to ten millions.

in a greater degree to sports than at any former period of Island history. Regattas, baseball matches and other athletic sports have been common and accompanied by the usual possible, Mataafa being completely schemes have been projected, several displays of enthusiasm on the part of the public.

In concluding the Honolulu portion of this summary we may note that the health of the people is good; and that accidents involving loss of

ing the month. In other parts of the group there are a few works in progress, and among others is the wagon road to the Volcano which has now been graded through a very difficult section, the lower woods. This road, which was begun only a few months seven miles from Hilo, nearly a tion of everybody.

The Hilo and Hamakua railroad length; but, with the present energy will continue to be agitated until

Captain Mullen Interviewed - Items From American and Australian

A report has come by way of Auckland that Mataafa and Tamasese have come to an agreement to oppose the return and re-instatement of Malietoa. Advices from Apia German gunboat Wolf is to go to the Marshall Islands after Malietoa and to restore him to the Islands.

Captain Dennis W. Mullen, the interviewed at last, though for five days after his arrival on the Alameda he evaded the reporters. He denies not on good terms, and says that they parted the best of friends. He O. Company in securing a connecdoes not say that they did not differ tion with one of our great transconabout what should be done with the tinental railroads is to capture such Nipsic after the hurricane. Mullen did not want to take her to Auckland and Kimberly thought it advisable. Mullen then asked to be relieved of his command. Mullen says that he bourne, which it is naturally anxious did not think it advisable to send the to protect. It probably sees danger Nipsic on a long sea voyage such as to its interests in the Pacific route she is now making. He is on his and, in consequence, has determined way to Washington.

FROM AUSTRALIAN NEWSPAPERS. From late files of the Samoan Times we glean that on "Decoration Day" the American sailors at Apia, being well supplied with flowers by the native children, marched first to the ground where their late comrades were buried, and then to the last resting place of the German sailors, and strewed all the graves

with the blossoms. Captain Kane and some of the officers of H. M. S. Calliope for their pluck and skill in saving the vessel Mr. Jones rubbed his bald head for during the recent disastrous hurri- a moment, and thoughtfully resumed

cane at Samoa

Mr. W. J. Napier has received a communication from the private secretary of Admiral Kimberley (Lieutenant Rittenhouse), now stationed at Samoa, from which it appears qualifications, their places will be means of drainage to the waters of that the Admiral has sent home to America all the United States forces except two lieutenants and five men. The Admiral intends to visit the harbour of Pago Pago, in Tutuila, to look after American interests there, and will probably not finally leave Samoa until the new political machinery, as settled by the Berlin Conference, is in a fair way of estabocean which, as a pleasant retreat in lishment. The British Consul did summer, has no equal around Hono- not attend a feast given by Mataafa,

> On 9th July H. B. M. S. Rapid arrived at Apia. The Governor of Fiji, who was on board, was visited by Admiral Kimberly; Dr. Stuebel, H. I. G. Consul-General; Colonel De Coetlogon, H. B. M. Consul; and the leading residents of Apia. Affairs generally were found comparatively quiet, natives and Europeans alike anxiously looking forward to the result of the Berlin Conference. Upon the day prior to the High Commissioner's arrival, an adherent of Mata-The past month has been devoted afa had been imprisoned by Tamasese's party on a charge of larceny. A request for his release having been refused, Mataafa caused the goal to broken open and the man released. No resistance was offered, or was master of the situation. The man was then tried by his chief, found guilty, and sentenced to two months

hard labour. The German gunboat Wolf arrived at Apia on the 11th inst. In anchoring she fouled with some of the cables or wreckage, with which life have been very few, if any, dur- the bottom of the harbor is now plentifully strewn, and had to send a diver down. After the diver had been down a couple of hours the captain became anxious about the inability of his man to come to the surface. The Rapid's diver was then borrowed when it was found that the unfortunate man had become entangled with the cable of his own ship. After three hours immersion, however, he came up to the satisfac-

The German corvette Sophie was expected daily at Apia from Auck-

On the 16th H. B. M. S. Egeria, Commander F. C. Oldham, left Apia, after coaling, for surveying duties. It is rumored that she will visit Suva

during the month of August. The German warship Alexandrine has arrived at Port Jackson on her way to Samoa. Her commission is for three years on the South Pacific station, with headquarters at Apia She has 14 heavy broadside guns, 3 guns of lesser weight for saluting, lengths—from 16 to 300 feet, with an and more steamers will in the near bow and stern chasers, and 6 machine guns of the Hotchkiss pattern. She steams 15 knots and carries 210men.

A NEW STEAM LINE.

For some time rumors have been current that there would shortly be a new steamer line to connect San Diego with Yokohama and Hongkong. It proves that these rumors are substantially true. The high contracting parties are the Atchison, Topeka and Santa Fe Railroad Company whose western terminus is at San Diego and the great Peninsular and Oriental Steamship Company of England, which is probably the wealthiest and most powerful Steamship Company in the world. It has long carried the mails between England, India, China, Australia and all criental ports. It is said to have a fleet of over eighty vessels, some of which are among the swiftest and finest appointed afloat. It is clear that the Boston owners of the Atchison road, many of whose shareholdship Company in the world. It has allow. The grading of the whole which also reveals the cause of this land, India, China, Australia and all will commence immediately upon and even the bodies of swallows in that the Boston owners of the Atchi-

ers, by the way, are Englishmen, intend to make a bold effort to capture the tea and silk trade between the United States and China and Japan and it is also pretty obvious that the P. & O. Steamship Company wants to get a footing in the Pacific that will strengthen its India, China and Australian services. Vice President Smith of the Atchison road substantially affirms these views. He said that "the matter was not under date of June 25th are that the | fully consummated yet, but that it was more than likely the arrange ment would be made. The P. & O. Company was anxious for it and he was heartily in favor of it." What with the opposition of the Canadian commander of the Nipsic, has been | Pacific on the north and the P. & O Company on the south, the interests of American built steamers generally, and of the Port of San Francisco in particular, are likely to have that he and Admiral Kimberly are a hard time of it. We strongly suspect, too, that the object of the P. & of the Australian trade as comes this way. That company has a fast, popular and profitable weekly service between London and Mel to control it. Congress should lose no time in strengthening American lines with adequate subsidies.-American paper.

",Yes," said old Mr. Jones, "the doctors are getting mighty smart nowadays; why, they've got instruments and things made so that they can see clean through you. "Hump!" replied old Mrs. Jones, "I don't see anything particularly smart The Admiralty intend promoting in that. I've been married to you for thirty years, but I saw through you in two weeks after the bridal." his reading.

BIENNIAL MEETING OF THE QUEEN'S HOSPITAL SOCIETY.

The biennial meeting of this institution was held at the Chamber of Commerce room at 11 o'clock a. m. on Monday, July 22d, with some twenty members

A. J. Cartwright presided, and the reports of the Secretary and Treasurer were presented, read and approved. They will be found below.

Five trustees were voted for, to fill the places of those expiring this year by limitation. The following were chosen: A. J. Cartwright, Rev. A. Mackintosh, lankes. Following is the secretary's reports:

HONOLULU, July 1, 1889. To the Members of the Queen's Hospital Society present;

GENTLEMEN: I have the honor to present to you my biennial report of the period closing to-day, and to refer principally to statistics herewith submitted which will show the amount of work and proportionate good the Queen's Hosputal has done in this community during

The principal staff of employees of the Hospital has remained unchanged. Dr. Bobt. McKibbin as Physician and Dr. J. Brodie as Assistant Physician have continued to superintend the medical department, and Mr. Eckardt the purvevor's department of the Hospital. The regular business of the Queen's

Hospital has been conducted strictly in accordance with its charter and byelaws. During the biennial period now closing the Board of Trustees have held eight regular and one special meetings.

The number of the Hospital patients admitted during the last two years were 616, consisting of 245 Hawaiian (155 males, 90 females) 62 Chinese, 50 Japanse, and 259 foreigners of other nation-In the preceeding biennial period

1885-87, 288 Hawaiians and 443 Chinese, 143 Japanese and 358 foreigners of other mationalities, in all, 932, were inmates of the Hospital. This is so large a falling off in the number of patients treated, that this fact requires the earnest inquiry into and solicitude of your Society and its Board of Trustees. The Board has not been oblivious of this important matter, and a committee of three of its members has been appointed for the purpose of investigating the causes which are accountable for the reduced number of patients of the Queen's Hospital of late, and of reporting thereon, as well as of submitting to the Board any measures that might tend to bring about a change for the better and insure an increased sphere of usefulness of the Queen's Hospetal in this community. This committee will no doubt report very shortly and it is to be hoped that the investigation music and the recommendations to be submitted to the Board of Trustees will not be without good results.

Dispensary patients treated free of Total number of deaths 96, which percentage of 14.4 on 666 immates of the Hospital.

The Treasurer will report to you on the diffusion tube as described. receipts and expenditures of the Queen's Hospital during the biennial period now closed, and make his comments on his figures, which will make any remarks on my part under that head uncalled for. During the last two years several of the life and charter members of your Society have died, and the number of names on its original list of members is sadly decreasing from year to year. Respectfully submitted,

F. A. SCHAEFER, Secretary.

Treasurer's Report for the Biennial Period Ending May 31, 1889. To the Officers and Members of the

Queen's Hospital Corporation: Gentlemen: I have the honor to submit for your consideration, this the fifteenth biennial Report of the Treasurer, showing the receipts and disbursements hotly engaged, we passed a church, a for the period ending May 31, 1889.

ANOTHER HAWAIIAN INVEN-

An Automatic Diffusion Apparatus, In the Planters' Monthly for July is an intersting description of "Alex. tion is to obtain all the advantages of Thus. May, J. S. Walker and C. P. diffusion, without entailing the loss and battery method. To accomplish this, a inverted parabola, having one end sufficiently high above the other to cause the that in which the solids to be diffused travel. In this tube is suspended the lower bight of an endless chain of perforated followers so constructed as to leave between them suitable spaces for the cane chips or bagasse, etc. The chain passes over a pair of spiders mounted on a shaft with bearings at each end of the tube, and the solids are submitted to an immersion so as to produce perfect extraction of the saccharine contained in the matter diffused. We have not space to go farther into details, which can be found in the monthly; but the advantages claimed for this new

method are: 1. The solids to be acted upon are during their passage through the diffusion liquid more or less agitated, and the particles in relation to each other change their position, so that the liquid is brought more thoroughly in contact

with every portion of them. 2. There is no air brought in contact with the solids after they are once im-mersed, till the whole work of diffusion s completed, whereas in most methods of battery diffusion, the solids as well as the liquid are detrimentally impregnated with air during the operation of diffusion.

3. The work is done automatically, and less labor, both skilled and unskilled, is required to operate this

4. The loss of sweet water in empty ing the solids from battery cells i avoided altogether in the diffusion tube method, the exhausted solids being drained off before they leave the tube. 5. As the diffusion tube method is gradual and non-intermittent, much less time will be required for complete diffusion than in cell batteries and less inversion will be the result.

6. Where mill crushing is practiced and about three-fourths of all the sugar is extracted by that means, the diffusion tube will deal with the bagasse only and the diffusion juice will flow into the charge during the last two years were clarifiers with that from the mill, this gives all the advantages of diffusion without any change of existing machinery, further than the addition of the

SAVED BY A DREAM.

A Singular Story Told by Joe Williams to His Fellow-Soldiers.

A man of the name of Joe Williams had told a dream to his fellow-soldiers. some of whom related it to me months previous to the occurrence which I relate. He dreamed that he crossed a river. marched over a mountain and camped near a church located in a wood, near which a terrible battle ensued, and in a charge just as he crossed a ravine he was shot in the heart. On the ever memorable 7th of December, 1861 (battle of Prairie Grove, Northern Arkansas), as we moved at a double-quick to take our place in the line of battle, then already small frame building. I was riding in the flank of the command, opposite to Williams, as we came in view of the house. "That is the church I saw in my dream," said he. I made no reply, and 1 10 never thought of the matter until evening. 5 81 We had broken the enemy's lines and 2 00 were in full pursuit, when we came to a dry ravine in the wood, and Williams said: "Just on the other side of this ravine I was shot in my dream, and I'll stick my hat under my shirt." Suiting the action to the word he doubled up his hat as he ran along and crammed it into his bosom. Scarcely had he adjusted it when a minie ball knocked him out of line. Jumping up quickly he pulled out his hat, waved it over his head, shouting: "I'm all right." The ball raised a black spot about the size of a man's hand just over the heart and dropped into his shoe.—[Hall's Journal

Photographic Weather Predictions. With regard to the accident which occurred to the war vessels at Apia, says the British Journal of Photography, it might be advisable to refer once more to the theory of Dr. Zenger of Prague, who suggested to make use of photography for the prediction of the weather. Accord ing to the doctor, photographs of the sun taken on orthochromatic plates offer a most infallible means to indicate with almost absolute certainty the approaching atmospheric and subterranean disturbances at least twenty-four hours before their setting in. In these photographs zones are often to be seen around the sun's disk-i. e., rings of circular or elliptical form, of white or gray ish color-and if these zones appear of very large diameter, and of unusual heaviness, this indicates that violent storms, thunder storms, or magnetic disturbances will soon set

in at the place of observation. The effect of the London book Total payments for same period.\$509,977.65 sales during last year is to show that books, under certain conditions, are a profitable investment. The early edition of Pickwick brought double the original prices. The first Ruskins, or Sir Richard Burtons, the early editions of Swinburne and Browning all sell well. Investments in very high-priced books, such as the Caxtons, have been profitable in A HARSH SENTENCE.

One Naval Officer Dismissed From the Service.

Washington, June 15 .- The case of Ensign George Ormsby was finally dis-posed of by his dismissal from the naval service, and is the first occurring in a number of years which had that result. Ormsby was regarded in the service as a 'sea lawyer," and had greatly vexed the department by his lawless and erratic conduct. The formal charges upon which he was tried by Court Martial were disobedience of orders and dis respect toward the Secretary and Acting Secretary of the Navy. It appears from Young's Patent Automatic Diffusion the record that when he was ordered Apparatus." The object of this inven- from Richfield Springs and later from Cincinnati to join the Monongahela, then under orders to proceed to Samoa, he pleaded illness, and when the depart inconvenience consequent upon the cell- ment refused to accept this excuse, he disregarded his orders, proceeded South tube is constructed in the form of an and asked to have his resignation accepted.

In some of his letters addressed to the Secretary of the Navy he complains that iquid to flow in an opposite direction to he was being bumiliated contrary to the revised statutes, and requests the Secretary either to leave the decision of his case to the civil courts, where he had begun an action looking to the revocation of his orders, or to a court martial. Sub sequently he was found at Los Angeles, al., placed under arrest and conveyed to Mare Island, where he was tried by court martial. Of all of the charges and specifications the court martial found him guilty, and upon the Secretary's approval of the sentence, the President formally dismissed Ensign Ormsby from the naval service.

> A hot spring near Ragtown, Colo. throws a column of water nearly eight inches in diameter to a height of thirty feet. The water is boiling hot, and the spray scalds the skin whenever it comes in contact.,

KAULUWELA ENGLISH SCHOOL

Gratifying Results in Teaching English to Children Whose Parents do Not Speak That Language.

The first annual public examinations of the Kauluwela English School, under Principal C. H. White, took place on Tuesday morning, and was largely attended. Among those present were Mr. A. T. Atkinson, Inspector-General of Public Schools, and Mrs. Atkinson; Mr. John Bush, head-master of Iolani College, and Miss M. Mossman. Mr. White has charge of the advanced pupils, and remains were also placed on exhibition. | tinet. One of the greatest difficulties of he is ably assisted by Mrs. Wood and Miss White, who have charge of the lower grades. The examinations were overcome it. However, many of the | held in the different rooms under their respective teachers. The exercises consisted of reading, spelling, writing, and arithmetic. The school is composed of boys and girls of four different nationalities, viz.: Hawaiians, Portuguese, Gerwhich was finely given by members of ranks highest in her studies, and her mans and Norwegians. The reading of the high class, as well as the other grades, was very fair, considering that the school was commenced only a year ago, and the efficiency of its first public examination is very creditable to the energy of the teachers.

At 11 o'clock rhetorical exercises were held which were very gratifying especially the singing. The pronunciation of many of the pupils was very clear. The exercises concluded a little after 12 o'clock. Mr. Atkinson made a few brief remarks to the parents, and complimented the teachers upon the past year's work. Prizes were awarded as follows: Progress in English and other studies, lst, John Kila: 2d, Abigail Mahoe, Best examination papers, Maggie Hendrickson.

The Brooklyn Bridge was opened six years ago. During the six years 21,396,935 persons have walked across the structure, and 125,138,594 pas sengers have gone over on the cars. The total receipts have been \$4,287,-

The skin was burned off the palm of his hand and the two middle fingers were badly burned. He was taken to Dr. Miner's office, and one finger was so badly burned off that it had to be amputated. Mr. Smyth was unconscious for a few moments after receiving the shock, but shortly recovered, showing great grit, and returned to the Delictin looks like a smeared piece of narrow escape from what might have been a more serious accident. Too great care can not be taken in working around

Panullo School.

The annual examinations of this school were held Tuesday morning, the 24th inst., and were well attended by the parents and friends.

The rooms were tastefully decorated and as the guests arrived they were cordially welcomed by the Principal, Miss Lewis and her assistant Miss Barnard. The first part of the programme con-

sisted of class work of the two rooms. Great improvement was noticed in all the work, which reflects great credit upon the efforts of the teachers. During the noon intermission lunch was served to the visitors.

The remainder of the programme consisted of singing and speaking. The exing Hawaii Ponoi and pronouncing the Lord's prayer.

Baseball on Saturday.

The two games on the Makiki diamond drew a large number of lovers of the sport. The Kamehamehas and a nine from the U. S. S. Adams played a five inning match in which the former were victorious by a score of 15 to 2 runs.

The regular league game was called at 3:30 o'clock and was between the Honolulus and Kaiulanis. The Honolulus won by a score of 22 to 3. The weather was showery at intervals during the afternoon, but did not interfere with the

The Yacht Helene Disabled.

The yacht Helene was towed into Honolulu harbor Sunday afternoon dismasted. She went on a cruise in the morning; and, when off Diamond Head. wire stays gave way at the mast head, flush with the deck. Charley Peterson at the lookout station, telephoned for the tug, which found the Helene several miles from land and drifting further off. Nobody was hurt and everything was

Prof. E. L. Melville made a balloon OUR SAN FRANCISCO LETTER.

July 19, 1889.

(From our special correspondent.) Sugar Matters.

The local market is somewhat weaker than it has been for some weeks. Granulated is quoted at 83s cents, confectioners A at 834 cents, other whites at 914 cents. Extra C at 715 cents and Golden C at 71% cents. The raw sugar market in London and New York is lower though the New York market is not changed to any material extent. The market in London is reported as weak in

its tendency. General complaint is made by Eastern fruit canners at the high price of sugar. They are having exactly the same experience of San Francisco and all California canners.

The Eastern retail grocers are thinking of agitating a plan by which they can make a fair profit on all sugar handled by them.

Sugar Trust stock has fluctuated considerably during the last month owing to the uncertainty regarding the decision of the courts in the cases now pending. The Trust now comprises sixteen companies and has paid cash dividends of 15 per cent. and 8 per cent. in scrip on a capital of \$50,000,000.

Sullivan and Kilrain.

John L. Sullivan defeated Jake Kilrain July 9th at Richburg, Miss., for \$20,000 and the championship of the world. Seventy-five rounds were fought, only once after the third round the result of the fight was no longer in doubt, Kilrain received some blows over the heart in the third that made him good for nothing during the rest of the battle. The authorities did not stop the mill. In the forty-third round Sullivan vomited considerably and the fight at that stage ooked like Kilrain's for a few minutes. Kilrain fought a dodging waiting fight and tried to tire Sullivan out. Sullivan was arrested for a few minutes at Nashille, but was released on a technicality He and Kitrain and the seconds made their way secretly to Chicago, and thence to New York through Canada. They are not likely to be bothered further.

Sporting Notes. On July 12th, Maori, a three-year old colt, ran a mile in a race at Chicago in :39 4-5, which is the fastest time ever made in a race and very close to Ten Broeck's record of 1:3934. Many timers made Maori's time 1:3932, 1:3938 and 1:3934, but the judges placed it at

parsman of America has gone east to prepare for his boat race with Searles on he Thames next September. O'Connor, Lee, Hamm and Peterson have been doing the coast thoroughly. There will be no yacht race for the

William O'Connor the champion

America's cup this year. The Valkyrie which was designed to defeat the Volunteer is not a success.

Was There a Leper.

O'Donnell received the following communication:

Sir: There is a white lever on thi boat that arrived to-day, the Umatilla at foreckels' wharf. His name is ---There are over a hundred more there ready to follow suit as the other alternative is to go to Molokai. Being an Ammade a dumping ground for every place. This man is small, about five feet three nches and about 120 pounds, and has been before the Commissioners, it is reported."

An examination of the passenger list shows that a man of the name given and wife arrived from Honolulu on the vessel. Immigration Commissioner Thorn-ley is investigating the matter, but can not find out what has become of the man. Samoa.

Harold M. Sewall, Secretary of the Samoan Commission and formerly Consul at Apia, has returned from Europe. He would of course not say anything about the terms of the new treaty, but expressed himself as greatly pleased with Phelps' appointment as Minister to

Gustavus Howard of Illinois, who was formerly connected with the government service at Apia, is endeavoring to go back

in an official capacity.

The Vandalia and Trenton have been stricken from the navy list.

The nine Samoan warriors who came up on the Umatilla from Samoa, have had big audiences at the Orpheum where they are showing. They will soon go

The Panama Canal.

H. B. Slavin, President of the American Contracting and Dredging Company has gone to Europe to close a contract with the old Panama Canal Company for the completion of the canal. Slavin puts the cost of the work at \$200,000,000 and is confident that he can raise it in France and America.

Engineer Menocal of the United States Navy and the Nicaragua canal will leave in a fortnight for the Isthmus to commence operations on the Nicaragua He says the row between Costa canul. Rica and Nicaragua over canal concessions will be speedily settled. There is no fear of war even if the matter is not adjusted and Menocal expects to have the canal done years before the Panama canal is ready for business.

Subsidies for Amercian Steamers. One of the principal subjects which will come up before Congress this winter will be those of granting subsidies to trans-Pacific lines already in operation, and trans-Atlantic lines to be organized. for carrying the United States mails. It is understood that the Pacific Mail and Oceanic Companies will make another hard effort to get something like decent recognition from the government, and they will be aided by the new company organized by the Vanderbilt family to run across the Atlantic, and the company that is endeavoring to build up trade between Brazil and New York.

The Proposed Cable. There is every reason to believe that the proposed Hawaiian cable project will be carried out in the near future. Mr. John T. Waterhouse and other gentlemen interested in the plan are taking steps to bring it under the favorable notice of the American government and capitalists generally. Action is expected by Congress this winter.

San Francisco Notes. Red Bluff had a \$5000 fire on the 16th. Mrs. Paul Neumann has left for Germany accompanied by her son.

Mrs. Amy Crocker, the divorced wife of R. Porter Ashe was married at New York, July 10th, to Harry Gillig, a wellknown man about town. They immediate-

ly left for Europe. The marriage was secret, only Frank Unger knowing of it. The business portion of Ellensburg W. Per S. S. Australia, San Francisco, T. (4000 inhabitants), Bakersfield, Cal. and about half of the business portion of

> million dollars. The capitalization of the five biggest Trusts in America is as follows: trust, \$83,018,800; sugar, \$49,856,500; cotton seed oil, \$42,185,200; distillers, \$30,726,600; cattle, \$13,396,100. Total \$229,183,200.

> Ex State Senator Richard J. Creighton, the convicted jury briber who fled from here on October 3d, 1887 to escape sentence, returned to the city on the night of July 15th. He came in from Victoria on the steamer City of Puebla and will be sentenced to-day.

The Fourth of July was celebrated as usual. There was a parade in the forenoon, in which however the trades unions did not participate because the Fourth of July committee did not employ union bands solely. The regimental bands of the National Guard refused to parade, for this reason and have been court-martialed but the decision of the court is not known. The literary exercises were held at the Tivoli, Seth Mann being orator. The Assessors annual report shows that the real estate assessment will aggregate \$249,810,652 as against \$211,-467,987 for 1888. The personal property assessment roll is \$64,947,511 making the taxable property of San Francisco \$305,-

67.163Senators Dawes, Jones, Stockbridge, and Manderson went to Alaska to visit the entire territory, and determine the truth or falsity of the reports of the Indians there being maltreated and degraded by the soldiers and others, as has been charged.

The State Board of Trade will continue to send the traveling exhibition 'California on Wheels' through the East, throughout the summer. General Dimond gives notice that the

Mint will not re-open until August 1st. The Supreme Court has affirmed the decision of the Superior Court in the Jessup will case. Young Richard Jessup obtains \$120,000 by the decision.

The annual report of the Southern Pacific Company, which controls and operates all the various Stanford-Crocker-Hopkins-Huntington properties, shows that the total receipts last year were \$35,117,241 the expenses were \$22,656,-

Adolph Spreckels, of the firm of J. D. Spreckels and Bros., who has been ocated in Philadelphia for some time superintending the construction of the new sugar refinery, has returned from the east. Mr. Spreckels has been relieved at Philadelphia by his brother C. A. Spreckels, and returns to assume the management of the firm's sugar in terests on this coast.

General American News.

The Chicago police have ascertained nothing further in regard to the Cronin murder. Burke, a suspect, is to be brought back from Winnepeg for trial. The New York Herald has published another article against the Clan-na-Gael charging the organization with murder-Soon after the arrival of the steamer ing John McInerny as well as Dr. Cronin.
Umatilla from Honolulu, July 13th, Dr. McInerny was the go-between of Alexander Sullivan, Nicholl Boland and D.C. Feely. He was last seen April 18th. The Herald also charges the Clan with conspiracy to murder McCahey of Philadelphia, and John Devoy of New York. It claims that traps were laid for these

> The will of General Simon Cameron has been admitted to probate. The value of the estate is \$1,700,000. Relatives outside of the children are given about \$600,000. The remainder is equally divided among deceased's three children Haldeman of Kansas, late Minister to

> Siam, will get the Chipese Mission. Li Hung Chang, Viceroy at Washington, would be immensely pleased at Halde man's appointment, and Kansans claim that they haven't had their share of the offices.

> Carlisle D. Graham, who has been announcing that he would go over Horseshoe Falls at Niagara, in a patent boat of his own contrivance, decided to let the boat go over alone. It was well for him he did so. The boat was smashed into pieces when it went over the fall and when it struck the whirlpool rapids nothing was left of it.

On July 2d a train of eight cars fell through a bridge at Thaxtons, near Lynchburg, Virginia, on the Norfolk and Western Railway. The engine exploded and the wreck took fire. Twenty-two people were killed and twenty hurt, some

of whom will die.
Duncan A. MacTavish, agent of the Bank of British North America and an old-time merchant, died in New York aged seventy-two years. He was in California during the gold excitement and established a trading store and shipping line in Oregon that proved a profitable enterprise.

Collis P. Huntington is building a shipyard at Newport News, Va., which he claims will be the biggest establishment of the kind in this country.

The Goodyear Rubber, Boot and Shoe Company of Providence, has assigned. The attachments aggregate \$716,000.

Mrs. Tyler, widow of ex-President John Tyler, died July 10th at Richmond, Va. She was married to Tyler while he was President, and left four children. That an extra session of Congress is to

be called is about as certain as anything can be which is that far in the future. I is the general understanding among the Senators and Representatives that they are to be called in session about the first

Canadian and European Affairs. The trouble in Canada over the Jesuits oill is not abating. The Protestants are determined to change the policy of the government, if protests will do it. Some even favor a religious war with the catholics in the Province of Quebec.

War rumors are coming almost daily from Europe. France is taking gold from other countries, notably from America, and is believed to be preparing for a struggle. Authentic reports say that the Pope is preparing to leave Rome. France has not ceased to resent the English protectorate over Egypt.

There is a row in England over the payment of any more annuities to the members of the Royal family. Princess Louise, the daughter of the Prince of Wales, has just been betrothed to the Earl of Fife and money is wanted for them as well as for Prince Albert when he marries the Princess Victoria of Prussia. The Radicals have put in a vigorous protest against paying Louise anything. The Queen wanted her to get £10,000 a year. The dispute has created no little talk and has ended in the Queen's offering to show how much money she has laid away out of her al-

(Continued on tenth page).

THE MOORE CLAIM.

History of a Suit Against a Portion of San Francisco.

Middlerows, (N. Y.), June 26 .-Fresno had been destroyed by fire. The David H. Houston, who has brought suit loss on these fires amounts well on to a | in the California courts to recover property a mile square in San Francisco valued at \$300,000,000, is a grain merchant of this place, of high business and social standing. He gives the following history of his claim: My father-in-law, John K. Moore, a builder and contractor. was among those who went to San Francisco in the early days of the gold ex-citement and followed his occupation

there. He bought of an old Mexican resident, Ferdinand Machina, a tract of land about one mile square, then vacant lots, out now near the heart of the city Machina held a grant to the property made in 1843 executed by Michaeltorena, then the Mexican Governor of Alta California. Moore paid \$25,000 for the property and proceeded to take possession and build a number of houses. some of which are still standing.

He returned East in 1852, remaining some months. In his absence squatters settled and built upon a portion of the land. On his return he undertook to eject the intruders, who disputed the soundness of his title. He applied to the courts, and after a year's litigation, a decision was rendered by the court of first resort against him declaring the Micheltorena grant invalid; that the tractrightfully belonged to the municipality of San Francisco by virtue of a grant of later date.

The fact that there is some virtue in what is known as the Moore claim is generally recognized by careful real estate buyers of San Francisco, many of whom take the precaution to perfect their titles to the disputed property by securing a deed from Moore as well as from

the apparent owner. The Trustees of the Masonic Hall, which was recently erected on the disputed property, paid Moore \$7,000 to perfect the title, and several eminent lawvers of the city have undertaken to carry the case through the United States courts. They speak very confidently of success in establishing the claims.

The latest boat between Calais and Dover has done her measured mile at the rate of 22% knots an hour.

A large gathering of people was present at the forty-ninth annual public examinations of the Royal School Thursday, Before 9 a. m. the various school rooms and the people kept on coming, until nearly 11 o'clock. The number in and around the school rooms was estimated at about one thousand.

The lowest grades were in charge of the Misses Ladd and Miss McIntyre. The children in these rooms were enspelling, and writing exercises on the blackboard. The children under these teachers enter school without any prior knowledge of English, most of them not | for \$50,000. knowing the letters of the alphabet.

The next three upper grades were under Miss Mist, Mrs. J. H. Brown, and | been sold in England for \$5000. Miss Louisa B. Brickwood. The pupils under these teachers have been studying reading, writing, arithmetic, and geo- valued at \$210,000. graphy. Recitations and singing were these classes are taught Swinton's Third | allowed to see it. Reader, and their reading was very good the andience were heard to remark con- of 1853, \$60. cerning their efficiency in the recitations. Mr. H. W. Peck, the vice-Principal, room next to that of the Principal; and are a few samples: the examinations under his charge consisted of reading, dictation, composition, arithmetic, and other studies. The scholars' powers in elecution. The national stamp with the words "U.S. compositions on the blackboards were and Hawaii," on it, are valued at \$1,500, problems in reduction were solved.

These were followed by recitations by \$500. several of the boys, some of them being very amusing, and were loudly applauded. Mr. Peck awarded the prizes, first to Kuaiwa for the best year's work in all the studies, and second to James | \$30. Wright, for the most deserving. Out of a class of twenty-three boys, two only of 1849 and "V. R." black English were absent during the term. Mr. Peck said that he never had any trouble with his boys, for which he was very thankful

The class room exercises in the principal's room, Rev. Alex. Mackintosh,) embraced readings by the first and second which were all correctly solved. The questions in arithmetic and algebra were selected from the examination papers of of the College of Preceptors in England, -the very same questions being required to pass aspirants in law, medicine, engineering, etc., in that college.

Written examinations in grammar, physics, algebra, arithmetic, geometry, ing the early part of the week, and the posed to be worth dollars when it is not results have been very satisfactory. The papers were well written.

At 11 o'clock the closing exercises in Rev. Mr. Mackintosh's room were held. until its spurious character is discovered. Among those present were: H. R. H. Princess Lilinokalani, Mr. A. T. At-kinson, Inspector-General of Schools, Mesdames A. Mackintosh, and H. W. Mist; Messrs. John Bush, C. H. White, Mr. Gallagber, and Prof. M. M. Scott. The exercises commenced with singing followed by a recitation, "From Ghent to Aix," by D. A. Kawaihoa. George Kanikan next appeared with, "When will the millenium come," which was given in fine style. Kelekoma Haui then appeared as the Frenchman and his Host"-a comical performance causing much merriment. A dialogue, "Hiring a Footman, by Miranda, Young, Woodward and Simeona, was well received. Edward Woodward, Daniel Kamakauahoa and Churles Akau, each gave recitations.

The closing piece was a dialogue, "Eh! What is at?" in which Charles K. Akau represented Murcho, a deaf gentleman, who wished to give his daughter Clara-personated by William Young, in marriage to suitors similarly affected. Master Young, who appeared in a young damwell's clothes, caused laughter. Princess Lillipokalani delivered the prizes to the successful pupils, who were as follows: For best year's work-Chas, K. Akau, 2 Geo. Kanikau, 3 D. Miranda, For recitation-1 Geo. Kanikau, 2 Wm Young. W. Grube, in Mr. Peck's class, was also gwarded a prize.

Opium Concealed in the Sails of the City of Sydney.

The customs inspectors diligently continued their search for contraband opium on the steamer City of Sydney yesterday. The lower hold, the engine-rooms, the cabin and the state rooms were given a thorough overhauling and the coal in the bunkers was probbed through and through with steel rods. None of the "dope" was found in the places mentioned. Inspector Greenan then 20th day of June, 1889, by His Excellency idea was a happy one.

On unloosing one of the furled sails the inspector found concealed therein nine five-tael boxes of contraband opium of the same brand as that seized by Inspector Murphy and his staff in the steamer's pilothouse and auxiliary engine-room on Thursday. The customs officers think that the pool that is engaged in smuggling opium, getting scared at the strict measures that were being taken to prevent it, told each man engaged to look out for himself, and that the man or men who stowed the drug away in the sail hoped to have an opportunity to throw it from the yard on to the wharf shed. If so, their scheme was frustrated by

It is stated that Pigott had his life insured for the sum of £1,000 in the English and Scottish Law Life In-English and Scottish Law Life Insurance Offices, and paid the premiums regularly up to the last. No claim has yet been made upon the company. Pigott's suicide, it is said, example affect the policy, as it had cannot affect the policy, as it had see as Hotel St., at Or Grossman's old stand. been over five years in existence.

STAMPS.

Something of Interest to Young and Old Collectors.

Not a week passes that numerous readers do not write to inquire the value of some more or less rare stamps in their possession, not realizing how difficult it s to fix such values. Stamps, apart were occupied by parents and friends, from their intrinsic value of 2 or 3 cents (when uncanceled) are merely curiosities and have no actual value.

Some people would not give a dollar for a hundred of the rarest stamps in the world, while others would mortgage a house to obtain possession of a single stamp. Some of the prices paid for stamps in this country are such as may well amaze the young stamp-collector, gaged during the forenoon in reading, and in Europe the mania is so great that some collections are almost priceless. M. Phillippe de Ferrari has a collection of 240,000 stamps, and he has sold

one collection to a Parisian stamp-lover Mr. Burnett, an English collector, has stamps valued at \$110,000, and many col-

lections by no means remarkable, have The late Duchess de Galhera accumulated 3000 albums, which are now

At the Paris Mint there is a remarkgiven by advanced pupils, which were able collection, and the Rothschild colvery interesting. The next three higher lection in Paris is so costly and so highly grades were under Misses Walker, Julia prized by its owner that it is guarded Turner, and Nellie Brown. The boys in like the Koh-i-noor, and only experts are

At a recent London auction some re--the pupils being very particular with | markable prices were realized. British their articulation. Recitations and sing-ing were given by several small boys prices: A "blue 4c." of 1856, canceled, which were all well delivered. Their \$185; uncanceled, \$250; four 1c. issue pronunciation was noticeable. Many of 1853, \$5 each, and a pair of 4c. Magentas

These prices are paralyzing to the ordie nary reader, but much higher figures conducted his class room exercises in the have been reached in other sales. Here

The 15 cents and 30 cents Reunion stamps bring \$500, and the New Brunswick 5 cent stamp finds a ready purreading was above the average, particu- chaser at \$150. The set of four 1852 har attention being given to develope the Hawaiian stamps, including the intervery good, and neatly written. Several and the 1847 Mauritius stamps, 2 cents and 4 cents, can rarely be had under

> Old Brazil black stamps range in value from \$5 to \$12 50; the green and yellow ones of Buenos Ayres bring as high as \$25 each, while the red ones are worth

The vermillion 1 franc French stamp penny stamp are considered cheap at \$50 apiece, while the Mulready wrapper on India paper, issued in 1840, has been sold for \$400.

The prices are enough to send a cold chill down the back of the youthful collector who is reflecting whether he can classes in Swinton's fifth reader, recita- afford to invest 50 cents for an "1859 tions in physics, grammar; and some Peruvian one penny red." But that is problems in arithmetic and algebra, no reason why the collector could not collect, if it gives him pleasure. It is a harmless amusement and incidentally attaches history to the col.ector.

But there is a drawback, as there is to every amusement. All rate stamps are counterfeited, and the rogues are so skillful that only an expert can detect the imposition.

Many a collector has a stamp he rizes as the gem of his collection worth cents. However, it is a consolation to know that a counterfeit gives just as much satisfaction as a genuine stamp, and such discovery rarely happens .- [Ex

anvertisements.

Election of Officers!

TTHE ANNUAL MEETING A of Stockholders of the HILO AND HA-WALLTELEPHONE AND TELEGRAPH CO, held this day, the following Officers were duly ... Vice-President

E. Richards..... E. E. RICHARDS, Secretary. Hilo, Hawail, July 9, 1889. 1280-4t

A Elemarkable Phenomenon.

this afternoon a rare and peculiar the other hand, to show that pedespasenomenon was visible in the trianism is not all it is cracked up to beavens. It was not an ordinary limin that encompassed the sun, although the shape and form of an shadow—either word will answer.

It won't do Mr "Hercules." deficred from those usually seen, in argue that walking will give develseveral particulars, among others is ste opacity and in the fact that the whole space between the circum- lieve you mean well for all that. Becare and centre was filled up with Try again. a dense upor of about the same degree of durkness as the circum-

The very rim of this wheel-shaped estimate the diameter of this mass advantage, no doubt, of what are at about lifteen to eighteen degrees. The sun at the time shone with mently its usual brilliancy. There were visible in various parts of the heavens cirrho-cumulus and some masses of cumulus clouds, but from my standpoint I could see nothing but the phenomenon stated that was N. B. E. worthy of mention. Honolula, July 23d.

Training of Hawaiian Youth.

Ms. Encros: With your permisbolies of Hawaiians, especially those | smoke it. of white parentage.

From various causes that only partly result from a warm climate, Hawaiian youths are receiving a training; both mental and physical, that cannot do otherwise than lead even for \$25,000 like the Australia's? to degeneration of race, to general debility, bad health and premature death. Young Hawaiians grow up shortcomings of our contemporary, as fully average height, full of as they are so numerous that it would nervous energy as seen in their take all our time and space. But rapid movements; but they are when an engineer calls attention to lamentably wanting in those powers errors made in his line of business. of endurance which are always the we feel bound to let him make his winning qualities in all battles of comments.-ED.] life, whether the avocations be of a mental or physical nature. I am not at present considering excep- 25th "Triple Expansion" claims to tional cases; but refer mainly to the samples of Hawaiian manhood seen daily upon the streets of Honolulu; nor do I include youths or young | tion of one half of 36 or 18 tons. If men of foreign training—my remarks being only applicable to eral of your readers with a few paryouths trained on these Islands.

which I allude, because in tropical preciated. Australia, where the heat is very much greater, the sons of European colouists indulge, to a very large extent, in all the outdoor sports of England-including pedestrian anatches, cricket, rowing and many other uthletic exercises. I do not albeight to prescribe what kind of author sports or games should be chosen on these Islands; but they should be of a vigorous nature, and bring into play all the muscles of the body. On this account pedestriumism is one of the best; because it exercises all the muscles, especially if up-hill and down-hill grades are traversed. This is an exercise prescribed in all cases where persons are put in training for extraordinary physical feats. Yet, pedestrian mutches are never undertaken on these Islands, and the legs are exercised as little as posin the daily affairs of life. If business calls a man a couple of blocks away, he rides in a back or in his own carriage instead of walking the distance; then he inconsistently complains that his busimess is of a sedentary nature requiring Turkey rhubarb, purgative pills and other nostrums. His liver is blamed, his kidneys are at fault, he has too much bile, and he has an sche here and an ache there. He never thinks that all these ailments are caused by the lack of natural exercise which he should give to his body and all its functions. Even many Hawaiian mechanics and laborers err in a similar directionthe exercise of their trades only brings into action certain muscles, which are developed at the expense or its methods, to lay the matter promptly of others that are allowed to remain before ALEX. J. CARTWRIGHT. inactive; and we frequently see a strong armed blacksmith hobbling along on legs that carry him with

The great aim should be to exercise the whole body, not to overtax any portion, but to actively and regularly employ every muscle given by acture for this use. In no other way can a healthy and vigorous body be built up and maintained, and the people who neglect Nature's system of physical training are bound to degenerate both mentally and physic-

If Hawaiian youths would walk more and use backs less, the change would be greatly favorable to their constitutions and to their personal comfort. They would be more self reliant more enduring under fatigue, accomplish more with less difficulty, and have on the average a more pleasant and longer term of life.

Reply to Hercules.

Mr. Engren: The remarks of your correspondent "Hercules," seem to fieshy development of legs count for anything, he is entirely mistaken in his conclusions. As examples of Hawaiian production of limbs there are those of the Hotel street fat-boy,

the native editorial fat-boy, the King street grocer, a well-known Queen We do not not ourselves responsible for the street merchant, the captain of the statements made, or spinions expressed by our tug, and many others whose names will readily occur to your readers. These examples suffice to show what can be and is done on these islands Mr. Extron: At about 2:30 o'clock in the limb development line. On be, there is the shocking example of the thin watchmaker, who has walked himself to a skeleton or

> It won't do, Mr. "Hercules," to opment of limb, because your logic is at variance with facts; but I be-

> > "As Others See Us."

Mr. Editor: It is a pity to observe was tinted with flame-color. from time to time your contemporary Speaking from memory, I should descending to personalities by taking simply printer's errors. In a late issue of the D. B. are some of the same class, which you have failed to notice. For instance, it is asserted that the Australia will only burn 360 tons coal in twenty-four hours, or about one-third less than she consumed before! Great Scott!!! or any other man. In other words, the editor, means to say she burnt formerly 22½ tons, which will now be reduced to 15 tons per hour!!! Perhaps he will be surprised to know that the sion. I would like to make a few largest passenger steamer afloat does remarks regarding the physical not consume anything like the above. training of Hawaiian youth; not But even this is nothing to boast of, that I can introduce new facts, but as the writer has traveled by 3,000rather to point out the necessity of ton mail steamers consuming only albering to natural laws regarding half that quantity daily. Let him the health and development of the put this into his pipe (or funnel) and

TRIPLE-EXPANSION.

July, 1889. P. S.—The D. B.'s statement of cost of repairs is "too utterly" ludicrous. Where could you get boilers

We do not pretend to notice all

Mr. Editor: In your issue of July have travelled on a 3000-ton mail steamer with a daily coal consumpticulars of the above mentioned mail The climate is not to blame for the steamers horse-power of engines, evident lack of physical training to speed in knots, it would be duly ap-Yours,

SHIPPING NOTES

The American Missionary packet Morning Star will leave next Wednesday afternoon on her annual cruise among the South Sea Islands.

The American barkentine W.H.Dimond, Captain E. P. Drew, arrived July 27th, 14 days from San Francisco, with general merchandise, and was anchored in the stream.

The German bark G. N. Wilcox, Captain Pasch, was moored at Brewer's wharf Sunday, 15 days from San Francisco. She is consigned to Messrs. H. Hackfeld & Co., and will load sugar for San Francisco.

The schooner Rosalind sailed Thursday for San Francisco with 7,500 bags sugar, 5,714 bags of which were shipped by Messrs, H. Hackfeld & Co. The cargo weighed 935,234 pounds, and was valued at \$64,-

The Papaikou Sugar Plantation, Hilo, Hawaii, broke down on Monday, and the steamer Lehua was despatched for here with the manager, Mr. W. W. Goodale, to give orders at the Honolula Iron Works for another roller.

The steamship Mariposa sailed on Saturday, July 27th, for San Francisco, with 2.400 bags sugar shipped by C. Afong, 1.379 bunches bananas shipped by Campbell, Marshall & Co., 15 boxes betel leaves, and 229 boxes fruit. The domestic produce was valued at \$23,425.

The barkentine S. N. Castle sailed yesterday morning for San Francisco with 14,-946 bags sugar weighing 1,736,450 pounds, 946 bags sugar weighing 1,759,450 pounds, value at \$111,226,50. The shippers were: F. A. Schaefer & Co., 4,036 bags sugar; C. Brewer & Co., 5121 bags sugar; T. H. Davies & Co., 5789 bags sugar. Total ton-

from Cape Flattery. Sailed from Vancou-ver July 12; experienced fair winds and pleasant weather the entire passage. She brings forty miles of the new interisland cable and about 600 posts. The C. H. Tupper is moored at the Fort street wharf, and was flying the Telegraph Cable Company's flag at the foretopmast on Sunday.

The steamer Waimanalo picked up three Japanese fishermen at 2 o'clock on Tuesday afternoon about two miles off Barber's Point. Captain Everett found the men clinging to the mast, their boat being under water, the sails helping them from going down. The men were taken aboard the steamer Waimanalo and brought to Hono-iulu. None of the Japs could speak a word of English, and only one of them could awim. The captain was unable to learn the facts of their adventure.

MARRIED.

GILLILAND-KAONOHI-At the Roman Catholic Cathedral, Honolulu, on the 27th inst., Mr. Richard Gilliland, clerk in Mr. C. O. Berger's office, to Miss Lizzie Kaonohi, both of Honolulu, H. I.
