Reflections...

Where has 25 years gone??

Spring 2017 will mark 26 years at Galema's Greenhouse. This note will be short and sweet; because sometimes I forget to "take time to smell the flowers" I grow.

Mom and Dad Galema are still busy day to day handling all the little things that happen here at the greenhouse. Our daughter Molly is in 8th grade and will officially start work at the greenhouse this year. Alex graduated from high school and will pursue a degree in Engineering from Purdue and keep introducing new technology at the greenhouse and fixing the old during the next 4 years. All of our great employees continue to work hard every day to provide the best young plants and prefinished plants you can find. Bev and I keep things all glued together and running smooth and she keeps me organized.

So I close where I started, "where has 25 years gone" and "don't forget to take time to smell the flowers" that you grow next year.

Take care and thank you for your past, present and future business!!

Tim and Bev Galema

Begonia - Grandma's Little Angels

| | | | | |
|-------------------------------------|----------|---|--|---|
| Begonia Angel Wing Benigo | 26 Strip | F | | Small, dark coppery green fluted leaves finely spotted deep pink; pink flowers. |
| Begonia Angel Wing Fannie Moser | 50 Elle | H | | Small white flowers that blush the palest pink atop "angel wing" leaves that are sharply ruffled. The foliage color is mostly dark sage-green on the upper side and vibrant cherry red on the underside. Liberally spotted with the signature white speckles, but sometimes taking on an overall ruby blush depending upon the light it receives. |
| Begonia Angel Wing Frosty | 26 Strip | F | | Short upright stems hold richly silver dotted pebbly angel wing leaves with rose blush beneath; brilliant red stems; pink tinted flower clusters. |
| Begonia Angel Wing Lana | 50 Elle | H | | Green leaves with iridescent white splashes mark the tops and deep burgundy undersides. |
| Begonia Angel Wing Looking Glass | 50 Elle | H | | The large silver leaves have a green vein thru them and a beautiful red back. The canes will be fully leaved and produce umbels of pink blooms. This Begonia will be a strong grower. |
| Begonia Angel Wing Louis Burks | 26 Strip | E | | Red flowers and forest green leaves dotted with silver spots. |
| Begonia Angel Wing Miss Mummy | 26 Strip | F | | This Angel Wing Begonia blooms white flowers. The foliage is a very dark bronze color with a burgundy backing and lots of white spots. It is a tall grower and very easy to grow. |
| Begonia Angel Wing My Special Angel | 50 Elle | H | | Shows off grape-like clusters of single, pinky-lavender blossoms that sometimes appear almost translucent- they are so delicate. The foliage though, is dark, medium-green with generous white, round speckles, as opposed to splashes, making this a quite showy and special specimen. |
| Begonia Angel Wing Richmondensis | 26 Strip | E | | Salmony-pink blooms and leaves that are green with reddened edges and undersides. The leaves are succulent and oval, with small teeth on their edges and often held a slight fold down the center. Stems and leaf undersides are reddish, and increased light exposure intensifies the red blush all across the plant. |
| Begonia Angel Wing Sophia | 50 Elle | H | | Large showy dark maroon foliage is excellent for shade combinations. |
| Begonia Angel Wing Sunbrite Pink | 26 Strip | E | | Robust semi cane type that will mature into a very large semi-trailing plant. Huge pink flowers most of the year; super showy and vigorous. |
| Begonia Angel Wing Sunbrite Red | 26 Strip | E | | Robust semi cane type that will mature into a very large semi-trailing plant. Huge red flowers most of the year; super showy and vigorous. |
| Begonia Angel Wing Torch | 26 Strip | G | | Fiery orange red flowers having dark green almost black leaves if exposed to bright sunlight. |

Geranium - Regal Aristo Series

This series of Regal Geraniums has been selected for their ease of rooting and the uniformity of bloom across the colors. The plant habit allows this series to be utilized in pot sizes from 4 1/2" – 8". Although cooling enhances the quality and uniformity of blooming, a very nice crop can be finished in a naturally cool greenhouse.
