## BJC-6000 Color Bubble Jet™ Printer

## THE SMART CHOICE FOR ALL YOUR PRINTING NEEDS

See What We Mean.™

\* On specialty paper.  
\*\* Mac OS compatibility requires optional Canon USB kit; compatibility only on Apple systems with USB port and 8.1 or later operating system.  
\*\*\* With download buffer disabled.  
† SelectExchange warranty program is subject to certain restrictions and limitations. See warranty card for full details.

The Canon Think Tank System™ is an intelligent ink-management system unique to the BJC-6000 Color Bubble Jet™ printer. It features individual ink tanks for each color ink, so you replace only the color you need as it runs out.

**Eliminate ink waste and save money**

Wasting ink by having to replace all the colors in a cartridge just because one color is spent is a thing

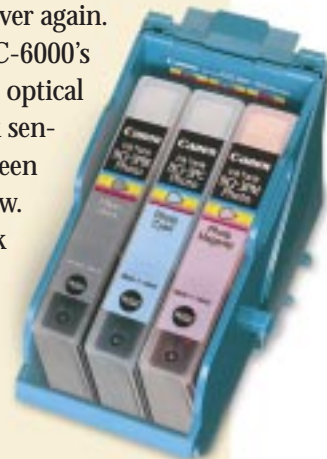

of the past. The BJC-6000 uses individual ink tanks for each color. When one runs out, simply replace that color—not the entire cartridge. No more ink waste—just big money savings.

**Never run out of ink at the wrong time again**

Ever run out of ink right in the middle of an important print job? Never again. The BJC-6000's built-in optical low-ink sensor

actually warns you with an on-screen message when a specific ink tank is low. So you can replace the empty ink tank just at the right time.

# A Truly Remarkable Printer At An Amazing Price

The BJC-6000 is the smart choice for all your printing needs, whether for a busy workplace or a home office. It establishes a new benchmark in affordable, professional-quality printing by adding intelligent functions that help you work smarter. From fast, high resolution black and color printing to amazing photo output using optional Canon Photo Inks. Plus, an intelligent ink system featuring individual ink tanks that eliminates ink waste and saves you money.

**Speed**

The BJC-6000 features an expanded print nozzle system that prints an area up to twice as large in just a single pass—resulting in blazing print speeds.

- Fast approx. 8 ppm black
- Quick approx. 5 ppm color

**Quality**

The BJC-6000 is the next generation of state-of-the-art Canon printers. It incorporates such exclusive output advancements as Drop Modulation Technology™ and a new image processing system for outstanding color rendering and richness.

- Rich, laser-quality black printing
- 1440 x 720 dpi printing, color and black

**The Canon Think Tank System**

The BJC-6000's hallmark is an intelligent ink-management system that reduces waste and saves money.

- Large individual ink tanks save you money
- Ink sensor indicates when ink is running low

**Other Features**

- USB, Mac OS and network compatible\*
- Exclusive Canon Creative Pro software

\* USB and Mac OS compatibility requires optional Canon USB kit. Network compatibility optional. Recommended network print server is AXIS® PrintPoint 140 BJC.
