As a joke, I.D.C.'s (Ian Duncan McClellan) classmates got hold of the pictures he had taken for his graduation, had it framed and hung it among the distinguished graduates. And in the middle of a lecture they all began looking at the picture, to draw the attention of the unfortunate I.D.C. and the lecturer to it. A great laugh. So that's why the picture of his still [young] unknown was in March 1980 among the portraits of distinguished graduates stored in the Rare Book Room!"
