

Ambition

THE TOURING NEWCOMER

The TYROLIA AAmbition Alpine Touring binding is the perfect companion for all Alpine Touring Aficionados so that no terrain remains unattainable. We included every attribute of our high-performance alpine ski bindings in this Alpine Touring binding.

ALPINE TOURING TOE

This newcomer in the ski touring segment features the exclusive TYROLIA Alpine Touring (AT) Toe which can be easily adjusted to alpine and touring boot norms. A 65 mm wide mechanical AFS gliding element secures constant release values also with rubber soles. In combination with two rollers this binding provides superior safety features with the rapid and exact boot re-centering that skiers expect from TYROLIA. As a result of its harmonious design, the TYROLIA AAmbition has a wider contact area which improves stability and provides a secure foundation for every skiing situation. Furthermore, its pivot is efficiently positioned right below the ski boot tip to ensure perfect force transmission and a tilt up to 90 degrees.

EASY ADJUSTABLE TELESCOPIC TUBE

Additionally the AAmbition features a unique light-weight telescopic tube which offers an easy adjustment opportunity to different boot sole lengths. Thus, with only one binding model it is possible to cover the entire range of different sole lengths – from 260mm up to 350mm. Furthermore, with the setting of the telescopic tube and through the compact mounting, perfect binding positioning on your skis is improved and mid-point deviation is avoided.

TYROLIA FREEFLEX

The TYROLIA approved Freeflex System, which interacts with the AT Toe, the telescopic tube and the AT Heel, offers natural dynamics, excellent downhill performance and therefore a supreme ski touring experience.

ALPINE TOURING HEEL AND CLIMBING AID

The state-of-the-art designed climbing aid is positioned as close as possible to the Alpine Touring (AT) Heel. This provides better walking balance and effortless climbing in all situations. The low stand height of 38 mm improves stability and offers a confident stance. With four different climbing aid positions (climbing in a 0°, 5°, 10° or 15° position) it is possible to adapt on different terrains without stepping out of the binding. It does not matter if it is a walk through flat terrain or a steep slope up to the summit. Simply use the ski pole in order to change the climbing aid position and also to lock for the downhill ride.

CRAMPONS

Additional crampons are available as spare parts in widths of 90 mm, 105 mm and 120 mm, and provide safe climbing and a secure stand in any situation.

- 90 mm: A. No.: 163006 (1 pair)
- 105 mm: A. No.: 163007 (1 pair)
- 120 mm: A. No.: 163008 (1 pair)

DEMO AND RENTAL SUITABLE

In order to offer ambitious sportsmen an opportunity to widen their horizons, the TYROLIA AAAmbition is also demo and rental suitable: Combined with a spare demo track, the TYROLIA AAAmbition Alpine Touring binding can be tested and shown to a broad audience. Only two easy adjustments (one on the telescopic tube and one on the demo track) are required to fit to different boot lengths without extra drilling.

BRAKES & INDIVIDUALITY

Considering the different ski widths, the TYROLIA AAAmbition comes without brakes. This gives you the opportunity to either choose the perfect fitting brake out of four different widths (85 mm/95 mm/105 mm/125 mm) or simply to ride and hike without brakes using appropriate powder straps – TYROLIA AAA-Series Powder Strap (1 pair): A. No.: 162981 Additionally available: TYROLIA AAA-Series Powdercord – A.No.: 163025

To sum up: The TYROLIA AAAmbition Alpine Touring binding is what every ski touring fanatic was looking for. On one hand it offers freedom and individual adjustment possibilities and on the other hand it provides the premium high-end performance that is expected from the world market leader TYROLIA. The solid, light-weight construction and its maximum functionality enhances the ultimate mountain experience for ambitioned climbers as well as for touring newbies. Overcome boundaries – Simply just: Access All Areas!

Adrenalin

THE TOURING NEWCOMER

THE PERFECT ALL-ROUNDER

With the AAAAdrenalin Freeride binding from TYROLIA, no terrain is out of reach. This binding provides a level of skiing performance never before seen in an alpine binding. It combines performance driven freeride features with the ultimate ergonomic walking mechanism for maximum freedom on- and off-piste. Overcome boundaries smoothly for a perfect ride.

The TYROLIA AAAAdrenalin binding is a perfect option for freeriders who prefer precise downhill control combined with ideal mechanics for short walks to reach untouched paths for a memorable ski experience. Designed together with freeskiers and backcountry skiers, this member of the TYROLIA AAA-Series is designed for ski widths from 80 mm and wider. The TYROLIA AAAAdrenalin brings paramount freeride performance in every terrain, on every slope.

FREERIDE (FR) PRO TOE

The TYROLIA AAAAdrenalin comes with the Freeride (FR) Pro Toe with its ergonomic pivot position for optimal tilt up movement up to 90 degrees. This system provides effortless walking over short distances.

The FR Pro Toe is adjustable by changing the position of the Anti-Friction-Slider (AFS Metal) to cover alpine and touring boot norms. This 68 mm wide slider plus a stainless steel gliding element provide constant release values and result in a broader contact area to the ski boot sole.

The benefits: more stability, more direct power transmission and an ultimate skiing performance.

FREERIDE (FR) PRO HEEL

The ultra-wide 80 mm heel track makes all the performance difference needed to take this product over the top. Extra width and the superior kinematics of TYROLIA's high performance bindings make it absolutely stable and reliable for perfect force transmission and unmatched performance. The heel can easily be adjusted to different boot sole lengths without any additional tools.

It covers a wide range of seven ski boot sizes. The TYROLIA AAAAdrenalin Freeride binding is available in two lengths:

- SHORT (S) for ski boot sole length of 270–330 mm
- LONG (L) for ski boot sole length of 300–360 mm

◀ 60mm ▶

AAA-ASCENDER LOCK AND CLIMBING AID

To Access All Areas, transition from skiing to hiking is incredibly fast, easy and convenient. Simply use the tip of the ski pole without stepping out of the binding to move the highly visible Ascender Lock to change between hiking and ski mode.

Another TYROLIA feature is the possibility to walk in the 0° position. After release, TYROLIA's climbing aid can easily be operated with a ski pole and it can be positioned in three different angles (0°, 7° and 13°) for an optimal walking position. This improves balance and a secure stand on your way to perfect skiing spots.

CRAMPONS

Additionally, TYROLIA crampons (available as spare parts in three widths: 90 mm, 105 mm and 120 mm) can be mounted to improve grip in steep and icy terrain.

- 90 mm: A. No.: 162977 (1 pair)
- 105 mm: A. No.: 162978 (1 pair)
- 120 mm: A. No.: 162979 (1 pair)

FREEFLEX

The platform of TYROLIA's AAAadrenalin binding provides the approved TYROLIA Freeflex function which allows the ski to flex as it is designed to do so it can retain its natural dynamics. Freeflex is enabled by the free gliding plate that runs within the titanal heel track and is supported by the center of rotation of the binding toe.

BRAKES & INDIVIDUALITY

The TYROLIA AAAadrenalin comes without brakes. This gives each freerider the chance to choose the precisely fitting brakes in regard to the ski widths. The TYROLIA AAAadrenalin bindings can be combined with brake widths of 85/95/110/130 [F] or 95/110/130 [B]

Additionally available:
TYROLIA AAA-Series Powdercord – Art. No.:163025

Whether skiing downhill or bridging walking paths, the TYROLIA AAAadrenalin Freeride binding gives adventures an unrivaled combination of skiing performance and all terrain versatility, providing easy Access to All Areas!

Attack

ASTONISHING PARK & PIPE ACTION

Freeskiers prefer equipment which provides control, performance and usability. Not only for clear slopes and untracked powder areas, also for stoked park and half pipe rides. The TYROLIA AAAAttack Freeski binding models combine functionality and modern design to meet these demands. A perfect tool for all-around skiers who are willing to attack!

MODERN ARCHITECTURE

The special Freeride (FR) Pro Toe with its horizontal spring reflects the modern architecture of the entire TYROLIA AAA-Series. Furthermore, it includes a super secure 77 mm metal anti friction device (AFD Metal), which can be adjusted for all types of alpine boots (Type A only).

The TYROLIA AAAAttack 16 features the Race Pro Heel, with a reduced stand height of only 17 mm for the ultimate freeski adventure. The TYROLIA AAAAttack 13 and AAAAttack 12 models feature a solid construction, reduced weight and a modified heel, which puts this model in a category of its own.

PERFECT INDIVIDUALITY

This fired up freeski binding models are available in five different DIN settings (TYROLIA AAAAttack 18X, 16, 13, 12 - ideally suited for the Women's Line) and AAAAttack 11. The built in AAA-Series technology ensures high quality and perfect usability. In regard to its clear design and its compact measurement, the AAAAttack model can be ideally used on ski widths from 80mm and wider. Some models are delivered without brakes.

This gives riders the opportunity to customize the setup to their needs. Brakes are available in different widths: 85/95/110/130/150 mm
Additionally available: TYROLIA AAA-Series Powdercord - A.No.: 163025

Attack DEMO

TYROLIA AAATTACK 13 DEMO

NEWLY REDESIGNED

The TYROLIA AAAttack 13 DEMO model, a modified version of the TYROLIA AAAttack Freeski binding, is the first demo and rental suitable freeski binding that is anchored on a metal toe track. This unique feature ensures a lower stand height, a more compact design and increased stability compared with other bindings. In combination with the proven TYROLIA Rental Heel track, the TYROLIA AAAttack 13 DEMO offers the opportunity to fulfill every customers desires, whether for retail, demo or rental purposes.

This easy to adapt TYROLIA AAAttack Freeski binding model was designed for a wide range of sole lengths, and therefore can be adjusted to all available alpine boot sole lengths from 259 to 386mm – tool-free in a matter of a few seconds, by moving the toe and heel pieces.

Attack the track with the TYROLIA AAAttack Freeski bindings!
Overcome boundaries – simply just: Access All Areas!

TECHBOX CARBON

LOWER WEIGHT - MORE FUN

What is ideal: a lower weight or improved safety? This question is a thing of the past when it comes to choosing the perfect touring binding. Tyrolia's new AAAmbition AT binding combines both desired features by using the high tech material Carbon® in the mid part of the binding. Constant stability at a significantly reduced binding weight (200g) make the Tyrolia AAAmbition Carbon an AT binding with proven downhill performance and safety features. Its benefits of very low weight are highly valued when hiking and touring the back country.

Available in 3 Lengths: SHORT (265–295mm), MEDIUM (295–325mm) and LONG (315–345mm).

TYROLIA AAADRENALIN 16 SHORT / LONG
