## Changes...

There have been many changes over the past 5 years with mergers, acquisitions and closures of greenhouse operations.

We are excited about the future of our prefinished and young plant business here at Galema's Greenhouse. We work hard every day to bring you the best young plants in whatever quantities you need. We are still here for you. Things are not changing here...only improving.

Last year we tested a paper wrap around each individual strip of most varieties to help handling at shipping which we all know can be quite challenging at times. This has resulted in significantly less damages in shipping so we've moved forward to implement that for all future shipments.

We continue to offer the Dummen Orange genetics in almost all the genera and varieties, and we round that out with a solid offering from Plant Source International plus some unique items from our own stock plants.

We remain your partner on a strong team that looks to the past for stability and to the future for innovation. Together, let's make our country beautiful with grown in the USA products.

### Begonia - Grandma's Little Angels

|                                     |          |   |  |   |
|-------------------------------------|----------|---|--|---|
| Begonia Angel Wing Benigo           | 26 Strip | F |  | Small, dark coppery green fluted leaves finely spotted deep pink; pink flowers.   |
| Begonia Angel Wing Fannie Moser     | 50 Elle  | H |  | Small white flowers that blush the palest pink atop "angel wing" leaves that are sharply ruffled. The foliage color is mostly dark sage-green on the upper side and vibrant cherry red on the underside. Liberally spotted with the signature white speckles, but sometimes taking on an overall ruby blush depending upon the light it receives. |
| Begonia Angel Wing Frosty           | 26 Strip | F |  | Short upright stems hold richly silver dotted pebbly angel wing leaves with rose blush beneath; brilliant red stems; pink tinted flower clusters.   |
| Begonia Angel Wing Lana             | 50 Elle  | H |  | Green leaves with iridescent white splashes mark the tops and deep burgundy undersides.   |
| Begonia Angel Wing Looking Glass    | 50 Elle  | H |  | The large silver leaves have a green vein thru them and a beautiful red back. The canes will be fully leaved and produce umbels of pink blooms. This Begonia will be a strong grower.   |
| Begonia Angel Wing Louis Burks      | 26 Strip | E |  | Red flowers and forest green leaves dotted with silver spots.   |
| Begonia Angel Wing Miss Mummy       | 26 Strip | F |  | This Angel Wing Begonia blooms white flowers. The foliage is a very dark bronze color with a burgundy backing and lots of white spots. It is a tall grower and very easy to grow.   |
| Begonia Angel Wing My Special Angel | 50 Elle  | H |  | Shows off grape-like clusters of single, pinky-lavender blossoms that sometimes appear almost translucent- they are so delicate. The foliage though, is dark, medium-green with generous white, round speckles, as opposed to splashes, making this a quite showy and special specimen.   |
| Begonia Angel Wing Richmondensis    | 26 Strip | E |  | Salmony-pink blooms and leaves that are green with reddened edges and undersides. The leaves are succulent and oval, with small teeth on their edges and often held a slight fold down the center. Stems and leaf undersides are reddish, and increased light exposure intensifies the red blush all across the plant.                            |
| Begonia Angel Wing Sophia           | 50 Elle  | H |  | Large showy dark maroon foliage is excellent for shade combinations.  |
| Begonia Angel Wing Sunbrite Pink    | 26 Strip | E |  | Robust semi cane type that will mature into a very large semi-trailing plant. Huge pink flowers most of the year; super showy and vigorous.   |
| Begonia Angel Wing Sunbrite Red     | 26 Strip | E |  | Robust semi cane type that will mature into a very large semi-trailing plant. Huge red flowers most of the year; super showy and vigorous.  |
| Begonia Angel Wing Torch            | 26 Strip | G |  | Fiery orange red flowers having dark green almost black leaves if exposed to bright sunlight.   |
