Hello, Welcome to Galema's Greenhouse

"The Only Constant in Life Is Change." - Heraclitus

"When you are finished changing, you are finished". - Benjamin Franklin

I think many of us have a love-hate relationship with change. I know I do. Certainly when things are going poorly, we can take solace in the fact that, no matter what, things are not going to stay the same. They might get better, or they might get worse, but they are going to be different. This will happen whether we proactively try to change or not.

Conversely, when life is going great, we "want things to stay this way forever." Unfortunately, that's not the way it works. Whether we actively try to keep things as they are or not, change is going to happen.

We approach change as a good thing. Changes such as adding select Syngenta genetics to our young plant offering, adding a new 3x17 40mm (51 count) tray to allow our larger plants a bit more space and thus improve plant quality, adding new tracking notifications for customers who provide an email address, and online availability 24/7 via EPicas.

And sometimes we find that less is more. We've honed the list on some less popular products so that we can have more production space and thus availability for the items you have been requesting.

Because the more things change, the more they stay the same. You reap the benefit of our 30 years of business experience.

~ Tim, Bev and the staff at Galema's Greenhouse

Aristo Series

This series of Regal Geraniums from PAC has been selected for their ease of rooting and the uniformity of bloom across the colors. The plant habit allows this series to be utilized in pot sizes from 4 1/2" - 8". Although cooling enhances the quality and uniformity of blooming, a very nice crop can be finished in a naturally cool greenhouse.

Geranium - Zonal Specialty

Appleblossom Rosebud

Double: Large bloom with clusters of tightly gathered petals, all tipped in Rose Pink.

Chinese Cactus

Fancy: Showy clusters of Salmon-Pink and White bloom above small, deeply cut, banded Green leaves with a Bronze zone.

Chocolate Mint

Scented: Sometimes the term Chocolate refers more to the color of a plant than the scent of the plant, as in the case of Chocolate Mint Scented Geranium. This plant has a Chocolate-colored vein that runs down the rib of the leaf and fans out into its fingers. The almost Black variegation fades to a rich Green as summer progresses. While this is a great-looking plant with a rich minty fragrance, it does not smell or taste like Chocolate.

Citronella

Scented: Dramatically lobed leaves; strongly scented snowflake foliage often promoted as an insect deterrent.

Ginger

Scented: Softly scented of Spice.

Indian Dunes

Fancy: Mounds of scalloped Chartreuse leaves with Bronze centers, complimented by an Orange/Red bloom.

Mrs Parker

Fancy: Green leaf, wide Red zone and a Cream edge.

Mrs Pollock

Fancy: Large tricolored leaves with double red blooms.

Occold Shield

Fancy - Deer resistant and drought tolerant featuring yellow leaves with dark brown centers and orange-red flowers.

Old Fashioned Rose

Scented: This plant, of medium height, has Gray-Green strongly indented leaves, a nice Rose scent and Lavender flowers. The most important scented pelargonium for the commercial production of Rose-geranium oil, it is also used in jams, jellies, and potpourri. It makes an attractive potted plant as well.

Peppermint Rose

Scented: One of the best all around Scented Geraniums. It is also nice because it doesn't get as large as some of the other scented geraniums which makes it a good size for smaller gardens and large containers; add in occasional light Pink flowers and a Minty-Rose fragrance.

Persian Queen

Fancy: Golden Geranium grown for the glorious pure Yellow Ochre rounded leaves. Striking as a "spot" plant, even if not full of its vivid Hot Fuchsia single bloom.

Petals

Fancy: Single Pearl eyed Soft Pink lightly colored bloom clusters fading to Pinkish-Mauve over Silvery-Green upcupped irregularly outlined leaves brightly margined Ivory; compact habit.

Pink Happy Thought

Fancy: Cream centers with Dark Green margins and Pink bloom.

Platinum

Fancy: Salmon toned single Scarlet bloom arise above the quite odd waffled Pale Milky Green rounded leaves with evenly cut Creamy White margins; wide oddly angular mounding habit.

Red Happy Thought

Fancy: Cream centers with Dark Green margins and Red bloom.

Red Rosebud

Double: Petite clusters of bloom that look like Nosegays in a Bright Lipstick Red.

Vancouver Centennial

Fancy - Star shaped flowers with pointy two-toned lobed leaves.

Wilhem Languth

Fancy: Soft Green and White variegated foliage below attractive Red bloom.

PREFINISHED program

Not sure what to do about crops that take a long time to grow?

Try our PREFINISHED PROGRAM!

We begin the process with fern liners in June and grow them all summer to become our prefinished ferns!

You can pot them up in the fall or we'll pot them for you and you can purchase a prefinished basket in March for May sales.

A smart idea for a crop that takes a long time to grow!

The remaining pages of this catalog list the products, sizes, and photos for our Prefinished Program. Please reference the Table of Contents to quickly find a product.

Call your broker to place an order today!

PROGRAM INFORMATION

Except where noted, our Prefinished Program is designed to produce a finished crop in the size container in which the plant is delivered to be ready for late April to mid-May finished sales....not for bump ups into larger pots or combo pots. Actual crop time will vary based on the type of plant and the size container. Plants in the prefinished program are grown alongside our own finished crops. If more detailed crop time is needed, please contact us.
