

Name of project:

Guadalupe Habitat Pinamalayan Village

Location:

**Barangay Poblacion
Pinamalayan, Oriental Mindoro**

RATIONALE AND BRIEF BACKGROUND:

Thousands of informal settler families live in houses made of light materials. These makeshift houses easily deteriorate and offer little or no protection when rain and storms affect the area.

Habitat's Pinamalayan site is intended to provide safe and secure homes that will provide sustainable protection for families living in these areas, and other families who are in need of decent and affordable housing.
