**NOTES:** *59 years of dedication, hard work, and a passion for fossils have made Geological Enterprises one of the oldest and most respected Fossil Supply Houses in the industry. We have supplied Museums, universities, and Collectors worldwide for almost six decades. Isn't that amazing??*

*I know I mention this every year, but PLEASE...if you want to see a photo of something, just ask. I am very happy to supply you with photos if you are curious about specific fossils. It is impossible for us to photograph every fossil that we have. IT would take ten lifetimes!!*

*Ardmore is located halfway between Oklahoma City and Dallas on I-35. If you've never been here, you should add us to your bucket list. Every person that has ever visited our facility is overwhelmed by the volume of fossils we have. You should plan to spend some time. It's worth it!*

*2014 was a year of many exciting fossil discoveries worldwide, including Geological Enterprises' great sources. Like our friends in Germany who find Solnhofen fossils. Our contacts in Russia and the United Kingdom who supply us with beautiful invertebrate fossils. And our friends digging in the Morrison Formation of Wyoming continue to find great Jurassic materials.*

*Geological Enterprises has earned its reputation as having the finest available collections AND connections in the world!*

*Thanks for your continued patronage, Donna*
