

MediTouch BL01 GER

Waterproof. Luminous.

MediTouch BL01 – relaxed work even in the dark.

The MediTouch BL01 medical keyboard is ideally suited for areas with less brightness and dark environments such as operating rooms or x-ray workstations. The gradual backlight can be individually adapted to the given lighting conditions and can be switched off via a separate key if required. Relaxed work even in the dark.

Completely sealed, the silicone keyboard can be dipped in liquids (IP68). The Tru-Lock mechanism also allows cleaning during operation. The silent and smooth keystorke offers the user a convenient operation and excellent pressure point.

Benefits:

- > Gradual backlight
- > Fully sealed (IP68)
- > Disinfactable
- > Excellent tacticle feedback
- > According to EN 60601-1
- Silent noiseless keystroke
