

Waterproof Wall System

Wellbeing, relaxation, and functionality

CREATE YOUR DREAM BATHROOM

Our bathrooms are perhaps our most personal and intimate space in the home. Once seen as a place to cleanse our bodies, they are now a place of sanctuary. Somewhere where we go to escape the stresses of everyday life and to feel rejuvenated.

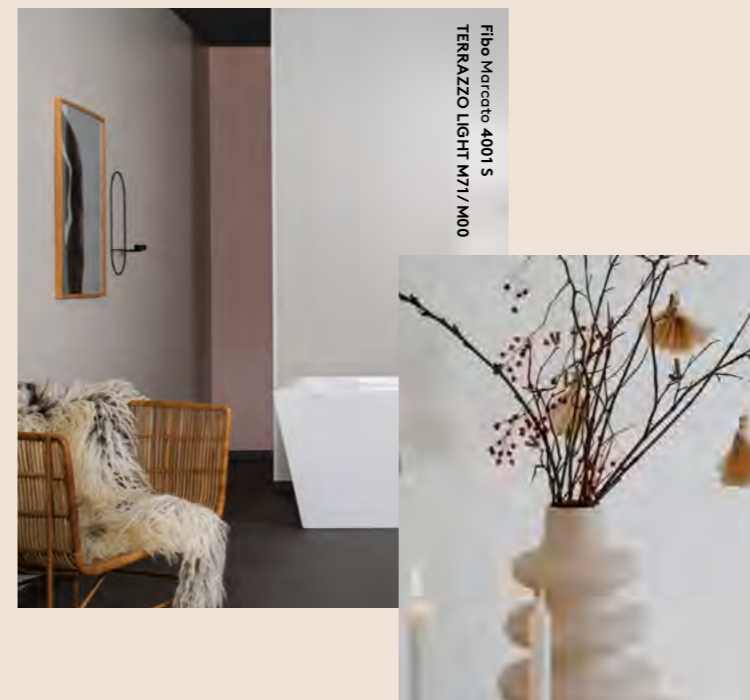

Almost everyone visiting your home sees your bathroom. As well as providing a relaxing atmosphere, it should be easy to clean, hygienic and functional by design.

Efficient and effective

A COST-EFFECTIVE INNOVATIVE SYSTEM

From our very beginning, Fibo's focus on innovation has been our greatest driving force. Wet rooms leave little room for error. Our products are tested to meet the highest wet room standards, and it's why building contractors, public sector developers, and skilled tradespersons all choose Fibo.

AT HOME WITH NATURE

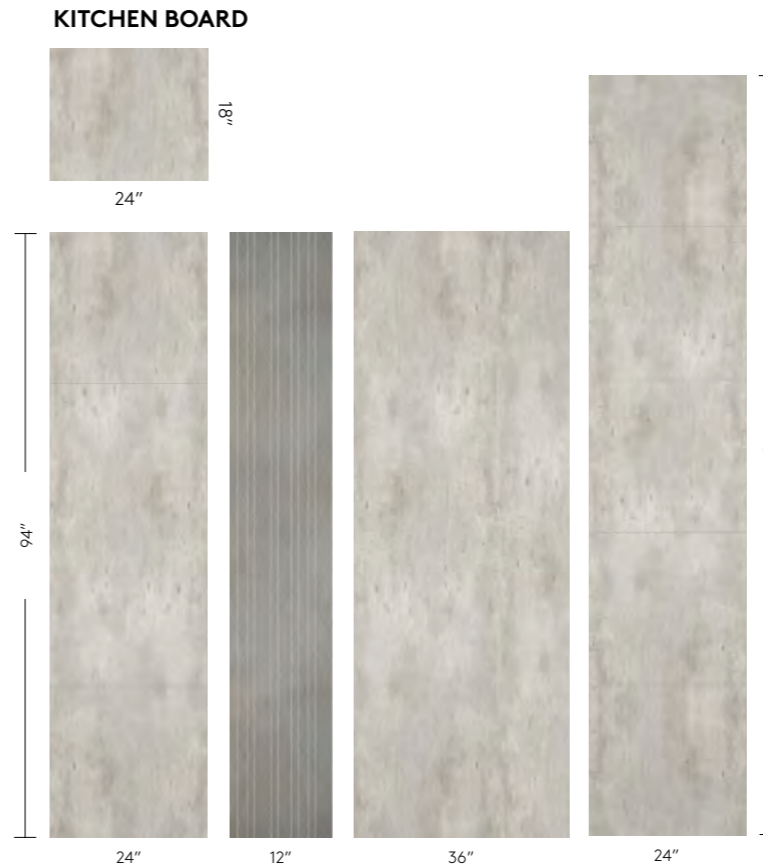

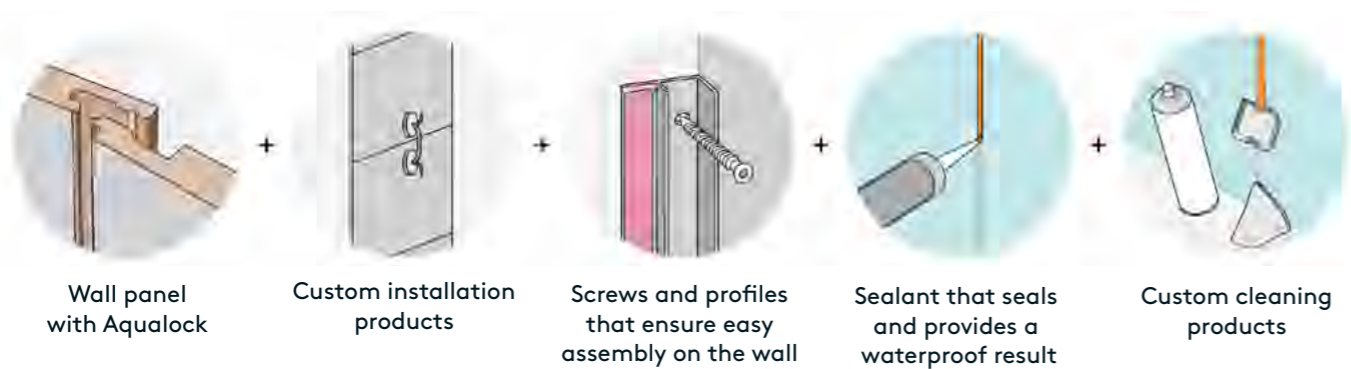

Scandinavian design represents the simple and the functional. We want solutions that provide a sustainable lifestyle. Not only for ourselves, but for nature and the people around us.

A Simple and Complete Solution

Fibo's wall system is 100% waterproof and has all necessary approvals for wet rooms. The system is supplied as a complete set of accessory products and profiles, which simplifies installation and ensures a perfect result.

PANEL SIZES

94 inch panel height allow for a rapid, easy installation of a whole wall from floor to ceiling. Certain decors are also found in 107 inch length for rooms with extra high ceilings. We also offer a broad selection of decors in 36 inch wide panels, with no tile effect, in addition to an 12 inch wide accent panel.

Kitchen Boards are panels 18 inch in height, adapted to the splash zone between the kitchen counter and cupboards. The panels protect the wall from water or food preparation splashes.

ANTIBACTERIAL PROPERTIES

You get even more out of each Fibo panel. All our panels have an antibacterial surface that contains no harmful substances, requires no special maintenance, and is tested according to ISO 22196 which indicates good effect against the bacteria E. coli and Staphylococcus. The certification covers all our panel decors, both with and without design patterns.

THE RIGHT TOOL IS HALF THE JOB

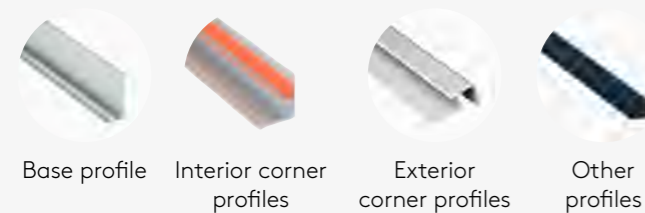

Installation accessories and profiles are specially adapted and dimensioned for a waterproof and safe result.

TIP! Read the installation instructions carefully and watch our installation videos on fibosystemusa.com before you start work.

INSTALLATION ACCESSORIES

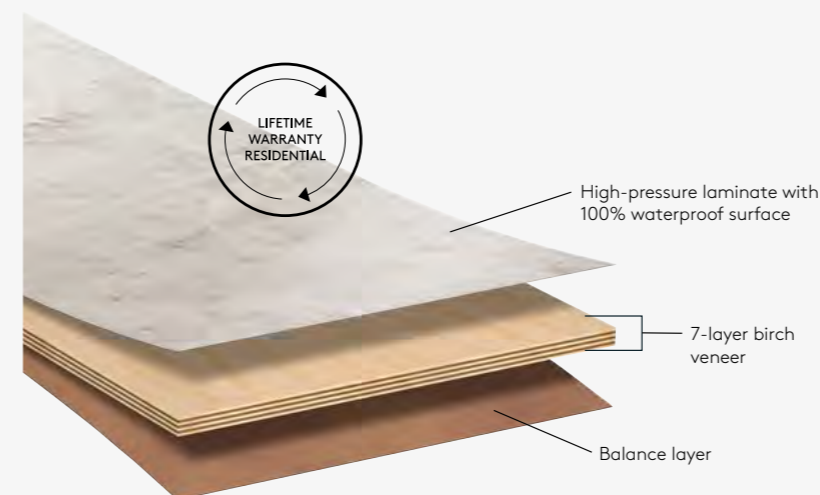

SELECT THE CORRECT PROFILES

REMEMBER! To ensure a waterproof surface and an approved bathroom, the installation must always be carried out in accordance with the installation instructions in force at any given time.

WORLD CLASS WALL PANEL

Fibo wall panel has a core of seven birch veneer layers made from PEFC certified wood types. The boards are pressed together and covered with high-pressure laminate so that there is a membrane in front. You thus get a 100% waterproof, environmentally friendly design wall adapted to your needs.

FIBO AQUALOCK: 100% WATERPROOF

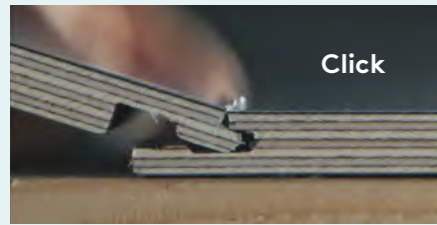

Our Aqualock click lock makes the Fibo wall system the perfect choice for both renovation and new constructions. The unique wall system provides a 100% waterproof surface, simplifies installation, and makes the joints virtually invisible. There is also no need for a moisture barrier or other type of waterproof membrane behind the panels.

Watch our instructive installation videos at fibosystemusa.com

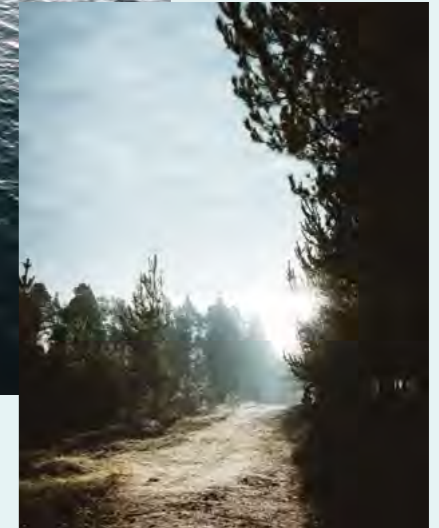

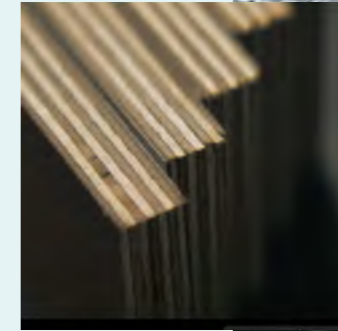

A NEW BATHROOM IN ONE, TWO, THREE!

Fibo wall panels are easy to assemble. Our innovative wall system is 100% waterproof and is delivered ready to assemble, saving you both time and money. Get the bathroom you've always wanted for a great price!

GOOD FOR YOU AND YOUR SURROUNDINGS

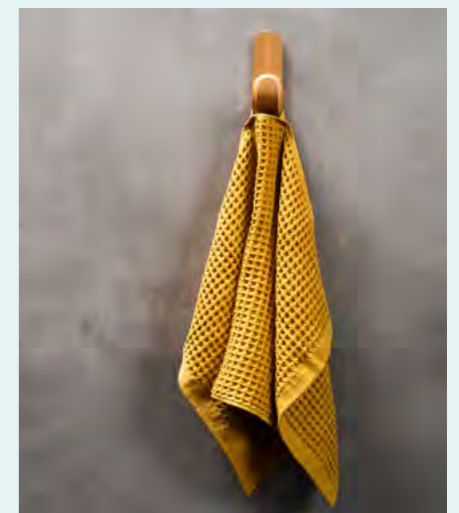

Our products are made of certified renewable wood, without harmful chemicals and have a smaller CO2 footprint than tiles.

Wall Panels

DESIGNS THAT MEET YOUR NEEDS

Our decors are timeless and independent of shifting trends. The surface is easy to clean – optimal for all areas subject to humidity and a lot of wear.

New Decors

We have introduced two new marbles that are inspired by Carrara marble, which has its origins in Northern Italy. This marble is a sophisticated timeless classic which will give any new bathroom a luxurious look and feel. Fibo Bianco Marble is our silk matt version whereas Bright Marble has a high gloss. The use of colors in the home is very much back in fashion. And we have added a new Deep Yellow to our extensive Colour collection, so you will be sure to find a color to suite your taste!

Antibacterial Surfaces

All Fibo wall panels now come with a documented antibacterial effect. Our panel surfaces contain no harmful substances, require no special maintenance, and are tested according to the ISO 22196 standard - this means that it is virtually impossible (99.99%) for E. coli and Staphylococcus bacteria to survive. The certification covers all our panel decors, both with and without design patterns.

Minerals

Fibo Marcato 4001 S TERRAZZO LIGHT M600/M72

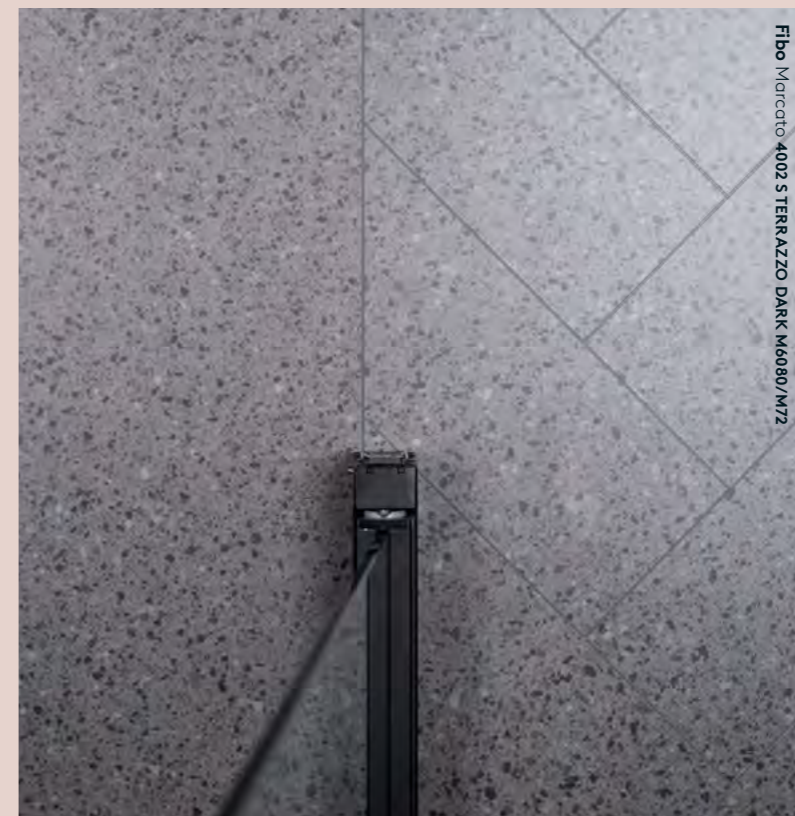

STONE TEXTURES AND NATURAL FINISHES

Bring nature indoors! Choose a mineral decor and give your bathroom that natural feel. Go for a timeless classic with one of our Terrazzo decors. For a soft and fine-grained look, we have Sahara. With different cement variations you can create that rough expression which has been very popular recently.

Fibo Marcato 4002 S TERRAZZO DARK M6080/M72

WHAT IS TERRAZZO?

Traditionally, Terrazzo is a type of concrete consisting of cement, water, crushed natural stone and as a rule includes a pigment. Meet our Terrazzo decors:

Marble

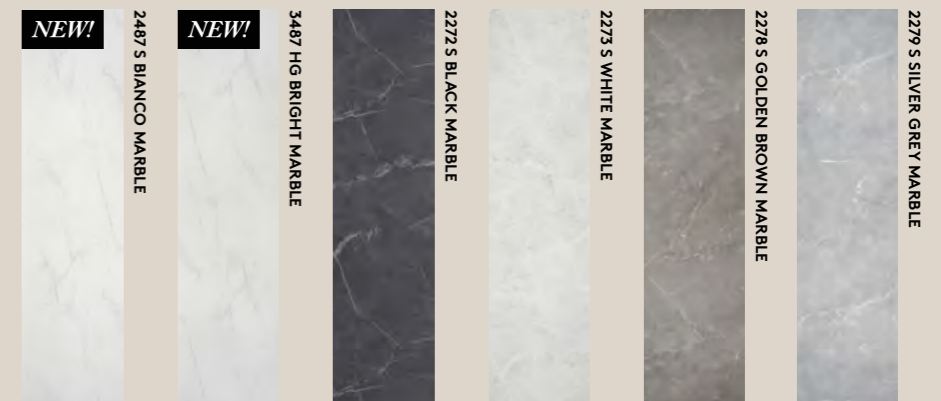

Fibo Marcato 3487 HG BRIGHT MARBLE M00

MODERN CLASSICS

Marble designs consistently stand the test of time and rarely go out of fashion. You cannot go wrong with any of our six decors. Black Marble is perfect if you are aiming for an edgy, contemporary look. White Marble offers a subtle touch of grace. For elegance, look no further than our new Bright and Bianco Marbles.

Concrete

Fibo Marcato 2126 S DARK SOOT M6060 / ME88

Fibo Marcato 4943 EM GREY CONCRETE M6060

SHADES OF CONCRETE

Select a rough concrete look to create an industrial style. Round and soft forms and shiny surfaces go well as a contrast to concrete. Our best-selling Cracked Cement goes well with most things – and most people! Here is a wide selection to suit your taste. Note that several of our Marcato panels are delivered in extra-long lengths for those who have a high ceiling!

TIPS!
 Combine natural materials of wood, cotton, linen, wool, ceramics, stone, and glass to support a close-to-nature feeling.

NATURAL WOOD TEXTURE

Large surfaces and clean lines have always defined Scandinavian style. Using these panels with wood texture brings nature indoors and you can feel free to either minimize or maximize your interior choices.

Fibo Adagio 0164 S OAK NATURE

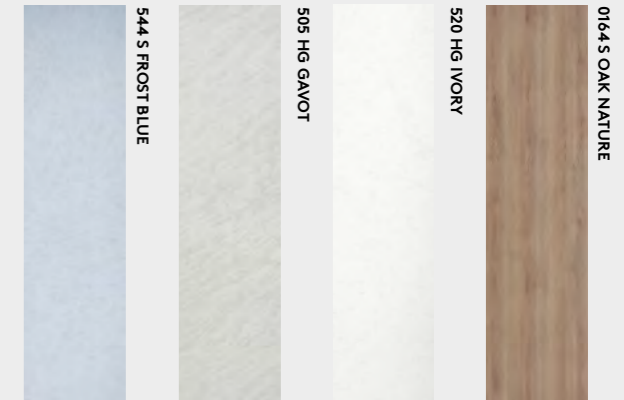

WARM, NATURAL DECORS

In the Adagio Collection, there are eight different decors with two different textures. Achieve a Mediterranean feeling with marble and other stone imitations, or a more natural look with the new Oak Nature.

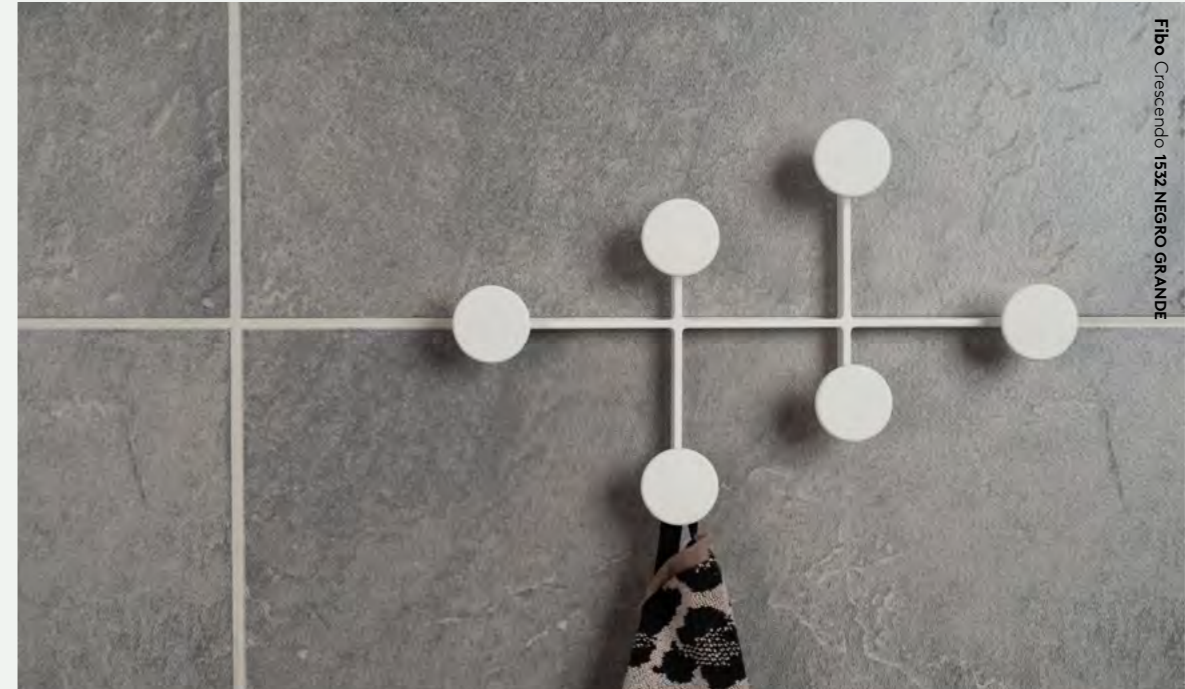

CLASSIC EXPRESSION

The Adagio Collection consists of panels without grout lines or height and surface differences. The panels create a sophisticated and timeless expression.

SURFACE TEXTURE
S = Silk
HG = High gloss

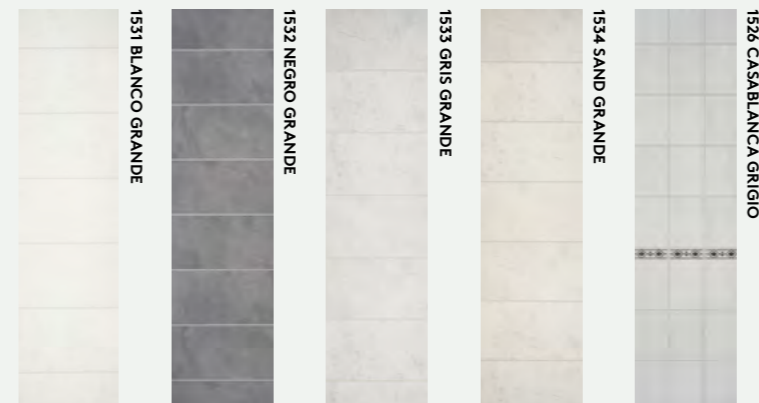

Tactility

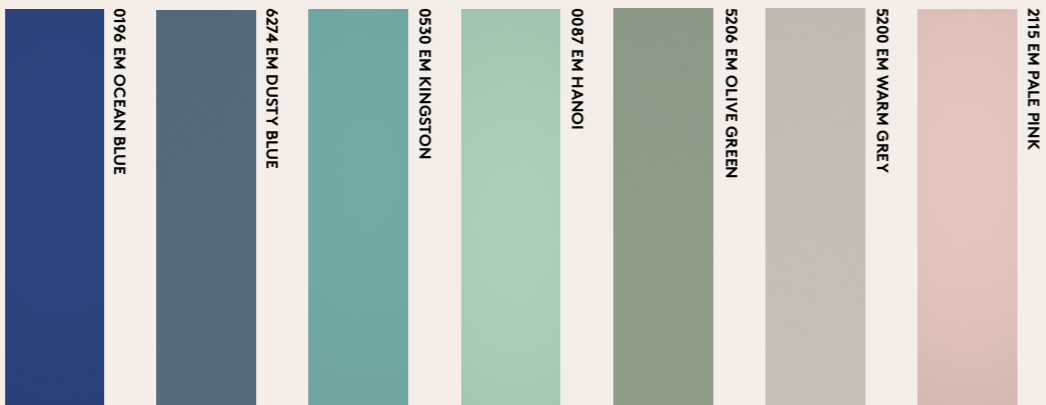

THE TACTILE FEELING OF THE SURFACE

The Crescendo collection has a unique surface with a three-dimensional effect. Both panels and grout lines have an irregular surface, giving them a realistic, natural look.

Please note that Crescendo is specially designed to incorporate authentic-looking grout lines, and the grout line width may therefore vary by +/- 0 5/64". You should also know that Crescendo grout lines are not milled but are part of the panel design.

Matt colors

MUTED COLORS WITH EXTRA MATT SURFACE

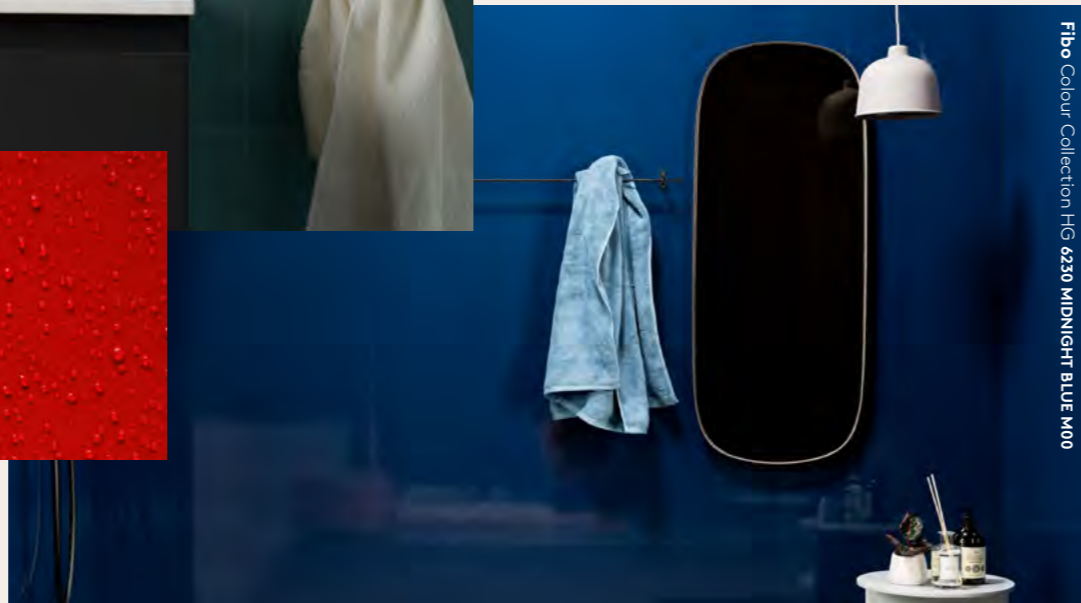

Colors are finally back in fashion again! This collection is fantastic, and with an extra matt finish, these panels add a trendy palette that may easily be combined with panels from other collections. Don't limit your imagination - color creates happiness and comfort.

High gloss colors

Fibo Colour Collection HG 2212 HG AQUAMARINE

Fibo Colour Collection HG 6230 MIDNIGHT BLUE M00

Fibo Colour Collection 5223 HG YELLOW M6040

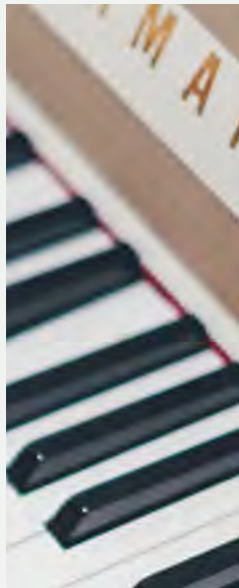

GLOSSINESS TO SUIT ANY TASTE!

For creative souls who dare to express themselves, we offer these fresh, high gloss colors! It is easy to combine decors from Colour Collection high gloss with the other collections but note that the panels come with 0 3/4 inch grout lines!

Classic

TIMELESS DOESN'T NECESSARILY MEAN BORING

Classic Fortissimo is a stylish selection that suits most homes. It is found in a wide selection of designs. When making your own combination, remember that some of the collections have different grout line widths and colors. Several of the Fortissimo decors are also found in extra-long panels – for modern buildings with higher ceilings.

CLEAN LINES AND CLASSIC DECORS

All designs in the Fortissimo Collection have a smooth surface and can in theory be used together to create an exciting room. The grout line width is 0 ¼ inch and grout line color for all panels is grey, aside from Toscana which has white grout lines.

SURFACE TEXTURE
 HG = High gloss
 S = Silk
 SL = Slate

Clean surfaces

QUITE SIMPLY

The Legato Collection has four stylish decors without grout lines and with smooth surfaces. The colors are light or in shades of grey and suit most homes with their timeless color tones. Go for a minimalist silky look, or Titan's steely surface.

The panels come in standard heights of 94 inch, as well as extra-long lengths up to 107 inch.

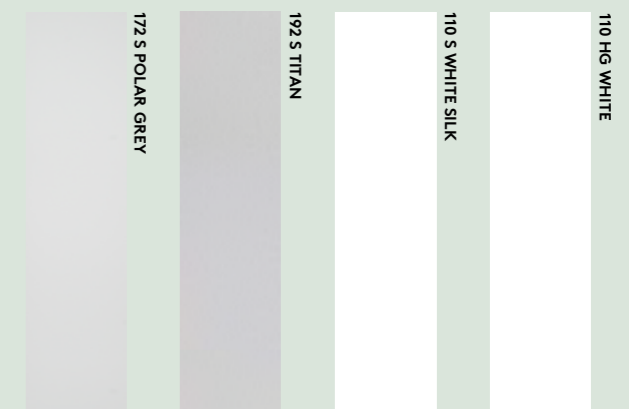

SILKY SURFACES

The collection suits most buildings with both normal and extra high ceilings perfectly. This is an inexpensive alternative that suits the washroom and entrance way as well as the bathroom.

Since all Legato panels are without tile patterns, they can easily be combined with all other Fibo designs.

SURFACE TEXTURE
S = Silk
HG = High gloss

HOW TO CHOOSE:

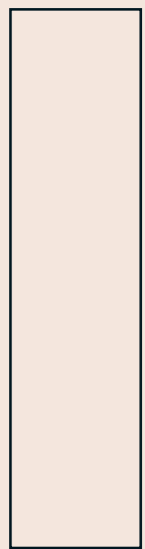

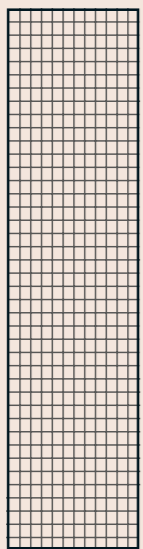

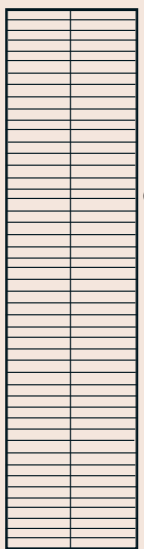

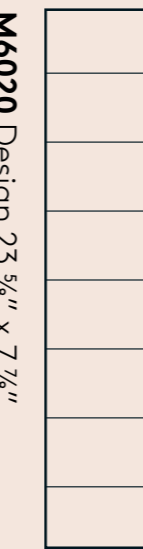

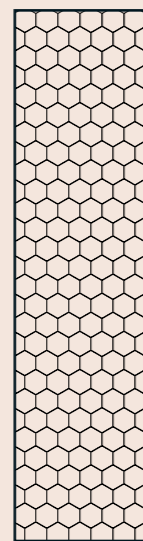

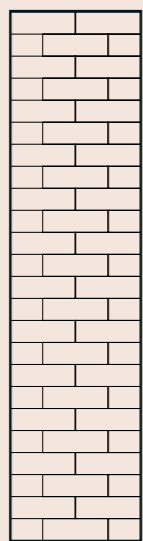

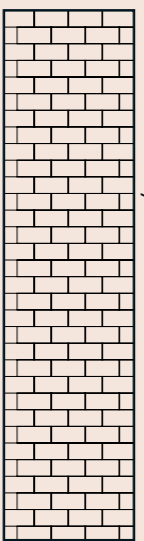

Our designs, or tile patterns, provide variation to the different decors. Color selection and width of grout lines will also accentuate or tone down the design. In the Collections Overview you will find design codes indicating the design in which the individual decor is found.

PANEL MEASUREMENTS:

Standard panel measures 24 x 94 inch, but some decors are available in an extra-long length of 24 x 107 inch (p. 44).

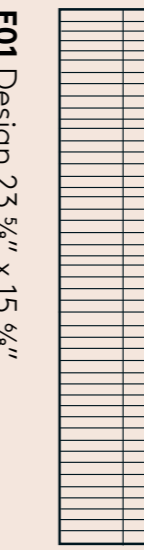

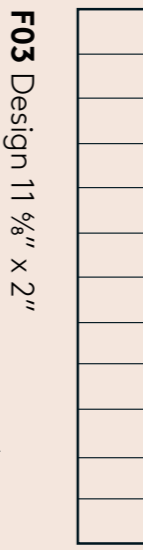

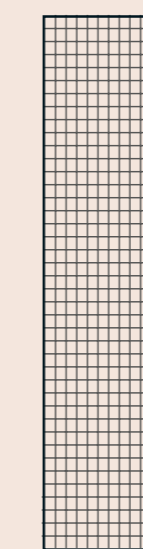

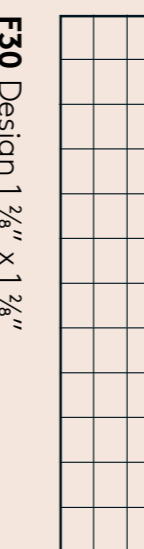

M-design

M-DESIGN has a grout line 0 5/64 inch wide.

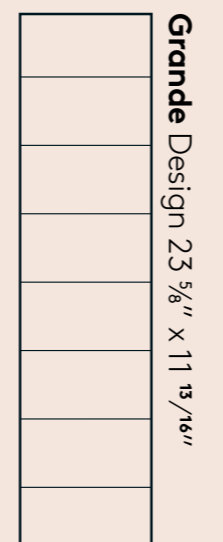

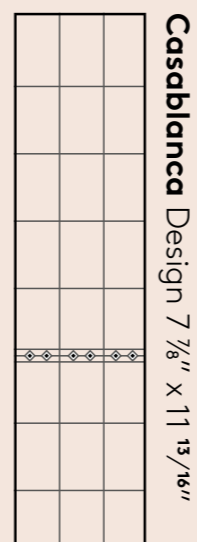

<p>M00 No tile pattern</p> 	<p>M0303 Design 1 3/16" x 1 3/16"</p> 	<p>M3005 Design 11 13/16" x 1 31/32"</p> 	<p>M6015 Design 23 5/8" x 5 29/32"</p> 	<p>M6020 Design 23 5/8" x 7 7/8"</p> 	<p>M63/M6030 Design 23 5/8" x 11 13/16"</p> 	<p>M6040 Design 23 5/8" x 15 3/4"</p>

CLICK, READY, GO!

Fibo Kitchen Board is easy to assemble. Our innovative wall system is 100% waterproof and is delivered ready to install so that you save both time and money.

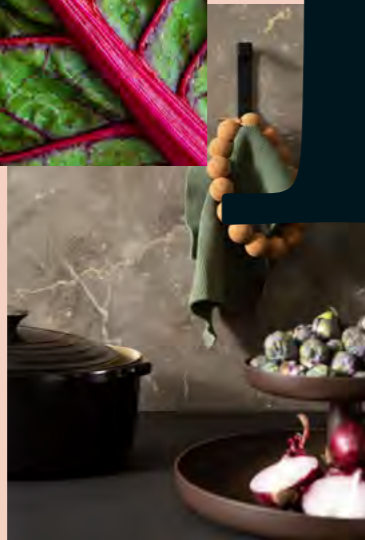

DESIGNS THAT MEET YOUR NEEDS

Our decors are timeless and independent of shifting trends. The surface is easy to clean – optimal for all areas subject to a lot of wear.

Kitchen Board

TIPS!

Fibo Kitchen Board is a simple and smart solution that protects the wall from water splashes and frying grease when making food. The system provides seamless joints and a great transition between the panel and the countertop.

Inspiration kitchen

RENEW THE KITCHEN IN ONE-TWO-THREE!

MULTIUSE

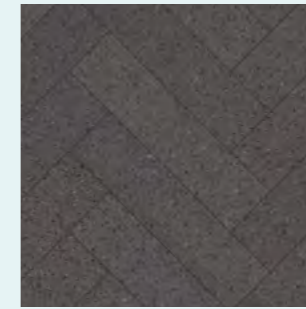

The kitchen is the heart of the home, not just a place to make and eat food. It is also the place we conduct team meetings, do homework, socialize, and go for alone time. Time for something new?

Installation of Fibo wall panel

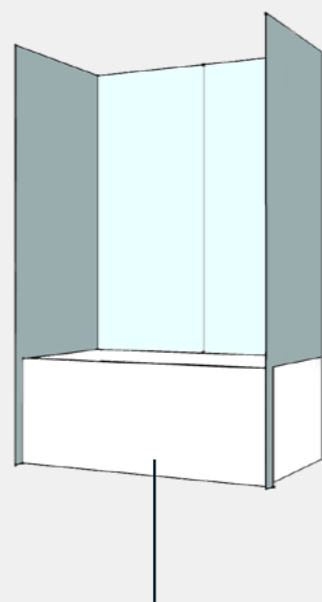

According to independent calculations, installing Fibo Wall Panels is five times faster than laying tiles. Most of the time is saved on the groundwork – Fibo can be mounted directly on studs or certain types of existing walls.

In shower area, all profiles, cutting surfaces, joints and the bottom edge of the panel must be cleaned, and sealant applied. Our recommendation to reduce any shrinkage in boards is to apply sealant to all joints.

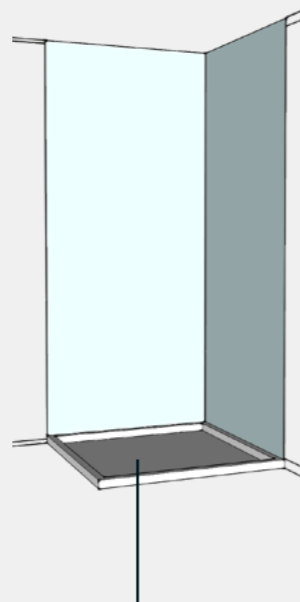

Indication on what you need to install Fibo in a typical alcove.

3 sided Alcove with shower tray 48 x 36"

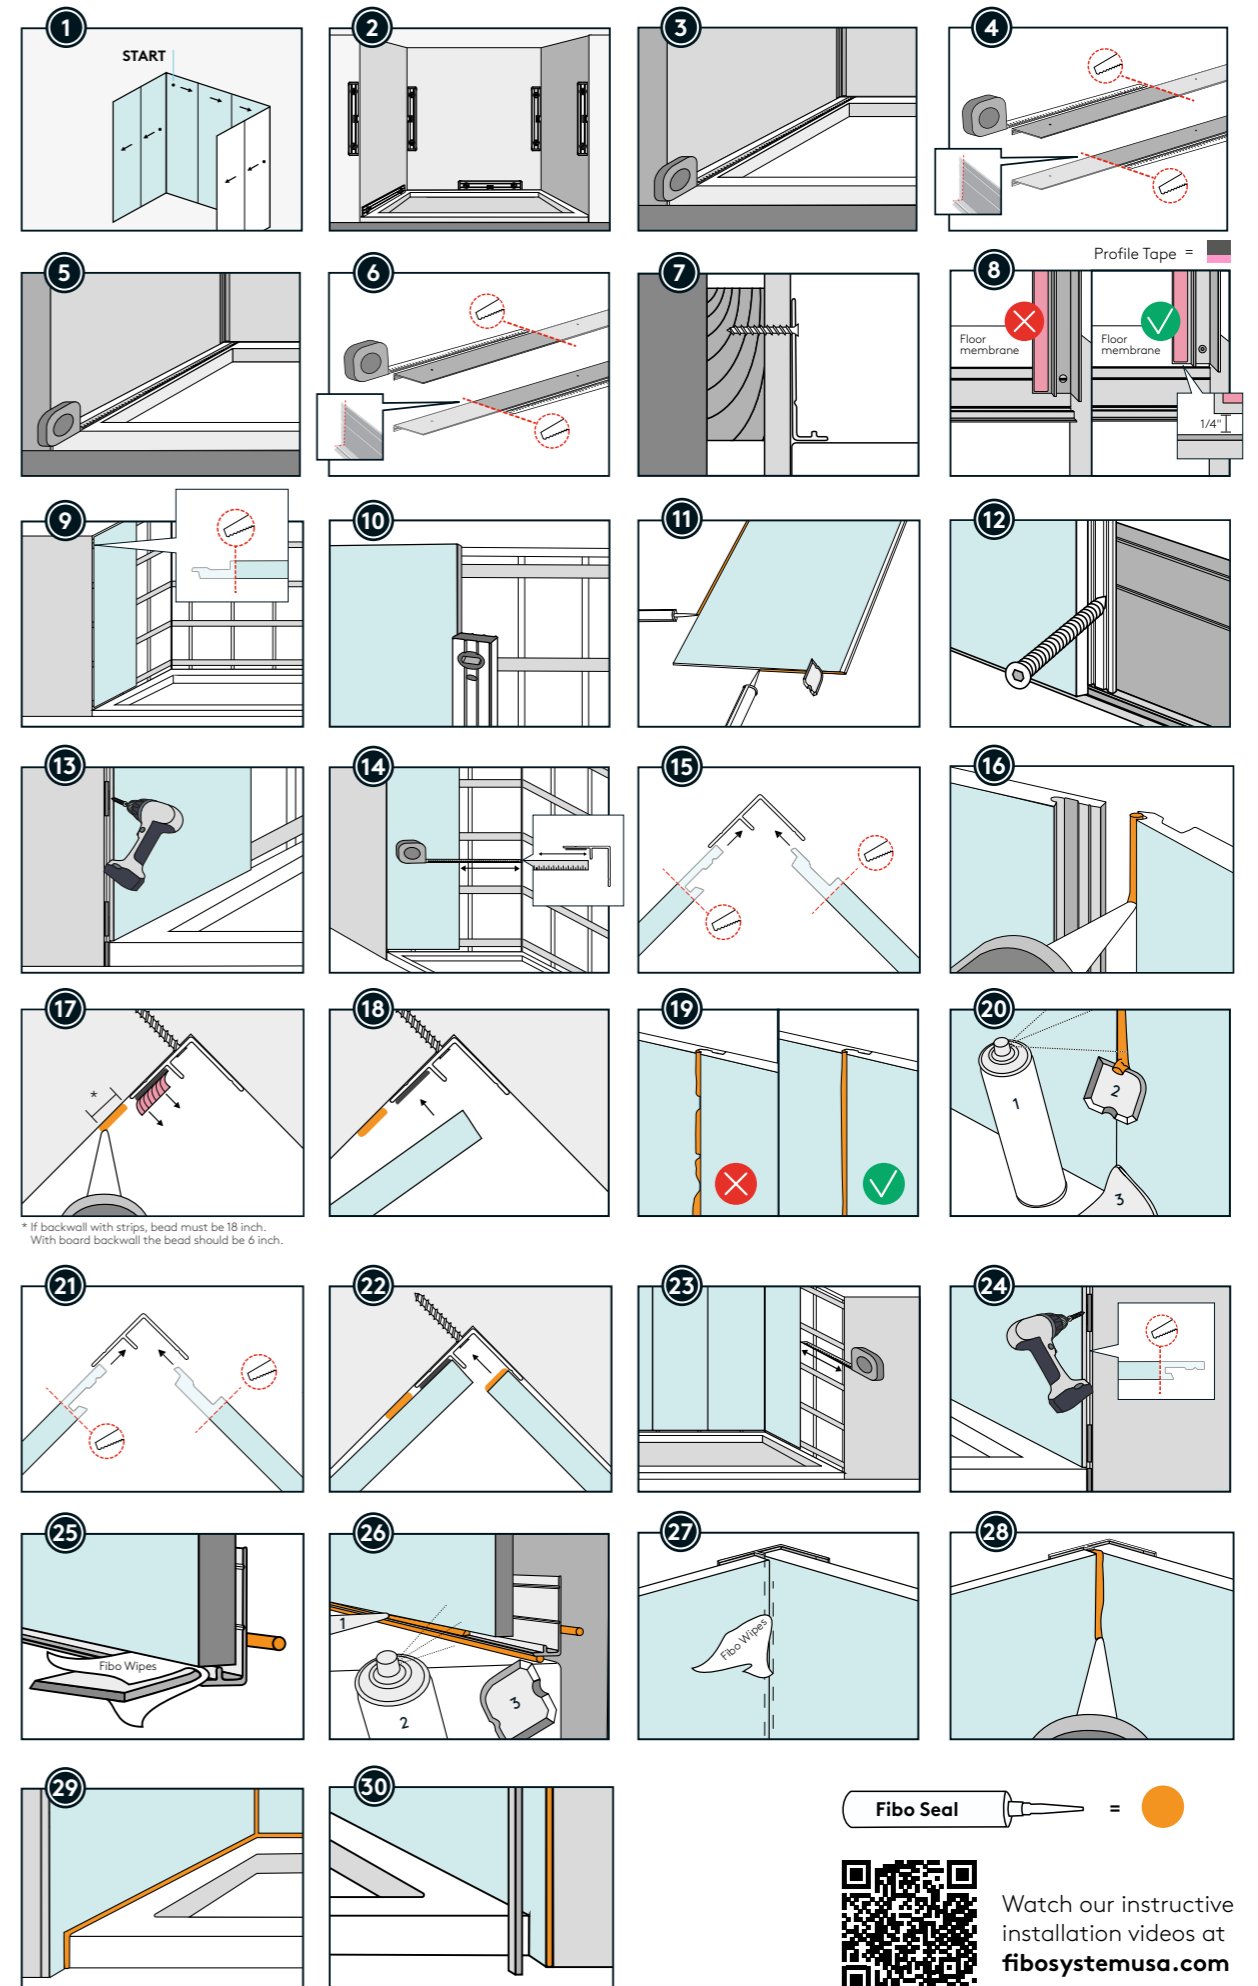

3 sided Alcove with bathtub 60 x 36"

Shower corner with tray 36 x 36"

Walls built for life

The UNs Sustainable Development Goals (SDGs) provide a shared blueprint for peace and prosperity for people and planet, now and into the future. Fibo is guided by eight of the UN's SDGs which affects everything we do. From the raw materials we choose, to our manufacturing processes and even the transport firms we use to distribute our wall panels. Read more on fibosystemusa.com

SUSTAINABILITY

Fibo is a responsible company committed to sustainability. Our raw materials come certified renewable wood, and we take special responsibility for making products that last. All our materials are fully traceable, and we publish our Environmental, Social and Governance (ESG) report annually so you can follow our progress.

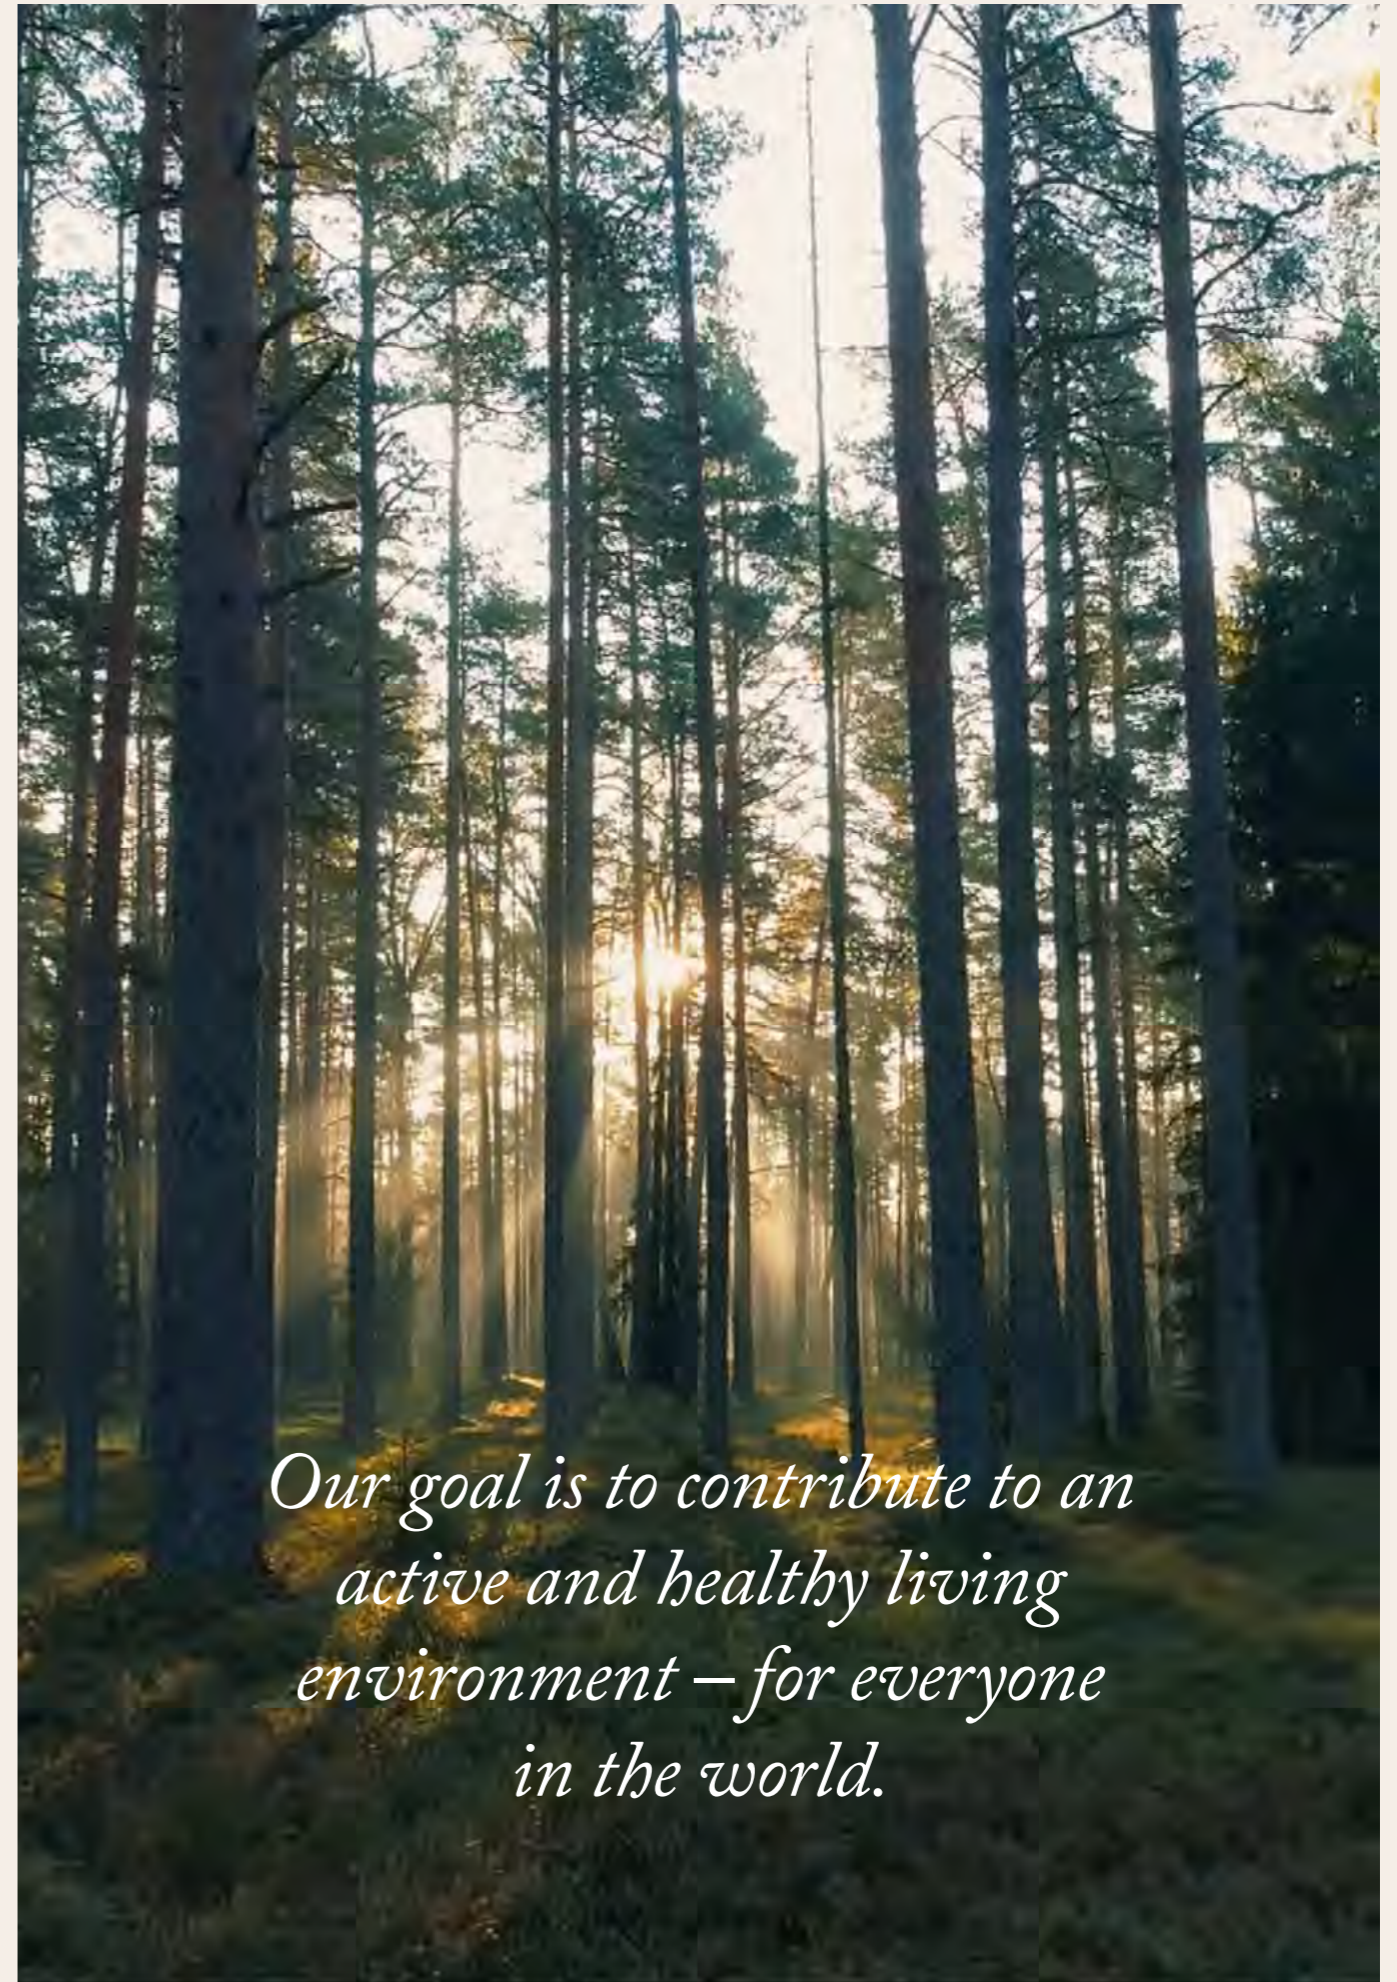

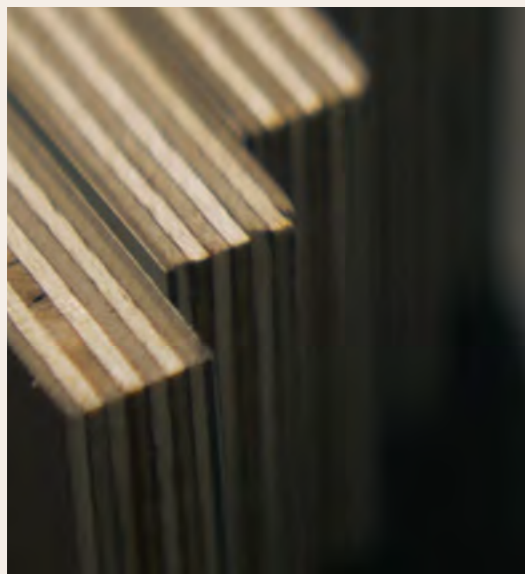

ENVIRONMENT

We continuously strive to reduce our environmental impact. We have reduced energy consumption during manufacturing, halved the amount of plastic used in packaging and reduced wastage in production. Our factory has the highest environmental standards and is certified according to ISO 14001:2015.

The building and construction industry accounts for almost 40% of global CO2 emissions. Our wall panel products have a lower carbon footprint than most tiles. Reduce your building's CO2 emissions. Choose Fibo.

QUALITY

Since 1952 we have been making wall solutions that are based on the world's strictest building standards. Our products are built to last and come with a limited lifetime warranty.

Our goal is to contribute to an active and healthy living environment – for everyone in the world.
