

compact keyboard
S-board 840 Design USB

Handy: Comes with multimedia keys and 2 USB ports (USB hub)

Optimal layout: extra wide space-bar and user-friendly positioned arrow keys

Can be extended with a complementary numeric keyboard (number pad)

Ergonomic: pleasurable typing feeling (scissor mechanism instead of membranes)

Mobile: only 2 cm thick and lightweight

Lay-outs: US, UK, DE, BE, FR, SwGe and more

Research

Compact keyboard (keyboards without separate numeric keys at the right side) decrease the reach distance to the mouse (Cook, et al, 1998), decrease the strain on the forearms and are found to be more comfortable than standard keyboards (van Lingen, et al, 2003).

Specifications

|---------------|--------------------------------|
| Dimensions: | 305 x 20 x 165 mm (W x H x D) |
| Weight: | 480 g |
| Product code: | BNES840DUS (Multiple versions) |

Health & Safety Regulations

A compact keyboard does not have a numeric pad. For this reason, the mouse can be placed closer to the keyboard. Research has shown that 90% of keyboard users seldom if ever use the numeric pad. Working with a compact keyboard results in greater comfort because it reduces the reaching distance to the mouse (Cook, C., et al., 1998). This puts less strain on the shoulder and forearm. Dark letters on a light background make them easier to read (ISO 9241), and contribute to increased productivity (Snyder, 1990).
