## ABSTRACT

The annual "Florida Library Directory with Statistics" is intended to be a tool for library staff to present vital statistical information on budgets, collections, and services to local, state, and national policymakers. As with previous editions, this 2001 edition includes the names, addresses, telephone numbers, and other information for libraries of all types in Florida. In addition, there are statistics to support budgeting, planning, and policy development for Florida's public libraries. The first section consists of listings for Florida Division of Library and Information Services library organizations, councils, and associations. The second section is the directory of libraries, with listings divided by public libraries, academic libraries, special libraries, institutional libraries, and school library media supervisors. The third section consists of a narrative statistical summary of public library data compiled from forms distributed to public libraries in October 2000, as well as selected historical data. The fourth section consists of public library data tables on population served (by county); access to library service; library staff; librarian salaries; income; expenses; expenses by category; collection; circulation and borrowers; visits, reference, and interlibrary loan; programs; and electronic access. Indexes of personnel and libraries arranged by county are included. (AEF)

It is my pleasure to introduce the *2001 edition* of the Department of State, Division of Library and Information Services, *Florida Library Directory with Statistics*. This directory is intended to be a tool for library staff to present vital statistical information on budgets, collections, and services to local, state and national policy makers. The straightforward format of this publication facilitates quick access to important information.

Each public library in Florida submits a statistical report to the Research Office in the Bureau of Library Development which then compiles and analyzes this data. Local library managers and public administrators use the public library data for planning, evaluation, and resource allocation. These data are also important for academic and governmental researchers investigating and developing public policy in the areas of technology and information services. The Bureau also submits the data to the Federal-State Cooperative System for Public Library Data, a program of the National Center for Education Statistics.

As we strive to provide cutting-edge technology and continue to provide our communities with quality information services, the ability to demonstrate accountability and justify funding requests is more important than ever. The *Florida Library Directory with Statistics* provides the library community with valid research that expresses the true impact of library services.

The quality of this publication is the result of a collaborative effort between local public libraries and the State Library of Florida. Thank you for your contribution in this effort.

Yours truly,

Katherine Harris  
Secretary of State

# Public Library Data

## **STATISTICAL ANALYSIS FOR FLORIDA PUBLIC LIBRARIES FY 1999-2000**

- Data were compiled from forms distributed annually to public libraries in October 2000. Sixty nine of seventy five public library administrative units reported.
- Public libraries in Florida served an unduplicated population of 15,947,240, which is 99.78% of the state's total population of 15,982,378.
- Reporting public libraries in Florida circulated 75,292,057 items to 7,594,017 registered borrowers through 489 service outlets, including bookmobiles.
- Reporting libraries have 1,525 librarians with master's degrees in library science on staff. Total staff at reporting libraries numbers 6,016 and volunteers served an additional 1,131,007 hours of service. All numbers for staffing are expressed in full time equivalents.
- Revenue for FY2000 totaled \$363,901,438 and was received from four main sources: Local (municipal and/or county governments), 84.36%; State of Florida, 9.03%; Federal government, .98%; and other, 5.63%.
- The libraries reported a total operating expenditure of \$318,570,893; \$20.26 per capita for reporting libraries' duplicated legal service population; \$19.93 per capita for total state population.
- Population figures were taken from the U. S. 2000 Census, conducted by the U. S. Census Bureau, United States Department of Commerce.
- The Bureau of Library Development provides individualized data service to local libraries to aid their planning and evaluation efforts. For more information, contact the Bureau of Library Development: (850) 245-6600; SUNCOM 205-6600; bld@mail.dos.state.fl.us

**REPRODUCTION RELEASE**  
(Specific Document)

## NOTICE

### REPRODUCTION BASIS

This document is covered by a signed "Reproduction Release (Blanket) form (on file within the ERIC system), encompassing all or classes of documents from its source organization and, therefore, does not require a "Specific Document" Release form.

This document is Federally-funded, or carries its own permission to reproduce, or is otherwise in the public domain and, therefore, may be reproduced by ERIC without a signed Reproduction Release form (either "Specific Document" or "Blanket").

Question	Implications To			
	Facility	EDRS	Department of Education	Database
<b>Pagination</b>				
How should the page number be derived?				
What kinds of documents are exceptions to normal pagination?				
Who will be impacted when the change takes effect?				
What happens to combined documents?				
If the Clearinghouses provide the page field information, how would the Facility handle combined (or separated) documents?				
What happens to electronic documents?				
If we eliminate the page count, how do we calculate the price field? Will EDRS change to a flat fee? If so, do we need to make backfile changes on the price field for all records? How are Metadata standards affected?				
<b>Reproduction Release Forms</b>				
How are we going to get the Clearinghouses to use the same form?				

D Number on Documents					
	What are the advantages to the customer of having ED numbers on documents, as they are presently done?				
	How much time would be saved in removing the numbers?				
<b>Stickers</b>					
	Where do we put the sticker information?				
	Can we put the level sticker on the release form?				
	Can we put disclaimer information on the single frame?				
	Position of Disclaimer (on Web documents)				
	Position of Disclaimer (on paper documents)				
	If we continue to use the stickers, how can we do a similar process for electronic documents? Do we need to start coming up with handling procedures for electronic documents?				
<b>Acquisitions Arrangements</b>					
	Should there be a quick way to refer to Acquisitions Arrangements (Source Code/Other shortcut) in order to verify the info from the Reproduction Basis? And if so, this information should be included in the record (and/or on the document).
