

Alphacool Core DDR5-RAM module (for Alphacool D-RAM cooler) Black 2 pieces

Alphacool article number: 17631

Quick Info

The Alphacool DDR5-RAM modules are able to reliably cool the RAM modules of the 5th DDR specification. Due to the unchanged compatibility with the Alphacool D-RAM water coolers, the modules can be easily installed in the cooling loop.

- Reliable cooling
- For DDR5 RAM
- Included thermal pads

Compatibility

17271 Alphacool D-RAM Cooler X4 Universal - Acetal Black Nickel

17272 Alphacool D-RAM Cooler X4 Universal - Acryl Black Nickel

17467 Alphacool Aurora Acryl X4 D-RAM water block

Scope of delivery

2x Core DDR5-RAM module
1x 25x124x1,0mm PAD
2x 25x124x0,5mm PAD
1x Hexagon

Technical details

Dimensions (L x W x H)	125 x 7,90 x 34mm
Top cover material	Aluminium
Cooling plate material	Aluminium
color	black

Manual	17631_Alphacool_Core_DDR5-RAM_module_(for_Alphacool_D-RAM_cooler)_Black_2_pieces_Manual.pdf
Product pictures	17631_Alphacool_Core_DDR5-RAM_module_(for_Alphacool_D-RAM_cooler)_Black_2_pieces_pics.zip

Packaging dimensions per unit

L x W x H	170 x 50 x 30 mm
Weight	175 g

Other data

Certificates	CE, FC, RoHS
EAN	4250197176316
Customs code	841950809000

Article text

The Alphacool DDR5-RAM modules are able to reliably cool the RAM modules of the 5th DDR specification. Due to the unchanged compatibility with the Alphacool D-RAM water coolers, the modules can be easily installed in the cooling loop.

For mounting, the RAM is firmly clamped into the modules with the help of the enclosed thermal pads to achieve an optimal cooling result. The Ram cooler is compatible with modules that are populated on one side and on both sides.

The Alphacool Core DDR5-Ram cooler provides the basis for mounting the Alphacool D-Ram water coolers. These are screwed onto the Core DDR5-Ram module and can thus be actively cooled with water.
