- Easy lid and spout filling

Safe to use

- Multi safety system

PHILIPS

Kettle
1.7 L 2400 W Digital temp control, Brushed metal, Spring lid

HD9385/20

Highlights

Easy lid and spout filling

The kettle can be filled via the spout or by opening the hinged lid.

One cup indicator

Enabling consumers to boil the amount of water they need, and therefore saving up energy and water, contributing to a better environment.

Flat heating element

The stainless steel concealed element ensures fast boiling and easy cleaning.

Multi safety system

Multi safety system against boil-dry, with auto switch off when ready or when lifted from the base.

Keep warm function

You do not need to re-boil your water continuously anymore. The keep warm function ensures that the water is kept warm at the right temperature for the selected preset.

Spout filter

The fine micro-mesh filter on the spout ensures that the water you pour into your cup is clean and no calc particles end up in your drink.

Cordless 360° pirouette base

Cordless 360° pirouette base for easy lifting and placing.

5 pre-set hot drink buttons

The pre-set temperature settings of 40, 80, 90, 95 and 100°C will ensure that the basic ingredient for your tea, instant coffee, soup or noodles is at the temperature you like.
