

P-9960 CAN Network Card

P-9960 network card provides CAN network connection to GST200 series panels. All panels are connected in same line. With CAN Hub, the network can be connected in star topology.

Technical Specification

- Compatible Panel: GST200 series panels
- Communication Protocol: CAN
- Node capacity: 112
- Baud Rate: 10,000
- Cable Requirement: Minimum 1.0 mm² Fire Cable
- Communication Distance: 3000 meters

Typical Connection
