OPTICAL WIRELESS MOUSE
MODECOM MC-WM10S

MODECOM MC-WM10S

Modern optical mouse MODECOM MC-WM10S is our recent technological solution based on many years of experience in providing computer accessories. This mouse is equipped with ultra silent microswitches. It increases work comfort. Thanks to the technology, you can use the mouse quietly in public places such as reading room, library or your home. At the same time, you can be sure that MC-WM10S won't disturb the silence around you. We put the lifespan and ergonomics first when we were designing this universal and useful mouse. We also know that the mouse should look nice as well. Its classic look is available in four colours (black, white, red, blue) will please those users who appreciate classic with modern touch.

The surface is made of material with a nice feel with its major advantage being that there are no fingerprints on it. MODECOM MC-WM10S combines the best virtues of classic, durable and ergonomic frame with modern design, high quality and highly durable microswitches. The mouse is wireless and was equipped with efficient battery providing many hours of work without the need for recharging.

MODECOM MC-WM10S
