Mission Statement

Nordson Corporation Foundation is dedicated to improving the quality of life in our communities by improving educational outcomes that enable individuals to become self-sufficient, active participants in the community.

WHY WE GIVE

Nordson Corporation founders created the Nordson Foundation around the time of the company's establishment based on the belief that business, as a corporate citizen, has a social responsibility to share its success with the communities in which it operates and its employees live. In 1988, the original Nordson Foundation was split into the Nord Family Foundation and the Nordson Corporation Foundation. Today, the philanthropic spirit of our company founders lives on in Nordson Corporation's commitment to contribute five percent of domestic, pretax earnings to the communities where we have major operations.

HOW WE GIVE

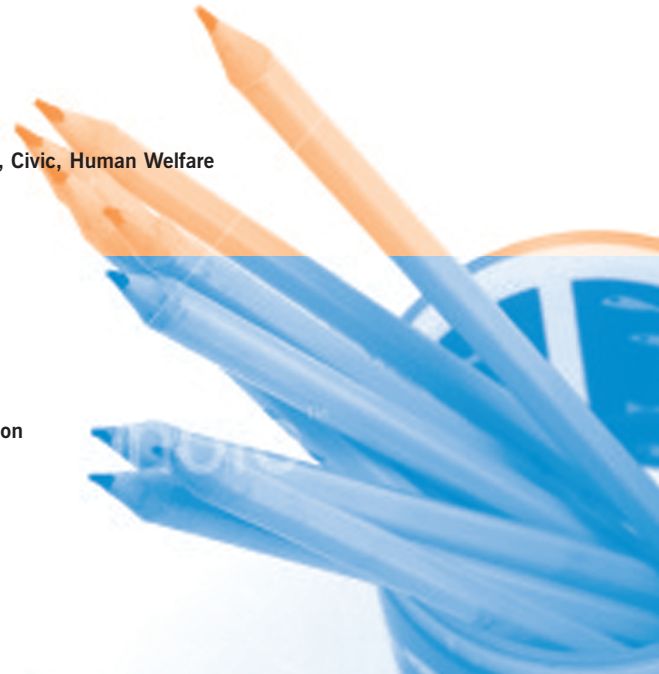

Nordson Corporation Foundation focuses its giving on education. We believe that for individuals to become thriving members of society, they must be exposed to a variety of educational experiences – from early childhood through adulthood. Therefore, we provide funding to support educational experiences for people of all ages with the belief that:

- All individuals deserve access to quality educational experiences
- Every person deserves a chance to become a self-sufficient member of society
- A continuum of quality educational opportunities is needed

While education is our main focus, the Nordson Corporation Foundation also provides grants to support arts and culture, civic and human welfare organizations as a way to further strengthen our communities.

30% Culture, Civic, Human Welfare

70% Education

WAYS WE GIVE

Foundation Grants

Community Affairs Committees (CACs) consisting of employees from different departments at Nordson Corporation businesses review grant requests and recommend support to nonprofits within their respective regions. CACs operate at Nordson Corporation facilities in Ohio, Georgia, California and Rhode Island. Their recommendations are then sent to the Foundation's board of directors for final approval. In 2006, the Foundation awarded \$1,074,165 in grants.

Corporate Gifts

In addition to grants, Nordson Corporation makes direct contributions to community organizations through event sponsorships and one-time projects. In 2006, we distributed \$192,658 in corporate gifts.

Employee Matching Gifts

Nordson Corporation supports our employees' philanthropic giving through a program that matches dollar-for-dollar employee and retiree contributions to nonprofits and educational institutions, up to \$6,000 per individual per year. In 2006, Nordson employees and retirees donated \$351,056 to causes they care about. With Nordson Corporation's match of those dollars, an additional \$318,916 went to help our communities.

Employee Volunteerism

Nordson's employee volunteer program, Time 'n Talent, was started in 1993 and has been going strong ever since. Nearly every weekend, Nordson employees can be found out in their communities walking to raise money for a cause, bringing smiles to children in hospitals, packing boxes at a food bank and more. In 2006, employees spent more than 6,000 hours helping nonprofit organizations by volunteering their time and talent.

“Kids don't just learn science from text books; they learn it from hands-on activities. Science Link teaches them that science is fun.”

– Sarah Mostosi, Critical Hours Resource Coordinator,
The Children's Initiative

The Children's Initiative

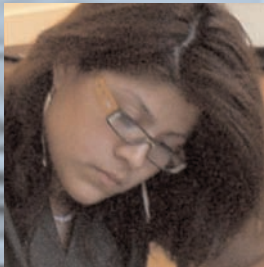

United Way

Yearly campaigns to benefit the United Way have been a long-standing tradition at Nordson facilities. In 2006, employees in Ohio, Georgia, California and Rhode Island gave a combined \$233,572 to the United Way. Nordson Corporation's dollar-for-dollar match of employee contributions meant more than \$467,000 went to support United Way agencies.

Technical Assistance

Taskforce

Nonprofit organizations benefit from more than just Nordson Corporation Foundation grants. They also receive technical support from our employees, who lend their expertise on tasks such as balancing financial statements and installing computer systems.

College Visions

WHERE WE GIVE

The Nordson Corporation Foundation's giving is concentrated in areas where the company has major U.S. operations.

- Ohio – Lorain County
- Georgia – Greater Atlanta, Dawsonville, Swainsboro, Norcross and Talladega
- Rhode Island – Greater Providence
- California – San Diego County

OUR GIVING: EDUCATION

Everybody Wins! Atlanta

Helping kids become better readers was the focus of a \$5,000 grant to Everybody Wins! Atlanta, an organization dedicated to improving literacy rates of elementary school children in the Atlanta, Georgia, metropolitan area. The group's Power Lunch reading and mentoring program pairs a working professional with a student for lunch-time reading. When children are read to on a consistent basis, they become better readers themselves and develop better concentration and listening skills.

College Visions

For first-generation college bound youth, applying for college can be a confusing and overwhelming endeavor. College Visions is a year-long program that guides low-income high school students in East Providence, Rhode Island, through the college admissions process. College Visions' services include research on post-secondary institutions, financial aid workshops, application and essay writing assistance and more. A \$3,000 grant from Nordson Corporation Foundation allowed College Visions to increase the number of students in its program from 20 to 40.

"It is encouraging to see students in the Power Lunch program develop and improve their reading skills, forge mentoring relationships with caring adults and improve their scores on tests needed to advance to the next grade. We are grateful for the investment that Nordson is making in our community's youth."

– Terri Beck, Executive Director, Everybody Wins! Atlanta

University Circle Incorporated

Research on child development and learning has shown that very young children retain abstract concepts better when they are taught in an object-based, multi-sensory manner. University Circle Incorporated's community education department used this knowledge to create the Early Learning Initiative, which integrates programming at the cultural and scientific museums located in Cleveland Ohio's University Circle neighborhood into the preschool teaching curriculum. A \$31,320 grant from Nordson Corporation Foundation enabled all Lorain City preschools to participate in the eight-month program.

“The grant from Nordson Corporation Foundation is making it possible for kids in Lorain County to explore the wonderful organizations in University Circle and take part in activities that enrich the learning process.”

– Diana L. Robbins, Director of Community Education,
University Circle Incorporated

The Children's Initiative

The Children's Initiative exists to improve the well being of youth in San Diego County, California. The group's Science Link program prepares students for higher learning by providing science, math and technology workshops and field trips to students in after-school programs. A \$3,750 grant from Nordson Corporation Foundation helped purchase equipment and supplies and pay for field trips.

Elyria City Schools

The Foundation provided a \$70,000 grant to the city schools in Elyria, Ohio, in order to expand kindergarten classes from a half day to a full day in all of the district's 13 elementary schools. Nordson Corporation Foundation's grant purchased the support materials needed for two of the schools, which serve 140 students in six classrooms.

ARTS AND CULTURE

Atlanta Ballet

A \$5,000 grant to the Atlanta Ballet supported its dance education at Parklane Elementary School in East Point, Georgia. Dancers from the company, which is the nation's oldest continuously operating ballet company, conduct a weekly mandatory dance lesson for the school's 450 plus students. The program has had a positive impact on student behavior, with the number of disruptive incidents dropping from nearly 1,000 a year to less than 200.

Music Time Learning Center

Music Time Learning Center in Lawrenceville, Georgia, uses music education to enhance learning and develop a love of music in children. A \$5,000 grant from Nordson Corporation Foundation allowed the group to provide its Raising Musical Children program to three low-income day care centers, reaching 150 children.

CIVIC

Towards Employment

Helping low-income individuals successfully enter the workforce and become self sufficient has been the mission of Towards Employment since it began in 1976. Through training, placement and ongoing support services, the agency has helped 100,000 residents in Cuyahoga County, Ohio, become and stay employed. In 2006, Nordson Corporation Foundation awarded Towards Employment a \$20,000, two-year grant for its Achieve program, which works with employers to increase their employee retention rates and improve skills so that employees can advance in their jobs.

HUMAN WELFARE

Interfaith Community Services

A \$3,750 grant to Interfaith Community Services in North San Diego, California, supported a program that provides transitional housing for homeless families. In addition to a safe place to live, the program also assists clients in finding jobs and teaches them life skills.

Monarch School was founded in San Diego County, California, in 1988 to improve the lives of homeless youth through education. In addition to serving as an educational institution, Monarch provides its students, who range in age from eight to 18, with food, clothing, health and dental care and counseling. A \$3,750 Nordson Corporation Foundation grant for general operating support helped cover educational expenses for Monarch School's more than 150 students.

"Because of the Nordson Corporation Foundation, we have been able to increase the number of schools we serve as well as train new teachers and supply them with teaching materials and instruments. It's exciting to see a need in the community and be able to make a difference while doing something we love!"

– Mary Beth Frasier, Executive Director, Music Time Learning Center

OUR GRANT

Guidelines

Nordson Corporation Foundation reviews and considers grant requests on the basis of their enrichment to the communities where our employees live and work. Primarily, our grantmaking supports organizations that enhance educational experiences and provide learning opportunities. Additionally, grants are made to arts and culture, human welfare and civic organizations that provide programs to benefit the communities where our employees live and work.

To receive a grant, organizations must be considered nonprofit, tax-exempt institutions as defined in Section 501(c)(3) of the Internal Revenue Code.

Requests

All grant requests must be submitted using the Nordson Corporation Foundation Application Form, which can be found online at www.nordson.com/Corporate/Community/ Foundation. You can also request an application from any member of our Foundation staff.

Board

Members of Nordson Corporation's executive leadership provide their experience, knowledge and compassion in service as Foundation board members. The following Nordson Corporation employees make up the Foundation's board:

Edward P. Campbell
Chairman and
Chief Executive Officer

Beverly J. Coen
Assistant Controller

Peter S. Hellman
President and Chief Financial
and Administrative Officer

John J. Keane
Senior Vice President,
Adhesive Dispensing Systems

Douglas C. Bloomfield
Vice President,
Finishing and Coating Systems
