VIRTUAL GRADUATION
SPRING 2020

JUNE 17

TUUM EST

Dear Graduand,

Today's virtual ceremony celebrates your very real accomplishment.

Your graduation began long before this day. It began when you made the choice to study that extra hour, dedicate yourself more deeply and strive to reach for the degree you had chosen to fully commit your life to pursuing.

Many of the people that helped you arrive here today—family, friends, classmates—are watching this ceremony with you. While they may not be physically next to you, they stand with you in spirit, take pride in your achievement and share your joy.

We are honoured to have given you a place to discover, inspire others and be challenged beyond what you thought was possible.

Yours,

UBC

The UBC graduation journey has been forged by the spirit of the university's motto, *Tuum Est*, (meaning 'it is yours') since 1915. Today, you, the graduating class of 2020, now shape UBC's history by making it your own.

1916

One of the first graduating classes was the Arts Class of 1916 pictured here at a party at the home of Mary Wilons. In UBC's first year, there were only three faculties: Arts, Applied Science and Agriculture with 379 registered students and 34 faculty members.

1920s

The twenties saw the student-led Great Trek to claim UBC's Point Grey campus and establish the university as a place of mind for students the world over. The AMS incorporated as a non-profit society and the university began awarding its first graduate degrees to students. In the *Ubysey*, published in September 23, 1925, students described the new campus with a sense of wonder: "We are dazed with the appearance of architectural cleanliness and bewildered by our lineal freedom."

1940s

The forties were an era of tremendous change at the university as both students and faculty embraced the war effort. In 1943, new President Norman MacKenzie began in earnest to expand the university and new departments were formed along with new buildings to house them including Brock Hall, the first student union building. By the 1950s, UBC had established itself as a comprehensive university and top choice for students in BC and beyond.

1960s

Student numbers continued to escalate alongside the scholarly activities that began to define UBC as a leader in research. The campus was alive with sixties counterculture and a sixth president of UBC was elected by the name of Dr. Walter Gage. New student residences were created to respond to the expanding student body as well as a new student union building. Students gain influence at the university and are elected to the University Board of Governors for the first time.

1980s

With over 34,000 students registered at the beginning of the eighties, UBC began attracting scholars from all over the world. Engineering students were in the news frequently for their pranks, which included the famous Ladner Clock Tower stunt in which students pulled off hoisting a white Volkswagen Bug onto the top of the tower. Dr. Martha Piper was elected President in 1997 and ushered in an era of international engagement that saw UBC step onto the world stage as an educator and global centre for research excellence.

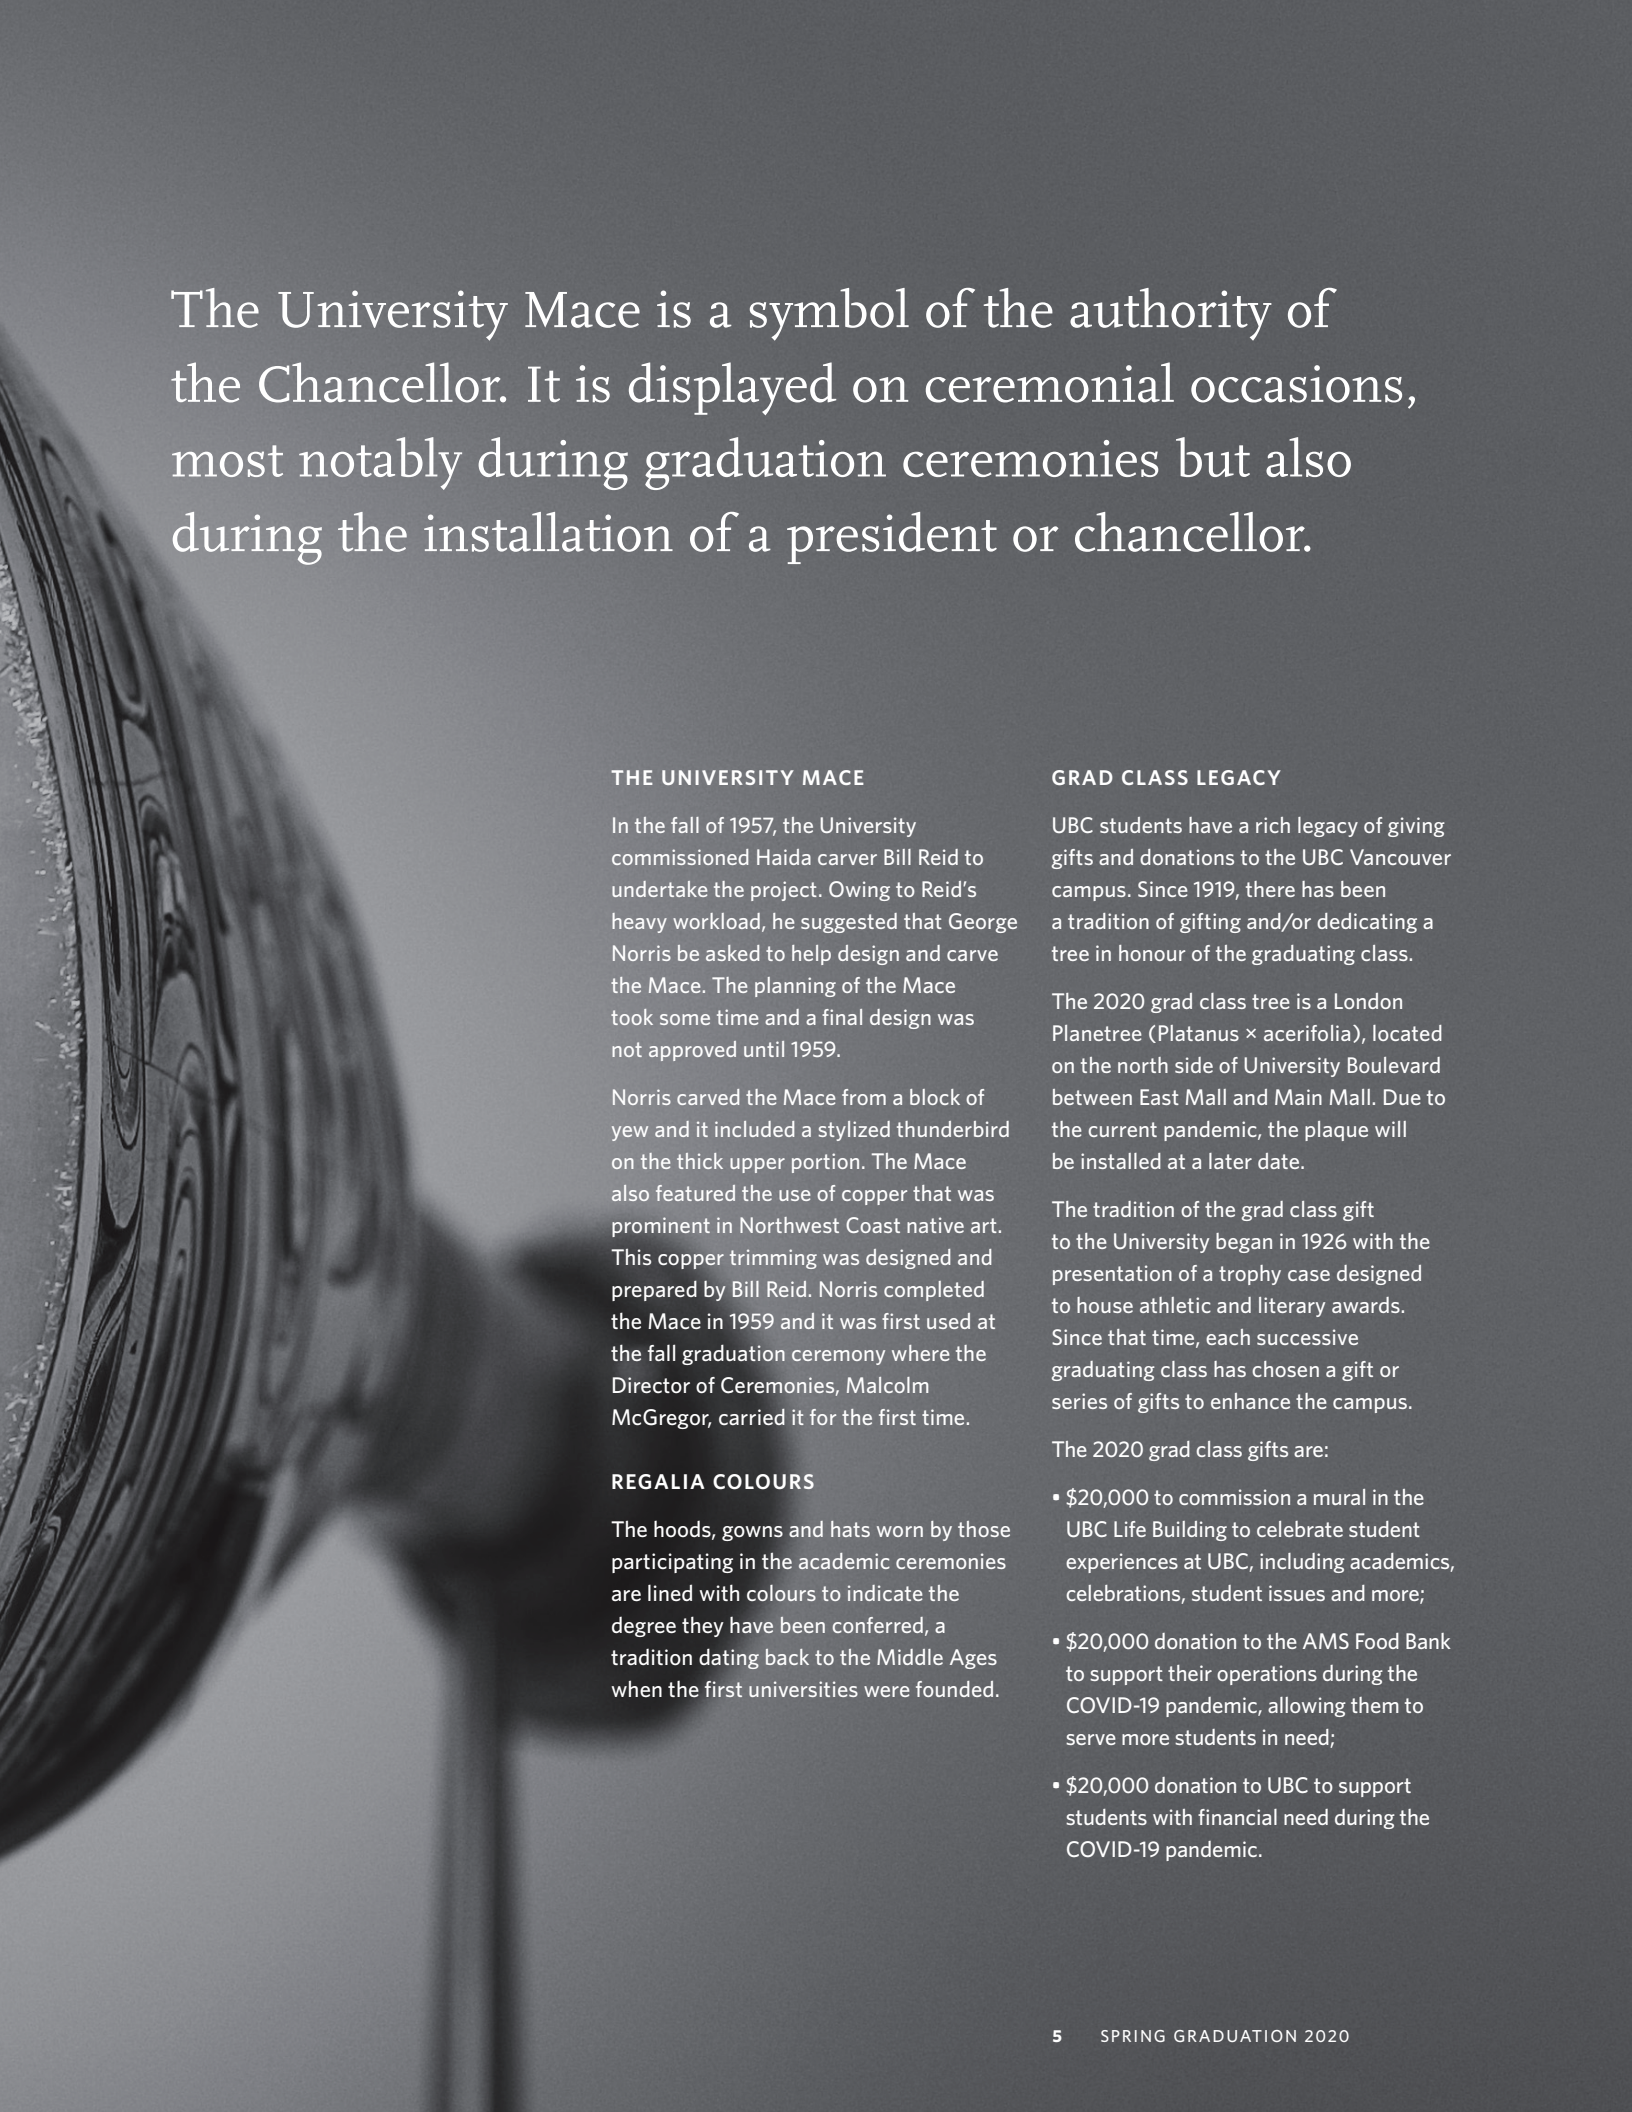

2020

This year, we celebrate the 75th anniversary of the law faculty at UBC, which has been producing innovative research through excellence in teaching and learning since 1945.

The year 2020 is notable for extraordinary challenges. Months before spring graduation, the global COVID-19 outbreak dramatically altered the socioeconomic landscape. From students assisting frontline workers to researchers developing potential treatments and vaccines, this year's graduates are making a difference by helping to combat the global pandemic. Their determination and resilience is helping them to achieve their goals and shape a better future for all of us.

UBC 167/000

The University Mace is a symbol of the authority of the Chancellor. It is displayed on ceremonial occasions, most notably during graduation ceremonies but also during the installation of a president or chancellor.

THE UNIVERSITY MACE

In the fall of 1957, the University commissioned Haida carver Bill Reid to undertake the project. Owing to Reid's heavy workload, he suggested that George Norris be asked to help design and carve the Mace. The planning of the Mace took some time and a final design was not approved until 1959.

Norris carved the Mace from a block of yew and it included a stylized thunderbird on the thick upper portion. The Mace also featured the use of copper that was prominent in Northwest Coast native art. This copper trimming was designed and prepared by Bill Reid. Norris completed the Mace in 1959 and it was first used at the fall graduation ceremony where the Director of Ceremonies, Malcolm McGregor, carried it for the first time.

REGALIA COLOURS

The hoods, gowns and hats worn by those participating in the academic ceremonies are lined with colours to indicate the degree they have been conferred, a tradition dating back to the Middle Ages when the first universities were founded.

GRAD CLASS LEGACY

UBC students have a rich legacy of giving gifts and donations to the UBC Vancouver campus. Since 1919, there has been a tradition of gifting and/or dedicating a tree in honour of the graduating class.

The 2020 grad class tree is a London Planetree (*Platanus × acerifolia*), located on the north side of University Boulevard between East Mall and Main Mall. Due to the current pandemic, the plaque will be installed at a later date.

The tradition of the grad class gift to the University began in 1926 with the presentation of a trophy case designed to house athletic and literary awards. Since that time, each successive graduating class has chosen a gift or series of gifts to enhance the campus.

The 2020 grad class gifts are:

- \$20,000 to commission a mural in the UBC Life Building to celebrate student experiences at UBC, including academics, celebrations, student issues and more;
- \$20,000 donation to the AMS Food Bank to support their operations during the COVID-19 pandemic, allowing them to serve more students in need;
- \$20,000 donation to UBC to support students with financial need during the COVID-19 pandemic.

On behalf of all UBC alumni, it is my pleasure to welcome graduates and your families and friends on what we hope is a joyful virtual celebration.

No doubt you have been asked: "What will you do after university?" Some of you have made clear choices about what comes next. Others may be less certain, especially in these challenging times, but as graduates of UBC, you are justifiably optimistic that compelling opportunities are just around the corner.

There appears to be consensus among writers and philosophers—and parents—that it is choice rather than fate which determines where the human journey leads. Perhaps Ralph Waldo Emerson said it most succinctly: "The only person you are destined to become is the person you decide to be."

But as you embark on the next leg of your journey, I encourage you to be aware that the learning process is still young. Throughout our lives we make discoveries that stimulate new interests and new ambitions. Such is the wonderment of fate—it is often a welcome stimulus that opens our eyes to previously unforeseen opportunities for success and fulfillment, even on the part of those who are confident in the choices they have already made about the future.

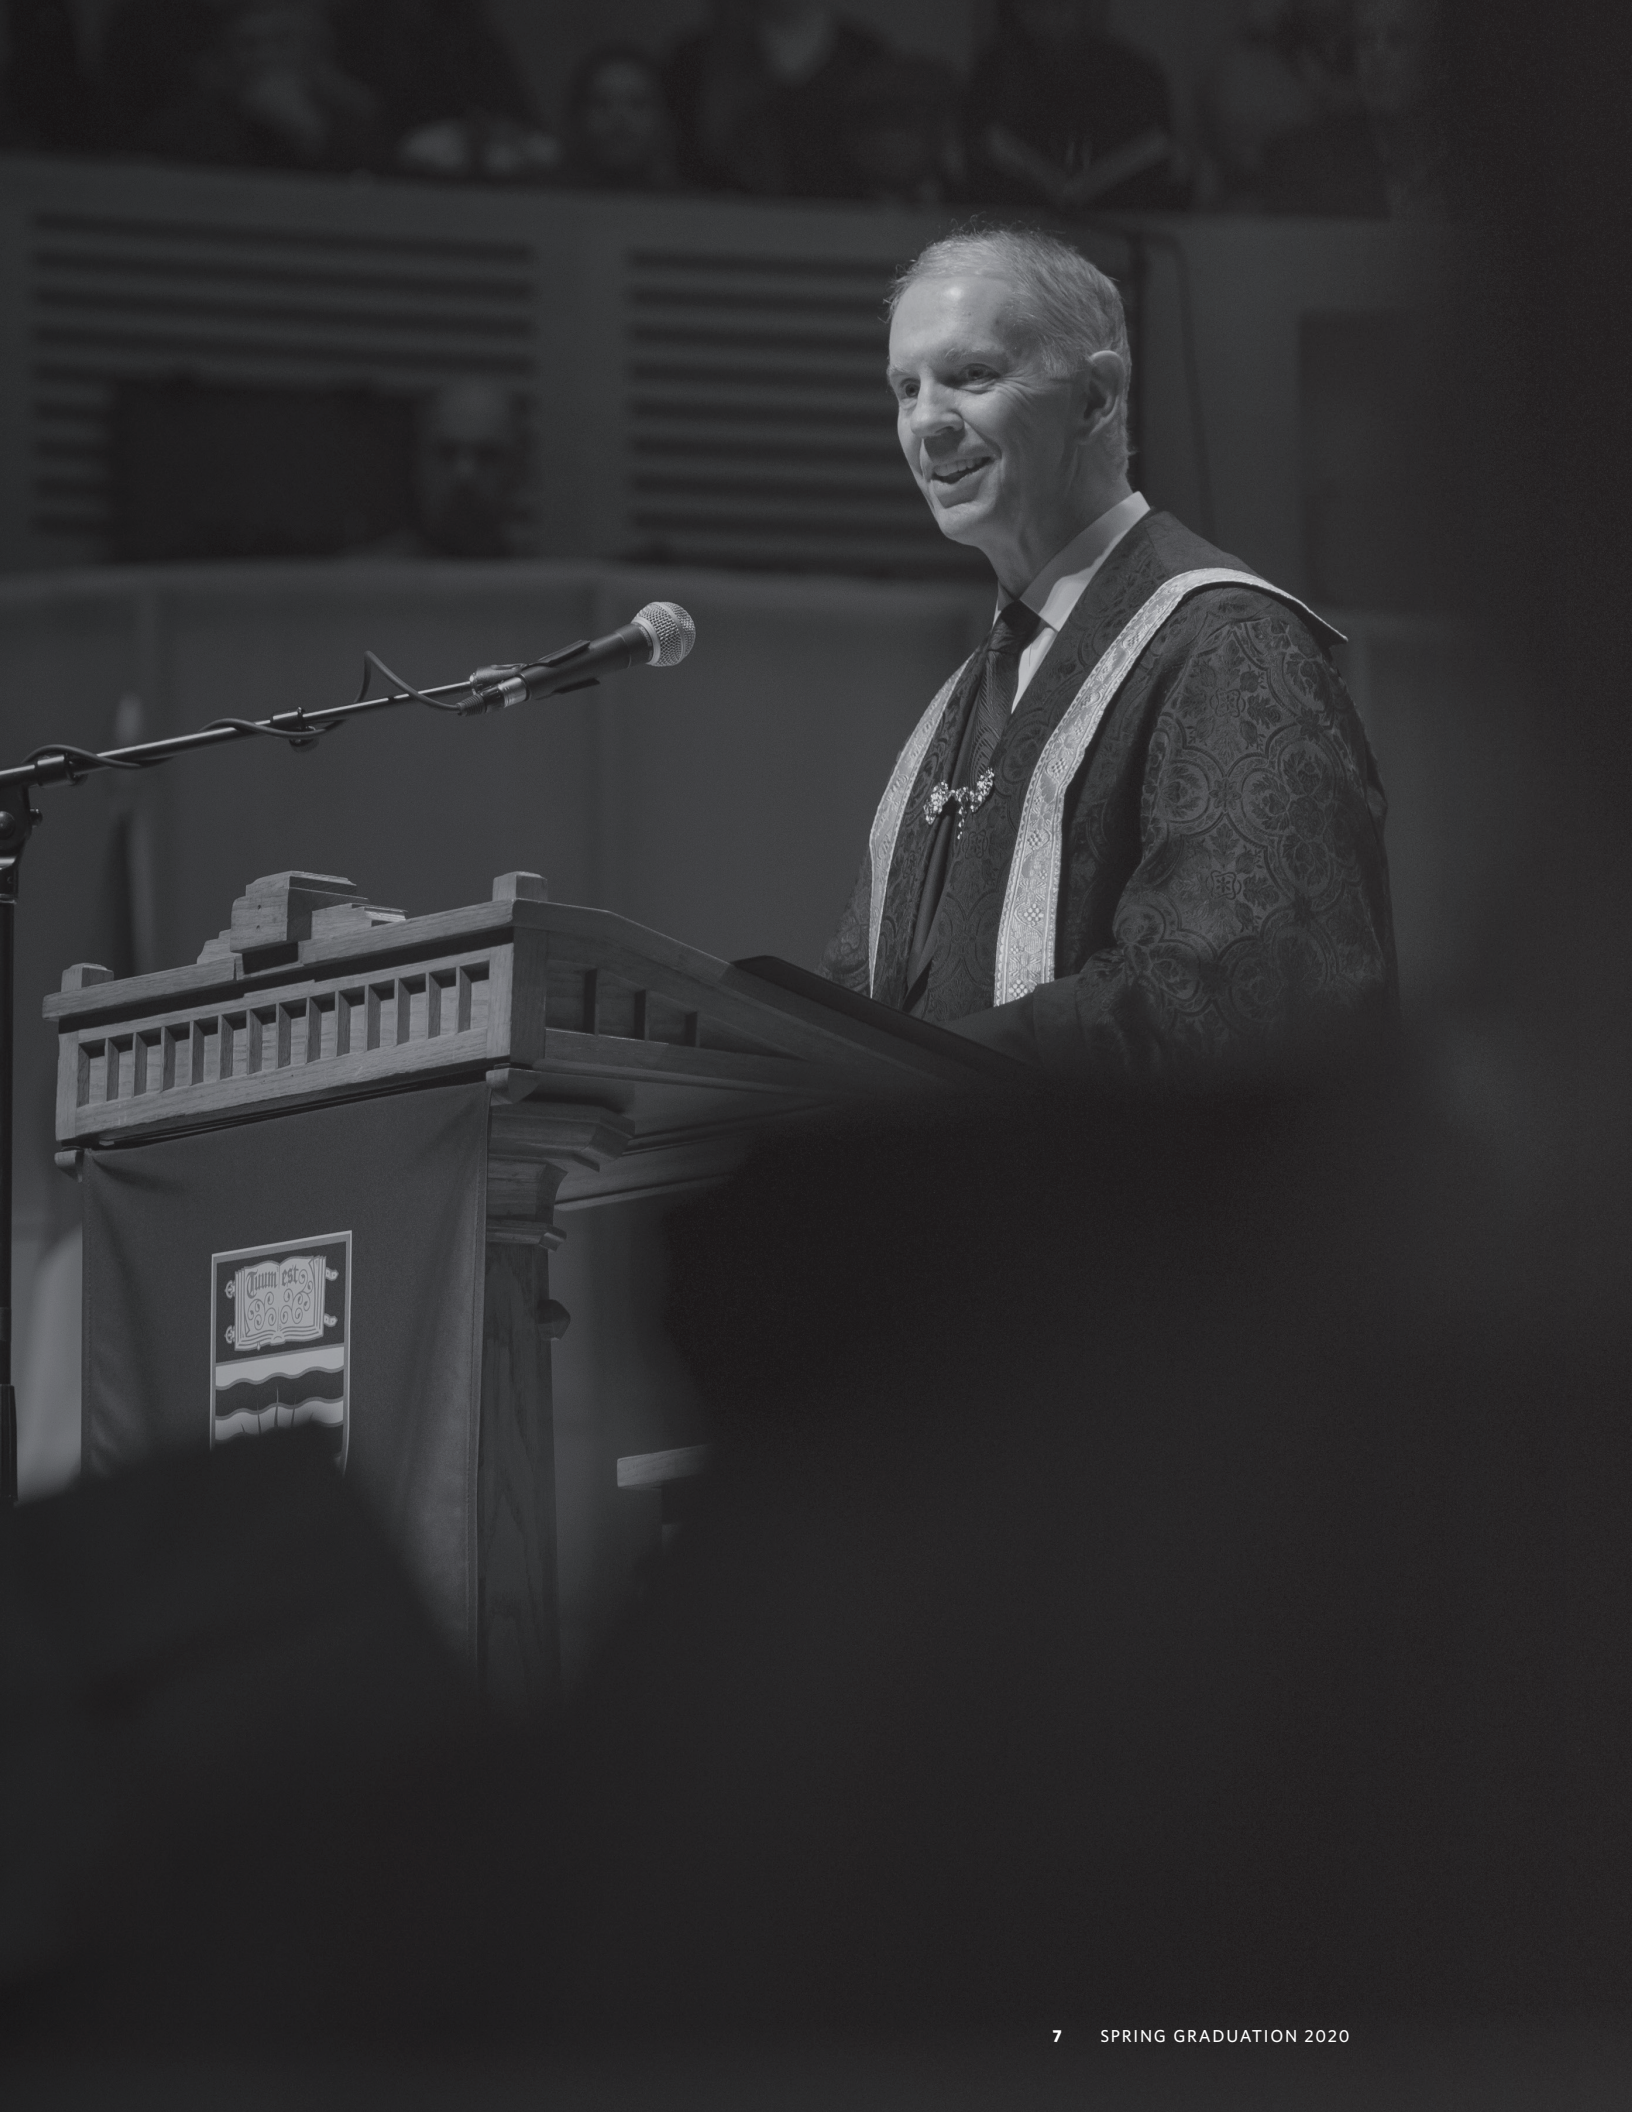

But some choices should never be altered, irrespective of what fate has in store for us. Chief among these are the principles by which we choose to live. Indeed, ours is a world rich in information and opportunity, but it is also a world that has grown increasingly complex, and one whose destiny will be shaped by important choices on the part of all of us.

As alumni of UBC, I hope we are all uniformly proud of our university's reputation for adhering to principles of mutual respect, equity and sustainability, and that these remain our own chosen principles at every juncture on the road ahead. Let us never lose sight of how our actions affect the natural world, nor of the necessity of respectful and mutually beneficial engagement with people of all cultures, including the Indigenous peoples of Canada.

As graduates of one of the world's finest universities, it is incumbent upon all of us to be unwavering in our choices to be contributors to a just, compassionate and sustainable world. As for fate, have no fear. The journey has only just begun, and there is every chance that the unforeseen will be extraordinary!

Warmest congratulations to all.

— LINDSAY GORDON, B.A.'73, M.B.A.'76
Chancellor

Congratulations! Graduation is a momentous day in your life. It is a time to look back at all you've accomplished and a time to look ahead to what's next.

I hope that when you do look back on your time at UBC, you will do so with fondness, and that when you look ahead, you will see UBC as a part of your future. You will always be welcome here, and we look forward to hearing about your personal and professional achievements as you build on the foundation provided by your UBC degree.

As new graduates, you are joining a large group of remarkable people who have preceded you through this ceremony. Today, the graduates of UBC excel in practically every field of human endeavor. Three graduates have served as Prime Minister of Canada—including the incumbent Justin Trudeau. Seventy graduates have been awarded the Rhodes Scholarship and 65 graduates have won an Olympic medal. Our alumni include scientists, inventors and entrepreneurs, educators, activists, artists, writers and humanitarians. Wherever they may be, our talented graduates are contributing to the wellbeing of their fellow citizens and solving some of the grand challenges that face humanity.

As you begin a new stage in your life and experience, you can be confident that you can and will make a difference, because like the UBC graduates who have gone before you, you possess the knowledge and skills that are conferred by an excellent education.

At every level and in every course you've taken here, you have been exposed to the rigours of critical thinking, to the complexities of problem-solving, and to the need for risk-taking and imagination in the creation of new ideas. You have developed strong communication skills in a variety of media, and learned the value of teamwork and collaboration. You have encountered people and ideas from a wide variety of backgrounds, in the process acquiring a new understanding of cultures and traditions that differ from your own.

As you embark on the next stage of your life's journey, do not be afraid to take up the challenges that await you. You will have many opportunities to turn your hard-earned expertise and knowledge to good use, to become involved in your society, and to offer your ideas and solutions with the confidence that they will be heard and respected.

In his address to UBC's initial graduating class in 1916, UBC's first President Frank Wesbrook encouraged students to make our world a better place in which to live. Today, over a century later, I echo his remarks. I believe each of you has the capacity and skill to succeed and make our world a better place.

As you celebrate this transformational day with your family and friends, take a minute to reflect and think forward to the many ways you might help shape the world in the years ahead.

And one more thing. Graduation should never mean goodbye. As Professor Wesbrook also said at that time, *Tuum Est*—it's your university—today and always.

Best wishes,

— SANTA J. ONO
President and Vice-Chancellor

SCHOLARSHIPS, MEDALS & PRIZES

Recipients of medals are notified in writing by the Student Financial Services office concerning procedures for receipt of medals.

GOVERNOR GENERAL'S MEDAL

The Governor General's medal is awarded to the student graduating with the highest academic average in their field of study.

Governor General's Gold Medal (Doctoral Programs): **Rebecca Sherbo**

Dissertation title: **A Palladium Membrane Reactor for Organic Transformations**

One gold medal is awarded to the student who has achieved the most outstanding academic record as a doctoral student. This year's recipient is Dr. Rebecca Sherbo from the Chemistry program. Under the supervision of Dr. Curtis Berlinguette, Dr. Sherbo's research discovered cleaner ways to perform common chemical transformations, with a focus on hydrogenation reactions. Her research has made ground-breaking contributions to the fields of clean energy, including the application of two provisional patents. Dr. Sherbo has distinguished herself as an expert and leader in her field and her work has had a meaningful impact on the globally important topics of energy and the environment.

Governor General's Gold Medal (Master Programs): **Ellen Jopling**

Thesis title: **Cognitive Disengagement and Biological Stress Responses in Youth**

One gold medal is awarded to the graduate student who has achieved the most outstanding academic record as a Master's student completing a thesis. This year's recipient is Ellen Jopling from the Psychology program. Under the supervision of Dr. Joelle LeMoult, Ellen investigated whether the ability to disengage from emotional information is associated with biological responses to stress in preadolescents. During her Master's studies, Ellen has excelled as an academic and as a researcher, including lead authoring or co-authoring a number

of peer-reviewed journal articles, a book chapter, and delivering a high number of conference presentations. Ellen has been widely recognized for her outstanding contributions to her graduate program and to UBC.

Governor General's Silver Medal in Arts (Bachelor Level):

Alex Chow

Alex is a dedicated scholar graduating with a Bachelor of Arts in Honours Sociology. Over the course of his undergraduate studies, he has demonstrated outstanding leadership, research ability, and commitment to giving back to the community. His research interests lie in the relationship between education, inequality, and mobility and he strives to use his research to inform educational policies to create a more egalitarian society. During his undergraduate studies, he has collaborated with Professor Neil Guppy on a project examining intergenerational educational mobility in Canada. He has also served as the Co-president of the Sociology Students' Association, peer mentor for first-year students in the Coordinated Arts Program, and undergraduate teaching assistant in the Sociology and Statistics departments. For his contributions to research, leadership, and mentorship at UBC, Alex has been recognized with several awards, including the Katherine Brearley Arts Scholarship, Kasper Naegele Memorial Prize, and Mo Lin Yu Memorial Prize. He is also the first student from UBC to be admitted to the prestigious Stanford Knight-Hennessy Scholars program and will begin his PhD studies in Sociology at Stanford University this fall.

Governor General's Silver Medal in Applied Science (Bachelor Level): **Zezhong Li**

Zezhong John Li is an exceptional graduate of the Chemical Engineering program at UBC, having completed the co-op program and top standing in the department for his entire tenure as an undergraduate student. From research conducted during his co-op terms and his senior undergraduate thesis work, John co-published six peer-reviewed conference and journal papers in the globally important areas of clean energy, carbon capture technologies, hydrogen production and chemical looping. He also served as a teaching assistant and mentor to many of his fellow undergraduate students. The Department of Chemical and Biological Engineering and the Faculty of Applied Science extend their best wishes to John as he pursues a doctoral degree at École Polytechnique Federale de Lausanne in Switzerland.

Governor General's Silver Medal in Science (Bachelor Level): **Chenliang Zhou**

Chenliang has impressed his professors with his stellar academic achievements while completing his B.Sc. degree with both an Honours Computer Science and an Honours Mathematics program. With six perfect grades of 100% and an average of 98.1% in his top 60 credits, his professors comment that he is an extraordinarily rigorous thinker who is able to master new concepts quickly and completely, and despite his driven nature and considerable talents, Chenliang is an exceptionally pleasant and modest person. Chenliang is also a creative researcher, conducting original research in the areas of formal verification and natural language processing algorithms used to analyze patient pharmaceutical sentiments and preferences. His thesis supervisor summarizes his potential well: "I have no doubt we will see him at the cutting edge of an area of Computer Science in the coming years." The UBC Science community wishes this outstanding young scientist well as he leaves UBC for graduate work in the United Kingdom or the United States.

SCHOLARSHIPS, MEDALS & PRIZES

LIEUTENANT GOVERNOR'S MEDAL

Awarded to the most academically outstanding student who contributes to the community in areas of inclusion, democracy and/or reconciliation.

Lieutenant Governor's Medal for Inclusion, Democracy and Reconciliation: **HyunGu Kang**

HyunGu Kang is this year's winner of the Lieutenant Governor Medal for Inclusion, Democracy and Reconciliation, in recognition of her work in human rights advocacy and leading initiatives on campus to learn more about Indigenous communities, histories, and contemporary relationships. She is graduating from the Faculty of Forestry from the Natural Resources Conservation program. Born in Korea, HyunGu immigrated to Canada when she was two and her parents committed to instill the Korean culture, history, and language in the home.

In 2019, she co-organized Transforming Approaches, a globally attended conference about Traditional Ecological Knowledge in forest research. She led a plenary workshop about colonial histories at UBC, encouraging participants to foster a place-based understanding of the material consequences of colonization in forestry and the role of forestry in enabling colonization. During this time, she also worked on the Indigenous Forestry Information Repository, which is a resource to support teaching staff in incorporating Indigeneity in their curricula, developed from feedback provided by Indigenous students at the Faculty of Forestry.

HyunGu is perhaps best known for her 10,000 Cranes Initiative. Cranes are special in Korea and are symbols of peace and loyalty and they, along with millions of Koreans, suffered during colonization in the early 1900s. Korea ended up being torn in half, and the cranes were driven away. She felt it was important to show solidarity with Indigenous nations and to bring newcomer voices into reconciliation.

She has been involved in human rights advocacy since high school, volunteering for Amnesty International, representing Canada at the International Council Meeting, and joined the first National Youth Action and Advisory Committee as a youth delegate. She continued her work advocating for civic engagement and human rights as part of the Amnesty Vancouver team, organizing national days of action, speaking at local events, coordinating transnational tours of Indigenous land defenders, and creating digital campaign materials for local groups.

O CANADA

O Canada

Our home and native land!
True patriot love in all of us command.
With glowing hearts we see thee rise,
The True North strong and free!

God keep our land glorious and free!
O Canada, we stand on guard for thee.
O Canada, we stand on guard for thee.

HAIL UBC

Hail! to the Thunderbirds,
Hail! UBC,
Thunder and Lightning,
Onward to victory!
Hail! to the blue and gold,
Hail! UBC,
UBC forever!
Onward to victory!

— *Words and Music by Prof. Stephen Chatman (2009)*

That UBC has a pep song—let alone a newly composed one—may prompt some surprise, as university pep songs are rare in Canada. Originally written in 1931 by Arts student, trumpet player, and band leader Harold King, Hail UBC was widely performed at athletic events for decades. In 2007, Professor Stephen Chatman was charged with composing an updated version suitable not only as a pep song, but also a celebratory anthem for ceremonies and other campus events. It is played at the end of every graduation ceremony as the procession exits. Though the new Hail UBC retains only the title of the original 1931 version, it is a throwback to the pomp and bluster of the early 1900s, when such pep songs were in their heyday, and promises to give UBC students something to cheer along with for another hundred years!

STEPS Forward supports young adults with intellectual disabilities in auditing courses and participating in campus activities at colleges and universities in British Columbia.
