## CURRENT AND SELECTED BIBLIOGRAPHIES ON BENTHIC BIOLOGY – 2011

[published early April 2014; updated 26 April 2014]

# Society for Freshwater Science

Formerly *North American Benthological Society*

<http://www.freshwater-science.org>

---

### DEDICATIO

**Donald W. Webb**

**(12 July 1939 – 5 September 2012)**

**Benthologist, Bibliographer, Balladeer**

---

The past and present members of the SFS Literature Review Committee dedicate this annual bibliographic compilation for the year 2011 to Dr. Donald W. Webb, who passed away peacefully at home on 5 September 2012. Don had served on this committee since 1969, and as chair from 1973 through 2010. The perennial success of this annual bibliography, and the collegial interactions and comradery amongst section contributors over the years were always championed by Don – resulting in a consistent, high quality bibliographic compilation. This annual publication prepared for the Society for Freshwater Science (and before that, Midwest Benthological Society [1953-1975] and North American Benthological Society [1975-2011]) has excelled far beyond like-compilations prepared by any other organization, worldwide – for its members, and for the greater scientific communities focusing on all things benthological. Don was honored during a memorial / musical jam session on Tuesday evening, 21 May at the annual society meeting in Jacksonville, Florida (19-23 May 2013) (*see extended note at top of following page*). During that special session, SFS members shared their memories of Don with each other – personal reflections as well as his unselfish dedication and devotion to our Society on so many levels. A more formal memoriam, as originally discussed, was changed to include music, as it would have been an oversight in absence of highlighting his long involvement with the Benthic Balladeers – that rag tag group of seasoned musicians-turned-benthologists who have gathered (often more than once) during our annual meetings to entertain, serenade, and otherwise humor themselves as well as any and all other members, guests, and passersby. If you knew Don, on any level, you certainly know the reasons supporting the love and respect we have always had for him – throughout his career, and on into retirement when he took up ‘Turf Consultation’ (golf). It is a little known fact that Don has been memorialized (verse 11) in the official song of MBS/NABS/SFS – *\*\*the Benthic Waltz* (ca. 1986, Thomas F. Waters<sup>†</sup>). Don was an important vertebra in the backbone of this society, even though most of us work with the diverse boneless wonders of the world. We shall always remember Don for his guidance, encouragement, and most of all, courtesy and kindness, and crooning over the years.

**Annelida: introduction; Branchiobdellida; Oligochaetous Clitellata.**

**ANNELIDA: Acanthobdellida, Branchiobdellida, oligochaetous Clitellata ('Oligochaeta'),  
Aeolosomatida, other Polychaeta, and miscellaneous Annelida – Mark J. Wetzel**

**Introduction.** The Annelida sections of previously published NABS and SFS bibliographies (compilations for the years 1992 through 2011 {*the section included herein*} are located in the bibliographic section of the web site entitled: The INHS Center for Annelida Resources, at:

< <http://www.inhs.uiuc.edu/~mjwetzel/mjw.inhsCAR.html#BIBannel> >

Citations included here are split into the following subsections for the convenience of researchers: Acanthobdellida, Branchiobdellida, oligochaetous Clitellata ('Oligochaeta'), Polychaeta (including the Aphanoneura / Aeolosomatida), Miscellaneous Annelida (including Archiannelida), and megadrile oligochaetes (selected papers focusing on terrestrial and semi-terrestrial earthworms, primarily systematic papers describing new taxa). Papers discussing taxa from more than one of the above groups will be included with each of those group compilations, below. Researchers should send reprints of their publications [PDF preferred] to me to ensure that they are included accurately in future bibliographies, and that the information specific to new taxa is available for inclusion on our new website:

**Reynolds, J.W. and M.J. Wetzel (2014) – Nomenclatura Oligochaetologica – A catalogue of names, descriptions and type specimens. Editio Secunda.**

Please report inaccuracies in this section to me (contact information above). I thank our global annelid 'family' for providing reprints and pdfs of their publications for inclusion in past and present bibliographic compilations. – MJW

**ANNELIDA (Hirudinida) – William E. Moser and Fredric R. Govedich.**

---

*The SFS Literature Review Committee extends our appreciation to Dr. Donald J. Klemm, who compiled the literature for this leech section since 1973, and then in collaboration with Bill Moser since 2000. Don relinquished his 'attachment' to this section after contributing to last year's (2011 for 2010) annual bibliography, passing the opportunity to Fred Govedich.*

Leech studies included here are both aquatic and terrestrial, and covered in the bibliography are bioassessment, ecology, embryology, environmental and industrial toxicology, medicine, morphology, parasitology, physiology, systematics, and taxonomy. The leech bibliography is intended to help keep students and biologists current with the leech literature. It is also provided to assist the user in selecting information from the literature to help in evaluating data collected during studies of water quality in lentic and lotic habitats, and of the effects of toxic substances and other pollutants on the ecological integrity and health of indigenous populations and communities of macroinvertebrates, including the leeches.

Researchers should send copies of their papers [paper reprint or as pdf via an email attachment] to both Bill Moser and to Fred Govedich to ensure that they are included accurately in future leech bibliographies; their contact information is presented at the beginning of this document. The reprints are greatly appreciated.

**TRICHOPTERA – Andrew P. Nimmo**

---

Where known, at the end of each citation, I have provided references to abstracting organs which make reference to the paper. Print versions of these are no longer available to me at the University of Alberta - only electronic. Zoological Record appears to be the only one which supplies volume number. Otherwise I can give only accession numbers (*an*) in case these may be of use in searching out abstracts of papers. The abstracting organs are: BP [Biological Previews, formerly BA - Biological Abstracts]; ZR *an* [Zoological Record]; TN [Trichoptera Newsletter, now Braueria]. The plethora of, largely awkward, contractions for Cambridge Scientific Abstracts entries here has been replaced simply by CSA*an* as I realised that papers registered by CSA had only one *an* regardless of how many of their organs recorded the paper.

Some authors with more than one initial may use, or not, the extra initials. Such initials, where omitted by the author in some papers, are given in square brackets thus [A.]. All papers by a particular author are grouped together in the list as if all initials were given in all papers. Where author names are given in square brackets, thus [ .. ], the name is not given in the publication, but is known to me. *Andy Nimmo*.

=====

**DIPTERA (Other dipteran groups) – Ben A. Foote**

-----

**No contribution available this year.**

Attempts to contact Dr. Foote, who I believe retired recently, have been unsuccessful. If you (any SFS member) who has an affinity with and interest in the diverse families of Diptera (INCLUDING Ceratopogonidae and Chironomidae) – I strongly encourage you to consider serving as a member of the elite and perennially dedicated members of the SFS Literature Review Committee as a compiler of pertinent citations for these groups. Please contact me at your earliest convenience.

**Mark J. Wetzel, Chair, SFS Literature Review Committee (contact info at the bottom of page 2 of this compilation)**

---

---

**MOLLUSCA – Kevin S. Cummings**

---

The following section lists papers dealing with freshwater mollusks that have been published up to and including 2011 and have not appeared in previous SFS bibliographies. Citations for Aquatic Mollusca will be split into five groups for the convenience of researchers: Unionoida, Sphaeriidae, Corbiculidae, Dreissenidae & other Bivalves, and Gastropoda. Those papers which list taxa from more than one of the above categories will be included in each group. A web searchable database of over 18,000 references on freshwater mollusks (including all previous SFS bibliographies on freshwater mollusks) can be found at: <http://ellipse.inhs.uiuc.edu:591/mollusk/biblio.html>.

To insure that papers are cited correctly, researchers are encouraged to send pdf's or reprints to:

Kevin S. Cummings, Illinois Natural History Survey, 607 E. Peabody Dr., Champaign, IL 61820.  
email: [ksc@inhs.illinois.edu](mailto:ksc@inhs.illinois.edu)

**MACROINVERTEBRATE TOXICOLOGY – Michael L. Sergeant.**

---

**No contribution available this year.** *Attempts to contact Dr. Sergeant, have been unsuccessful. If you (any SFS member) who has an affinity with and interest in macroinvertebrate toxicology – I strongly encourage you to consider serving as a member of the elite and perennially dedicated members of the SFS Literature Review Committee as a compiler of pertinent citations for this section. Please contact me at your earliest convenience.*

**Mark J. Wetzel, Chair, SFS Literature Review Committee (contact info at the bottom of page 2 of this compilation)**

- Tuzovskij, P. V.; Semenchenko, K. A. 2011. New water mite species of the genus *Arrenurus* Dugs, 1834 (Acariformes, Hydrachnidia, Arrenuridae) from the Far East of Russia. *Zootaxa* 3037: 1-20.
- Valdecasas, A. G.; Abad, A. 2011. Morphological confocal microscopy in arthropods and the enhancement of autofluorescence after proteinase K extraction. *Microscopy and Microanalysis* 17: 109-113.
- Vercauteren, T.; Van Haaren, T. 2011. Some freshwater mites (Acari: Hydrachnidia), found in the pond of the Park Vosselaar justices, including *Limnesia curvipalpis* Tuzovsky, 1997, as a new species for the Belgian fauna (Thierry Vercauteren and Ton Van Haaren). *ANTenne* 5 8-10. (In Dutch.)
- Pesic, V.; Smit, H. 2011. Water mites of the *Sperchon denticulatus* species group (Acari, Hydrachnidia, Sperchontidae) from Turkey and Iran. *Systematic and Applied Acarology* 16: 35-39.
- Pesic, V.; Smit, H. 2011. A new species of the genus *Hydrodroma* Koch, 1837 (Acari, Hydrachnidia, Hydrodromidae), with a key to the hitherto known six species of the genus in Australia. *ZooKeys* 143: 13-22.
- Walter, D. E.; Proctor, H. C. 2010. Mites as modern models: acarology in the 21st century. *Acarologia (Paris)* 50: 131-141.
- Wen, C.-g.; Wu, H.-b.; Hu, B.-Q. 2011. Observation ultrastructure of glandularia and leg claws from unionicolid mites. *Chinese Journal of Applied Entomology* 48: 1465-1470. (In Chinese.)
- Yi, S. A.; Francis, B. M.; Jarrell, W. M.; Soucek, D. J. 2011. Toxicological effects of the aquatic herbicide, fluridone, on male water mites (Hydrachnidia: *Arrenurus*: *Megaluracarus*). *Ecotoxicology* 20: 81-87.

## Acarina.

- Yi, T.-C.; Jin, D.-C. 2011. A newly recorded family Feltriidae Viets, 1926 with redescription of *Feltria (Feltriella) rubra* Piersig, 1898 from China (Acari, Hydrachnellae, Hygrobatoidae). *Acta Zootaxonomica Sinica* 36: 990-993. (In Chinese.)
- Zhang, P.; Guo, J.-J.; Jin, D.-C. 2011. Two newly recorded species of the genus *Torrenticola* Piersig (Acari, Hydrachnidia, Torrenticolidae) from China. *Acta Zootaxonomica Sinica* 36: 458-464.
- Zhang, X.; Dao-Chao, J. 2011. New records of water mites of the family Spermontidae Thor, 1900 from China (Acari, Hydrachnidia), with descriptions of two new species. *ZooKeys* 158: 89-109.
- Zhang, X.; Jin, D.-C.; Guo, J.-J. 2011. Two new water mite species of the genus *Sperchon* Kramer, 1877 (Acari, Hydrachnidia, Spermontidae). *Acta Zootaxonomica Sinica* 36: 221-226.

## MARINE

- Abe, H. 2011. New record of *Scaptognathides* (Acari, Halacaridae) from Japan with notes on geographic distribution. *Journal of the Acarological Society of Japan* 20: 19-25.
- Bartsch, I. 2011. Marine mites (Acari: Halacaridae) from deep-sea gas seeps in the Gulf of Mexico. *Meiofauna Marina* 19: 97-108.
- Bartsch, I. 2011. *Halacarus socius* (Acari: Halacaridae), description of the male and diagnoses of species of the *Halacarus actenos* group. *Zootaxa* 2800: 19-40.
- Guerao, G.; Andree, K. B.; Rotllant, G. 2011. Direct evidence of parasitism by *Copidognathus stevcici* (Acari, Halacaridae) in crabs *Maja squinado* and *M. brachydactyla* (Brachyura, Majidae) in the laboratory. *Aquaculture* 316: 136-138.
- Pepato, A. R.; Tiago, C. G.; Rocha, C. E. F. 2011. Psammophilous halacarid mites (Trombidiformes, Halacaridae) from the North Coast of Sao Paulo State, Brazil. *Zootaxa* 2823: 47-60.
- Smit, H. 2011. New species of water mites from New Guinea (Acari: Hydrachnidia, Halacaridae). *Acarologia (Paris)* 51: 321-345.
- Tuzovskij, P. V. 2011. Description of a new water mite species of the genus *Soldanellonyx* Walter, 1917 (Acari: Halacaridae) from Japan. *Amurskii Zoologicheskii Zhurnal* 3: 205-209.
