**KONCEPT GRAMATIKE PROSTORA / THE CONCEPT OF SPACE
GRAMMAR**

Govor V (1988), 2 UDK 800.95:114

Sažetak

Kozmički holizam vođenje komunikacijom, koja je isto što i jezik.

U događaju najvažniji je prostor, u stvaranju govora također, a posrednik između svijeta i verbalnog govora sustav je za percepciju prostora.

Događaj ima svoja pravila, svoju gramatiku, kao što je i verbalni jezik ima. Oni su korespondentni, pa im je i gramatika korespondentna.

Verbalni jezik samo je jedan od korespondentnih jezika kojima komuniciramo između sebe i sa svijetom.

Osnovljavanje slušanja i govora ide preko spacioceptivskih procesora i prelazi put od gramatike prostora do gramatike govora.

Ključne riječi: spaciocepcija, govor, gramatika prostora

Summary

The cosmic holism is guided by communication which is the same thing as language.

The principal thing in an event is space, just as it is in creation; The mediator between the world and verbal speech is the system designed for speech perception.

An event has its rules, its grammar just as the verbal language. They correspond to each other and so do their grammars.

The verbal language is but one of the corresponding languages which enables us to communicate among ourselves and the world.

Acquisition of speech and hearing happens via spatioceptive processors and bridges the gap between space grammar and speech grammar.

Key words: *spatioception, speech, spatial grammar*
