

Tangerine Dream Lantana

Lantana camara Tangerine Dream'

- **Use:** Tropical appearing shrub, but hardy! Plant characteristics are similar to other Lantanas. Fine for mass plantings and banks, or containers for poolside...attracts butterflies.
- **Exposure/Soil:** Full sun– part sun. Drought tolerant once established. Needs at least 6 hours afternoon sun.
- **Growth:** Lantana 'Tangerine' is a cultivar of Lantana camara that can reach 2-3' in height and 6-8' in width.
- **Hardiness:** 7b-11, Tender perennial. **Do not cut back stems until April of following spring.** Water in the hollow stems will freeze out the roots in winter. Mulch heavily around the plant
- **Foliage:** Scented leaves. Deciduous. Cutting grown.
- **Flower:** The blooms of Tangerine Lantana are burnt orange on the outer ring of the cluster and light orange in the center of the flower cluster and appear in masses from spring to fall. The flowers are great for attracting butterflies.

**Heat and sun tolerant;
flowers all season; low
maintenance.**
