#### PICTOGRAM OVERVIEW

Suitable for Ink Jet printer

Suitable for colour laser printer

Suitable for mono laser printer

Suitable for colour copier

Suitable for mono copier

Also suitable for machines with high fixing temperature

Removable stripe for sensor detection

Heat press activation

Electric iron activation

Offers improved water resistance

Paperbacked short side

Paperbacked long side

Removable stripe short side

Removable stripe long side

#### PREMIUM TEAR PROOF FILM

Glossy white film provides brilliant, vibrant images onto tear free polyester which does not require lamination. The glossy surface provides a tough, wipe clean finish. The imaged film has outstanding toner bonding and good water resistance. Ideal for long life, archival applications and as a universal colour toner film. It has the same printable coating on both sides and is available in a variety of different thicknesses. To produce durable manuals, outdoor signs, point of sale, point of purchase, charts, maps, signage, menu cards etc. Ultimate performance for high speed printers, copiers and digital presses. We recommend testing for suitability with 0.250 mm.

Polyester	0.125 mm	50	297 mm x 420 mm	20146.125.4310

#### PREMIUM REPRO FILM

Nanoporous coated, clear transparent polyester film for the production of positive or negative film separations that can then be contact exposed to silk screens, pad or flexo plates. The HD version offers even higher ink absorption and faster drying times and an even greater UV density range with the optimisation of print settings. Images dry super fast due to a highly porous coating ensuring print speeds are further optimised. The film meets the highest demands with regard to image registration accuracy, dimensional stability and flatness. Finally it exhibits good mechanical, handling resistance.
